COUNCIL MINUTES. APPOINTMENT TO THE COUNCIL OF JOHANNES LA MONTAGNE; CATTLE ON THE COMPANY'S BOWERIES.

ANNO 1638, the eighth of April at Fort Amsterdam in *New Netherland*.

Thursday.

His Honor, Director *Kieft*, and the Council taking into consideration the small number of members of the Council, have deemed it necessary to select another proper, experienced person to add to the Board and observing the fitness of Dr. *Johannes Montagne*, we have engaged the said *Montagne* as Civil (*politique*) Councillor of *New Netherland* at 35 fl per month, commencing this day.

Agreeably to a certain document produced by his Honor, the late Director *Wouter van Twiller*, it is resolved and concluded, that the cattle on Bowerly No. 1† shall remain at the disposal of said *van Twiller* on condition of their not being removed from the *Manhates*. The present Director shall take an inventory of said cattle referring the main issue in question to their Noble Honors, the Directors of the West India Company, Department of *Amsterdam*.

*

*

*

*

The farmers of Boweries No. 4, 5 and 6 are allowed to remove their animals from the said Boweries, the more so as heretofore others have received permission to remove cattle from the *Manhates*, the same privilege could not be refused to these people, as they remain within the jurisdiction of the *Manhates* and cattle may be had here.

Thursday the 15th April.

On petition of *Jacob Planck*, Sheriff of the Colony of Mr. *Renselaer*, called *Renselaerwyck*, concerning the removal of some horses to the said Colony: whereas heretofore many animals have

been carried off from the Island of *Manhates* and as only upon the Bowery of the former Director *Twiller* there are some animals, while the other five Boweries are wholly destitute and bare of cattle, therefore the Hon^{ble} Director and Council, after mature deliberation, deny *Jacob Plancks* petition, allowing him only to carry away some goats.

RESOLUTION TO PURCHASE LANDS ON NORWALK RIVER.

On Thursday, being the 19th of April [1640].

In council, resolved and concluded to maintain the charter granted by their High Mightinesses to the Hon^{ble} West India Company in these parts of *New Netherland*, and to send *Cornelis van Tienhoven*, Secretary, to the *Archipelago*,* in order to purchase the adjacent lands there; to set up the arms of the Lords States General; to take the Indians under our protection, and to prevent any other nation committing any usurpation on our limits and incroaching further on our territory

INSTRUCTION TO SECRETARY VAN TIENHOVEN TO PROCEED AGAINST CERTAIN ENGLISHMEN ON LONG ISLAND AND MINUTES OF HIS PROCEEDINGS. (*See Col. Doc. II, 145 et seq.*)

May 13, 1640. We the Director and Council residing in *New Netherland*, for the High and Mighty Lords States General of the *United Netherlands*, his Highness of Orange, and the Hon^{ble} Directors of the Incorporated West India Company, having express orders and command from the said Lords to purchase in their name, from the Inhabitants of these parts, all such Lands as we think best adapted for agriculture and the support of all sorts of cattle,

Therefore, Pursuant to the order of our sovereign Lords, we have purchased from the great Chief or Sachem, named *Penhawits*, all the Lands left as an inheritance to him by his ancestors, situate on *Long Island* within the limits of *New Netherland*, with all such action and rights as he in anywise may have claim to, according to the Deed of Sale and the conveyance thereof existing; which aforesaid *Penhawits*, after some foreign nation had settled on the aforesaid lands, about *Schout's bay*, has notified us that some interlopers or vagabonds have come on the lands which we have purchased from him, and have begun there to build houses, cut down trees and to perform other work, and that said vagabonds have cut down the arms of Their High Mightinesses there.

* Now called *Norwalk Islands*.

In order to obtain good and correct report and assurance of what is aforesaid, *Jacobus van Curler*, commissary of provisions, was sent thither with the yacht *Prince William*, who, on reaching the place where the arms of the High and Mighty Lords States were set up, has found the same broken off, and, in the place where the said Arms had been nailed to the tree, a Fool's head had been carved.

All which appeared strange to us, being a case of *crimen laesae majestatis* and tending to the great disparagement of their High Mightinesses' Sovereignty. We have, therefore, after mature deliberation, resolved on the thirteenth of May, A° 1640, to send thither Secretary *Cornelis van Tienhoven* and (25) soldiers, to whom we have also given the following instruction, hereunder inserted :

Whereas we have certain information that some foreign nation has come to *Martin Gerritsen's* and *Schout's bay* on *Long Island*, being the lands of the Hon^{ble} West India Company, under the dominion of the High and Mighty Lords States General, and there tore down the Arms of the Lords States General, and begun a settlement there and to cultivate the soil : Therefore, we send you, Secretary *Cornelis van Tienhoven*, the deputy sheriff with the sergeant and twenty-three soldiers thither to ascertain the circumstances of the case, and you shall regulate yourself as follows :

You shall endeavor to arrive there unawares ; in our opinion it will be best at break of day and there surround the English and prevent any recourse being had to force of arms ; and forthwith inquire who removed the Arms, and demand of them who authorized them to do so, and oblige them to come hither to vindicate themselves. If they refuse, you shall employ force for the purpose, bind them and bring them hither, taking an inventory of their property, also writing down correctly all that occurs there, and you may happen to do, preventing likewise, the soldiers from committing any irregularity. In case the Indians have taken away the Arms, and the English are innocent thereof, and are willing voluntarily to depart in your presence, it would be advisable to permit them to do so, without any commotion, but in such case, the chiefs of the Indians must be brought along as prisoners, and under all circumstances it will be also necessary that you take the Indians with you. If it should happen that the English have been reinforced by so many new comers (which we do not anticipate) that you will not be strong enough for them, you shall make an emphatic protest against them, then sign it and come back. Above all things, take care that no blood be spilt.

Thus done in our Council the 13th of May, A° 1640.

On the 14th May, A° 1640 the Secretary and (25) soldiers marched out of *Fort Amsterdam* with the abovementioned instruction, and on the 15th at break of day, arrived at the place where the English had taken up their residence, where they found one house already built by them and another in progress.

First, they were asked : What they were doing there ; by what power, or by whose authority they presumed to settle on soil purchased by us ; they were asked to show their commission.

Eight men (one woman and little child) made answer : It was their intention to plant there, and that they were authorized to do so by a Scotchman* who had gone with their commission to the *Red Mountain* (*New Haven*).

* *James Forrester* (*Forrest*, *Farrett*) acting under the following patent given to *Earl of Sterling* by the Plymouth Company in 1635 : To all x^{pian} people unto whom this p^{nts} shall come THE COUNCELL for the affaires of Newe England send Greetinge in our Lord God everlasting WHEREAS our late Sov^aigne Lord Kinge JAMES of blessed memory by his Highnes Letters Patents under the Great Seale of England bearinge Date att Westminster the Third daye of November in the Eighteenth yeare of his Ma^{ties} Raigne over his Highnes Realme of England for the

Secondly, they were asked: Why did they throw down their High Mightinesses' Arms, and set up a fool's face in their stead?

To which some answered: The Arms were cut down by a person who was not then present. Others answered: Such was done in their presence by order of a Scotchman, and he who did it was at *Red Mountain*.

Hereupon six men were brought to the Fort, leaving two men, one woman and a child there, to take care of their goods. They arrived on the 15th of May.

RESOLUTION TO SET FREE THE ABOVE ENGLISHMEN ON CONDITION THAT THEY DEPART FROM NEW NETHERLAND.

On Saturday, being the 19th of May.

RESOLUTIONS TO SEND SOLDIERS TO BRING THE INDIANS ON L. I. TO TERMS. AUGUST 9th 1640.

Whereas, sometime since, the Arms of the High and Mighty Lords States General were set up at *Martin Gerritsen's bay* on *Long Island* and the inhabitants of the aforesaid Bay removed said Arms and in place thereof set up a Fool's head, We have, therefore, resolved to send a sloop with soldiers thither to bring said Indians under our obedience and contribution.

ORDER CONCERNING AN ALLEGED FUGITIVE SERVANT FROM MARYLAND.

Whereas *Peter Draper* has come hither commissioned by Governor *Leonard Calvert* of *Maryland* to search for some run away servants, one of whom is *Edward Griffins*, who has appeared before us here, acknowledging that he did indeed run away from *Maryland*; saying, next, that he had no master in *Maryland*; that Captain *Claber*,* his master, was in *Virginia*. This he also proves by *Henry Pennington* dwelling at *Hackemaes*, who hath taken his oath thereto, stating that said *Griffins* was no servant, but a prisoner in *Maryland*, without knowing whether he, *Griffins*, while a prisoner there, had voluntarily bound himself a servant to any person, but he, *Henry Pennington*, well knows that he was Captain *Claber's* servant in *Virginia*.

* Wm. Claiborne.

Therefore we have ordered that said *Peter Draper* shall agree with the abovenamed *Griffins* for his freedom, and said *Draper* shall be bound to give good security that said *Griffins* shall not be molested by Captain *Claber*, or anyother person, who may exhibit his articles of indenture, and shall remain undisturbed. Thomas Hal sells to *George Homs* the just half of the house, plantation and all the dependencies thereof, together with the furniture therein, except a boat, gun and dog which *Thomas Hal* reserves and shall be at liberty to take away, but nothing else.

our people plow, and haul off to their houses the grass our people mow, if our people plow, they come with cudgels and mattocks and barbarously treat them; our peas, though standing, they cut down and plant Indian corn in the stead; they take our horses, cows and hogs by force and allow some of them to die of hunger; they cut in pieces the ropes of our plow and throw the latter into the river, and block up our house with palisades so that it is with difficulty people can go out of it on the land side,

All which being considered by us, and as it tends to the injury and disparagement of our Sovereign and the Hon^{ble} West India Company, whose right and authority we are bound to maintain, therefore, we have resolved to send thither Doct^r *Johannes La Montagne*, member of the Council of *New Netherland*, with 50 soldiers and some sloops, in order to fortify our House the *Hope** there, and prevent the repetition of such hostility as the English have wickedly committed against our people, and maintain our right and territory.

PROCLAMATION OF PEACE WITH THE INDIANS OF L. I.

On the 4th March 1643.

Whereas we are suffering at present great injury from these heathens, and many of the inhabitants are not certain of their lives and property, which doubtless has befallen us on account of our manifold sins, It is therefore resolved by the Council here that a General Fast and day of Prayer shall be observed on next Wednesday, being the fourth of March, for which every one can prepare, to the end that we, with hearty sorrow and earnest prayer, may move God to mercy, and that He will not suffer His holy name to be profaned by these heathens on account of our sins.

Whereas some troubles and misunderstandings have arisen between the Indians of *Long Island* and our nation, whereby on both sides blood has been shed, houses destroyed and burned,

* See note on page 10.

cattle slaughtered and the Indians maize plundered. Therefore between us and them, who now already resort under the great chief *Pennawitz*, a peace has been concluded and all injuries are forgotten and forgiven, all our good inhabitants are, then, hereby ordered and commanded, as we do hereby order and command them, to observe said peace in every respect, and in no wise to injure any of those Indians who inhabit *Long Island*, unless they commit some hostility against our people. In such case, everyone is at liberty to defend himself. To which end the Indians are also charged not to come with arms near our people. All this on pain of arbitrary correction, to be punished as breakers of the public peace. Thus done and published in *Fort Amsterdam* the 25th March A° 1643, new style.

LEASE OF LA MONTAGNE'S BOWERY VREDENDAEL (HARLEM) AND INVENTORY OF THE EFFECTS THERE.

This day, date underwritten, before me *Cornelis van Tienhoven*, secretary of *New Netherland*, appeared Mr. *La Montagne*, Councillor of *New Netherland* of the one part, and *Bout Franssen* from *Naerden*, of the other part, who acknowledge to have amicably agreed and contracted together about the hire of the bowery called *Vredendael*, situate on the Island of *Manhattan*, on the conditions and terms underwritten.

Mr. *La Montagne* leases the abovenamed bowery to *Bout Franssen* aforesaid, who also acknowledges to have rented the said bowery for the term of three consecutive years commencing from the date hereof and ending the 14th of June A° 1646, with which bowery Mr. *La Montagne* delivers all that is specified hereinafter according to the inventory. In regard to the cattle

mentioned in the inventory, the Lessee shall restore them to the Lessor, on the expiration of the lease in such number and condition as now received, and then the increase which shall be produced by God's blessing from said cattle, is to be divided half and half, it being well understood that the Lessor shall first withdraw his number. The Lessee shall, during the aforesaid lease keep in proper repair the house, *bergh** and barn together with everything that is delivered with the bowery, and surrender it again to the proprietor, at the end of the term, in the same condition as now received. The Lessee shall also be bound, during the lease, to cultivate the land diligently, and at the expiration of the term, to deliver it back properly fenced, when thirteen morgens of it must be sowed, as he now receives it, to wit, with rye, barley and peas. *Bout Fransen* shall likewise be bound to pay strict attention to the orchard, so that the trees belonging to the proprietor, may not be destroyed by cattle or otherwise. Parties shall, during the lease, share in common the risk of the death of the cattle, and if any die, the loss must be made good from the increase, so that the capital stock may remain complete.

The Lessee shall annually pay for said bowery and cattle as rent fifty skepels of rye, sixteen skepels of barley, and ten skepels of peas; for each cow shall be paid the first year, twenty pounds of good butter; the second and third year twenty-five pounds of butter for each animal as rent.

For the performance and assurance of all the aforesaid *Wessel Eversen* constitutes himself as bail and principal, and specially for the sum of three hundred and fifty Carolus guilders advanced by Mr. *La Montagne* to the Lessee which must be paid within one year from date, the same being for the wages of a servant man, board and security for the first year's rent; the servant's wages amount to one hundred guilders; to which end the above named *Bout Fransen* and *Wessel Eversen*, each as principal submit to all courts, tribunals and judges, placing under the control thereof their persons and properties, movable and immovable, present and future, without any exception.

Thus done and contracted on the bowery *Vredendael*, and it is, therefore, signed by parties, the bail and the witnesses hereunto invited and by me the secretary in the record, the fourteenth day of June A° 1643, on the Island of *Manhattan* in *New Netherland*.

COURT PROCEEDINGS AGAINST A. VAN DER DONCK SHERIFF OF RENSELAERWYCK FOR ENCROACHMENT ON THE PRIVILEGES OF THE COMPANY.

On the 21 May 1643.

Cornelis van der Hoykens, fiscal general *New Netherland*, Pltf ags't *Adriaen van der Donck*, sheriff of *Renselaerswyck*, Deft. In the case of an attack on the privileges of this country.

Having seen the summons served on said *Verdonck* on the requisition of the Fiscal of *New Netherland* to appear personally before us in six weeks after the receipt of said summons, and the defendant having been called three times, and not appearing, therefore we have allowed a default

against him and ordered that said *Verdonck* shall be again summoned to appear personally before us within four weeks from this date, to defend his case.

Whereas *Adriaen van der Donck*, sheriff of *Rensselaerwyck* has on the 9th November 1642 seized some goods on the bark of the Patroon of said Colony from *Fort Amsterdam* belonging to *Jan Luurensen*, the duty on which was paid in *Holland*, which goods the said *Jan Laurensen* had put on board of said bark to be discharged at *Fort Orange* and delivered to his partner residing there, as appears by affidavit of March 5 1643, for which cause *Verdonck* had been summoned by the Fiscal General of *New Netherland* to appear personally before the Director and Council of *New Netherland*, to answer for the attack and excess committed on the justice and privileges of *New Netherland*, on which summons default for failure of appearance was granted; he is summoned formally in addition the second and third time. Therefore we the Directors and Council having heard the complaint and requisition of the Fiscal, taking into consideration the consequence of the case, have declared the abovenamed *Verdonck* in contumacy and rebel against justice and therefore have condemned him to restore the goods seized by him, or the value thereof according to the invoice of the complainant, with damage thereon estimated at fifty guilders, I mean 60 guilders, and in addition to pay a fine of one hundred guilders and the cost of suit, hereby commanding him not, and forbidding even more, to do such an act on pain of losing his office and being arbitrarily punished.

Thus done in Council in *Fort Amsterdam* in *New Netherland* the 8th of October A^s 1643.

DECLARATIONS CONCERNING DEPREDACTIONS ON LONG ISLAND.

Before me, *Cornelis van Tienhoven*, secretary of *New Netherland*, appeared the underwritten witnesses, who, at the request of *Anthony Jansen* from *Salce*, attest, testify and declare in place and with promise of a solemn oath, that it is true and truthful that about noon yesterday the crew of the *Seven Stars* and the privateers went together on the land of *Anthony Jansen* from *Salce* situate in the *Bay*, who, as an Englishman, sailing in one of the said ships, said, took from there fully 200 pumpkins. The witnesses asked, What were they doing there? They answered, We are in search of the hogs on *Coney Island*; if we find the hogs, we shall take them all away with us. Thereupon the deponents replied, Those who are running there are *Lady Moody's* hogs. We shall not then go there, said the *Seven Stars'* crew.

PROTEST BY DIRECTOR & COUNCIL AGAINST THE FISCAL FOR NEGLECT OF DUTY.

We, *William Kieft*, Director General and the Council of *New Netherland*, to you *Cornelis van der Hoojken*, fiscal and schout of *New Netherland*.

Many complaints are daily heard of thefts, robberies, killing of hogs and goats and other excesses, and they are increasing every day more and more; yea, will from all appearance, shortly culminate in public plundering and highway robbery, and it is moreover to be feared that people will murder one another, and all this because no delinquents are arrested, prosecuted, or punished. Here also, from time to time, divers Ordinances are published to prevent such scandals as much as possible, but inasmuch as no effort is made to put the laws in execution, so all disorders have full swing. Judgment has, likewise, been pronounced and orders issued to receive the Company's duties; these also have remained unexecuted. Moreover, divers people have died and been killed by the Indians, of whose property no due inventory has been made, nor their estate regulated. And whereas all these matters appertain to your office, and the fault lies exclusively at your door, and the commonalty, meanwhile, generally complain that they are put off by words and, further, that no result follows, and that you throw the blame on the Director, on the ground that you have no people to assist you.

Therefore you are, hereby commanded to obey in all particulars your instructions, as you are in duty bound to do, so that justice may not wholly fall into decay. And in order that you may have no excuse that you have not sufficient force to assist you, we assure you, as we have formerly repeatedly done, that the Director and Council and all the soldiers are ready to support you; moreover, you will have, furthermore, your deputy Sheriff and the Provost with all the negroes at your command; and if you remain in default, We protest against all damages, mischiefs, losses and injuries which may happen in consequence, because we are innocent thereof, and shall thereon resolve accordingly as we deem proper.

[We, also, have assurance that you have atrociously defamed the Director at carousals or at the guard house, saying that he is a rascal, a thief; that he is drinking every day with Mr. *La Montagne* and then shuts his room tight; that he steals the Company's beavers and sends them over; that he buys a great deal and does not enter all on his account; that he has ruined the country, and that the Director would now wish you to save it; that you well know who buy the hides, &c. with many other calumnies which you, by your oath, should punish. Therefore we require that you prove all this, or that you suffer the punishment thereto assigned.]

NOTE. —The paragraph within [] is cancelled in the Dutch Record.

The Fiscal gave for answer that he has from time to time, done his best, and has performed his duty to the best of his ability, 5th of January, 1644.

The Director and Council reply that the general complaint shows the reverse, and protest as aforesaid.

Thus done in the presence—

DECLARATIONS CONCERNING THE DESTRUCTION OF JOCHEM PETERSEN KUYTER'S HOUSE BY INDIANS.

This day, the 9th of March A^s 1644, before me, *Cornelis van Tienhoven*, Secretary of *New Netherland*, appeared the underwritten persons, who, each for himself, at the request of *Jochim Pietersen Kuyter*, attest, testify and declare, in place and with promise of a solemn oath if need be and thereunto required, that their declaration is true.

Cornelis Cornelissen from *Utrecht*, aged 22 years, declares that he stood sentry on the night of the 5th of March in front of the house of the said *Jochim Pietersen*,* being about two hours before day, near the corn rick, about fifty paces from the barn, when he, the deponent, saw a burning arrow, the flame whereof was as blue as the flame from sulphur, coming about twenty paces from the house, between the dunghill and the cherry door, which arrow fell on the thatch of the house and in consequence of the violent wind the house was immediately wrapped in flames. He immediately heard the report of a gun in the same quarter that the arrow came from. The house was burned to the ground. Also, that the English soldiers during the burning would not come out of the cellar, where they were sleeping, and remained therein till the house was destroyed. Wherefore they obtained no help from the English.

Jan Hageman, aged twenty-two years, declares that during the fire the English soldiers did not come out of the cellar to afford any assistance, before and until *Jochim Pietersen's* house was burned down to the ground.

Peter Jansen, aged twenty-four years, declares that during the time *Jochim Pietersen's* house was burning, the English soldiers did not come out of the cellar where they were sleeping, until the house was entirely burned to the ground.

Jacob Lambersen, from *Hilversom*, aged about twenty years, declares at the request aforesaid, that on the 5th of March last, about two hours before day, he going the rounds about Mr. *Jochim Pietersen's* house, on turning around saw a burning arrow, the flame whereof was blue as the flame of sulphur, coming between the dunghill and the cherry door, which burning arrow fell on the ridge of *Jochim Pietersen's* house that was burned to the ground in consequence of the violent wind and the raging flame. Whilst the house was on fire, he, the deponent, heard the report of a gun which they suspected was fired by the Indians whom they heard in the morning yet yelling and shooting. During the aforesaid fire, the English soldiers remained in the cellar without offering any assistance.

Dirck Gerritsen, aged twenty years, declares that the English soldiers did not come out of the

* *Jochim Pietersen Kuyter's* farm of about 400 acres at *Schorrakin*, or as he called it *Zogendael* (Vale of Blessing) may be located along the Harlem River from about 125th to 143rd Streets, reaching back land inward to 5th and 8th Avenues

cellar so long as the abovementioned house was on fire, and he, the deponent, narrowly escaped with his life through the raging fire.

All which they, the deponents, each in particular for himself, offer to confirm on oath, declaring that they do this to bear testimony to the truth, to no man's prejudice or wrong.

Done on the day and in the year abovewritten in *Fort Amsterdam* in *New Netherland*.

Before me, *Cornelis van Tienhoven*, Secretary in *New Netherland*, appeared *Philip Dormiere*, aged about thirty-four years, *John Detton*, aged twenty-six years, *Thomas Coninc* and *Harry Williams*, all soldiers, who, at the request of the Hon^{ble} Mr. *William Kieft*, Director General of *New Netherland*, attest, testify and declare in place and with promise of an oath if necessary, that before the expedition to *Stanford* took place, *Jochem Pietersen*, at whose place we were in garrison, sent us to the *Manhattans* saying that he had no further need of us, wherefore we went to the fort and reported the matter to the Director. All which the deponents declare to be true.

Jan Eversen Bout, aged about forty-four years, and *Claes Jansen* baker, aged about thirty-six years testify at the request of Mr. *William Kieft*, Director General of *New Netherland*, in the presence of the Fiscal, that on the 7th of March last we heard an Indian named *Ponkes*, say in the Indian language, which we perfectly understood, of his own free will, that the Indians, our enemies, did not burn *Jochem Pietersen's* house, and that he never heard any Indians say so, who, when they had done any mischief, he said, boasted of it, but that nothing else was better known among the Indians than that the Dutch themselves had burnt the aforesaid house, and removed through fear of being killed there. All which the deponents * * * *

Before me, *Cornelis van Tienhoven*, Secretary of *New Netherland*, appeared *Ponkes*, an Indian of *Mareckawirek*, who was with the Indians, our enemies, during the war, and who voluntarily on the 7th March declared in his own tongue, in the presence of *Jan Eversen Bout*, *Frederic Lubbersen* and *Cors Pietersen* inhabitants here, before the Fiscal, which statement and declaration of the aforesaid Indian the abovenamed persons declare fully to understand. Therefore they, the deponents, declare, that on the 7th of March last, they heard the Indian's statement who said, that the Indians, our enemies, did not set *Jochem Pietersen's* house on fire, the rather as they inquired among themselves who might have done it, and as the Indians when they commit any villainous deed, boast thereof, thinking they have done a good and great deed, they cannot understand that Indians should have burned the house. All which the deponents declare to have heard from the Indians in the Indian language, offering to confirm the same.

Done in *Fort Amsterdam* in *New Netherland*, the 9th of March 1645.

The deponents refused to sign in the presence of the Council and undersigned witnesses in whose presence they acknowledged to have heard the aforesaid from the Indian. Done as above.

PROTEST OF THE FISCAL OF N. N. AGAINST BUILDING A FORT ON BEREN ISLAND AND COUNTER-PROTEST OF THE QUARTERMASTER OF RENSELAERSTEYN.

I, *Cornelis van der Hoykens*, fiscal of *New Netherland*, To you, *Nicolaes Coorn*, quartermaster for Mr. *van Renselaer* in his Colony:

Whereas I am certainly informed that you design, and have received orders from the Hon^{ble} Patroon to establish yourself with your men on *Beren Island*, three (Dutch) miles below *Fort Orange*, and to erect a Fort there, for which purpose you have also brought cannon to plant them thereon, and as this expressly conflicts with the Freedoms granted to the Patroons, inasmuch as a Colony cannot extend more than four miles along one bank, or two miles on each side of a river, as appears by Article 5; and whereas *Beren Island* is fully two miles and more beyond the limits of the Colony, and to erect a fortress there which can command the river and shut off *Fort Orange* tends to the ruin of the Company and the diminution of their rights, therefore I request to know what power and order you have for this from the Lords Directors, and in default thereof, I most expressly forbid you to erect or construct any fortifications outside the limits of the Colony of *Renselaerswyck*, and if, notwithstanding, you proceed, I protest against all damages, injuries and losses which may arise herefrom, the same to be recovered from you or whom it may concern.

I, *Nicolaes Coorn*, quartermaster of *Renselaerssteyn* for the Hon^{ble} *Kiliaen van Renselaer* hereditary commander of the Colony on this North River of *New Netherland* under the supreme jurisdiction of the High & Mighty Lords States General of the *United Netherland* and the Incorporated West India Company, and as his vice commander in his place, notify you, *Cornelis van der Hoykens*, fiscal of *New Netherland*, that you shall not attempt to hinder me, to frustrate the projected design on *Beeren Island*, or to offer any molestation, as the High & Mighty Lords States General and the Incorporated West India Company have granted him, the Patroon, the perpetual and hereditary right to enlarge, fortify and strengthen his said Colony, over which, should anything wrong occur, you, *Cornelis van der Hoykens*, fiscal, shall have to look out, and in case of damage, I, *Nicolaes Coorn* aforesaid, do protest that the acts done to me are to be debated and settled by the Lords Directors and the Hon^{ble} Patroon, inasmuch as the undertaking is intended to prevent the canker of freemen from entering his Colony.

PAPERS RELATING TO THE QUARREL BETWEEN THE GOVERNMENT AND THE PATROON OF RENSELAERSWYCK.

I, *Peter Wynkoop*, supercargo on the ship called *The Arms of Renselaerwyck* over the goods laden therein and on behalf of the Hon^{ble} Patroon *Kiliaen van Renselaer*, do protest against Mr. *Cornelis van der Hoykens* fiscal, for the injury and violence perpetrated on me, in discharging the ship, as if the Patroon aforesaid must be affronted, which tends exceedingly to the shame, reproach and damage of the Hon^{ble} Patroon who is the oldest Patriot of the country. I assert that people ought to unload and confiscate such ships as come here without commission and drive their trade; and as this brings *New Netherland* and its officers into disrepute, but not so a Patroon who so greatly advanced his Colonie and *New Netherland*, as I maintain, then do I, *Peter Wynkoop*, once more protest against you *van der Hoykens*, fiscal, and demand from the Hon^{ble} Director and Council in *New Netherland* satisfaction for the loss and for the force committed in unloading the ship *The Arms of Renselaerswyck*.

I, *Peter Jansen* from ant, aged about 22 years, testify at the request of Mr. *Moor* that he being in the year 1643 in the river named *Roppehanick*, in *Virginia*, heard one Mr. *Middleller*, say, that the bark now belonging to *Peter Louwerensen* and Mr. *Thockmorten*, then navigated by said *Middleller* was the property of Sir *Edmund Pleyden*, knight, to wit, the half of the bark and two hogsheads of flour freighted in said bark for account of the said Knight; the affiant offering to confirm the same on oath.

Passing by *Beeren Island*, where *Nicolaes Coorn* is keeping his residence in the name of the Patroon *Renselaer*, the abovenamed *Nicolaes Coorn* cried out to *Govert Loockmans*, sailing past, Strike! Who answered, for whom shall I strike? *Coorn* thereto replied: For the stapleright of *Renselaerswyck*. To which the abovenamed *Govert Loockmans* answered: I strike for no man save the Prince of Orange and the Lords to whom I am subject. Whereupon *Nicolaes Coorn* immediately fired a cannon. The first shot went through the mainsail, and cut one of the shrouds, a halyard and a gasket; the second shot with ball, missed; the third shot, fired by an Indian from a gun loaded with ball, passed through the *Prince's* flag about a foot above the head of the abovenamed *Loockmans* who was holding the flag in his hand. Notwithstanding all this, *Loockmans* sailed down and pursued his voyage without firing back or making use of other force. RESOLUTIONS TO EMPLOY A LONG ISLAND SACHEM AGAINST HOSTILE INDIANS.

This day, being the 24th of May 1645, came here a chief named *Witancywen*, sachem of *Mochgonnekone*, situate on *Long Island*, with forty-seven armed Indians, who offered their services to the government, whereupon the Director convened these underwritten persons: Fiscal *van der Hoykens*, Mons^r *la Montagne*, Captain *Onderhil*, Ensign *de Leuw*, Commissaries *Oloff Stevensen* and *Gysbert Opdyck*, and of the Selectmen *Jan Eversen* and *Jacob Stoffelsen*, when said sachem submitted his proposal, and it is resolved that he shall embark in one of the Company's sloops, and sail to the place where he is to land his spies to discover the enemy; they are to report the enemy's whereabouts, and he shall then endeavor to beat them with all his force, and after the work is performed, he is to return here and he shall be rewarded as he deserves. The Director is to provide them with the necessary rations in the sloop, etc.

Before us the Director and Council of *New Netherland* appeared *Wittaneymen*, sachem of *Mochgonnekoneck*, declaring to be empowered by his brethren, named as follows, to wit: *Rochokouw*, the greatest sachem of *Cotsjowamineck*, *Manawichtouw*, sachem of *Cotsjeyick*, *Weyrintegnick*, sachem of *Mirrachtauhaucky*, and said, as well in his own name as in that of his brethren aforesaid, that they had taken under their protection the villages named, *Ouheywickkingh*, *Sichteyhaucky*, *Sicketauyhaucky*, *Nisinkqueghaucky*, at which place the *Matinneconck* now reside, and *Reckonhaucky*, and requested to walk in a firm bond of friendship with us and promised that the Christians should experience at the hands of his people, or of those abovenamed villages, nothing but every kindness, and as a proof of their good disposition, they offered to go against our enemies, which he has done, and brought a head and hands of the enemy, and has agreed with us to aid our people from henceforth against the Indians our enemies, which we have accepted. In ratification of this treaty, we have given a present to the abovenamed chiefs, with promise not to molest them so long as he and the abovenamed villages remain in their duty, but to show them all possible friendship. In testimony of the truth the original is signed by us, confirmed by our seal and handed to the chief, the said seal being pendant thereto, the 24th of May, 1645, in *Fort Amsterdam*, in *New Netherland*.

SUMMONS TO THE REV. E. BOGARDUS TO APPEAR BEFORE THE COUNCIL AND ANSWER CHARGES AGAINST HIM, AND FURTHER PROCEEDINGS.

In the name of the Lord, Amen. Anno 1646 in *New Netherland*.

The Hon^{ble} Director and Council to the Reverend *Eberardus Bogardus*, minister here.

Although we were informed of your proceedings in the time of the Hon^{ble} *Wouter van Twiller*, the former Director, and were also warned to be on our guard, yet were we unwilling to pay any attention thereto, believing that no man who preached the Word of the Lord would so far forget himself, notwithstanding we have letters in your own hand, among others, one dated 17th June 1634, wherein you do not appear to be moved by the spirit of the Lord, but on the contrary by a feeling unbecoming heathens, let alone Christians, much less a preacher of the Gospel. You there berate your magistrate, placed over you by God, as a child of the Devil, an incarnate villain, whose buck goats are better than he, and promise him that you would so pitch into him from the pulpit on the following Sunday, that both you and his bulwarks would tremble. And many other such like insults, which we refrain from mentioning, out of the respect we entertain for that gentleman.

You have indulged no less in scattering abuse during our administration. Scarcely a person in the entire land have you spared; not even your own wife, or her sister, particularly when you were in good company and jolly. Still mixing up your human passion with the chain of truth, which has continued from time to time you associated with the greatest criminals in the country, taking their part and defending them. You refused to obey the order to administer the Sacrament of the Lord and did not dare to partake of it yourself. And in order that you may not plead ignorance, a few out of many instances shall be cited for you, as follows:

On the 25th of September 1639, having celebrated the Lord's supper, observing afterwards in the evening a bright fire in the Director's house, whilst you were at *Jacob van Curler's*, being thoroughly drunk, you grossly abused the Director and *Jochim Pietersen*, with whom you were angry, because the Director had asked something of you for said *Jochim Pietersen* which you refused. (See affidavit in our possession.)

Since that time many acts have been committed by you, which no clergyman would think of doing. In the hope that you would at least demean yourself in your office in a christianlike manner, we have overlooked those things until March 1643, when one *Maryn Adriaensen* came into the Director's room with predetermined purpose to murder him. He was prevented and put in irons. Taking up the criminal's cause, you drew up his writings and defended him. He, notwithstanding, was sent to *Holland* in chains against your will. Whereupon you fulminated terribly for about fourteen days and desecrated even the pulpit by your passion. In what manner you conducted yourself every evening during this time is known to your immediate neighbors. Finally, you made up friends with the Director, and things became quiet.

In the year 1644, one *Laurens Cornelissen* being here—a man who committed perjury; once openly took a false oath and was guilty of theft—he immediately found a patron in you, because he bespattered the Director with lies and you were daily making good cheer with him. In the summer of the same year, when minister *Doutley* administered the Lord's Supper in the morning, you came drunk into the pulpit in the afternoon; also on the Friday before Christmas of the same year, when you preached the sermon calling to repentance.

In the beginning of the year 1645, being at supper at the Fiscal's where you arrived drunk, you commenced as is your custom, to scold your deacons and the Secretary, abusing among the rest deacon *Oloff Stevensen* as a thief, although he did not utter an ill word against you; whereupon the Director, being present, suggested to you in a kind manner, that it was not the place to use such language. As you did not desist, the Director finally said, that when you were drunk, you did nothing but abuse, and that you had been drunk on Friday when you went into the pulpit; that it did not become a minister to lead such a life, and to give scandal to the worthy congregation.

Some days after, the Director not being able to attend church in consequence of indisposition, to wit on the 22^d January 1645, you abused him violently from the pulpit, saying "What else are the greatest in the land but vessels of wrath and fountains of evil, etc. Men aim at nothing but to rob one another of his property, to dismiss, banish and transport." For this reason the Director absented himself from church, in order to avoid greater scandal; as he will maintain that he never coveted any man's property, or took it away, or acted unjustly, or banished any one who had not deserved three times severer punishment. Whomever he dismissed was discharged because such was his prerogative, and he will vindicate his act in the proper quarter. It is none of your business.

On the 21st March 1645, being at a wedding feast at *Adam Brouwer's* and pretty drunk, you commenced scolding the Fiscal and Secretary then present, censuring also the Director not a little, giving as your reason that he had called your wife a whore, though he said there that it was not true and that he never entertained such a thought, and it never could be proved. Wherefore on the 23rd March, we being moved by motives of mercy, and on account of the respect attached to your office instead of prosecuting you, sent you a Christian admonition under seal, which you twice refused to receive. (See Report of the Messenger.)

You administered the Lord's supper at Easter and Whitsuntide without partaking of it yourself, setting yourself as a partisan; assuming that the Director had sent the *Yoncker** and one *Iottho*, meaning *Lysbet* the midwife, to you in order to seek a reconciliation, but that you would think twice before making peace with him; using similiar language also to the *Yoncker* and *Anthony de Hooger*, as shall appear by credible witnesses. At the making of the peace, many words and means were used to break it off. Good effect was expected from the order which was sent to you to offer up prayers to the Lord, but instead of a prayer, people heard an invective, the tendency whereof was of dangerous consequences. Peace being concluded with the Indians, an extract from the order of the Lords States was sent to your Reverence, to return thanks to God on the 6th of September therefor. Your Reverence preached well and gave a good sermon, but throughout not a word was uttered about the peace, and though the day was appointed specially for that purpose, you offered no thanks to God for it, as the other clergymen who dwell within our limits have done with great zeal. By this, people can estimate your disposition toward the Company, by whom you are paid, and the welfare of the country; which disposition is also manifested by favoring those who

* *Adrian van der Donck.*

have grossly defrauded and injured the Company; the conventicles and gatherings held and still daily continued in reference thereto.

On the 22^d of December, you said publicly, in the course of the sermon on repentance, that you have frequently administered the Lord's supper, without partaking of it yourself, and wished that those who are the cause of the trouble were dismissed, and when families are visited, they cannot give a reason, why they absent themselves. Your bad tongue is, in our opinion, the sole cause, and your stiffneckedness, and those who encourage you in your evil course, the cause of its continuance. We know no one but only you who has refused to make peace. When you make a visitation you do not enquire the reason, or are unwilling to ask it. We hold that men are bound to give a reason for such absence if it be demanded.

On the 24th of the same month, you remarked in your sermon, that in Africa, in consequence of the excessive heat, different wild animals copulate together, whereby many monsters are generated. But in this temperate climate, you knew not, you said, whence these monsters of men proceeded. They are the mighty but they ought to be made unmighty, who have many fathers and place their trust in the arm of the flesh, and not in the Lord.

Children can tell to whom you here allude. These and many similar sermons which you have often preached, have obliged us to remain away from church.

Seeing that all this tends to the general ruin of the land, both in ecclesiastical and civil matters, to the disparagement of authority which your Reverence is bound by duty and also by your oath to support; to the stirring up of mutiny among the people, already split into factions; to schism and contention in the church, created by novel and unheard of customs, and to rendering us contemptible in the eyes of our neighbors, which things cannot be tolerated, when justice is accustomed to be maintained, therefore our bounden duty obliges us to provide therein, and by virtue of our commission from their High Mightinesses, his Highness, and the Lords Directors of the Incorporated West India Company, to proceed against you formally; and in order that the same may be done more regularly, we have commanded that a copy of this our Aete be delivered to you, to be answered in fourteen days, protesting that your Reverence shall be treated in as Christian and civil a manner as our conscience and the welfare of Church and State will permit. The 2^d of January 1646.

1646, 4th of January.

We have seen the writing dated third January last sent us by *Everardus Bogardus* through the messenger, and found it futile and absurd and not an answer to the extract dated 2^d of Jan^y 1646, sent to said *Bogardus*. It is therefore ordered that said *Bogardus* shall give a pertinent answer to the contents of said extract, either affirmatively or negatively within the time therein mentioned, on pain of being prosecuted in court as a rebel and contumacious.

Thus done in Council at *Fort Amsterdam* in *New Netherland* on the above date.

On the 15th of January.

We have seen a certain writing of *Dom^o Bogardus* sent us by the messenger, full of vain subterfuge, calumny, insult and profanation of God's holy word, to the disparagement of justice and his lawful superior, which he uses, as is his custom, to vent his passion and to cover up the truth, and is in no wise an answer to our charges and order sent him on the 2^d and 4th of January last. Therefore we order him a second time to answer it formally within 14 days either negatively or affirmatively on pain as above.

On the first of February A° 1646.

Having seen the slanderous writing of Dom^e *Bogardus* purporting to be an answer to our charges, wherein he affirms some, and denies other points thereof, and demands proof,

Ordered that the Fiscal shall give said *Bogardus* satisfaction as his party

On the 8th of March, 1646.

Having seen the answer of *Everardus Bogardus*, minister, dated 8th of March, Ordered, if he has anything more to allege either against the witnesses or otherwise in the remainder of the suit, that he produce it within eight days, and at the same time specify the reason which the Hon^{ble} Director and Council gave him for abusing them from the chair of truth, and refusing to obey their order; in default whereof the suit shall be proceeded with to proof, notwithstanding his subterfuges. The 8th of March 1646.

Whereas Dom^e *Bogardus* has not yet answered the papers sent to him on the 8th February, he is hereby ordered to answer them by the next Court day, and show cause why he has calumniated the Magistrate from the Chair of Truth, and in his writing.

Having seen the writing dated the 15th March 1646 sent by the messenger from *Everardus Bogardus*, minister, it is for the second time ordered that Deft. shall declare at the next session whether he has any more objections against the evidence and other points of the suit, and any other cause why he has calumniated the Director and Council in the Chair of Truth, and neglected their order. In default, the suit shall be despatched.

Everardus Bogardus, minister, has delivered in Court an answer to the resolution of the 15th of March and previous dates, wherein he declares that he will not at present proceed further or deeper in the case, or with the evidence or remainder of the suit; and whereas, he *Bogardus* has challenged the Director and Council as judges, although we, by virtue of the commission granted us by their High Mightinesses, his Highness, and the Hon^{ble} Lords Directors, are fully qualified to decide the case, as it concerns our office and the authority of our superiors vested in us, Yet in order to obviate all occasion of scandal, we are willing to place our claim in the hands of impartial judges of the reformed religion, such as Domine *Johannes Megapolensis*, Mr. *Douthey*, both ministers, and two or three impartial members of this Province, provided *Bogardus* shall submit his case, as we do, to their judgment, and that he, in the meanwhile, shall not privately or publicly, directly or indirectly, by abuse or calumny offend the Director and Council, and if, meanwhile another Director and other Councillors arrive here, we are content to place the matter in their hands. On which he is ordered to communicate his resolution on the 12th April next.

Dated 22^d of March 1646 in Council in *New Amsterdam*.

12 April Anno 1646.

Having seen the answer of *Everardus Bogardus*, minister, dated the 12th of April, delivered in writing, whereby he refuses the civil offer made him on the 22^d of March last by the Director and Council, to submit the suit against him to two Reformed ministers and some impartial members of this country, but appeals to the coming of a new Director and Council, and whereas it is uncertain what time a new Director will arrive, we cannot consequently neglect putting a stop to the disorder and scandals which have prevailed hitherto, but are resolved to proceed with the suit, we therefore order that an answer to his last writing delivered to us shall be sent to him, D^e *Bogardus*,

within eight days, to be by him replied to for the last time on the 26th of this month, in default whereof the case shall be decided.

11th of June.

Whereas *Oloff Stevensen*, deacon and commissary of cargoes and the store, has presented a petition to us wherein he requests that four arbitrators may be named by us who might decide the difficulty which he has with Dom^e *Everardus Bogardus*, minister here to which said *Bogardus* also consents, (see his writing delivered to us by him, *Oloff*) Therefore we do not object so to do, and hereby nominate Dom^e *Megapolensis*, Mr. de *Hooges*, *Yoncker Adriaen Verdonek* and *Laurens van Heusden*, commissary, whom we amicably request, authorize and empower to decide and settle the aforesaid question as far as in their power lies, reserving the action which the Fiscal may have against *Oloff Stevensen*.

Thus done in *Fort Amsterdam* the 11th June A^o 1646.

The Hon^{ble} Director and Council to you, Reverend *Bogardus*, minister here.

Although the offer we have made your Reverence to submit our case to arbitration, as you have requested, sufficiently proves the justice of our proceedings and the inclination we have for peace, as your refusal establishes the contrary, nevertheless the respect we bear the dignity of the ministry, and the desire for your Reverence's welfare prompt once more to seek it, seeing the opportunity that now presents itself on the part of those whom we had nominated thereto; From the ministers, Dom^e *Johannes Megapolensis* and Mr. *Douthey*, and such other impartial members as you yourself will be willing to select; protesting in case of refusal that we shall proceed to judgment. And in order that we may with more fervour pray God in the midst of the congregation that He would dispose you and our hearts to a Christian concord, we request Dom^e *Megapolensis* may preach next Sunday, as has been always his custom, and being here make us partakers of the gifts with which God has blessed him. Your Reverence will please to gratify us so far in this matter as that we may hear him on that occasion. Relying hereon, and not doubting that your Reverence will have any objection to it seeing the justice of our request, we shall await your Reverence's immediate answer thereto, and on the preceding matter next Thursday, being the 14th June.

LEASE OF A BOWERY NEAR THE NARROWS ON L. I.

Before me, *Cornelis van Tienhoven*, Secretary of *New Netherland*, appeared *Anthony Jansen* from *Salce*, who in the presence of the witnesses here underwritten declared and acknowledged that he leased his bowery situate below the narrows (*door de hoogten*) on *Long Island*, to *Edmund Adley*, who also acknowledged to have hired it for the term of four consecutive years, commencing on the 2^d of last September and ending on the 2^d September 1650. *Anthony Jansen* shall also be bound to have built a house fit to live in, and the Lessee* shall cause the arable land to be enclosed once for all with posts and rails, which fence *Edmund* remains bound to deliver back, on the expiration of the four years as good (at least tight) as it now will be delivered, and the Lessee promises to keep the house and fence in repair at his own

expense during the lease. The Lessee shall annually pay as rent of the aforesaid Bowery, cattle and implements which *Anthony* now delivers, the sum of two hundred guilders the first year, and two hundred and fifty guilders every year the three succeeding years, with five pounds of butter annually. The other property which *Anthony Jansen* now delivers, as per the subjoined inventory *Adley* is bound to restore at the end of the lease, when the number of the cattle that the Lessee* now delivers shall first of all be deducted, and then the increase shall be divided half and half between the Lessor and the Lessee. It is also expressly stipulated that the risk of the cattle shared be shared in common both by the Lessor and Lessee during the lease, and if any of the cattle happen to die, the loss must first of all be made good from the increase.

(Remainder of Mss. destroyed.)

Inventory of the property, implements and cattle delivered by *Anthony Jansen*, lessor, to *Edmund Adley*, lessee, who acknowledges to have received the same, and promises to deliver them on the expiration of the lease, as appears by the preceding contract, to wit:

1 stallion 12 years old; 1 stallion of 3 years.

1 mare of 4 years. *Edmund* shall allow one stallion colt and two bull calves, at the end of the four years, though the colt may be grown, and the bull calves, oxen; because *Anthony* receives so little butter; of which colt and calves the Lessee runs no risk, unless the animals be lost through the Lessee's negligence.

Two cows in good condition.

Two new plows and appurtenances.

1 wagon and appurtenances.

One harrow with iron teeth; 2 spades; 2 scythes; 2 siths and hasps.

1 handsaw; one iron sledge; 1 iron maul; 1 churn and fixtures.

One carpenter's adze; one ditto axe; 1 sickle; 1 hook; one auger; one long gun.

Anthony promises to furnish as much seed corn as he can.

LEASE OF A HOUSE AND LOT OF LAND AT BREUCKELN ON LONG ISLAND.

This day date underwritten, *Crigier Pisher* and *Garrit Seers* have, in the presence of the underwritten witnesses, leased from *Cornelis van Tienhoven*, Secretary of *New Netherland*, a piece of land of such dimensions as it may be, situate at *Breuckelen on Long Island*, for the term of four consecutive years which shall begin on the first of August A^o 1647 and terminate on the first of August 1651, during which aforesaid time the Lessees shall not have to pay any rent, but be free; only if in the meanwhile any acknowledgment must be made to the authorities, the Lessees shall be bound to pay it. In compensation for being permitted to cultivate the land rent free, the Lessees promise to thoroughly clear the maizeland in the abovementioned lot within the term of four years aforesaid, so that the plough can run over the whole of it and it can be ploughed. Should there be any stones so large that two men cannot move them, the Lessees may let them lie; but they must remove the small stones from the land. The Lessees are bound to cut, burn and remove from the land within the time aforesaid, all the trees which are standing on *Tienhoven's* clearance, also in consideration for not paying any rent; but they shall be at liberty to leave the stumps. For which they shall receive, at the end of the four years, from *Tienhoven* or whomsoever may obtain his interest, one hundred Carolus guilders over and above the exemption from rent and free dwelling. The Lessees shall at their own expense maintain and fix the post and rail fence that is now set up or shall be erected by order of the Schepens, whether in front, in the rear, or at the sides, and at the termination of the lease deliver the same back in a good defensive condition against cattle, which (fence) shall be the property of the Lessor, without demanding any thing for it. They shall properly occupy the house according to their circumstances and keep it weather tight during the lease, and at the end thereof surrender it in a tight condition, and in case the house, thro' the neglect or inattention of the Lessees should be destroyed by fire, the Lessees shall be bound to repair the damage, but they shall not be held responsible if such occur from enemies or other mischance, provided they have previously defended the house with their other neighbors according to their ability. The Lessees shall not be at liberty to sublet the place to any person, much less to

remove away from it without the consent of the Lessor; and in case it be found that the Lessees have, in any manner, violated this their contract, the Lessor shall have power to institute his action therefor against them, the Lessees.

Thus done in good faith and hereof two copies are made of the like tenor, the 26th of January 1647, in *Fort Amsterdam* in *New Netherland*.

LETTERS FROM THE DIRECTORS IN HOLLAND TO DIR. STUYVESANT; MINERALS SENT TO HOLLAND; PEACE WITH THE INDIANS; NEW AMSTERDAM; ENGLISH ALLOWED TO SETTLE IN NEW NETHERLAND; IRON MINE ON STATEN ISLAND; ENGLISH TRADING HOUSE NEAR FORT ORANGE.

By the ship "*de Jager*" skipper . . . *Thomassen*, we have duly received your letters of the 22^d of September 1646 with divers documents and specimens of minerals. In accordance with the said letter and accompanying list we find copies of your Honor's last letter, dated 25th of November 1645, sent hither by the special messenger *Arent Corssen*, who until this day has not appeared nor have we been able to hear from him in England, although we sent letters to *Plymouth*, where the ship belonged, before it sailed from We apprehend therefore, that the said ship has met with mishap on the way.

Having meanwhile received the copies, we shall answer their contents point for point, if necessary and state, that we were especially glad that not only peace has been made with the savages there, but also that it will probably be lasting and firm; as however the bad disposition of these savages has before this shown them to be deceitful, we on our side will always have to keep a watchful eye on them and their doings and therefore [every occasion to re-open the war must be avoided and all injuries presented]. We would have been pleased, if the conditions or articles of the said peace (which we trust have been made in writing) had been sent over and we expect them now at the return of the former Director *Kieft*.

We were not less rejoiced to hear, that there are signs of progress, that some villages are springing up and that fine buildings are being erected around *Fort New-Amsterdam*. We trust your Honors' administration will have the tendency to promote all such undertakings, we on our side shall not fail to manage matters with that view, so that our conquests may be brought in such a flourishing state, that at last we can reap the long expected benefits therefrom.

Concerning the request of the Englishmen for permission to come and settle among us, on which your Honors await our decision, we have not found any very great objections, to allow them for the present to come in in reasonable numbers, but the appointment of the Magistrates must absolutely be left to our Director, at least in the same way as it is done among our own people and according to the established regulation.

The specimens of *New Netherland* minerals, sent over, have been examined, but, we are told no metal has been found in them; we can nevertheless only deem it advisable, to order the continuation of the search for minerals by your Honors and wish to know, what kind of mineral

may be obtained from the greatest depth especially, we desire also a description of the place, where it is found. We expect also more information about the iron mine on *Staten Island* and in the meantime we shall endeavor, as we have already been doing, to find and send over people, who understand how to assay ores and to judge of their value.

We see, that the English from *Virginia* and *New England* have found their way to *Curaçao* and ventured to go there with their products. Although this has been of great assistance to the people of *Curaçao* in their time of need, yet we hope, especially now, that with your Honor arrival there the causes for it shall be removed. We ought to prevent the continuation of this intercourse, because it destroys all the cattle (?) and causes the horses to be exported for the benefit and use of strangers, or else the facilities, which the Company does not enjoy, should be taken advantage of and turned to its service. We would therefore recommend to admit individuals of this nation on payment of certain taxes, to be determined by the state of affairs there. We should like to have your Honor's opinion on this matter.

Thus far we have considered it necessary to reply to the above mentioned copy of the letter, dated the 25th of November 1645. We come now to the second letter of the 22^d of September 1646 which begins with the smuggling, which the ships from here are enabled and contrive to carry on at their arrival in *New Netherland*, because of the opportunities offered there during the sail up the river before reaching *Fort Amsterdam*, for which they usually take the night, in order to discharge on the way up their contraband goods. We understand perfectly well, how it can be and is done. Your Honor must consider, whether we cannot get people to go on board of these ships when they make the land, who could watch with the supercargo, until the ship comes to anchor before *Fort Amsterdam*. Your Honor must also do everything and endeavor by all possible means to put a stop to this defraudations.

Further information ought to be gathered about the English tradinghouse* ten leagues from *Fort Orange*, also concerning the right, claimed by the savages, to sell the ground to the English; for it is within our boundaries and we must prevent their locating there by all means, which your Honor does not consider too dangerous, to involve us in a war with the English. Their doings and arrangements must be carefully watched in the meantime and invasions or trespasses by them as well as by others must be prevented, if possible.

We shall look out for *Symon Jansen* from *Durghdam*, who has again been over there without our knowledge or consent and expect your Honor will send any new evidences against him, brought forward in the meantime.

We have seen that more negroes could be advantageously employed and sold there than the ship "*Tamandare*" has brought. We shall take care, that in future a greater number of negroes be taken there. We shall also endeavor to send a veterinary surgeon, who understands the treatment of horses.

As to the matters, relating to the church, which Director *Kieft* has not managed to our satisfaction, we shall wait for your Honor's report thereon, before putting them in order.

Not finding anything else to reply to, we come upon general remarks. We notice principally, that Director *Kieft* has ordered the duties on beavers and other goods, sent here from *New Netherland*, to be paid there against our wishes. The consignees of the ship "*Jager*" arrived from there last year, have informed us and proved, that they have not been able to sell beavers here at the same price, as Director *Kieft* had appraised them for export duty, under which appraisement 1274 fl 16 st. more had been paid for duty, than according to their contract, which

* Springfield, Mass.

stipulates for their return-freight a duty of eight per centum, they ought to have paid. After due consideration, we could not well refuse to refund this amount, but as the mistake had not been committed here, but in *New Netherland* and we did not know, what other charges may have been made against this lot, we promised to the said consignees to write to your Honor as we herewith do, that what has been paid there in excess shall be refunded to their agent or factor, after the matter has been duly examined.

We have made a new contract with the same consignees, a copy* of which we send your Honor herewith. It stipulates, that they shall pay the duties on their return cargoes on arrival here. Your Honor will be governed thereby.

Enclosed is a list* of free men going over in this ship; the purpose and intentions of each man going there are stated opposite to his name. We had intended to let these people sign the covenant on the same paper, but finding that nearly all of them go as "Scots" and not meaning to remain there, we considered it advisable, to let them sign there before your Honor, when they take the oath of allegiance as faithful subjects. As to those, who shall return, we see no reason why they should be bound by an oath or constrained any more, than the free men going to *Brazil*.

Jan Willemssen and *Jan Wyffrinck*, who pretend to be experts in minerals and assayers, also to have knowledge of mining, have received permission to go to *New Netherland* under the conditions stated in the annexed copy.* You will give them board and lodgings, also the use of the sloop for such a period, as stated therein, subject to the exigencies of the Company's service.

The bills for the freight of this ship "*Fulconeer*" are enclosed.

DEED FOR LAND ON THE NORTH END OF THE PLAINS OF AMERSFOORT (FLATLANDS,) L. I.

This day, date underwritten, before me, *Cornelis van Tienhoven*, secretary of *New Netherland* appeared *Wolphert Gerritsen* who sells to *Teunis Cornelissen* a piece of land containing fifty-two morgens, situate on *Lony Island* at the north end of the flat of *Amersvoort*, which aforesaid fifty-morgens *Teunis Cornelissen* also acknowledges to have purchased from *Wolphert Gerritsen* for the sum of five hundred guilders, payable fifty guilders on next All Saints day, one hundred and fifty guilders on All Saints day A° 1648; one hundred and fifty guilders on All Saints day, A° 1649; one hundred and fifty guilders, being the last payment on All Saints day A° 1650. The abovenamed *Wolphert Gerritsen* promises to deliver to the purchaser a proper and formal deed of said parcel of land; the purchaser promises, on receipt of the deed, to tender and pay to the vendor the purchase money aforesaid, free of costs and charges, without contradiction or exceptions on the day it is due. For security and performance of what is aforesaid, parties pledge their respective persons and properties, movable and immovable, present and future, without any exception, submitting the same to all courts and judges. In testimony this is signed by parties the 3^d of July, A° 1647.

DEED FOR A HOUSE AND PLANTATION IN FLUSHING, L. I.

I, *Thomas Robertson* have sold to *George Wolsey* a house and plantation standing and situate in *Flushing* and the main bounds are to be seen in the book of the Town of *Flushing*; together with all the grain that is now on it and everything that is fastened by earth and nail, for the sum of one hundred and thirty guilders which is now paid me. Wherefore I convey in true and real property the said land and house to said *Wolsey* or his successors. In token of the truth this is signed by *Thomas Robertson* in the presence of *Jan Damen* as witness, the 16th of August A° 1647, in *Fort Amsterdam* in *New Netherland*.

RESOLUTION TO SEND SECRETARY VAN TIENHOVEN TO HEMSTEAD, TO INQUIRE INTO THE TRUTH OF
A REPORT OF INDIAN TROUBLES THERE.
23^d of August, A° 1647.

This day appeared in Council certain deputies from the village of *Hemsteade*, situate on *Long Island*, who report verbally and in writing, that they had been assuredly informed by two Indians (one named *Adam*) that *Mayawetinnemin*, or as he is now called, *Antinome*, son of the chief *Mecohgawolt*, had by wampum invited, and thereby excited some Indians to war against the Dutch and English, and that it is certain that the Indians were resolved to kill the English at *Heemsteede*, undor this government, in the field when they were harvesting their grain and hay, and then cut off their entire village, to which wiked plot the Chief of *Catsjajock* and his brethren at the East end of *Long Island* had agreed. And whereas this is a matter of very great importance, and we very much suspect that this report is invented by the English, as they have long coveted the abovenamed *Antinomy's* land, it is unanimously resolved to send Secretary *van Tienhoven*, who understands the Indian language, with one or two of those of *Heemsteede*, equally conversant with the Indian tongue, to the east end of *Long Island* in a sloop, to enquire of the Chief and his brethren, who were always friends of, and offered their service to our nation, whether the above report be true or not, and the reason which induced them to undertake such mischief against us. It is, also, resolved and concluded that the said chief of *Catsjajock* and his brethren shall be presented with three cloth coats and some trifles in the name of the Hon^{ble} Company, with an offer of our friendship, which the late Director *William Kieft* had formerly promised them, when peace was concluded. All which being done and investigated, this matter shall be disposed of as the exigency and circumstances of the case shall demand.

Thus done the 23^d of August A° 1647, in *Fort Amsterdam* in *New Netherland*.

PROPOSITIONS MADE BY DIR. STUYVESANT CONCERNING CLAIMS UPON LONG ISLAND MADE BY THE
EARL OF STERLING, AND PROCEEDINGS OF COUNCIL THEREON.

Proposition submitted by the Hon^{ble} Director General to the Council in session the 28th of September, A° 1647.

On the day before yesterday, I was informed by Mr. *Harck*, Sheriff of *Flushing*, that a certain Scotchman named *Forrester* had come there to *Flushing* with commission to take possession as Governor of *Long Island* and of all the Islands situate within five miles thereabouts; that this *Forrester* had spent two nights at *Heemsteede* and one night at *Flushing*, with our vassals and subjects there, where he had exhibited his commission. He came here on his way to *Gravesend* and *Amersfoort* there to exhibit his commission to the English residing under our allegiance and government, whence nothing else than mischief is to be expected, and further encroachment on the Company's lands, which were granted them by charter from their High Mightinesses, our Sovereigns. We have demanded his commission and order of this said new Governor, and asked by what authority he came within our limits? To which he gave for answer, that he came here to demand my commission and authority. Wherefore I had him taken into custody, and on the next day had him placed under arrest at the City Tavern at the Company's expense, and having obtained his commission found one with an old seal depending, but not signed with any name, and, besides, a power of attorney signed by the Parliament, and nothing more. The further question is, What shall be done with said pretended Governor? Thirdly, that the commissioners please to make a final disposition of the criminals in prison, particularly *Piequet*.

(Signed)

P. STUYVESANT.

28th September A° 1647.

The proposition of the Hon^{ble} Director General respecting the pretended Governor of *Long Island* and the neighboring Islands, being heard in Council, it was unanimously considered highly necessary by the Hon^{ble} Director General and Council to hear the abovenamed pretended Governor, named *Forrester*, personally in Council, in presence of two or three impartial witnesses, and to examine his commission in order to ascertain by whose authority he, *Forrester*, lays claim to the government of *Long Island* and the Islands situate thereabouts.

(Signed) P. STUYVESANT, L. VAN DINCKLAGHE, LA MONTAGNE, BRIAN NEWTON, PAULUS LEENDERSSEN VAN DER GRIST, A. KEYSER.

Andrew Forrester, born at a place called *Dundee* in *Scotland* appeared in council, in the presence of *Carel van Brugge*, *Adriaen van der Donck* and *Philip Geraerdy*, impartial witnesses, all understanding the English language, when being asked: Who had given him commission to take possession of *Long Island* and the neighboring Islands as Governor, and where said commission was? Said *Forrester* exhibited a large parchment, fully written in form as a commission, to which hung an old broken seal; having no name subscribed, nor any place designated where the commission was issued; also, a power of attorney signed by *Mary Steerlings*.

The Hon^{ble} Director and Council asked said *Forrester* why the Commission was not duly signed? To which he gave for answer, it was not necessary and that the seal alone was sufficient.

Said *Forrester* is further asked, if he had no other, or better commission than the one he now produced, and what authority had he to demand the General's commission? To which he gave for answer, he had no other commission at present, and therefore could not produce any other.

Said *Forrester* is also asked in Council, if their High Mightinesses' ambassador had said in England, that he, on behalf of the Lords States, resigned those parts of *New Netherland*; *Andrew Forrester* answers, such had been said in the lifetime of Mylord *Steerlings*.

In Council in *Fort Amsterdam*, Present: The Hon^{ble} Director General, Mr. *Dincklage*,

Mr. *La Montagne*, Lieutenant *Nuton*, *Paulus Leendersen*, and Commissary *de Keyser*, all that is material in regard to the commission and claim of *Andrew Forrester*, the pretended Governor of *Long Island* etc., being after mature deliberation well weighed and considered.

First, seeing an unsigned written parchment in form of a commission, from which depended a broken old seal.

Secondly, that said *Forrester* had exhibited on *Long Island*, to the English residing under the allegiance and obedience of the Lords States, his commission, and thus induced the simple farmer to believe many things, whence further difficulties in this jurisdiction are to be feared and expected; in order to prevent such and similar mischiefs, it is unanimously resolved and concluded in Council, for the sake of our Sovereign's reputation, the Company's interest, and the prosperity of our nation in these parts, to send the pretended Governor a prisoner to *Holland* by the ship, *The Falconer*, to vindicate his commission to their High Mightinesses.

COUNCIL MINUTE ON THE ABSCONDING OF THE COMMISSARY AT FORT ORANGE AND APPOINTMENT OF A NEW COMMISSARY.

Whereas the Commissary of *Fort Orange*, (which is a place that the Hon^{ble} Lords Directors are greatly interested in, in regard to the extension both of their limits and the trade,) has absconded from there, upon a report of a certain infamous and scandalous crime which 'twas said, he had committed, and therefore said place is vacant and it is highly necessary that it be again supplied with a good, honest and suitable person, Therefore the Hon^{ble} General requests the members of the Council, that each or them would please to give his voice and vote for whom in this country he thinks to be the fittest for said charge, in the interest and for the advantage of the Hon^{ble} Company.

The Hon^{ble} Director General votes that *Michael Jansen* shall be offered the Commissaryship of *Fort Orange*, and if he refuse such offer, then to send thither *Carel van Brugge* late commissary at *Curaçao*, and in case he refuse, said *Van Brugge* must quit the Company's service.

RESOLUTION TO TAKE DOWN THE MILL ON GOVERNOR'S ISLAND.

Anno 1648 in *Fort Amsterdam* in *New Netherland*.

Resolved in Council that it is most advantageous and profitable for the Lords Directors that all the effects which the late Director *Kieft* returned by inventory and had loaned to divers persons, shall be again called in for the use of the Hon^{ble} Company; should any portion of them not be on hand or forth coming, those who have them shall be made to pay for them. This 12th of Jan^y Anno 1648.

The Hon^{ble} Director General and Council having seen, that the confiscated sloop formerly commanded by *Seger Tonissen*, dec^d, lies here ashore, and decays more and more, and is also greatly out of repair and would cost considerable before it could be made seaworthy again; having,

likewise considered the little service this little sloop could render the Hon^{ble} Company, it is judged to be for the best advantage of the Hon^{ble} Company to sell said sloop publicly to the highest bidder. This 12th of Jan^y A° 1648.

Whereas the sawmill on *Nut Island* is wholly decayed and in ruin, and to all appearance cannot be repaired by the carpenters now here, and the ironwork belonging to it is daily diminishing, therefore it is considered most advantageous for the Hon^{ble} West India Company and unanimously resolved in Council to take said mill to pieces, if possible or otherwise to burn it in order to save the iron which shall be used for the best advantage of the Hon^{ble} Company. Thus done and resolved in *Fort Amsterdam* in *New Netherland*, in Council, the 12th of January, 1648.

ORDER OF COUNCIL ON AN APPLICATION OF THE TOWN OF FLUSHING FOR A MINISTER.

On the first of February 1648.

William Harek, Sheriff at Flushing, and his associates appeared in Council and request that the Hon^{ble} Director General and Council would favor them with a pious, learned and reformed minister, and then order that each inhabitant should contribute to such godly work according to his ability, and that an end be put to the present differences in a manner, that shall promote peace, quietness and unanimity in said town, and that they jointly may live under the protection of their High Mightinesses, his Highness of Orange, the Hon^{ble} Lords Directors, and the present administration here.

Thomas Sael, *John Laurence* and *William Turner*, the opposite party, thereto delegated by the remainder of their side, request the same as the sheriff and his associates abovementioned have asked.

The above parties having been heard in Council and the justness of their request being seen, the Hon^{ble} Director General and Council resolve to enact such order on their application and request as shall be found to promote peace, union and tranquillity both in ecclesiastical and civil affairs.

LETTER FROM THE DIRECTORS IN HOLLAND TO PETER STUYVESANT; THE SHIP "PRINCESS" LOST WITH DIR. KIEFT AND D^r BOGAARD'S ON BOARD; LENIENT POLICY TOWARDS THE INDIANS RECOMMENDED; TRADE WITH SOUTH AMERICA; CHURCH MATTERS; GOVERNOR FORRESTER OF LONG ISLAND.

Duplicat. 1648 April 7th

Honorable, Dear and Faithful Friends.

By the ship "*de Valckenier*" we have duly received two of your letters, the last dated the 6th of October of last year, the first having no date, the originals of which had been sent by the ship "*The Princess*." We notice by your last letter, that this ship had left your coast about the

16th of August, but we did not receive your letters, sent by the same, as it was wrecked in the Channel on the 27th of Septbr and 81 souls, men, women and children were lost, among them the former Director *William Kieft*, D^r. *Bogardus* and Fiscal *van der Hoeykens*; of her cargo nothing has been saved except a lot of peltries, part of which has been stolen and what floated on the strand has been sold for 2sh. 6d. the piece and later for 1sh. English money. The skipper remained there skulking about so long, that it created suspicion; it seems, that thieves are always connected with such misfortunes; the Lord may comfort the sufferers.

We see that in a like manner, as mishap has befallen this ship on her return, your Honor on going out has met with adversity, having lost by sickness 16 to 18 men and that your Honor arrived, God be praised, before *Fort Amsterdam* on the 11th of May with the ships "*Groote Gerret*," "*Swol*" and "*de Kadit*," the first of which your Honor has sent to *Boston* in the English *Virginia* with a cargo of salt and the other two to the *West Indies* on an adventure. How very inopportune the mishap of the "*Princess*" has come, especially as regards your request, will be stated hereafter, we shall first reply to your report on the state of our conquests, in which you complain, that the people are grown very wild and loose in their morals. It seems to have principally been caused by the weakness of the late Director and the neglect of his duties by the preacher. We expect your Honor will amend all this, *but a tree grown too high and too luxuriantly, must be trimmed carefully and bent by a tender hand, giving it a good shape.* The native inhabitants of our conquests have shown the necessity to govern them with mildness; former wars, which we would have tried to avoid, have also given us that impression. Although we know, that these tribes have become conscious of their strength by using it and consequently, we believe, more anxious to provide themselves with muskets, powder and lead, for which they ask under pretense of hunting and which we know to be only a mere pretense, yet we perceive them to be so extremely eager, that we fear, they would rather begin a new war against us, than be entirely deprived of these articles. Considering that in our present situation a war is wholly unadvisable, we think it is best, to supply the tribes very sparingly, but directly by the Company's officers without the intervention of any private parties. This must be strictly carried out, also that no traders be allowed to come trading on that coast under authority from other Departments, excepting that of *Amsterdam*. We have learned that a frigate from *Medenblich* has arrived there, a ship called "*Hercules*," *Cornelis Claassen Suoo*, skipper, and have been properly astonished, that you should have entered into negotiations with such cheats and smugglers, especially as you must have known, that none of the other Departments has been willing to contribute for the support of *New-Netherland* and that in consequence that coast has been reserved for the Department of *Amsterdam*. It is therefore our express wish not to grant the privilege of trading there to any one in the world, unless they come with a permit from this Department and that if a trader comes without our permit, you confiscate and hold his goods until further orders from us.

It is true, that people are busy at the *Hague* before their High: Might: to bring about a general reform for all the colonies of this Company and *New Netherland* will not be forgotten; a provisional resolution has already been passed, that all colonists there shall be allowed to ship their own products, as flour, fishes, meat, bacon, peas, beans and everything else in their own or chartered bottoms to *Brazil* and *Angola*, that the ships returning may take freight from *Brazil*, but those coming back from *Angola* are to bring negroes to be employed in farming. This resolution will show your Honor, that we too have the right to send a ship to *Angola* with an assortment of provisions and bring back negroes. Your Honor will therefore please to take quickly advantage of it with the provisions, which you report to have in abundance.

When shall your Honor receive payment for the two ships sold, the "*Swoll*" and the "*Tamarande*?" The low price leads us to surmise that these ships were pretty well worn out and by your Honor considered unfit to be used in the service of the Company. We could not, under the circumstances, expect to employ them with great advantage to us, for we can now seek our fortune only against the treacherous Portuguese, since the peace with *Spain* has been arranged and signed, waiting only for the consent of the King, of which no doubt is entertained. We expect to hear what the ships, sent out by your Honor, have done in the meantime.

Your Honor gives conflicting reports on the trade there, saying in one place, that private individuals ruin the trade and in another, that you believe the open and free trade to be the best for increasing the population, which in time must be followed by greater consumption. It has been and still is the usual argument in our Department, that the trade should be open to everybody, but your Honor complains, that this freedom is abused by many, who go several miles into the interior to meet the savages bringing down peltries and thus run up the prices of the goods and your Honor therefore thinks, it would be better to establish a trading place, where all peltries should be offered for sale. We on our side consider this dangerous, for it would bring the savages again into our midst and be only a new form of restricted trade. If the Company were in the condition to establish there a large magazine, such as you propose, then we might as you suggest make a trial, but at present we are so situated, that we must remain satisfied with the export duties, to which you must pay particular attention, that the Company be not a loser by defraudations.

You complain of the order, issued here, that the duties on beavers shall henceforth be paid here without considering, that we shall have no returns from the cargoes sent out. You have besides sold there two ships and a lot of logwood at 11 fl, for which the owners here have received 12 fl or there about, so that they make a good profit considering the high prices asked for the goods, which they bring there, as stated by you.

We regret exceedingly, that we are not able to dispatch the desired ship with its freight as quickly as you requested, as for the above stated reasons the equipment and many other necessary matters must be deferred until the general reform, which is being considered, shall have been agreed upon; the Lord grant, that it may be to the satisfaction of all interested.

We were sorry to learn of the great disorder, which your Honor has found there in church matters, principally caused by D^o *Bogardus*. The proverb "*Where the shepherd errs, the sheep go astray*" fully applies to this case. He with others has been relieved from rendering his account, while in the meantime the church remains in a troubled state and unprovided, although your Honor has provisionally allowed D^o *Backer*, formerly preacher at *Curaçao*, to remain there some time. As he, however, had previously received his letter dimissory from the Classis, he cannot be held there against his will. We shall look out here for a man fit to attend to the church there. Your Honor believes, that the congregation would be well satisfied with D^o *Megapolensis*, preacher at *Rensselaerwyck*, without stating, whether he can obtain his letter of dismissal from there without trouble, also whether he cannot work there with as good results, as in the church at *New Amsterdam*. We expect to receive on this point a more detailed report in your next, according to which we shall act. It must also be considered, that this plan cannot be well carried out without the consent of the Colonists.

The erection of a church building has really been necessary, but we notice also that it has been very expensive: the Colony cannot yet bear such expenses.

Your Honor reports to have found general revenues for the defraying of the public expenses,

referring to the resolution of Septbr 25, 1647 and desiring us to approve it. Hitherto we have discovered neither the resolution nor the revenues, so that we suppose, these means have been appropriated by some secret resolutions or omitted to be sent.

We have been very much surprised, that somebody has dared to style himself there the new Governor of *Long Island*, saying that he, *Forrester*, had authority from *Maria Sterlinck*. We have been unable to discover that she had been empowered by either *England* or *Scotland*, to give such authority, much less to invade our territory. We can only presume, that this man is a notorious cheat and approve therefore your action in stopping his evil designs, but it is very doubtful, whether it would not have been better, to have sent him to the English *Virginias* instead of sending him hither, the more so as the "*Valckenier*" touched in an English port, where not only the pretended Governor, but also the prisoner *Michiel Picquet** escaped. It did not matter much, unless the first had found or obtained assistance there; we do not think he did, for as yet we have not heard any complaints about this matter, nor do we exactly know before whom he might make his complaint, for as you say, he had no commission from the King or from Parliament. We do not suppose, he will ever obtain one, at least not against our Government; for reasons which we will give in detail. As to the other man, we do not know, whether the Magistrates here would have confirmed at your request a sentence passed on the other side. We cannot determine, whether sentence passed over there in such manner would be executed by our judges here and therefore do not consider it advisable, to make any more experiments of this kind, which endanger the authority of your judiciary, but we believe it safer, to punish all delinquents there as the respective cases may require.

Some complainants have made their appearance here with petitions to their High: Might: especially *Cornelis Melyn*, *Jochem Pietersen* and others, who declare themselves aggrieved by their sentences. We suspect these people have been prompted by the *Fiscal van Dyck*, who perhaps imagines, he has friends here. We have never expected any other evidence from this person, than the one given now, although we could not be upset by him. *Cornelis Melyn* is well known to us and we shall understand, how to refute his complaint. It is to be regretted, that people have become so intimate with such fellows, when they ought to have given a good example to others.

We must confess, that long ago an occasion ought to have been found, to determine the boundary-lines between the English, the Swedes and ourselves. We have had before now a better chance, as far the line between us and the English is concerned. Through their diplomatic agent at the *Hague* they asked for it and it could have been done easily, for the King was then in full possession of his authority. Now we do not know, what form the negotiations concerning the boundaries ought to take and how to obtain a favorable decision and we are therefore considering a request to their High: Might: for a manifesto placing the territory, claimed by them, under our control; then, we are confident, neither the English nor the Swedes will try to claim or usurp it. We notice, that even our villages are mostly inhabited by English people, who in some places have had the assurance to elect Magistrates on their own authority; we consider this rather a dangerous precedent, yet we suppose, that only mild measures can induce them to give up this plan of self-government, for it seems, these people living there will not endure a harsh government.

Your Honor suggests, that this nation should be admitted to the small private trade at *Curacao*, except in wood and salt. As this, however, is directly contrary to the charter and the opinions of the other Departments, we cannot give our consent to it, before we have learned, what

* Sentenced to perpetual banishment from *New Netherland* and to 18 years' imprisonment at hard labor in the workhouse at *Amsterdam*, for threatening to kill Director *Stuyvesant*. (N. Y. Col. MSS. IV. 342.)

the bearings of the regulations, now under consideration, will be. The general reforms, to be introduced on your side, will also for some time have to be shaped by them, the more so, as we do not know, whether the coast will remain under the direction of this Department alone or whether it will be governed by all the Departments. That is also the reason, why we cannot decide on your Honor's request for an increase of salary and for the transfer of a bowery, stocked with two horses, six cows and two negro boys, the price to be determined by arbitrators, for which you had authorized Director *Kieft* to make an agreement with us; at present this cannot be done for the above stated reasons.

The bearer hereof *Wm. Thomassen*, skipper of the "*Valckenier*" and *Peter Cornelissen Costelyck*, master of the "*Pynappel*," who takes out the duplicate of this letter have received assorted cargoes from private parties. Their departure has been publicly announced, as is done with all ships sailing to other ports. This is the first voyage, which these vessels make to your side and therefore we deem it very necessary, that your Honor should watch the unloading of them and keep a sharp lookout, that the Company may not be defrauded of their revenues and all smuggling be prevented.

We send you a list of all the free men, whom we have given permission to go over on each ship, if some more, besides these, should be discovered you will institute proceedings against the ships, conform to the contract entered with the owners, copies of which and of what further has taken place here concerning these ships are enclosed.

We enclose the invoices of the cargoes of both ships.

Through the loss of the "*Princess*" we are deprived of several ships' journals, for instance of that of the "*Swoll*" and several others, which you may have there. You will therefore please to send us by the first opportunity the journals and everything required to make up and verify the accounts of the persons, who have reached here as well as of the lost ones, whose friends are overrunning us every day.

Your Honor will no doubt have received information before receiving this letter of the misfortune, which has befallen our ship "*de Groote Gerret*"; nevertheless we have deemed it advisable, to send you a copy of the letter, received from the skipper, *Jelmer Thomassen*. We have no opportunity here to send him the desired relief and therefore recommend to your Honor to employ all possible means for securing the said ship and rescuing the crew, if it has not already been done.

We have given permission to *Teuntge Juriadensen*, who goes over with a large family, to take with her 12 guns, 50 lbs. of powder and as much lead for the defense of her family in time of need; but as we acted in this instance only with great reluctance and at the urgent solicitation of the said woman, we would advise your Honor to keep an eye not only upon the aforesaid arms, but also upon the arms of our inhabitants there and to order reviews or musters in the country, to see whether they have not made a profitable trade in arms, instead of keeping them for defense.

Some letters from private parties to our officers in *Curaçao* have from time to time been brought to our office; we see no other way, than to send them herewith to be forwarded by the first ship.

We are negotiating with *Jan van Hardenburgh* about the four cases of duffels and as we lack time, the ships being ready to sail, to come to a conclusive arrangement, we have provisionally agreed, that to offset his claim about the said four cases he shall pay no duty nor convoy-fees, for the goods, sent over by these ships, nor for the return-consignments, which he may receive by the same ships. The one and the other is to be charged to his account against the abovementioned

claim, therefore you must send us a statement of the goods, which his brother *Arnout van Hardenburgh* may consign to him.

We have engaged the supercargo for the "*Pynappel*", *Cornelis Greesen*, under the conditions, as per enclosed copy, and paid him 20 fl on account of his salary to be earned, the balance, which will not amount to much, may be paid to him there.

Commending you herewith to God's protection we remain,

Honorable Dear and Faithful Sir,
Your Honor's true friends
The Directors of the *West India* Company
Department of *Amsterdam*.

DAVID VAN BAERLE.

Concerning the case of *Mons^r van Twiller* the Council has come to no decision yet; your Honor will therefore leave the payment of his claims *in statu quo*.

LETTER FROM THE PRINCE OF ORANGE TO DIRECTOR STUYVESANT, INFORMING HIM THAT CORNELIS MELYN AND JOCHEM PIETERSEN KUYTER HAD RECEIVED PERMISSION TO RETURN TO NEW NETHERLAND AND ORDERING THE DIRECTOR NOT TO MOLEST THEM.

THE PRINCE OF ORANGE.

Honorable, Prudent, Discreet, Dear Sir.

You will receive by the bearers hereof *Jochem Pietersen Cuyter* and *Cornelis Melyn*, the commands, which their High: Might: the States General have concluded to issue to you, directing you to allow these men to enjoy their property there free and unmolested by virtue of the provisional appeal, granted to them by their High: Might: with the clause suspending the sentence passed over them by you on the 25th of July 1647.

Although I do not doubt, that you will obey and respect these orders, yet I desire hereby to admonish you very earnestly and advise you expressly, that you allow these men to enjoy quietly and without contradiction the result of the resolution passed by their High: Might:

Herewith etc

At the *Gravens^e Hague*,
May 19th 1648.

Your very good friend
W. D^e ORANGE.

To the Honorable
Prudent, Discreet, Our
Dear and Special Friend
PETRUS STUYVESANT
Director of *New Netherland*.

PROPOSALS MADE BY DIR. STUYVESANT ON THE SUBJECT OF SMUGGLING GUNS, MANSLAUGHTER AT
FORT ORANGE ETC, AND RESOLUTIONS OF COUNCIL THEREUPON.

Propositions submitted by the Hon^{ble} Director General in Council.

Whereas it is seen by experience that nothing is done by the Fiscal to obtain a decision as to what is to be done with the guns, about in number, obtained from both the ships and still remaining in the Council Chamber; in case no further claim is brought against the ships on that account, we are of opinion that the guns at least are liable to confiscation.

2^d Regarding the 13 guns and 13 bullet moulds and some other articles marked .E. which are seized, not appearing on the invoice of goods taken on board.

3rd The purchased cloth which still lies in the Council Chamber, and is found longer than is entered on the invoice.

4th In regard to the homicide, whilst I was at *Fort Orange*, and the wounding of the gunner by *Simon Courtbrant*, a soldier, who ran away before my departure, and since skulks at *Mespachtes* without the Fiscal making any enquiry for, or prosecuting him, to the blame and scandal of the court.

5th The petition of the free traders in favor of the convicted *Jacob Reynsen* and *Schermerhoorn*, that their sentence of banishment may be revoked.

Finally, the case of *Egbert*

Resolved in Council. To pay for the guns belonging to the sailors what they cost in *Holland*, and to restore their guns to those domiciliated here as settled burghers, on condition that his gun must be produced to the Council, whenever the Burgher intends to depart.

Resolved, according to agreement, to pay 100 percent as per the Company's invoice.

Resolved that the fugitive shall be summoned by beat of drum.

van Borsum, who being still the Company's sworn servant and master of the yacht *Prince William*, in violation of his honor and trust, has purchased guns and powder from the smugglers at *Newhaven* and carried them or caused them to be conveyed past this place to *Fort Orange*.

On these five foregoing propositions especially, a final conclusion is necessary.

(Signed) P. STUYVESANT,
first of August A° 1648.

The petition of respectable Burghers residing in this city, *New Amsterdam*, having been read in Council, and the petition and conduct of *Jacob Reynsen* and *Jacob Jansen Schermerhoorn* in regard to a certain sentence of banishment recently imposed on them for trading in contraband wares considered, the Hon^{ble} Director General and Council of *New Netherland* have graciously revoked the banishment of said *Jacob Reynsen* and *Schermerhoorn*, and declare them from this time and henceforth capable of going, coming and returning here, as is permitted to all other honest people.

Thus done in *Fort Amsterdam*, the first of August A° 1648. Present, the General, Mr. DINCKLAGE, LA MONTAGNE, B. NUTON, P. LEENDERSEN and ADRIAN KEYSER.

RESOLUTIONS TO SUMMON THE CHIEF OFFICER OF THE COLONY OF RENSSELAERWYCK TO ANSWER CERTAIN CHARGES AND ANSWER TO THE CHARGES.

The Hon^{ble} Director General having produced in Council the charges exhibited to and made against *Brant van Slechtenhorst*, chief officer in the Colony of *Rensselaerswyck*, and the counter-charges and protest of said *Slechtenhorst*, dated 28th of July, A° 1648, it is therefore resolved and concluded in Council to authorize the Fiscal to cause said *Slechtenhorst* to be summoned to appear here before the Hon^{ble} Director and Council and hear the said Fiscal's demand against him. This 10th of August A° 1648.

Abraham Willemsen appeared in Council, declared and acknowledged that being with *Egbert van Borsum* at *Newhaven* in the North in the year 1647, he in company with *Egbert van Borsum* bought there from *Klinkert*, the chief boatswain and from the cook, all sailing on the ship *St. Beninjo*, *Cornelis Claesen Snoij*, master, 50 guns (*snaphanen*), four kegs of powder, two kegs of shot, which he declares to be true. This 10th August A° 1648, *New Amsterdam*. Present: The Hon^{ble} General, Mr. DINCKLAGE, LA MONTAGNE, B. NUTON and ADRIEN D' KEYSER.

Complaints exhibited to the Chief Officer of the Colony of *Rensselaerswyck*.

We judge and declare that the granting of Patents and the building on grounds about the Company's fortress *Orange*, without the knowledge and consent of our Sovereigns' representative, tend

to the disparagement of the authority of our Sovereigns, their issued commission, an infraction and diminution of their granted charter, a notable weakening of the Fort aforesaid in time of defense and necessary resistance, and therefore opposed to all military and defensive order. Wherefore we request in virtue of our commission, the Commandant and Court of the said Colony to desist and refrain from such building within a cannon shot from the Fort, until further order and advice from our Sovereigns, or Superiors, or to produce to us, special consent and authority signed by our Sovereigns or Superiors aforesaid, there being, either above or below equally suitable, yea better building spots.

2.

That no new ordinances touching the sovereign authority, general commerce and the public welfare such as the farming of the trade, attaching the grain and masts and other property belonging to the servants and vassals of the Company, be made or published without the advice and ratification of the representative of their High Mightinesses and our Superiors.

3.

Without abridging authority or right of the Colonists, or of their Court in attachments and lawsuits, we demand that attachments levied on the property of the Company's servants or vassals be prosecuted within a reasonable time, where they ought to be prosecuted, so that the interested party, be he servant, or vassal, may turn the property to his profit without serious loss and lapse of time.

4.

We are informed, and it has been certainly laid before us in form of complaint that Commander *Stechtenhorst* endeavors to force and to make the inhabitants of the Colony to promise that the defendants will not appeal from his and his Court's judgment and sentence to the supreme and general Court of *New Netherland*, which we consider to be a high crime against, and conflicting not only with our *Netherland* practice, but also with the granted Freedoms and Exemptions of this Province, by the 20th article whereof all inhabitants are allowed to appeal to the Commander and Council of *New Netherland* from all judgments given by the Court of the Patroons exceeding in amount the sum of Fifty Carolus guilders.

5.

In order to prevent the aforesaid unfounded rule, and to give the good inhabitants of the Province the benefit of regular and just judgments, whereon, in conjunction with pure religion, depend the peace, happiness and prosperity of the country in general and the inhabitants in particular, We shall willingly leave to the Courts their proper authority and jurisdiction, saving that for the better promotion of justice, a report and review of the affairs and proceedings of the Colony, be annually rendered to us and our adjoined Council, the commissioned representatives of our Sovereign home government, pursuant to articles 20 and 23 of the *New Netherland* Exemptions.

LASTLY.

Whereas in contempt of our office, with which we are invested by commission from their

High Mightinesses, Commander *Slechtenhorst* in the presence of us and many others asserts, and by actions affirms that he is not subject to us and our government—in contradiction not only of our general commission granted by superior authority, but also of the Freedoms and Exemptions of Patroons, article 28 whereof lays down, that “all Colonists shall be obliged to transmit, at least once in every twelve months, an exact report of their lands and Colonies to the Commander and Council there”—by which indecent assault upon the reputation of our official character, and, in our person, the dignity of our Lords Directors are seriously defamed and insulted: Therefore we, to obviate hereafter all altercation and misunderstanding, first, desire and demand proof of, and authority for this pretension under the signature of their High Mightinesses, or of some of the Directors at the Chamber at *Amsterdam*, which being exhibited and seen, we shall respect Commander *Slechtenhorst* agreeably to his commission; suppress the aforesaid complaints, and honor and obey the further order of our gracious Sovereigns and Lords Directors; or in default thereof we remain bound by oath and honor to maintain our previous commission, to protest against the Commander for contumacy and disobedience committed in our person against the authority and commission of their High Mightinesses, our sovereigns. Meanwhile, we remain disposed and prepared to promote the welfare of the Colony in general and of the inhabitants in particular, and to afford them whatever aid they stand in need of.

Done in *Fort Orange* this 23^d July, 1648, subscribed:

Your affectionate Friend and Governor,

We the undersigned hereby certify and declare that, by order of the Hon^{ble} General abovementioned, we have communicated and most truly read the foregoing complaints to Commander *Slechtenhorst* and his Council, where, besides himself, Mr. *Anthony de Hooges* only was present, and gave him a copy thereof on the above day. In acknowledgment of the truth this is signed with our own hands.

Answer of *Brant van Slechtenhorst*, chief officer of the Colony of *Renselaerswick*, to the above written complaint.

Whereas General *Petrus Stuyvesant*, whom at divers times heretofore I have informed that I was heartily inclined to live with his Honor in all friendship and neighborhood, as becomes Christians, and to show him all honor and respect, as far as oath and honor would permit, has on the 20th and 21st of July of this year verbally communicated and afterwards on the 23^d ditto caused to be delivered in writing to me, *Brant van Slechtenhorst*, divers complaints wherein the Patroon's right is, in my opinion, somewhat injuriously affected and curtailed, and which tend to the great prejudice of our said Patroon, Therefore did I, on the 21st inst., in presence of several persons, say to the General; You complain without reason; I have more reason to complain on behalf of the Patroon, as namely: Last year the Director caused a prohibition to be posted up, nearly of the same tenor as that handed to me in writing on the 23^d of July by the officers.

1.

First. The Hon^{ble} General has proclaimed a day of prayer throughout this Colony, contrary to the ancient order and custom, as if his Honor were proprietor of the Patroon's Colony.

2.

The inhabitants of the Fort came into the Patroon's Colony and cut the best timber and firewood in the forest, without notifying anyone, as if it were their own.

3.

Said inhabitants and those of the *Manhatans* rove by water and by land not only through the entire Colonie but even in the Patroon's woods, and have Indians on hand trading publicly as brokers, as if the Colony were their own, without once notifying the Patroon, or his agent, or paying any duty.

4.

On the border of the moat of the Fort or trading post, stood for a few years undisturbed the trading house of the Patroon, to whom as proprietor still belongs that very ground and all around the Fort, and who has been in quiet possession thereof for long years and still occupies it. Yet now comes General *Petrus Stuyvesant*, and attempts by improper means to prevent the infant Patroon from improving or building on his own ground, which is situate over five hundred paces from the Fort or trading post, between both which points there are still at present eight houses standing on the Patroon's soil; threatening forcibly to batter down the aforesaid buildings; striving thus to be his own judge in what regards the infant Patroon's property—which is neither proper nor consistent with reason—and in the matter of erecting pig-pens and the use of courtyards and gardens on the Patroon's ground around the Fort.

Therefore do I, in my quality, assert and protest before God and the High and Mighty Lord States General, our Gracious Sovereigns in *Fatherland*, and the Lords of this Colony, that I am obstructed in the execution of my duty and office, and I do protest on oath against all the illegal proceedings, as well as for all costs, damages and losses already incurred, or which the Patroon may hereafter suffer hereby. Done in the Colony of *Renselaerswyck* this 28th of July A° 1648. Signed B. VAN SLECHTENHORST, director of the Colony aforesaid. A. DE HOGGES, witness.

RESOLUTION TO PERMIT THE ERECTION OF STONE HOUSES WITHIN THE WALLS OF FORT ORANGE.

Whereas the Fortress *Orange*, situate up the North River of *New Netherland*, near the Colony of *Renselaerswyck*, was almost entirely washed away by the high water last winter, and it is highly necessary that it be repaired, in order to maintain the Hon^{ble} Company's limits and jurisdiction; and whereas the present condition both of the Company and of ourselves here, does not permit us to make the required repairs, much less to complete them, Therefore the Hon^{ble} Director General and Council for reasons and considerations aforesaid, have resolved and concluded,

that it would be most advantageous and least expensive for the said Company to permit some respectable inhabitants of *New Netherland* to build at their own expense houses in said Fort, against the wall, run up with stone 12 feet high, especially as the Hon^{ble} Mr. *Kieft*, the late Director, and the Council had long ago permitted some to do the same thing. It is also resolved that the ground shall at all times remain the property of the Company, and that those who will build in the fort, shall not own more than the buildings, or be able to sell more than the same, whereunto the Company shall enjoy the preemption right.

Thus done and resolved in Council in *Fort Amsterdam* in *New Netherland*, the 11th of August A° 1648. Present: The Hon^{ble} Director General, Mr. DINCKLAGE, LA MONTAGNE, BRIAN NUTON, PAULUS LEENDERSSEN and ADRIAEN KEYSER.

RESOLUTIONS TO OPPOSE SLECHTENHORST'S CONTINUED ENCROACHMENT AT FORT ORANGE.

The Director General laid before the Council a despatch from Commissary *van Brugge*, who reports that Commander *Slechthenhorst*, contrary to the notice given him, proceeds with the building under the Company's *Fort Orange*; [Resolved] that he pull down the same, and if *Slechthenhorst* offers opposition, that he, *Van B.*, shall send word, when more men will be sent from here to his assistance. This 23^d of August A° 1648. Present: the Hon^{ble} Director, Mr. DINCKLAGE, LA MONTAGNE, BRIAN NUTON and PAULUS LEENDERSSEN.

RESOLUTION TO SEND A SMALL MILITARY FORCE TO FORT ORANGE TO OPPOSE THE ENCROACHMENTS OF THE COLONY OF RENSELAERSWYCK.

The Director General laid before the Council a letter from Commissary *Van Brugge* dated the 4th of September, concerning Commander *Slechthenhorst* of the Colony of Renselaerswyck, who contrary to our directions and orders continues to erect a building near and under *Fort Orange*, within a pistol shot.

Resolved, therefore, that four to six soldiers be sent to the Commissary, for the assistance and the better execution of his orders to demolish the house with the smallest loss to the owners, and in case Commander *Slechthenhorst* offer opposition, *Carel van Brugge* shall arrest him in the most civil manner, and detain him so long in confinement, until he deliver to the Commissary copy of his commission and instruction, with a declaration that he, the Commander, has no other commission and instruction than those he will then have exhibited.

Thus done the 10th of September 1648.

Present: The Hon^{ble} Director General, L. VAN DINCKLAGE, LA MONTAGNE, BRIAN NUTON, PAULUS LEENDERSSEN.

DECLARATION CONCERNING THE TRADE WITH EASTERN INDIANS.

Before me, *Cornelis van Tienhoven*, Secretary of *New Netherland*, appeared *Andries Luyccassen*, aged fifty-three years and *Cornelis Mauritsen Bout*, aged thirty-three years and *Jan Jansen* from *St. Obyn*, aged twenty-seven years, who at the request of Mr. *Govert Loockmans*, attest, testify and declare, in place and with promise of an oath if necessary, that it is true and truthful that they have been in the months of October, November etc. A° 1647, with *Govert Loockmans* and his bark along the *North coast* from *New Amsterdam* to *Pahehock*, *Crommegou*,* and *New Haven*, during which voyage aforesaid they neither saw, nor heard, nor even knew that *Govert Loockmans* himself, or any of his crew had directly or indirectly traded or bartered with or to the Indians there or elsewhere any powder, lead or guns, except that he, *Loockmans*, made a present of about a pound of powder to the chief *Rockbou* in the *Crommegou* and purchased two geese in the *Crommegou* and half a deer at *Puhatoc* with powder, without having given to, or exchanged with the Indians anything else to our knowledge. The affiants declare this to be true and offer to confirm this on oath if necessary and required.

Thus done the 28th of September A° 1648 in *New Amsterdam*, *New Netherland*.

COPIES OF TWO PROTESTS BY BRANT VAN SLECHTENHORST AGAINST DIRECTOR STUYVESANT.

Whereas the Hon^{ble} General *Petrus Stuyvesant* has again on the 4th of September 1648, through his Hon^{ble} Vice Commander *Carl van Brugge* and Mr. *Labbatie*, served a notice on me, I answer thereto: That in Fatherland, which with this constitutes but one Province, no notice can be given, much less can it be put in execution, except with the previous consent and advice of the sheriff, or the court at the place there, on pain of nullity and arbitrary correction, as I myself, on the 18th of May last, informed Mr. *van Brugge* respecting a notice to be removed from the gate. Also, that the Secretaries sign all judgments and not the High Sheriffs, and the notification can much less be admitted, inasmuch as the first complaints of 23rd of July of this year, state "within the range of a small cannon shot," and now on the 4th of September, on one and the same question, "within a musket shot;" which is wholly in contradiction the one with the other. To this must be added, that the Hon^{ble} General suffers whole streets full of houses close under *Fort New Amsterdam*. Now, if the Hon^{ble} General or his Hon^{ble} Councillors can show me a contrary commission from their High Mightinesses, our Sovereigns, and the Lords Proprietors of this Colony, my liege masters, I will in all things obey it, but failing such exhibit and proof, I am by office and honor bound and obliged to obey my aforementioned commission and orders. It likewise seems surprising to me that the General should endeavor to use the power vested in and intrusted to him, against us and in our person against our young infant Patroon, whereas he ought to live

* Gardiner's Bay at the East end of Long Island.

also as a Christian neighbor, and employ proper military force against your and our enemies; the rather as, heretofore, not only have protests been simply made against this, but it has been complained of to their High Mightinesses, our gracious Sovereigns, whom the General also acknowledges to be his Sovereigns, and his Honor also intend to complain to their Noble Highnesses. Therefore, it is not becoming to employ such means, more especially as, on examination of the subject by their said High Mightinesses, no disposition has yet been made of it, and the site of the house in controversy, is situate about 500 paces from the Fort, beyond the range of a musket ball, and a small house belonging to the same lot has stood there previous to our difference and to this date as well as ten other houses in the same quarter.

A great deal is said about false and mendacious protests. I hope to show the contrary hereafter before impartial judges; therefore I here also protest against you. Consequently, I protest a second time, in the quality aforesaid, First, that those who ought to be my good friends and neighbors, according to their previous letters prevent me from performing my duty and executing my orders; and this I do before God and the High and Mighty Lords States General, our Sovereigns and the Lords Proprietors of this Colony, and at the same time against all damages and losses, mischiefs and disturbances arising, or that hereafter might be suffered herefrom.

Done *Renselaerwyck* this 8th of September A° 1648.

B. V. SLECHTENHORST.

After collating this is found to agree with the signed and dated original by me *Jacob Kip*, deputy (in the absence) of the Secretary, before and in the presence of witnesses hereunto invited, this 30th October A° 1648, in *Port Amsterdam* in *New Netherland*.

The Hon^{ble} General *Petrus Stuyvesant* uttered heretofore on the 21st of September 1648, and again for the fourth time, of the 23^d of the same month a verbal insinuation or threat, by his Vice Commander Mr. *Carel van Brugge* and Mr. *Labbatie*, who assisted by an armed soldier, dared of their own authority, without asking previous permission, as is customary, to burst suddenly, not only into the Patroon's jurisdiction but even into the Patroon's house, without any commission or orders, nor exhibiting a written copy, which was demanded of them and declared-That they would demolish and pull down the house and building of *Jan Tomassen* and *Rem Jansen*, the smith, and that the General had sent, for that purpose, in his sloop, divers soldiers and sailors, to accomplish the above exploit.

This pretended objectionable building is situate beyond the five hundred and fifty paces, as the Vice Commander had, on the date aforesaid, himself acknowledged, and is plainly beyond the range of a musket shot, and even out of sight of the Fort or trading house, according to the Hon. General's own previous claim, dated 29th of August last, and this is again stated in his last letter transmitted by the soldiers, wherein it was demanded only that we should abandon the supervision of the Fort and the jurisdiction thereof as that had, up to this time, been provisionally permitted contrary to order and authority.

That an entire hamlet had been allowed to be built close under the aforesaid house. That the Patroon's house and court should constitute one district; as the Vice Commander at divers times and lastly on the 23^d instant, represented.

Thus, the objectionable house was not any obstruction in the least, but the ten houses which stand to the North between the two except on the west side; and besides that, the Patroon's woods, not a stone's throw off, on the West, Southwest and Northwest of the Trading house are not meddled with, though a hostile attack would come principally from that quarter. Hence it is notorious, that all proceeds from passion. The same is the case on the East; for the said block house had not

heretofore, nor yet has any opening or prospect except what is visible half a league up and down the river. So that it is a farfetched objection, void of reason and foundation, and as much justified as *Cousin Gysbert* who, as we read in *Esop's Fables*, stood at a cascade on a high hill and drank, and then complained of a sheep who stood in the stream below, that she roiled the water. It is therefore beyond dispute that a difficulty is created where none exists. The Hon^{ble} General apparently listens to some lying busybodies, who seek rather to foment trouble and discord between Christian neighbors, than to promote peace and concord, which, indeed, is the truth.

It is declared that buildings should not be erected so close to the Fort, as the latter is thereby obstructed in time of necessary defense; and, as heretofore in the Articles of Complaint (*Gravamina*), "the Fortress is seriously weakened in time of defence and necessary resistance."

So far as regards the renowned Fortress, men can go in and out of it by night as well as by day. *Slechtenhorst* has now been more than half a year in the Colony, and the nearest neighbor to the Fort, but he never has been able to discover one person carrying a sword, musket or pike, nor has he heard or seen a drum beat, except when the General himself came there last July with soldiers.

Therefore we cannot understand or perceive, whereby or wherewith such defense can be made. But there are valiant soldiers, when they are armed with ax and gun, to cut down the best and nearest timber in the Patroon's woods, and to shoot the game and steal the stone belonging to the Patroon. 'Tis wonderful that the General should take such needless trouble about the Patroon's Colony and worry himself about his buildings, whilst his Honor tolerates a number of streets full of buildings within thirty paces of *Fort Manhattan* where his government is, and does not first apply a remedy there; more especially as the General himself writes under date of 29th of May 1648, that he is already expecting a war with the English, which God avert! It must, moreover, be remarked in addition, that the ten houses have stood many years, and still continue between the two,* in peaceable and undisturbed possession on the Patroon's own ground. Of these, the last small house and garden are on the border and extend up to the low ground† of the Trading House, and also remain in undisturbed occupancy on one and the same spot where, in fact, the Patroon's own Trading House formerly stood. Besides this, I hope and trust that the Hon^{ble} General and his Council are not so prejudiced against *Slechtenhorst* but that they will legally show whether their jurisdiction is more extensive and greater than that of their predecessors, especially as it is a well known and established maxim in law, that he who will have, must first and foremost prove his right, and having fully established it, it shall never more be questioned, but on the contrary.

Thus, legal means are employed to eject a person from his ancient and just possession and occupation, but no violence or armed force, which have been used here, for this cannot and may not be tolerated in any land of justice, and is wholly contrary to the free laws of our dear Fatherland, to which laws every one in this country is individually bound by oath to render obedience.

In like manner, at one and the same time, have the three persons demanded of *Slechtenhorst* to show them his commission, or a copy of it, and on his refusal proceeded to summon him, *Slechtenhorst*, in the name of the Fiscal, to appear at the *Manhatens* within three weeks.

To this *Slechtenhorst* repeatedly answered, that he should take no notice of such improper compulsory laws, much less of the summons, before and until they should first furnish a copy of

* The Fort and the Patroon's Trading House.

† Mouth of the Fort?

all the papers, as is customary according to practice and order, and protested against all the aforesaid illegal notifications. This copy having been refused, he made further answer: Had the General desired, or expressed the slightest request to see *Slechtenhorst's* commission during the six weeks the latter was within his government, yea, in his very quarters, he would most cheerfully have exhibited, and is still willing to show to his Honor and to his councillors, as our Christian neighbors and friends which they ought to be, not only his commission and orders, but even the plan of the settlement itself. But reflecting that the Hon^{ble} Patroon had been invested by their High Mightinesses the States General, our gracious Sovereigns, and the liege Lords of the Colony, with high and low jurisdiction within his possession and granted territory, he would seriously prejudice not only their High Mightinesses, but also the Patroon in his acquired right and possession, were he, *Slechtenhorst*, now in his quality and being within his own jurisdiction to exhibit, in consequence of such improper measures, his commission before he had received orders to that effect from his gracious Sovereigns and his superiors. As already repeatedly stated, it would indeed have been a violation of his honor and oath were he, to the prejudice of the aforesaid Patroon, to surrender so childishly and rashly, the immunities obtained from their High Mightinesses, which are entrusted to him. But all the aforesaid is as well founded as in the first *gravamina*.

On the second and following points: viz, the arrest of the grain and masts.

Cannot a person execute a civil attachment against his own grain and masts on his own soil and within his own jurisdiction; on property afloat and moving on land, as happened in the case of *Jacob Jansen Hap* on the 6th of June 1648, who, on his own authority, cut down two large pine trees for masts in the Patroon's woods, and brought them down to the waterside and on the 8th of said month, notwithstanding the attachment, made them fast to the vessel and towed them to the *Manhatuns*. And this still is set forth and stated in the aforesaid *gravamina*, although not the slightest complaint has been made to us on the subject. What consistency is there in this? It is in truth a weak and unheard of complaint. But one sees easily a mote in his neighbor's eye and does not perceive a beam in his own. Therefore no attention can be paid to all the erroneous, illegal, indecent, violent nullities, much less to the summons and citation of the Fiscal, inasmuch as we have not been furnished by the citation with any written information, much less a copy of either one or the other, but such has been refused us. Neither can we notice the writing handed us on the 21st of September by the armed soldier, as the citation does not mention any day, date or year; less so, as the last summons conflicts by essential errors, with the second, as has heretofore been sufficiently demonstrated, whereto we refer.

In addition to this, it happened that on the evening of the 21st of September, whilst *Slechtenhorst* and his fellow councillor, *Andries de Vos*, were walking together in the public streets, without speaking a word to any one, they were saluted with curses and swearing by the Holy name of God, by the soldiers that were sent up, who sought to pick a quarrel and make a disturbance, saying: Why do not people wish them Good evening? In consequence of this insolence and insult complaint also was made, that the people were deprived of the free use of the public streets, so that through the arrival and threats of the soldiers and sailors, and their declaration that the aforesaid building should be pulled down and demolished, not only the Colonists but the Indians themselves were in a great uproar and much excited and embittered against your Honor, and said: If *Wooden Leg*,* to whom we have given a present for it, should now come and pull down our house, where we when needed and in the winter season proposed to

* The Indians' name for Director *Stuyvesant*.

sleep under cover, as the Lords can now fully perceive by article 9 of the propositions of the Indians themselves, it was not to be endured, and the former Treaty is manifestly broken. Accordingly, in truth, some Indians on the 21st of September, and even before that, previous to the indecent verbal summons of the Vice Commander, of *Labbatie* and the soldier, did come to him, *Slechtenhorst*, and asked for guns and offered to assist *Slechtenhorst* on all occasions, and added, that they would also give him a place in their *Mohawk* country. So that more friendship was offered by the Indians and heathen than by those who are of the same religion and subjects of the same sovereignty, and who are, moreover, bound by office and oath to assist our Colonists in all need and difficulty, as already repeatedly stated. Therefore, the Hon^{ble} General and his Hon^{ble} Councillors may rest well assured, (though, we may add, it is in nowise our opinion or intention), that even were they to send, instead of seven or eight, all their soldiers besides the sailors from the *Manhatuns* they would not be feared, which God forbid.

On the 4th of October when the Indians were on their way home they heard the soldiers fire several times. Whereupon the Indians returned and asked: If *Wooden Leg's* dogs were again carrying off any thing? So that *Slechtenhorst* had four times more trouble and apprehension to manage the Indians than his own party, and had to accost them with civil words and to tell them that they were misinformed, and that the houses should continue standing, and thus I pacified them. As all the Christians are absolutely in the power of the Indians, particularly if Christians joined them as might easily happen here, every one who has arrived at the years of maturity and is conversant with the affairs of dear Fatherland can readily compute what consequences, what bloodshed would have followed such extreme and rash proceedings—what ruin not only of the Colony, the Trading House and the *Manhatuns* but all the Christians in this country, which has cost dear Fatherland heretofore so much blood, trouble and expense before it was brought under the obedience of their High Mightinesses the States General. We shall wait with patience to see whether these foregoing indecent, yea violent attacks and the proceedings on which depended life and property will be pleasing and acceptable to their High Mightinesses the States General, our gracious Sovereigns, and the Lords Proprietors of this Colony.

It is also a strange and unheard of proceeding that any one of his own authority, should come, sword in hand, into another's jurisdiction to serve a civil notice or summons, and that without the previous consent of the Sheriff or Court there. Hence, it is to be manifestly concluded that he intends to accomplish everything by force. This is further to be inferred from the fact that the sloop was employed fourteen days, with soldiers and sailors in that expedition, and must travel a distance of seventy-two leagues, to and fro, in the winter. We have moreover, most emphatically, at divers times protested against it on the ground of nullity, as we do not admit, and as we have not recognized such improper, compulsory notices. *Slechtenhorst* has heretofore treated *Verbrugge*, on account of his Lord and master, courteously and respectfully, in order to remove a notice which was posted up in his jurisdiction (as is previously more fully mentioned), and at the same time told him that not only are the acts of those persons who serve such and similar notices null and void, but they themselves will be arrested and condemned to bread and water for five or six days, indeed have been publicly pilloried, and that by small cities in a Province where the right of appeal lay from the aforesaid cities; indeed, such happened to messengers of States that were Sovereigns of the Province, so that the States and Courts have written in a most friendly manner to their small cities to release those messengers. Such improper notices being a contempt and disrespect not only towards the Court or Patroon, but also our gracious Sovereigns, whose place we occupy here, 'tis the rule when now a notice of a Court or the States of the Province to its inferior cities is given to a sworn messenger, he must first and foremost ask consent and

assistance from the officer of the latter place, who then gives him written permission (*Fiat insinuatío*) on the margin of the paper to serve the notice, which written notice or order the messenger must then take to the City Marshal who then serves the summons in the first instance verbally and in writing on the party and then makes a return to the messenger. This is a legal notification or summons, but otherwise it is null.

Your Honor applies to me unjustly the epithet, Defamer, which is given to a person who either fraudulently or forcibly robs another of what belongs to him. He whom that does not concern need not assume it, and I shall still maintain that the young Patroon should not be wronged by your indecent, insufferable, most violent attack through a letter without either day, date or year, which is all too notorious, and conclusively established by sweeping letters and actions. The truth, therefore, does not require any witnesses, as the contrary shall in due time appear manifest before impartial judges; so that the above epithet, though too gross, is endured, and I, therefore, protest against it, whilst those who, according to previous letters, ought to be our good friends and Christian neighbors, prevent me from performing my duty and executing my orders within my Patroon's jurisdiction, without being able to show me commission or command to the contrary, as already stated. This is more especially the case as ten lots are already engaged, and not only myself and the Patroon, but other respectable persons are thereby obstructed and damaged and will be prevented from erecting additional buildings solely by reason of your proceedings, which have no foundation in right or reason.

Therefore the aforesaid *Slechtendorst* in his quality aforesaid protests for the third and fourth time against all the aforesaid nullities and against notorious force and violence, and that before Almighty God and to the Honorable, High and Mighty Lords States General, our gracious Sovereigns and liege Lords of this Colony, and at the same time against all hindrances, damages, losses and mischiefs which have been caused, or may hereafter happen to be created hereby.

Done in the Colony of *Renselaerswyck* on the 20th of October, Anno 1648.

(Signed) B. V. SLECHTENHORST, Director of the Colonie aforesaid.

After due collation this is found to agree with the original, signed and dated as above, by me JACOB KIP assistant secretary, in the secretary's absence, in the presence of, and before witnesses hereunto invited, this 30th of October 1648, in *Fort Amsterdam* in *New Netherland*.

MANDAMUS TO BRANT VAN SLECHTENHORST TO APPEAR BEFORE THE DIRECTOR AND COUNCIL TO ANSWER SUCH COMPLAINTS AS WILL BE MADE AGAINST HIM.

What complaint we, as Sheriff and Fiscal of *New Netherland*, have against *Brant van Slechtenhorst* Sheriff in the Colony of *Renselaerswyck*, he shall hear and see when he appears on our issued summons before such judges as are thereto qualified by their High Mightinesses and the Hon^{ble} Directors, whose province it is to decide whether the summons be legal and correct or not, the trespasses and injuries respecting which it was issued being previously exhibited and proved. And we assert that we are not obliged to summon Sheriff *Slechtendorst* where he holds his domicile, much less before the court of *Renselaerswyck* where the accused party is himself plaintiff and judge, and no other magistrate besides him, qualified thereto by commission of their High Mightinesses, or by commission from the Patroon, except *Anthony de Hoges*, the secretary, who, in like manner,

cannot be witness and judge. It is sufficiently admitted that the Judges and Councillors appointed and qualified by the Patroon, have long since become dependent on and subservient to this officer, and therefore there exists no proper court of Justice, neither are any judgments pronounced before such court, acceptable and valid wherein their High Sheriff or Director is, himself a party, plaintiff and judge, or at least where he had only one qualified councillor with him. We will not enter into a discussion here respecting the Commandant's assumption, that the Colony has high and low jurisdiction; but we assert, conformably to the Exemptions, that the high jurisdiction in *New Netherland*, belongs to the Company, and that the Colony is subordinate thereto.

Whether the notice or summons was made in writing or verbally, is, in our opinion not so much the question as, was it served? This was done once, twice and three times by the Company's Commissary in *Fort Orange*, in the presence of two credible witnesses, and the Commandant's exception is purely frivolous, since in Fatherland it is not customary that any summons should be made in writing, but only verbally by the sworn messenger, and the Commandant herein contradicts himself, inasmuch as, at the close of his nullities, he himself writes that he received the notice on the 28th of September, through his door.

It is a flimsy misrepresentation (to say that whenever any summons and notices are served, the defendant is informed why he is summoned and subpoenaed; this is in no place the practice; and no copy of a notice can be furnished to the defendant, because the summons before all Courts is made verbally; and whenever the defendant appears and a written complaint is lodged in Court* against him by the prosecutor, then it depends on the pleasure of the Judges to grant the defendant a postponement in order to answer in writing the written complaint.

That the summons and notice is served in Fatherland by a sworn messenger, and of the same jurisdiction, and with the previous knowledge of the Sheriff is, in part, correct and well known. But that does not apply in this case, because the Commandant, who is defendant, is himself, as we have seen, Sheriff, Judge, and Court Messenger, and up to this time we are not informed of any other Sheriff, Judge or Court Messenger than the defendant himself. What, then, can be more preposterous, or more unprecedented in a Judge on the Bench, than to have a person summoned before himself, or by himself, and to try him, himself? The Director General and Council will have to justify, and their resolutions will doubtless explain the purpose for which the soldiers were sent. We will say, however, that it is a barefaced falsehood to state that they were sent by us to serve a written or verbal notice. As regards the alleged insult—that three armed and hostile persons burst into the Patroon's house—those who perpetrated the insolence shall have to answer for it. But it appears to be a false accusation, inasmuch as it appears by the witnesses, that Commissary *Van Brugge*, by whom the notice was served, knocked respectfully at the door and was admitted by the defendant's daughter, when he, according to orders, requested copy of *Van Slechtenhorst's* commission; the same having been refused, he summoned him properly to repair to the *Manhatans* to vindicate his refusal, as the Commandant admits in another missive. Hence it is evident that the defendant well knew in part what he was summoned and subpoenaed for. From all this, it is manifest and notorious that all the exceptions taken to the legality of the service of the summons are null and not worthy of consideration. Besides that, according to law, it is not the province of a defendant, but of the Judges to declare a summons legal or illegal, so that it follows from all this, according to all law, that the Sheriff, the defendant, is to be apprehended as contumacious, and the exhibited complaint prosecuted. As to the defendants complaints of the length of the voyage and of the inconvenience of the winter weather, both these are nothing else

* *Vierschaer*—a criminal Court.

than frivolous excuses for delay, because his futile answer will show when the summons was served and the date of his reply of non acceptance, at which time the vessels sailed up and down the river, some twice, some three times, and made very pleasant voyages.

But in order to exempt ourselves from all charges of precipitancy and harshness, the rather as winter is now approaching, we have, with the knowledge and approbation of the Director General and Council (*salva actione litis*) granted the defendant a delay until the spring when the first vessel will be coming down. Wherefore, in order that he may not set up any further pretext for delay, or exception, we hereby summon him *de novo*, in writing and verbally, through Commissary *Van Brugge*, to appear on the first Court-day in the month of April, which will then be, God granting life and time, Tuesday the fourth of the aforesaid month, before the Director General and Council of *New Netherland*, his competent judges, and before them to hear and make answer to such accusation and complaint as we, in our quality of Sheriff and Fiscal, shall officially and as in duty bound institute against him.

Done *Manhattans* this last of October, 1648.

ORDER. CAREL VAN BRUGGE, COMMISSARY OF FORT ORANGE, TO PROCEED WITH THE REPAIRS OF THAT FORT, AND TO DEMOLISH ALL BUILDINGS WITHIN A CANNON SHOT OF THE FORT.

Whereas by divers letters from our Commissary *Van Brugge*, the testimony of others, and personal reports of inhabitants of the Colony, we are informed of the improper proceedings which Commander *Van Slechtenhorst* usurps and commits not only over his own inhabitants, in violation of law and the granted Exemptions, as he forbids them on pain of the heaviest fine to appeal from his court, but also against even the Company's servants and vassals, to the disparagement of the charter granted to their High Mightinesses and infraction and nullification of the Freedoms granted to the Patroons, in blinding and blockading the Company's fortress by divers buildings, ploughing the ancient gardens and fields situate at the dry moat of the fort and heretofore always made use of by the Commissaries, chiefly endeavoring to prevent, so far as lies in his power, the necessary reparation of "the Fortress," as he himself sneeringly styles it, because it can be entered by night as well as by day, being severely damaged in the latter part of last winter by the extraordinary high water inundation. As it required, for that reason, necessary repairs, we therefore ordered and commanded our Commissary there not only to repair it, but to put it in a proper state of defense, to wit: to surmount it with a wall of stone instead of timber, so as to obviate the annual expense and repairs. This being already begun, Commander *Slechtenhorst* forbade the quarrying of stone and the cutting of timber and firewood needed by the fort, within the limits of the Colony contrary to a former and obsolete prohibition, and the farmers and inhabitants to cart them, all according to the tenor of his ordinance, without the knowledge or consent of us and the Council of *New Netherland*, and yet not designating how wide the limits of the Colony extended, or to point out where the Company may cut its wood or take the stone. This was never before done by any chief officer of the Colony or tolerated by any Directors and Council, our predecessors, as it tended not only to the palpable belittling of their authority and general commission, but especially to the violation, infraction and nullification of the Incorporated West India Company's supreme jurisdiction, which extends as well over the Colony of *Renselaerswyck* as over others; if this be tolerated, other Colonies such as *Heemstede*, *Flushing*, *Gravesend* &c would be expecting

more. Carrying out this principle, the Hon^{ble} Company are finally deprived of firewood and timber necessary for ships, churches, forts and other buildings, or become obliged to beg these from their vassals and subjects, and what is worse and more to be apprehended, must purchase them at the highest price, and consequently through our inability we degrade and convert their high into low jurisdiction, contrary to the charter of their High Mightinesses, and infringe on the Company's prerogatives. Being bound by commission and oath to maintain both, We, therefore, do hereby authorize and earnestly command our Commissary to proceed with the repairs of the Fortress, and to that intent and service to cause timber to be cut, stone to be quarried in and hauled from the mountains, cliffs and plains in any part of *New Netherland* where it may be most convenient for him or the Company, except only the Boweries and plantations which are already fenced and cultivated, or may be hereafter fenced or cultivated, within which he or any of the Company's vassals shall not be at liberty to cut timber or quarry stone, unless with previous knowledge of the proprietor or occupant; and in case the jealousy of the Commander may constrain the inhabitants of the Colony, and hinder them from lending a helping hand to the work with their horses and wagons, we order our Commissary to have a wagon made for himself, and to use therefor the horses of Mr. *Jonas Bronck*, now on the bowery of *Corler* against whom the Company has a just claim in consequence of an honest debt; this, however, is to be with the previous knowledge of the reverend Dom^e *Megapolensis*, his agent and attorney, and an account is to be kept of what they cart and earn each day in the Company's service. And we also, in like manner, authorize and charge the Commissary especially to maintain the Company's high jurisdiction, ancient and previous use of the gardens and lands situate under the Fort, and not to cede the smallest iota thereof, unless the Commander exhibit to him, according to our previous demand, later and other order and commission from their aforesaid High Mightinesses, our Sovereigns, the Lords Directors, our superiors and Patroons, authentic copy whereof he shall transmit to us, so that we may then otherwise order. Finally, in order to maintain the jurisdiction of the Fort, the resolution we last sent for the removal of the houses built within musket or small cannon shot shall be peremptorily executed if not already obeyed. Thus done in Council in *Fort Amsterdam* in *New Netherland*, the 2^d of November A^o 1648.

LETTER FROM THE DIRECTORS TO PETER STUYVESANT : CENSURE FOR MEDDLING IN KIEFT'S AFFAIRS
 ENGLISH CLAIMS; RENSSELAERSWYCK AND FORT ORANGE; FISCAL VAN DYCK'S COMPLAINTS;
 PREACHERS; IRON MINES.

January 27th 1649.

Honorable, Worthy, Pious, Dear
 and Faithful Sir :

Our last letter to your Honor was dated on the 10th of April of last year, by which we informed you of everything necessary.

We have in the meantime received by different channels many letters and documents or any way the duplicates of the documents, which have been lost by the wrecking of the "*Princesse*" and although we see now, that many of the letters have been completely answered by our aforesaid letter, we yet find in some of the more important ones points, which require a reply from us.

Before we proceed however, it will be necessary to specify the letters, which have reached us to wit:

In 1646, Octbr. 15 and 16 on board the "*Princesse*" then in port at *Barbadoes*.

1647, January 15, from *Curaçao*.

Two letters without date of day or year arrived by way of the English *Virginias*.

A letter dated August 4th 1648.

Another without date concerning only your Honor's private affairs.

Two letters of 2^d and 23^d of September of last year.

Further the following letters from *Lucas Rodenborch* at *Curaçao*, dated respectively June 3^d and Septbr 2^d 1647, April 6th and May 5th 1648.

A letter of March 22^d 1648 from *Jan Galeart*, schoolmaster at *Curaçao*.

One of Septbr 6th 1648 from *Carel van Brugge* at *Fort Orange*.

Three letters from D^r *Backerius*, dated August 7th and Septbr 2^d and 22^d 1648.

One from Fiscal *Hendrick van Dyck* of Septbr 4th 1648.

Besides reading all the abovementioned letters we have also taken up the minutes of matters, which have happened there and examined the books; we shall communicate the result to your Honor in due time.

Although you complain, that we have not promptly and thoroughly replied to your former letters, we can only find some unimportant matters, which we tacitly passed over, because we lacked sufficient information, to come to a decision concerning them: for instance, you had asked for our approval concerning the confiscated ship "*Liefde*", *Huybert van Ree* master, but we had not received either the proper information nor the report of the proceedings, which only reached us now. We can only agree with you, that it was confiscated for good reasons, but at the same time we cannot approve, that the goods, after having been inventoried by you, were not sold at public auction, that their value was not announced and the required three summons of the Fiscal were not published: all this could have been done in better shape on shore, than to pass such a sentence on board of the ship. Now the owners sue us for it, demanding an indemnification of 10,000 fl and they will undoubtedly avail themselves of the abovestated arguments, but we have not yet seen their complaint in writing. What is alleged in this case, may also brought up against us concerning the embargoed ship *St. Beninio*. Nobody has as yet taken any steps in this matter, but we are already involved in a formal proceeding about the ship with its freight of hides and tobacco, the former owner of which has come here now to claim these goods, asserting that he is a resident burgher of this place: this, we believe, can be reasonably said of his mother, but he himself has lived about fifteen years in *Spain*, as we understand. He complains bitterly, that he and the other prisoners have not been treated according to the Company's instructions, but that the whole crew has been sent adrift in one boat. Time will show, whether the arguments against it will appear plausible to the judges, meanwhile we are in a quandary and surprised by such proceedings, especially as we notice, that they have begun in *Curaçao* to dispose of some of these goods without process of law, then only one summons was published before you contracted with several merchants for a large quantity of hides. You have also approved of the plunder of a quantity of pearls and reals of 8; though the plunderers will represent it as a trifle, their assertions do not agree with the supercargo's accounts, much less with the demands of the parties in interest. We also find that this capture was made on the 15th of April 1648 and brought in on the 23^d, but to our very great surprise, you have only published one summons concerning this prize from that day until the 23^d of Septbr, the date of your last letter and we cannot learn, what legal proceedings you have

instituted. This case is nevertheless of great importance and you might have known that we would be called upon for explanations. But what surprises us most in this matter is, that you have not sent us a list of the cargo and that you say not a word in your various letters about the 2000 lbs. of *Maracaibo* tobacco shipped in this caravel, nor that you have received them and at what price they were sold.

This tobacco could be sold here at present for 8fl the pound and it is in our opinion not a matter of so little importance, as to be passed over in silence. It is therefore of the greatest importance, that you should send us by the very first opportunity a list of the whole cargo and all the documents relating to the confiscation, although we doubt, whether these latter will be according to the laws of this country, where no bench of judges has as yet confiscated a ship or merchandise to be kept by them after an arbitrary division and appraisement. Everything is here sold publicly, which we observe has also been the custom there formerly and was done in the case of the confiscated ship "*St. Peter*," although even then not all the formalities were observed, for we find in the report of the sale, that 30 pieces of duffels, delivered by *Johannes van Hardenburgh* to the Clerk of the Company's Warehouse were appraised at 54 st. the ell, while *Hardenburgh* has proved by certificates, that 24 pieces of the same duffels were sold there at the same time at 4fl the ell. When we made a provisional settlement with him in this matter, we directed you what to do in it, but you have nevertheless deemed it proper to re-open the case by sending us the declaration of *Simon Pietersen Pas*, as if we had not received it before or not paid any attention to its contents. We have only to say to this, that it had been duly examined in regard to everything having reference to this case and that we found necessary to settle on the already stated condition of it offsetting his claim against the import and export duties here, so that you need have no dealings with his brother there.

Your Honor has meddled with several affairs of your predecessor, which you had better have left alone, for before your departure you must have fully understood the dissatisfaction created in the Board by several acts of his administration, especially by the war with the savages, by his deficient and slovenly accounts of the Company's property and by the many uncalled for debts, which, we believe, he has contracted at the account of the Company. We think, it would have been better, to let him or his friends take the responsibility for these matters. The war, which it would have been wiser not to undertake, was over before your arrival; the debts arising out of the drafts, made by him, you have taken upon yourself by your signature, but we do not recollect that we ever directed you to do it, much less that you should concern yourself about the debts made by him at the expense of this Department; for it must be remembered that this person had been engaged by the Assembly of the XIX and that at that time an agreement between all the Departments existed, that all expenses should be defrayed out of the common fund. We cannot imagine therefore, what reason induced you to assume these debts for our account. Your Honor will soon learn how dangerous it is to meddle with other people's business, as already premonitory rumors are spreading here, that you have interfered in a sentence passed by him against *Jockim Pietersen* and *Cornelis Melyn*. We will not dispute whether they had not deserved it, but it would have been better, to let the dead man defend it, than to see, that upon a simple request their High: Might: accede so much to these people as to summon your Honor to defend this sentence either in person or by attorney. The first of the two is considered by many here an honest man and they are surprised to see him so intimate with *Cornelis Melyn*, who has always had a bad reputation and who, as we understand, will do everything to create trouble and mischief for us on the side towards the Swedish Colony. We shall have to say more on this subject, when we

come to the definition of the boundaries and will for the present continue to state our grievance, concerning the heavy burdens, laid upon us on account of *Curacao* and *New Netherland*, of which the latter has the reputation of being in a position to support itself, but also of having the capacity to share the superabundance of its production with other nations, especially with our other conquests. Yet we find in your Honor's letters many complaints of various deficiencies and wants, as if you were lacking there provisions or means of subsistence, while we can prove by the annexed memorial and calculation, that you must have received since your arrival there in values, money and goods about 170 to 180 thousand florins. If this one territory were to cost so much, then we would be compelled to resolve, that it injured the Company more than the same was benefitted by it. We desire therefore, that by the first opportunity a complete statement of the revenues and expenditures, as specified in the memorial, be sent to us. Undoubtedly the erection of the church or what was needed to complete it and the repairs of the fortifications have cost something, but that cannot be so great a part of the aforesaid sum.

We cannot understand, why your Honor has begun to erect a storehouse 100 feet long by 19 feet in width, for we do not know, what it could be used for. It is true, you proposed, that the Company should open a salesroom there provided with all kinds of goods and you pointed out several measures for that purpose, for instance, to compel all private people to deliver the merchandises, which they import there, into the salesroom against a fair profit of 60 to 70 percent. You are also of opinion, that a price for beaver-skins ought to be fixed, above which nobody should be allowed to purchase any and you add, that nobody ought to be allowed to trade, who is not willing to engage himself to remain there 3 or 4 years; that nobody shall have permission to sell at retail, except under the same condition, nor sail on the river in any kind of craft, except the burghers settled there, having real property of 3000 to 4000 fl. value.

We learn further, that you have taken the liberty to inspect some of the private warehouses with the intention of finding contraband goods and examining their books, which in our opinion are matters of grave consequences and altogether contrary to the laws of free trade, which the rules of this Department granted to all merchants; because the Department is as yet too weak to keep the trade to itself and must for the present be satisfied with the tolls. We do not mean to say, that we do not wish to see the Company in such a condition as to prevent all the trade of these private hucksters according to your intentions, but for the foregoing reasons we find these plans as yet impracticable. Your Honor must therefore temporize in all these matters until a better opportunity offers.

We are surprised, that your Honor has made alterations in the tariff for exported furs, receiving for beavers, otters, bear and moose skins 15 st a piece, and for deerskins 5 st., while formerly 8 pet were taken. We believe it is better to keep the old rates and cannot consent to a change of all these resolutions without knowledge of the Assembly of the XIX. Besides, it is not advisable, to burden these goods with more taxes than formerly, especially as beavers, which used to sell for 8 to 9 fl. are sold now according to their quality for 6, 7 and 8 fl.

* * * * *

At this time it is impracticable to make an agreement with the English here or in *England* concerning the boundaries, for we cannot discover, that any one is authorized thereto. The King is detained at *Winlsor* and kept a prisoner by the army under General *Fairfax* and his Lieutenant *Cromwell*, who to some extent have quartered their men upon the *City of London*, many of the

* See page 47 Vol. XII Col. History.

members of Parliament are prisoners or have left, the *Prince of Wales* and the *Duke of York* have taken refuge here, so that it seems that everything is turned bottom upwards in that Kingdom and that efforts are made to establish another form of government. May the Lord protect the people against danger. These are in brief the reasons, which we already gave in our former letters, why we cannot satisfy your Honor's repeated demands in this direction and we know therefore of no better remedy for the present, than that you must try to live in harmony with our English and Swedish neighbors, the more so, as in your own opinion, the English are much too powerful for us and it is not advisable that we should be involved into a war, of which we have, may God help us, enough now with the Portuguese in *Brazil* and in other countries, without reaping any advantage, especially since this faithless people have been with 13 ships at *Loando St. Paulo*, forcibly taking this territory of *Angola* from us. We consider it necessary to communicate these news to you, that you may not send ships thither and we fear, that they have also visited the Island of *St. Thomas*, but as the Director of that Colony had received information of this expedition, he may have been on his guard, and we hope, able to resist their attack. These treacherous proceedings annoy their High: Might: very much and they are at present engaged in deliberating, how they shall resent these affronts: they will not lack an opportunity, if God helps us.

Concerning your Honor's repeated complaints of the old claims of *Brant van Slechtenhorst* we shall confer with the owners of *Rensselaerswyck*, but we find, that they do not agree among themselves, as the heirs of *Van Rensselaer* intend to keep for themselves the Patroonship, notwithstanding the contracts prove, that they have partners, who jointly have borne the expenses and now complain, that they have never received an account of the management. We have come to the conclusion, that *Brant van Slechtenhorst* is a man of malicious character, that being also the opinion expressed by people, who have lived under him in the Colony. We shall confer about this with Mr. *Wouter van Twiller*, also about his private claims, and shall send your Honor our further resolutions as quickly as possible. Meanwhile we must urge you to keep up with our neighbors the friendliest intercourse.

In going over this matter, we are reminded that the wife of *Abraham Staats*, formerly a resident of *Rensselaerswyck*, has informed us, that with your Honor's consent she had built a house in *Fort Orange* and she now asks this Department for a confirmatory order, which as far as we know has never been done; but whereas she adds to her request, that she may enjoy such privileges, as we shall grant to our subjects, we do not know, what she may intend by this special request and can give herein no other order, than that she shall be treated with the same fairness, as all other good and honest citizens of the Fort. You believe, that inhabitants of *Rensselaerswyck* erect houses too near the walls of the Fort, intending to defy us, and that the outlook from the Fort must not be obstructed, at least in cannonshot range; you further state, they have more convenient lots along the river to build houses on, than so close to the Fort; the other side asserts, that they are compelled to do it, in order to be prepared for an attack by the savages. You will therefore well consider these reasons and take care, that while neither the one nor the other suffers by encroachments upon his territory, the settlers are accommodated as far as possible.

The many complaints against the Fiscal *Hendrick van Dyck* are very numerous to us. Although this man had been recommended to us very highly, we have yet been not without fear, that complaints would be made to us, as we had heard some bad reports before his departure. On the contrary, your complaints are confirmed by various witnesses, Mr. *Dincklagen* alone holding back, so that we are astonished at his hesitating to bear witness to the truth.

This same Fiscal charges in his letter of the 4th of September, that from the first hour of his departure your Honor had forbidden him the Council chamber and that he has not been properly supported in his duties, sending as proofs for the truth of his charges declarations of as he says trustworthy parties concerning his proper and decent behavior. These people are however unknown to us and whereas we notice, that his misbehaviors have often been forgiven, on promises of reforming, we desire to learn, that he is now living up to his promises; but if he should again forget himself and commit such excesses, that your Honor and the Council consider his mode of living to attract obloquy and himself unable or unwilling to serve the Company well, then you must collect all necessary information against him, that we may give everybody concerned sufficient reasons for his dismissal.

The request of D^r *Backerus*, made in several of his letters, has been approved as reasonable by the Classis and we were therefore obliged to grant it. We should have been more inconvenienced by it, if we had not entertained the hope, that perhaps the preacher from *Rensselaerswyck*, D^r *Megapolensis*, could be persuaded by fair offers to remain there a few years longer. We consent to it very willingly on account of the good character given him by your Honor. It is true, his wife has arrived here, it being the intention, that he should soon follow her and it seems, that his presence in person is required here for the liquidation of an estate, in which he appears to be much interested; nevertheless we have held tiresome conferences with his wife and it seems, that she could be persuaded to return thither to her husband, if she were assured, that she would not incur his displeasure. After having overcome his objections we hope to induce her to consent to our plan and we shall then consider his salary, which we expect to make satisfactory to him. You will therefore on receipt of this letter try to persuade him, to comply with the requirements of God's church and his community, the more so, as it is to be feared, that we may not be able for some time to provide this church with a minister: this measure is therefore the most advisable.

We shall also look out now for a good school teacher and gather information concerning the man living in *Harlem*, whom you propose.

Your Honor's appointment of *Rodloff Jansen* as Receiver-General at a yearly salary of 480 fl. without rations induces us to believe, that you must have a good knowledge of his honesty: on that understanding we approve of it herewith, although in our straitened circumstances all possible retrenchments should be made, for which reason we have here discharged all subaltern officers and we believe from information received, that there too are more than enough officers; all unnecessary officers should therefore be discharged, we cannot afford to keep them.

Although it is without precedent, that this Department has ever been godfather of any children, having when invited always refused it for certain good reasons, yet the Board grants herewith your Honor's request, expecting to be informed of the child's name to have it properly registered, that the Company, when in a better financial condition, may be reminded to reciprocate this honor by a keepsake. Meanwhile we shall pray to God, that He may let grow up this child born in *New Netherland* to His glory and to his parents' happiness.

We must acknowledge, that letters of exchange gone to protest do not add to the Company's reputation; nor would it look any better to accept them, when no payment can follow. We have said above, that we believe you to have enough funds of the Company on hand, that we might remain undisturbed. Besides this the owners of the ship "*Wapen van Nieuw Nederlandt*" call upon us for the sum of 10123 fl 15 st. for goods delivered at *Ouragao* in the year 1646; we find however in the letters of *Lucas Rodenburch*, that these goods and provisions were received under condition to be paid for in salt and horses and that they, at the time, received a lot of salt, we

believe, we can satisfy them by paying them in these values. We are sorry, that their ship has been lost and therefore add in our answer, that they may send for the salt by another opportunity.

We have learned of the precarious situation of the Island of *Curaçao* with great regret, the more so, as we have no chance of sending the provisions, required by your Honor; we have tried to freight a ship, but could find nobody willing to undertake the voyage upon so uncertain results, while we considered it unadvisable to charter a ship by the month, as you propose. If we had been sure, that a full ship's cargo of wood was ready on the Island, then we might have contracted for it, but we observe that a great mortality has prevailed there and fear, that but little wood has been cut. We would therefore have had but a losing freight, which at present is not at all convenient. We also consider it quite unadvisable to send more people to the Island, for that would only increase our expenses and the products of the Island do not pay for the outlay. There are enough good people on the Island, we think, to defend it and we shall take good care of its interests, when our solicitations concerning the great reform shall have been finally acted upon by their High: Might: which we hope will be done shortly.

The loss of the ship "*de Groote Gerrit*" has much inconvenienced your Honor in carrying out your plans, for besides not making a profitable venture with it heavy outlays have become necessary, which are made still more burdensome, because the country is not provided with the necessaries to equip a vessel on account of the lacking funds.

We cannot sufficiently express our surprise, that upon the report of one *Jan Sluyter*, who says, he has been a prisoner of the Spaniards at *St. Martin*, no search has been made for the gold mine, which he says, has been discovered upon the Island on the mountain, where our quarters have been. He asserts that the mineral is so rich, that 10 pounds of ore will yield 3 pounds of pure metal. We see that your Honor is very much grieved by the loss of the specimen sent by the ship "*Princesse*," since lost; but we do not know, whether that specimen came from this mountain, to which attention ought to be paid. We do not think, that the ironmine is of any benefit to us.

Your Council minutes of December 5th 1647 informs us, that you have published an order, according to which all Englishmen, coming for some reason from *New-Haven* to take refuge among us, are to be protected, because the Governor has refused to surrender to your Honor *William Westerhuysen* and *Samuel Godenhuysen*, who had deserted to *New-England*. This proceeding appears to us very hazardous at this critical time and the matter must be treated with great prudence, especially as according to your own opinion, this nation is much too strong for us. We must therefore guard against a strife with them.

You think, that if 10000fl. in small coins could be sent there, it might be advisable to drive the wampum gradually out of the country, but your own judgment must tell you, that in our present financial situation it cannot be done, the more so as we are much troubled by our inability to supply the provisions, which you so urgently call for. If we do not receive the proceeds from the sale of hides, we shall be obliged, to leave your requisition unfilled.

Recurring to your letter directed to the Commissaries of *New-Netherland*, we find it to be only a repetition of your general letter and can therefore not understand, what its purpose is, except that you believe, your complaints are not taken into as serious consideration by the Department, as they deserve. Your Honor may rest assured, that they are treated always with great care and seriousness; it is not the good will, that is wanting on our side, but the means, as repeatedly stated above. We send herewith the following papers:

The invoice of the goods sent by the ship "*Prins Wilhelm*."

Copy of the contract and bailbond made and given for the voyage of the said ship for your Honor's information.

We are surprised, that contrary to our orders and to the contracts made with Messrs. *Wouter van Twiller, Jan van Hardenbergh* and others you have made them pay 10 percent duty on goods sent hither, that being for every 100 fl. two more than the said contracts stipulate for. We have refunded this overcharge here but the matter is in itself of no small importance, that you receive the duties on merchandise sent here at your own discretion, when they ought to be paid here and that you made the aforesaid parties pay them. This must cease in future and we desire expressly, that you shall keep to the contracts and obey the orders received or to be received from us. Relying hereupon we are

MINUTE. OF A MEETING OF THE COUNCIL AND BURGHIER OFFICERS IN THE FORT, ON THE SUBJECT OF A JOURNAL WRITTEN BY ADRIAEN VAN DER DONK ; HIS IMPRISONMENT ; PROTEST OF MR. VAN DINCKLAGE.

On the 4th of March A^o 1649, met and appeared, on the invitation of the Hon^{ble} Director General,

in the parlor at *Fort Amsterdam*, Mr. *Dincklage*, Fiscal *Van Dyck*, *La Montagne*, *Brian Nuton*, Ensign *Baxter*, *Paulus Leendersen*, Commissary *Keyser*, Serjeant *Litschoe*.

Next, the Burgher officers: *Jacob Couwenhoven*, Captain; *Martin Crigier*, lieutenant; *Philip Gerardty*, *Peter Cock*, serjeants; *Borger Jorisen*, *Augustyn Heerman*, ensigns; by whom the following in a joint board and meeting was concluded and did occur.

Mr. *Lubbert van Dincklage* protests in Council against the Hon^{ble} Director, for that he has heretofore done, and still does many things without his previous knowledge; also for imprisoning *Adriaen van der Donck* without letting him know it.

Thus protested, Present all the above named officers and Burghers.

At the Council aforesaid was read the part of *Adriaen van der Donck's* Journal in which *Van der Donck* writes, that he has heard Mr. *Dincklage* say at *Melyn's* house, that he had violated his oath in the case, and that things do not go smoothly in *Holland*, and that among the States there are also who are perjured.

Mr. *Dincklage* denies having ever expressed what *Van der Donck* has stated in his Journal against their High Mightinesses and demands proof thereof.

Mr. *Dincklage* demands copy of a written by *Verdonck*, and taken out of *Michael Jansen's* house by the Director without his, *Dincklagen's* knowledge; against which he protests also.

The Director gives for answer, that it will be furnished to him *Dincklage*, at the proper time when the ships shall sail for *Holland*, and that for cause he cannot have a copy, as it contains things which must first be proved. This 4th of March, Present the abovenamed Councillors and Burghers.

Peter Cock says that *Van der Donck* shall remain confined until examined, as he deserves.

Borger Jorissen says ditto to *Peter Cock*.

The Hon^{ble} Director General is of opinion that for the removal of all differences and disputes, it would be requisite, to summon two deputies from each Colony and Town in *New Netherland* to deliberate on the highly necessary delegation for the best of the country in general.

Mr. *Dincklaghe* says, he will not meddle with the matter, and thinks that men ought to wait until the Lords States shall have given an order.

On the 8th of March.

The Hon^{ble} Director General produces in Council and exhibits to the members a writing; after reading it to them, he inquired their opinion whether said writing should not be read to the entire commonality when met.

Mr. *Dincklage* refuses to express an opinion thereon. Fiscal *van Dyck* advises that it is well and advisable that it be read to the commonalty.

PROPOSAL. OF DIRECTOR STUYVESANT, TO COMPEL ADRIAN VAN DER DONCK TO PROVE CERTAIN STATEMENTS CONTAINED IN HIS JOURNAL, OR TO RECALL THEM, AND NOT TO APPEAR IN COURT, OR AMONG THE NINE MEN, UNTIL HE DO ONE OR THE OTHER; WITH THE VOTES OF THE COUNCIL ON THE ORDER.

Proposition submitted in writing by the Hon^{ble} Director to the ordinary Councillors and other officers, the 15th of March A° 1649.

The ordinary Councillors and other superior and inferior officers are aware that we, by virtue of our office and commission, have quite recently caused one *Adriaen van der Donck* to be guarded in his usual residence or confinement,* on account of a slanderous writing drawn up in the form of a Journal, and found at the house of *Michael Jansen*, wherein he has grossly slandered not only some superior and inferior officers, but also their High Mightinesses themselves, or at least many among the Lords States are suspected and accused of perjury; as appears by the original thereof.

Authentic extracts of which having been read by the Commissioners to the aforesaid *Van der Donck* and a categorical answer demanded, the said *Van der Donck* responded in contempt of the court, in a dubious, or at least in an immaterial manner, nevertheless affirming in plain and distinct words the injurious and defamatory accusation partly expressed by him in writing to me, and partly read to others out of the Journal, tending to the special defamation both of our Sovereigns and the Councillors sent hither, to the maintenance of whose most illustrious renown we are pledged by our commission and the Laws of *Netherland* and by honor, oath and conscience

* Gijselinge—Debtor's Prison.

Therefore my opinion in regard to the equivocal deposition that has been taken is, that the deponent be ordered and constrained to prove and establish or to revoke what he has injuriously written or spoken against the Hon^{ble} Lords States and officers here; and in the meanwhile, until further information, that he absent himself from our Council and the Assembly of the elected Select Men (*gemeents mannen*). On which points, besides this, we also request the written opinions of the other Councillors and officers, hereby excusing and holding myself guiltless of the charge which may be brought against me, either here or hereafter, that I knew of the defamation and injury of my Sovereigns, and did not punish or notice them. Done *Manhatans*. (Signed)

P. STUYVESANT.

Votes on the proposition of the Hon^{ble} Director given by the Hon^{ble} Councillors, dated 15th of March A° 1649.

Lubbert van Dincklage, the Vice Director, says he will not have any thing to do with the Director's proposition; refuses to sign.

Hendrick van Dyck, fiscal, is of opinion, that *Van der Donck* shall not appear at the board of the Director and Council, or at the Assembly of the Nine men until he shall have proved the writing drawn up in the form of a Journal. (Signed) H. VAN DYCK, fiscal.

La Montagne is of opinion that *Verdonck* shall not appear in the session of the Council until the decision of the suit. (Signed) LA MONTAGNE. *Brian Nuton* votes like *La Montagne*. (Signed) BRIAN NEWTON. *Adriaen Keyser*, Commissary, votes as the Fiscal has done. (Signed) A. KEYSER. *Paulus Leendersen*, naval storekeeper, votes and in the case of *Verdonck* is of the same opinion as the Fiscal. (Signed) PAULUS LEENDERTSEN VAN DE GRIFF.

Director and Council have by plurality of votes decided that *Adriaen van der Donck* shall not attend the session of the Council or the Assembly of the Select Men when they meet, until he shall have duly verified what he has written in defamation of the Hon^{ble} States and of the officers and Councillors here. This 15th of March A° 1649. *New Amsterdam*.

MINUTE OF A VISIT OF THE DIRECTOR-GENERAL TO REV. MR. BACKERIUS, TO FORBID HIM TO READ,
OR TO ALLOW TO BE READ, ANY POLITICAL WRITINGS IN THE CHURCH.

This day underwritten the Director General went in person to the house of the minister *Backerius*, and there, in his capacity as Director, told the minister not to read himself, or have read by any of the Church officers, from the pulpit or elsewhere in the church, at the request of any of the inhabitants, any writing, petition, or proposal having relation to the municipal or general government, whether generally or in particular, before and until such writing shall be signed by the Director himself, or by the Secretary, by order of the Director and Council; but this is not to apply to ecclesiastical affairs which are left at the full disposal of said minister and consistory. Therein he shall be at liberty to order agreeably to church ordinances and the duty of a godly minister, wherein said Director General offers him all aid and assistance as far as this concerns him as Chief Magistrate of the country.

For further security and the performance of this contract, parties pledge their respective persons and properties, submitting to that end to all Courts and Judges.

In testimony this is signed by the parties with *Jan Nagel* and *Peter Jansen Noorman* witnesses hereunto subscribed, this 2^d of June A^o 1649, *New Amsterdam*.

PERMIT TO REV. JOHANNES BACKERIUS, MINISTER OF NEW AMSTERDAM, TO RESIGN HIS OFFICE AND RETURN TO HOLLAND.

Johannes Backerius, minister in this city *New Amsterdam*, appeared before the Council and requested his dismission, in order that he may return to *Fatherland*; therefore the Hon^{ble} Director General and Council having considered the urgent request, cannot refuse said *Backerius* his dismission; the said Director General and Council have accordingly granted him leave to depart for *Fatherland*.

This 6th of July, 1649.

RESOLUTION. TO RETAIN AND ENGAGE REV. JOANNES MEGAPOLENSIS AS MINISTER OF THE CHURCH
AT NEW AMSTERDAM.

Whereas Domine *Johannes Backerius* on his urgent petition, and, as he declares with the consent of the Classis, wherein the despatches of the Hon^{ble} Directors concur, has received from us license and dismission, in order to depart with the first ships for Fatherland, and in the meanwhile this congregation would remain destitute of spiritual nourishment, namely the preaching of the Holy Gospel and the lawful participation of the Blessed Sacrament, Therefore we, the Director and Council wishing to promote as far as we are able, the honor of God, the welfare and salvation of men, cannot consent that this congregation ought or can remain bereft of a pastor. Wherefore, on the instructions from the Hon^{ble} Lords Directors, we have resolved, as we do hereby resolve, earnestly and urgently to solicit and entreat the Reverend Dom^e *Johannes Megapolensis*, late minister in *Renselaerswyck*, who having obtained his dismission there, is now here and prepared to depart with the first ships for Fatherland, and seriously and urgently to inquire if he could not be induced by persuasive reasons, for the honor of God, the advancement of his church, and the salvation of men to supply here the service of the Word and the administration of the Holy Sacrament. His reverence has, as we are already informed, no weighty reasons to decline our invitation. Meanwhile the extreme need of the church work imperatively demands, that at least one clergyman remain in this province among the Dutch people, both for this capital and *Renselaer's* Colony, were it only for administering Baptism to the children who are commonly presented here every Sunday at the *Manhatans* for baptism alone, sometimes one, sometimes 2, yea even 3 and 4 together. Therefore, we excusing his reasons, cannot accept them at this time, but do hereby resolve, if possible, to endeavor to retain him *blanda vi et quasi nolens volens*, and we shall try to justify him to the best of our ability both to the reverend Classis and the Patroon from whom he has already received his dismission and settlement of account. Such we resolve, to be most necessary for the honor of God, the service of his church, and the salvation of the people.

Thus done in our Council this 2^d of August, present: The Hon^{ble} Director General *Petrus Stuyvesant*, *L. van Dincklage*, *H. van Dyck*, *La Montagne*, and *Brian Nuton*.

LETTER FROM THE DIRECTORS IN HOLLAND TO STUYVESANT: REV. MEGAPOLENSIS: SCHOOLMASTER
SENT OUT: REMONSTRANCE FROM NEW NETHERLAND: MELYN'S AND VAN TWILLER'S INTRIGUES:
FREE NAVIGATION OF THE NORTH RIVER: ABUSES IN LAND GRANTING: BOUNDARIES.

Honorable, Virtuous, Faithful Friend.

We wrote you last on the 28th of January 1649, when we fully expressed our opinion on all necessary points and since that time the ships "*Prince Willem*" and "*Valckenier*" have arrived here on the 4th of October last, by which we received two letters without date, probably of the 10th of August, because the letter to their High: Might: received by the same ships, bore that date. We have besides received your letter of the 23^d of the same month with enclosures and documents, meant to support the judgments entered there against several prizes and seized vessels: their owners here and others have much to say about them, the first on account of their losses, the others we think instigated by party spirit, for they are the deputies from *New Netherland*, of whom more anon.

We will briefly state in regard to the first class of complainants, that the owners of the "*Liefde*" trouble us a great deal by their demands of 10,000 fl: this suit looks very bad for us, because the owners have many friends.

The owners of the ship "*Beninio*," who have been silent so far, begin to stir now, taking the hint from the aforesaid deputies; but this shall not trouble us much.

The case of the seized hides has been arranged by mutual agreement, so that we need not say anything on this point. Nor is a further inquiry about *Hardenburgh's* duffels required, as we have compromised the matter with him, but we shall have to say more about *Arnoldus van Hardenbergh* himself. So far we have referred to matters, on which we have expressed our opinion in former letter with sufficient length, namely that in cases of confiscation everything must be done not only according to instructions but also with great caution, and we deem it necessary to remind you of this admonition: for, although we have not yet heard any complaints concerning the capture of the ship "*Jonge Prince van Denemarcke*" and the two Spanish caravels, we have no doubt, that the owners of the first are busy collecting evidence: they will receive powerful assistance from people here, who we believe have a share in the ship. We cannot but find from all the affidavits and documents, that the Commissary *Tielman Wilkens* has used every means to defraud the Company, while the treaty lately made between the Crown of *Denmark* and this country will encourage these people to prosecute this matter eagerly. The same may be said of the owners of the two Spanish caravels, the capture of one of which in your opinion might be contested, as having taken place at the time, when the peace with Spain had been already concluded. We have found it advisable therefore not to break the cargo of the said three ships, until we see, whether it is reclaimed.

We note, that some goods have been carried off by Captain *Blauvelt*, sailing under commission from *William Kieft*, which should be prosecuted either by you or here by us: we have not yet heard of them and observe as far as the wages and debts should have to be paid out of the proceeds of the cargo and the "*Prince of Denmark*," that according to the Commissary's calculations the proceeds do not amount to so much: but that is not our opinion, for if there exist sufficient reasons for the confiscation of the ship and her cargo, the creditors, who have provided the ship with some goods, cannot be considered, much less can the sailors demand their wages: we mean such of the crew, as are of this country; you will see by the ship's roll and the affidavits, that there are only very few foreigners among them and that they apparently will set up the plea, that they were engaged here and did not know, where the ship was to go, which they first learned from the articles of enrolment at *Gluckstadt*; then they would have willingly received their discharges, only they had been paid a month's wages in advance and could not refund the money. This is quite a flimsy argument, for some declare they had been charged not to tell, by whom and whereto they had been engaged; it must therefore be presumed, that they were regular smugglers.

Speaking of these confiscations we are reminded, that the Department of the *Maee* wrote to us about the necessity of sending the articles of peace to Director *Rollenbergh* at *Curaçao*, as complaints had been made to them, that the Director was still sending out cruisers against the Spaniards: we have no doubt, that as he has been with you for some time, you have given him the proper orders or instructions as to what to do in time of peace. We think, some ships from the *Maee* or from the other Departments may touch at the island, for they believe to have received correct information, that the Director has got ready a large quantity of logwood, which he intends to hold there to secure his salary: we can scarcely credit this report, but be it as it may, we desire you to warn him by the first opportunity against selling, alienating or in any way disposing of the wood already cut or hereafter to be cut without an express order from the Department of *Amsterdam*, for the island is subject to their control only. We hope to find means in a short

time, to give him space in a ship, in which to send the wood for the account of this Department and he may rest assured, that he shall be fully paid.

It is not at all strange, that the owners of the ship "*New Netherland*" complain bitterly of their loss, considering they lose not only everything brought to *Curaçao*, amounting to 10123 fl, but also their ship: we see however, that by the special agreement made with you, by which we find ourselves bound, they were to repay themselves in salt and horses. Only a short time ago we offered the owners the privilege of procuring salt and horses to the above named amount and think, they might be as well pleased with it, as we intended them to be.

When we send a ship to the island, we shall if possible provide the soldiers with socks, shoes and linen as you recommend, while we rely upon you to furnish provisions for them * * *

We are astonished, that you deny having received the statement of 170 to 180 thousand guilders, which you have collected there in cash for the Company's account. We are quite sure, that this statement has been sent twice, but even if it had not been, you have nevertheless received the money, besides what has been collected since. To repair the possible oversight we send you herewith another copy and expect your accounts, that we may see how the revenues have been employed. You say, that we ought to assume everything to be worth only about half its value, but we cannot agree to that, for we have made our calculations according to your own advices of sales and expenditures and as money is there more worth than here, we might be quite justified to add this difference to our statement: we leave however everything as it is until we receive your accounts. The recommendation of the Rev. D^r *Megapolensis* has in so far been attended by us, that we have paid to his wife 600 fl as six months' salary: as to how she has been treated by the heirs of *van Renselaer* on account of his services in their district, and which he will learn from his wife, we prefer to say nothing about it.

At your request we have engaged a schoolmaster, who is to serve also as comforter of the sick. He is considered as an honest and pious man and will come over by the first chance. Your transaction with *Vastrick* about the case of 36 muskets, entered into without our knowledge or approbation, appears very strange to us, the more so as you say, that you forgot to write about it, although it was of great importance and we fear, that for the sake of profit you have allowed yourself to be misled by people, whom you trusted and who now will abuse your confidence to your and our disadvantage. The same may be said in regard to the bowery taken up by you for your own account, as you may learn from the enclosed papers. We are pleased to see, that our resolution to diminish the tax on tobacco encourages its cultivation and we think, that the people in general will feel still more encouraged, as soon as our plans made at the *Hague* shall have been approved by their High: Might; which we expect confidently, for we have proposed all possible means to encourage the people to colonize and cultivate the land, as you may see by the enclosed project.

Mons. *de La Montagne's* petition has excited our sympathies, but we cannot see how we can dispose of it with justice because of the remonstrance of the deputies from *New Netherland*, of which we shall have to say a few words. If we were to relate all the intrigues set to work here by the said deputies *Cornelis Melyn* and *Wouter van Twiller*, to rob the Company of the land so dearly bought with money and blood, we should either have not time enough or our memory would shrink from the task: we refer therefore to the enclosures, which will show you their falsehood partly and point out their principal arguments for your information. We cannot however go on without renewing the warning, which we found necessary to give you some time ago: first concerning the defense of the late Director's administration, secondly, about the many

different placats and ordinances issued in the beginning of your own administration, of which some could not have been enforced, we believe, without great trouble and danger. It might be said with good reason in regard to the first point, that you need not have so much minded the calumnies of *Cornelis Melyn* and *Jochem Pietersen Cuyter* against Director *Kieft*, as to endanger your own reputation, especially as it had taken place before your time and could therefore be referred to us here. But we will not dispute the correctness of your judgment, as we desire only to say, that sometimes a careful consideration and prudence may prevent great troubles. As to the placats and resolutions, which are dangerous to carry out occasionally, we will only speak of what we have once before warned you about, namely the inspection of the merchants' books. *Hardenbergh* has formerly already complained of it and now this point is again urged by the insinuations of the said deputies, who distinctly assert in their remonstrance, that orders had been published, in which you direct, that the merchants should at all times lay their books before you and the Council: we must say, that this is not customary anywhere in Christendom, nor should it be so. We have as yet received no copy of such an ordinance and shall therefore not consider it any further, except what you admit yourself regarding *Arnoldus van Hardenbergh*, in whose case you acted on sufficient information of fraud committed in the measure of duffels sold to divers parties. This and similar cases will be the cause of a great deal of discussion, which we shall communicate to you occasionally.

Your apprehensions concerning *Domine Backerus*, the preacher, have, as you expected, been verified. He has made common cause with the complainants, come from your parts, silly people—at least the majority of them—who have been badly misled by a few seditious persons, like *Cornelis Melyn*, *Adrian van der Donck* and some others. These men seem to leave nothing untried, to upset every kind of government, pretending that they suffered under too heavy a yoke.

Wouter van Twiller confirms them in this opinion and aims at the command of the whole North river: he admits publicly, that he does not intend to allow any one to navigate the river for the purpose of trade and says, he will resist any one coming there or to *Rensselaerswyck* maintaining besides, that *Fort Orange* is built upon the soil of *Rensselaerswyck* and that therefore the Company has no right to let houses be built or private parties trade there. He forgets, that this fort was erected fifteen years before *Rensselaerswyck* was ever mentioned, that it has been always garrisoned by the Company's men and that a tradinghouse has been kept there for the account of the Company until the year 1644. The trade in peltries was exclusively reserved until then for the Company and it should remain so, were the Company in the condition to keep their storehouses well provided with the right goods: we hope that in good time we shall find means, to exclude from this trade all these impertinent fellows; we are justified in using our right, which this ungrateful customer, who so to say has sucked his welfare from the breasts of the Company, now tries to abuse. The traders generally have already complained to us and ask in the enclosed document to be maintained in their trade.

We apprehend from their warnings, that *Wouter van Twiller* may have once more the audacity to obstruct the navigation of the North river by force: if he uses force to interfere with the trade and thus defies the rights and jurisdiction of the Company, we desire you forcibly, but cautiously to resist his unfounded claims. Should he plant any guns near the river, as he has done once before, then you are to remove and store them until further orders. In behalf of *Rensselaerswyck* he has asked permission to take on board of his ship 600 lbs. of powder and 600 lbs. of lead, which we denied, fearing he might make a bad use of it. We shall send you by first chance some powder and lead, not to attack any one with it, but to use it in defending the rights

of the Company, which we notice many endeavor to curtail. Keep a sharp eye on the ship of *Wouter van Twiller* and if you find anything on board, not stated in our general invoice or shipped without the Company's consent, take charge of everything and let the Fiscal proceed against it in due form.

We find, we have been misled, in giving permission to *Augustin Hermans* to ship 400 pieces of oak timber in a vessel, which was first to sail to the *Caribbean Islands*, thence to English *Virginia* and finally to come to *New Netherland*. If we had then known this man as well as we do now, we would not have given him this permission, for we must conclude, that his intentions are fraudulent. You must watch therefore his trade and cargoes, that the Company may not be defrauded of dues.

Secretary *Tienhoven* will undoubtedly give you a detailed account of how *Cornelis Melyn* and his companion have tried here to affront the Company and you and how we have prevented it. But we cannot omit to state briefly, that these deputies, who came with credentials and other papers addressed to the Department of *Amsterdam*, kept them back for 9 or 10 weeks and first turned to the States-General in the expectation their request would be granted there without knowledge of the Directors. Not succeeding there, they delivered, for decency's sake, their letters through *Cornelis Melyn* in private to Mr. *Pergens*, without asking us for a reply. They addressed themselves then to the Diet of *Gelderland*, where they again belched forth their torrent of calumnies; if we did not restrain their absurdities, they would cause us a great deal of trouble. Formerly *New Netherland* was never spoken of and now heaven and earth seem to be stirred up by it and every one tries to be the first in selecting the best pieces there. It seems *Wouter van Twiller* has attempted to prevent this and with that view secured for himself warrants for more land than he ever intended to cultivate or settle, going even so far, that he claimed land patented already to others, as in the case of the *Cats Kill*, all patents for which had been granted to *Cornelis Anthony van der Slyck*. We are astonished, that this man, having a good claim to it, has not sooner come forward to defend it and under the circumstances he ought to be assisted: we think it however advisable to give possession to neither one nor the other at present, nor to convey any land to any one until further orders, for we are engaged in framing an entirely different form of exemptions and finding, that some people have grossly abused the good intentions of their High: Might: and the Directors by taking up large tracts of land, as for instance *Wouter van Twyler*, who took the whole of *Nut Island* and *Hellgate* without either planting or building on the former during the whole time, that he was bound to do so, we intend to assert, that their rights have lapsed and that the said colonies have reverted to us.

Inform us correctly, how it is on *Staten Island*, as far as *Cornelis Melyn* is concerned. This individual tries to gather here a large following, but we doubt very much whether he will succeed.

You say that the late Director has granted patents for four or five boweries across the *Fresh Water*, and that you cannot find, that any advantage accrued therefrom for the Company; that further the settlers are heavily indebted to and great enemies of the Company; this matter must be examined into, but we do not intend to disturb any one in his rights because of our own troubles; we repeat only, that in a new country, with only a small population minor matters must be overlooked; a tree grown wild must be bent gradually and with gentle hand. In the same manner, as some people endeavor to invade our property there, the attempt is made in other quarters: the *Lampsens* of *Zeeland* occupy the Island of *St. Martin* and lately one of them came

to the *Hague* intending to ask their High : Might : to convey the island to them as their property ; learning however that the affairs of *New Netherland* were then being discussed, they left again without taking any steps.

You will be informed by Secretary *Thienhoven* in regard to the lawsuit against *Melyn* and to him we refer you.

We have learned with regret of the troubles and difficulties, which some Christians have had with the savages, especially as we are not in a condition to take revenge : we judge therefore, that you have done well to arrange this matter by the most gentle means.

We do not think it advisable to consider at present your request of erecting a redoubt opposite *Staten Island*, nor the case of the soldier, whom *Cornelis Melyn* has debauched and who is still upon that island : we prefer to leave these matters, until the deliberations at the *Hague* have been concluded.

We have before now expressed to you our opinion on the question of the boundaries between the *English*, the *Suedes* and us and do not as yet see a chance, to treat about it properly here or in *England*. We had therefore recommended to you, to make if possible a provisional settlement of the boundaries subject to the approval of the higher authorities on either side. You said then, the *English* themselves had pointed out such a measure and as we cannot think of a better expedient, we hope the gentlemen of the government may hit upon something better, to obtain which no exertions are spared. We commend you, Honorable, Worthy, Faithful, to the protection of God and remain

LETTER FROM THE DIRECTORS TO STUYVESANT: RESULT OF THE REMONSTRANCE FROM NEW NETHERLAND: REV. MEGAPOLENSIS' TRACT ON CONFESSION: SCHOOLMASTER: BOUNDARIES: EMIGRATION.

1650, April 20th.

Honorable, Worthy, Pious, Faithful.

Our last letters were of the 16th of February and 24th of March ; in the former we told you, how the deputies, who had come here from *New Netherland*, by all imaginable means, many of which were to work indirectly, had known to give to their propositions such an appearance, that a number of mature minds have been deceived. Their undertaking then, assuming a look of danger for your reputation, the interest of the Company and especially this Department of *Amsterdam*, we were compelled to communicate with the Magistrates of this city, who have in so far countenanced our complaints, that they showed themselves inclined, to uphold our privileges. Very likely a great explosion would have been the result, if it had not been prevented by the careful management of the hon^{ble} Deputies from their High : Might:, who have discovered means, by which they expect to satisfy provisionally either side. A copy of their resolves goes herewith ; you may judge by it, how much trouble we have had and how dangerous it is to draw

upon yourself the wrath of a growing community. We must suppose, that you have trusted too much to some of these ringleaders or become too intimate with them: now, that their ingratitude and treachery have come to light, you must still act with the cunning of a fox and treat them in regard to the past conform with the abovementioned resolutions, to prevent that a new mistake may not make matters worse, than the first one did and that we may not be troubled any more by such contemptuous bickerings, the more so, as the Company is already sufficiently embarrassed.

The hon^{ble} Deputies are still engaged in deliberating on suitable means to add to the prosperity and population of the country. As soon as a written memorandum of their propositions has been delivered to us, we shall express our opinions and send you copies of either in order to learn, what you may have to say about it.

The case of *Cornelis Melyn* has as yet been tried on side-issues only, although your attorney has taken divers steps, by petitions, to keep it alive. It seems, he is not ready or intends to tire us out; meanwhile we doubt not, but you have procured, as we advised you, more convincing documents, for we must confess, that the evidence, brought over by your attorney, is rather shaky: the saying is, that a good case requires good help. Having thus far repeated in substance what we had written you before, we will briefly answer your last two letters of the 24th of November and 10th of December of last year, the main points of which have been already answered by our abovementioned letters, to-wit your request, that we should decide about the bouweries, which had been disposed of, especially the one, which you yourself desire to have. As yet we cannot say anything else about it, than what we have already said and to repeat our reasons. The same must be repeated in regard to the prize cargo, captured by Capt. *Blauvelt*, for we do not all intend to burden ourselves with such intricate cases, as we have our hands full to maintain our lawful claims: although we have directed to keep the goods in safe storage for the benefit of those, to whom they may be adjudicated, we learn, that sailors and soldiers at the *Manhattans* have sold to divers parties *Cochenille Silvestre** at shamefully low prices; you will therefore please to investigate, whence it came, for this matter gives food for various thoughts.

The wife of D^r *Megapolensis* will tell you herself, what satisfaction we have given her at your request: we shall consult with the deputed brethren of the reverend Classis in regard to the printing of the Dominie's manuscript on Confession† and inform you of their opinion.

The schoolmaster,** for whom you asked, goes out with this ship: God grant, that he may confirm the good character, which he has borne here, and continue for a long time in the edification of the youths.

We expect to provide you by the first opportunity with materials to equip the yachts, "*New Swol*" and "*Liefde*" now laid up, and if possible with the required sailors: meanwhile we hope to learn of the fulfillment of your promise, to send us a good cargo of timber by the ship "*Prins Willem*": it would raise our spirits, for it vexes us to be frequently told, that we derive no advantages from the country, that the province is only a burden upon our shoulders and that therefore the Company would do better to abandon it. That are the arguments of the men, who have tried to dispossess us of the country by intrigues.

We are astonished at the dangerous delivery of the Frenchman *Huy Ponterel* in the *Belle-court*. It has never been our intention to take him from the Indians against their will and you

will find that we ordered quite the contrary, directing that the savages should be paid for him 300fl without running any risk. We have not yet heard from his friends, how well pleased they are with his delivery.

A surgeon, Mr. *Hans Kierstede*, troubles us here a good deal: he tells us, that one *Jacob Molenaer*, who now serves the Company there as surgeon, is inclined to leave our service and as he *Kierstede*, has also served under the Company a long time and as far as we know faithfully, we are willing, that you should listen to his requests, if matters are, as he says and if in your opinion his services are required by the Company, he may take the place of surgeon. We observe however, that every ship takes over many people of all kinds of professions and therefore we are in doubt, whether the Company should engage such servants, especially as we ought to avoid all unnecessary expenses.

The letter from the *English* of *Boston*, dated the 6th of August 1649 and your answer of the 2^d of Septbr. take away the hope, raised by your previous letters, of having the boundaries provisionally settled, which this nation seems to have proposed first. These letters give quite a different aspect to the case; we find in them threats, to which we fear the instigations of *Cornelis Melyn* have not been the least cause: the unnecessary trade in muskets, which you made with *Vasterick* entirely without our knowledge and consent had also something to do with it: we have been much abused on account of the latter transaction, although done without our knowledge, and we were not a little surprised by it. The excuses, which you make, are very flimsy and have not been accepted by this board; you can therefore judge, how you have compromised your reputation by this transaction, the more so as now it is followed by complaints and threats from our *English* neighbors, which must strengthen the case of our adversaries, if they get wind of it. If in consequence of such acts we should have trouble with the *English*, the deputies of their High: Might: would be very much displeased, especially as the deputies from *New Netherland* have spared no effort, to persuade them, that you may be, with your precise proceedings, the cause of an eventual rupture with the *English*. We are however inclined to believe the contrary although the resolve of the *English*, to make war upon the Wappinger Indians causes us much anxiety. If these Indians should be driven away, then the *English* would thus by occupying their lands have a chance to cut *Rensselaerswyck* off from us; they might further become masters of the whole North river and with it of the fur trade. There are already a number of competitors for that trade here; *Wouter van Twiller* and his friends especially pretend, that they alone ought to be privileged, to carry on this trade, although the Company has always maintained this right, to exclude every body from this trade at any time: we would do it now, if we only could discover how.

We had hoped, that you would make a provisional arrangement with our neighbors to settle the boundaries, for we cannot see any chance, to treat with that nation here, for nobody appears to have authority to do it. The King has left his kingdom and as yet nobody has been willing to enter into correspondence with the present government of *England*: a commissioner from the Province of *Holland* is now on the point of going to *England*; time will show, what he may accomplish.

Many free people are coming over in this ship, the "*Valckenier*" and we hope, that a greater number shall follow by every vessel. As people here encourage each other with the prospect of becoming mighty lords there, if inclined to work, it may have a good result. Meanwhile you will please to accommodate and assist the arriving free men as much as possible.

We enclose the lists of passengers and the invoices of the cargo of the "*Valckenier*,"
Examine everything closely, that the Company may not be defrauded.

Herewith etc etc.

LETTER FROM THE DIRECTORS TO STUYVESANT; THE NEW NETHERLAND DELEGATES; ALAEM OF
THE AMSTERDAM CHAMBER; EMIGRATION; PAVONIA; MELYN; VAN DER DONCK.

1650 July 24th.

Honorable, Worshipful, Pious, Faithful.

Our last letter, dated the 15th of April, and sent by the "*Valckenier*," will have informed you of the vexation caused to us by the delegates from *New Netherland* and their party, who although occasionally appearing to grow weary of their solicitations, yet have frequently instigated by, we do not know, whom, made new requests. We presume, however, it has been done by people, who wish to avoid paying the tolls due to the Company and the sequel of their solicitations will prove this. These delegates and their followers have first assumed the bearing of farmers and as if their intentions were only to promote the increase of population and agriculture. All their remonstrances show that, but now these farmers have suddenly been transformed into merchants and they endeavor by all kinds of means to persuade their High: Might:, that the customs duties cannot be borne by the community. They had already imposed upon the good nature of some of the gentlemen, when we, observing it, communicated with the Magistrates of this city, who, being at the *Hague*, declared, that the decision in this matter rested solely with the Department of *Amsterdam*, entrusted with the management of these affairs. When the petitioners saw, that they could not carry out their plan either in *Gelderland* nor at the *Hague*, they threw away the mask, declared themselves as merchants, who had freighted the ship "*Fortuijn*," which takes out this letter, and requested our board, that their cargo intended for agricultural use should be exempted from duty. This was granted, but when the invoices were produced and the goods brought to the warehouse, they were found to be mostly real merchandise, for which we demanded duty. They refused to pay it, pretending that every thing should go free, they brought forward as an argument, that if they were to export cattle from here, they would pay no duty on it and that they intended to invest the proceeds of the sale of these goods in cattle there, which amounted to the same (as if they had exported cattle), without taking into consideration the profit on these goods. As they saw, that no credit was given to their frivolous assertions, they had recourse to scolding and calumnies, as the enclosed copy of their request will tell you. They carried off their goods and threatened to use other means, which they did in addressing themselves to the Mayors of this City, who again referred them to the Directors of this Department. We think, they will not brag about the reply, which they received; when they perceived, that all their efforts had been in vain, they applied to us in a different manner requesting some favor or at least a reduction of the duties on the merchandise, mentioned in the enclosed list. We have in so far granted it, that

we have declared free everything apparently necessary for agricultural pursuits. You will please to pay attention, that the interest of the Company does not suffer beyond our good intentions, when the goods are discharged. Many free people have taken passage on these two ships, the "*Fortuyn*" and the "*Jaager*," as per enclosed lists; we desire, that you may allot to each according to his capacities and family sufficient quantities of land, where they choose, but not on land reserved by the Exemptions for the Company, as for instance at *Pavonia*, which the Company bought in for certain reasons. It looks, as if many people will come over by every ship and as we cannot but presume, that the welfare of the country depends on the population, we desire, that you shall accommodate all newcomers as well as possible and above all govern the people with the utmost caution and leniency, for you have now learned by experience, how too much vehemence may draw upon you the hatred of the people.

We have had a good deal of trouble, to put these things again into order and are of opinion, that it is better to forgive and forget everything now, than to seek revenge, provided these men will henceforth behave like honest inhabitants and subjects of the Company; if they do not, we have by no means the intention of diminishing your powers in the administration of justice.

Upon your and Director *Rodenberghs* request we send you by these vessels accoutrements, clothing and other requisites for soldiers in *New Netherland* and *Curigao* as per annexed invoice. Please to manage it well, so that we may reap the fruit which we have a right to hope for. According to advices from Dir. *Rodenbergh* of the 26th of March we may expect, that a large quantity of wood has been collected there and that it shall be brought here by the ship "*Hoopje*," sent there for that purpose. It is also our intention to provide not only *New Netherland* but also the Island with everything required nor have we been wanting good will to do it, but we have been expecting for some time past some returns from your side, having for that purpose sent you several statements of the sums, paid you for account of the Company, amounting to a considerable total. We have already requested you several times for detailed accounts and remittances and repeat our request herewith. We have observed, that some people try to trade over this route to *New England* and the English *Virginias* much to our dislike, for we fear, that we shall suffer loss thereby; nevertheless some important reasons have induced us to give permission to the ship "*Jaager*" to take goods for *Boston*, which are specified in the enclosed list. You must look out sharp, that we are not defrauded by these intrigues and communicate to us your opinion, how we can prevent smuggling in all such cases.

We desire very much to discover some way, in which we might make arrangements with the English regarding the boundaries: we informed you already of the obstacles, which we had met, and as yet nothing further has been done in this matter, than that Mr. *Gerrit Schalph Pietersen* has been sent by our government to the Parliament of *England*, charged among others, as far as we can learn, to bring up this boundary question for discussion and learn, whether they are inclined to treat about it with our government. We shall inform you in due time of what may be done, meanwhile we recommend you to keep up all possible good correspondence with our neighbors.

The supercargo of the ship "*Fortuyn*" is *Francis Deckers*, a cousin of Mr. *van der Hooek*, member of the States-General for the Province of *Utrecht* and also member of the committee of their High: Might: for all matters concerning the W. I. Company and especially *New Netherland*. As he is a man very well inclined towards the W. I. Company, we cannot refuse his request, that his cousin should be supercargo of the ship for the outward voyage only and that you should appoint him there to any position under the Company, which may become vacant and for which he is fitted. We consent to his appointment, for we desire to captivate this man's favor by all

means, especially as this young man is of a distinguished family and has the reputation of being a very proper and pious person, which compels us to recommend him so highly, and ought to serve you for your rule.

As supercargo of the ship "*Jaeger*" goes out *Warner Fransen*, who has faithfully served the Company for a long period. He comes to *New Netherland* with wife and children intending to seek his fortune there and has requested us, to be given command of one of our yachts, when a vacancy occurred, thinking that he could serve the Company well, as he knows all the harbors, bays and rivers there. After due consideration we have resolved to grant his request, when a chance offers and you think, it is for the advantage of the Company, but you are not to make any positive agreement as to his wages, until we have approved of it.

The suit about the ship "*Jonge Prince of Denmark*" is being pushed very hard by the interested parties. Although the documentary evidence, furnished by you, seems clearly to prove it, that they were smugglers, for the majority of the crew were natives of *Holland*, our adversaries nevertheless maintain, that neither ship nor cargo can be confiscated on that account and that the Company can make no further claim, than to take off the crew and thus frustrate the voyage. They also allege, that we cannot prove, that the freight was owned here entirely or in part: the documents are not quite clear on that point and we fear, we shall have considerable bother about it, especially as the King of *Denmark* is concerned in it, which, as he is now an ally of our nation, must bear on our case. We have before now repeatedly warned you, to proceed very cautiously in matters of confiscation and to furnish us the necessary documents, for the complaints are always made here and if the evidence is not quite clear, then we are the losers.

Secretary *Tienhoven* will inform you from the *Hague* regarding the case of *Cornelis Melyn* and we refer you to him, but we cannot omit to tell you, that on the 30th of June this person has managed to procure from the hon^{ble} Deputies their High: Might: safe conduct and passport, which, as you will see, protects him against being molested in his possessions. You will have to conform to it, unless you should receive other orders by the ship "*Fortuyn*," which apparently will not follow so soon, for *Van der Donck* and *Melyn* are again refusing the payment of duties on their goods, notwithstanding they had before submitted to our decision. When they saw, that they could not gain their point in every thing, they became again so presumptuous, that they pretend not to owe any duty. We shall this day confer with the Magistrates of this City, and inform you of their decision by the first opportunity.

Herewith we commend you to God's protection etc etc.

LETTER FROM THE DIRECTORS TO STUYVESANT: GOODS SMUGGLED INTO NEW NETHERLAND BY WAY OF VIRGINIA: MELYN RETURNS TO NEW NETHERLAND.

A° 1650, 22^d Septbr.

Faithful, Honorable, Valorous, Pious, Dear.

Our last letters to you were dated 24th of July by the "*Jaeger*" and 6th of August by the

"*New Netherland Fortuyn*": in the former we communicated to you what had been done in the case of *Adrian Van der Donck* and *Cornelis Melyn* and that these two would like to avoid paying all duties to the Company: in the second we said, we would advise you of what might further be done in this matter. It stands now thus: nothing has occurred until to-day, but we learn unexpectedly of other intrigues, namely that many goods, destined for *New Netherland*, are daily shipped in vessels sailing to *Virginia* with passes granted by the General W. I. Company, as the single invoice here enclosed, of the ship "*Grauwe Buys*", *Jan Jansen Bestevaer* skipper, will show you. The ship sails under charter from this Department to *Virginia*, but we have no doubt, that all or at least the greater part of her cargo will be sold in *New Netherland* and in this manner the Company will be cheated out of their dues on the *New Netherland* goods; by a close inspection of all barks, sloops and small craft coming from *Virginia* to *New Netherland* you should be able to prevent such practices and we therefore earnestly charge you to make all possible efforts, also to urge the Fiscal and the Ships-Inspector that they must rigidly examine all vessels coming there from *Virginia* or other places and proceed rigorously against all smugglers or other people who defraud the Company of their dues. We believe this to be an effectual way to stop their practices and shall send you the invoices of all the ships going to *Virginia*, to enable you to act thereon.

Cornelis Melyn returned to *New Netherland* in the ship "*Fortuyn*", protected by the safe-conduct, which their High: Might: gave him that he may live there unmolested during the time, that his law suit here remains undecided: you must not interfere with him, as long as he comports himself quietly, but leave him in the peaceful possession of his land. Should the fellow however again make trouble, then you may proceed against him according to law; take care to procure in all lawsuits or cases of confiscation sufficient documentary evidence to sustain you here. Relying thereupon we commend you to God's protection etc etc.

LETTER OF GEORGE BAXTER TO DIR. STUYVESANT WITH THE ABOVE, REQUESTING HIM NOT TO APPOINT THE MAGISTRATE LATELY NOMINATED.

Honoured Sr.

According to your order, I have here sent you the Coppie of these orders, that were most material in our setting this place & you may please to vnderstand y^t according to our Custome the townsmen hane made a new election, being without Judgment or reason, but according to theyre owne dispositions & affections for according to our English prouerb birds of a feather will flye together & such as care not to be regulated by gouern^t either Chiefe men like themselves, that they may have the more libertie to breake oute into all disorder or such they know they may trample vnder foote: amongst the small number wee hane there was no lesse than ten proposed in theyre votes, they being almost of as many Judgm^{ts} severall opiniones in their choise as they were in theyre Judgeme^{ts} about the sewan, the which we had never issued, if I had not vsed another waye, but now such as it is you hane it herewith sent.

I shall onlie humbly propose to yo^r Consideratiō, that by o^r pattent wee are bound to choose the ablest, wisest and discreetest amongst us and of the which you are to be the judge, not they & for myne owne p^{te} & some others wee cannot approue of the Choice of some of them, my reasons being it is a great dishonour to gouern^t & to your owne p^{son} to hane an vnderstanding or an vnworthy man represent your place, it is likewise a great reproach to them of honourable respect heere and others in this towne, to haue men of small or noe abilities in any respect to sett as it were in yo^r place in the seate of Justice, to whom they must then give more respect than they deserue, besides wee shall bee the mocke & laughing stocke of our fellow townes. I shall therefore humbly request you, that when they are presented vnto you, you will demand of them wheather the towne have attended the rule in theyre patt^t, in the choice of theyre men. 2^o. if they hane or had anything to object against those they had made choice of for soe long tyme, that you might doe them right, if not wherefore they were removed and other men putt in theyre places, you haning experimentallie found that they hane kept the towne in peace and quiett without any disturbance to yourself & Courte, therefore vntill you are satisfied in those poynts you may please to put them of to another tyme, for after this rate the most undeseruing men may be chosen in place to the trouble & undoeing of honest men of good estate, for theyre liues & Conversations I haue nothing to object, only theyre want of abilities to p^{er}form the trust reposer in them. LETTER FROM THE DIRECTORS TO STUYVESANT: THEY SEND LETTERS TO THE PEOPLE OF NEW NETHERLAND, WARNING THEM AGAINST THE LATE DELEGATES: MELYN'S UNFOUNDED REPORTS: ABUSES IN LAND GRANTS: PRETENSIONS OF VAN RENSSELAER'S AGENTS ETC.

March 21, 1651.

Honorable, Worthy, Pious, Faithful.

Since our last letters of August 15th and July 24th we have duly received your favors of the 15th and 24th of August, 7th, 9th and 12th of September of last year by the galliots "*St. Peter*" and "*St. Michael*" and the ships "*Valcouier*" and "*Graff van Holland*": the latter was long in coming and had been thought lost by many, but at last, thanks be to God, arrived safely. We find all your letters filled with complaints of various kind, some against persons, who should give no cause for complaint, as they are sworn servants of the Company. Your principal grievances are however against the returned delegates, who we observe, not only trespass upon our leniency, but also try to abuse the good intentions of their High: Might: We had hoped, that these men would follow the advice of their High: Might: to live peacefully and quietly, but we are informed, not only, we regret to say, by your letters, but also by other trustworthy people, lately arrived here, that these men endeavor by all sorts of underhand means to stir up the good community and subjects against the Company and her officers and to lead them from their duties, hoping in this way, if possible, to deprive the Company and her officers of their privileges, prerogatives and authority. By virtue of our office and considering the interest of the many widows and orphans concerned we cannot remain indifferent to it any longer and have been compelled to warn in the enclosed letters not only our community, but also that of our English neighbors, to be on their guard against these perturbers of the public peace and not to assist them in their evil proceedings. We intrust these letters to you only on the understanding, that you will always act with caution and moderation. If you should perceive, that the aforesaid men and all others are inclined to do their duty, then you must forget the past and consider it not happened; this will be in conformity with the good intentions of their High: Might: who granted a safe-conduct only to prevent, that they should not be molested on account of the complaints made by them here; it has never been nor is it now our intention, that they should be molested, if we could only see, that henceforth these men as in duty bound will behave peacefully and respectfully, as we expect to hear that they are doing. We consider it therefore necessary to tell you, that only with regret and compelled by weighty reasons, we have issued the proclamation to our good subjects in the form as enclosed.

We observe also, that some officers, sworn into the service of the Company, do not conduct themselves in many cases, as their position and oath require. We desire to warn these herewith, that, although we have overlooked their errors for some time, we are by no means ignorant of their acts and behavior and that, unless they pay more attention to their honor or oath in the future, than they have done hitherto, we shall be compelled to take such measures in regard to them, as are usually employed against unfit or ungrateful servants. We have to say this, because matters have come under our notice for which they can make no excuse and which we cannot tolerate.

The impudence of some people there, especially of *Cornelis Melyn*, more than astonish us; they dare to misuse the name of their High: Might: so far as to pretend the Colony should be divided into seven provinces, a royal fort built upon the point of *Staten Island*, where all vessels must come to anchor before sailing up to the Manhattans, and other similar falsehoods. We have never heard of these and other dreams, so that you need not trouble yourself about them nor take any notice of them, if you should hear of them from anybody else, than ourselves.

We observe that many people do not scruple, to take possession, under this pretext, of all the best land there without formality and without determination by survey, as if the Company and its officers had nothing to say about it and had been robbed or deprived of their prerogatives; we have therefore to direct you herewith, not to grant land to any one without his acknowledging properly the authority of the W. I. Company and you will especially take care, that henceforth not more land is granted to people, than what in your opinion after a thorough examination of their means they will be able and intend shortly to populate, cultivate and bring into a good state of tillage. Several instances prove, that by non-observance of these rules many parcels of land are now claimed as property held for years, although very few improvements in regard to settling, cultivating, tilling or planting have been made. Thus we see it in *Cornelis Melyn's*, *Wouter van Twiller's* and others' cases; *Melyn* owning an island, 7 or 8 leagues long, of which only eight morgens of land are under plough. *Wouter van Twiller* is not only not satisfied with adding *Hollgate* to *Nooten Island*, but he also endeavors to get possession and make himself master of the *Catskil*, in addition to which he has stretched out his hand for the two flats on *Long Island*, called *Twiyler's* and *Corler's* flats, containing together 1600 to 2000 morgens.

Wolfert Gerritsen and *Andries Huilde* have done the same; they took possession of about 1800 morgens on the same island, while they cannot settle the fiftieth part of it: this is quite against our intentions, for many valuable pieces of land might be claimed as property (with great prerogatives) in such manner and the land itself would remain unpeopled. We direct you therefore expressly not to allow or grant any more land to anybody except under the conditions stated above and keeping *Long Island* (which we believe to be the most important and best piece) for the Company, to be divided upon occasion for the accommodation of farmers and planters, until a rule shall have been made as to how much land shall be allotted to each colonist.*

We are astonished beyond measure to hear, that your deputy, *Dincklage*, has made common cause with these invaders, especially with *Govert Lockermans* or others, who have bought much land from the *Ruritans* on the Kil opposite *Staten Island*, without considering in whose name they are to obtain a conveyance from their High: Might: without the knowledge of the Company, we cannot believe it and intend to resist it with all proper means, as far as we are concerned.*

A good deal more might be said about these matters, but we will defer it until a better opportunity or refer you to the verbal report of Secretary *van Tienhoven*, who, we think, has been detained here long enough for his own inconvenience out of consideration for some evil-minded disturbers of the public peace. We have on our part judged it advisable to give him permission to return to *New Netherland* and he will inform you by word of mouth, what has been and is daily being done here in regard to *New Netherland* matters. No doubt you will derive from it so much satisfaction, that you will no longer ask for your recall, for you will learn from all the circumstances, that we make all possible endeavors to maintain not only the prerogatives of the Company, but also your administration and authority.

We have before now given orders, that upon such occurrences, as you complain of, especially the creating of uproar on the streets or elsewhere by people, who ought to know better, full documentary evidence should be sent to us. We wish, it had been done in your last letters and do not believe for certain good reasons, that you had no reliable witnesses, the more so, as you say, that these proceedings are not approved by the majority of the community. Our belief in this is confirmed by the testimony of the English people living within our boundaries.

* See Vol. XIII pp. 27 and 28.

We are anxious to learn, how you have been treated by our English neighbors in regard to the boundary question. It seems to be best to live with them in neighborly friendship and correspondence, as we have great hopes, that the envoys from this government, who will shortly leave for *England*, will settle the question satisfactorily with the English authorities, a matter which it is said, has been especially recommended to them.

It is further our intention to apply to the Queen of *Sweden* and try, whether we cannot determine the boundaries between us and the Swedes on the South river. You must in the meantime endeavor to maintain the rights of the Company in all justice and equity, but we recommend at the same time to act at all occasions with such discretion and circumspection that complaints, disputes and breaches of friendship with our allies be avoided.

We can take no further notice of *Brant van Slechtenhorst's* remonstrances, than to receive the information of the taking possession of the *Katskil*, which had been conveyed to others long before he took possession of it and we have so far not been able to discover, by what right he or his principals lay claim to this property, for they have never applied to the Company for it in due form. Nor can we understand, how the colonists of *Rentselaerswyck* could take possession of *Beeren Island*, afterwards called *Rentselaers Steyn*, and go so far as to invest this place with the right of staple demanding from every one, except the Company, a toll of 5 per cent on his goods and growing so impudent, that they finally asserted, *Fort Orange* was built on their territory and they would not permit anybody to take his residence in the fort, even though the Company had given their consent, and engage in the furtrade.

We have only this to say to them in reply: the fort had been built by the Company many years before the said colonists selected the territory for their colony; we have therefore already directed you, to protect the rights of the inhabitants of our fort and confirm herewith our former orders, adding further, that you must resist by all proper means and if necessary by force the attempts of all daring to levy taxes or imposts in any river, island or port within the Company's jurisdiction to the injury of the public in general or individual traders. We are resolved never to grant to any colonist such privileges and jurisdiction, as these people erroneously imagine to possess.

It is astonishing, that the aforesaid delegates dare to spread the report in the community, that the Company owned no other soil in *New Netherland*, than *Manhattans Island*, while it can be clearly proved, that they have bought vast tracts of land on *South river*, the *Fresh river*, *Long Island* and many other places in the neighborhood. These men are therefore grossly deceiving people and try only to dispossess, if possible, the Company; but we hope to balk them.

'Tis true, that the Notary *Jan van de Venne* has made several applications for a large tract of land, which you think might be granted to him without much prejudice to our interests: we would have no objection to grant his request, if he would only desist from his extravagant demand of highest and lowest jurisdiction, which we deem inconvenient and are still determined to reserve for the Company: but we are willing to give everybody as much land as he shall need. Many people are again going over in the ships now ready to sail, who intend to settle there and you must accommodate each according to his position and the number of souls with him, consulting your own discretion and the requirements of their families, for it is our aim to promote the increase of population there by all means. You will also accommodate the Honorable *Hendrick van der Capelle* with favorably located lands, as far as he is inclined to take possession of and cultivate and people any land there, which he seems to intend judging from his letters: we desire very much

that such wealthy people might take a fancy for that country. We regret, that we cannot fully comply with the request of Mons. *La Montangie*, although we are willing, upon your recommendation, to grant as much, as the condition of the Company admits. Under these circumstances we thought it advisable, that you should be directed to encourage him in the continuance of his duties and not to molest him for the present on account of what he owes to the Company, further also to increase his yearly salary from 150 to 200 fl and to favor him, subject to our approval, with any office, becoming vacant, for which you think him fit.

We cannot say anything about the copies called for by Domine *Megapolensis*, except that we delivered to the reverend Classis the manuscript of his "Examination or Confession for the benefit of those, who are inclined to approach the Lord's Table," that it may be printed: although we have called upon the reverend brethren several times, we have as yet received no other reply, as that they would take this matter into serious consideration. Meanwhile the Almighty has been pleased to remove D^r *Kesselerus*, a member of the commission, from this vale of misery; this is likely to retard the matter somewhat, but we shall not cease to push it. This department has resolved to release you from your private engagement with D^r. *Megapolensis* and to charge itself with his yearly salary, hoping that with the Lord's blessing these lands will shortly be in so flourishing a condition, that all the expenses for them may be paid out of their revenues and that in time also a part of the moneys disbursed by us may be refunded. With this view we recommend you seriously to make all possible efforts in collecting old debts due to the Company and the tithes from such pieces of land, which are now subject to them; so that we may be relieved from the municipal expenses.

We think a distinction should be made between the bouweries owned on the land of the Company and improved before occupation by the present owners and those taken up in the wilderness: we leave that to your discretion, for not possessing the proper information we cannot well make an equitable discrimination. Some merchants believe, that the duties upon beavers are too high, the merchantable beaver being rated there at 8 fl; they have therefore asked for a reduction to 6 fl, to which we cannot consent, as most of the beavers, arrived in the last ships, have sold for 10 fl a piece or thereabouts. We find besides that large quantities are being smuggled in. The same is done with goods for your market and we have come to the conclusion, that the Fiscal either connives with the defrauders or is not careful enough: we are led to use the former expression, because we learn from common reports, that he is altogether too intimate with the traders, especially in places, which our servants and principal officers should not frequent. If any complaint should be made on account of what we just have said, we are prepared to give a plain answer, on which you may rely, and if the Secretary and the Notary find no other chances to certify to complaints, then there can be no difficulty.

It is not all strange, that passengers arriving there complain of too high passage rates, but we cannot help it at this time, although we have made efforts, even threatened the skippers not to allow them a commission, unless they would take passengers at seven stivers per day for board. It was all in vain and we have been obliged to make an agreement with skipper *Blommaert* for the transport of the soldiers and train-personal, coming herewith, at 8 stivers per day. We shall speak of these men again farther on.

We are surprised, that you amuse yourself with protests and counterprotests against the municipal officers concerning matters of so little importance as for instance the pews and seats in the church and as we trust, that the church is large enough to place every one according to his

rank, it appears to us, that such trifles do not deserve so much attention especially in these troublesome times.

We were sorry to hear, that the *Maques* had invaded the territory of the French in *Canada* and captured 8 or 9 Christians, for whom they are said to demand a large ransom or they would cruelly torture them, which excited your compassion : that is quite proper for all Christians, but every one is bound to take care of himself and his own people. You know, that some time ago men of this nation were ransomed at the expense of the Company and by contributions of the community, for which we have never been repaid. We think now, that when the complaints reach *France*, they will take care of their own countrymen.

So far it has been beyond our means to comply with your request to send you a large amount of money in small coin for the benefit of the public and it is equally impracticable to compel the traders, agreeably to your second proposition, to pay the duty of 8 p. ct. in cash and thus bring small coin to *New Netherland* : they make now every effort to free themselves from all burdens, at least from the greater part of the customs and *Wouter van Twiller* with his set encourage them not a little, trying to persuade them, that modifications will be made, because everybody is unwilling to employ his ships in this trade or to bring his goods into our warehouses. We do not know upon what grounds these assertions are made and doubt not, these people will soon find out, how they have been deceived, especially when *van Twiller* attempts to carry out his intention of making himself master of the whole Northriver trade. We know that he has laid his plans for this for some time past, seeing that he introduced the right of staple on *Beeren Island*, now by them called *Rensselaersteyn* as mentioned above ; but we do not at all intend to tolerate that : everybody shall have free and unmolested navigation on this river and trade at our *Fort Orange*, claimed by them to be erected on their territory. Who ever heard a more impudent assertion ! This matter makes us averse, to grant to any one in the future such unlimited colony and jurisdiction, although we are at all times willing, to allot to every applicant as much land as they will populate and cultivate, as we have already said. Although we have once before written about the Island of *Curaçao*, that, if we should have no revenues whatever from there, it might be advisable to abandon it, instead of holding it any longer in hope of unexpected returns ; we did not mean to say, that we had come to that resolution, but used it only as an example. The enclosed contract, made with a Jew, *Jan de Illau*, will prove to you the contrary. He intends to bring a considerable number of people there, to settle and cultivate, as he pretends, the land, but we begin to suspect, that he and his associates have quite another project in view, namely to trade from there to the *West Indies* and the *Main*. Be that as it may, we are willing to make the experiment and you must therefore charge Director *Rodenborch* to accommodate him within proper limits and in conformity with the conditions of his contract. You propose to go to the Island and make the experiment yourself, believing that you can make the round trip in four or five months and you desire us to direct, who shall meanwhile take your place : our answer is, that we consider such an expedition quite unadvisable in these tumultuous times, for many free people are going over with every ship, who will require your assistance in every respect.

We are, in the meantime, anxiously expecting the ship "*Hope*" with a good freight of logwood, the more so as we are informed by good authority, that a large quantity of this article was ready for shipment on the Island : we do not understand however, for what reason it has been kept there so long. Had such a cargo arrived here in time or had we at least been sure of its coming, then we could have complied with your request to freight a large ship, which in such uncertainty we could not dare to undertake : now it tends to our prejudice and to the inconvenience

of the people there for whom we could have provided better. We have also found, that you have had some wood brought to *New Netherland*, which was sold there and the same has been done with the *Cochonille Silvester*, captured by Captain *Blawvelt*: all this is directly contrary to our orders. We gave our reasons before and that should have been sufficient, to prevent you from placing us in danger of unnecessary lawsuits. It is true, that as yet no inquiry has been made about it, apparently because the people do not know, what has become of their property, but time will show, what the consequences may be.

Although you are of opinion, that the ships "*Liefde*" "*St. Benino*" and "*Jonge Prince*" were lawfully and properly confiscated, we are nevertheless called to account about it and some of the lawsuits are apparently going against us. We see in the documentary evidence sent us, that the Fiscal did not formulate his complaint correctly and did not accompany it with sufficient proofs. He must be more careful in the future; he also ought to have investigated, what had become of the embezzled pieces of camlet, sold at such scandalous prices. We urge you to do it, but we intended also, that you should admonish the Fiscal to do his duty.

You persist in asking for equipments and accoutrements, promising upon their receipt to send us in the spring by the ship "*Prins Willem*" a cargo of logwood. We have done as much in this regard, as we could, and are now expecting the ship: in the hope of the early arrival we exert ourselves again to send you by her next voyage soldiers, train-personal, ammunition and other necessities conform to the enclosed list, intending that, as you promised, their pay should be defrayed out of the customs revenues.

All this must satisfy you, how deeply we are interested in *New Netherland* and your own reputation; we postpone much, that is important, in order to benefit that country—and expect from you a corresponding interest and care: we hope to receive by the next ship a specimen of the indigo, which you expected to obtain from a man on *Sander Leenarts'* ship. Time must show the result. The plan, made last year, to send thither 300 to 400 boys and girls from some orphanages, will not be carried out, being found to offer too many inconveniences. No more correspondence is therefore required on this subject.

Jelmer Thomassen, late Captain of the yacht "*New Swoll*" has presented to us for payment your bond for 1000 fl., dated 20th of August 1649, given for purchased cordage under promise, that it should be paid out of the first lot of logwood sent over here. We had never heard of it and have therefore been obliged to refer the man back to you, as we have no doubt, that you will find means to satisfy him either out of the customs revenues or otherwise. We should have been able to pay off some smaller creditors by balancing their claims against the duties on goods shipped by the vessels now about to sail, but for reasons mentioned before this mode did not only appear dangerous to us, but was also impracticable this time on account of the great expenses caused by the soldiers, the ammunition etc., which had all to be paid in cash. We have been compelled to allow skipper *Blommaert*, that he may deduct from the duties, payable by him, the cost of subsistence of 40 men for 90 days to be calculated according to the contract made with him. The aforesaid soldiers while making the passage are to be under the command of Captain *Fijn*, who goes over with wife and children to settle there. The Company owes him as balance of pay 200 fl., for which he has troubled us a good deal; if it had been feasible, we would have paid him, but now, as he takes with him a small cargo, we have allowed him to offset the above amount against the duties payable on his return cargo there. This transaction must be kept a secret, that we may not be troubled too much by others. The Captain is to receive, for taking the command of the soldiers,

free subsistence during the passage for himself and must deliver them immediately upon arrival there to whomever you may detail.

We think it might be proper, when this ship comes into the harbor, to bring the garrison then present down to the strand, where the new arrived soldiers are to land and thence march them as one command in good order back to the fort: you need not feel bound by this suggestion, if you think some other way more advisable.

The books sent over tell us partly, how much you have expended, but they give us no information whatever of the amounts and values, which you have received, although we have frequently called for it and are still demanding it. We find also that the accounts of equipments are missing, that many accounts are not settled and other things. You will liquidate every item as far as possible and send over your accounts, that we may make our balance.

For certain reasons, it is true, we have as yet not deemed it expedient to give you a definite answer in regard to the bouwery, which you are using. This has not been done, because we grudge you the place preferring others, but because we thought, you understood our intentions, also because we were ignorant of the value and location of it, in regard to which we have now received some information. We have now fully agreed on this subject with *Jan Jansen Damen*, acting in your behalf, as you will see by the contract of sale sent over with *Jan Claessen Damen*.

Peter Gabri annoys us here with a draft, drawn by you on the Company for about 500 fl, which he wants paid; *Govert Lockermans* too, as husband of the widow of *Dirck Cornelissen* from *Wensveen*, importunes us for an account of fl 861.9. 8, originating out of goods delivered, work done and other sources. As we are however quite ignorant of the transactions, the draft as well as the account of *Wensveen*, and as we have observed, that in his account and others items of monthly wages, pay due to laborers, debts and credits of free people are entered, which do not agree with the book of monthly wages, in which all such accounts are recorded, we have judged it best to decline paying it and you must arrange matters with these and other persons, as well as you can, remembering that the account of *Dirck Cornelissen* from *Wensveen* has been credited with the amount of 165 fl 6st., an item found open in the book of monthly wages to the credit of another man. In paying this account you will deduct therefrom this sum.

The bookkeepers of monthly wages have discovered that one *Jan Jansen* from *Hpendam*, formerly Commissary at the Southriver closed his accounts in 1645 (Secretary *Tienhoven* informs us, that he was deposed and is dead now) while in the books of following years he is charged in one item with 288 fl and in another with 21 fl. These entries appear rather strange and create dissatisfaction among his creditors here, who ask for a settlement, while we do not know, whence these debts arise. You will please to give us an explanation by first chance, that these people here may get satisfaction.

Closing herewith, we commend you etc etc.

DEED OF TWENTY-TWO MORGENS OF LAND OF MESPATH KIL.

Before me, *Jacob Kip*, in the absence of the Secretary appointed by the Hon^{ble} Director

General and Council of *New Netherland*, appeared *Dirck Holgersen*, an inhabitant here, who declared that he sold and conveyed, as he does hereby, to *Peter Hudde* and *Abraham Jansen*, in company, a certain parcel of land situate on *Mespachtes* Kil opposite *Richard Bridnets*, formerly the property of one *Cornelis Willemsen*, containing according to the ground brief, twenty-two morgens, one hundred and thirty-six rods; which land he, the grantor, conveys to the said *Peter Hudde* and *Abraham Jansen*, in company, in one, true, free and right ownership, therefore renouncing the right and property had thereto, with authority to enter on, cultivate and use the said land free and unmolested, on condition that the reservation mentioned in the ground brief in regard to the acknowledgment of the Lords and Patroons of this country be complied with; placing the said *Peter Hudde* and *Abram Jansen* in his stead, real and actual possession of the land aforesaid, and renouncing all pretension thereto henceforth and for ever he promises to hold fast and inviolable this his deed and conveyance under bond as by law provided.

In testimony I have signed this with the witnesses, this 22^d of March, A° 1651, *New Amsterdam* in *New Netherland*.

This is the  mark of *DIRCK HOLGERSEN* made by himself.

JACOB JANSEN HUYS, witness.

GERRIT JANSEN, witness.

To my knowledge

JACOB KIP, Clerk.

This day this 28th of March A° 1651, the Hon^{ble} *Petrus Stuyvesant* and Council of *New Netherland* approved this foregoing proof of the purchase of the land mentioned, and accordingly the conveyance above executed by *Dirck Holgersen* in favor of *Peter Hudde* and *Abraham Jansen* is held valid.

In testimony this is signed by the Hon^{ble} Director General; dated as above, *Manhatan* in *New Netherland*.

P. STUYVESANT.

LETTER FROM THE DIRECTORS TO STUYVESANT: SECRETARY TIENHOVEN RETURNS TO NEW NETHERLAND.

1651 26th April.

Valiant, Honorable, Pious, Dear, Faithful.

Our last letters to you were to be sent by the "*Bontekoe*" and "*Hoff van Cleef*" on the 21st and 22^d of last month, but as the former with a full cargo sailed rather suddenly before the appointed time and before the supercargo with the Company's letters had come on board, we send them now with the ship "*Gelderse Bloom*," hoping that either she or the "*Hoff van Cleef*" may arrive there before the "*Bontekoe*" which has no lists of invoices. You will do well to follow the directions given in the aforesaid letters and in our private letters to you and your deputy *Dincklage*, for we strive to insure harmony, prosperity and an increase of the population of *New Netherland*. Every day the prospects improve. The bearer hereof *Cornelis van Tienhoven*, who returns in his former quality of Secretary will inform you of what has further been done here in the negotiations or rather arrival of the envoys from *England*, in regard to the boundary question with the Parliamentary Committee and also about the complaints; so we need not go into detail.

The said *Cornelis van Tienhoven* has requested us for permission to purchase a bouwery in *New Netherland* belonging to the Company and containing about 14 to 16 morgens, together with meadowland, a farmhouse 50 feet long and 22 feet deep, a haystack, two mares, a stallion and a negro, now used by *Thomas Hal*, whose lease is said to expire the coming summer. We were ignorant not only of the value of the place, but also of all its circumstances, whether such a sale would be to the prejudice or advantage of the Company; therefore we thought it more advisable to communicate with you, that you may send us a full report by next chance and we may thereupon consent to the Secretary's request. You will do well therefore not to enter into a new contract with *Thomas Hal*, but to await our answer to your letter and act accordingly.

We have engaged here as bookkeeper in *New Netherland* *Johannes Dyckman*, our former first clerk, at a salary of 30fl per month exclusive of subsistence money, whom we recommend to you most earnestly, that if there is at present any vacancy or at some future time you may remember to advance him to such a position as you may believe him fit for considering his past services, behavior and knowledge.

In order to increase the population of *New Netherland* and to promote the trade to it we have resolved that henceforth you shall demand upon all goods which are properly merchandise, coming to *New Netherland* from English *Virginia* or *New England*, a duty of 16 per cent. and that all goods sent there from *New Netherland* shall pass free duty, so that the practice of some people, who ship their goods to *New England* and then enter them in *New Netherland* under the lower tariff, may be stopped and no prejudice be done to the merchants who ship their goods directly from here to *New Netherland*.

The proposition made by you in your beforementioned letter, to increase the duties on goods sent to *Virginia* to equal those of *New Netherland* and thus divert the trade from the former, has been found impracticable,—for all Departments of the Company being empowered to issue commissions to sail to English *Virginia*, it would be to their prejudice and to the advantage of the Department of *Amsterdam* and they would not consent to it. You have therefore to act according to the above order, directing 16 per cent. to be demanded on goods coming from English *Virginia*, and you will further please to inform us by the next opportunity of your opinion and the result or success of it.

The mother of *Tennis Andriessen* of *Amsterdam*, who sailed from here as first gunner in the ship "*Swool*" on the 9th of September 1643, closed his accounts in the books of *Curaçao* March 30th 1647 and then went to *New Netherland*, where he is said to have died as mate of the yacht "*Liefde*," has since three years overrun and solicited us for the balance of her son's wages, which we could not give her, not having the books here. You will therefore keep in mind to send us at an early opportunity copies of this and all other ships accounts, that we may be in condition to comply with the reasonable requests of these people and obtain information concerning two items in the account of *David Provoost*, one of 329 fl, the other of 59 fl, which we have mentioned to Secretary *Thienhoven*. Herewith etc

Amsterdam,
the 26th of April
1651.

Your good friends
The Directors of the W. I. Comp.
Department of *Amsterdam*.
JOHAN LE THOR.
ISAAC VAN BEECK.

To the Honorable, Vigorous, Wise, Prudent, Discreet
Petrus Stuyvesant, Director General in
New Netherland.

Honorable, Vigorous, Pious, Dear, Faithful.

Secretary *Cornelis van Thienhoven* reported to us, that shortly before coming away from there he had been appointed by you and the Council to the place of *Rocloff de Haase*, the former receiver of the Company's revenues and of the tithes, import and export duties etc: considering his long faithful services, we have confirmed this appointment until further orders from this Department, increasing his salary by $2\frac{1}{2}$ per cent for the additional troubles in this office.

We know from experience, that on many lands in *New Netherland* the tithes called for by the contracts have been unpaid for several years and that on account of the last insurrection of the savages the non-payment has been connived at and excused: as the people have now been in peaceful possession of their lands for about 6 years, they should not be unwilling to pay up and you must take care to have the collections made at first in such a lenient manner, as you may think best for the avoidance of any trouble and discontent. Advise us of what you do and how you succeed, that we may then consider, what should be done. Relying hereupon we commend you etc.

Amsterdam,
 the 26th of April
 1651.

Your good friends
 The Directors of the W. I. Comp.
 Department of *Amsterdam*.

To the Honorable, etc *Petrus Stuyvesant*
 Director General in *New Netherland*.

DEED OF A PLANTATION ON LONG ISLAND.

Before me, *Jacob Kip*, appointed clerk here, appeared *Lewis Papelyon*, of the one part and *Joris Stevensen* from *Wingen*, on the other part, who declared in the presence of the undernamed witnesses, to have agreed and contracted about the purchase of a certain just half of a plantation situate on *Long Island* south of *Peter Schoorsteenveger*, on the underwritten condition, to wit:

LETTER FROM THE DIRECTOR GENERAL TO THE NINE MEN ON THE CONDITION OF THE FORT AND
THE NECESSITY TO PROTECT IT AGAINST STRAY HOGS AND CATTLE.

Worthy and Dear Friends.

We have several times informed you individually as well as in the meeting of your Board of the orders and instructions from their High: Might: and from the Lords Directors, our patroons, concerning the repairing of the Fort *New Amsterdam*. Having made several fruitless representations to the late Board and asked their assistance in vain, I begun the highly necessary and very urgent work with the few negroes and servants of the Company. During the last two summers of 1650 and 51 I have made tolerable progress considering the small numbers of laborers and would have enclosed the Fort all round and put it in good shape, if for the Company's and the country's service, my and the Company's servants had not been obliged to go to the South river and remain there the greater part of last summer in order to build there a new Fort for the better maintenance of the Company's rights and the defense of our territory. In the meantime, we regret to say, the newly erected work has through neglect of our proclamation and orders been destroyed and trampled down by horses, cows and hogs, as may be seen daily to our shame and reproach. We have spoken to you or some of you several times of the vexation and disgust, caused by finding our new works, erected without the community's help, rooted up, trampled down and destroyed by the community's hogs, cows and horses, thus losing the advantage of our hard and diligent labor.

It is true, that the negligence and connivance of the Fiscal has caused this, as he did not enforce or execute our twice or thrice renewed proclamations. We are therefore compelled to leave the Fort, to our shame and the detriment of this place, as we found it and to suspend all work on it or to execute and enforce our orders and proclamations, now already three or four times published and affixed, namely to impound the horses, cows and hogs, henceforth found on the Fort and confiscate them for the benefit of the Hon^{ble} Company. Otherwise it is impossible to keep the newly repaired Fort in good order and to do, what has yet to be done. Before taking such extreme measures, at the risk of being blamed for it, and to prevent all excuses of ignorance and all reproaches, we have thought best for our own sake, first to inform the Board of Nine Men of our intentions and to warn through them the community, which has paid no attention to our former orders, against the impending losses, for it is disreputable for this place, dangerous for the inhabitants generally in time of need and for ourselves disgraceful and unbearable, to see the Fort demolished, our good intentions and hard labor frustrated and wantonly trampled under foot. Awaiting here upon the written answer of your Board I am and remain

COUNCIL MINUTES. PERMISSION GRANTED TO ABR. DE LA NOY TO RETAIL ALL SORTS OF WINES.

January 24th 1652. The Hon^{ble} Director General and Council having read the petition of *Abram de la Noy* for permission to sell all sorts of wines by the small measure,

They grant petitioner's request and resolve to lease to him the city tavern for the benefit of the Hon^{ble} Company.

COUNCIL MINUTES. PROCLAMATION ANNULLING CERTAIN ORDINANCES OF THE AUTHORITIES OF
RENSSELAERSWYCK.

The Director General and Council of *New Netherland*, to all who may read this or hear it read Greeting:

Whereas we have several times been informed by the late Commissary, *Charles van Bugge*, as well as by his successor *Johannes Dyckmann* and whereas other private complaints have been made over the impertinent, unbearable and unchristianlike tyranny of the present Commander or as he styles himself Director of the Colony of *Rensselaerswyck*: *Brandt Artsen van Slechtenhorst* in refusing permission to and forbidding the officers of the Hon^{ble} Company as well as other good and faithful subjects at *Fort Orange* to cut in the open woods fuel for their use and subsistence, except in a certain thicket, where the wood can only be obtained with great inconvenience and the roads are almost impassable during the winter, or anyway very miserable and troublesome, and

Whereas we are further informed, that he has forbidden, under threats of high penalty, the farmers and working people owning wagons and horses to cart fire-wood for the servants of the Hon^{ble} Company or inhabitants of the said fort, thus compelling both, the officers and subjects of the Hon^{ble} Company, to carry the fuel begged from him on their shoulders in slavish trouble and dependence through thick and thin, ice and snow for the amusement of this overbearing Commander and his merciless associates and to the disregard, nay, contempt of the Hon^{ble} Company, their officers and good subjects;

Whereas the said Commander and some of his subaltern officers have so far forgotten the teachings of Christ and their neighborly duties, as to insolently answer the last request of our Commissary and inhabitants of the said Fort on the 11th of January of this year as follows:

"Nevertheless desiring to show ourselves more accommodating and modest, than some other people, we shall allow the people of the Fort and the Colonists the accommodation of fire-wood provided everybody make application to the Director or the associates according to the Ordinance but only under this reserve and condition, while his Honor is willing and agrees, that the people of the Fort may cut down during the winter the aforesaid thicket or have it cut down at their expense. Signed: by order of the Court of Rensselaerswyck Anthony de Hooge, Secretary";

which satisfactorily proves both the prohibition forbidding the cutting of fire-wood and the unbearable tyranny, compelling the inhabitants of the Fort, who desire to cut firewood, as necessary to them in winter as bread, to clear away the underwood and brush or have it done at their expense, which neither the officers nor the free and good subjects of the Hon^{ble} Company are bound to do,

Therefore, in order to obviate the manifold complaints against the aforesaid unchristianlike and unneighborly tyranny and desiring to maintain the officers of the Company and inhabitants of the Fort, as well as other free subjects in what the Hon^{ble} Company and the exemptions of *New Netherland* have granted them, which heretofore has never been refused to them by other neighbors.

We herewith annul and repeal by this, our Proclamation, everything concerning this matter published heretofore by the Commander *Brant Artse van Slechtenhorst* without our knowledge, nay, against our orders and directions, and grant to the officers of the Hon^{ble} Company and free inhabitants of *Fort Orange*, that they like the Colonists of the Colony may cut, haul or let haul and use for their benefit all the needed firewood and building timber in the unfenced and public woods, only they must avoid cutting the said fuel or timber within the bounds of any fenced-in bouvery, garden or plantation, unless they have permission from its owner or his representative.

We further permit herewith and request all farmers and working people to accommodate and serve the inhabitants of the Fort and of the Colony in carting out the cut fuel and timber against reasonable wages, annulling and making void all contracts, ordinances and oaths made or taken in this matter, as unchristian, unneighborly and unlawful, promising by this Proclamation signed by us and sealed with our usual seal, to indemnify and keep free from persecution and damages all inhabitants and colonists against all attempts, intentions and executions, which in this matter the Commander *Slechtenhorst* or his associates may undertake to carry out and directing our aforesaid Commissary to publish this Proclamation in *Fort Orange* and to request the Commander and Council of the Colony of *Rensselaerswyck* to publish it in the Colony or in case of refusal to publish and affix it himself in the Colony, that nobody may be able to plead ignorance. Thus done and resolved at our meeting in *New Amsterdam*, the 24th of January, Anno 1652.

PROCLAMATION ANNULING CERTAIN GRANTS OF LAND MADE BY THE AUTHORITIES OF THE COLONY
RENSSELAERSWYCK.

Whereas we are informed, that, notwithstanding our several warnings, summons and interdicts, directed during the time of our Commissary *Charles van Brugge* in the years 1649 and 1650 to the Commander *Brant Artse van Slechtenhorst* and his associates in the Colony of *Rensselaerswyck*, for them to erect new buildings under the wall of the Hon^{ble} Company's *Fort Orange* or nearer to it, than a musket shot's range, unless it can be proved, that they do it by order of the Hon^{ble} Company or other high authority or unless they have special permission, our above said earnest warnings, protests, directions and orders have not only been disregarded, but absolutely despised and disobeyed by surveying, selling and giving away several parcels of land and the erection by private parties of several houses on the North and West side of the said Fort, shutting the same in and blocking up the passage to it ;

Whereas we are further informed by the present Commissary *Dyckman*, that they have again laid out lots, still nearer and closer to the said Fort and distributed and sold them to several private

parties to be built on, without regard to the warning, protest and order, entered and issued against their proceeding by our Commissary under high authority, which must tend to disregard of the Government of this Province, to the destruction of the Hon^{ble} Company's privileges, prerogatives and titles and especially to a shutting in and blocking up of the said Fort, located there and fortified before Mr. *Rensselaer* obtained the land for a Colony and consequently before a house of his Colony stood there,

Therefore we, Director General and Council of *New Netherland*, authorized by the commission and instructions given by their High Might: the Lords States-General, our sovereigns and by the Noble Lords-Directors of the Privileged *West India* Company, as masters and patroons of *New Netherland* and by virtue of the same bound to maintain their rights and privileges as well as good order and justice, find ourselves compelled, to annul and make void by this our resolution and proclamation, all allotments, cessions or sales of land laying within 600 paces or about 250 Rhineland rods from the Fort, which land we, Director General and Council, declare, until otherwise directed by the Hon^{ble} Company, to be the liberty of the Fort, to be used by its garrison and inhabitants, who however, be they servants of the Hon^{ble} Company or free men shall not be allowed to build on the land so as to weaken, shut in or block up the Fort, but only to use it for gardens, plantations, surrounded by low pallsades, and low and light summer houses, which can be easily moved or taken down, provided they have first informed us and received our consent and that the Director and Council shall have discretion to remove them, when necessary. We warn and direct therefore everybody, who shall have or may become possessed of any parcel of land within the aforesaid limits of the Fort either by purchase, lease or cession from the said Commander *Slechtendorst* or his associates before or after the publication of the Proclamation, not to enter upon it, much less to fence it in or build upon it in any shape or manner under high penalty and destruction of the building. Let everybody take warning.

Thus done and resolved at our meeting at *New Amsterdam*, the 29th of January 1652.

LETTER FROM BRANT VAN SLECHTENHORST TO THE COURT OF RENSSELAERSWYCK SENT TO THE DIRECTOR GENERAL AND COUNCIL PROTESTING AGAINST CERTAIN OF THEIR PROCEEDINGS.

Copy of a Letter sent by *Brant Artse van Slechtenhorst* to his Honor, the Director General and Council.

To the Honorable Court of the Colony of *Rensselaerswyck*:

Respectfully shows *Brant van Slechtenhorst*, Director of the said Colony, that a few days ago he received a judgment passed by the court at the *Manhatuns* against *Jan Jansen S' Obijn*, condemning him to a fine of two hundred and fifty guilders, because he had carried me from the *Manhatuns* to this Colony. It is quite unheard of, that an inoffensive skipper, a regular freighter, plying his trade for the honest sustenance of himself and family, who so far has never injured nor obstructed the authorities or any body else, [should be punished], while the necessity of my

departure by that opportunity was proved not only by me, but also by the authorities here in their letters and requests.

Where has it ever been heard or seen, that in a law-abiding country among Christian neighbors of the same religious belief and under the same sovereignty, such proceedings are instituted against anybody, as against the said Director, who by his position is not only commissioned and qualified, but was also called upon by General *Stuyvesant* in his letter of February 18th 1651 to give his advice for the common welfare in important land matters! I say, it is unheard, that such a person should be arrested and detained a long time without examination or subsequent issue, for the Director, notwithstanding his position, has been kept in arrest from the first of May until August, without having once been examined, although he entered a written protest and complained against it nor could he obtain justice, much less a discharge although he requested to be relieved of such unnecessary and fruitless vexation; all this has been shown and clearly proved to the Court of the aforesaid Colony.

When the aforesaid *van Slechtenhorst* in his stated quality came to the *Manhatans* they summoned him on the first of May simply by a messenger without legal form or citation and when he appeared the Court suddenly and unexpectedly passed the sentences against him, which directly contradict each other and held him so long as a prisoner, that he [has lost] all legal claims to his person and position. In due time it shall also be proved, by impartial judges, that of his goods more were confiscated to pay for the fees of the arrest, which were very small, than necessary. Would a person [be punished] in the Fatherland, be he ferryman or skipper, for carrying a man, of whom theretofore he had no knowledge or of whom nobody had told him, that he was detained by order of the Court contrary to the ordinances? But some receive impressions in their dreams, which they seem to utter in their daily deeds either with or against the laws of our country: Such unheard of and unbearable proceedings as against *Slechtenhorst* in his quality and against others, may well in time ruin this blessed and fruitful country or bring it to a sorry condition and turn the laws into public nuisances, which God forbid.

Therefore the said Director ex-officio protests and appeals against all these vexations and injuries, inflicted upon the said *Slechtenhorst* in his aforesaid quality, also against what has been done to *Jan Jansen* the skipper and *Jacob Jans Stol* without law or right and contrary to the privileges of the Colony. He complains before God Almighty to their Noble High: Might: the States General, our gracious sovereigns and lieges and to the Lords Patroons and Directors of the said Colony over this open violence and compulsion, he complains further of the five soldiers and five boatmen sent by Mr. *Stuyvesant* in the Company's sloop in 1648 and kept in the Colony and Fort for 14 days his own letter and the threats uttered against *van Slechtenhorst* at different times, ordering him not to continue with the erection of buildings and settlements on the Lords Patroons' own territory, or he, *Stuyvesant*, would cause the buildings to be torn down and then he incited 13 or 14 low fellows from the Fort, who were ready and armed for a fight, which however *Slechtenhorst* and his people prevented. When they could not obtain their object, they invented pretexts and summoned *Slechtenhorst* three times to the *Manhatans*, making the following charge: "What the charge of our Magistrates and the Fiscal of *New Netherland* are against *Brant van Slechtenhorst*, Magistrate in the Colony of *Rensselaerswyck*, he will hear and see, when he appears "before the Court in obedience to this summons." *Slechtenhorst* answered to this summons, that if the Magistrates and the Fiscal of *New Netherland* have any claims upon him, as a private person or in his official capacity, they might * * * * * and call for him at his place of residence. These useless citations and vexations of like sort were

repeated daily and the aforesaid Director protests once more against all losses and prejudice already suffered or which he may have to suffer hereafter also against all the harm and injury, done to him personally and in his official capacity, all *cum expensis* and the said Director as such offers as security for the foregoing actions in appeal all the property belonging to and claimed by the Patroons from the Hon^{ble} Company, also the horses and grain delivered to Mr. *Petrus Stuyvesant* himself from the Colony and requests to give a like security, to execute the sentence hereafter under the foregoing appeal. Done at the Colony of *Rensselaerswyck*, the 25th of Septbr 1651.

P. V. SLECHTENHORST, Director of the said Colony.

As to the detention of the Hon^{ble} Director, whereas some members of this Court, the principals of the Colony of *Rensselaerswyck*, had been arrested in the time of the Hon^{ble} Director General *William Kieft*, which his Honor not only maintained, that they were not subject to arrest, but also the release of his Honor followed, affirming, that the Colony was accountable for them, the Court of this Colony declares, that the same decision should hold good now as before. Done at the meeting, this 25th Septbr 1651.

Teste A. DE HOGES, Secretary.

Dirrick van Schelluyne, Notary Public, declares herewith, that the foregoing letter, directed to the Court messenger *Claes van Elslandt*, has been in his charge until the 27th day of this month of January 1652, without having at any time previous been called for or sent off. *New Amsterdam*, Jan^y 29, 1652.

COUNCIL MINUTES. RESOLUTION, CALLING ON THE COURT OF RENSSELAERSWYCK TO EXPLAIN CERTAIN OBSCURITIES IN THEIR FOREGOING DECISION.

To day, the 29th of January a closed letter was delivered by the Court messenger, which on opening proved to be a petition, drawn up and signed in the Colony of *Rensselaerswyck* by *Brant van Slechtenhorst*, Director of the said Colony, on the 25th of Septbr 1651 and directed to the Hon^{ble} Court of *Rensselaerswyck*, with the said Court's decision written on the margin as follows : (see above).

After due examination and upon voting the above decision was found ambiguous and obscure and the Director General and Council therefore resolved to direct the Court of the Colony as they do herewith, to free their decision from all obscurities and explain themselves clearly.

1. By giving the names of the principals of the Colony, arrested during the time of Director *Kieft*.

2. By stating in whose name and why the arrest was made.

3. By stating, whether the Court declares null and void the arrest of *van Slechtenhorst* for disobedience and contempt of the order given by the Director General and Council of *New Netherland*, from which arrest *Slechtenhorst* stealthily escaped and which declaration seems to be expressed in their decision.

A categorical answer is requested.

ORDINANCE REGULATING THE BUSINESS OF THE WINDMILL.

(See Laws and Ordinances of *New Netherland*, page 123.)

COUNCIL MINUTES. RESOLUTION ON A PETITION OF THE NINE MEN, THAT NO HOGS BE SHOT ON THE WALL OF THE FORT AND THAT THE FORT BE SURROUNDED BY PALLISADES; CHURCH PROPERTY; SURGEONS; ANABAPTISTS.

Monday, the 12th of February 1652 at *Fort Amsterdam*, present the Director General, *La Montagne* and *Brian Newton*.

The Board of Nine Men came into the Council chamber and requested the presiding officer, that the Hon^{ble} Council would please to forbid the shooting of hogs on the walls of the Fort and that for this reason the Fort be enclosed with stakes or in some other convenient way.

The Director General consents to the request of the Commonalty and promises to have the necessary posts cut and hewed by his own servants or negroes, the community to bear the expenses of putting up the pallisades and enclosing the Fort.

The Deacons of the church request by a petition that the money due for the purchased land may be set off against the Hon^{ble} Company to the amount of 1850fl.

The Council decree: fiat the offset.

The surgeons petition, that nobody else, but they shall be allowed to shave, to which

The Director and Council reply, that shaving is properly not in the province of the surgeons, but is only an appendix to their calling, that nobody can be prevented to please himself in this

matter or to serve anybody else for friendship's sake, out of courtesy and without receiving payment for it or keeping a shop to do it in, which is hereby expressly forbidden.

As to the other request this regulation concerning surgeons and the public health is made.

Whereas we are informed, that last summer two or three grave mistakes have been made by the inexperience of some ships' barbers,

Therefore Director and Council order herewith that such ships' barbers shall not dress any wounds, bleed or prescribe for any one on land, without the knowledge and special request of the above petitioners or at least Doctor *La Montagne*.

Domine *Johannes Megapolensis* requests, that *Anna Smits*, an Anabaptist, should be restrained from using slanderous and calumniating expressions against God's word and his servants.

The Director General and Council direct, that *Anna Smits* shall appear on the following Wednesday at the school of *David Provoost*, where the Nine Men usually meet and that the Director and Council together with the complainant and the consistory shall assemble there also, to hear what the said *Anna Smits* has to say against the teachings of the complainant.

Adrian van Tienhoven, *Samuel Megapolensis* and *Jan de la Montagne* request permission to erect a pew in the church of this place, which

The General and Council resolve to take into consideration.

REPRESENTATION MADE BY THE DIRECTORS OF THE AMSTERDAM CHAMBER OF THE W. I. COMPANY
TO THE BURGOMASTERS OF AMSTERDAM ON VARIOUS POINTS REGARDING THE PROVINCE OF NEW
NETHERLAND AND RESOLUTION OF THE MUNICIPALITY THEREON.

To the Very Worshipful Gentlemen, their Honors the Burgomasters and Regents of this
City of Amsterdam.

Show with due reverence the Directors of the Privileged West India Company, Department of *Amsterdam*, that by the blessing of God the country, called *New Netherland*, has in a short time increased in population, cultivation and commerce and that it will continue thus to increase on account of its favorable situation. The Directors endeavor by every means not only to promote agriculture and trade, but also to take care of the administration of the country and the undisturbed peace of its inhabitants, in regard to which several things have occurred, which they are at a loss, without the wise counsel of your Worship, to decide on, viz :

The communities under the jurisdiction of the Company, Dutch as well as English, complain in all their letters of the impudence of the savages, who during the last year or eighteen months have murdered some persons, captured some children and stolen a number of animals, all under pretext, that we had no right to resist them, whereas they had been informed by the deputies of the complainants, who were here from *New Netherland* last year, that the Supreme Government here had ordered, our officers there should not begin any war against them, as it had been done previously, when with armed hand the Company had compelled these barbarians to live honestly and in peace, which peace they have broken by their aforesaid deeds.

The English people outside of the Province of *New Netherland*, laboring under the same difficulties as our inhabitants, have proposed to make with our Director a league, to help each other in time of need or trouble and whereas they are much stronger in numbers than our people, they propose to bring into the field two men against one from our side provided that they also have a double voice in deciding on the legality or illegality of injuries done or war to be commenced.

A committee of their High: Might: have last year provided with safe-guards all the indecent complainants, who came here from *New Netherland*, and relying thereon they now, on their return there, believe themselves authorized to commit all kinds of disorders by instigating evil-minded persons against the Director and the Company's officers.

The Vice-Director, *Lubbert van Dincklage*, countenances these quarrelsome fellows as much as possible; therefore the Directors had decided to recall him by the last ships, that he might answer for his actions. But before our letters reached there, he had gone to *Staten Island* and joined *Cornelis Melyn*, the principal actor in these strifes and quarrels, who notwithstanding the protests of the Directors was last year provided with "*surete de corps*" and allowed to return there. Upon the Island they have established a government according to their own notion, also a judicial court: we prefer to be silent on the point, under whose direction and authority this is done.

The honorable committee of their High: Might: have sent without knowledge of the Directors as Notary Public to *New Netherland* one *Dirck van Schelluyn*, who there calls himself authorized by their High: Might: and as such a movement is directly against the orders of the Company, the Directors feel themselves much aggrieved by it.

The said honorable committee of their High: Might: have appointed as Captain of the train bands in *New Amsterdam* one *Jacob van Couwenhoven*, one of the deputies, who last year came hither as complainants without cause: we say without cause, as according to the last letters received, both the aforesaid communities have had no knowledge of it and in fact protest against their action.

The inhabitants of *New Netherland* say, that if the government here could be persuaded to abolish the duty on tobacco grown there, the people would be encouraged to raise more of it, as the soil there is better adapted to it than in the *Caribbean Islands*; they think, that by such a step not only the greater part of the English and French trade to these islands could be secured for us, but also that even the English of *Virginia* would send their return freights of tobacco mostly by way of *New Netherland*.

It must be considered, that in *Zeeland* and we believe also in some other provinces except *Holland* tobacco is not subjected to the impost of the tobacco duty and it may be presumed, that, even if the produce of *New Netherland* were exempted, the tax upon tobacco could still be farmed out, as now only a small quantity comes from there.

The said Directors find themselves very much embarrassed and inconvenienced by the colonies granted in former times with too extensive privileges and exemptions, which have made their owners so overweening, that some of them went so far in misusing their privileges as to believe, that they could prevent and forbid inhabitants of *New Netherland* to trade within their colonies; this is contrary to the law of nature, especially as understood in this country and by this people.

Whereas most of the preceding facts are considered to be of such nature, that the Directors as a body cannot resolve or give orders thereon,

Therefore they very respectfully request your honorable Worships' wise counsel and advice and thus doing etc.

Delivered the 13th day of February 1652.

This matter has been considered in a conference held with the following members of the Council on the 14th day of February 1652, Messrs. *Spiegel*, *Van Hoorn* and *Blaeuw*.

The Council of this city has thereupon resolved as follows on the 15th :

EXTRACT FROM THE RESOLUTIONS OF THE SENATE OF THE CITY OF AMSTERDAM.

February 15th 1652.

A committee of the Council having been appointed to examine a representation made by the Directors of the W. I. Co., wherein they ask for the honorable Council's decision and advice, as to what to do in regard to some difficulties, which they complain, they encounter in the administration of *New Netherland* and the said committee having reported their remarks thereon,

Resolved to advise the Directors as follows: First. The officers of the Company in *New Netherland* must resist with all proper force and means the violence and invasions of the savages, who, they say, have for some time past murdered their subjects, captured children and stolen cattle and for this purpose they may enter into and make a league in such manner, as they deem most beneficial for their own safety and reputation.

The committee are of opinion, that no deputy of their High: Might: has the right to grant safe-guards, by which evil-minded persons, as mentioned in the remonstrance of the Directors, might gain an advantage over them and under the cover of which they can withdraw themselves from the allegiance and jurisdiction of the Company: it is contrary to the charter, which places the management of the Company's affairs in general into the hands of the Assembly of the XIX, while that of *New Netherland*, by resolution of the XIX, has been entrusted to the Department of *Amsterdam*; therefore, notwithstanding a safe-guard has been granted, proceedings, as authorized by law, may there be instituted against *Dincklagen*, *Cornelis Melyn*, *Dirck van Schelluyne*, *Jacob van Couwenhoven* and all others, who either avail themselves of these safe-guards or else do not comply with the rules and orders of the Company: should such proceedings be deemed improper, then the aforesaid persons shall be sent over here as prisoners (*pede ligato*), if they do not come willingly, to be examined and to answer for their actions:

The Council, being specially inclined to promote the colonization of *New Netherland*, would learn with great pleasure, that their Noble High: Might: are willing to exempt tobacco, at least that grown in *New Netherland* and coming thence, from the duty and tax of the farmer and finally:

The Lords-Burgomasters or their representatives at the *Hague* will assist with their good offices and all possible means the Directors of the West India Company, Department of *Amsterdam*, in their efforts to uphold their charter and in the consideration of the preceding points and will advocate their cause before the Supreme Government.

AFFIDAVIT OF MICHAEL BERGIER, THAT CORNELIS MELYN LANDED CONTRABAND GOODS AT STATEN ISLAND, WHERE HE FORTIFIED HIS HOUSE AND MAINTAINED A GUARD OF RARITAN INDIANS.

To-day, the 8th of February in the year sixteen hundred and fifty-two, before me *Henrick Schaeff*, Notary Public admitted by the Court of *Holland* and residing at *Amsterdam*, and before the subscribed witnesses appeared *Michiel Bergier* of *Angouleme*, about 22 years old, a servant of *Yonker Johan van Waveren*, late Schepen of this City, who in true words, instead of an oath, at the request of the Lords Directors of the West India Company here testifies, declares and deposes: It is true, that in the summer of the year 1650, he, the witness, was engaged by *Cornelis Melyn*, a freeman of *New Netherland*, as his servant; that in the month of August of the same year he sailed with him in the ship "*Nieuwederlantse Fortuyn*," skipper *Daniel Michielsens*; that after remaining a long time in *England* they arrived in the * * * of the said year at the *Red Island* under the jurisdiction of *New England*, where the said *Melyn* purchased some provisions of little importance selling a part of the freight, as brandy, duffels and other goods to the English; that from there they sailed in the same ship to *Staten Island*, where he landed secretly at night and the tide not serving a number of kegs with powder and blocks of lead, weighing 150 pounds the block, also a chest with muskets, which he, the affiant, had himself cleaned and put in order. That the Director of *New Netherland*, *Peter Stuyvesant*, having been informed thereof, some time later ordered the said ship to be attached and brought up to *Manhattans Island*, where proceedings towards its confiscation were instituted; he, the affiant, has understood, that in the end it was confiscated. He further declares, that the said *Cornelis Melyn* was several

* Not preserved.—B. F.

times legally summoned to appear, but he refused and did not obey the summons and that fearing he might be arrested for his refractoriness and for his aforesaid misdemeanors, he provided and strengthened himself upon *Staten Island*, where he resides with 117 to 118 *Raritan* and Southern Indians each armed with a musket, to defend him against the Director. He deposes further from his own knowledge, that by order and direction of the said *Cornelis Melyn* he, the affiant, with said Indians remained in the woods for several days and offers, after the foregoing deposition had been read to him to confirm it under oath in the presence of *Yonker Nicolas van Waveren* and *Jan van Wyck*, both residing in this City, who had been requested to act as witnesses and who with deponent and me, the Notary, have signed the record hereof: quod attestor. (Signed) H. SCHAEFF, not. publ.

Follows the act of verification:

We the Burgomasters and Administrators of the *City of Amsterdam* certify to all whom it concerns, that *Michael Bergier* of *Angoulême* about 22 years old has appeared before us upon a summons to testify to the truth at the request of the Directors of the W. I. Company and that being duly sworn he declared, deposed and said, that the foregoing affidavit, read to him by the Secretary, was true and he persisted in this declaration, so help him God Almighty!

In witness whereof the seal of this city has been hereto affixed the 13th day of February 1652.

AFFIDAVIT OF THE REV. WILHELMUS GRASMEER, THAT CORNELIS MELYN INCITED THE NATACK AND OTHER INDIANS AGAINST DIR. STUYVESANT, ETC.

To-day, the 14th day of February A° 1652 appeared before me *Hendrick Schaeff*, Notary Public admitted by the Court of *Holland* and residing at *Amsterdam*, and before the undersigned witnesses the Rev. *Wilhelmus Grasmee*, lately a minister of the gospel in *New Netherland*, whence he returned last November in the ship "*Huff van Cleeff*," who being in this city, deposes and says at the request of the Directors of the Priv. West India Company, that a long time after *Cornelis Melyn*, a freeman of *New Netherland*, whom witness knows well, had arrived in *New Netherland* in the ship "*Nieu Nederlandsche Fortuyn*" on her last voyage, he, witness, had heard the *Manhattans* Indians of *New Netherland*, living at *Nayaack*, a place on *Long Island* directly opposite *Staten Island*, frequently say, that the said *Cornelis Melyn* had made them believe and declared to them, Director *Petrus Stuyvesant* would, as soon as he had built a wall around *Fort Amsterdam*, come to kill them, namely the savages, whereupon the said savages fled and came armed to *Gravesend*, which belongs under the jurisdiction of the aforesaid Company; there relying upon their arms they were guilty of many misdemeanors and using force insulted and injured the inhabitants by beating and kicking them. Being interrogated by the inhabitants, why they did so, they answered, because *Cornelis Melyn* had told them, that Director *Stuyvesant* would come to kill them; this, witness says, he heard from the inhabitants and knows, that on account of it they made complaint to the said Director and Council of the insolence, turbulence and attacks of the savages, requesting to be protected against them. He, witness, knew this from hearing and seeing it every day, being then in *New Amsterdam*, also that many savages of different tribes, *Raritans* as well as *Manhattans*, have come several times to his, witness', house, also into the house of the aforesaid Director, in fact into every house on *Manhattan Island* and said, what he, witness,

himself heard several times, that the aforesaid *Melyn* had bribed the savages to come and murder the Director. In consequence of this and of other threats the Council resolved, that the Director should not go out of the city of *New Amsterdam* unless accompanied by four armed men, which this witness has seen done daily up to the time of his departure and believes is still done. He declares further, that he knows very well, that the said *Melyn* has several times been duly summoned to appear before the Director and Council and to testify regarding the abuses and smuggling practised on the last voyage of the aforesaid ship, which summons he always refused to obey and he did not appear. Witness offers to confirm the foregoing if necessary under oath.

Done at *Amsterdam* in presence of *Eryn Pietersen van Seventer* and *Jan Mast*, citizens, as witnesses.

ORDINANCE PROHIBITING THE ERECTION OF BUILDINGS WITHIN 600 PACES OF FORT ORANGE.

Wednesday, the 5th of March 1652.

The Director General and Council of *New Netherland* to all, who shall see, read or hear this read Greeting:

Know ye, that we have before now several times informed and warned the Commander at the Colony of *Rensselaerswyck*, not to shut in and obstruct the Hon^{ble} Company's *Fort Orange* with new buildings and houses, whereas the said Fort's liberty is generally estimated to be 600 geometrical paces* or 1200 steps, about a peterero shot distance. This order and warning has been communicated to the said Commander and to the Court of the Colony on the 23^d of July 1648 by his Honor, the Director-General as well orally as in writing with this verbal request, as stated in the written propositions, not to allow the erection of any more new buildings within the liberty of the said Fort, unless he, the Commander, had previously obtained and could exhibit a special order or at least consent either from their High: Might:, our sovereigns, or from the Lords Directors of the Priv. W. I. Company as masters and owners of the Province of *New Netherland*: for outside of the said limits of the Fort's liberty above and below the Fort there are lots and places, more suitable for building purposes. Although these orders have been several times communicated to the said Commander by our respective Commissaries and by our letters, he has paid no attention to them, yet for the sake of accommodation and neighborly intercourse between the Fort and the dwellings of the Colony and in order to be in a better position to assist each other in time of need, we allowed ourselves to yield to the request of respectable and peaceful inhabitants so far, as to suspend provisionally after an ocular inspection until further orders from the Lords Directors their right to said limits, reserving the right to pull down the houses, if hereafter necessity demanded or the Hon^{ble} Directors ordered such proceedings. The aforesaid Commander not being satisfied with that, has *proprâ autoritate*, without recognizing any higher prerogative in this Province, gradually begun to distribute the lots nearer to the Fort not only on a quit-rent, but, we are informed by good authority, also in fee simple, which is an absolute sale; so that for the maintenance of the privileges of the Fort and of the Hon^{ble} Company and their

jurisdiction and authority in this Province, we were finally compelled and obliged to defend and publicly proclaim their right and the limits of the Fort. This proclamation having been communicated to the said Commander, with an order and directions to publish the same in the Colony; he, to the disparagement of ourselves and our official position, of the high and sovereign authority of our Fatherland which we represent here and to the special affront of the Lords-Directors, the Patroons of this Province, most insultingly and indecently dared to tear it out of the hands of the Clerk or Assistant and to throw the seal of the Province on the ground.

The said Commander having by this insult and affront offered to the Supreme Government violated all neighborly obligations and our previous accommodating moderation, provisionally not to enforce the claim to the limits of the Fort's liberty until further orders were received from the Lords Directors, we are now by that unwarranted action and their derisive proclamation induced and constrained to revoke our previous favor and to direct our Commissary, as we herewith order him, not to permit any building or frame of a house to be erected either West or North West of the Fort within 600 geometrical paces of five feet each or 250 Rhineland rods, about the range of a cannon shot and that no one may hereafter plead ignorance, we command our Commissary, after having posted and published this, to erect or cause to be erected North, South and West of the Fort a post marked with the Hon^{ble} Company's mark at the distance aforesaid, as determining the provisional jurisdiction of the said Fort.

Thus done and enacted, saving the claim of the Fise to proceed on and against the Commander and others for this and other misdemeanors committed by them, in our Council this 5th of March 1652.

FORM OF A CONTRACT FOR THE IMPORTATION OF NEGRO SLAVES FROM AFRICA, PRESCRIBED BY THE DIRECTORS OF THE W. I. COMPANY.

To-day the undersigned Director and Council of *New Netherland*, authorized thereto by a resolution of the Department of *Amsterdam*, parties of the first part, and the owners of the ship whereof is commander, measuring about tuns, parties of the second part, have agreed and contracted, that the aforesaid skipper shall receive a license and the necessary documents enabling him to trade for slaves on the coast of Africa and to make such other bargains as he shall deem to their best advantage: he shall further return to the *Manhattans* with the said slaves and such other freight, provided however, that the above licence shall not authorize him to trade on the Gold Coast and that he shall not come any further West than *Arde* or at most *Pope** under penalty of forfeiting the said ship and its cargo. The Director and Council shall be allowed to put a supercargo on board of the said ship, (whom the skipper shall be held to treat as cabin-passenger) and if necessary to administer a pertinent oath to the crew. For this consent and license the said owners promise to pay promptly upon the return of the said ship and before its freight is unloaded, to the said Director and Council fifteen guilders for each negro as duty without exception or computation, binding therefor their persons and property under renunciation of the benefit *ordinis divisionis et excusationis*, as having full knowledge thereof.

PROPOSITION OF THE DIRECTOR GENERAL TO DISMISS THE FISCAL HENDRICK VAN DYCK,
SUBMITTED TO AND APPROVED BY THE COUNCIL.

Without mentioning the various misbehaviors of the Fiscal *van Dyck*, of which he has made himself guilty, by connivance, negligence and general failing to do his duty, he has now had the audacity, to insult, calumniate and scold us and the Hon^{ble} Council repeatedly, as his own confession and the evidence of trustworthy witnesses proves, especially his own petitions of July 4th, 1647 and September 1651, the petition of the Hon^{ble} Council of 1648, all of which we have patiently borne and overlooked on his promise of reforming. Nevertheless, he has again been pleased to insult, calumniate and scold the writer hereof at the house of Captain *François Vyn*, calling him in the presence of *Vyn*, his wife, the nurse and *Andries Christman*, "Scoundrel, Murderer, Tyrant, Hound, Baby" and other like names. Although we have a different opinion of ourselves and because so far respectable people never held us in such an estimation or were persuaded to believe it of us, yet as such insults and calumnies have been uttered repeatedly behind our back and in our presence we cannot bear it any longer, without causing our good name and reputation to be suspected. We are therefore compelled for the sake of the Hon^{ble} Company's, our subjects' and our own honor to suspend the said Fiscal *Hendrick van Dyck* from his office and duties, until further orders from the Lords Directors shall have been received and in the meantime to communicate this to your Honors for approval or for the Fiscal's defence, as your Honors may deem best for our honor and the public welfare.

New Amsterdam, the 27th of March 1652.

After the Director General *Petrus Stuyvesant* had read the foregoing to the Council and the Nine Men, they declared, that they could not produce anything to prove the innocence of the Fiscal and saw no reason, why he should not be suspended. *New Amsterdam*, 28th of March 1652.

The Fiscal *Hendrick van Dyck* came before the Council, where the Hon^{ble} Director General informed him that he, *Hendrick van Dyck*, was reported to have wounded the Director General in his reputation, which he herewith expressly denies and protesting against his suspension requested a copy of these proceedings. March 28th 1652.

The Director General has suspended the Fiscal and charges him not to meddle any more in the Company's affairs. The Secretary is directed to give him copies of the letter, which he, *van Dyck*, calls a *pasquil*, and of the above proposition of the Director General, made in regard to the letter to the Hon^{ble} Council and the Board of Nine Men.

Therefore constituting the abovenamed *Francis Soillel* and *Frans Grion*, or their assigns in our stead real and actual possession of the aforesaid plantation and valley, hereby giving them full power and authority and special command to enter on, occupy, cultivate and make use of the land and valley aforesaid as they might do with other their patrimonial lands and effects, we, the grantors, in quality as aforesaid, desisting from all henceforth for ever; further promising this conveyance firm, inviolable and irrevocable to hold, observe and execute, under bond as by law provided.

1652, 4th April.

Honorable, Worshipful, Pious, Dear, Faithful.

Our last letters were dated the 21st, 22^d and 26th of March of last year, in which we wrote as much as was then necessary; in the meantime we have duly received your letters of the 26th-27th of November 1650 by way of English *Virginia* and of the 21st, 29th and 30th of September of last year by the ships "*Geldersche Blom*" "*Bonte Koe*" and "*het Hoff van Cleeff*," "*Kayser Carl*" and "*St. Michiel*"; we received besides several documents and papers, which we shall answer as briefly and as much to the point as possible. The satisfaction given to the people of our own as well as of the English nation by our address to them has decided us to continue this measure by the present ships, besides copying the aforesaid addresses, which might be unnecessary, if some unruly spirits did not try to persuade the community that these letters were not written by the whole board, but only by some of the Directors: therefore the duplicates are signed by all

the Directors, now in office, so that the community and our good inhabitants may see and learn, what the intentions of these false and mutinous fellows are. We have no doubt, that we shall be amply able to crush their malicious undertaking. The same community will feel still more assured of our good intentions, when they have learned of our favorable decisions upon divers requests made by them.

They complain bitterly of the improper trade in powder, lead and guns carried on there by private parties. To prevent this as far as possible, we send herewith a printed placat with the execution of which the Fiscal is strictly charged.

From our secret resolution, which we entrust herewith to the Honorable General, regarding the vexations by the savages, of which the inhabitants complain and to which they are exposed through the instigations of evil-minded persons, who make the savages believe, that we are not allowed to punish them for their illdoings, your Honor will perceive, that if necessary, in an emergency a league may be made with our *English* neighbors, that thereby the insolence and mischief-doing of the barbarians can be held in check; we cannot however consent, to give them a preponderance in the council, for we consider that dangerous.

We consent to their request to abolish the duty of 8 per cent upon tobacco raised there; we are besides petitioning the government, that when the duties are again farmed out, the toll upon *New Netherland* tobacco may be left out: that would be a great advantage to the planters there and to promote such plantations still more, we consent herewith upon the request of the inhabitants there, that they may, in their own ships, fetch from the coast of *Africa* as many negroes, as they shall require for the cultivation of the soil under the enclosed conditions and regulations. There remains now only to grant their request concerning the freighting of one or two ships for their own account, regard being had to their obligations to and engagements with our colleagues *Edward Man* and *Isaac van Beeck*; they have of course in view the profits to accrue by such freighting from the return cargoes and the transport of many people, which for some years past private traders have been enjoying. Our answer must be, that at present many difficulties present themselves to this plan; notwithstanding we had already undertaken to freight a ship of 200 lasts, armed with 20 guns, for which we had offered 8000 guilders and would even have given a little higher price, when the following happened.

We were first summoned by the Burgomasters, who offered us 150 boys and girls from the orphan asylums, willing to be carried to *New Netherland*, at 30 guilders passage money per head or 8 stivers per day for board; the said gentlemen had already made an order that all private freighters should carry over indigent passengers at this rate and this is the reason, why so many people are coming over in these ships. We had made provisional arrangements with some skippers for the passage of the young persons, also agreed with the Burgomasters upon the conditions under which the children were to be placed with good masters, namely they were to be bound out for the term of 4 years and to receive besides the necessary food 50 to 60 guilders annually for clothing or as much more as you might obtain for them; if the girls should marry with your consent before the expiration of their time of service, they were to become free, and if after having served their time they continue to remain in their masters' services, they may do so upon such conditions, as they may themselves make, while to those, who desired to remain free, 25 morgens of land each were to be allotted or as much as they were willing to cultivate. These conditions were approved by the Burgomasters and pleased many of the young people and we believed, that the community there would have gained their point by these means, but when we thought we were quite sure of it, it happened that the ships of the English Parliament, commis-

sioned with letters of reprisal against the inhabitants of this country, captured about 60 of our merchantmen, among other the ship "*Kayser Carel*" on her way from *New Netherland*. These proceedings have greatly surprised our government and in consequence three envoys were sent to *England* in the hope to effect a discontinuation of these robberies; but contrary to all expectations, during the time of these negotiations the Parliament's ships took near the *Caribbean Islands* and *Barbadoes* 25 or 26 ships, mostly belonging to this country. Their crews were received here so ill, that now preparations are being made to equip 150 vessels, which will shortly go to sea to recover in this manner the damages already suffered. You may guess yourselves, what the consequences will be. We have related all this in detail partly to warn you, to be on your guard, partly that you may judge why the abovementioned freighting cannot be carried out, for it does not look as if many goods will be sent to *New Netherland* this year, because a large quantity of merchandise sent over last year has remained unsold and also because of the abovementioned reasons and fears. We must therefore expect, that our revenues from import dues will be very small; yet we see the price of the commodities required by you, rise considerably; but to show you, how deeply we are interested in that country, you will find, that your demands have been almost completely satisfied by the coming ships, even as far as sending seamen and soldiers, among whom there are a few entered on the muster-roll, enlisted as soldiers for one year from their arrival there, but to engage afterwards in agriculture, which was originally their business. We have made no objections to this, because we can send others in their places next year. You can now judge, how we have to exert ourselves, almost beyond our means, to make *New Netherland* a flourishing country and to enjoy at last after so great an outlay some fruits of our labor. We have expected for some time return cargoes of beaverskins and logwood, which you have led us to expect, for you informed us, that you were busy collecting a quantity of beavers, but we have heard nothing about it since: such return cargoes must henceforward be sent, else we shall be compelled and necessitated to refuse sending you so liberal supplies.

It is true, we had directed Vice-Director *Rodenburgh* not to allow any logwood to be shipped from the *Island*, because we had intended to dispatch a ship for the purpose of fetching a cargo from there, as we had no doubt, that he would have taken care to have a full load ready by the arrival of the bearer hereof, *Adrian Bloemmaert*, whose ship "*het Hoff van Cleeff*" we have chartered by the month according to the enclosed charterparty. The said Director must also be advised that some of our officers, among them one *Jan Jansen van Hussen*, have had the audacity of giving or selling a quantity of logwood to some skippers, touching at *Bonayro*, as the enclosed invoices show; we are further informed by good authority, that the said Director is carrying on quite an extensive trade in horses to the *Caribbean Islands*; the consequences of these proceedings must be, that in a few years the islands of *Curacao* and *Aruba* will be entirely destitute of animals to the very great inconvenience and loss of the Company. We are by no means pleased, because we have as yet received neither from the said places nor from you a statement of the prizes captured and ships sold nor of the proceeds of the merchandise sent there, although we have called for them several times. That has been partly the reason of our sending out a book-keeper, that such excuses as want of assistance or unfamiliarity with the books should be made impossible, with which now the clerk *Carl van Bruggen* excuses himself: we have no doubt, however, that with the first ships coming thence we shall receive, according to his promise, a correct balance-sheet, so that we can make the proper entries.

We have for this reason established here a special bureau for *New-Netherland* matters and it is therefore necessary, that we should receive by first opportunity accurate registers of all lands,

bowweries and houses, let out on lease by the Company, with the rents and conditions, under which they are rented; and as the Exemptions show, that the island of *Manhattans* is always to be reserved for the Company, while we have reason to believe, that some lands and lots have been given to private parties without our knowledge, we require a detailed information concerning it, for it has the appearance, that with God's help we shall have there a large population in a short time; we must therefore keep good order, that every one may find a suitable place and that the land may be divided with more equality, than formerly, when everybody took, what pleased him best without knowledge or consent of the Directors or their officers as we find it now in the cases of *Wouter van Twiller*, *Olfert Gerritsen*,* *Lubbert van Dincklage*, *Jacob Wolphertsen** and others, who have taken and purchased many tracts of land from the savages without our consent or knowledge. We consider this very intolerable and therefore deem it necessary, that your Honor should warn everybody by public advertisement, not to buy or take possession of any land without knowledge and approval of the Company and its officers, also dissolve all such contracts of purchase made heretofore, under the condition, that the buyers shall be reimbursed for their out-lays and the title vested in the Company. All this with the understanding, that we are and will be willing, to grant as much land to everybody, as he will undertake to cultivate and populate, but we do not intend to give away the land with unlimited boundaries, as formerly, especially not whole islands, of which one was given to *Cornelis Melyn*, who upon 8 leagues of country has only settled 5 or 6 living beings. His title has consequently lapsed since a good while and it would have been proper, that it should have been taken from him some time ago and given to people who would have better fulfilled their engagements. It seems now, that Baron *Hendrick* and *Alexander van der Capelle* have negotiated with this fellow and bought from him one half of the island without previously informing us; Baron *Hendrick van der Capelle* declares besides, that he had given orders to buy for his account the land of the *Nieuwesinck* and *Raritans* back of *Staten-Island*, which as we did not know it we had granted to the Hon^{ble} *Cornelis van Werckhoven*, who goes there with a goodly number of souls, to take possession, as your Honors may learn from the commission, which we gave him. If this gentleman is interested in the affairs of *New-Netherland* and especially in the welfare of the Company, as we hope he is, then he may become an instrument, by which many people could be drawn thither, although we wish, that we could have refused the grant of such a colony, for we agree with your Honors and consider such grants very inconvenient for the Company, but we could not refuse it to this man, who is a member of the Government, because we did not like to appear as being opposed to the influx of population; here again in this grant we meet the inconveniences mentioned above, for Baron *van der Capelle* claims to have been proprietor of these lands for a year or eighteen months; we must say to it, that we have had no knowledge of it and that they must come to an agreement among themselves; these are the consequences of the attempt to establish a government within a government.

If you had sent *Dincklagen* to us, this would not have had happened and it could have been prevented in a rational way, considering he resigned his office without giving an account; we are therefore unable to understand, that any salary is due to him, and we rather think, that he was resolved to leave the Company's service under some disingenuous pretext, already in the year 1650, when he pressed in so outrageous a manner to have his salary paid in full, with which he was not satisfied, but he had to stir up the soldiers also. We have so far overlooked many insolent acts of some unruly spirits, hoping that our benevolence and leniency might put them to shame, but as we see that urbanity does not help us, we must rely upon God, the law and nature and we

charge and direct you therefore herewith, that, if you discover some separate gatherings, conventicles or machinations against the government of our state or country, you proceed against such malignant conspirators according to their deeds, considering however that we desire by no means cause or reason to be given to any one for complaints that he is prosecuted to gratify private passions. For all that we have not failed to learn by experience, that many of the evil-doers take shelter under this pretext and although we know it to be unfounded, yet we have decided upon your proposition and in order to stop the general talk and gabble, that a court of judicature shall be established there, similar as far as possible to the court of this city; we send you for this purpose printed copies relating to judicial courts and government. For the present we believe it will be sufficient to elect one schout, two burgomasters and five schepens;* further that all sentences may be carried in appeal to the High Council for final judgment. In choosing the aforesaid officers care must be taken to select honest and respectable men, whom we hope you will find among the burghers; we desire that preference shall be given to persons of our nationality, which we think will be most satisfactory to the burghers and inhabitants. We also agree with your proposition to establish there a public school and believe a beginning might be made with one schoolmaster (*hypodidasculum*), who could be engaged at a yearly salary of 200 to 250 guilders. We recommend for this position *Jan de la Montagnie*, whom we have provisionally appointed to it and you may use the building of the City Tavern, if you find it suitable.

We do not see by what means we can prevent the trade in lump wampum, as long as the fiscal will not discharge his duties faithfully, and we are afraid, that you too have not discovered the proper way, when you increased the value of money 25 per cent in order to bring small specie into the country, of which we believe a quantity will go over in these ships: you will thus soon learn the result of your resolution. General experience however has demonstrated, that the increase of the value of money has usually been the ruin of the country and its population; we consider therefore this a matter of dangerous import and find it very unadvisable to have passed this resolution without our knowledge.

As to the trade with *Boston* and *Virginia* we have already before now given you our opinion and still believe, that it would prejudice our privileges: we therefore consider it necessary, that all merchandise coming that way into our territories pay the same duties as that coming directly from this country. We are convinced, that the *Verbruggens* and others carry on a contraband traffic by various means; we here are not in a position to prevent it, but closer attention should be paid there at the unloading of their cargoes; that is the duty of the fiscal and he must discharge it more faithfully or else we will be compelled to take other measures. The same *Verbruggens* and many others complain, that you have raised the duty on merchantable beavers to 15 st. the beaver, of which we found the proof in the invoices; they claim therefore, that what you have received too much should be refunded by an offset against the duties: we could not refuse that, for our intention and express order was, that you should not demand more than 8 per cent for every merchantable skin, the beaver skin being valued at 8 guilders and we repeat herewith our order, that we may not get into new difficulties with the merchants every time.

We cannot understand, where the great danger lies, which you apprehend from our commission given to the ship "*Waterhont*": it differs somewhat from the commissions given to other ships, which are chartered for the voyage out and back, while the "*Waterhont*" was chartered only for the voyage out with license to try its luck upon its outward arrival in finding an advantageous

return cargo: the same permission will now be given to the "*Hoff van Cleeff*," unless we should freight her for *Curaçao* and the neighboring islands, as stated above, so that we could not see any danger in this, but rather in the neglect to obtain letters of reprisal, as all other skippers have done: especially as he has since been fortunate enough to come across and capture a sugar ship, which you and your council have declared confiscated by formal judgment, distributing the cargo of this prize, as if the skipper had received a commission in due form. We must therefore tell you, that the capture was made for the benefit of the Company and not in behalf of the skipper and the shipowners: the whole cargo of sugar ought to have been consigned to us, so that we could dispose of it according to the rights and privileges of the Company against the Portuguese. Now we have to submit to many calumnies on that account and defend several suits: among others the owners and after them the underwriters have attached the sugar, asserting that as the skipper had no proper authority to make reprisals, he should be punished as a pirate and so on. We have already a good deal of trouble about it and do not know, what the result will be, for we observe, that these people still have their friends, especially because the loss of the insurance falls upon citizens and inhabitants here. We also judge so, because *Johannes Dyckman* and other passengers attract but little attention with their complaint, that they had received too small a share in the partition, although they could make no claim for any share, until the judgment was definitely confirmed here. Anyway we find, they received more, than was due to them. We notice further, that the whole case has been sadly mismanaged, many articles have been stolen, especially all the loaf-sugar; some tobacco, silverware and gold coins: eight chests were kept back to defray the expenses, which is a great deal, and a large quantity for presents and similar purposes: this causes many complaints and others are made on account of the ship "*Neu Nederlandsche Fortuijn*," skipper *Daniel Machielsen*; although it is now proved by all the documentary evidence, that this ship and its cargo were confiscated legally and for good reasons, we shall yet have some trouble about it, because some people had shares in it, who will not understand, that a ship, being a dead instrument, can sin; but we believe, that these people will suffer themselves to be enlightened on this point. This, however, is our least trouble: but we observe, that the fiscal neglected to seize the contraband goods, upon which the right of confiscation is based and if we had not been more alert here to obtain clear proof, that the munition of war was part of the cargo, as you may see from the enclosed invoices, the documents sent by you would hardly have stood the test, for some of the declarations of the mate and crew are contradictory and we are very much astonished, that the necessary information concerning these proceedings and confiscation is not given more intelligently. We consider also the sentence very intricate, as it declares ship and cargo liable to confiscation excepting the property of the crew and passengers and what has been duly cleared and that this may be proved by the bills of lading. Now we find, that by public auction a lot of goods has been sold there, amounting according to a list sent us to fl 7352.2, and we are told, that these goods were regular merchandise, not subject to confiscation, but not a word is said about the disposal of this money, whether it was held in trust for those who have a right to it or what became of it. Although no invoice of these goods has been produced, you could have seen from the bills of lading and lists sent you, that they were duly cleared here, and the duty paid for them, therefore, even if the custom house clearances had been wanting, these goods could not be subject to confiscation, because it often happens here, that quantities of merchandise shipped hence are covered only by a simple bill of lading. In this case we need not enter into a dispute, for the clearances were produced here and we send you duly authenticated copies herewith. That they have not been shown to you is the fault of *Allard Anthony's* timidity,

to whom these goods were consigned and who therefore should have claimed them; but evil-minded persons frightened him by saying, that his own goods, shipped to him free of duty, would be challenged. The owners have now requested the restitution of the aforesaid money and we see no reason whatever, why it should be refused; we trust, that it has been kept there in consignment and good care and it must be paid over to the owners: as we have also good reason to say, that the whole matter has not been sufficiently explained to us, so we have still more to say about the proceedings concerning the ship, of which not a word has been said, whether it is to be used in the Company's service or what has been done with it: we have been told by strangers, that it was sold for fl3200 and sent with provisions to *Curaçao* or the *Caribbean Islands*, a proceeding, which makes us suspicious. This ship is now claimed by *Baron Hendrick van der Capelle* and his partners, who assert the ship could not be liable for the misconduct of *Cornelis Melyn*: we say that *Melyn* has been condemned as agent and in behalf of the skipper, that before sentence was pronounced sufficient bail was given, that his real estate has been attached for it and that they are fully justified in proceeding against and claiming the money received for the ship. But here again we have no evidence of how much it has been sold for or what has become of the money; if the skipper has received it, then he is responsible for it to his owners: you will observe and take notice, that we require much clearer proofs not only in this case, but also in some preceding cases of confiscation, which caused us nothing but great trouble: we should not be exposed to it.

We are quite concerned in regard to the request of the *Canada* savages, who have become involved into a war with the *Maquas* and resolved to go into the country of the latter; to do so they would require permission to cross over the North river and have already asked it from your Honor. We consider a consent to their request very dangerous, for we must fear to get into trouble with the savages, the more so for the reasons mentioned above; it is therefore our opinion, that it is best, to refuse such a passage politely.

We cannot sufficiently express our astonishment at the insolence and boldness of *Brant van Slechtenhorst* in undertaking to deprive some people of their gardens, made by them around *Fort Orange*. We can only say to it, that we desire our authority in the neighborhood of this fort to be maintained in every way as far as a cannon shot and if he has injured any citizen within these limits or ruined anything, then he must repair it and pay for the damage. From what we can learn here, the owners of the Colony of *Rensselaerswyck* have here come to an agreement and will probably send over another manager, but we doubt, whether they will easily get rid of *Slechtenhorst*, for it is said here, that he demands from the owners 14000 to 15000 guilders; we know not, how true it may be.

Wouter van Twijler is again very troublesome about the payment of his accounts for provisions delivered to the forts there; we could not think of a better expedient in regard to him, than to tell him, we would direct you to liquidate the accounts there with his agent and we hope, that when he shall account for the tithes from his colony, he will be obliged to pay us. You do well, to manage the collection of the tenth as discreetly as possible: we have no doubt, however, that the citizens and inhabitants will notice the leniency, with which we act towards them and considering the great expenses, which we have every day, will submit willingly.

As we have reasons to hope, that a large number of people will go over, we recommend to you most urgently to see after the cultivation of every product of the soil and the laying in of provisions, necessary for the subsistence of the people, also to issue orders regarding the disorderly and untimely slaughtering of cattle, so that the emigrants may find a proper supply of victuals.

We are wondering, that so few sheep are found there, for we believe the country is suitable

for raising them and are led to think, that little attention is paid to them or that they are killed too soon : you will know better, what the reasons are.

We receive here frequent warnings concerning the exportation of horses from *Curaçao* and *Aruba* to the *Caribbean Islands* ; you will therefore warn *Rodenburgh* by every opportunity to take heed or else we shall be forced to adopt other measures.

You think, we have done well in treating with *Jean Dillan* about establishing a colony at *Curaçao* ; we have now granted a like privilege to a Portuguese, *Joseph Nunes de Fonseca*, alias *David Nassi*, agreeable to the here-enclosed patent, who is preparing to go there with a large number of people. Time must show, whether we shall succeed well with this nation : they are a crafty and generally treacherous people, in whom therefore not too much confidence must be placed.

The contract projected by *Justus van de Venne* has surprised us very much and we consider ourselves very fortunate, because it has fallen into your hands : it will show you, how such persons try to deal with the Company : we must oppose such contracts by all available means and therefore consider it necessary to purchase from the savages or natives as much land as can be obtained and thereby prevent all such dangerous dealings by private parties.

Your journey to the South River and what has passed there between the Swedes and you, has surprised us, as you had not previously mentioned this intention ; God grant that what you have done may turn out for the best ; we cannot express our opinion of it, before we have not heard, how the complaints of the Swedish Governor will be received by the Queen : we hope that the proofs of our previous possession will be accepted as sufficient : but we see little probability nor any opportunity to make here arrangements with the Swedes for settling the boundary question : nor can we say much, whether the demolition of *Fort Nassau* was a very prudent act, as indeed nobody could claim it and time must show, whether the Swedes will so understand it in regard to the erection of the new Fort, called *Casemirus* ; we are in the dark as to the reasons, why the fort has been given this name ; it must be guarded with care, that it may not be taken by surprise ; we do not know, whether it is very necessary to make any fortifications opposite to the Fort on the east side of the river and must leave this to your discretion, but in connection with this matter we also must warn you to take good care, that no strongholds be erected upon some islands near the *Manhattans* by people, who have had the audacity of instigating the savages against us : you will inquire into this matter closely and finding it confirmed as true proceed against these people as their acts deserve ; we charge you however to use the utmost discretion in all your proceedings, so that you may answer for them to everybody.

We have no objections to the provisional agreement with the English about the boundaries and the envoys, who have gone to *England*, have been instructed to come to an agreement about it with the government there, if possible ; but the relations between *England* and this country are by no means pleasant ; God grant they may not result in extreme measures. Under these circumstances it is absolutely necessary, that you be well on your guard, for we fear, the English of *New England* may pick a quarrel with us : we hope for the best and that, even if *England* and our government should have a misunderstanding, they will not refer to this question. We judge it would be advisable to make with them some kind of provisional agreement in form of a league against all nations, who might intend to do harm to or attack either of us there ; it must provide in one clause for a vote upon all resolutions. To obviate this and other unavoidable difficulties we deemed it necessary, to send you again by this ship some soldiers and ammunition according to the enclosed statement. We have learned with pleasure, that the fort at *New Amsterdam* is in good

condition ; should it require any repairs, you must see to them without delay ; the same rule applies to the other forts, especially *Fort Orange*.

There comes on board the ship "*Romeyn*" as supercargo a person by name of *Frederick Alkes*, who has been schoolmaster at *Hoorn* ; he writes a good hand, but we know little else about him ; he is recommended by a man of quality and requested, that he might be allowed to remain there, if he liked the country. This board gave him such permission, although it is somewhat against our common custom ; but sometimes we cannot well refuse such demands and if his habits are as good as his penmanship and a schoolmaster is wanted, then you might consider him, but let him first be thoroughly tested, for we have noticed, that the climate over there does not improve people's characters, especially when the heads of the administration do not set a good example to the community. We hear a number of complaints from people coming thence against the Fiscal and about his drunkenness and other things : should he continue on this path, we would feel compelled to act as we shall think fit.

As Vice-Director *Lucas Rodenburgh* complains bitterly over the loss of the barge, which they used in the trade to *Aruba* and *Bonaire* and in consequence of which he has no vessel whatever, we had tried to have a sloop built here of sufficient size, with a deck ; but upon consultation with the skipper *Adrian Blommart* and others, who say, that it could be done there with less trouble and expense, for it would cost much to bring this sloop over, we have concluded, that you should have such a sloop or any other vessel, considered by you suitable for the above purpose, made ready there, taking what is necessary for it from the present shipment.

At your urgent request for another preacher, whom you desire, if possible, able to preach in the English language, we have made every effort and at last as if sent by the Lord Domine *Samuel Dries*, a bachelor of about 40 years, has made his appearance, who on account of the perturbances in *England*,* where he had been preaching and was born of Dutch parents,* has retreated from there. He has the reputation of being a very pious man and possessed of great gifts, is able to preach in both languages, English and Dutch and if necessary even in French. He is said to be of a very peaceful disposition and agreeable conversation, so that we are confident, the community will be pleased with him and that he will be a great instrument for the propagation of God's holy word and glory, also a fit assistant to the old gentleman, D^o *Megapolensis*. We have allowed him a salary of fl 100 per month and fl 250 a year for subsistence and as he is unmarried, we have thought, it might not be inconvenient, if he boarded with *Johan de la Montagnie* ; but we do not wish to press such an arrangement upon either and propose it only from pure affection.

As you now will have learned, that we do our very best to promote the spiritual and temporal welfare of *New Netherland*, we urge you most earnestly to use all proper and suitable measures in endeavoring to find means for defraying a part of all these extraordinary expenses : we think the community, whom we try to accommodate in every thing, should make an effort to assist their ministers and supply their wants, for if everything were to remain upon our shoulders, we might at last find the burden too heavy.

Upon your recommendation we had an eye upon D^o *Grasmeer*, but found his affairs with the reverend Synod so far from being settled, that he cannot sail this year : it is true, the charges against him have been satisfactorily disposed of by the Classis of *Alekmaer*, but the Synod had to approve of this decision and it will not sit until next August : then the time to sail this year will have passed ; the good man is much inconvenienced by it, but it is considered best for him on all sides that

* These words are omitted in the copy of this letter, above referred. — B. F.

he should submit in everything to the ordinances of the church of this country and as God is a God of order, we doubt not that he will take care of him and all pious people.

We enclose an account of a lot of logwood, part of which one *Jan Jansen Huyssen* has sold at *Bonaire*, another part he has given as a present to skippers and others: *Lucas Rodenburgh* must be sharply written to about this matter and the seller must be called upon for the amounts, which he received for it.

We alluded above to the contest about to arise between Baron *Hendrick van der Capelle* and *Cornelis van Werckhoven* concerning the territory of the *Nieuesinck* and *Raritans*; this matter has gone so far already, that they have entered written protests against each others; the Honorable Mr. *Werckhoven* has addressed himself to us and requested, that he should be supported in the privileges granted by us, which we shall find ourselves obliged to sustain as far as possible, that so improper purchases of land from the savages may henceforth be prevented; the said *Werckhoven* has also petitioned their High: Might: for the above reasons and we expect to see now shortly, what rules shall be established in these matters.

Undoubtedly much trouble will again arise out of this matter and the evil-minded will endeavor to throw the blame for all the disorder upon the Directors, notwithstanding that we have in this case clear proof, that some of the law-makers are the cause of it. Time must show, what the result will be.

MINUTES OF THE CLASSIS OF AMSTERDAM.*

Meeting of Feb. 26, 1652.

Rev. *John Rutitius* in the chair.

Rev. *Samuel Drisius* presented himself. He was formerly pastor in *England*, but educated by German parents and in the German tongue. He declared his readiness to be employed as minister in *New Netherland*. Inasmuch as the Lords Directors greatly desired a minister, who, besides the Dutch, could also preach in English, it was resolved that next Monday a trial should be made as to his German (*Dutch*) pronunciation. Subsequently, further negotiations could be held with his Reverence.

Meeting of March 11, 1652.

Rev. *Matthias Musruis* in the chair.

In accordance with the previous resolution, a trial was made last Monday of the gifts bestowed by God on Rev. *Samuel Driesch* for preaching in Dutch. These were found not only sufficient, but to the great satisfaction of the brethren, were very agreeable and edifying: His Reverence is considered to be a very desirable person to serve the Church of God in *New Netherland*. He has also declared his willingness to go, and as two vessels are about to sail, it is found necessary to call a meeting of Classis for next Monday, March 18th.

LETTER OF THE DIRECTORS OF THE W. I. COMPANY TO THE INHABITANTS OF THE MANHATTANS :
CONCESSIONS MADE : EMIGRATION : ORPHANS : AFRICAN SLAVE-TRADE.

To the Commonalty at the Manathans.

Honest, Pious, Dear, Faithful.

We wrote you last on the 22^d of March of last year and send you copy of that letter herewith, that you may fully assure yourselves of our good intentions regarding your community and the country there ; the more so, as we were much surprised to learn by your letter of the 29th of September, that so evil-minded persons are to be found there, who have the impudence to say, these letters were written by a few of the Directors, because they are signed only by two. We now tell you, that this has always been the custom of this board ; yet to convince you still more and to stop the lying tongues of those treacherous mutineers, these copies will be signed by all the Directors now in office, also this letter ; we warn you however, that it will not be done in future and you must give us full credence to all letters arriving there signed by two Directors, as if they were signed by all, for the above stated reason.

In answer to your requests concerning divers matters, we will briefly say, that we endeavor always to help with the best of our abilities in carrying out any reasonable proposition. Above all be assured, that we direct herewith the hon^{ble} Director and Council not to collect henceforth the duty of 8 per cent on tobacco grown there ; we are further busy here soliciting the supreme government, that the import duty here upon tobacco grown in *New Netherland* may also be abolished, which would be a great benefit for the planters there : we shall in due time inform you, what success we have had with our solicitations. We try to discover means by which to prevent the usurious trade carried on there to the disadvantage of the community, but for want of sufficient means it is as yet impossible to break it up entirely : still with these ships as large a quantity of provisions are sent to his Honor the Director, for the benefit of the community as our funds allowed us to purchase here : we intend to continue making such shipments.

As to your request, that one or two ships might be chartered for account of your community in order to provide yourselves in this way with farm-laborers and other young people to be employed in cultivating the land ; we can only presume, that it is the intention of the community to enjoy by those means the benefits, now reaped by private parties and shipowners from the passage and subsistence money paid by people going to *New Netherland*, who are now charged fl 50 per head ; this has kept back many, who could not bear the expense and to obviate it the hon^{ble} Regents of this city have made an order, that all persons of small means shall be carried over by the skippers for fl 30 : many have taken advantage of this order and go over in these ships. Pursuant to your plan we had already tried to charter one or two ships and offered fl 8000 for the charter of one of 200 lasts ; but as the provisioning of 100 to 150 persons, taking passage, would cost a large sum, which made us as somewhat uneasy on your account, we feared, that your hopes of profits would not be realized in that way ; especially as something has occurred here between *England* and our government, which has brought them both into hostile position to each other ; so that everybody began to be careful and it was apparent that but very small cargoes of merchandise would be shipped across the ocean. Besides another proposition was made by the city, offering to turn over to us 150 boys and girls from the poor-houses to be taken to *New Netherland* free of expense, provided we would apprentice them there to good masters for four years, during which time they were to receive clothing and board or if they chose fl 60 annually for clothing

themselves. In this manner we thought your request might be fulfilled in the safest and most expedient way, but the reasons, why this plan cannot be carried out fully, will be explained to you by his Honor, the Director. In order that you may be still more convinced of our good will towards your community, we consent, that you may send ships to the coast of *Angola* and *Africa* to fetch thence as many negroes as you will require for agricultural purposes, subject to the conditions and rules sent herewith to the Director. We consign to him also some ammunition, powder, lead and other things, directing him to sell at a fair price to the burghers and community as much, as each shall need for his defense, for we are resolved to stop if possible the unlimited contraband trade in these goods carried on by private parties and thus to protect our good inhabitants against violence and molestation: we know very well that there is a number of restless mutineers who not satisfied with trying to mislead the community there, are also stirring up an agitation here in the name of the community. Your letters and protests however will be sufficient to put them to shame. We trust the good community will on their side always persist in doing their duty towards their patroons, as we on our side shall at all times be willing to let the community rule in everything reasonable and maintain them in everything lawful, as you can ascertain without harboring any doubt from the orders sent herewith to the Director and Council.

Meanwhile we send you our greeting etc.

Amsterdam, 4th of April 1652.

LETTER FROM THE SAME TO THE MAGISTRATES OF HEMPSTEAD AND GRAVESEND: ON SIMILAR TOPICS.

Honorable, Pious, Dear, Faithful.

Our last letter to you was written on the 22^d of March of last year, since which time we have received yours of the 25th of September 1651. We have learned by it of your continued complaints against the illicit trade with powder and lead, by which private parties provide the savages in too great an abundance, so that grown insolent the latter cause much vexation to our good inhabitants by stealing their cattle and also murdering some persons named by his Honor, the Director. We can only presume, that such boldness is the result of the misdemeanors of some mutineers, belonging to our nation, who appear to persuade these savages, that their evil deeds will not be punished: the government here and especially the Directors of this Company have quite a different intention; therefore we think it necessary to assure you, that we are giving such orders in regard to the one and the other matter, as to make you feel, that your complaints have touched our hearts. We send for this purpose herewith placats directed against those, to whom you refer in your first complaint, for we do not wish that any private parties shall bring there any powder or lead or other kind of ammunition under the penalty stated in the placat: we shall send every year to the Director such a quantity of it, as we shall consider necessary to be used by our inhabitants for their defense or in hunting and herewith we order him to provide you with what you require.

As to the second point, secret instructions are sent to the Director and Council for their government in an emergency: if therefore any trouble befall you or violence be done to you, the

way of complaint is open to you and you will learn by experience, that these barbarians will find themselves deceived by treacherous information. We would have liked to accommodate you agreeably to your request to charter here some ships, for account of your community, for the transport to *New Netherland* of farm laborers or young fellows, fit to be employed in farm or other work; but as we can only infer from this request, that by these means you desire to enjoy the profits etc.

Abraham Verplanck pltf against *Dirck Teunissen* the Norman deft.

The Plff demands to know, why Deft. burns lime upon his, plaintiff's, land instead of cultivating it, as he had engaged to do, for through the burning of lime the soil is impoverished and not improved as the conditions of the lease require; furthermore the plaintiff was to be benefitted by the increase of cultivated land, that is the fourth part.

The Deft. replies, that he has sown 7 schepels of winter grain, but no summer grain for want of horses.

The Court of Nine Men decide, that Plff. shall be allowed to take the fourth part of the burned lime and that it is to be his fourth of the increase.

LETTER FROM THE DIRECTORS IN HOLLAND TO STUYVESANT: HE IS NOT YET TO OBEY THE ORDER
OF RECALL ISSUED BY THE STATES-GENERAL.

Valiant, Honorable, Pious, Dear, Faithful.

Their High : Might : only just now, when the private ships are ready at the *Texel* to start with the first good wind for *New Netherland*, sent us their letter and the resolution, passed already the 17th of last month, by which they summon you to appear without delay, to make a report on the territory of *New Netherland* and the boundary question between the English and us there.* We consider it proper and necessary to send you copies of them herewith : as the above resolution was passed without the knowledge of this Department or of the Assembly of the XIX, further without any communication having been made to the deputies of the several Departments at the *Hague*, and as it is contrary to the charter, granted to the Company by their High : Might : according to which such matters must be referred to the Assembly of the XIX, therefore we direct you not to proceed on your voyage hither with too much haste, but wait until you have further advices from us.

Meanwhile we hope and trust to remove the erroneous impression made upon their High : Might : by incorrect information and to succeed in having the resolution rescinded.

The above had been penned, when Mr. *Pergens* returned from the *Hague*, where he had hastened to prevent if possible your recall : he reports, that he had spoken about it with many members of the Assembly of their High : Might : and had so far succeeded, that their Honors, the Burgomasters *Graaff* and *van Swieten* with six or seven members of the States of *Holland* had appeared before their High : Might : at 9 o'clock yesterday morning and had called up the resolution adopted by their High : Might : on the 27th of April, which having been read, the States of *Holland* protested against it and it was agreed, that it must first be brought up in the Assembly of *Holland* : we received also by express a letter, that it was resolved to keep back the above mentioned documents.

RESOLUTIONS OF THE AMSTERDAM DEPARTMENT, W. I. COMPANY, GRANTING LAND ON MANHATTANS AND LONG ISLAND, ETC.

Extracts from the Register of Resolutions
passed by the Directors of the W. I. Comp. Dept. of
Amsterdam.

Monday, March 4th 1652.

It has been decided upon the request of *Jacob Baselier* to grant to him five hundred morgens of land on *Long Island* on condition that he convey thither twenty persons in the course of a year.

Thursday, April 18th 1652.

On the request of S^r *Gerard Smith, Nicolas* and *Joost van Beeck* the decision is, that petitioners shall be allowed to select either themselves or through their agents as much and such land in *New Netherland*, as they shall be able to cultivate, also one or two good lots on the *Manhattans*, to build houses and the Director there shall be written to, to assist the aforesaid petitioners and all others as they require it, subject to the conditions of the Exemptions and the rules of the Company already in force or hereafter to be made.

Thursday, April 25th 1652.

The petition of *Claes Jansen Backer* was read, in which he asks for a grant of the land formerly in the occupation of *Jan van Rotterdam* deceased, which partly by his death, partly through his indebtedness to the Company, has escheated; that he may enter upon, cultivate and own it as a free man. A vote having been taken, it was resolved, that, whereas the Directors have no knowledge of the location of this piece of land, the Director and Council of *New Netherland* shall be authorized, to grant to *Claes Jansen Backer* the piece of land, if it has not in the meantime been sold or given to some one else, and he is to pay what is due to the Company or not less than what the piece is appraised at, as they shall deem proper.

Monday, the 29th of April 1652.

Marcus Hendrick Vogelsang, ship carpenter, intending to emigrate to *New Netherland* requests that as much space may be granted to him in the most convenient locality on *Manhattans Island* as he may require for erecting a shipyard and dock and a house. The vote having been taken, it was decided to direct the Director to accommodate him in a convenient locality.

Thursday, May 2^d, 1652.

Upon the petition of *Hendrick Frederick Mansvelt* stepfather of *Francis Fyn*, it has been resolved, to write to the Director and Council of *New Netherland*, that if no great loss or damage is caused to the Company by giving away *Varckens (Hogs) Island*, the same may be granted to *Francis Fyn* and if for the above stated reasons they decide to keep it, they are to allot and give him elsewhere land fit for farming.

Friday, May 10th 1652.

The owners of the ships "*Huijs van Breda*" and "*Hof van Cleef*" appearing before the Board represented, that they had agreed with some other persons the freight of some goods shipped to *New Netherland* should be paid in beavers, at 8 fl a piece or in silver coin, and that they now understand, Director *Stuyvesant* and Council had fixed the value of a piece of eight at three guilders and therefore many light pieces of eight, which it is forbidden to circulate here, had been shipped there. If they were to receive their payment in such pieces, they would lose fifty per cent and therefore request, that some remedial measure be taken. It was resolved, to instruct the Director and Council to act in this matter with the necessary equity.

LETTER FROM THE DIRECTORS TO STUYVESANT INCLOSING COPIES OF THE FOREGOING RESOLUTIONS
AND PAPERS IN THE CASE OF DAVID PROVOOST.10th of May 1652.

Honorable, Valiant, Pious, Dear and Faithful.

This serves as cover to the enclosed copies from our Resolutions, which will inform you of what concessions we have made to several persons; you will govern yourselves accordingly. We send with it a statement drawn up by the bookkeeper of monthly wages, who requires further elucidation upon several points; also a statement concerning the matter of *David Provoost*; the documents belonging to it have been given to the supercargo *Vincent Piques*: you will do well to settle this matter on the basis of these papers as it should be done and to report to us by the returning ships, that we may keep the people, who have long solicited relief, from making complaints. We suspect, that the papers sent us are not carefully collated by the officers of the Company, for in the last documents many and gross mistakes have been discovered; this ought to be corrected. We enclose also a list of the Company's servants, who have embarked and who are, contrary to our intentions and former advices to you, mostly soldiers, because on account of the extensive naval preparations of the country no sailors could be obtained; we hope it will be better next year.

LETTER FROM THE DIRECTORS TO STUYVESANT IN REGARD TO THE GRANT OF HOG'S ISLAND.

Honorable, Valiant, Pious, Dear, Faithful.

By our last letter of the 4th of April last past sent by the ship "*St. Michiel*," which sailed about three weeks ago we advised you in regard to the grant of *Varekens (Hogs) Island** to *Francis Fyn* and trust that you have received it long before this reaches you. Since that time we have obtained some, but no correct information concerning this island and are told, that it would be particularly useful for the Company in the imminent or any future differences with the English being adapted for fortifications to be built thereon to defend our places. As *Hendrick Frederick Mansvelt* insists upon the grant of the island to his son-in-law *Francis Fyn*, we have thought fit, as you may learn from the enclosed copy of the resolution, to refer the matter to the Director and Council and trust, that you will have an eye upon the interests of the Company and the shareholders and inform us of your opinion.

LETTER FROM THE DIRECTOR GENERAL STUYVESANT TO THE COUNCIL ON A CLAIM NOW MADE
BY THE INDIANS FOR PAYMENT OF CERTAIN LANDS AT FLATBUSH.

Honorable Gentlemen of the Council.

On Thursday of last week came to me demanding payment for the land promised by him to the savages 500 guilders, without giving us sufficient proof of the land and how much of it is wilderness and waste should have the sum, on which account my superiors, the Hon^{ble} Lords-Directors took exception and demanded more proof.

Jan Snediger has been pleased to address us in a most unmannerly way, saying among others, that upon me and mine should [fall] the losses and damages, hereafter [caused] by the natives. These words were shouted so loud, that every one could hear them, which is derogatory not only to our person, but also to our official position and not willing to submit to such insult, we have been compelled to inform your Honors of the occurrence and call for your advice and assistance.

As to the matter itself, your Honors know, that shortly before the last murder said *Jan Snediger* came to me and reported in presence of the Rev^d Dr. *Megapolensis*, that some savages had come to see him demanding payment for the land at the *Flat Bush* but the discussions had about it, our propositions and the consequences resulting from it cannot be known to you. They can be brought under two heads as follows: 1. Is it expedient and advantageous, to uphold the savages in their unmannerly and impudent demand so far, as to buy and pay again upon their threats, the lands which previously they have of their own good will sold, given, ceded and received payment for and which partly have been occupied since?

2. Would it not lead to serious consequences, if it can be proved, that there is in the midst of the purchased land some, which has not been bought, (although we are not quite convinced of it) or what would be the consequences at this conjuncture, if we gave a small gratification to the savages or would their ignoble and insatiable avarice not take advantage of it and consider it as an inducement, to murder more Christians, imagining them to be faint-hearted and threatening a massacre, that later on they may again obtain money and goods for another piece of wild and waste land? Concerning these points I was somewhat in doubt, whether the savages had a better claim to the wild and waste bush, upon which God and nature had grown trees, than any other Christian people and what proof and assurance could be produced, that the savages had a better right and title to this parcel of land, than other savages, even than the greatest Sachem or chief, who a long time ago had sold, given and ceded the whole piece of land and its dependencies to the former officers of the Hon^{ble} Company and received according to the declaration of the late Director and Council satisfactory payment for it in goods.

Nevertheless and notwithstanding it was improper and contrary to all reason and equity, we have agreed for the sake of preventing blame and new troubles to allow the said *Jan Snediger*, that he may secretly give or promise to the savages a gratification and make a report to us, that we might refund it in time, but we never thought, much less absolutely directed to promise for so small a piece of land so large a sum at the expense of the Company or of our own funds, especially not on so uncertain conditions and terms. To have in the future a better defence before the aforesaid Lords-Directors and to prevent any blame of negligence falling upon us, we refer this purchase to your Honors' knowledge and discretion, that a proper resolution may be drawn up concerning it.

NOTICE TO THE PUBLIC CREDITORS AS TO THE MODE OF PAYING THEIR CLAIMS.

Whereas the Director General and Council of *New Netherland* find themselves in behalf of the Hon^{ble} Company and this Province greatly troubled and hampered by some debts, shown by the last made statement and arising partly out of the great expenses incurred last year at the Southriver, which debts might be set off against and paid by the import duties, and

Whereas the Director General and Council would then find themselves deprived of all means, to procure the very necessary commodities and winter provision for the garrison and other servants of the Hon^{ble} Company.

Therefore the Director General and Council have decided and resolved, deeming it best for the maintenance of this Province and the subsistence of the garrison (to keep the same quietly and without mutiny under command), that they will offset one-half of the claims of the largest public creditors against the duties to be paid by them and issue for the other half a debenture payable, with God's help, in the coming year, or receivable for duties or if it is desired for the 8 p. ct. duty on *Virginia* tobacco imposed in the Fatherland.

Thus done in Council of Director General and Council of *New Netherland*, 4th Aug. 1652.

LETTER FROM THE DIRECTORS TO STUYVESANT: THE BOUNDARY QUESTION: INDIANS TO BE EMPLOYED IN CASE NEW ENGLAND SHOULD BEGIN HOSTILITIES; FORTIFICATIONS; LETTER BOX FOR NEW NETHERLAND.

A^d 1652, 6th August. To the Director and Council in *New Netherland*.

Honorable et^{ca}.

Our last letters sent you by the ships "*Hoof van Cleef*," "*Iluy van Breda*," "*Gelderse Blom*" and "*S^t. Michiel*," which sailed at different times, were dated 4th and 8th of April and 7th, 10th and 17th of May of this year 1652 replying to your letters of the 21st, 22^d and 30th of September 1650, which came by way of *Virginia* and 21st, 29th and 30th of September 1651 sent direct by the returning ships. Among others we wrote you in the aforesaid letter of April 4th, what we deemed would be most expedient to do in regard to the question of the boundaries with *New England* and that we had recommended this matter most urgently to their Exc^{es} the Ambassadors going from this State to *England*. From the enclosed extract, of which we hope the original has long ago reached you and which we only send in surplus, you will learn this. The matter now stands thus, that while we had hoped this government would come to an agreement with the Republic of *England*, we were disappointed in our expectations, for notwithstanding all honest and fair representations the said Republic has, even while our Ambassadors were still there, not hesitated to embargo all ships from whatever place they might come, to take the crews from many, who ignorant of any trouble entered their ports, and to keep them to the greatest detriment of this country, not allowing even the men-of-war of this government coming from *Brasil* to depart. As our Ambassadors upon their complaints to Parliament could obtain no redress, but were kept in suspense by idle talk, their High Mightinesses have recalled them and since their return, the formidable preparations and equipments, especially by our government made it appear, as if finally war would be declared, the more so as Admiral *Tromp* with a fleet of

about 100 sails has been seen in the North, where the English Admiral *Blake* had also gone. The Lord our God grant a happy result and humiliate the haughty spirit of the English. This not only unexpected but also undesired rupture with the English has given occasion to some *New Netherland* merchants here to request, that we should send a despatch boat to you and the community there to give information of these new troubles. Deliberating with them we have agreed, that they should freight a fast sailing galiot on condition that they should remunerate themselves for the voyage by the fees for freight and duties on the goods taken by the said galiot and coming back in the returning ships, each in proportion to his share of the cargo.

Although we have no doubt, that pursuant to our previous letters, you will have entered into a league with the *New England* people or arranged for a closer union with them and that in consequence we shall have nothing to fear from the *New England* people, we have nevertheless deemed it prudent, under the circumstances, to recommend to you most urgently, that you arm all freemen, soldiers and sailors and fit them for defense, give them proper officers, appoint places of rendez-vous, provide them with ammunition, put the fortifications at *New Amsterdam*, *Orange* and *Cusimir* in a good state of defense, to which end we send you for your better protection such war material as the enclosed invoices and lists will show. You must not trust the English there and keep an eye upon them, that you may not be deceived by their sinister machinations under a pretext of probity, as we have been here. If it should happen, which we will not hope, that the *New England* people take up this matter and try to injure you and our good inhabitants, then we consider it proper and necessary, that you should make use of the Indians who as we learn do not like the English, and devise such measures, that you live there afterwards with as much safety as possible; we suppose, that it will be safest to let all merchants and inhabitants bring their property into the fort as far as feasible and accommodate them in kindness, in order to induce them to remain there and not to return here and thus depopulate the country. It will further be necessary, to surround the villages, at least the larger ones, with palisades and breastworks, that they may resist a sudden attack.

Private parties frequently give their letters to this or that sailor or free merchant, which letters to their great disadvantage are often lost through neglect, remaining forgotten in the boxes or because one or the other removes to another place; for their better accommodation we have had a box hung up at the New Warehouse, where we now hold our meetings, into which every one may place his letters at any time to be dispatched by the first ship sailing. We deem it advisable to inform you hereof, that the same may be done in *New-Netherland* and that the letters put into a bag for greater security be sent here to us, to be delivered upon arrival to those to whom they belong and who usually come to the Warehouse; they will then not be obliged to hunt up the persons entrusted with letters and run after them.

During these times of trouble with the English it may be easily happen, that some ill-meaning Englishman residing here or other persons despatch letters to *New-Netherland* and endeavor to excite your English inhabitants against you and the community. We think it therefore advisable, that you should examine the skipper of the galiot and his people under oath and demand from them all letters entrusted to them and that you inspect all letters going herewith, opening all such, which you deem suspicious, so that in despatching this galiot we may not carry a snake in our own bosom and bring letters to people, who are against us to our damage.

One *Hugo Claessen* comes out on this ship; he has served the Company as supercargo and has now been engaged by us as captain or overseer of the Company's saltworks at *Bonaire* and of the felling and hewing of logwood and its further cultivation at fl. 20 monthly; also *Jan van der*

Hulst, a carpenter, engaged at fl 6 a month to go with the said *Claessen* to *Bonaïro*. As at present it cannot be done here, you will provide them, as far as in your power, with implements and what else may be necessary.

With which etc^a etc^a the 6th of August 1652 in *Amsterdam*.

PETITION OF BRANT VAN SLECHTENHORST FOR HIS RELEASE FROM CONFINEMENT AND RESOLUTION
GRANTING THE REQUEST.

The petition of *Brant van Slechtenhorst*. With due reverence shows *Brant van Slechtenhorst*, Director of the Colony of *Rensselaerswyck*, that he and his colleagues in the said Colony have repeatedly and very urgently requested, that the petitioner may be released from the arrest, in which he has now been held since the 18th of April last, and that he may receive permission to return to the Colony, to attend to the Patroon's urgent business in the Colony; to all these requests no attention has been paid and as in the meantime by the arrival of the ships from Fatherland the situation has been changed in so far, that the Lords Patroons have consented to the petitioner's request, to discharge him from the service of the Colony and to appoint somebody as his successor, whom it is necessary to inform of the situation and state of the Colony and as this can only be done by the petitioner and as further the Colony has been deprived for such a length of time of the service of its Director and nothing can be done without the Director, which tends to the great disadvantage and loss of the Colony and of the Lords Patroons,

Therefore he has resolved, in order to prevent further loss and damage, to address your Honors very respectfully once more and to request, in consideration of the foregoing and that (under submission) the unimportant actions of private parties ought not obstruct the service of the Colony, that your Honors will please to allow the petitioner to proceed to the Colony for the aforesaid purposes, while he promises to return here immediately upon your Honors' orders and offers as security his own person and property. Awaiting a favorable reply to his petition he remains

Septbr 2, 1652.

Your Honors' willing servant
B. VAN SLECHTENHORST.

The Director General and Council of *New Netherland* have already before now replied to the petitioner's request, also informed the Court of the Colony by letter in May last, that if they or the petitioner give sufficient security for the appearance of the petitioner upon a summons of the Fiscal, the petitioner shall be free to return to the Colony for the purpose of attending to his and his superiors' business. In the meantime some of his adversaries have obtained a definitive sentence against him in contumacy and demand proper security for their satisfaction, which if the petitioner gives in behalf of the parties according to law, his request is once more granted under the aforementioned condition of procuring bail for his appearance upon the demand and summons of the Fiscal.

(Another petition of *Brant van Slechtenhorst* of the 9th of September for his release was answered by a reference to the above reply to his first petition.)

PROTEST OF JOHANNES VAN RENSSELAER AGAINST DIRECTOR STUYVESANT WITH REGARD TO HIS
PROCEEDINGS AGAINST THE COLONY OF RENSSELAERSWYCK.

To-day, the ninth of December 1652, I, *Joost van de Ven*, Notary public admitted by the Honorable Court of *Holland* and by the Worshipful Magistrates of the City of *Amsterdam*, residing in this city, have proceeded in behalf of his Honor, *Johannes van Rensselaer*, Patroon of the Colony called *Rensselaerswyck* and situate upon the North River of *New Netherland*, and in behalf of his Co-Directors with the belownamed witnesses to the meeting of the Lords Directors of the Privileged West India Company, presided over by *Paulus Timmerman*, while his Honor, the Burgomaster *Frank van der Veer*, Mr. *Albert Pater*, presiding Schepen and many other Directors were also present and there I have made the following protest :

Whereas your Director *Stuyvesant*, residing on the *Manhattans* in *New Netherland*, has, with the assistance of a number of armed soldiers, dared to come into the Colony of *Rensselaerswyck* and there commanded to haul down the flag of his Honor, the Patroon, and Co-Directors, inflicting insufferable outrages and insults and using force notwithstanding all fair requests and protests,

Whereas he has ordered by placat to cut wood in and carry it out of the forests, belonging to the aforesaid Patroon and Directors, without recognizing the rights of or asking permission from the Patroon and Directors or from their Director and Council, but executing his order by force,

Whereas he published and affixed a placat, stating that the jurisdiction and ownership of the soil at a distance of one hundred and fifty *Rhineland* rods all around the *Fort Orange* belonged to the Company and he took from the Colony not only the jurisdiction and the soil, but also released the persons, living there as the Colony's subjects, from the oath to the Colony and made them swear allegiance to the Company; robbed the Colony of its land and gave it out against quitrent and made arrangements to transform the people of the Colony into the Company's subjects; stirred them up and caused them to dispute their contracts and their duties to their Lord and Master and the other owners of the Colony,

Whereas he has released from his oath to the Patroon and other Directors a new Schout arrived at the *Manhattans* on the way to the Colony and compelled him to take a new oath to the Company, thus making him the Company's subject,

Whereas he has demanded, that the lists, minutes, judgments, resolutions and lawsuits of the Colony should be communicated to him,

Whereas he or upon his order Commissary *Johannes Dyckman* of *Fort Orange* has entered forcibly, aided by soldiers with loaded muskets, burning fuses and open pans, the house of the Director of the Colony, caused the bell to be rung, and read and published divers orders, placats and threats,

Whereas above all he has dared with eight armed soldiers to arrest the Director of the Colony, *Brant van Stechtenhorst*, within the Colony's own jurisdiction, taken him then to *Fort Orange*, sent him guarded by four soldiers down the river and kept him in prison at the *Manhattans*,

Whereas he has in every respect and every where invaded the rights and privileges, jurisdiction and soil of the Colony, robbing it of property and men, against all reasons or divine and human laws,

And whereas your Director *Stuyvesant* declares, that he continued in his office there merely from the consideration and expectation, that before leaving he might have ruined the Colony,

All which never heard of attempts and proceedings having been reported to the Patroon *Johannes van Rensselaer* and the Co-Directors with all the documentary evidences,

Now Therefore, I, the Notary, and my witnesses demand of you, the Lords Directors of the

Privileged West India Company, whether as a corporate body or individually you have given your Director *Stuyvesant* any order or authority to commit such attempts and illegal excesses in part or all together.

And I protest not only against such use of force, violent attempts, damages and losses resulting therefrom to our jurisdiction, pre-eminences, rights and privileges as well as to our lands and estates, injuries, insults and affronts, to which we have already been subjected or may hereafter have to submit, in order to institute proceedings and recover damages for the same, where and in what manner we may determine and we protest against everything, against which for the maintenance of our right and privileges we ought to protest in our own and our colonists' behalf; but we also request under the benefit of this protest, that you issue an order by the ship now going thither for the restitution and return of everything as it was before and that you command and charge your Director to desist from all attempts and recall his placats and if you believe to have any claim, that you proceed therein legally before your and our judges, to whom we have before now complained of your Director's proceedings and where the suit is still undecided.

We request also your definitive answer upon every point and in case within twice twenty-four hours you have not answered, then your claimants will be compelled to make their complaint against the said acts of violence, where they shall think most fit.

Hereupon the President *Paulus Timmerman* representing the meeting and acting as spokesman, said to me, the Notary, that they desired a copy and that the Directors would write to their Director *Stuyvesant* in regard to the matter and that they had no intention to prejudice any one's rights.

Done at *Amsterdam* in the presence of *Dirck Danckertsen* and *Daniel van Ommers* as witnesses.

Pro copia quod attestor.

LETTER FROM THE DIRECTORS TO STUYVESANT: WAR WITH ENGLAND; ABUSES IN GRANTING LANDS; SETTLEMENT OF NYACK, L. I.: WHALE AND COD FISHERIES TO BE ENCOURAGED.

A. 1652, 13th of December.

Honorable, Valiant, Pious, Dear and Faithful !

Our last letter to you was sent by the small ship "*Anna*," which was, God help it, captured by the English. It was dated the 6th of August and in it we not only informed you of the present state of affairs with the English here, advising you what to do there, but we sent with it also a goodly supply of war material, of which you were to make use in case of need, as you may learn from the enclosed copy. Since that time the ships "*Romayn*," "*Huys van Breda*" and "*Gelderse Bloom*" have, praise be to God, safely arrived here and we received by them several letters, muniments and other documents sent by you. Time being short, because the ship, which is to bring you this quickly to inform you of the war with *England*, is already chartered, we cannot get our answers ready, so that you will now receive only a partial reply; you may expect a full one with the next ship, also some soldiers and sailors, if they are to be had; the soldiers on the same conditions, as those lately sent, by whom you can supply in due time the

place of the old soldiers, enlisted in *New Netherland* and without doubt receiving extraordinarily high pay; discharging these you must encourage them to settle there.

Last year we would have liked to send you some seamen and one or two ships carpenters, but notwithstanding all our efforts, we could not engage any on account of the extraordinary preparations for war made here; we did not lack the good will and have no doubt, that it will be better now and that we can engage some, when the ships are being made ready to sail for *New Netherland*.

You will please to forward the enclosure to Director *Rodenborek* by the next ship and to write him, not to fell any more logwood trees or allow any to be exported except for the Company's account, for we observe that the Colonist *Jean de Illan* and his companions do not intend, as they said, to cultivate the land and plant tobacco, indigo, cotton and other staples, but simply to clear it of the logwood and trade with it and horses to the *Caribbean Islands*; we wish, he had not been so much encouraged herein and that he had not received permission to freight the ship "*St Joris*," *Joris Jansen* skipper, with horses, for henceforth we desire, that no more horses shall be exported from *Buenairo*, *Curaçao* and *Aruba*, but that they shall remain there to be used in time in our province of *New Netherland*. We notice and receive daily information, that the best horses have been taken from the Islands and that in the end there will only be left there a lot of broken down animals; on that account we shall not grant any more colonies there.

By the next ship we shall send you the desired placats concerning the building lots on the *Manhattans* near the fort or in the city of *Amsterdam* already granted, as well as the uncultivated lands, that you may govern yourselves accordingly, and see that the latter be cultivated. It has never been our intention, nor is it now, that through our mere consent, given to every one, who desires to emigrate there, in proportion to his family, any one should become owner of one or two hundred or more morgens of ground and then leave it uncultivated, thereby preventing others, to whom the land would be convenient and who now must acquire it at an enhanced price. The land asked for must be entered upon within 3 years, the people called for by the conditions brought there within the limited time and hand put to the plough or by default it must return to us for the accommodation of others.

Your Honor has misunderstood our intentions in regard to the Colonies of the Honorable *van Werckhoven*, whose two grants for colonies your Honor supposes to extend 20 miles in a straight line, or your Honor has not read the Exemptions carefully, for all colonists are not to receive more, than four miles on one side of a navigable river or two miles on each side. His Honor *van Werckhoven* had his choice and could have taken the lands, but as he has not done it, has given it up and gone to *Nyaack*, one half of the same place is granted to him, that he may settle there and act for his best. We shall henceforth not grant any more colonies, as we see that the people demand such extensive tracts.

We are greatly surprised, that contrary to our former directions and against our orders you have raised the value of the money in *New Netherland* and especially that you have asked some private parties here for 25 to 30 thousand guilders in *Holland* shillings and double stivers. We are not at all pleased with it, for we are by no means so reduced, that our officials should solicit credit for us and engage our territories for it. If anything is to be done here, then you will apply to us and to nobody else, we will attend to the matter in due time.

In accordance with your requests we shall pay strict attention to the invoices; you must do the same and not handle them in so slovenly a manner as the last ones, of which copies are enclosed; for in many instances there is no other way to learn, whether the duties have been paid

by certain parties and when they come for their merchandise and are called upon to pay up they begin to lament and protest, that they have paid the duties to you, of which there is no evidence. A lot of merchandise has arrived here not entered in the manifests or specified in such a manner, that its obscurity occasions a good deal of trouble between us and the consignees, as you may see by the enclosed extract.

The merchants here complain bitterly over the internal duty of four stivers imposed there in addition to the 8 per cent on each merchantable beaver. We are surprised at it, because we had ordered you not to exact more than 8 per cent and to return the balance to those from whom you had received fifteen stivers; even though Director *Kieff's* actions as well in giving away several bouweries as in charging fifteen stivers for each beaver are in several instances quoted by you as precedents, they have never been approved by us, nor are they now, and it is better to proceed in this matter with modesty, that commerce, just at present threatened by many dangers, may not be discouraged and people disgusted with it, which apparently would cause a depopulation of the country and deprive us of the means to bring emigrants over there. We shall inform you of our views, by which you are to govern your actions, by the next ship.

The lawsuit about the sugar prize "*Nostre Signore de los Remedios*" captured by the "*Waterhont*" has been brought to an end and we have triumphed. In similar cases in the future you must be very careful to gather the most reliable information as to where the ship has been loaded, by what signores either of the refineries or of the sugar mills and take the greatest care with the papers and invoices, which are of the utmost importance to us. The cargoes often belong to Portuguese, who owe the Company large sums and from whom we can demand them with good reasons.

We have been wondering, that the confiscated ship "*Nieuw Nederlantsche Fortuyn*," has been sent lithier by way of *English Virginia*, although you must have well known, that *Baron van der Capellen* has a large interest in her; he has now attached her by a *mandamus* and hauled her up. A lawsuit is now pending about her at the *Hague*, which seemingly will not be concluded in a short time and which is pushed to the utmost by the said gentleman, who does not look at the expenses. The points involved are of little weight, but the expenses and loss of time will be felt heavily: all this might have been prevented, for you might have foreseen it and had sufficient knowledge of the whole case not to let her come here, when you could send her elsewhere. With the ship goods belonging to *Garret van de Voorde*, *Peter Haeck*, *Isaac Melyn* and *Christophel van Gangel*, were confiscated. although the duties to the Company had been paid, invoices for them had been given and entered in the manifest: by your proceedings you have brought down upon the Company and yourself the hatred of a number of people and any amount of slander and opprobrium. Neither you nor any other judge can be blamed, if after having passed sentence and then receiving contrary evidence they make a change in their sentence; that happens here and at the *Hague* every day and there can be no doubt, that if anybody's goods are entered in the ship's manifest and he can prove it, he may reclaim his property, when the merchandise of the skippers or consignees are confiscated: that is the rule wherever in Christendom ships sail. The Directors direct therefore, that you return the same goods and are not at all pleased, that it was not done last year upon their order and that in the first instance you have not deposited the money in court, for the loss or not producing of the bill of lading gives no right to confiscate.

We have been pleased to learn, that so far you have not had any troubles with the English there and hope you will not have any, but use all honest and fair means to continue the former harmony and keep up your commercial relations, especially with *Virginia*. That will most likely

make the *Manhattans* flourish and increase in population ; this increase will necessitate the fitting out of more ships and people friendly to the country will have better accommodations, when they proceed thither. Yet you must not allow yourself to be misled and deceived and therefore strengthen and repair your forts as well as possible and keep always an eye open, that you may be on guard and in time of need use such means as God and nature has given you.

As you desire a good farrier as much needed, we will do our best to find one and send him to you in the next ship.

Our attention having been called to some letters, formerly written to us by the late Director *Kieft*, we find, that he considers the sturgeon and codfishing there very important and that sturgeon may be caught there in such quantities, that the manufacture of caviar* might be carried on as in *Moscowy*. If this is true, it would be of great importance and might lead to an extensive trade there in fishcaviar and other goods. You will please to give us information and if there is any chance, endeavor to encourage proper parties, that commerce may be promoted in every respect.

We understand, that the whalefishery might at some seasons of the year be carried on ; if it can be done profitably, it would be very desirable as adding to commerce and might encourage many people, to seek their fortune in *New Netherland*.

Private parties tell us, that many mulberry trees are growing there and that a large number of them might be planted for the cultivation of silkworms. You will please to report hereon and on all the preceding speculations about the welfare of the country, for we hope that out of them we may gather something to bring advantages and profit for the Company and the country.

We enclose a copy of the insinuation, made to us in behalf of *Jan van Renselaer*, Colonist of *Renselaerswyck* by the Notary *van de Venne*, which will tell you, what charges are made against you. You must proceed in such matters with caution and save us here from all difficulties as much as possible. Pursuant to the answer given by us we expect from you within a short time further report and reply, also a statement of receipts and expenses, sales of skins, ships, logwood etc* made during your administration : you will continue this reports by the Company's officers every year, that we may be posted in and give information about our doings there.

Herewith, Honorable etc*, we recommend you to God's protection and remain

COUNCIL MINUTE. RESOLUTION CONCERNING FARM-SERVANTS, BREWING AND THE PUBLIC SCALES
February 18th 1653.

Resolved, that the ordinances concerning farm-servants and the brewing and malting of hard grain be published and posted.

It was proposed to put up public scales, as requested by the Burgomasters and Schepen, but no result has been arrived at.

COUNCIL MINUTES. ORDER EMPOWERING THE SHERIFF OF GRAVESEND TO PROSECUTE CERTAIN
CASES BEFORE THE COURT OF THAT PLACE. RESOLUTION TO PUT UP A WEIGHHOUSE. CHURCH
MATTERS.

Meeting of the Council February 26th 1653.

Present his Honor, the Director-General, *La Montagne*, *Bryan Newton*, Fiscal *Tienhoven*.

On the request of *Richard Gibbons*, Sheriff of *Gravesend*.

The Director-General and Council having seen and read the propositions made by the Sheriff of *Gravesend* agree to them and consent, that the said Sheriff may prosecute every person concerned by the said propositions before the Magistrates of *Gravesend* according to law, allowing, however, that any party thinking himself wronged by the sentence of the Magistrates may appeal to the Director-General and Council of *New Netherland*.

On the written request of the Hon^{ble} Burgomasters and Schepen of the City of *New Amsterdam* Director-General and Council resolve, that a weighhouse shall be built and that an ordinance shall be considered, when the weighhouse has been erected. They are to procure weights and measures like those of *Amsterdam* and all other weights and measures in this province shall be regulated by them in conformity with former ordinances and resolution made and published in regard to this matter. Copies of them shall be given to the Burgomasters and Schepens, that in the meantime they may direct the Schout to regulate, weigh or measure all weights, yard and other measures accordingly and stamp them with a mark determined by the Burgomasters and Schepens

As to the propositions of the Orphanmasters, although the provident care of the Burgomasters and Schepens is praiseworthy and the Director-General and Council highly approve of it, it is to be considered, that there is more required to place the orphan-asylum upon the same footing as that of *Amsterdam*, than the weakness and youth of this only budding city can at present afford. It is meanwhile necessary to take care, according to God's words, of the widows and orphans and therefore the Director-General and Council resolve, that the deacons, as orphanmasters, shall have an eye to the widows and orphans, to report to the Burgomasters and Schepens and through them if necessary to the Director-General and Council, when special curators should be appointed for some widows and orphans or their property. Then the Burgomasters and Schepens or if necessary the Director-General and Council shall give such orders and appoint such curators, as the case may require, the curators to be responsible to the Burgomasters and Schepens, and when the latter learn, that good care is not taken of the widows, orphans or their property, they shall summon the curators and call them to account for their negligence.

The Hon^{ble} Director-General produced at the meeting of the Council in *Fort Amsterdam* and read letters, dated August 16 and September 13, from the Lords-Directors of the Priv. W. I. Comp. Dept. of *Amsterdam*, wherein at length the Hon^{ble} Director-General and Council are informed of the present state of affairs in *Europe* between the *Netherlands* and *England* and some orders sent with these letters are fully explained. In consequence, after having duly weighed and considered the said letters and orders, the Director-General and Council deliberately resolve, deeming it best for this Province of *New Netherland* and its inhabitants, to send letters to our neighbors of *New England* and *Virginia*, assuring them of our and our principals good disposition towards them with an offer of neighborly correspondence, trade navigation and other friendly intercourse, as we have had it heretofore. *Adi ut supra.*

RESOLUTION ON RUMORS OF WAR, THAT CERTAIN MEASURES OF DEFENSE BE ADOPTED.

General Meeting of the Director-General and Council of *New Netherland* and the Burgomasters and Schepens except Mr. *Martin Cregier*, who is absent, on the 13th of March 1653.

After having read the letters from the Lords-Directors and the latest news from *New England*, regarding their preparations there, of which we do not yet know whether they are made for defense or aggression, it has unanimously been resolved :

First, that the trainbands of this city shall keep full corporal's guards during the night at such places, as the Director-General and Council with the abovenamed Magistrates shall designate and they are to begin immediately by placing above all a guard at the City's Tavern now the Council Hall.* Second, that it is deemed very necessary, to complete and strengthen first and above all the *Fort New Amsterdam*. Third, as the *Fort New Amsterdam* cannot hold all inhabitants nor protect all the houses and buildings of this City, it is deemed necessary to inclose the greater part of the City with upright pallsades and a small rampart, behind which in case of necessity the inhabitants can retreat and defend as well as possible their persons and property against an attack. At present it is considered impossible, to enclose in the same way with pallsades and parapets pursuant to the good intentions of the Lords-Directors, the villages, the

inhabitants of which live far from each other, nor is it quite well feasible to protect and defend them in such a manner against hostile attacks. It is therefore resolved, to concentrate on such an occasion the forces of *New Netherland* and hold and protect only one place. Fourth, it is resolved to take into consideration our pecuniary means, by which the foregoing and what else is necessary for a better defense might be carried into effect. The Director-General, Council and Magistrates will deliver their respective opinions on this point to-morrow, to draw from them a conclusive resolution. Fifth, it is resolved, to direct the skipper *Jan Jansen Visscher* privately to prepare his sails, load his ordnance and make the ship clear for all emergencies and that in case he should require further protection during the night or in the daytime, it shall be sent to him.

Done on the date as above and resumed on the 14th of March 1653.

PROPOSITIONS OF THE BURGOMASTERS AND SCHEPENS IN REGARD TO THE PRESENT CRISIS.

The Burgomasters and Schepens of this city, *Martin Cregier*, who is absent, excepted, advise and demonstrate upon the propositions made on the 13th March 1653.

First, whether it is not necessary, to enclose above all the greater part of this *City of New Amsterdam* in the most convenient manner with pallisades, and after this has been done as speedily as possible to put the *Fort New Amsterdam* into a good shape for defense, to serve as a place of retreat? They offer for the accomplishment hereof to provide the sum of 4, 5 or 6 thousand guilders, to be collected from the community interested in it after the completion of the work.

The said Burgomasters and Schepens further propose to the Director-General and Council,

whether it is not necessary, to send besides the already dispatched letters some special agents to the respective Colonies of *New England*, our neighbors, whose Commissioners, so the report goes, are to meet on the next first of April. They could obtain a speedier and more decisive answer to the aforesaid letters and could offer them personally good and favorable conditions for a continuation of our former neighborly friendship, mutual correspondence and commerce; they might also ascertain, how far they are interested in the unexpected differences and the European war, broken out between their High: Might: and the present government of *England*. This done and enacted at *New Amsterdam*, March 15, 1653.

RESOLUTION OF THE DIRECTOR-GENERAL AND COUNCIL APPROVING OF THE FOREGOING PROPOSITIONS.

The Director-General and Council of *New Netherland*, having read and considered the propositions of the Burgomasters and Schepens of the *City of New Amsterdam*, in which they submit that above all the greater part of this City should be strengthened and enclosed with pallisades and the Fort be placed in a proper state of defense, offering to contribute 5 to 6 thousand guilders—accept the propositions and the offer, even though in some respects they do not agree with the directions of the Lords Patroons and the resolution adopted yesterday. They consent therefore for the sake of peace and harmony, that the proposed and called-for enclosure shall first be made properly and the defences constructed etc. and the work shall be contracted for and undertaken under the orders and directions of the Director General and Council or their deputies and the Burgomasters and Schepens or their deputies, the Director-General and Council appointing herewith out of their number as such deputy, the first Councillor Mons. *La Montagne*, who is to promote this work with the deputies from the Magistrates.

As to the further proposition to send agents to our neighbors of *New England*, although the letters sent to the respective Colonies of *Boston* and *Plymouth* should be sufficient for the purpose, yet, as no definite answers have been received so far, Director-General and Council agree with the proposition of the Burgomasters and Schepens and consent to send properly accredited agents to the respective Colonies. The credentials and instructions signed and given by the Director General and Council shall be submitted to the Burgomasters and Schepens as soon as they are written; the Director and Council will consider who is to be entrusted with the commission.

Done in Council by the Director-General and Council of *New Netherland*, March 14, 1653.

March 17, 1653.

Meeting of the Director-General and Council of *New Netherland* and the Burgomaster *van Hattem* and Schepens of this City.

It is resolved, on reconsidering the orders and resolutions of March 14th about sending agents

to the *New England* Colonies, that they shall be maintained and executed without any alteration, except that the mission shall be delayed for a while, to wait till an answer has been received to the letters from the Director-General and Council to the Governors of *New England* and till time and circumstances should require the immediate departure of the agents on their errand.

COUNCIL MINUTES. RESOLUTIONS CONCERNING THE PALLISADES AROUND FORT AMSTERDAM AND THE EXPORT OF WINES AND LIQUORS.

At the session of the 21st of March 1653 the Director-General reported, that the late Nine Men had been negligent in enclosing the Fort with pallisades or stakes, to which work the community had voluntarily contributed a considerable sum and whereas the said work has as yet not been begun, much less been completed, it is resolved that the parties, who manage the work and are entrusted with it shall be warned, to hasten the work, pursuant to former instructions, around the Fort, that it might not be ruined by hogs and that the portion already put up might be preserved.

Whereas all kinds of wine—Spanish and French wines, brandy and other distilled waters—are daily exported from this City by many of the skippers, while the tavern keepers here have to pay the usual and proper import duties or excise, the Director-General and Council have resolved and herewith order for the better maintenance of their necessary garrison, that henceforth nobody shall be allowed to export from this City, neither by water nor by land, any wine or liquor, unless the same has been duly reported at the Company's public office and the excise has been paid for each anker of Spanish wine—, for each anker of French wine—, for each anker of brandy and distilled water—. This excise and duty must be paid by the [exporter] and if it shall be found, that some merchants, traders or other inhabitants have sent off any wine, without being able to produce the proper excise receipt, they shall make good the loss sustained thereby by the Lords Patroons and besides pay a fine. The fiscal is to pay proper attention hereto and proceed against all disobeying this order according to law.

RESOLUTION TO FORTIFY NEW AMSTERDAM AND SEND COMMISSIONERS TO VIRGINIA.

Council Meeting of April 20, 1653.

First it is decided upon hearing the unexpected rumors, that the citizens without exception shall work on the constructions, undertaken jointly for the defense of this City, by immediately digging a ditch from the East river to the North river, 4 to 5 feet deep and 11 to 12 feet wide at the top sloping in a little towards the bottom.

Second, the carpenters shall be urged to prepare jointly the stakes and rails.

Third, the soldiers and other servants of the Company with the free negroes, no one excepted, shall complete the work on the Fort by making a parapet and the farmers are to be summoned to haul the pieces of turf.

Fourth, the sawyers shall immediately begin to saw planks of four inches' thickness for gun carriages and platforms.

It is further resolved, that Commissioners shall be sent to *Virginia*, who must endeavour to obtain a boatload of salt for the use of the inhabitants here. The Fiscal *van Tienhoven* is appointed on behalf of the Hon^{ble} Company and the Burgomasters and Schepens are called upon, to nominate a member of their Board to join him, which they will consider at their next session and then give an answer.

LETTER FROM THE DIRECTORS TO STUYVESANT RECOMMENDING JOHAN DE HULTER, WHO TAKES OUT
TO NEW NETHERLAND A NUMBER OF PEOPLE FOR RENSELAERSWYCK.

A° 1653, the 7th of May.

Honorable, Vigorous, Pious, Dear and Faithful.

In the ship "*Grift*" goes over Mr. *Johan De Hult*,* partner in the Colony of *Renselaerswyck*, and his family who takes with him a goodly number of free people, among them some artisans, especially a very good brickmaker, and many others mentioned in detail in the list, to settle either in the said Colony or elsewhere and assist in the cultivation of the soil there. As it is not yet quite decided, where he may begin and as he may settle on *Manhattans Island*, where we believe it would be best, we have deemed it proper and just upon his request for a recommendation, because not known there, to direct you to favor him as far as possible without prejudice to the Company's interests and kindly assist him in everything; and if he should conclude to remain upon *Manhattans* or *Long Island* to allot for him so suitable a place, as his circumstances and the fitness of it for a brickyard require. Hereupon relying etc etc.

The Directors of the W. I. Co.

A. PATER.

Amsterdam,

the 7th of May 1653.

To Directeur *Stuyvesant* in *New Netherland*.

JOINT RESOLUTION OF DIRECTOR AND COUNCIL OF NEW NETHERLAND AND THE MAGISTRATES OF
NEW AMSTERDAM TO PROVIDE FOR THE FORTIFYING OF THE CITY.

Upon the written and verbal propositions made by the Hon^{ble} Director-General to the Council, the Burgomasters and the Schepens jointly, the said Director-General and Council and the Magistrates of this City, resolved,

That according to the former resolution of the 15th of March first and above all the *City of New-Amsterdam* shall be enclosed all around by joint work and placed in a proper state of defense, to arrest and beat off a sudden attack and that then the Fort be taken in hand and repaired.

In order to do this in the best and speediest manner it is further resolved by the Director

* *Johan de Hult* was the son-in-law of *Johannes de Laet*, one of the Directors of the W. I. Co. and author of two works on America. — B. F.

General and Council, that the citizens and inhabitants, together with the mechanics and laborers shall generally assist either in person or if they can afford it by other suitable substitutes and not stop work until it is completed and in such a state of defense that the good inhabitants of this City with their wives, children and property may be protected against a sudden assault and incursion, which God in his grace may prevent.

And that the whole work may be done and performed in better manner and order and that the said Director-General and Council and the Burgomasters and Schepens may have a better supervision of its being done well and properly, it is resolved and decided, that we go to work with squads, namely that one-fourth part of all the inhabitants, either burghers, merchants, farmers or sailors and skippers, either already here or who may come hereafter, shall be employed on the said work for three consecutive days, as they shall be directed and ordered by the said Director-General and Council, Burgomasters and Schepens either jointly or individually under penalty of 25 Carolus guilders to be imposed on those, who for the first time oppose the orders and resolutions made in joint session of the Director-General and Council and the Magistrates and do not obey generally or individually the commands of one of the said Council or Magistrates; if any one is unwilling and disobedient a second time, he shall lose his rights as burgher and if upon a third summons he remains obstinate and unwilling, he shall be punished arbitrarily and banished from the Province.

To prevent excuses and dissatisfaction, it is further resolved, that the Director-General, the Members of the Council and the said Magistrates shall not only be and remain the managers of the work, but also each of them shall according to his means send at his own expense a man to work, the same order to apply to the subordinate officers of the Hon^{ble} Company none excepted and the free negroes, who with their fourth part shall go to work upon their section of the aforesaid work and continue until it is completed, subject to like penalties as above.

Concerning the first, second and third point it is further resolved, that no ships, barges nor any person whatever shall be allowed to leave within the time of 14 days or three weeks, when the Director-General and his Council and the Magistrates hope to have completed the said work and made it defensible, provided it is commenced and continued with courage and zeal. In case it is completed sooner, the Director-General and Council will issue another order concerning the earlier departure of ships, barges and persons.

Thus done and enacted in joint session with the Burgomasters and Schepens by the Director-General and Council at *New Amsterdam* the 12th of May 1653.

Thus doing etc.

Decision.

The petitioner's request has been partly answered eight days ago, since which time petitioner has continued to take in freight; even on the day when he submitted to us his last petition has he taken on board several hogsheads of tobacco and cases of peltry; the Director-General and Council are further informed, that some peltries are being packed to-day, to be shipped and that therefore the bills are not ready yet: when these are ready and signed and the duties paid or offset, the petitioner shall not be delayed more than 8 or 10 days to his or his owners' loss. If after the expiration of this time, it should be found necessary for the service of this Province to detain the petitioner's ship still longer then the Director-General and Council on behalf of this Province engage to pay or cause to be paid in Fatherland the promised wages for all the days, the ship is thus detained, according to the decision and arbitration of the Commissioners appointed for this purpose in *Amsterdam*.

COUNCIL MINUTES. ORDERS REGARDING THE ERECTION OF A REDOUBT AT FORT ORANGE AND
THE SCARCITY OF GRAIN THERE.

May 28 1653.

The Director-General and Council of *New Netherland* after having heard the detailed report of the deputies of the two Courts, to wit Mr. *Arent van Curler* from the Court of the Colony and *Rutger Jacobsen* in behalf of *Fort Orange* and the village of *Beaverwyck* and having examined the letters previously sent concerning the disputes, which to our regret have arisen between the Courts on one side and the officers of the trainbands on the other,

Order herewith, that the resolution adopted by both the Courts on the last of April and ratified and approved by us some time ago shall be carried out and therefore the inhabitants of the Fort and the village are herewith charged and commanded to assist the people of the Colony, after the Fort shall have been thoroughly repaired, in completing the redoubt or blockhouse, in conformity with said resolution. In default thereof, proceedings shall be instituted against all who refuse to obey. Thus done the 28th of May 1653.

The Director-General and Council of *New Netherland* having further considered the present scarcity of breadstuffs, resolve, not only to write once more to and direct the authorities of *Fort Orange* and of the Colony of *Rensselaerswyck* strictly to observe and execute the former ordinances concerning the malting, brewing and unnecessary baking, but also to direct and authorize them to appoint out of their number two or more persons, who shall visit the burghers and tenants, especially the bakers and brewers and see, how much bread corn every one of them

has in store and all the inhabitants of the two districts are commanded, not only to give a full and satisfactory information to the Magistrates or their deputies, but also to give to them a complete account and proof of where they send the grain to or how they consume it themselves.

Thus done and enacted by the Director-General and Council of *New Amsterdam* the 30th of May 1653.

LETTER FROM THE DIRECTORS TO STUYVESANT: EUROPEAN NEWS: REGULATIONS FOR GRANTING LANDS: RENSELAERSWYCK: INCREASE OF CATTLE TO BE ENCOURAGED: SLAVE TRADE TO N. N. ETC ETC.

1653, June 6th.

Honorable, Worshipful, Pious, Dear and Faithful.

Our last to you was dated the 13th of December 1652 by the ship called "*Etling*" and was sent alone and suddenly with the quantity of ammunition, of which a list is here enclosed, to inform you of the English war; by the same letter we could only partly answer your letters and accompanying documents of the 14th and 20th of September 1652 received by the ships "*Romeyn*," "*Huys te Breda*" and "*Gelderse Blom*" and as since, God be praised, the little ship "*St. Michael*" has safely arrived here, by which we received your letter of the 19th of November following, we shall answer now this and the unanswered points in the former as briefly and substantially as possible.

Your endeavors, although resultless, to obtain from the community there some subsidy for the maintenance of the administration, the military and the church have our approval; but we cannot as yet agree to your opinion in regard to this matter, that such measures must necessarily be introduced by our express order and direction, nor do we consider it advisable to adopt this plan at the present time, although the Company ought to have some relief and assistance in this matter; but the difficulties which at present arise are apparent to us and must be well considered. We have resolved to direct you herewith, that if the community there cannot be persuaded to make voluntary contributions (which you must continuously try to obtain by all possible and gentle means), this measure must not be introduced against their will and pleasure, to prevent disturbances in so honorably opening a territory during these dangerous and troubled times.

We have seen, that upon the petition of people from *Fort Orange* as well as from the Colony of *Renselaerswyck* you have been obliged to close your eyes in regard to the placat about contraband goods; you will do well to do that seldom and to take good care, that by such connivance not a larger quantity of ammunition is sold to the savages, than each requires for provisioning his household and for gaining his livelihood, that this savage and barbarous people may not at some future day take up and turn these weapons against us, with more than too many of which, as we regret to learn, they have already been supplied by smugglers and evil minded persons. Strict attention must therefore be paid to this and the Fiscal directed to visit and examine arriving ships and cargoes and to prosecute such smugglers and illegal dealers strictly in accordance with the aforesaid placats without mercy.

We have been also of the opinion, that the best and safest way at this period is to stand upon

your own right and defend it and have therefore urged you in our letter of the 6th of August 1652 (of which we enclose a copy) to arm all free men, soldiers and sailors and put the fortification into a good state of defense, which will now be of still greater importance, because the disagreements between the two republics have resulted in open war. Notwithstanding this you must not fail to use all honorable and imaginable means for the maintenance and continuation of the correspondence and commerce with the people of *Virginia* and *New England*. The Company shall in the meantime as far as able persevere in sending a commensurate number of people and soldiers, of whom we regret not to be able at present to send such a number, as we had desired, for neither soldiers, nor sailors nor even carpenters can be engaged because of the continued preparations and equipments of ships and people to be sent to sea by this state against the English; we have therefore not failed in our duty herein, nor in procuring the goods and merchandise needed there so much, with which the ships now leaving have been provided only very sparingly; they could not receive a full cargo partly because private dealers are discouraged by the present dangers at sea, partly because they are afraid, that our affairs there with the English neighbors may be subjected to a change; especially as in *England* Parliament has again been dissolved and General *Cromwell* has established provisionally another form of government, as you may learn by the enclosed printed sheet.

Concerning the placats drawn up and sent over by you in regard to the neglect in cultivating and redeeming land and in erecting houses on the lots granted within the limits of *New Amsterdam*, we have told you in our last letter of the 13th of December 1652 (of which a copy goes herewith) and we repeat now: it has never been our intention, that our general and simple consent, given to all going there according to the size of their family, should make them owners of one or two hundred morgens of land, without entering upon and cultivating it in the prescribed time nor have we any other intention in regard to the lots, which remain in and about the city of *New Amsterdam* without being occupied. We have therefore caused the said placats to be printed here after examining and slightly correcting them and shall send them to you herewith to be published and affixed there. In order that the first of them may have better effect and bear fruit, we have finally concluded to make in your draft no other correction, than only, that the quit-rent or the annual payment of 12 stivers for each morgen shall become due a year after the land has first been ploughed or otherwise put to use, as you will see by the printed copy.

We have also examined the placat concerning the illegal purchase of land without the knowledge of the Company, which you have already published and affixed there; we would have preferred, that you had not particularized the names of the persons and had been careful to prevent all difficulties and questions from the Company's calumniators here; the enclosed printed copy will show you, what corrections we have made in this placat and we recommend to you most earnestly the execution of this as well as of the other two placats.

Your proceedings and provisional order in and about *Fort Orange*, after examining the documents etc., sent by you for this purpose, have our approval; we only desire to recommend to you herewith, that you charge the chief officers and the court at said Fort not to give to the people of the Colony of *Renselaerswyck* any occasion for displeasure or complaint, but rather to keep on a good footing with them and to do everything necessary for friendship and peace with their neighbors, without prejudicing the Company's rights.

We have also been pleased to see, that you have not extended the limits of the Colony of *Renselaerswyck* any further, than the Freedoms and Exemptions admit and as to the farms, which may fall outside the fixed limits of the said Colony, we are of opinion that the same ought to be

granted by proper patents in the name of the Company and left in the possession of the present occupants under such conditions and yearly taxes, as are made with and imposed upon other Colony owners and private individuals, without however drawing them into the patroonship of the aforesaid Colony or extending the same to their extent.

We recommend to you most earnestly the breeding of cattle and therefore the slaughtering of the same, especially of young cows and other young cattle, must be prevented as much as possible; and if, in order to increase the number of cattle in the country, some private individuals could be found, who are willing to purchase some animals in *Hispaniola* or other parts of the *West Indies* and import them there, the Company would approve of it and consider it a desirable measure to promote agriculture. As we have also learned, that many sheep are dying there, we wish you to consider, whether salt might not be used there as a remedy against the diseases and distempers of the sheep. it must be placed in large lumps all over the pastures, as it is done in many other countries.

We are informed here by good authority that large quantities of peltries might be secured there from the *Canadian* savages, if these tribes could come without danger and without being obliged to take a circuitous route to *Fort Orange* and *Renselaerswyck*. But they are constantly molested by their neighbors, the *Maguas*, with whom they are at war almost incessantly and this it is said is the cause, why the *Canadian* savages, fearing the danger and the troubles of a southern trip, sell their peltries to the French and other nations trading there, so that the Company and their people are deprived of all this trade. We wish therefore to suggest to you whether it would not be for the advantage and service of the Company to establish a trading post 18 or 20 leagues above *Fort Orange* and make it the staple of the fur-trade: it would be, we believe, no small matter for the Company and we expect your opinion of it by the first opportunity.

Upon your request in favor of the Honorable *van Werckhoven* we have decided, that if he requires more land, which he is able to cultivate, he shall be accommodated.

The recommendation, which we gave to *Frederick Alcker*, the supercargo, and others which we may give must not be considered any further by you, than the service of the Company requires.

As we have said in our last to you, it has surprised us, that against our previous orders you exact four stivers for quit-rent besides the 8 per cent from each merchantable beaver; we stated then among other reasons the difficulties likely to arise from that measure, especially the decline of both commerce and population, because by the decrease of the former we should be deprived of the means to carry people over there. We have therefore resolved to order and direct you herewith expressly, not to demand henceforth more than 8 per cent. for beavers, leaving merchants the choice, whether to pay it in kind or in full weighted silver coin according to Dutch valuation, partly and principally to prevent complaints from dealers and not to discourage them during these dangerous times, partly to draw coin from here into that province.

We have seen, that you have granted there, subject to our approval, three extraordinary monopolies to some private parties, namely one to establish an ashery, one to make tiles and bricks and the third to put up salt works; we do not only completely disapprove of granting such monopolies, but we are also of opinion and desire, that you shall not grant any others henceforth, because we believe it to be very pernicious and impracticable especially in a new country, which begins only to develop, and must be peopled and made prosperous by general benefits and liberties to be granted to everybody, who desires to settle there with this or that profession or handicraft: that encourages people to remove thither, while on the contrary they are deterred and consequently all trades and business banished, if such monopolies and privileges are given only to a few favored

private individuals, the advancement of whose interests must not be purchased at the expense of the general welfare. As the promotion of the latter depends mostly upon the growth of a country, we have concluded to recommend to you to act in this matter always on such theories, that increase of population, advancement of agriculture and advantages to the common welfare may result from it; then the Company too may at last reap some long expected benefits from this territory purchased so dearly.

You can well understand, that we are not idle here, but that our thoughts are constantly engaged to discover means for the promotion of agriculture and the advantage of the inhabitants there generally and for that purpose we have already asked the government here and are repeating our demand now for the abolition of the tax on tobacco grown there, which you may communicate to the delegates of the inhabitants and expect the result in due time.

We can judge very well, that it would be advantageous to the Company, if no ships from here were allowed to go directly to *Virginia, New England, etc.*, but to our deep regret there is very little chance of preventing it, because the other Departments can give such permission to private ships pursuant to the rules made herein with the approval of their High : Might :. We shall nevertheless try to find, if possible, an expedient, the success of which you shall hear in due time.

We would have granted very willingly your and the community's request to have a farrier sent over, but notwithstanding all our endeavors in this respect we have as yet not been able to find a suitable and experienced person and we believe therefore, that this class of people have already gone to sea and under the flag of Admiral *Tromp*. You must do the best you can in this matter for the present with the assistance of such material as you may find there.

We are well pleased with the method and orders, inaugurated and issued in the granting of furloughs to and discharges of soldiers under so well defined conditions and believe it will prove a proper measure to have at hand an always ready and well disciplined body of men. In engaging soldiers here we shall try to follow your rules and in order better to govern ourselves accordingly in the future, we most urgently recommend to you to send us annually a complete list of the soldiers and others, whom from time to time you may discharge there, partly that their places may be filled up again from here, partly to suspend the annual payment of the salary for two months, which might be advanced and paid here on their account to their friends and attorneys to the loss of the Company.

In consideration of the weakness in numbers of your Council in these troubled times, we have resolved to increase the number by another fit and experienced Councillor and as among others *Nicasius Silla* has presented himself for the office, experienced both in law and war, of whose life and knowledge we have received the best testimony, we have engaged him for our service as first Councillor of the Director at a salary of one hundred guilders per month, commutation money for board included, as you will learn in detail by our ship "*Koninck Salomon*."

For special reasons we have also resolved, that you shall let the increase of Councillor *La Montagne's* salary to fifty guilders per month and two hundred guilders yearly for board begin so much earlier and from such a date, that his debts to the Company may be balanced and liquidated by it; we trust this will make him continue in his duties with still greater zeal and take the Company's interest still more to heart.

We have made an agreement with some merchants here and allowed them to sail with two or three ships to the coast of *Africa* to trade for slaves and carry them thence to the *West Indies* and the neighboring islands; as we expect, that one or the other of these ships may come to *Nev Nederlant* to sell their slaves to the inhabitants there, we desire and require, that in that case

you demand no recognition from them, but assist them in every proper way to clear away all obstacles, which might impede the progress of agriculture. This for your information and subsequent action.

The former Director *Wouter van Twiller* has suggested to the Board, whether it would not be advisable to make some alterations in the clearances, given by the Company to ships sailing to *New Netherland*, especially to put in the place of 45 stivers as duty on *Virginian* tobacco 20 stivers for one hundred pounds or two guilders for the cask, partly to draw most of the tobacco from *Virginia* by way of *New Netherland*, which would be a great advantage to the inhabitants there, partly because he, *Van Twiller*, considers it impossible, that the ships can continue to sail from here to *New Netherland* in competition with those sailing directly from here to *Virginia* and *New England* and paying only 10 guilders per last. Although we have declined his proposal, we have nevertheless concluded to apprise you of it, that we may have your opinion by the first chance.

We enclose a sealed secret letter, which we direct you to keep in a special place and which must not be opened or read, unless Director *Stuyvesant* should die there (which God forbid). In that case our orders and intentions expressed therein shall be read and we desire, that then they shall provisionally and until our further orders be carried out and obeyed.

We called upon you some time ago for information concerning the account of monthly wages earned by a certain *Jan Jansen van Ilpendam*, formerly Commissary there, but are surprised not to have received any answer yet. A memorandum of the matter and account is therefore here again enclosed, upon which you will take such order, that by the first opportunity we may receive a distinct explanation and statement of this matter, as well as of the case of one *Francis Deckersen*, supercargo of the ship "*Nieuw Nederlandsche Fortuyn*."

Copies here enclosed of two petitions presented by *Adrian van der Donck* will inform you of their tenor and demands: in regard to the first, we can well understand, that it is founded in reason, for it would be very expensive and inconvenient for the people, who take over farm hands and girls, if these servants should leave their service, whenever it pleases them and before their time has expired, without first indemnifying their masters or having other good and sufficient reasons. We must act in such matters very cautiously and give such orders, that neither the people are hampered nor the masters or their servants have cause for complaints. As to the six guns, which the said *van der Donck* sent there in 1651, if the case stands as related and the guns were not smuggled; but imported with the consent of the Company, they should be returned to him.

Concerning the second petition in relation to the piece of land or poor meadow of about 30 to 40 morgens near the *Saegkil**, we have deemed it advisable to write you and order not to allow any one to trespass upon said meadow nor occupy it before you shall have examined this case and if you find that he, *van der Donck*, has purchased the said meadow from the natives with the consent and knowledge of the Director and Council there and it does not prejudice or infringe upon the Company's rights, then, we are of opinion, this piece of land or meadow should be left to him under the same conditions as grants are made to other inhabitants pursuant to and conform with the placats.

* * * * *

Also the ship "*Gelderse Blom*" belonging to or freighted by *Wouter van Twiller*, while tied up here, had surreptitiously received on board a number of kegs of powder, the inspectors of the customs presuming their contraband character have seized them, as the ship was going out from

* Nepperhan Creek in the city of Yonkers.

the *Tewel*, so that the owners have suffered no small loss ; but *Wouter van Twiller* pleads ignorance and the skipper with his mate have eaten the cheese. There are undoubtedly on board of this ship still other contraband goods and we deem it therefore advisable to inform you hereof, that you request and direct the Fiscal to be very strict in his examination, when the ship arrives and is being discharged, that such smugglers may be proceeded with and punished according to the placats as an example for others.

Herewith etc.

EXTRACT FROM A LETTER OF THE DIRECTORS TO STUYVESANT: APPOINTMENT OF PROVINCIAL OFFICERS: VAN DER DONCK'S DESCRIPTION OF NEW NETHERLAND.

(The first part of this letter is a duplicate of the letter of June 6th 1653 p. 206.)

The good testimony and reports presented to us concerning the character, fitness and experience of *Cornelis van Reuwen*, coming over with this ship, have induced us to resolve, to take him into our service as Secretary of your Board at a monthly salary of 36 fl and 200 fl yearly for subsistence. We trust, that you will derive advantages from his service. As to *Carel van Brugge*, appointed by you to this office provisionally, you may let him again attend to his former duties as Commissary or assign to him such as you think him best fitted for.

We have concluded to order and direct you herewith, that in case after the unloading of our ship "*Coninck Salomon*" a cargo of tobacco could be obtained there, the same be placed on board and the ship sent back here with all possible speed ; if not, which we hope will not be, you must quickly send the said ship to *Curaçao* to take in there a cargo of wood and salt and thence let it come directly to this country by the northern route, if the season of the year permit, with special orders to keep as close to the northern coast as possible in order to be exposed to the least extent to the dangers of capture by the English. You will give to all ships sailing from there the same orders in future and as long as the war between this nation and theirs last.

Whereas Master* *Adrian van der Donck* has presented to our Board two petitions, namely that having received his degree at law by the University of *Leyden* and been admitted to the bar by the Court of *Holland* he may be permitted to practice as attorney and counsellor in *New Netherland* and further to be allowed to examine the documents and papers in the Secretary's office there to complete his already begun Description of *New Netherland* ; we have resolved on the first to allow, that according to the usages of this country he may practice there as advocate by assisting every one, who desires it, with his advice, but as to pleading in Court, we cannot observe, that for the present it is proper to allow, because we do not know, whether there is somebody

* A title given to every one, who has taken his degree as Advocate at the University. — B. F.

there of sufficient ability and the necessary qualification, (who before being admitted to practice there, must report to you or as the case may be to us) to act and plead against the said *van der Donck*. You will do in this matter, what you shall consider to be the best for the country and its inhabitants.

Concerning the second point we have resolved to refer the said *van der Donck* to you, that you may let him have such documents and papers, as may be thought of service to him in completing his history; but as this is a difficult matter and requires consideration, we wish to recommend to you, to be herein so cautious that the Companys own weapons may not be used against us and we be drawn into new troubles and quarrels.

For the sake of greater security and for your guidance we have resolved to notify you again herewith, that the pay of the soldiers, sent over now in this ship as well as last year for our service, shall not begin before their arrival there; therefore a soldiers accounts must not begin before that day and the first entries to his debit must be, besides the two months pay received here in advance, for the arms given him fl 13. 18 st. and for the strawbed and sea-chest together fl 2.15. The account of the men, who take or have taken with them their wives and children, must likewise be charged for the board and fare of the latter, which the Company pays for these women and children sailing in private vessels or else they must provide for it in some other way.

Above all care must be taken, that in the accounts and books of monthly wages proper entries are made of the debts contracted here by the soldiers and others before their departure (which the enclosed list shows in detail) as in their liquidation we pay here every year to the creditors the pay for two months, which is also paid every year to the wives, left behind here by men entering our service. Therefore, when you discharge them you must at the final settlement and payment retain at least as many times a two months pay besides the two months wages received here, the arms, bed etc as they have been years in the service of the Company; nor must you omit to send us yearly a correct statement of those, whom you may discharge from time to time, as we have already told you, that the Company may not suffer loss.

We have further to say in connection with the foregoing, that the books of monthly wages cause us here a great deal of trouble and examinations, because many items in several accounts are cancelled and credited, which refer to the journals, while we have received neither these nor the ledgers: we are therefore unable to see clearly and distinctly, whether these credited items have their proper counter entry, unless the books of wages are examined from beginning to end, item for item, to discover whether the charge has been made. You will therefore take care and give order, that henceforth the books, accounts and vouchers are sent to us in due time, that the Company may be protected against loss and the people concerned not detained.

From complaints addressed to us we have learned that of the merchandise taken over by one *Cornelis Pyl* lately in the ship "*Hoff van Cleeff*" five pieces of kersey have been confiscated by the Fiscal there, because it was not entered in our invoice: as however this omission was caused by a clerical error, which the documents entrusted to our skipper *Cornelis Conraetsen* now coming over will prove to you, we have deemed it advisable to notify you thereof, that the aforesaid five pieces of kersey may be returned to the said skipper or his attorney and further complaints avoided.

We have already stated that the ship "*Hoff van Cleeff*" had safely arrived from *Curaçao* at *Rochelle*, but now we learn to our sorrow, that on her way to this place she has been taken by the English close by here, so that we are deprived and robbed of the profits, which we might have made on her return cargo; it would have been of considerable assistance, as her cargo of salt

would have sold well, for the price of salt is very high now and it was coming to a good market.

LETTER FROM THE DIRECTORS TO STUYVESANT: THE RELATIONS WITH THE NEW ENGLAND PEOPLE.
1653 18th of Aug.

Honorable, Worshipful, Pious, Dear and Faithful.

Sieur *Allard Anthony* appeared here to-day commissioned and sent by you in the ship "*Elbingh*" which arrived with several other ships from divers quarters in the Sound. We received from him your letter and accompanying papers, dated the 5th of June of the present year from which among others we learn to our regret of the danger apparently threatening our province there from the English neighbors on frivolous and treacherous pretext, used by them to cover their intentions. As our ship "*Coninck Salomon*," by which we have given you detailed advices, is now ready at the *Texel* to go to sea at a moment's notice and we have therefore no time to say much more on this subject, which we would like to see dispatched by the said ship; we shall only say in answer to your last received letter, that you may rest assured, we shall endeavor and solicit especially the Lords Mayors and Rulers of this city, submitting all pertinent arguments, to assist and supply the places of so much importance to us with the things most urgently needed there. We trust, that in the meantime after having been duly warned now you will be very cautious and on your guard and that you have put everything in good shape and state of defense so that if that nation has any hostile intentions upon our possessions and makes any attempt upon them, (for which we must not give them any pretext) you may be able to resist them. We expect it however the less, although very much inflated with pride just now, because they must have learned of the losses sustained by the English here in the last terrible seafight with our fleet, in which they lost about 20 of their strongest and best ships, so that at last they were compelled to fly. It was a great victory for our country, which would have been celebrated with the greatest rejoicings, if the life of our valiant Admiral *Tromp*, of laudable memory, might have been spared. May the good God awaken another like him and protect this country and our territory there against further evil.

RESOLUTION OF THE WEST INDIA COMPANY TO ENCOURAGE PRIVATEERING.

No. 25.

Extract from the Register of Resolutions adopted by the Committee of the Directors of the West India Company representing the Assembly of the XIX at the Hague.

Monday, the 15th of September 1653.

The Committee appointed to consider the ninth section of the Description concerning the privateering or sailing with letters of marque have made their report on this matter, which says, that the rules adopted for this business in 1646 should remain in force, but in order to animate and encourage everybody at this time to equip a ship or ships for the spoliation of the Portuguese, consent might be given, that, besides the reduction of the duties granted in 1652, provisionally and until further orders the following alterations be made.

1.

All captured goods may be secured and stored in a neutral warehouse, of which the government and the interested parties or their agent shall each have a key.

2.

After sentence has been pronounced by the court in *Brasil*, the goods shall be sold in like manner as now by agents of the said government, provided, that some one of the interested parties or their agent may be present

3.

The moneys for the captured prizes shall be received as usual and pursuant to old customs, provided that the interested parties or their agent shall be satisfied promptly and their share paid to them, shortly after the receipt of the said moneys.

4.

All captured goods, which the purchasers shall wish to send elsewhere, may be shipped in such vessels as the interested parties deem advisable, but only to the fatherland and not elsewhere, unless the government in *Brasil* upon occasion gives other directions.

5.

Only the negroes captured in prizes coming from the sea may be sent with the knowledge of the government in *Brasil* to such places, as the purchasers choose.

6.

The duties now received by the Company for all prize goods captured and specified in the aforesaid rules (negroes included) shall be reduced to 10 p. cent. and nothing more, the export upon order remaining as before.

A vote having been taken, it was unanimously resolved to adopt these articles and allow every one to act according to these rules and the gentlemen of the Committee received the thanks for their exertions.

LETTER FROM THE DIRECTORS TO STUYVESANT: NEGOTIATIONS WITH THE BURGOMASTERS FOR AID.

November 4th 1653.

Honorable, Worshipful, Pious, Dear and Faithful.

Although this ship the "*Vaerwel*" takes the course to *New Netherland* by way of *Brasil* and *Curaçao* and therefore most likely will arrive late, we have neither been able not willing to omit informing you of what has occurred here since our last letters of the 24th of July, copy of which we shall send by the first and better opportunity, and of the 18th of August sent by the "*Gelderse Blom*" and our ship "*Coninck Salomon*;" especially regarding our request for assistance required for those places. We will also reply, as far as shall be considered necessary at present, to your last two letters of the 7th of January 1653 and 5th of June following.

First concerning the request for aid and the reason, why as yet we can write about it with so little detail, it has not been neglect or lack of zeal on our part, but solely the very important affairs of state, which engage at present also this city especially, so that almost continually one or the other of the Burgomasters has been absent as delegate here or there; then came the illness of the Honorable Burgomaster *Witsen*, so that the worshipful board being not full, we deemed it unadvisable to present our request until 6 or 8 days ago, when we handed the Burgomasters a certain remonstrance drawn up by us regarding this matter with some documents on the same subject. Nothing of interest has so far resulted from it, notwithstanding that we have importuned one or the other of their Worship by constant solicitations, but we have learned from them at least so much, that the present condition of the city will probably not permit to incur expenses or make advances without some assurance or without something tangible, from which they could repay themselves. We have thereupon requested that a committee of the Council be appointed to confer with us on this matter, and to hear our propositions: we are now anxiously waiting for that committee and hope, we shall give them full satisfaction. Anyway, as far as the condition of the Company can or may admit, we shall do our best and exert the power, which the Company still has: upon that you may rely and you may also believe, that we are deeply interested in it, because we desire very much the preservation and safety of that territory, opened with so great expenses, and its inhabitants. Meanwhile we have begun to provide ourselves with arms and ammunition of war and have already gathered 170 muskets, carbines and firelocks to arm the soldiers going thither. We shall not cease to continue in our preparations and care and we trust, that you likewise are very cautious and make the best use of the means and power given to you first and now by God and nature, so that the haughty and intolerable English nation may not get the better of us through our bad management and carelessness.

We are now coming to the reply to your two beforementioned letters, first of that of January 7th 1653, in which you say, that our people there live in great fear because the advantages gained in Parliament over our government are zealously magnified. We may well believe it, although it is sure, that the same are made ten times greater, than they are in reality; but it is in the nature of haughty people and generally the characteristic of that nation and therefore their tales should not be believed so readily or accepted as correct. We think their boastfulness and haughtiness will be considerably diminished now, because they have accomplished nothing or at least very little during the year and specially because the great loss, which the English have sustained in the last terrible engagement at sea against our fleet, causes considerable decline and dissatisfaction with their new usurping government. As to the union, said to have been made by them with the Swedish crown, we have as yet seen no sign or result from it, much less, that they

have joined their forces to blockade the Sound ; the English furthermore came out of the before-mentioned sea fight in so disabled a condition, losing besides twenty of their best and strongest ships, that they have not been able to recover as yet and go to sea again.

You must also be very cautious in the intercourse with the Swedes on the South river (against whose chief you complain), as well in maintaining the Company's privileges as in avoiding if possible to give them cause for complaints and dissatisfaction : for it is not advisable to increase the numbers of the Company's enemies at this critical period. Concerning the request made by some of his subjects for permission to come and settle among us, if we will engage to protect them, we see no reason, why it should be refused and denied, (unless your view goes farther, than we at present can observe), for it would indeed prevent an increase of population, which is nevertheless the life of a state and therefore should be promoted by all means. Hence the influx of free people should not be impeded, but rather encouraged by resolute and honest measures ; justice and equity then demand, that to the extent of our power we protect and guard all, who are willing and have submitted to our laws and customs, like our other inhabitants.

You extol the conditions and the offer, according to which some English families shall be admitted there to establish a new village or settlement near and opposite the village of *Flushing* who with the village of *Middelburgh** are willing to the same conditions and offer. You present the matter as a proper measure, which would place the country and the administration in a firmer and safer position, but unfortunately we take a different view, because the people of *Hemstead* and *Flushing* have actually not only not prevented the raising of the Parliament's flag by some English freebooter, but also permitted it to be done ; an example, which induces us not to trust to any of that nation residing under our jurisdiction. Their immigrating and having favors granted to them must therefore be restricted henceforth, that we may not nourish serpents in our bosom, who finally might devour our hearts. You will act accordingly.

We have learned with sorrow and surprise from your last letter of the 5th of June of this year (as we already mentioned in ours of the 18th of August, copy of which we enclose) what frivolous and false charges the people of *New England* have brought up against us only to cover their evil intentions with the appearance of justice and right : they follow herein the example of their principals, whose government is built up on the same grounds and foundation. Upon hearing the rumors from *New England* they have magnified these false reports, apparently started at their own instigation and have forged and published in *London* the most shameless and lying libel, which the devil in hell could not have produced, under the title "The second Amboyna Tragedy or truthful Account etc." We have caused a translation† to be made of it and send you a copy of it herewith, so that you may see yourself the strategic measures employed by that nation in order not only to irritate against us their own people, but also to bring down upon us the whole world. You must therefore proceed with great caution, for we cannot expect the least good from that nation at present.

The crops, which had been raised, have, we hope, been safely harvested and although we can hardly believe, that the people of *New England* would have the audacity to blockade and besiege us there, which you apprehend most, the grain and other victuals must not be consumed lavishly at this time ; we are told, that the Colony of *Renselaerswyck* use their grain to brew strong beer etc., and you have done well and acted with due caution by giving them a timely warning. As by prohibiting the trade with *New England* no more meat or bacon can be drawn from the North, which you fear will cause a scarcity of these provisions, therefore we have at this time

* Newtown, L. I.

† See O'Callaghan, Hist. of *New Netherland*, II. 571.

resolved to affix handbills proclaiming, that all, who will send victuals to *New Netherland*, shall pay no duties on them; that will encourage merchants to ship them.

We are waiting with much anxiety to hear of the return and the proceedings of our commissioners, Fiscal *van Tienhoven* and the Burgomaster-elect *Arent van Hattem*, who were sent by you to the *Virginias* partly to obtain some provisions, partly to ask for a continuation of the correspondence, peace and commerce, to which the Governor and inhabitants of these places are very well inclined, as you say; we were glad to learn it, because we esteem their friendship very highly as well on account of the commercial intercourse, as because, as we said before, we must make no more enemies there and therefore we must also employ all honest and equitable means to continue with them upon the old footing of intercourse and friendship. Do not cease in the meantime to watch them, nor show your weakness and do not trust them, because at present very little reliance can be placed upon them.

We are very much astonished and surprised by your proposition and request, that the interested parties, as *Gerrit van de Voorde* and his partners, might be satisfied and paid here for the merchandise confiscated by you and sold there; the more so as our former letters must have convinced you, how little satisfaction these proceedings and confiscations have given us; you ought also to have known, that the condition and funds of the Company here do not permit it. There is little chance to settle the matter by an offset against the duties, and it would besides be a very slow way, as the people at least are sending only small cargoes to *New Netherland* and on the other side the Company should not be deprived of their small revenue in this country. In the meantime these people, here receive in consequence of this sending from pillar to post and delay injuring their interest, just cause for complaints, which you might have prevented by keeping in deposit the moneys received for the confiscated goods, especially as the confiscation was made for so poor a reason, viz: not showing the bill of lading, while the goods were nevertheless entered in the invoice. You might have foreseen, that a claim for restitution would be made and in the future you must act with more caution and use all means to satisfy these parties there one way or the other and make such arrangements with them, that no more chances to complain may be given to them or to others.

The good character, which you give to the skipper *Jan Jansen de Vischer* has been already taken into consideration by us and would in due time most likely have been acted upon, if we had been able to speak with him, but we are at present prevented from doing so, because he is a prisoner in *England*, having had the misfortune, when returning with his ship from *Norway* to get separated from the rest of the fleet and to meet an English privateer, a frigate mounting 34 to 36 guns, which sunk his ship after a fight of 5 to 6 hours' duration and took the skipper and the crew to *England* as prisoners; this is, alas! already the third ship coming from that quarter, which has thus been lost to the owners. The merchants trading to that country are undoubtedly much aggrieved, but we hope, that they and we shall have our revenge some time or that the differences between our and that nation shall be adjusted, strong signs of which now reappear, as this government has again sent two commissioners to *England*. Time will show what they shall accomplish.

After a committee of the worshipful Council of this city, to wit Messrs. *Valckenier*, *Blauw*, *Tulp* and *Dronckelaer*, had been appointed upon our petition to the Burgomasters (as already mentioned) to confer with us concerning the security to be provided by us for the payment of the succor asked and required for our places, we have last Wednesday met these gentlemen, to which we believe we did not only give every satisfaction, but they also felt the importance of the matter,

as far as we can judge, to be so great that we neither will nor can doubt of their making a good and favorable report to the Burgomasters and Council. It is therefore to be expected, that some assistance shall be sent hence with God's help this year yet, which most likely will reach there before this letter, as the ship is going by way of *Brasil* and *Curacao*. You may rely upon it and keep your eyes open in the meantime, that no misfortune befall us there.

The XIX of all the departments are still assembled at the *Hague* and engaged in reforming the government of *Brasil*, to send there new superior officers and to recall the old ones, who have been there over the time for which they were engaged. There is also some talk about the establishment of a general accounting department to sit at the *Hague*, which we hope will bring the departments more into harmony and induce them to mind the interests of the Company with more care and zeal. The hope for reform in *Brasil* is at present favorable: if some agreement or peace is made with the English, we shall apparently receive a considerable succor for *Brasil* and the other possessions of the Company to dampen the haughty spirit of the Portuguese and bring Dutch *Brasil* with part of Portuguese *Brasil* under the government and jurisdiction of the Company.

The government in *England* is at present very odd. Late advices from there state, that Parliament has resolved and ordered all Roman Catholics to contribute two-thirds of their revenues for the expenses of the war; also that all apprentices shall again wear blue caps.

They had also ordered, that in future all marriages shall not be performed by a preacher in church, but by justices of the peace and this order was to take effect on the 1st of November 1653, but it has been suspended. Notwithstanding all their thieving and robbing, confiscating of land and goods, selling of the King's lands and houses and the property of bishops, deacons and ecclesiastical institutions there is a great scarcity of money, so that Parliament is very busy to find means: the people are getting tired of it and are slow in giving: all kinds of pretexts are invented to blacken the Dutch infamously and stir up the English against them only to make them ready to contribute; sensible men may know, whether such a government can exist long.

We have said above, that last Wednesday we have conferred with the committee of the worshipful Council of this city concerning the security for the required assistance; they have made such a report to the worshipful board yesterday, that it has thereon adopted a very favorable and salutary resolution in behalf of strengthening that province (which they begin to consider of importance) so that we are not mistaken in our opinion, as stated above, and you may therefore expect by the first suitable opportunity the desired provisions and succor.

Herewith etc.

COUNCIL MINUTE. APPOINTMENT OF DEPUTIES TO ATTEND A CONVENTION OF DELEGATES FROM THE
NEAREST COLONIES.

Whereas, several complaints have been made to us concerning the incursions and robberies of a certain *Thomas Baxter*, a fugitive from this Province, and his companions, by which among

others *Jochim Pietersen Cuyter*, *Willem Harek* and others have suffered and especially the secret and thievish abduction of 10 or 12 horses from the village of *Amesfoort*, and

Whereas, we cannot but be incensed at this and other robberies and incursions committed by the said *Thomas Baxter* and his accomplices and complained of by the damaged inhabitants,

Therefore we have resolved, to send letters to and summon from each of the nearest subordinate Colonies two deputies, who are to meet at the City hall in this City and to whom we think advisable to join two respected members of our High Council, to wit the Hon^{ble} Mr. *Johan la Montagne* and Mr. *Cornelis van Werckhoven*, authorized to make in our name the proposition and further to deliberate with the other delegates for the reputation and greater security of the country and its good inhabitants upon some effective remedies and means to prevent and stop these incursions, of which deliberations they will give us a report with all speed.

PETITION OF THE BURGOMASTERS AND SCHEPENS OF AMSTERDAM FOR AN ORDER TRANSFERRING TO THEM THE EXCISE ON BEER AND WINE WITH A MINUTE OF THE APPEARANCE BEFORE THE ABOVE MAGISTRATES OF THE PRINCIPAL CITIZENS CONSENTING TO CONTRIBUTE TO THE EXPENSES OF THE CITY.

To the Very Worshipful, their Honors the Director General and Council of *New Netherland*.

Show with due reverence the Board of Burgomasters and Schepens of the City of *New Amsterdam*.

Whereas the Hon^{ble} Director-General on the 11th Novbr last past verbally granted to this Board, that the excise of wine and beer, which is now being paid to the Hon^{ble} Company's office, shall be paid to their Board from and after the 1st of November, whereupon the Magistrates of this City called together some of the principal burghers and inhabitants to inform them thereof and

Whereas they have no ready money on hand now, but are nevertheless called upon for it,

Therefore the Magistrates asked them, whether they would be willing to subject themselves to all the general taxes, which we might decide to impose in behalf of the city, to which they unanimously consented, as shown by the annexed copy of their act, and

Whereas further we have as yet not received any official document relating to the excise, notwithstanding our repeated requests to the Hon^{ble} Director-General and Council,

We once more respectfully request to be furnished an official act relating to the excise on wine and beer, as paid at the Hon^{ble} Company's office (excepting the export to *Fort Orange*), the more so as we have informed the community of it and will be held in contempt and scorned by everybody, if we fail to obtain it. If hereafter, our petition not being granted, some misfortunes should happen, which God may avert, the aforesaid Magistrates declare themselves not responsible for the same and further, that they cannot exist without money and to their regret must see all the work already done go to destruction and ruin; wherefore they request a favorable decision

and the document. Thus done and enacted at the session of the Burgomasters and Schepens, this 25th of November 1653 at the City Hall of *New Amsterdam*.

But as for the present no ready money is on hand and yet is much needed during these dangerous times and therefore some general taxes should be considered, the aforesaid Magistrates ask the community, whether they will submit to such ordinances and taxes, as the Magistrates may consider proper and necessary for the government of this City. ANSWER OF THE DIRECTOR-GENERAL AND COUNCIL TO THE FOREGOING REQUEST.

The Director-General and Council stand by their verbal promise given upon the proposition and reciprocal promise of the Burgomasters and Schepens on the 11th inst, to wit, that the Director-General and Council shall provisionally and subject to the approval of the Lords-Directors cede and grant to the Burgomasters and Schepens the collection of the common excise on wine and beer, consumed within this City, provided that the Burgomasters and Schepens, according to their promise and instruction, furnish means for the maintenance of the public works in the City and the subsistence of the ecclesiastical and political officers [of the Company] and that the excise shall be publicly let to the highest bidder according to the custom of the Fatherland.

REMONSTRANCE OF THE MERCHANTS OF NEW AMSTERDAM AGAINST THE ORDINANCE FIXING THE
RATES OF IMPORT DUTIES, PASSED ON THE 19th OF NOVEMBER 1653.*

To the Noble, Very Worshipful, their Honors
the Director-General and Council of *New
Netherland*.

Noble, Very Worshipful Gentlemen.

Your Noble Worships have been pleased to publish on the 20th of this month of November an ordinance, containing regulations for the sale of and trade in goods imported here from the Fatherland or hereafter to be imported, similar to which an ordinance was passed and promulgated in September last. Your Noble Worships have also been pleased to call together on the same day some of the principal merchants and traders of this City of *New Amsterdam*, in order to communicate to them the aforesaid ordinance and recommend its execution. The said merchants deemed it then advisable to deliberate with others and to submit their opinion on this matter in writing to your Noble Worships, after having first communicated the same to the Hon^{ble} Burgomasters and Schepens, the lawful authority of this community. Thereupon the merchants and traders generally (with all the respect and obedience, which they all acknowledge to owe to their superiors and will at all times prove, when called upon in reason and justice) declare, that after having considered and examined among each others the matter they are of opinion, the said ordinances and regulations can be introduced and carried out here only with very great loss, damage and decrease of the commerce, which with submission should rather be animated and favored with liberal privileges and exemptions, than burdened and hampered with captious limitations. For as to the price fixed upon some goods, and the permission to ask 120 p. cent profit on others, upon which no price is set, from the purchasers, the said merchants believe that they cannot well do business in that way, as the great and sometimes excessive leakage of liquid goods and the perishable

* See Laws and Ordinances of *N. N.* page 149.

nature of dry goods has already notoriously caused and will always cause such losses to each of the merchants, that if they are compelled by the enforcement of the said ordinances (which they hope will not be done) to sell their stock accordingly, they would scarcely get a return of their first cost, much less a cent per cent profit. The heavy export and import duties paid here and in the Fatherland, the charges for convoy and direction, the heavy freight bills and premiums for assurance, interest on capital invested in merchandise added to the dangers of leakage and decay make the first cost of goods delivered here more than 70 or 80 p. ct. higher than abroad. The said merchants therefore respectfully request, that your Noble Worships will please to suspend the enforcement of the aforesaid ordinances, as they cannot conform to them without great loss to themselves or their principals and to allow them to sell according to the usages of the Fatherland and other countries, where commerce has a free course, their goods at such prices, as they think just and reasonable considering the conjunctures of the time, the first cost and expenses. In case of refusal they are, with due reverence, resolved, to keep their goods until the return of better times rather than to sell them at a loss or at least small profit. But as they understand and are informed, that the intention of your Noble Worships in and the motive for passing and publishing the aforesaid ordinances were principally, that the community and the burghers of this City might be properly supplied with such goods as they needed for the wants of their bodies, to wit socks, shoes, linen and such other necessary articles, they herewith unanimously declare, each for himself, that it is by no means their intention to overcharge any burgher or inhabitant in the sale of necessary clothing or to demand unfair prices, but that they will act towards them in the sale and delivery of goods like honest traders and good fellow-citizens, so that no one of the community shall have occasion to complain. Awaiting your Noble Worships

New Amsterdam

Novbr 22^d, 1653.

The Burgomasters and Schepens of *New Amsterdam* having seen the foregoing petition of the merchants of this city to the Director-General and Council, advise, before giving their opinion on it, to suspend a decision and delay an answer until they have had a conference with their Honors.

ANSWER TO THE FOREGOING BY THE DIRECTOR AND COUNCIL.

When last Friday the petitioners were summoned to appear in person before the Council, the Director-General and Council directed them to prove specifically the leakage and produce substantial reasons why they could not sell their goods for the prices fixed by the ordinance and whether 120 pct. above the first cost of necessary goods, little or not all subject to decay, was not sufficient at the present time. As no attention has been paid to this order in the present petition the Director-General and High Council direct the petitioners once more to show specifically and prove in regard to which goods they find themselves mostly injured and how they have mostly suffered from losses and leakages, also on what goods they cannot afford to charge an advance of 120 pct.

Thus done in Council, present the Hon^{ble} Director-General, Mr. *Nicasius de Sille*, Mr. *Werckhoven*, Mr. *La Montagne*, Fiscal *Cornelis van Tienhoven*, at *Fort New Amsterdam* in *New Netherland*, Novbr 25, 1653.

By order of the Director-General and High
Council.

Secretary.

JOURNAL OF THE PROCEEDINGS OF THE DELEGATES CALLED TOGETHER BY THE ORDER OF NOVBR
24, AT THE CITY HALL IN NEW AMSTERDAM.

On the 26th of November 1653 the following named delegates from the High Council of *New Netherland*, Mr. *J. La Montagne* and Mr. *Werckhoven* met at the City Hall with the delegates from the Board of Burgomasters and Schepens of this City of *New Amsterdam*, *Martin Krigier* and *Paulus Leendertsen van der Grift*, the delegates from the village of *Gravesend*, *George Baxter* and Sergeant *Huybert*, from the village of *Vlissingen*,* *John Hicks* and *Tobias Feeks*, from the village of *New Town*, Mr. *Coo* and *Gootman Hasert*.

Messrs. *La Montagne* and *Werckhoven* propose verbally and in writing, that the respective delegates should express their opinion how and by what means the robberies can be stopped.

1.

Ensign *George Baxter* and all the other English delegates asked, whom Mr. *Werckhoven* represented and upon his answer, that he was sent as a delegate from the High Council, they said, they would have nothing to do with him and did not acknowledge him as a member of the Council nor would they allow, that the Director-General or his deputy should preside, as he could not protect them.

2.

The English delegates sent a written reply to the Hon^{ble} Director-General of the following tenor, that, if the Director representing the Priv. W. I. Company will not protect us, we shall be

* Flushing.

compelled to prevent our ruin and destruction and it is therefore our opinion, that we need not pay to him any more taxes and duties, but they promised to remain faithful to the Lords States General and the Hon^{ble} Company offering the delegates from the Burgomasters and the Schepens of this City to enter into a firm alliance with them, to which the delegates gave no answer but left.

3.

The delegates of the City of *New Amsterdam* summoned before the Hon^{ble} Director-General reported to the Council the foregoing, to which his Honor said, the answer was a prompt one, but he had no objection that the Burgomasters and Schepens should make a union with them, only, as they could not out-vote them, he intended to grant at the next election a court of justice to the people of *Amesfoort*, *Breuckelen* and *Midwout*, so that at all future occasions there might be with the votes of *Fort Orange* and the others a sufficient number against them. In the afternoon the aforesaid delegates met again at the same place.

4.

C. van Werckhoven testifies, that he has heard and understood what was transacted verbally so far. } Messrs. *La Montagne* and *Werckhoven* submitted an answer in writing from the Hon^{ble} Director-General, wherein he expresses his willingness to protect his people according to his commission with the power and means, entrusted to him by God and his superiors, [which the English delegates said was not quite satisfactory, for *Jochem Pietersen*, *William Harch* and others have already been robbed and the Director-General has as yet done very little to protect others against these robberies, therefore we must defend ourselves, for if his Honor cannot deliver us from 16 or 17 men, what could he do against more].

La Montagne testifies to } The meeting resolved to assemble again on the morning of the next day, the correctness thus far. } with the exception of Messrs. *La Montagne* and *Werckhoven* and consider what should be done.

On the 27th of November at 9 o'clock A. M. all the aforesaid delegates met again with the exception of *Cornelis van Werckhoven* and *La Montagne*.

5.

The English delegates asked unanimously of *Martin Crigier* and *Paulus Leendertsen*, the delegates from the Burgomasters and Schepens of this City, whether they would live with them in peace like brothers and friends; they were answered "Yes, but no firm alliance could be made with them, before the Hon^{ble} Director-General, the High Council and all the adjacent districts and villages had not been informed of it." The English delegates answered, if the Burgomasters and Schepens would not join them and the Hon^{ble} Director does not protect them, they would form a union on *Long Island* among each others. The City delegates then replied, it would be better to write about it to the Lords-Directors and they promised that meanwhile they would keep them well-informed of and assist them against robbers and other disasters of that kind to the best of their abilities and live with them as their friends. But in regard to the letter to be written to the Lords-Directors the City's delegates requested to hear the advice of the villages of *Amesfoort*, *Breuckelen*, *Midwout* and on *Staten Island*, as at this season of the year, when the ships are ready to sail, they could not wait for the advice and opinion of the people at *Fort Orange*,

Rensselaerswyck and the *South river*. Hereupon it was unanimously resolved to come together again from the respective places on the 10th of December next in order to write to the Lords Directors and then the meeting separated.

Done this 27th of Novbr 1653, at *New Amsterdam* in *New Netherland*.

MARTIN CRIGIER,
P. L. VAN DER GRIFF.

RESOLUTION TO PUT UP THE SHIP "KING SALOMON" FOR FREIGHT HENCE TO FATHERLAND OR IF IT CANNOT BE OBTAINED HERE TO SEND HER TO VIRGINIA FOR TOBACCO.

Whereas the Noble Lords Directors of the Priv. W. I. Company have sent thither the ship "*Coninck Salomon*," *Cornelis Conradsen van Campen*, master, with directions and order to return the said ship speedily either with a good cargo from here to the best advantage and profit of the Company or in default thereof to send her to *Curacao* for a cargo of salt and wood,

Therefore the Director-General and Council on the information of several reports and letters, brought by skippers from *Virginia*, that there is a large quantity of tobacco in *Virginia*, which for want of ships cannot be exported and in consideration thereof, resolve for the service and advantage of the said Hon^{ble} Company, to put up the said ship here for freight of tobacco and other goods and thus to learn, what freight might be obtained here; if a full cargo cannot be had here let her make a voyage to *Smith's Island* on the North Cape of the *Bay of Virginia* near *Huacnacoco*, where it is said a sufficient quantity of tobacco lies ready for shipment and thence have her return here with God's help, where she may take in the engaged freight, which in the meantime has been made ready.

Thus done and resolved at the meeting held by the Director-General at *New Amsterdam* in *N. N.*, Novbr 28, 1653.

REMONSTRANCE OF A COMMITTEE OF MERCHANTS, CONTAINING EXPLANATIONS CALLED FOR ON THE 25th OF NOVEMBER.

To the Noble, Very Worshipful, their Honors the
Director-General and Council of *New Netherland*.

Noble Very Worshipful Gentlemen.

Whereas by your Hon^{ble} Worships' decision upon the request, made in the name and on behalf of the merchants and traders of this place on the 22^d inst., they were directed to specify and prove through which goods and merchandises they had suffered the greatest losses and how the most average and leakage had occurred, also which goods and merchandises they could not afford to sell here with an advance of 120 per cent. at the present time,

Therefore the said merchants and traders have empowered and deputed us, the subscribers to report to your Hon^{ble} Worships as we herewith do,

First, that a merchant is not well able to give specified proofs, how his goods have been

damaged and depreciated by leakage, decay, average or otherwise, for a too careful investigation and research would be required, which without creating great confusion in the trade cannot be made; but, we say it with due respect, the notoriety of excessive losses by leakage and otherwise should be sufficient to prevent the enforcement of such rules and limitations for the commerce, as your Hon^{ble} Worshipps have already been pleased to make and publish.

Second, even if the respective merchants had proved each in his line, through which goods the greatest loss had been incurred, then, we again say it with due respect, his proof should not have led to the establishment of rules, which are to be in force not only for the present and concern a few merchants, who have suffered losses, but also for the future and effect the merchants generally. For if they, who had lost more should have permission to sell their goods at a higher price, than they, who had lost less, a great confusion would be caused in the trade and the merchants would necessarily be made suspicious and uneasy in the expectation of being at all times and occasions examined concerning the sale of their goods. Besides, each merchant would have to be provided in this case with a special document and order, by which to govern himself and further such orders or rules are not in particular in any of the places under the jurisdiction their High: Might: the States General of the *United Netherlands*, but each merchant or salesman has a free disposition of his wares. Your Hon^{ble} Worshipps and the whole world know to how great a wealth and increase of commerce, and we persist therefore for ourselves and in behalf as above in repeating our former request, having resolved, in case of refusal, to hold the goods which we now have here and not to order any more, for we cannot believe, that to enforce the said ordinances will tend to the advantage of the country or city, to the benefit of the citizens and inhabitants or to the increase of commerce, but only to the benefit and enriching of those persons, who are already or may be authorized to carry out the rules.

REQUEST OF THE BURGOMASTERS AND SCHEPENS TO SUMMON DELEGATES FROM ALL THE DUTCH TOWNS AND VILLAGES.

To their Noble Worshipful Honors, the Director General and Council of *New Netherland*.

The present Burgomasters and Schepens of the City of *New Amsterdam*, show with due respect:

Whereas the report made by our delegates *Martin Crigier* and *Paulus Leendertsen van der Grift* to this Board concerning what the convention of the delegates from your Worshipful Honors, our Board and the English villages have finally resolved on the 27th of Novbr., the motives of which can be related to your Honors, namely, that on the 10th of next month delegates from all the English and Dutch towns and villages should meet, to report to the Noble Lords-Directors, as masters and patrons of this Province, the present state of the country here.

Therefore we, the Burgomasters and Schepens of this City fully comprehending the necessity of this step, make the friendly request to your Worshipful Honors to summon delegates from the

respective Dutch towns and settlements to appear on the said day and make such a remonstrance to the Lords-Directors for the peace and welfare of the country, as in their opinion they shall consider advised. In expectation of your Worshipful Honors' favorable decision etc.

REMARKS ON AND ANSWER TO THE FOREGOING REQUEST AND ENCLOSURES.

Forasmuch the Director-General and Council have as yet no reason to believe, but that the petitioners according to their repeated verbal declaration and earnest protestations have no other aim, than a due respect and obedience to the Hon^{ble} Company, as Lords and Patroons and to the authorities appointed by them, as well as a proper interest in the special welfare, peace and harmony of this country, community and city, the Director-General and Council have in consideration of these declarations and protestations given mature thought to their exhibit. Before however giving a definite answer on the main point the Director-General and Council feel in duty bound for their own justification and for the better information and instruction of the petitioners as well as for the maintenance of the Hon^{ble} Company's privileges and the authority of its officers to make some remarks on the enclosure dated Novbr 27, 1653 and signed *Martin Crigier* and *P. L. van der Grift*, with marginal notes by *Cornelis van Wreckhoven* and *LaMontagne*.

First, that the Ensign *George Baxter* and all the English delegates would not acknowledge Mr. *Wreckhoven* as delegate from the Director-General and Council. The reasons herefor should have been given, whether incompetence or misbehavior was alleged. That the said *Baxter* and the English delegates would not allow, that either the Director-General or his deputy should preside or have a vote: the Director-General and Council call upon the petitioners and every body else to consider, whether this does not border upon revolt, absolutely infringing upon and vilifying the supreme authority of the Director-General and Council under the commission given and entrusted to them by their High: Might: the Lords States-General and the Privileged *West India* Company.

As to the second point, that said *Baxter* and the English delegates say in a written proposition the Director-General representing the Priv. W. I. Company would not protect them the Director General and Council declare this to be a false, forged and base calumny and call upon the petitioners themselves to testify, whether the Director-General and Council have not three times with the assistance of faithful and loving subjects sent out yachts and soldiers against the robbers and had soldiers scour the country two or three times, for which purpose the leaders had been duly appointed.

In regard to the third it is true, that the delegates of the Director-General and Council* upon summons appeared and that after some debating the Director and Council verbally informed the said delegates, they were well satisfied and pleased that for the sake of peace the delegates from

* This should be "Burgomasters and Schepens," see above.

the City should continue to live with the English delegates from the adjacent villages in unity and harmony, giving the most liberal interpretation to the meaning of these words, but it was by no means the intention of the Director-General and Council, that subjects, bound to the authority of the Government by their oath and duty to allegiance and obedience, should be allowed to enter with each other into a defensive and offensive alliance without the knowledge or order of their Government and their Council, much less, that subjects should infringe the Governor's authority, vilify the commission received from our superiors, insult, by publicly refusing to acknowledge them, the deputies appointed by the Director-General and Council under the said commission and above all pass any resolutions without their knowledge, as the aforesaid exhibit proves to have been done on the 26th and 27th of November.

To the fourth point, that the English delegates declare unsatisfactory the written answer of the Director-General and Council, stating their readiness to protect their subjects with the means, given them by God and their superiors and therefore must defend themselves and consider themselves as not owing any duties to the Director-General—the Director and Council shall report the animus, expressed in these declarations, to the Lords-Patrooms and refer it to the judgment of impartial parties; while they say here only, that as *Ultra posse nemo obligatur*, the law of nature teaches us, force may be repelled by force and everybody has the right to defend and protect himself in a lawful manner: but their statement that *Jochem Pietersen*, *William Hareksen* and others have been robbed without anything having been done, the Director-General and Council declare to be false and calumnious for on account of these robberies of *Jochem Pietersen* and the theft of horses immediately after the return of the Director-General from *Fort Orange* three yachts under *Paulus Leendertsen* and a landforce of about 60 men under the command of Captain *Crigier* were sent out in pursuance of the resolutions and appointments passed and made for this purpose. If they add, that these persons cannot be protected, it must also be considered, that the said persons and many others, have, contrary to the general order of the Company and the warnings of the Director-General and Council, settled separately far from villages, hamlets or neighbors. Even if the Director-General and Council had or were to engage at the expense of the Company or of the Province of *New Netherland* hundreds of soldiers it would nevertheless be impossible to protect these separate settlers against robbers and thieves, who come either under the cloak of friendship or are not recognized and receive hospitable accommodations even by some English people, as the sufferers have stated. The Fatherland too is not without instances of such robberies, committed on separately living people, but really faithful and peaceful subjects have never taken that for an occasion to calumniate the Government of our Fatherland as unwilling or unable to protect them, much less pretended not to owe any duty to their duly appointed authorities, as the English delegates without hesitation say in the second and fourth paragraph of the annexed document.

Fifth. The answer given to the English by the delegates from this City, according to their own statements, on the 27th of November in regard to the proposed alliance and reported likewise in the signed declaration among the annexed documents is not so much disapproved of, as Burgomaster *Martin Crigier* and Schepen *Paulus Leendertsen* have verbally and in detail given the reasons and motives for it, earnestly protesting that it was given for the sake of peace and without intention to prejudice thereby the authority and reputation of the Lords-Patrooms or their officers or to advise and demand anything, which might lead to their own or other people's damage, disadvantage or prejudice.

Concerning further the request of the Burgomasters and Schepens, that the Director-General

and Council would consent to and approve of the summons of some people from the respective Dutch towns and villages, to meet with them the delegates from the adjacent English villages and then to draw up for the country's peace and welfare such a report to the Lords Patroons as shall be deemed necessary, the following order is made :

Order.

Although the Director-General and Council might adduce weighty reasons and have already yesterday at the meeting of the full Board verbally impressed them upon some of the Burgomasters and Schepens, why this fashion of gathering and individual remonstrations without consulting the Director-General and Council should be discountenanced and although they have had a painful experience of the jealousies, troubles and quarrels arising therefrom during the time of the late Director *Kieft* and also of the present Director-General, which are, God may better it, not yet laid by, yet, having no greater desire than the safety, welfare and progress of the country, the peace and harmony of all the inhabitants, without regard to nationality, among each other and in order to prevent a charge being made before God and the Lords-Patroons of too great precision in enforcing their authority, orders and instructions,

The Director-General and Council direct upon the request of the Burgomasters and Schepens, that in presence of deputies of the High Council they may with delegates of the respective colonies and districts in *New Netherland*, authorized thereto and properly instructed by their constituencies, after due consideration of the country's present dangerous situation draw up a remonstrance, addressed to the Lords-Patroons, concerning the country's needs and circumstances, save that the resolutions and acts adopted by the last provisional General Assembly to the shame of its members, shall not be prejudiced nor infringed upon except by unanimous consent.

We, the undersigned, delegated by the Director-General and Council to hear the advice of the delegates from this City and the English villages, how and by what means the English robbers and pirates might be attacked and further robberies prevented, declare herewith to have had no knowledge of, much less consented to a separate remonstrance, as the above request expresses it, because having been refused on the 26th, we were not called on the 27th, nor were we present at the meeting. Date as above.

LETTER FROM THE MAGISTRATES OF NEW AMSTERDAM TO THE DIRECTOR AND COUNCIL IN ANSWER TO THE FOREGOING RESOLUTION.

To the Very Worshipful Honorable *Petrus Stuyvesant*, Director-General and the Honorable High Council of *New Netherland*.

The Burgomasters and Schepens of this City together with the respective delegates from the villages of *Gravesend, Vlissingen, Middleburgh, Heemsteede, Amesfoort, Breuckelen* and *Midwout* have seen the answer of the Hon^{ble} Director-General and Council to the remonstrance delivered yesterday to the Hon^{ble} Director-General, asking that on account of some obscure or badly translated passages in the remonstrance a copy thereof be given to each member of the Council. The said Assembly replies thereto, that they have submitted the original, of which his Honor the Director-General may give copies to the Council if he pleases and they request once more to know whether the Hon^{ble} Director-General and High Council will condescend to give a definite answer

upon each point or not, for the delegates are here at great expenses and wish to know, how to govern themselves. In expectation of your Hon^{ble} Worships' speedy answer we remain

RESOLUTION OF THE COUNCIL, DECLARING THE ASSEMBLY ILLEGAL, PROTESTING AGAINST IT AND ORDERING IT TO DISPERSE.

The Director-General and Council are ignorant of any delegates from the respective villages, the more as *Milwout*, *Amesfoort* and *Breucklen* have no court or jurisdiction and consequently no authority to send delegates. As to the other villages, the Director-General and Council declare the present gathering illegal, for it annulled and acted contrary to the resolutions passed by the provisional Assembly as well as the order and decision made by the Director-General and Council at the request of the Burgomasters and Schepens on the 3^d inst. The Director-General and Council find themselves therefore compelled for the protection of the rights of the Lords-Patrooms and their deputies to protest against the present gathering, as they herewith do. As to the remonstrance itself, the Director-General and Council do not know, whether the original or a copy thereof have been submitted to them; the document shows and proves, that it is a translation and the Director-General and Council further state, that they do not feel bound to give a definitive answer to a private and obscurely styled remonstrance of a few unqualified delegates assuming the rights and privileges of the whole.

The Director-General and Council therefore charge and order the aforesaid so-called delegates not to address either them or anybody else under such name and title; but if the Burgomasters and Schepens of this City or the Magistrates and delegates of the villages have each for their respective places to make remonstrances or requests, then they shall notify thereof the Director-General and Council, who will give them an answer and such satisfaction, as the circumstances and the case may require.

The Director-General and Council direct the Fiscal to communicate this resolution to the petitioners, that they may not plead ignorance.

DEDUCTIONS MADE BY THE DIRECTOR-GENERAL AND COUNCIL REGARDING THE REMONSTRANCE OF THE 11th OF DECEMBER SIGNED BY THE BURGOMASTERS AND SCHEPENS OF THIS CITY AND SOME ENGLISHMEN.

The first word "translation" presupposes, that the document was originally drawn up in another language, which is confirmed by the style and tenor. The cleverness of Burgomasters and Schepens may be inferred herefrom, when a stranger or Englishman must prescribe, what they should remonstrate and demand.

In the preamble the remonstrants ignore the Lords-Directors, but seemingly correct this oversight afterwards, when they say, they acknowledge them as their masters and patrons. How far they do this, may be gathered from what follows.

The superscription "Humble Remonstrance of the Colonies and Villages in this *New Netherland* Province" has been very improperly used in such general terms. The first and oldest Colony, *Manhattan Island*, reserved as a Colony for the Lords-Directors, the Colonies of *Rensselaerswyck* and of *Staten-Island*, the districts of *Beverwyck* and the *Southriver* have no knowledge of such a remonstrance and must be considered too cautious, than to sign, what an Englishman projects, as if no head among the *Netherlands* people was clever or capable enough, to draw up a request to the Director-General and Council.

In the preamble they acknowledge "*a paternal Government, which God and Nature have established.*" What the remonstrants or signers mean to say herewith, the Director-General and Council do not know and it is doubtful whether the projector *George Baxter* himself understands it. But leaving the preamble *pro ut jacet*, they continue "*we conceive our privileges to be the same, consistent with those of the Netherlands, being a member of that state not a conquered country.*" We will leave it to the judgment of your Hon^{ble} Worship and impartial parties, whether the remonstrants do not go too far herein; if it were so, then they could undoubtedly claim the privilege of the other Provinces and Cities of *Netherland* to send deputies to the sessions of their High: Might: and other assemblies. They themselves however contradict this proposition immediately in the following, where they truthfully state, that "*they had settled here under a mutual covenant and contract between themselves and the Lords-Patroons*"; if the remonstrants live up to it and carry it out, as behooves good subjects, then no differences or questions shall arise.

By adding "*with the consent of the natives, from whom we purchased the soil with our own money, etc.*" they state an absolute untruth. Not one of all the signers can say, much less prove, that he has bought or paid for a foot of land of the natives according to the orders and directions of the Lords-Directors and subsequent ordinances, published by the Director-General and Council. Nor can any private party purchase land from the natives without the consent of the Director-General and Council.

"*Expecting enlargement thereof,*" namely of the privileges. It ought to be remembered, that the Englishmen, who are the authors of and leaders in these innovations, enjoy more privileges, than the Exemptions of *New-Netherland* grant to any Hollander.

Observe, that here again the remonstrants absolutely ignore the Lords-Directors as their masters and patrons and forget the contract made with them: they pretend to be one body with *Netherland* under the administration of their High: Might: rejecting all laws and orders not emanating from their High: Might:.

The following are the points:

The Director-General and Council do not know, what the remonstrants mean by an "*arbitrary*

Government" and having called before them the Burgomasters and Schepens and the greater part of the signers and asked them, what they understood by an "*arbitrary Government*," they received no answer, much less could it be stated by them, that the present Government in charge here was arbitrary or absolute and why "*it is contrary to the first intentions and genuine principles of every well regulated country*." Supposing the present administration to be arbitrary, as they apprehend, the remonstrants have no cause either to vilify and fear or to accuse on that account the Government and the Lords-Directors, for they have themselves admitted, as stated above, that by their mutual covenant and contract they voluntarily submitted to such a Government, promising under oath to acknowledge and obey it. They must prove, that it is different and more arbitrary now, than at the time of Mr. *Kieft*, when the English remonstrants came here; they must also prove, that by virtue of any law or laws made by the present administration contrary to the laws of our Fatherland, anybody has suffered in regard to his property or body. The Director-General and Council believe, that by virtue of their commission it is their duty, to make laws, that is ordinances and rules, regarding police, commerce, military and the preservation of the country, suitable to the circumstances of this Province, and that the remonstrants as subjects are bound to obey them. *Bad morals produce good laws*, says the proverb; hence it is not the desire, self-complacency, and pleasure to rule of the Director-General and Council, but the disorders, bad will and disposition of many of the subjects, which cause the issuing of new laws; but the Director-General and Council are not aware of having made laws contrary to the laws of our Fatherland. Besides it is well known as a matter of fact, that ordinances and rules concerning the whole country have always been made with the advice and approval of duly qualified delegates from the country. The privileges enjoyed by the English remonstrants may be learned from their altogether too liberal patent, which they make to cover more, than its contents allow. The authority of the Burgomasters and Schepens is defined in their Instructions and the privileges of the other signers are stated in their deeds.

The second point.

God may grant, that the English and some of the Dutch may not give occasion to a new fearful war with the natives, either by showing too much fear of them or by cheating them or by making them believe among others stories about the price of a morgen of land among the English and Dutch, from which the natives then draw the conclusion, that they formerly sold their land too cheap and show dissatisfaction, pretending not to have received full value. But the positive assertion and allegation of the remonstrants that murders had been committed by the savages under pretense of not having been paid for their land, is made entirely without foundation and in bad faith. In case the remonstrants were inclined to make a truthful statement about this matter or to investigate it, they would find, that the three murders lately committed on *Staten-Island* by the savages have been perpetrated for the reason, that *Melyn* is a sorcerer, as the natives say, that he has poisoned them, sold bad powder and arms to them and so forth, that therefore the Indians from the South had all sworn to kill him and all the people on *Staten-Island*. If we take the assertion of the remonstrants, that the murders had been committed under the pretext of not having been paid for the land, and compare it with their statement in the preamble, that they themselves had bought the land from the savages, then we must ask, have they, as purchasers, remained in default with the payment and have they by such nonpayment given cause for this pretext.

To consider how and by what means to protect the inhabitants against such murders by the savages and the robberies by English pirates, was the purpose of the Director-General in calling

together some English delegates, but by giving no answer upon the latter point and refusing to acknowledge the authority of the deputies from the High Council the English sufficiently showed, that they were not inclined to do anything against their own nation or the authority of Parliament for their protection by lawful means. It is not necessary to go further into this.

The third point.

The English do not only enjoy the right of nominating their own Magistrates, but some of them also usurp the election and appointment of such Magistrates, as they please, without regard to their religion. Some, especially the people of *Gravesend*, elect libertines and Anabaptists, which is decidedly against the laws of the *Netherlands*.

The Magistrates of *New Amsterdam*, only elected and appointed last year and not yet fully a year in office, have for the present not the right of nomination, the same having been withheld by the Director-General and Council for good and sufficient reasons, until the Lords-Directors shall have given orders to the contrary. The Director-General and Council hope to give the Patroons in due time good and satisfactory reasons, why they withheld the right of choice and nomination. But if it is to be made a rule, that the selection and nomination shall be left to the people generally, whom it most concerns, then every one would want for Magistrate a man of his own stamp, for instance a thief would choose for Magistrate a thief and a dishonest man, a drunkard, a smuggler etc their likes, in order to commit felonies and frauds with so much more freedom. Besides it is untrue, that any Magistrates have been appointed against the laws of *Netherland* or against the wish of the people. This point therefore requires to be proved. The Magistrates of *New Amsterdam*, before being installed and taking the oath in the presence of the Director-General, were each by name and surname and by his office proclaimed from the front of the Council Chamber and the community was called upon to express their objections. The same is usually done by the Director-General and Council at the installation of other, military officers, if a Captain, Lieutenant or Ensign, before the whole Company, if a Sergeant or subordinate officer before the section. Therefore what the remonstrants allege on this point is brought forward abusively and in bad faith.

It appears very strange, that the remonstrants endeavor to deprive the Lords-Directors, being the absolute masters and owners of this Province, of the right, that every Lord and Patroon in the Fatherland exercises on his manor and the smaller Patroons in this country pretend and usurp for their colonies, namely the right of appointing their own Sheriffs, Secretaries, Clerks and Delegates, as is done for instance in the Colony of *Rensselaerswyck* or *Staten Island* and even in the village of *Gravesend*.

The fourth point.

Whether the ordinances, rules and orders heretofore made by the Director-General and Council ought to be in force, the English remonstrants may learn from their patents, the Burgomasters and Schepens from their Instructions, directing them to maintain and observe, according to their promise under oath, all ordinances of the Director-General and Council. Besides they and all new comers are by their covenant and contract with the Directors compelled and bound to obey the Director-General and Council as representatives of the Company and to submit to all orders and laws already made or hereafter to be made, as the groundbriefs expressly stipulate it.

The fifth point.

The fifth point is denied absolutely. The contrary is proved by an ordinance passed by the Director-General and Council last year with the knowledge of the Lords-Directors, by which the inhabitants are expressly admonished and warned not to buy lands from the natives nor to settle

thereon without a conveyance and deed from the Director-General and Council, and if somebody was in possession of such land, he was to ask for and obtain a deed within half a year under penalty of forfeiting his claim. Concerning this matter the signers and remonstrants from *Amersfoort*, viz. *Elbert Elbertsen* and *Thomas Spyser* must be charged with wilful calumny, for they have usurped their lands for several years back without having a conveyance or title deed and continue their illegal possession without paying tithes, although they and some others in the same village have held the land for 15 or 20 years.

It is not true, that general patents had been promised to the inhabitants of *Middleburgh* and *Milwout*. The contrary can be proved by living witnesses and by the written conditions, now deposited in the Secretary's office under which lands were allotted and taken possession of in the said village. If they have not their individual title deeds, they may come and call for them; they will not be carried home to anybody.

The sixth point.

"Quantities of land have been given away to some person or persons" in the form of Colonies: to *Baron Nederhorst, van Rensselaer, van der Capelle, Werkhoven, de Hutter, Melyn* and others. The Director-General and Council do not know, whom the remonstrants mean by "some person or persons," as nothing has been granted except upon the order or with the consent of our Lords-Directors, who, we think, are not bound to explain their reasons to their subjects. If these lands are not populated and improved by the said patentees in conformity with the granted exemptions, then it depends upon the discretion of the Lords-Directors to dispose of them as they please. In this case the remonstrants forget to consider their own position and to reflect that *Hensteede, Vlissingen* and *Gravesend* claim a much larger territory, which they leave uncultivated and unsettled to the prejudice of the common property or the little of it, which they have improved during the last ten years. Now that the time is at hand for collecting the Company's dues, they throw, as the proverb says, a cat into the yarn. It is clearly evident from their pretensions and round-about answer not to owe any duties to the Company, because the Directors could not or would not protect them, that they propose a union with some malignant opponents and project a new form of Government, as may be seen by the report of the Burgomasters and Schepens. The same tendency is clearly manifested by their remonstrance and time will show what else is concealed under it. It seems wonderfully strange, that the Burgomasters and Schepens of this City should at this precarious time join in a plot with a nation, which they and everybody else suspect and which only a short time ago they called untrustworthy, which had no good intentions and if anything happened would immediately declare itself for the North and to which other still more villainous deeds were imputed passed over for briefness' sake and we close with the words: *Quid magis mutabile vulgo*.

What they say in conclusion requires an explanation. Satisfaction to the country can neither be demanded nor given, unless it is proved, that the country in general or the inhabitants in particular have suffered, and secret claims and losses cannot be adjusted as long as they remain secret.

RESOLUTION APPOINTING MR. LA MONTAGNE TO COMMAND AN EXPEDITION AGAINST PRIVATEERS,
HOVERING ABOUT FLUSHING, L. I.

Whereas new reports have been brought in and complaints made by inhabitants of this Province, that the English pirates *Baxter* and others have returned to the waters of this jurisdiction and hover around *Flushing* or thereabout on *Long Island* and

Whereas it is to be feared, that as before these pirates or robbers may commit some hostilities either by water or on land against the persons or the property of the inhabitants of this Province,

Therefore, wishing to protect their subjects, according to their official oath and duty, with the power and means entrusted to them by God and their superior authority,

The Director-General and Council have resolved to appoint and authorize the Hon^{ble} Mr. *Jean de La Montagne*, Councillor of *New-Netherland*, as they herewith appoint and authorize him to pursue, attack and capture the said pirates, how and whenever he may be able to do it, by water or on land, giving him further power and authority to join to himself and command thereto for this purpose from the officers of this Company or the free inhabitants all such persons as he believes suitable and fit for the expedition.

PETITION OF THE CONVENTION FOR AN ANSWER TO THEIR REMONSTRANCE.

To the Noble Honorable Director-General
and Council of *New-Netherland*.

On the 11th of this month the Delegates from the respective villages of *Gravesend*, *Vlissingen*, *Middleburgh*, *Heemsteede*, *Amersfoort*, *Breuckelen* and *Midwout* and the deputies of the Burgomasters and Schepens of this City, convened at the City Hall submitted to your Hon^{ble} Workshops a Remonstrance and Request, to which they received the following day as answer a demand for copies, that a well considered reply might be given. The said Convention made on the same day an answer in writing, whereupon the Hon^{ble} Director-General and Council were pleased, instead of giving a decision upon their request, to charge the Convention with illegality, because of a pretended lack of jurisdiction of the villages of *Midwout*, *Amersfoort* and *Breuckelen*, which in consequence could not send properly qualified delegates; and to protest against the Convention. This appears strange, for the said villages were written to by the Burgomasters and Schepens *only* with the knowledge and consent of the Hon^{ble} Director-General and Council; besides their Convention had no other aim, than the service and protection of the country, the maintenance and preservation of the freedoms, privileges and property of its inhabitants, but not an unlawful usurpation of the authority of the said Hon^{ble} Director-General and Council; on the contrary their intention was to prevent illegal proceedings, while the laws of Nature give to all men the right to gather for the welfare and protection of their freedom and property.

The Delegates, convened as above stated, respectfully request with the Burgomasters and Schepens, that your Hon^{ble} Workshops will please after having declared lawful the aforesaid Convention, to answer the points submitted in their Remonstrance, while they are willing to admit with due respect to their meetings and allow to share in and advise upon all business, which may come up, all such persons as your Hon^{ble} Workshops may decide to depute.

In case of refusal, which they hope will not be given, they would find themselves compelled to protest against your Hon^{ble} Worships for all the inconveniences, which have befallen or may befall the country in general or particular and they intend to apply to their High: Might: the Lords States-General as their Sovereigns and to the Priv. W. I. Company as their Patroons in order to submit to them a Remonstrance on such matters, as they believe are required for the service and the welfare of the country.

PEREMPTORY ORDER TO THE SEVERAL DELEGATES OF THE CONVENTION TO DISPERSE AND NOT TO MEET AGAIN UNDER PAIN OF ARBITRARY CORRECTION.

The remonstrants are once more and now for the last time referred to the former answer and the express order given by the Director-General and Council and delivered and communicated to the remonstrants by the Fiscal, not to address the Director-General and Council any more under the name and style of "General Assembly" or Delegates of the Land, for the pretended Convention is not only charged, but actually declared to be illegal, as it has not been convened either by order or with consent of the Director-General and Council.

We, the Director-General and Council, therefore order you, *Arent van Hattem, Martin Crigier, P. L. van der Grift, Wilh. Beeckman, Peter Wolfertsen, George Baxter, Robert Coö, Elbert Elbertsen, Thomas Hassard, John Hicks, Thomas Spicer, Paulus van der Beeq, Frederick Lubbertsen, Thomas Swartwout, Jas. Hubbard, John Stryker, Tobias Feaks* not to assemble any more in such a form and manner, but to separate on sight hereof under pain of our extreme displeasure and arbitrary correction.

COUNCIL MINUTES. CONSIDERATION OF THE LAST REQUEST MADE BY THE SO-CALLED DELEGATES
ON THE 13th OF DECEMBER 1653.

The Director-General and Council consider, that their last reply and order of yesterday, communicated to the remonstrants by the Fiscal, has been quite sufficient and should have been obeyed by them as it behooves good subjects and that they should not have submitted another address under the name and style of "Convention." But as the remonstrants have nevertheless deemed it advisable, to make another request, to the abusive and false statements of which the Director-General and Council are compelled to answer, they first understand it to be their duty not to excuse anybody, but to judge. Therefore they have declared the gathering illegal, not only because the settlements of *Breucklen*, *Midwout* and *Amersfoort* had no jurisdiction, as the remonstrants abusively allege, but also because the Director-General and Council have declared and do declare the present gathering unlawful and nothing but a conventicle for having assumed the name of *Delegates from the Province of New Netherland*, which they are not, as has been said before, and for not having been called together or convened by the Director-General and Council. By virtue of their commission they assert, that nobody in this country is authorized to convene a General Assembly, except they, who represent their High: Might: and the Noble Lords-Directors.

Not less abusive is what the remonstrants add, that the aforesaid villages have been invited by the Burgomasters and Schepens with the knowledge of the Director-General. That may be, but it was certainly not done with his consent and approval. In the same sense the present conventicle has assembled with the knowledge of the Director-General and Council, because the Burgomasters and Schepens and the English delegates from the villages of *Gravesend*, *Middleburgh* and *Vlissingen*, having met at the house of *Pieter Wolfertsen*, on the 27th of November last, Burgomaster *Crigier* and Ensign *George Baxter* invited the Director-General and some members of the Council to a luncheon, when the Burgomasters, Schepens and English Delegates by their mouthpiece or speaker announced in the most insulting manner possible to the Director-General and Councillors present, that on the 10th day of the next month they would come together, the Director might do what he pleases and prevent what he could. If this is called *previous knowledge*, then indeed the delegates from the aforesaid villages have been summoned by the Burgomasters and Schepens with the knowledge of the Director-General and Council, who however assert that it is the duty of the Hon^{ble} Director-General as president and not of the Burgomasters and Schepens to convoke a General Assembly and to summons delegates from the respective Colonies and villages.

The point, *that the law of Nature gives to all men the right to gather for the welfare and protection of their freedom*, requires proof or rather explanation. The Director-General and Council think, that the authorities are appointed for these purposes, but not all men generally, for that would create confusion. The Lords-Directors resolved for this reason with the knowledge and consent of their High: Might: to appoint the Director-General and Council, giving them ample authority for the preservation and protection of the privileges, freedom and property of the Company and the good inhabitants and if necessary for the convocation of an Assembly of their subjects, but this authority was not conferred on the Burgomasters and Schepens, much less to *all men*. If any of the remonstrants believes himself personally or his Colony or village injured or damaged concerning privileges, freedom or property, upon a decent remonstrance and proper evidence thereof the Director-General and Council are bound and willing to maintain to the best of their ability and knowledge everybody in his property, rights, privileges and exemptions. But

the Director-General and Council are obliged to oppose such manners and ways of assembling and such injuries, insults and affronts offered to the Government and to mete out punishment to the authors and leaders thereof in due time, unless a satisfactory reparation be made.

As to the request itself "*the Delegates,*" etc.

The answer is, that for the reasons, stated above repeatedly the Director-General and Council cannot declare the pretended Assembly to be lawful nor can they further reply in detail to a remonstrance submitted in this manner.

That the remonstrants then add, "*they are willing to admit* with due respect to their meetings and allow *to share in* and advise upon all business, which *may come up, all such persons etc.,*" and further continuing with a threat of intending *to protest in case of refusal against all etc* shows an *animus* creating great misgivings in the minds of the Director-General and Council, but they shall leave that for the present to God and their superiors. They only say, that they are better informed concerning their authority, commission and instructions, than the remonstrants and that they also believe not to require the good will or the permission of subjects, how, when and under what circumstances to appear in any Assembly, for they are *pro tempore* authorized and qualified by God and their sovereign government, to propose and to direct all public business conform to their commission and instructions, but not to assist at and advise upon the affairs of a self-created, unlawful gathering.

In conclusion the Director-General and Council prevent nobody to write to our Sovereigns or to the Noble Lords-Directors, as long as he keeps within the bounds of due respect and truth, but they think the remonstrants have no authority to write as Representatives of this Province and therefore the remonstrants are once more and for the last time referred to the last decision and commanded to hold no more meetings.

LETTER FROM THE DIRECTOR-GENERAL TO THE INHABITANTS OF BROOKLYN, NEWTOWN AND FLATBUSH, INFORMING THEM THAT THE ENGLISH PRIVATEERS ARE AGAIN HOVERING ABOUT AND WARNING THEM NOT TO SEND DELEGATES TO ANY MEETING AT NEW AMSTERDAM.

Copy of an open letter with which the Secretary was sent to *Breuckelen, Amersfoort* and *Midwout*, to read it to the inhabitants there.

Dear and good friends: We find it necessary to inform you, that we received last night news of *Baxter's* and some privateers intending again some expedition or the other. We have consequently been out with some soldiers during the night and have found the farmers around here in good order and on their guard. We recommend the same to you.

We are further informed, that the Burgomasters and Schepens of this City have in our name invited delegates from your villages and told you that it had been done with our consent and approval. We declare hereby, that it was not so and therefore require and direct you not to allow such delegates to convene again or come here, especially during this crisis, because it can only be

to your disadvantage and injury. We have deemed it advisable, to inform you hereof by our Secretary and remain in the meantime

COMMISSION OF REV. SAMUEL DRIESIUS AS DIPLOMATIC AGENT TO BE SENT TO VIRGINIA.

Petrus Stuyvesant, on behalf of their Noble High Mightinesses the Lords-States-General of the *United Netherlands* and the Noble Lords-Directors of the Privileged West India Company Director-General of *New Netherland, Curaçao, Bonayro, Aruba* and dependencies with the High Council,

To all who may read this or hear it read Greeting :

Know ye, that for the purpose of promoting a general peace and the welfare of both nations we have in May last past deputed, commissioned and sent our extraordinary agents, the Hon^{ble} *Cornelis van Tienhoven*, Councillor and Fiscal of *New Netherland* and *Arent van Hattem*, Burgomaster of this City, to the Very Honorable *Richard Bennett*, Governor and Captain General of *Virginia* and his Council of State, in order to covenant and conclude with them a close and firm alliance, correspondence and commerce between their and this our Government without regard to the undesired and unexpected bloody differences, arisen to our great regret between their and our nation in Europe, as their commissions and credentials have further informed the said Honorable Governor and Council. However the said Honorable Governor and the Council of State in *Virginia* found themselves at that time unauthorized, to give a conclusive answer to the propositions made by our then agents, before they, as they honestly and frankly stated in their reply, had first submitted them to and advised thereupon with their superiors, the Government of England, which they intended and agreed to do by the first opportunity. If this has been done agreeably to their sincere intention, we trust, that the said Honorable Governor and Council of State shall have received some time ago an answer from their superiors or may be in daily expectation of it.

Therefore the Director-General and Council of *New Netherland* have resolved, for the promotion of so laudable an object as the continuation of peace, increase of commerce and cultivation of correspondence between such old friends, neighbors and co-religionists living in such distant countries, to send once more an authorized and suitable person thither, to remind the said Honorable Governor and Council of *Virginia* of our former good intentions, which we still have and our propositions and to learn their reply. We have hereto requested, also authorized and commissioned the Reverend and Very Learned Mr. *Samuel Driesius*, Minister of the Gospel in the City of *New Amsterdam* and fully relying upon his ability, wisdom and experience we have directed him, as by this our open letter and commission we direct and empower him, to go to *Virginia* and address himself there to the said Honorable Governor *Richard Bennett* and his Council in order to receive in his quality as our ambassador from the said Governor and Council an answer to our former propositions and to learn what reply was given by their superiors

upon the matter submitted. If the said Honorable Governor and Council should not yet have received it, then he is to propose and ask for a provisional continuation of the commerce and intercourse between the two places, a free pass or safeguard signed by the Hon^{ble} Governor for some of our merchants and their yachts, to pay and collect debts among inhabitants of *Virginia*, as we on our side have given and are still willing to give passes to come and go to the ships and yachts coming to us from *Virginia*. All this to be only provisionally, until on either side we shall have received orders to the contrary from our superiors and countermanded the provisional passes, of which such ships and yachts might be informed six or eight days before hand, that thus private losses, general injury and further differences between nation and nation might be prevented. If this cannot be obtained, then he shall ask for a free pass for one ship to bring back our envoy free and unmolested by the Parliament ships.

We further promise by this our open letter and commission to ratify and carry out all that may be covenanted and concluded in this matter between the said Honorable Governor, his Council and our present envoy Domine *Samuel Drisius*.

ANSWER OF THE DIRECTOR-GENERAL AND COUNCIL TO THE REMONSTRANCE OF THE MERCHANTS'
COMMITTEE OF NOVEMBER 28th CONCERNING THE NEW TRADE-REGULATIONS.

The supplicants might justly be referred to the former decisions given by the Director-General and Council to their first request of the 22^d of November 1653 and pursuant to its tenor once more be directed, to show cause, why 100 to 120 pct are not sufficient advance upon goods and merchandises imported here from the Fatherland, agreeably to the published orders, considered and made not only by the Director-General and Council alone, but also by the Deputies of the respective Dutch Colonies and districts of this Province, without whose knowledge and advice the orders and rules cannot nor ought to be countermanded or annulled. But in consideration of the present juncture the Director-General and Council have ordered their Fiscal to use all possible moderation, until the aforesaid order has been communicated to the Lords-Directors and their ratification thereof has been obtained or until the Director-General and Council with the said Deputies of the respective Dutch Colonies and districts shall have given other directions and the matter has been further considered.

ORDINANCE RELATING TO MARRIAGES.

(See Laws and Ordinances of *New Netherland*, p. 152).LETTER FROM PETRUS STUYVESANT AND THE COUNCIL TO THE MAGISTRATES OF GRAVESEND WITH
THE ABOVE ORDINANCE.

Worthy and dear friends.

I received in due time your letter of the 13th inst. sent to me by the Fiscal, which has been communicated to the High Council. We have been very much astonished, that you arrogate to yourself the publication of marriage-proclamations within your village without our or the Council's knowledge, in cases where both parties live beyond the jurisdiction of your village. As to the allegation, made by you, that the person is a freeman of your village, he is the same in the City of *Amsterdam* and here in this City and for this reason must the marriage-proclamation be reported and published here as well as there according to the customs of our Fatherland. We do not deny, that matrimony is ruled by divine and by human laws, but they who enter upon this state must do it according to these divine and human laws, with the consent or knowledge of their parents, tutors or guardians and then notify thereof the Commissary, appointed by higher authority, at the place where they reside or where they have previously been living during the last year. Your final request, that we should send you a copy of the order and power of attorney, which his father has given us concerning this son, is not complied with, as we do not think ourselves bound to do it, considering yours being a subordinate jurisdiction and subject to us; besides the father would be displeased and it would be unreasonable in us, to communicate to others, what an honest and prominent man has written to us in a detailed letter.

Thus much in answer to your open letter. This further serves as cover of the enclosed order and resolution made by us and the Council, which you must promptly obey, not because we wish to prevent the marriage, but that according to divine and human laws and ordinances they may be put in practice, proclaimed and affixed, at the proper place and without infraction of anybody's rights.*

Relying thereupon we commend you with cordial greetings to God's protection and remain
New Amsterdam,
January 20, 1654.

Your well-affected friend and Governor

P. STUYVESANT.

* A majority of the early settlers of *New York* hailing from *Guelderland*, the laws of that Province in regard to marriages naturally prevailed. In *Guelderland* a marriage was void, if the express consent of the father, or if dead of the mother had not been obtained for the marriage of a son. With regard to daughters the law was still more rigorous; even a marriage, entered into by a girl with parental consent, did not emancipate her from parental authority, if she was still under age at her husband's death: she had to place herself again under the guardianship of her father or mother. Neither were parents obliged to give before a Court of Justice any reasons in case they refused consent. This law had its foundation in the *Codex Justinianus*.—B. F.

ANNO 1654. JANUARY 28th AT NEW AMSTERDAM.

The Director-General and Council have taken into consideration the request of the Burgomasters and Schepens and for weighty reasons have resolved and decided, to refuse and delay the application concerning the nomination and to continue in office the present Burgomasters and Schepens for the sake of peace and harmony during another year and only to appoint to the vacant positions two other honest and capable men, having selected for this purpose *Jochem Pietersen Kuyter* and *Oloff Stevensen Cortlandt*.

As to the other request, taking in consideration the troubles and anxieties with the loss of time and private expenses of the Burgomasters and Schepens, in their official positions, being mostly men who have to provide for their families either by trade, agriculture or manual labor, the Director-General and Council consent to it and agree, that the Burgomasters shall henceforth draw, according to their petition, from the City's revenues and have as salary the sum of three hundred and fifty guilders annually and the Schepens two hundred and fifty guilders.

SOLEMNIZATION OF MARRIAGES.

The Director-General and Council of *New Netherland* to all who shall see this Greeting.

Know ye, that they have commissioned, authorized and directed, as they herewith commission, authorize and direct the sworn Court messenger *Klaes van Elsandt*, the elder, to proceed on receipt hereof to the village of *Gravesend* and to insinuate to and inform the Magistrates there, that they must not undertake to publish and affix any marriage proclamation or bans, much less confirm any marriage among persons, of whom the man or the woman, groom or bride, are not residents or have not lived within the jurisdiction of their village during the last year, unless there has been first exhibited to them a proof or document, signed either by a Magistrate or a beadle or a Commissary thereto qualified by the Supreme Government, that such persons have conformed to the laws, ordinances and rules of *Netherland*, which must be observed here and have had their intention proclaimed without interference during three consecutive weeks at the place, where both or one of them are residents or have lived during the last year. If the said Magistrates should continue to act contrary to this insinuation and our former express prohibition and contrary to all general and special edicts, ordinances and rules prescribed by the civil laws of our Fatherland as well as by Imperial statutes, then the Director-General and Council declare for the present such a manner of marrying unlawful, as contrary to all civil and political laws and ordinances, in force here, in our Fatherland and among all our Christian neighbors.

LETTER FROM THE DIRECTOR AND COUNCIL TO THE MAGISTRATES OF GRAVESEND SENT WITH THE
FOREGOING ORDER.

Worthy Friends.

On the 19th of January we made a certain order and resolution and in the shape of a mandamns sent it to you with a letter from the Director-General by a private party; in consequence we do not know, whether the order contained in our aforesaid resolution has been obeyed and carried out pursuant to its good intentions and purport. According to the verbal reports of people specially interested therein and judging from your last letter of the 22^d of January, directed to the Hon^{ble} Director-General personally in answer to his letter, you seem not to have well understood our meaning and intention and on that account not to feel bound nor inclined to carry it out, because in your opinion it is contrary to your patent and privileges, an infraction of which we by no means intend.

We have therefore concluded to send you by an officer, namely our sworn Courtmessenger, our further resolution and insinuation, renewing the former and instructing you, how to publish marriage proclamations of persons, of whom one or both are residents of and have lived during the last year in another place, village or jurisdiction. It is contrary to and offends all political and civil laws, not only of *Netherland* and other adjoining countries and provinces, but also against all customs and usages of this province and even of *New England*, who all unanimously agree and concur, that they who desire to enter the state of matrimony must give notice of their bans and proclaim their intended marriage and have them published on three consecutive days of prayer or of court-session, not in another jurisdiction, but in the jurisdiction, place or village, where they both are residents and have lived the last year, and if the persons desiring the publication of their bans are residents of different villages, places or districts, such bans must be published in both places and a proof or evidence of no lawful let or hindrance existing must be produced to the Magistrates or beables at the place, where after the publication of the bans they wish to be married, otherwise they cannot be confirmed in the married state without committing an unlawful act.

We have considered it necessary to inform you hereof, that you may not violate through ignorance the political laws, ordinances and customs of our Fatherland and this country. Relying hereupon we commend you with our greetings to God's protection and remain,

ANSWERS OF THE DIRECTOR-GENERAL AND COUNCIL TO THE FOREGOING PETITIONS.

The Director-General and Council consent herewith, that the Burgomasters and Schepens may levy the proposed Citizens' Excise on wines, brandy, distilled waters and beer consumed within this city on the same terms and conditions, as the receipt of the Tavernkeepers' Excise has formerly been granted to them according to our edict of the 25th of Novbr, 1653.

The request for two per cent on all incoming goods, for 10 stuyvers per last of each small and large vessel and for a water-excise on all outgoing merchandise is denied by the Director-General and Council, because these duties concern the country at large and not a particular city or place.

The demand for the appointment of two sworn beerporters is referred, until further satisfactory information as to how and in what way two beerporters shall be able to accommodate and be of benefit to the citizens, how two beerporters shall bring the beer from outside or to the country people, also whether a brewer outside of the City shall not be allowed to transport his own brew on his own cart, sled or waggon.

ETC, COMPLAINING THAT AN INTERDICT HAD BEEN ISSUED WITHOUT THEIR KNOWLEDGE AGAINST
PLUCKING THE GOOSE ETC.

The Hon^{ble} Director-General reported to the Council, that both the Burgomasters and the greater number of the Schepens had appeared before him on the 25th inst., stating their complaint, that the Director-General and Council had issued without their knowledge an interdict and forbidden some farm servants to pluck the goose at the Bacchanal on the eve of Ash Wednesday. The Director-General and Council had been actuated by certain reasons; besides it has never been the custom in this country during their time and is considered entirely frivolous, needless and disreputable by subjects and neighbors, to celebrate such heathenish and popish festivals and to introduce such bad customs into this country, even though, as the Burgomasters and Schepens pretend, it may be tolerated in some places of our Fatherland or be winked at. The order forbidding it has been communicated to the farm servants by the Court messenger *Claes van Elslandt* on the day before the deed, but nevertheless they disobeyed it in contempt of the Government, whereupon some of the malefactors were summoned before the Director-General and Council by their Fiscal, to be heard on the charge against them and punished according to law. Two or three of them, who comported themselves very insolently and improperly by threatening, cursing, vilifying and ridiculing their superiors in presence and in the hearing of the Director-General and Council, were committed to prison. This the Burgomasters and Schepens considered a great infraction of their authority, because the Director-General and Council had done it without their consent and knowledge, as if without advice, consent or knowledge of the Burgomasters and Schepens no order could be given or rule established or a rabble be forbidden to celebrate Bacchanals and as if, without the knowledge and consent of a subordinate Court of Justice all persons disobeying a Christian and decent order could not be punished.

As the Director-General and Council understand their position, authority and instructions better than other people, they inform herewith the Burgomasters and Schepens, that the establishment of a subordinate Court of Justice under the name and title either of "Schout, Burgomasters and Schepens" or of "Commissaries" does in no way infringe upon or diminish the power and authority of the Director-General and Council to pass ordinances or issue interdicts, especially if they are for the glory of God, the welfare of the inhabitants or the prevention of sin, vice, corruption and mishaps and the correction, fine or punishment according to law of those, who wantonly disobey them.

The authority of "Schout, Burgomasters and Schepens" and why they have been appointed is sufficiently shown in the instructions given to them. They must stick to this and continue so, without troubling henceforth the Director-General personally and inconvenience him on account of some orders, rules, fines or punishments against and of offenders made and published by him pursuant to a previous resolution of the Director-General and Council. But if the Schout, Burgomasters and Schepens or the Commissaries are asked by a subject or subjects to mediate and intercede for the modification of an interdict, order or punishment decreed against one or another by the Director-General and Council, then the Burgomasters and Schepens or Commissaries of this City and of other subaltern Courts may by respectful request remonstrate and inform the Director-General and Council of their own grievances and of those of other subjects, giving their reasons for it, whereupon the Director-General shall give such decisions, either renewing or mitigating their orders, as justice and the nature of the case may require it.

Thus done at the meeting of the Director-General and Council held at *New Amsterdam* in *New Netherland*, February 26th 1654.

LETTER FROM THE DIRECTORS TO STUYVESANT: ORDINANCES VETOED AND APPROVED: RENSELAERS-
WYCK: LANDGRANTS: CHURCH AFFAIRS: REVENUES.

Honorable, Worshipful, Pious, Dear, Faithful.

Our last general letter to you was of the 24th of July 1653, sent in the "*Gelderse Blom*" and in our ship "*Coninck Salomon*," by which we answered several of your letters, namely of the 14th and 20th of September and 19th of November 1652, while later on the 4th of November 1653 we answered yours of the 7th of January and 5th of June of the same year. But as the ship "*Vaerwel*," which was to sail for *New Netherland* by way of *Brasil* and *Curaçao*, could not make this voyage on account of the mishap occurred to it at the *Texel*, the aforesaid letter and enclosures could only be sent by this ship; for brevity's sake we refer to their contents in so far as they do not contradict this letter. In the meantime, God be praised, the ships "*Graft*" and "*Harringvat*" have arrived at *Rochelle*, by which we received your letter of the 6th of October 1653, to which we shall now reply as briefly and substantially, as the time may permit.

Your endeavors made to continue the friendship and commerce with the people of *Virginia* have pleased us very much and we recommend, that you make the same efforts in the future with these and your other neighbors. We have no doubt, that meanwhile the ships of the Parliament, stationed on that coast and preventing the trade with our people, shall already or at least before the arrival of this letter have received different orders from their superiors in *England*, between whom and the commissioners of our government an alliance and treaty of peace has been agreed upon, subject to the approval of their High: Might: the States-General. This ratification given with the general consent of the Provinces has been sent to the commissioners in *England* a few days ago, so that

we have deemed it unnecessary to send off the suecor demanded for your places, not wishing to create unnecessary expenses, although we had obtained it from the government of this city, as you may learn from our said letter of the 4th of November here enclosed.

The resolutions adopted by you at the general meeting appear to us very strange and surprising and still more surprising is their publications without our knowledge or approbation. In the first place you proclaim, that all traders shall henceforth not sell their goods, except Indian goods, at a higher advance than one hundred per cent above the price stated in the invoices without adding thereto the freight, duties and other charges. An order indeed as impracticable, as highly injurious for the State, for it is a sure means not only to banish all trade and at the same time deprive the Company to a large extent of their revenues here and in *New Netherland*, but also to prevent an increase of population and cultivation, for who does not know, that the expectation of gain is the greatest spur for people to go there, as experience has sufficiently taught, while on the other side the fear of moderate and uncertain profits discourages and keeps them at home, as would certainly be the case, if they came there with their cargoes under these circumstances. For they would be in great danger, that their goods might be taken away from them, upon which the heaviest expenses are incurred, as freight, duties, fees for the convoys etc amounting to sixty and more per cent, besides insurance and the dangers of the sea: it is easily seen, what would be the merchant's profit. We could adduce other and more powerful reasons, however as we believe, that commerce does not admit of the least constraint or limitation, but must be entirely free, as it is among all other nations and countries, we consider it unnecessary and we do not doubt that the high prices will cease and disappear in time, when trade increases and everything is imported there in abundance.

Equally impracticable is your second order, having its source in the first, to wit the lowering and fixing the pay of the journeymen carpenters, masons etc and the price of provisions, bread, beer and wine. We cannot doubt, that your own experience will have taught you the impossibility of carrying it out, for such an order can only give rise to great dissatisfaction and troubles, as well among the journeymen, whom you have rated indiscriminately at a certain day's pay, one however being cheaper at thirty than the other at twenty stivers a day, as among the inn and tavernkeepers, and other traders. To prevent this in the future, we have resolved to command, that you shall act strictly in accordance with the laudable customs and ordinances of this city (sent you heretofore), at least in so far as the nature and condition of the country and its inhabitants may admit.*

The order given by you not to use any good grain in baking or brewing appears to us, under the present circumstances, to be cautious and well conceived and we would also consider it advisable on similar occasions of need to make close and secret investigations as to what quantities of grain may be in private hands there, that you may so much better govern your actions.

We think it would be useful to take some good and practicable measures concerning the freight charges of skippers, who carry goods into the interior and we recommend to you therefore to consider this point in such a manner, that it will be to the advantage and accommodation of the inhabitants.

You have agreed upon a placat, that no trader shall sell or take into the interior any of his goods by retail, unless he engages to remain in the country there, owning a decent house or

* The laws mentioned in the preceding passages were enacted by the Assembly of the deputies from the different towns of *New Netherland* held in September 1653, but they are not among our records, nor have we the Minutes of the Assembly. They appear to have been sent to *Amsterdam*.—B. F.

bouwery, four consecutive years. We can well understand, that the traders going there and returning again with their barter bring little profit to the inhabitants, but the remedy proposed by you to prevent it is in our opinion as impracticable, as the preceding, principally in the infancy of a newly opened country, whose growth must be promoted rather by encouraging and unlimited privileges, than by prohibitions and restrictions, for to constrain people to engage in building houses or in farming, who have often neither the means nor the inclination to do it, is repugnant, and to compel them to remain, servile and slavish. However to benefit the inhabitants as much as possible we have thought it would be convenient and less dangerous for the increase of the country to prepare and pass the following order, to wit: that henceforth no traders coming there shall be allowed to sell or take into the interiors any goods as abovesaid, unless they keep a public shop there: by this measure not only the barterings to a large extent will be prevented, but these traders will also be compelled to contribute to the ordinary and extraordinary taxes, which our inhabitants now pay. You will therefore act accordingly and before we leave this subject let us warn you against passing, much less publishing hereafter any more such or similar orders or rules, before having consulted our opinion in regard to them, for that we consider necessary for the interest of the Company and this government.

We are not pleased with the assertion of the authorities of the Colony of *Renselaerswyck*, that even in time of need and war they are not obliged to assist; we consider it entirely unfounded, unreasonable and unfair, for under such circumstances, nobody, whatever privileges and exemptions he may have obtained, should be spared or excused, as the daily occurrences in our country here now sufficiently teach us. What further concerns the running expenses for salaries of the civil, ecclesiastical and military officers, the maintaining of the fortifications erected and remaining for the support and protection of the community, *it is only just and fair, that, as the royalties and revenues of the Company there are not sufficient, the inhabitants help in bearing the expenses, as it is done in all other well governed countries and cities.*

We are at present engaged in examining the question whether tithes should be exacted from the Colony of *Renselaerswyck*, so that you may expect our opinion concerning it by the first opportunity: but as *van Twiller* and others pretend, that some more land has been granted there, which is not yet subject to tithes, we have deemed it necessary to direct and recommend to you, that you cause the Secretary, (we hope *Tienhoven* has the fullest information on this subject), to make an examination and send us speedily a correct and detailed statement of the parcels of land, granted there from time to time since the beginning with a specification of the conditions, that we may so much better and surer govern ourselves accordingly.

We have decided absolutely to deny the request made by some of our inhabitants, adherents of the *Augsburg* confession, for a preacher and free exercise of their religion, pursuant to the custom hitherto observed by us and the East India Company, on account of the consequences arising therefrom, and we recommend to you also not to receive any similar petitions, but rather to turn them off in the most civil and least offensive way and to employ all possible but moderate means in order to induce them to listen and finally join the Reformed church and thus live in greater love and harmony among themselves.

We have been pleased to see the zeal of several of our inhabitants of a new village on *Long Island* for the Reformed religion and that it may not cool, we have resolved upon their representation to contribute in the beginning 600 fl yearly and are looking about here for a fit and pious teacher or minister: we have also notified the reverend Classis here, so that you and the people may expect him by the first opportunity. We are hereby reminded, that now and then complaints

are made to us of the inconveniences and troubles, to which Domines *Johannis Megapolensis* and *Samuel Drisius* are unreasonably exposed there by the irregular and scanty payment of their respective salaries. We are astonished to hear, that even the former has to claim an arrear of several thousand guilders, although you had made a special agreement with him, that his salary should be paid there, while the other has been sent to you on the same condition: as this has always been your proposition, based upon so good and fair reasons, and was really necessary, as stated before, it surprises us, that you take no better care to place these men above want. To prevent this in future, we deem it requisite to charge you herewith and seriously recommend, that you satisfy the demands of these persons as best you can there, so that no further complaints are made to us.

We should have stopped here and closed our letter, if we were not frequently embarrassed by not having the general and special account books; we have mentioned this in our previous letters and as we cannot wait any longer, being kept entirely ignorant and blindfolded in regard to the expenses and revenues of the Company there, because to our great astonishment no books of account have been sent over for several years, we have considered it highly necessary to charge and command most earnestly, that you send over speedily by the first ship not only the missing books and accounts, but henceforth also cause to be made a correct and detailed statement of the expenses and revenues, entered there from time to time to be sent to us promptly and without delay every year, that we may act accordingly.

With the ships sailing from here to *New Netherland* (this sails from *Rochelle*) we intend to send you a detachment of soldiers, ammunition of war and other necessities urgently needed there and as three are already loading and two or three are reported to intend taking freight for *New Netherland*, you may expect all very soon.

The Magistrates and inhabitants of *Gravesend* having written a certain letter to the Hon^{ble} Director-General, the following answer was sent to them:

It is resolved regarding the within letter, that the Magistrates and inhabitants of *Gravesend* must prove by their patent or at least by an authenticated copy thereof their right, both to nominate and elect their Magistrates and to continue them in office during their own pleasure.

COMMISSION APPOINTING SECRETARY VAN TIENHOVEN AND BURGOMASTER CREGIER TO GO AS ENVOYS TO THE GOVERNOR OF NEW HAVEN.

Anno 1654, *New Amsterdam*, on the 8th of April.

Petrus Stuyvesant, on behalf of their Noble High: Might: the Lords States General of the *United Netherlands* and of the Noble Lords-Directors of the Priv. West India Company, Director General of *New Netherland*, *Curacao*, *Bonayro*, *Aruba* and dependencies, with the Honorable Council, to all who shall read this or hear it read Greeting:

Know ye, that in pursuance of the directions of our principals we have only endeavored and aimed at, as we still are aiming at a continuation of our former intercourse, commerce and peace with our Christian neighbors and co-religionists without regard to any unexpected differences and deplorable misunderstandings between our respective Governments in Europe. For this reason we have already a long time ago addressed several friendly missives to the neighboring Governors, but meanwhile some rovers and pirates have turned up,—we do not know under what authority, or whose commission, who during last summer have uttered threats and committed several hostile acts, invasions and attacks upon the good inhabitants in the country, Dutch as well as English, on land and sea, robbing and plundering *William Harek* and *Jochim Petersen Kuyter*, stealthily taking away a vessel belonging to *John Tobyn*, stealing and leading off 9 or 10 horses from the village of *Amersfoort* on *Long Island* and 3 or 4 negroes sent out to recapture and bring back some fugitive negroes. Having suffered these and other hostilities at the hands of the said robbers and pirates not only last year, but also again quite recently in the person of *William Harek*, when they added many threats of fire and massacre to be inflicted upon other good inhabitants of this Province,

We, the Director-General and Council, believe ourselves compelled by our official position and its duties, upon the repeated complaints of our good subjects, to prevent them by all honest and admissible means, as far as we can and to protect our good subjects against all such rovers, pirates and thieves.

Therefore the Director-General and Council have resolved to have them pursued, attacked and captured either on land or on water, as well by means of power, entrusted to us by God and our Sovereigns, as by the weapons and own defensive means of our good subjects, without however being inclined or intending to give thereby to our Christian neighbors any cause for offense, much less to commit any hostilities against them.

In order to inform and assure hereof the neighboring Governors, Lieutenant-Governors and Magistrates, we have considered it necessary and advisable to appoint and send as envoys to our next neighbor, the Hon^{ble} *Theophilus Eton*, Governor of *New-Haven*, the Councillor and Fiscal of *New Netherland* Mr. *Cornelis van Tienhoven* and Mr. *Martin Cregier*, Burgomaster and Captain of one of the Citizens' Companies of this City of *New Amsterdam*, who are to inform and advise the said Hon^{ble} Governor and his Council, as well as all, whom it may concern, of our real and sincere intentions in equipping and making ready some yachts for the protection of the commerce on the rivers and waters between us and our neighbors and in commanding our good subjects, Dutch and English, to keep order and good watch and be ready for all emergencies. All this is intended for and aims at the protection of our good inhabitants in the open country without any thought of doing injury or damage to or molesting, much less committing any acts of hostility against our neighbors. If it should happen that in the pursuit of these robbers and pirates some of our far off living subjects or of our neighbors might be damaged in their cattle, houses or vessels, which we will not hope and against which we have given strict orders, then we engage ourselves to give prompt and just satisfaction therefor, as soon as we are informed of it.

Regarding the capture and detention of one *Thomas Baxter*, formerly the leader and captain of these robbers and pirates, in whose name and pretended authority the above related robberies and thefts were committed partly by himself, partly by his accomplices, our aforesaid deputies are especially authorized and directed to inform the said Hon^{ble} Governor of it and ask for his wise counsel and aid as to how the stolen property may be recovered, also to speak with him concerning the abduction of Captain *Cregier's* negroes protected by a safe-conduct of the said Honorable Governor and kidnapped within his own jurisdiction. They are further to consult with his Honor concerning the flight and recapture of a certain *Jan de Jongh* and finally to propose and ask for a continuation of the former intercourse, commerce and neighborly friendship.

We, the Director-General and Council promise herewith to approve, confirm and ratify all that in this respect shall have been done, covenanted and contracted by our deputies, the Hon^{ble} Messrs. *Cornelis van Tienhoven* and *Martin Cregier*.

Given at our meeting at *New Amsterdam*, this 8th of April 1654.

ORDER DIRECTING A RESIDENT OF BREUCKELEN TO LEAVE THE COUNTRY, FOR REFUSING TO SERVE
AS MAGISTRATE.

Anno 1654, April 9th, *New Amsterdam*.

Whereas *Jan Eversen Boot*, an inhabitant and owner of real estate in *Breuckelen*, on *Long Island*, has at the election of Schepens in the village of *Breuckelen* also been elected Schepen by the Director-General and Council, which office he refused to accept, saying he would rather remove to *Holland*, than undertake such duties, whereupon at the time the Director-General replied "If you will not accept to serve as Schepen for the welfare of the village of *Breuckelen* with others, your fellow-residents, then you must prepare yourself to sail in the ship "*King Solomon*" for *Holland* agreeably to your own utterance,"

Therefore the Hon^{ble} Director-General and High Council, in consideration of the obstinacy of the said *Jan Eversen Bout* and the subsequent disorders, which could arise therefrom, have directed their Fiscal *Cornelis van Tienhoven*, to inform the said *Jan Eversen* by the Sheriff *David Provoost*, that he must leave.

Thus done etc.

PASSPORT FOR THE ENVOYS TO NEW HAVEN.

The bearers hereof, namely the Hon^{ble} *Cornelis van Tienhoven*, Councillor and Fiscal of *New Netherland* and his Honor *Martin Cregier*, Burgomaster and Captain in the trainbands of this City, are deputed and commissioned by the Director-General and Council of *New Netherland* to go as Agents in behalf of this Province to the Hon^{ble} Governor *Theophilus Eton* at *New Haven* and so much farther as the occasion may require. Therefore all Christian Governors, Lieutenant-Governors and Magistrates of the neighboring Colonies are hereby requested, to receive and acknowledge the above said parties as such, and to allow them to go and come according to the laws of nation with the yacht and the persons under their command and their property, which we promise under similar circumstances to do also.

Done at *New Amsterdam*, 14th April 1654.

ORDER ON A PETITION OF THE AUTHORITIES AT FORT ORANGE, RELATING TO LIMITS OF JURISDICTION, LANDS GRANTED TO THE PATROON AND APPOINTMENT OF MAGISTRATES.

The following decision was given upon a petition sent to the Director-General and Council by the Commissary and Magistrates of *Fort Orange* and *Beverwick Village* dated the 16th March 1654.

As to the first point the Director-General and Council resolve, that in due time the Noble Lords-Directors shall be communicated with, in order to hear their advice. In the meantime permission is given, that the Court of the Colony shall have jurisdiction, as heretofore and until further orders from the Fatherland have been received, within the limits of *Fort Orange* and *Beverwyck Village*, except that they shall not issue summons or make arrests within these limits, unless they have first asked for permission to enter upon the territory, and then their duties shall be performed by the regular Court messenger of *Fort Orange* and *Beverwyck Village*.

The Director-General and Council consider the second, third, fourth and fifth points reasonable and proper; pertinent orders and documents shall be made for this purpose in due time and sent to the Court.

Concerning the sixth point, it is the opinion of the Director-General and Council, that the lands granted to the Patroon or Patroons under the Exemptions must remain at their disposal until further orders from the Lords-Directors. The Director-General and Council refuse therefore

to reply thereto, until the boundaries of the Colony shall have been determined either by the decision of the authorities in the Colony or by an order of the Director General and Council pursuant to the instructions of the Lords Directors. It is therefore considered advisable to serve on and communicate to the Hon^{ble} Commander *Rensselaer* and the Magistrates of the Colony a written summons to this effect by the Commissary *Dykman* and two Magistrates.

7th. To complete the inferior Court of Justice for *Fort Orange* and *Beeverwyck Village*, *Sander Leendersen*, *Pieter Hartgens* and *Frans Barentsen* are hereby selected out of the names sent and confirmed.

Thus enacted etc.. April 14th 1654.

LETTER FROM THE DIRECTOR-GENERAL ETC TO JOHN BAPTIST VAN RENSSELAER AND THE
MAGISTRATES OF RENSSELAERSWYCK CALLING ON THEM TO RUN THE BOUNDARY LINE OF THEIR
COLONY.

Your Honors cannot be ignorant of the fact, that the Director-General and Council of *New Netherland* have in the beginning of April 1652 insinuated in writing to the then Commander of the Colony of *Rensselaerswyck*, *Brant Artsen van Slechtenhorst*, and his Council or Co-Magistrates and given them the choice of selecting the starting point of the boundaries of the Colony, in order that in future the differences about *meum et tuum* and the quarrels, which in consequence of it had arisen between the officers and inhabitants of *Fort Orange* and the people of the said Colony, might be avoided. According to the Exemptions the Patroons had received a grant of four leagues on one side or two miles on each side of the North river, where navigable. The choice thereof and the determination of the starting point going either southward or northward along the river were left to the pleasure and discretion of the aforesaid Commander and to his Co-Magistrates appointed by the Hon^{ble} Patroon and the Directors of the said Colony, to which the warning was added, that, if the Commander and his Council should refuse the fair offer of the Director-General and Council or neglect to make the selection, the Director-General and Council would be compelled by their official position and duty and for the aforesaid reasons, to determine the boundaries of the Colony according to the Exemptions. To this written request and very fair offer the said *Slechtenhorst* and his Council replied in writing, that they were not authorized to act in that matter by their superiors; the Director-General and Council then deemed it advisable to delay the settling of the boundaries until further advice from the superiors of either side should have been received. As now the Commander *Slechtenhorst* and the present chief-officer of the Colony have had two years' time, to communicate thereon, however unnecessarily, with their principals and receive the wanting authority and the Director-General and Council do not know what your Honors may have written on the point in question to their principals or what their reply may have been, while the long delay admits of a presupposed disinclination and unwillingness to accept the offer of making the choice themselves, therefore the Director-General and Council find themselves compelled, as stated above, to determine the boundaries, the more so, as they have been expressly directed to do it by the instructions of the noble Lords-Directors of the Privileged West-India Company in two letters received since.

But desiring to avoid for ourselves and our principals all reproaches and blame, the selection is once more left to your Honors, to begin and determine the boundaries of the Colony, belonging

to your Honors' principals, pursuant to the Exemptions, either four leagues on one side, or two on either side along the river, not including the territory of *Fort Orange*, as your Honors may conclude and consider for the best of their principals; else in case of refusal or disinclination to accept this offer, your Honors shall have no cause to plead ignorance or any exceptions, if we, pursuant to the authority given us from our superiors, should legally select the starting point and determine the boundaries of the Colony, belonging to your Honors' principals, pursuant to the Exemptions and dispose of the lands beyond these boundaries, as the public welfare and the service of the Company might require it. Expecting first your Honors' prompt and definitive answer etc.

DECISION GIVEN UPON A PETITION OF ADRIAN JANSEN FROM LEYDEN, RESIDING AT FORT ORANGE,
FOR PERMISSION TO BUILD AND KEEP AN INN.

Pursuant to a former resolution of the Director-General and Council no new houses were to be erected between the Kils, whereby the Fort might be obstructed, but having considered the request of the petitioner and the necessity of having accommodations for travellers and strangers, the Director-General and Council consent herewith, that the petitioner may erect close to the pallisades of *Thomas Jansen* a house suitable for an ordinary and lodging-house for travellers, provided however that the said house shall always be used by the petitioner or his heirs and assigns according to the true intent and meaning of his petition and not be turned into a common beer house and drinking place, but only as a regular inn and hostelry for travellers.

ANSWER TO A PETITION OF THE AUTHORITIES OF FORT ORANGE CONCERNING THE LIMITS OF THE
FORT, SALE OF LIQUOR AND SALARIES OF THE MAGISTRATES.

Anno 1654, April 30th at *New Amsterdam*.

The following answer was given to a petition from the Commissary and Magistrates of *Fort Orange* and *Beverwyck Village*, sent to the Director-General and Council under date of March 17th 1654 and now on file in the Secretary's office.*

The first matter is left by the Director-General and Council to the discretion of the Court, but the Commissary and the Magistrates should take proper measures and guard against smuggling. The Director-General and Council believe it would be advisable, to let the Clerk or the Court messenger keep an account of and receive excise money for a year or six months so that it might be ascertained, how much comes in from the excise, and the letting of it be regulated

* Not preserved.

somewhat accordingly. The Commissary and Magistrates are further hereby authorized to make, publish and execute such orders and fines against smugglers and smuggling, as the circumstances shall require.

After due examination of the second point the Director-General and Council order, that until further advice and until the boundaries of the Colony are determined no wine, beer or distilled waters shall be given out, tapped or sold at retail within one thousand rods around the Fort, without due notice having been given and the usual Tappers' Excise paid on it to the Commissary and Magistrates of the said Fort, or to those who may have been authorized by them.

Concerning the third point the Director-General and Council directed their Fiscal to republish the Ordinances about the bakers and to punish those who disobey the same accordingly.

To the fourth point: a number of schepels shall be ordered by the first sailing vessel.

To the last: in consideration of the troubles, the loss of time and the private expenses, which the Magistrates have to bear, they being mostly men, who earn their living either by farming or by trade or as mechanics, the Director-General and Council consent, that the Magistrates may receive and enjoy out of the revenues, levied upon the inhabitants of *Fort Orange* and *Beverwyck* a salary of 150 fl annually.

Thus done etc.

LETTER FROM J. B. VAN RENSSELAER AND THE MAGISTRATES OF RENSSELAERSWYCK TO THE
DIRECTOR-GENERAL ETC. IN ANSWER TO THEIR LETTER OF APRIL 16th.

We answer to the summons of the 16th of April 1654 read and exhibited to the Court of *Rensselaerswyck* by Mr. *Johannes Dyckman*, assisted by *Rutger Jacobsen* and *Jacob Schermerhorn*, on the 30th of the same month, as follows:

We have written to our Lords-Principals concerning the first summons of the Hon^{ble} Director-General and Council dated April 1652, but have received no answer, which we expect shortly. About the last letter on the question of determining the boundaries, in which we are taxed with disinclination, we have also written to our principals for their instructions.

As the matter now stands, we refer to and claim the benefit of the 26th article of the Exemptions of *New Netherland*; but wishing to avoid any cause for differences during these troublesome and dangerous times, and considering that no man can be judge in his own case, we state to your Hon^{ble} Worships, the Director-General and Council of *New Netherland*, herewith, that we are willing to submit the dispute about the boundaries to the decision and findings of our principals on either side in the Fatherland, which we believe can be done with propriety. By such means we, who are only a small number, shall be enabled to live in peace and harmony with the others in this country.

COUNCIL MINUTE. APPOINTMENT OF COMMISSIONERS TO LAY OUT LAND ON LONG ISLAND.

Several petitions from inhabitants of *Midwout*, *Middelburgh* and *Mespacht* having been submitted to the Director-General and Council, asking for an allotment of their hay-land, the Director-General and Council have resolved, to direct Commissioners to go and inspect this land and to allot to everybody his share. As such Commissioners are hereby appointed, commissioned and authorized Mr. *Nicasius de Sille*, *La Montagne* and *Cornelis van Tienhoven*, who will allot if possible to every 25 morgens of arable land eight morgens of meadow.

LETTER FROM THE DIRECTORS IN HOLLAND TO DIRECTOR STUYVESANT: REFUSAL OF THE PEOPLE TO CONTRIBUTE TO THE PUBLIC EXPENSES; EMBASSY TO VIRGINIA; RENSSELAERSWYCK ' CONVENTION OF 1653; GRAVESEND; PEACE.

Honorable, Prudent, Pious, Dear, Faithful.

Our last general letter to you, dated 12th of March last, was sent by the ship "*S^t Maria*," sailing for *New Netherland* from *Rochelle*: a copy of it is here inclosed. We have since received on the 4th of April your letter of the 3^d of January last by the ship "*Gelderse Blom*," which we shall answer as far as necessary, adding thereto the matters, which we consider called for by present circumstances.

It is in itself unreasonable and therefore surprises us greatly, that the community there would not consent to assist in bearing the necessary expenses, without considering, that they are not only in duty bound to do it, but that also the present situation should compel them to it, even if they were not obliged. We can therefore not omit to recommend this matter to you most earnestly, that the community, our inhabitants, be held to make the necessary and proper contributions. You must use for this purpose the most lenient measures with discretion and dexterity, but so that the persons, who cannot be persuaded by mildness, be taken in hand with proper compulsory measures. We shall provide you from here with as many soldiers and necessaries, as we can; you will see that in the enclosed lists.

We are much pleased with your decree ordering commissioners to go to the Governor and Council of *Virginia* and hope, that it will have a good result; the principal reason for our hopefulness is, that the dissensions between the present government of *England* and ours will soon come to satisfactory end, of which we expect to give further information before the departure of this ship.

We trust, you have had good reasons for not publishing, but keeping in abeyance the printed copies of the placats concerning lands and lots and shall for the present leave the matter so; but what we have directed in regard to the determination of the boundaries of the Colony of *Rensselaerswyck* ought not, we think, be delayed any longer, but executed, as our proposition was based upon equity and the privileges. Your question, whether the land outside of the Colony should be offered to the Patroons or to the Co-Directors, we believe answers itself, for if the persons mentioned desire to cultivate the land under the general privilege admitting everybody, then no reason exists to refuse them, but on the other side, if they want to hold the said land as Patroons

and therefore join it to their colony to which it does not belong, then their demand cannot be granted. We are pleased to see, that the people of *Fort Orange* and of the said Colony live in good friendship and intercourse and if in this or in any other direction the life and behavior of the Commissary *Dyckman* give offence, then you must again and for the last time give him a warning and recommend that he attend to his duties and the service of the Company, in default whereof you are hereby specially and expressly authorized to discharge and immediately summon him away from there.

We enclose a placat for promoting the breeding of cattle, which you shall not only publish and affix, but also take care, that it is obeyed and executed. It will be a great help to you, if, as we recommend, you take a census of the number of animals in each colony, previous notice having been given, and keep a register, so that you may learn on occasion, where the missing animals have gone to.

We confess that the description of the condition of the country about *Fort Orange*, which we have received, is different from yours; therefore we give up our opinion and agree to your proposal to erect a small fort or even only a small redoubt or blockhouse on the *long Island**; the reasons given by you are weighty and pressing, so that we think it is not necessary to urge you any more, but shall only add, that posts with the arms of their High: Might: and of the Company should also be placed at other places, the ownership of which it is necessary to maintain.

The internal duty of four stivers for each beaver imposed by you has caused us here much trouble and we have tried to satisfy the interested dealers here in different ways, even by reducing the import duties from 16 to 12 per cent., but they insisted upon a full restitution, to which we had to consent. This must teach you to keep within the terms of our engagements and treat people according to what is due to them, not according to what you require. On the other side, considering that you should not be deprived of this revenue, especially as the expenses will be somewhat increased now, we have informed the said traders, conform to the agreement made with them that henceforth they must pay the four stivers for each beaver, and intend to reduce the import duties from 16 to 12 per cent. next year, that the commerce may not be burdened too much. For the present we have kept the former charges, to obtain from their surplus funds enough to repay the unadvisedly exacted four stivers; only as far as tobacco from the *Virginias* is concerned, we have made a reduction from 45 to 30 stivers a hundred weight, while the 20 st. on *New Netherland* tobacco remain as before.

We do not know, whether you have sufficient reasons to be so suspicious of *Adrian Van der Donck*, as all the charges against him are based upon nothing but suspicions and presumptions; however we shall not take his part, and only say, that as we have heretofore recommended him to you on condition of his good behavior, we intend also, that he be reprimanded and punished, if contrary to his promise he should misdeemean himself. On the other side we hope, that your suspicions of him are to be imputed more to the unfavorable conjuncture of the times, than to his presence there.

We have already written you our opinion on the resolutions adopted by the general meeting of delegates and we hold it still. We have been amazed by the proceedings of the delegates from some colonies and villages, especially because in the whole remonstrance we cannot find anything, that could have given them a reason for complaining of some wrong: but from their conclusion and accompanying protestations it may be conjectured, that the whole thing consists only of

* Long Island near New York or Long Island, also called Mahicanders Island, opposite Bethlehem, Albany Co. ? See Vol. XIII, p. 193.

forged pretexts for an imminent factions sedition; *we* think, that you should have proceeded rigorously against the ringleaders of this work, and not to have meddled with it so far, as to answer protests by counter protests and then let it pass without further notice: for as it is highly arrogant for inhabitants to protest against their government, so do the authorities prostitute their office, when they protest against their subjects without punishing them according to the situation and exigencies of the case. Although the relations between this country and *England* give rise to hope, that also the differences over there shall be settled, we charge you nevertheless to mete out due punishment for what has passed, so that in future others may not be led the same way.

The attorney, Mr. *François Le Bleu*, has been informed by us, that he need not calculate upon sailing this season. He will be able to draw his own conclusions from that and from what has happened to him here and report accordingly to his employers, that we are not at all pleased with such commissions: we inform hereof the Burgomasters and Schepens of *New Amsterdam* by this opportunity. The parties just mentioned have submitted to us in a special letter several requests, upon which we have resolved point for point as follows:

First, as they complain of too much limited and strict instructions, we decide, that they shall write down and deliver to you the points, in which they desire an amplification or moderation.

Second, that henceforth the office of Schout of *New Amsterdam* shall be separated from that of Fiscal and the duties be performed by one person; we cannot omit here to inform you of our intention, which is that provisionally we continue *Cornelis van Tienhoven* in the office of Fiscal and as to the Schout's office you must engage a fit and honest man, as whom we now propose *Jochem Pietersen Kuyter*. We charge you especially to take care, that in the instructions to be drawn up for this Schout the jurisdiction of the Fiscal and of the Schout are separately defined to prevent all conflicts from this source. The said Burgomasters and Schepens have also requested that the election or at least the nomination of the Schout may be given to them, but we have refused that, because here in this country all Lords of Manors (*particuliere Heeren*) reserve such patronage to themselves.

Third, we have allowed the Burgomasters and Schepens to levy again a small excise and imposts to meet necessary expenditures, unless you had any objections against it, of which we wish to be informed to examine them. But we have not consented to what the Burgomasters and Schepens add, that they should be freed from the maintenance of the Company's officers out of the excise already imposed.

Fourth, we have decided, that a seal for the City of *New Amsterdam* shall be made and sent over.

Fifth, that the said Burgomasters and Schepens shall have the right of recording conveyances, deeds and mortgages of houses and lots within the said city, but not outside of its limits, it being understood however, that this does not deprive you of the power heretofore given to dispose of lots already granted, but not occupied, and that the Burgomasters and Schepens are in duty bound to give you upon demand an account of all conveyances, deeds and mortgages recorded before them.

Sixth, we have not granted their request, made to us, to be furnished a sufficient quantity of ammunition of war for the defence of the city, but we have told them, that all such articles shall be directed to you to be distributed where necessary.

Lastly and seventh, we have granted and allowed, that the house, in which the Burgomasters and Schepens meet, shall be given to the city to be appropriated to its use and the carrying on of

its business ; for we cannot see, that it matters whether this house belongs to the Company or to the City in commonalty, provided, as we intend it, that no private party shall base any claim hereon, nor shall it be alienated or mortgaged.

Concluding here what we have resolved upon the letter of the Burgomasters and Schepens, we shall only add, that we send enclosed a copy of the letter written by the delegates from *Gravesend* and dated December 27th last and direct you to inform yourself concerning the persons, who signed it* and to arm and prepare yourself immediately for the exemplary punishment of the mutinous. We have this before us as our chiefest aim besides the preservation of the country in sending off the present succor.

Some complaints have been made here to us, that there is no proper regulation, or at least that it is not observed, regarding weights and measures. We have therefore directed, that some weights used in this city, also a yard and other measures, shall be sent over from here to be kept there in the City Hall (*Raet Huys*) and we desire you to take care, that the goods and merchandise be sold or traded according to the measures and weights and that delinquents be duly punished.

For the maintenance of the commerce and correspondence between you and *Curaçao* we have resolved to look out for a ship of 70 to 80 lasts and expect to send it by the first opportunity.

On the request of *Gillis Verbrugge* and Comp. we have passed the enclosed resolution on the 18th of November 1652 : we cannot learn otherwise, than that, although a second copy of it was sent to you, it had no effect. At the urgent request of the interested parties we cannot refuse to direct you again to govern yourselves pursuant to its contents, also to order, that *Gerret van der Voorde* and companions receive satisfaction for their claim without neglect for any reason or pretense whatever ; for we desire, that in this and similar cases you shall not hunt up excuses, but carry out with precision not by words, but by deeds, the orders given by us.

We could not grant the request made by you in a private letter of the 7th of October 1653 to the effect, that the duties levied here upon a certain quantity of beavers should be repaid to the former Swedish Governor *Johan Prints* ; mostly because the said *Prints* has not carried out his intention to send the beavers to *Sweden* by way of *Amsterdam*, but has sold them here, where he also received the money for them and put it out at interest for his own benefit ; so that the beavers did not concern the crown of *Sweden*, but him privately. We have been greatly astonished, that you have shown yourselves so liberal, as you cannot be ignorant of the Company's condition and how difficult it is to make its revenues here and there meet the expenses ; we cannot omit therefore to recommend, that you do not dispose so giddily of the said revenues, but rather deny such requests in the most polite manner, so that nobody is hurt in his respect and authority and no cause for trouble given.

By the loss of the ship "*Hoft van Kleeff*," captured by the *English*, we find ourselves deprived of the books of monthly wages and other documents and papers sent over in it from *New Netherland* as well as from *Curaçao*. As this loss causes us here many and great difficulties on account of some people, with whom without the books we cannot settle and who cannot be satisfied, therefore we direct you once more most urgently to send us the aforesaid books and other documents, now already called for several times, as quickly as possible, that we may receive the desired information and get rid of these people without further difficulties.

We gave an order in our letter of the 24th of July 1653, that the pay of the soldiers, then

* See N. Y. Col. Doc. II-153.

going over in the "*Gelderse Blom*" and in our ship "*Cominck Solomon*" should be booked and begin upon their arrival out; but as since we have passed another resolution, to wit, that their pay should begin with the sailing of the ships from here according to the old usage, we have thought it necessary to inform you thereof, that it may be changed in the books there and the order be put in practice by you concerning as well the soldiers coming with this ship, as those, who may be sent over hereafter, unless you receive orders to the contrary.

The long expected peace between the present government of *England* and the *United Provinces of Netherland* has at least been solemnly concluded on the 15th of April and has also been ratified by both sides and published; as you may see by the enclosed original printed articles hostilities shall cease on the 14th of this month new style, so that the damages done by one side to the other after that date shall be repaid and indemnified without process of law, which you will see by the proclamation of the peace following the said articles. You are therefore especially ordered and commanded to govern yourself strictly in accordance with the tenor thereof, that no cause for new complaints may be given.

Herewith etc etc.

To the Director-General and Council in *N. N.*

If it should happen, that some *Portuguese* ships are brought up there by pirate ships or by privateers, sailing under charter and commission of the Company, then you are to receive from the returns and net proceeds 10 p. c. as recognition and further act in pursuance of the enclosed extract from the resolutions, adopted by the delegates of the respective departments at the *Hague* the 15th of September 1653, until we shall have informed you of our further orders and resolutions, which cannot be done now on account of lack of time; you may expect them however with the ships the "*Peereboom*" and "*Gelderse Blom*."

By order of the Directors.

POSTSCRIPT TO THE DUPLICATE OF THE FOREGOING LETTER.

As the growth and prosperity of yonder state depends principally upon the population and the cultivation of the soil, we are constantly busy to invent measures, which might serve for their promotion. We intend for this purpose, (which has also the favorable endorsement of the Burgomasters of this city,) to send you in the aforesaid two ships now ready for sea a party of boys and girls from the Orphan Asylum here, making first a trial with 50 persons. You may expect with them also a quantity of provisions, that they shall not immediately burden the storehouse. While you see our zeal in increasing the population, you must constantly think of promoting the cultivation of the soil, that on all occasions you need not rely on others, but may have recourse to your own resources. How much depends on this and how much you can rely in such cases on your *English* neighbors, you have sufficiently learned this last time. As we further

understand, that our inhabitants, engaged there in farming, apply themselves mostly to the planting of tobacco, thereby neglecting the cultivation of grain, we have considered it highly necessary, not only to remind you, but also to recommend to you to keep such farmers to their duty and obligations and make arrangements with them, that a certain part of their land, either already under cultivation or to be cultivated hereafter, is sown in grain. When this is done, our province there will by and by become stronger and its population will increase.*

Herewith go for the present five casks of meat for the soldiers now coming, also some clothing for them according to invoice, which you will distribute with such advance on their pay as has been heretofore given them,

Dated as above.

By order of the Directors.

ABSTRACT OF A LETTER FROM THE BURGOMASTERS AND SCHEPENS OF NEW AMSTERDAM (TO THE DIRECTORS OF THE W. I. COMP.) WITHOUT DATE.

They write, that their instructions are too limited and strict, that they are not able to govern the municipality with ease according to the instructions and request that they may receive others from here not so restricted, but agreeing as nearly as possible with the form of government in this City of *Amsterdam*, whereupon they are awaiting an answer.

They request also, that they may be allowed to elect their Schout or at least to nominate a double number; that the Fiscal *Thienhoven* is now officiating as Schout, but as little to the satisfaction of the citizens who have submitted a petition on this matter, as with respect for them.

That a distinction be made in the jurisdiction of the Fiscal on behalf of the Company and of the Schout as well in civil as in criminal causes.

That the Director has allowed them an excise on beer and wines, but only on condition of maintaining therewith the political and ecclesiastical officers, which is impossible, as it will pay only one third of their expenses, while they have also to contribute their share to the maintenance of the fortifications. They request therefore, that this excise may be given to them without limitation and that they be authorized to levy a new impost (to which the community is said to agree, as shown by enclosure No. 5) such as on stamped paper &c, also to lease the ferry from there to *Brooklyn* for the purpose of first obtaining funds to repay the loan of about 9000 fl. expended in making the outworks and fortifications.

* EXTRACT FROM A LETTER OF THE DIRECTORS TO STUYVESANT: THE BOYS AND GIRLS SENT FROM THE ORPHAN ASYLUM, JULY 7, 1654.

* * * * *

The enclosed list will show you, what provisions are sent over for the boys and girls sent from the Orphan Asylum here, with whom you now may make an experiment. We recommend to you most seriously to take good care of them and place them with good masters or give them such employment elsewhere, as will tend to their and the country's best advantage. We leave it to your experience and deliberation.

* * * * *

Also that they be authorized to pass conveyances and deeds of houses and lots sold within the City and its liberties, also mortgages, and that to this end a seal for the City may be sent to them, distinct from the seal of the Province.

That in these dangerous times a good quantity of ammunition of war may be sent to them, among which some muskets of 3½ feet in length to be distributed in time of need among the citizens.

They say in conclusion, as they have no property belonging to the municipality, but meet in a house owned by the Company, they request that it may be given them as a present or subject to a fair valuation.

LETTER FROM THE DIRECTORS AT AMSTERDAM TO THE MUNICIPAL OFFICERS OF NEW AMSTERDAM

1654, 18th of May.

Honorable, Worshipful, Pious, Dear and Faithful.

You may ascertain our resolutions upon the points, submitted by you lately, from the enclosed extract, which we have decided to send you as answer with the command, that you are to act pursuant to its tenor as far as it concerns you; we cannot let this occasion pass without informing you, that it has appeared strange to us, that you or some of you have allowed yourselves to be instigated by some evil minded persons so as not only to help arranging without order a meeting, but also to present remonstrances, which we think were at this time very much out of place, although it is represented differently. We write more in detail on this subject to the Director-General and Council, who will communicate with you in due time; meanwhile we recommend and charge you to behave quietly and peacefully, to obey the authorities placed over you and by no means join with the *English* or other private parties in holding conventicles, either for the sake of deliberating affairs of state, which is not your business, or, which is still worse, to make changes in the province and its government. We have wished to warn you and give you advice, before we make other dispositions. Relying hereon, that you will act according to your duty and conscience we close commending you to the protection of God.

Your good friends

PROPOSALS SUBMITTED TO THE COUNCIL BY THE DIRECTOR-GENERAL ON HAVING RECEIVED INFORMATION OF THE ARRIVAL AT BOSTON OF SEVERAL ENGLISH MEN-OF-WAR, DESIGNED AGAINST NEW-NETHERLAND, MAY 30, 1654.

Gentlemen.

For a day or two rumors have been current, which were confirmed last evening in detail by Mr. *Isaac Allerton*, that 10 or 12 days ago six ships arrived at *Boston* from *Old England*, namely two merchantmen and four men-of-war of the Parliament or the present Government of *England*, having on board Colonel *Sussex*, Captain *Leverett* and Captain *Hull* and a number of soldiers on each vessel, also ammunition and engineers' implements. Mr. *Allerton* declared not to know, whether they were intended to be used against us or against the *French*, for the instructions had not yet been opened and were not to be opened, until ten days after their arrival at *Boston*. According to our calculations this must have been done yesterday or the day before, but we cannot and shall not know their tenor and correct meaning, until the blow is struck and then it will be too late. The continuation of Captain *Leverett*, the losses suffered at the hands of and the deeds committed by Captain *Hull* last year and the repeatedly received information, that they had both gone to *Old England* last fall with the view of soliciting and obtaining ample authority to proceed against this Province and its inhabitants prognosticate no good, but warn us to be on our guard and while trusting in God to consider all possible means of defense.

How to do it to the best advantage of our and the Nation's honor and the most effective protection of this place and its inhabitants, is the occasion of calling this meeting, which will have to consider this among other matters. Upon this point we shall first give your Honors our impressions, when we should like to hear your opinions, in order to come finally to unanimous and responsible conclusions.

First, we and your Honors have to take for granted the weakness and inability of the train bands, to man and defend the works here, although they are in good shape, without the aid or assistance of the country people; much less can assistance be given in that case to the country places, be they forts, villages or homesteads nor can we together resist an enemy.

Second, the experience, which we had last year, when we requested the country people of our own nationality and they were reluctant to bring their grain to this City for the greater safety of the place and the Fort; also, when the expedition of the trainbands against the privateers was made and they were requested to take their places in helping to guard this City and to man the works, to which they were opposed: all this predisposes us to fear, that in case of the coming of a considerable hostile force none or only few of the country people, even our own Nation, will contribute to the protection of this City and come to our help, but that in hope of retaining possession of their property, they will not stir a foot.

The *English*, living among and under us, would we believe, enter into a plot with our enemies, they being of the same nationality, to our great disadvantage: especially the people of *Gravesend*, of which we have seen and heard unfortunately already some proofs.

Therefore nothing remains, but to consider how we may, for our own and the Nation's honor, protect ourselves for some time against a surprise and massacre: to do this the following is required without doubt:

1. Repairing the fortifications.
2. The enlistment of soldiers under pay, that in an emergency they may be held in better discipline and assist the trainbands.
3. Money and means to carry out the preceding.

4. Arms for the enlisted soldiers. Where they are to be obtained and how we must go to work, your Honors will please to advise me.

1. It must further be well considered, whether for the purpose of garrisoning and better defending one place, which if lost the country and all is lost, and if held with sufficient succor the land also is held, it is not better to give up other places, especially *Fort Casimir* and to draw the free people and the small garrisons on the South river to this place.

2. As to the ship "*Coninck Solomon*," now almost laden and ready to sail, shall we let her depart or retain her here? The one as well the other measure requires to be considered and has its dangers.

Concerning *Fort Casimir* our opinion should coincide with the general feeling, that it is best for the greater protection of this place to call hither the few soldiers from there and to recommend the guarding of the Fort to the free men. But here we meet with the objection, whether the free men, being few in numbers, will or can do it and may not be in danger of or at least fear being massacred by the savages, which they already apprehend, having therefore, together with the Company's servants, asked us for more soldiers and assistance, else they would be obliged to leave the river. To call away all the people from there, is tantamount to an absolute desertion and surrender of the fine river to others. And if by the conclusion of a treaty of peace or by other means (God will know the best, his hand is always open for our assistance) the enemy does not attack us, how shall we answer for this desertion.

There are several opinions pro and contra the retaining of the ship "*Coninck Salomon*." To let her sail would be of the greatest profit both for the Company and for the merchants, but then the Government will have to bear the brunt of the displeasures and clamors of the whole community; experienced gunners, marksmen and sailors, to be employed about the ordnance on the walls will be wanted and we will have to do without 1600 to 1700 lbs of gunpowder less, of which we have not much now, while besides many people will want to leave by this ship. Thus read and delivered on the date as above.

RESOLUTION OF THE COUNCIL TO POSTPONE THE CONSIDERATION OF THESE PROPOSALS.

New Amsterdam, May 30th 1654.

At the direction of the Hon^{ble} Director-General appeared before the meeting of Director-General and Council with the Deputies from the Magistracy of this City of *New Amsterdam*, the Schout and Magistrates of the respective villages of *Breuckelen*, *Midwout* and *Gravesend*, to whom, pursuant to resolution, the present rumors were communicated. They were then kindly requested to assist first in repairing and afterwards, if needed, in defending the works of this City and the Fort and to give a definite sincere and plain answer and opinion: the Magistrates demanded time till next Monday to take the written proposition into consideration.

Dated as above.

ORDER CONCERNING THE SALARY OF THE MINISTERS OF THE GOSPEL.

The Fiscal is directed and ordered, to remind and inform the Burgomasters and Schepens, that the preachers have petitioned us for their past due salaries and whereas, since the Burgomasters

and Schepens are collecting the Excise, the salary for half a year has become due, that therefore the Burgomasters and Schepens will please to provide for the payment of these salaries, according to promise, out of these revenues.

Thus done etc., *New Amsterdam*, June 1, 1654.

PART OF A LEASE OF THE FERRY FROM A COMMITTEE OF THE COUNCIL TO EGBERT VAN BORSUM,
FERRYMAN.

[Fragment] to treat equitably, and in order that the Ferryman may the better pursue his business, it is granted him on the part of the Hon^{ble} Company, that for a time he shall have the use of the Ferry house standing on *Long Island*, providing he keep it in necessary repair at his own expense; the Committee on the part of the Hon^{ble} Director General and Council promising to give the Ferryman all proper support in regard to his business.*

In testimony this is signed by both sides, without fraud or deceit, this 1st of June A^o 1654 in *New Amsterdam* in *New Netherland*.

This is the  mark of EGBERT VAN BORSUM made by himself.

In my presence.

C. V. RUYVEN, Secret'y.

RESOLUTIONS ADOPTED CONCERNING THE PROPOSALS MADE BY THE DIRECTOR-GENERAL ON THE
30th MAY.

New Amsterdam, June 2^d, 1654.

The verbal and written propositions made by the Hon^{ble} Director-General having been heard and well considered and a debate having been had upon what further concerns these matters, we, the undersigned Director-General and Council of *New Netherland* have unanimously come to the conclusion, that the community of this City is too weak to repair and strengthen alone and at their expense the works, made by them last year for the defense of this City and its inhabitants; that they much less are able to man the repaired works in case of an attack and when an emergency requires it defend them against a considerable hostile force; and although former experiences lead us to fear, that the country people, notwithstanding their belonging to our nation, will do little for the repairs of the fortifications, hoping to remain in possession of their property, if they do not take up arms against our neighbors of *New England* and that they will still less come to this City to assist in its defense in time of need, yet, for various reasons, which in time may be given in detail, we consider it at present quite unadvisable to compel the country-people thereto by peremptory orders.

But in order to avoid all reproaches of negligence and carelessness and to deprive them of all excuses in case of refusal, we have unanimously resolved to summon the Magistrates of the villages of

* See Ordinance regulating the Ferry at the Manhattans, passed July 1, 1654, in Laws of N. N., p. 163

Breuckelen, Midwout and Amesfoort and to inform them in the very plainest words of the received news and rumors, also to prove to them the necessity of repairing the fortifications of this City and further to persuade them in a polite manner to come to their defense in time of need and assist the citizens. We resolved further, that in case of refusal, which is presupposed and feared, their arms should be taken up in some suitable way, especially those, which had been given or loaned out of the Hon^{ble} Company's arsenal.

As to the *English* villages, it has been sufficiently proved by their utterances and actions, that although under oath of allegiance to us, they would fight rather against, than for us and therefore the Director-General and Council have unanimously concluded to pass them in silence and not to call upon them either for the repairs or for the defense, that we may not ourselves drag the Trojan horse within our walls. With the assistance of God, who will bless our small force and means, we will do our best and be constantly and carefully on our guard leaving the final result to God, whose arm is never fatigued by more or less help. In the meantime all possible means must be used, which he has been pleased to give and shall give us hereafter, first in repairing the Fort and providing it with gabions and pallsades, to finish the part begun at the *Gracht* (moat), then in endeavoring to enlist, as quickly as possible, against monthly pay some soldiers, at least 60 or 70 men, if we can obtain them without noise or beat of drum. And whereas money is required for repairing, keeping and finishing the fortifications, also for paying and subsisting the soldiers, now in the service and to be enlisted, who must be paid weekly, because on account of the scarcity of provisions and the small quantities thereof in store, the soldiers and workmen shall henceforth be obliged to board themselves or buy their provisions, that something may be kept in store for a possible siege and whereas the greatest difficulty at present is to replenish the low funds of the treasury it is necessary to provide promptly for some money,

Therefore we are compelled first to lay hand on and use the beavers or money received for freight by the skipper *Cornelis Coenraetsen* from the passengers and for the cargo brought over and further to try to negotiate among the best intentioned merchants and traders a loan for account of the Hon^{ble} Company, for the greater security of which loan the Director-General hypothecates his credit and property, belonging to him here and in the Fatherland, provided, that if the country can be protected or remain in peace and undisturbed, which we hope and pray, the Good and Almighty God may grant, means shall be considered and measures taken, by which the loan to the Hon^{ble} Company, negotiated on the credit and property of the Director-General, is to be taken up and paid. Under these circumstances we, the undersigned Director-General and Council, have not been able to find a better expedient or measure aside from the duties on merchandise, than to impose an honest and fair tax upon the real property, as land, houses or lots and milch cows or draught oxen as follows:

On each morgen of land, held in possession for one year and more 10 stuyvers annually.

On each house or lot within this City, or in *Fort Orange* or in *Beverwyck Village* according to its size and situation one to one and one half beavers, gardens and orchards, belonging to persons, who have to pay 10 st. per morgen, excepted.

On each head of cattle over three years old, one guilder annually, one half to be paid about the time of the *Amsterdam* fair next coming, the other half in the ensuing month of May.

Out of these moneys the loan shall be repaid.

As to the following propositions, whether to abandon *Fort Casimir* or not and whether the ship "*Coninck Sulomon*" shall be allowed to sail or be retained here for some time, it is resolved in consideration of the reasons given in detail in the aforesaid propositions, that *Fort Casimir*

shall not be abandoned* nor shall the garrison be called up from there at present. It has further been found necessary to retain the ship "*Coninck Salomon*" for the greater safety and satisfaction of the good inhabitants of this City, until we have further and more accurate information from the North, concerning the aforementioned rumors or until a ship with news comes from the Fatherland.

Thus done etc., *New Amsterdam* June 2^d, 1654.

P. STUYVESANT.

COUNCIL MINUTE MODIFYING PART OF THE RESOLUTIONS OF JUNE 2^d, 1654.

Resolved that, what has been said in this resolution (of June 2, 1654) concerning the tax to be levied on cattle and the 10 stuyvers per morgen, which by a later resolution of August 24th have been increased to 20 st. per morgen, shall be considered provisionally, subject to the approval of the Lords-Patrooms, as redeeming the tithes, for reasons given in detail in the resolution. By the same resolution the one hundredth penny was to be levied on the houses and lots of this City and other villages, where no land tax is paid, which by virtue of the last resolution on this matter is hereby repealed and declared void.

LETTER FROM THE DIRECTOR-GENERAL TO THE BURGOMASTERS ETC. OF NEW-AMSTERDAM URGING THEM TO REPAIR THE FORTIFICATIONS, PAY THE MINISTERS' SALARIES, ETC.

To the Worshipful Burgomasters and
Schepens of *New Amsterdam*.

As soon as I had received and heard the news and rumors brought from the North in regard to the arrival of Captain *Leverett* with four Parliament's ships and soldiers and although his intentions and the accuracy of the news were unknown to us, I came in person to your Worships' meeting the next day, informed you of the news, reminded you of our precarious situation and recommended to consider means of defense and resistance in case it should happen, that he might be visited by our neighbors, as the rumors say. As yet we have not been able to learn, that anything has been done by your Worships for the defense of this City or the repairing of the fortifications, but your Worships seem to have but away all anxiety upon an idle rumor of peace.

To-day we take God and our consciences, your Worships and other reputable citizens as witnesses, that we have now and before this repeatedly reminded your Worships of the precarious situation and requested to think of assistance and means. Your Worships' word and promise were good enough and influenced by them we let your Worships have provisionally the Tavern

keepers' Excise on the distinct promise, that your Worships would then provide means and take care, that the ministers of the gospel should be paid their salaries. Besides this, we gave your Worships our ammunition, material and engineers' tools, you promising to pay for them or return them, which we now need ourselves, so that we cannot go on with the repairs of the fortifications, as the circumstances require. It must further be feared, that in case of an attack, the outer works not having been properly repaired, our own ordnance, taken to the outer works last year against our wishes and advice and thereby increasing our difficulties instead of adding to our safety, may be turned against us.

We repeat therefore our request, that, if the outer works cannot be repaired and made defensible, as your Worships state, the ordnance be brought back from there and taken to a place, where if it can be of no use, it can neither do damage to the Fort, which with God's help we intend to defend and protect for the honor of our Nation so long, as God shall give us his blessing for the undertaking.

I further demand that pursuant to your duty and promise the small arms and engineers' tools, which we loaned, be returned or paid for, that we may enlist and arm some more soldiers for the better defense of this Government, with which we are entrusted, and the Fort. I also demand, that the preachers be paid their past due salaries from the time, when your Worships have collected the Tavernkeepers' Excise granted provisionally to your Worships under that condition.

We rely hereupon and in case of non-compliance with our requests we shall hold ourselves blameless before God and the world for all possible disasters, which may befall us and our good subjects, remaining

COUNCIL MINUTE. PLANS OF THE ENGLISH; RENEWED PREPARATIONS FOR DEFENSE.

We have again heard yesterday some probable sounding rumors and news, told by an Englishman to several of our subjects, among others to *Govert Loockermans*, *Pieter Wolfertsen*, *Jacob van Couwenhoven* and *Jacques Corteljou*, tutor to Mr. *van Werckhoven's* son, who reported the same to us, to wit, that the *English* at the North recruit soldiers, giving 25 to 30 guilders per month and that three large ships were to come into the Bay or to the Cape to cut off our retreat; also that soldiers in boats should land near *Hellegat*, preceded by a ketch to demand the surrender of the Fort and offer us many good conditions; that the country people on *Long Island* should remain in possession of their property without molestation; in view of which the Englishman had advised *Pieter Wolfertsen* to take whatever property he wished to preserve and keep over to *Long Island*, where he thought, it would be safest,—all this has been told by the Englishman with woeful face and tears in his eyes, so all the men report, while he requested that his name might not be mentioned promising to inform the Hon^{ble} Director-General and Council by day or night whenever he had obtained further news.

Although some of these news are unimportant and unfounded, we the Director-General and Council nevertheless believe, that we ought not be caught napping or neglecting anything. We consider it our duty to make immediately all preparations for the defense and protection of this City and especially of the Fort, which it is in our power to make, in the following manner:

First, it is considered absolutely necessary, that besides the repairing and strengthening of the Fort the old moat be deepened and gabions set up there, after which the City Tavern must be fortified with breastworks and ramparts, on which 2 or 3 light pieces of artillery can be planted. As to the outer works, made last year, which not only we, but also everybody else thought, it was impossible to man and defend with so few soldiers, unless all the country people came in, which we are assured they will not do, we have decided, that the cannons taken there last year must be brought away, that they may not be turned and used upon us, the more so as the works, especially the angles are completely destroyed and no repairs are made because, as the Burgomasters and Schepens pretend, it is impossible for the small number of citizens to do anything without the assistance of the country-people and even if repaired it would be impossible to defend them, unless as was said above the farmers come in. Hence it is necessary to fortify a smaller portion and to hear hereupon the opinion of the Burgomasters and Schepens, asking them to give a prompt and definite answer, whether they will assist with the community and help defending this place for the honor of our Nation, as long as God shall please to give us his blessing.

Thus done etc., *New Amsterdam*, June 13th, 1654.

PROPOSITIONS MADE BY THE HON^{ble} DIRECTOR-GENERAL AND HIGH COUNCIL TO THEIR WORSHIPS THE BURGOMASTERS AND SCHEPENS OF THIS CITY OF NEW-AMSTERDAM, WHICH WERE DELIVERED TO THEM IN WRITING.

1.

The Burgomasters and Schepens answer to the 1st point: They are willing to help according to their means in strengthening and defending this City of N. A.

The first question is, whether the Burgomasters and Schepens are resolved and willing, even though the country people should not come, to help in strengthening, maintaining and defending to the last for the honor of our Nation and Sovereigns these places specially, to wit first the whole City, that becoming too much the smaller fortified part of it and finally the Fort. We, the Director-General and Council, by our signatures hereto affixed promise and solemnly swear before God to do it. So help us God Almighty.

2.

They agree on the 2d point, that such an order is necessary and if any one within the jurisdiction of this Court is found to be unwilling, they will assist to the best of their power in compelling him, which it is the duty of other Courts under your Honors' authority to do also.

Whereas the Director-General and Council find the proposition repeatedly made by the Burgomasters and Schepens, that the country people should also take a hand in repairing, putting up and defending the fortifications, to be just and equitable, therefore the Director-General and Council are inclined to order it by a public mandamus, as the farmers may judge for themselves, that it is only just and fair to help in fortifying and repairing this City in return for the services and expeditions rendered and made 3 or 4 times last year by the community in behalf of the country people; the more so, as such assistance is as much for their own safety and freedom, as for the safety and freedom of the community. If however it should happen, that the country people remain obstinate and refuse, which the Director-General and Council hope will not be the case with all, will the Burgomasters and Schepens help to punish all who disobey, according to law?

3.

Thirdly. They will use all possible diligence and means to go to work, after having passed good and proper resolutions as to the mode of repairing the works.

Thus done at the meeting, held in the City-Hall of *New Amsterdam*, June 13, 1654.

ARENT VAN HATTEM.

By order of Burgomasters and Schepens.

JACOB KIP, Secretary .

Finally, will they, with the Director-General and Council, begin to go to work punctually next Monday and persuade and induce the community of this City, as far as they can, to do the same.

Thus done etc., at *New Amsterdam*, June 13th, 1654.

PLEDGE SUBMITTED BY THE DIRECTOR-GENERAL TO THE BURGOMASTERS ETC., ENGAGING THEMSELVES TO CONTRIBUTE TO THE PUBLIC DEFENSE, WHICH THEY DECLINE TO SIGN.

We, the Burgomasters and Schepens are fully aware of and understand the necessity of thinking of and providing for some general measures, by which the expenses, already incurred or hereafter to be incurred for the defense and maintenance of this and other cities, places, forts and of the Province, might be defrayed and paid.

Therefore we declare, that whenever the Director-General and Council shall deem the time to have come, we will contribute our share, like other good and faithful subjects, to the best of our means and circumstances with the other inhabitants of this Province.

Done at *New Amsterdam*, June 13, 1654.

The foregoing pledge was given at the meeting of the Director-General and Council by the Burgomasters and most of the Schepens, but they refused to sign it, because, as they said, their Board was not complete.

ORDER ON A PETITION OF SURGEON VARREVANGER FOR MEDICINES.

Jacob Hendricksen Varrevanger showed by his petition, that the term of his engagement had expired some time ago and that for some years past he had imported at his own expense from *Holland* all his medicines. He requests therefore, that some compensation may be given to him for the use of his medicaments. After due consideration the Director-General and Council direct, that the Commissary shall credit to the said Mr. *Jacob* 12 fl per month, from the 1st of July 1652, in his account for use of his medicines and to increase his salary.

Thus done etc., *New Amsterdam*, June 13, 1654.

RESOLUTION TO REPAIR THE FORTIFICATIONS AND PROVIDE FOR THE EXPENSES BY DUTIES ON EXPORTED GOODS.

In consideration of the rumors and the dangers, by which this Province and specially its capital *New Amsterdam* is threatened, the Director-General and Council have deemed it highly necessary,

to deliberate upon all possible means of resistance, for the protection of this City and the Fort, and to fortify for this purpose, besides the works erected last year, other places in the City, erecting some inner works, to retreat behind, if necessity should demand, that we should give up the larger outer works either because we and our subjects are too weak to man them or if the enemy should press too hard and overpower us.

As the Director-General and Council know by experience, that the good inhabitants of this City cannot bear the heavy burdens and do the work, unless receiving fair compensation for the same, navigation and all other means of earning their living being shut off, and that the country people, who number the most, can hardly be called from their plantations without considerable loss of time and disadvantage, therefore the Director-General and Council with the Burgomasters and Schepens have judged it most suitable, to do the work by day laborers. This requires however some ready money and therefore the Director-General and Council are compelled to impose for the better defense of this place for this year a toll of one tenth on all the goods and merchandises, which shall be sent to the Fatherland during this summer or to retain its value. The Director-General and Council promise in regard to the return of or payment for this tenth and for the insurance of the creditors, that if the tenth has not been returned or paid within a year, its value shall be set off against the regular duties here and in the Fatherland, for which the Director-General and Council engage themselves as securities besides pledging the property of the Hon^{ble} Company.

Thus done etc at *New Amsterdam*, June 13, 1654.

ORDER DIRECTING ALL SHERIFFS ETC TO ENGAGE LABORERS FOR THE WORK ON THE FORTIFICATIONS.

The Director-General and High Council have taken into serious consideration the daily rumors of danger, by which this Province and especially this our capital and residence, the City of *New Amsterdam* and its Fort, is, if not threatened, at least warned. They deem it therefore their duty, to advise upon all possible measures and carry them immediately into effect, by which this City and Fort might be defended and kept against an attack of the enemy for the honor of our Nation and Sovereigns.

Under these circumstances the Director-General and Council have found it absolutely necessary, not only to repair the works erected last year, but also after repairing and strengthening the Fort to build some new inner lines of fortifications, so that one may be protected by the other and if necessary we can retreat from one to the other. This should be done the sooner the better and to do it diggers and laborers are required.

We therefore call upon and command hereby all Schouts, Burgomasters, Schepens Commissaries and Magistrates of the inferior Courts in this Province, upon sight and publication hereof to use all diligence and to hire or command out of every village, colony or hamlet some good diggers and laborers to come each provided with a spade and an axe promptly on Tuesday next to this City of *New-Amsterdam*, where they are to help making and repairing such works, as the Director-General and Council or their deputies shall direct, under the condition that

the laborers shall receive two guilders a day in grain, beavers or wampum to be paid weekly. Any one, who has been called upon or commanded by his respective Magistrate and does not report promptly or refuses to come shall be fined for each day of his absence (sickness and feebleness excepted) One pound Flemish.

Thus done and enacted by the Director-General and High Council at Our Residence, *New-Amsterdam* in *New Netherland* June 14, 1654.

LETTER FROM MERCHANTS OF NEW-AMSTERDAM TO THE DIRECTOR ETC APPROVING OF THE TOLL ABOVE MENTIONED AND OFFERING THE REVENUES OF NEW-AMSTERDAM AS A PLEDGE FOR THE REPAYMENT.

To the Noble Very Worshipful Director-General
and High Council of *New Netherland*.

Noble, Very Worshipful Gentlemen.

The distressing rumors of danger threatening this Province and especially this capital of *New-Amsterdam* have troubled us now for some time and after your Hon^{ble} Worship had demonstrated to us verbally and in writing their good and earnest intentions of making all possible resistance and defense at your Hon^{ble} Worship's meeting, on the 13th inst. where the Burgomasters and Schepens of this City were present, we have examined the matter to the best of our ability and assure your Hon^{ble} Worship now, remembering the good example given us by our forefathers in what they did in time of need for the defense and protection of their Fatherland and themselves, that we are quite willing to do the same, and venture our lives and property.

We have learned by the aforesaid written resolutions of your Hon^{ble} Worship, that the Director-General and High Council have found themselves compelled to appropriate and levy for the better defense of this place during one year only the tenth of all goods and merchandises, to be exported to the Fatherland during this summer, or its value.

1. Considering the premises and acknowledging that there is *periculum in mora*, we agree, as far as we are concerned, with your Hon^{ble} Worship's aforesaid resolution, under this restriction and reservation however, that the moneys and goods, which we have advanced for the repairs of the fortifications and the tenth levied as above on goods and merchandises to be shipped this summer, shall be promptly repaid and returned within a year pursuant to your Hon^{ble} Worship's resolution.

2. We are further quite satisfied with your Hon^{ble} Worship's promise of paying or refunding either by a setting off against the duties or otherwise, as we do not fear, that your Hon^{ble} Worship, seeing our willingness, will disappoint us.

3. We cannot accept your Hon^{ble} Worship's further offer of security, by reimbursement through the duties paid in Holland, but we expect in place of it from your Hon^{ble} Worship and the said Burgomasters and Schepens a special bond and mortgage on the revenues and income of this City, as already fixed or hereafter to be fixed.

4. In order, that the moneys, obtained by the before stated measures, may be properly used, we beg leave herewith to remind your Hon^{ble} Worships and request for the sake of preventing all possible obloquy, that the aforesaid Hon^{ble} Burgomasters and Schepens may be allowed to nominate six able members of this community, from whom three are to be elected by your Hon^{ble} Worships to control the expenditure and distribution of the said moneys subject to the orders of your Hon^{ble} Worships and their Honors the Burgomasters and Schepens.

If it should happen, that peace has been made between Holland and England, which with God's help we hope to learn by the next ships, we request that the above stated tenth may not be levied.

NEWS OF PEACE WITH ENGLAND RECEIVED

Anno 1654, June 15th, at *New-Amsterdam*.

Petrus Stuyvesant, on behalf of their Noble High : Might : the Lords-States-General of the *United Netherlands* and of the Noble Lords-Directors of the Priv. West India Company, Director-General of *New-Netherland*, *Curaçao*, *Bonayro*, *Aruba* and dependencies to all who read this or hear it read Greeting.

Know ye, that for the purpose of promoting the intercourse and commerce between these districts entrusted to our government and other neighboring countries we have decided to equip and to send from here directly to *Curaçao Island*, the yacht called "*de Haen*." Requiring hereto above all a capable and experienced man, to command and sail the said yacht as skipper and principal and having received a good report of the knowledge of *Carsten Jervensen* of *Amsterdam*, who formerly has served us as mate on the ship "*Prins Willem*" greatly to our satisfaction, we have for the present appointed and commissioned, as we herewith appoint and commission him as skipper and principal of the yacht "*de Haen*" with the instruction and order to ship such a crew and take on board such ammunition of war as necessary, giving us a detailed list thereof ; so manned and provided he will sail from here directly for the Island of *Curaçao* and thence return here, without touching, unless compelled by necessity, at any other islands or places and committing any acts of hostility on his way out and back against other ships or vessels, those of the *English* nation not excepted, for we have been informed by good authority that the differences arisen in Europe between the two nations have been arranged and compromised ; if attacked however, he will defend himself as well as he can.

Therefore we command to all our subjects and request all neighbors, Governor-Generals and

Captains to recognize and receive the said *Carsten Jervensen* according to this his commission and not to hinder or delay him, his ship's crew and freight on his voyage to and from *Curaçao*, but rather to give him assistance and favor him, if necessary and if he requests it, which assistance and favor we shall willingly acknowledge and reciprocate, when an opportunity offers.

APPOINTMENT OF PERSONS TO SUPERINTEND THE WORKMEN ON THE FORTIFICATIONS.

Anno 1654 June 16th at *New Amsterdam*.

Whereas in consideration of the current rumors the Director-General and Council have resolved, to secure this place promptly and speedily by erecting some necessary new lines of breastworks, as well as by repairing the old ones of the Fort and in the City and whereas for this purpose some workmen have been summoned and engaged, who must necessarily be strictly superintended, that by laziness we may not be defrauded of a day's wages, therefore the Director-General and Council authorize, appoint and commission hereby as overseers and work-masters of the fortifications in the Fort the Hon^{ble} Mr. *Nicasius de Sille*, Councillor, and *Sieur Arent van Hattem*, Burgomaster,

for the works in the City of *New Amsterdam*, Mr. *La Montagne*, Councillor, Captain *Martin Cregier*, Burgomaster, and *Paulus Leendertsen*, Schepen,

as overseer and workmaster of the carpenters *Pieter Wolfertsen*, Schepen,

as overseer of the wood cutters and the party cutting brush for the gabions, *William Beeckman*, Schepen.

as treasurers *Oloff Stevensen*, Schepen, and *Cornelis van Ruyven*, Secretary.

All workmen are directed and commanded to obey the aforesaid overseers individually and jointly and to carry out with due carefulness and diligence the work assigned to them by the said overseers and workmasters. The wages earned by them will be settled every Wednesday and Saturday afternoon and upon exhibiting the certificates from the overseers, the workmen will receive our warrants on the treasurers for their pay.

RESOLUTION TO SUMMON THE MAGISTRATES OF GRAVESEND AND MIDDELBURGH TO GIVE AN ACCOUNT OF CERTAIN SECRET MEETINGS IN THEIR VILLAGES AND OF RUMORS OF A DUTCH CONSPIRACY TO MURDER THE ENGLISH.

Anno 1654, July 2^d, at *New Amsterdam*.

We have been informed, that several meetings have been held on the 28th and 29th of June in the village of *Gravesend* by some Englishmen, numbering about 50, among whom were some

privateersmen from the North, the rest being *English* subjects of this Province from the villages of *Gravesend*, *Heemstede* and *Middelburgh* and that these people had the intention of capturing the ship "*Coninck Salomon*" and then to sail with her to *Virginia*. We have also been informed, that some of the Magistrates of *Gravesend* have again spread the report, that some Frenchmen and savages had been hired, instigated or bribed by us to plunder and kill the *Englishmen* residing among us and that upon hearing this rumor a meeting had been held day before yesterday, the last of June at *Middelburgh* by all the inhabitants, at which great confusion had reigned, some desiring, as they insinuated and even plainly stated, to be beforehand and make the beginning by falling upon the *French* and *Dutch*, before they could make an attempt; to which is added the report, that the people of *Gravesend* had sent a letter to *Boston*, where the Assembly of the Colony is now in session, by a certain *Richard Pantem*, the tenor of which letter is unknown, but the parties bringing these news suppose, that the people at the North are informed by it, the affair had now been cleared up and we had instigated and bribed the savages to kill all the *English*.

Although we do not know, how truthful these reports are, except that they go to show, the said meetings at *Gravesend* and *Middelburgh* had been held, without proving their object and although these reports ought to be fully investigated and adequate punishment meted out, yet considering the present situation and our own weakness, as well as the fact, that the *Englishmen* living among and under us only wait for and desire some occasion, by which we might give them cause to begin making troubles or war against us, we have found it to the best advantage of the country and resolved for our better justification to close our eyes at present and desist from an all too strict examination: further to summon the Magistrates of the two villages, first those of *Middelburgh*, afterwards the Magistrates of *Gravesend*, and when they have appeared, to communicate the matter to them as a current rumor, asking them what they know about it and to govern ourselves accordingly.

Pursuant to the orders and instructions sent by the Noble Lords-Directors to the Director-General and Council of *New Netherland* as well as to the Burgomasters and Schepens of this City concerning the appointment of a Schout, independent of the Fiscal's office, for their subaltern Court, the Director-General and Council have, in consideration of the good reputation and knowledge of Mr. *Jacobus Corteljou*, late tutor to the son of the Hon^{ble} Mr. *van Wreckhoven*, unanimously engaged and appointed him to this office under the instructions already given or hereafter to be given.

EXTRACT FROM A LETTER OF THE DIRECTORS TO STUYVESANT: EMIGRATION TO NEW NETHERLAND, JULY 30, 1654.

* * * *

We have noticed, that the clause inserted in the printed passports, given to freemen sailing from here to *New-Netherland*, to wit, that they must remain there for a certain number of years, is very offensive to many. As the carrying out and enforcing it, unless a sudden and unexpected danger happened to threaten the country, are both either possible nor fair and just, because antagonistic to the liberty of free people, we have resolved to command herewith, that you do not compel any free man, traders or others, to remain there for any length of time; for we understand also, that it is an obstacle to the increasing of the population. You will govern yourself accordingly.

RESOLUTION NOT TO INQUIRE INTO THE PAST CONDUCT OF THE BURGOMASTERS ETC, BUT TO SUMMON THEM BEFORE THE COUNCIL AND AFTER HAVING ADMONISHED THEM GIVE THEM THE LETTERS FROM THE HOME-AUTHORITIES.

Anno 1654, July 21st *New Amsterdam*.

For important reasons and for the sake of greater harmony it has been resolved by the Director-General and Council not to make further inquiries into what the Burgomasters and

Schepens have done nor to make for the present any changes among them and it has been deemed advisable, that the Hon^{ble} Director-General shall call them before him and in presence of the Ministers of the Gospel shall point out to them the errors and mistakes committed in their addresses to the Director-General and Council and to the Lords-Patrooms, reminding them seriously of their duties and the obedience and respect which they owe to the government, after which their past conduct shall be forgotten for ever. Then the letters from the Lords-Patrooms shall be delivered and the good intentions of the same communicated to the Burgomasters and Schepens.

PETITION OF MERCHANTS LATELY ARRIVED FROM HOLLAND FOR PERMISSION TO DISCHARGE THEIR CARGOES PAYING THE OLD DUTIES AND ANSWER THERETO, REMITTING ONE-FOURTH OF THE DUTY.

To the Very Worshipful, Honorable
Director-General and High Council of
New-Netherland.

Show with due reverence the subscribed merchants, residing at this place and arrived from the *Fatherland* by the last ships, that they, the petitioners have learned some further taxes had been imposed by your Hon^{ble} Worships, concerning the petitioners' trade and whereas they are mostly only the factors of their principals, merchants in the *Fatherland*, and are bound to take the best care of their principals' service; whereas also they firmly believe, that the principals have sent their goods agreeably to contracts, as it has been the custom until now to make with the Hon^{ble} Company; whereas further their principals are not aware of the order aforesaid, made in this country by your Hon^{ble} Worships,

Therefore they request very submissively, that the case might be referred to the Hon^{ble} Company in Holland and that the petitioners be allowed to discharge, receive and dispose of their consignments as formerly. Expecting your Hon^{ble} Worships' favorable decision

The following decision was given on the foregoing request.

Pursuant to an old and well known contract all merchants are obliged to pay here to the Director-General and Council one per cent of all their goods and merchandises, besides as much more, as may have been imposed before their arrival: the petitioners cannot be ignorant thereof. The benevolence of the Director-General and Council has so far prevented its being exacted. But at present excessive expenses and borrowed moneys have reduced the funds in the treasury and the Director-General and Council would be unable to pay the civil, ecclesiastical and military officers, much less to return the loans, if they were to abandon this duty of one per cent and other resources any longer. Since, however, it will create greater distress and trouble both for the

community and more expense for the merchants, if the Director-General and Council were to exact the duty of one per cent on all merchandises and goods in pursuance to the old and well known contract, they have concluded, that it would be easier to bear and more convenient to levy not on the goods generally according to their published resolution, but the equivalent on the Indian goods and most necessary merchandises only, which bring the most profit, being sold for cash and giving the least trouble to the community and the factors. The Director-General and Council think therefore, that it is unnecessary to refer the matter to the Directors in the Fatherland, especially as the decrease of the funds in the treasury and the increase of expenses do not brook delay. Desiring in the meantime to show our good will and inclination to promote commerce and to deprive the petitioners of causes for complaints of too much strictness, the Director-General and Council release herewith the petitioners from the payment of about one fourth part of the demanded toll and staple-right, so that a piece of duffels, commonly 38, 39 or 40 ells long shall pay..... fl 3. —. —
 one ell of cloth, dress goods or carpet..... “ 0. 1. 8.

We direct herewith our Fiscal and Receiver not to demand nor take more and after he has complied with this order the merchant or trader shall not be delayed, but he shall receive immediately permission to withdraw his goods from the public Warehouse, take them away and sell them to his satisfaction and the buyer's profit. Salt is left for the present free from duty, because of its scarcity.

ORDER DIRECTING THE BURGOMASTERS ETC TO SEND IN A RETURN OF THE REVENUES AND EXPENDITURES OF THE CITY'S EXOISE.

The Director-General and Council have repeatedly reminded the former Nine Men and the present Burgomasters and Schepens of the absolute necessity, to devise, as customary in other countries and especially in our Fatherland, some means to provide revenues, by which the civil and military administration and the divine service might be supported and maintained and its officers and ministers placed above want. But although the necessity has been demonstrated as clearly as the day, the Director-General and Council have received no satisfactory answer so far nor seen a sign of inclination and willingness for so necessary and customary a proceeding. Yet the Burgomasters and Schepens obtained last year by fair promises, which were not fulfilled, as their petition shows, from the Director-General and Council the right of collecting the Tavernkeepers'

Excise for their own revenue on the condition of defraying the expenses of the ecclesiastical establishments therewith and of providing for any deficit therein themselves. The Burgomasters and Schepens have so far not only been remiss in the one as well as in the other, but have also not even favored the Director-General and Council with an answer with regard to the ordinance passed by the Burgomasters and Schepens on behalf of the preachers, much less with a return or proof of what has been done with the proceeds of the Tavernkeepers' Excise, which heretofore has always been paid into the General Treasury. The Director-General and Council are therefore compelled by their official position and duties, to remind the Burgomasters and Schepens under instructions from the Lords Patroons of the necessity to provide revenues for the support and maintenance of the civil and ecclesiastical officers as well as of the military, sent over by the Hon^{ble} Company in the last ships and of the larger force still to arrive. The Burgomasters and Schepens will therefore please to consider without further delay and excuses, how to raise their quota pursuant to the orders and instructions of the said Lords-Patroons and the remonstrances made to us repeatedly and they will command their Clerk and Receiver, that he submit to us next Monday their answer and an account of the proceeds and expenditures of the Tavernkeepers' Excise. Relying hereupon etc.

EXTRACT FROM THE RESOLUTIONS OF THE BURGOMASTERS AND SCHEPENS OF THE CITY OF NEW-AMSTERDAM (CONCERNING A PUBLIC LOAN AND A TAX ON LAND).

The Burgomasters and Schepens of this City of *New-Amsterdam*, met in session, *Mr. Martin Cregier* being absent, read a memorial delivered to them by the Hon^{ble} Director-General, instructing them to consider measures for raising their quota of paying for the fortifications built for the defense of the country generally and having made an estimate of the expenses incurred, they came to the conclusion, that the outer and inner lines of works made for the defense of the City this and last year cost about 16000 guilders. They have resolved to contribute their quota with the other districts and believe that 3000 guilders will fall upon their share, which they promise to pay, if the Hon^{ble} General and Council will authorize them to levy a small tax on the real property within their jurisdiction.

Thus done and resolved August 10th 1654.

ORDINANCE REGULATING THE PUBLIC WEIGH-HOUSE AND SCALES, PASSED AUGUST 10th 1654.(See Laws and Ordinances of *New-Netherland*, p. 174.)

RESOLUTION OF THE DIRECTOR AND COUNCIL TO RESUME THE TAVERNKEEPERS' EXCISE AND TO FARM IT OUT TO THE HIGHEST BIDDER.

The Director-General and High Council have examined the accounts submitted by the Burgomasters and Schepens, referring to the excise on beer and wine, which had been granted to them provisionally under condition, that the elergy should be paid from it. The Burgomasters and Schepens did not only fail to comply with this condition, but they also bring several items in this account, which are not acceptable, for instance a certain amount of money paid by them to *Francis Le Blue* and various expenses paid in his behalf to *Abram Lenoy*s and several others, which for decency's sake the Director-General and Council pass over in silence.

Induced by these and other reasons the Director-General and Council have resolved, to let the excise on beer and wine, to be consumed within this City to the highest bidder, according to the customs of our Fatherland, and they have further resolved that the same shall be let on or about the 25th of November next.

THE CASE OF JOHN GRAY (CRU) OF MIDDELBURGH (NEWTON L. I.).

His examination on the charge of having abused the Magistrates of *Middelburgh*.

The Fiscal brought before the Council the prisoner *John Cray*, who is accused of several offences, most all of which he denies; but he confesses to have prevented Marshal *Bely* from attaching some cattle, because it belonged to his children. He says further, that if he has called the Magistrates of *Middelburgh* thieves and has threatened, it would cost a life, if anybody were to distrain him for taxes, imposed by the Council, it must have been done in passion, for he does not remember having said it. He also denies having threatened to cause the death of Mr. *Coo* and having lodged some of the privateers; he says, he has only given shelter to his son and to *Thomas Wilkeson*.

Done at the meeting held at *New-Amsterdam* August 15th, 1654, the Hon^{ble} Director-General and all the members of the Council being present.

CONFESSION OF JOHN GRAY MADE ON THE 15th AUGUST 1654 IN PRESENCE OF THOMAS HALL
AND CAREL VAN BRUGGE.*

He declares himself not guilty of the theft of the muskets belonging to *Hendrick Jansen*. The reason, why he took pains to have them returned, was, that his wife had become security, without his knowledge, for their restitution, because her brother and her son had committed the theft.

He confesses himself guilty of refusing to obey the Magistrates and of resisting the Marshal, acknowledges to have uttered the threats, which his son *Luke* was to carry out to create a commotion in the village of *Middelburgh*. He confesses to having threatened and said, that if anybody came to seize his property for village taxes, it would cost a life and further admitting all his misdemeanors, he requests the Hon^{ble} Director-General and Council for a merciful sentence.

JOHN GRAY.

THOMAS HALL,
CAREL VAN BRUGGE,

Thus done in my presence.

CORNELIS VAN RUYVEN, Secretary.

CHARGE OF THE FISCAL.

To the Noble, Very Honorable *Petrus Stuyvesant*, Director-General and the High Council.

Gentlemen.

John Gray, a resident of the village of *Middelburgh* on *Long Island* or within its jurisdiction, arrested in March 1653 for stealing and branding two calves, the property of *Thomas Grijds*, has been condemned by your Hon^{ble} Worships, after due examination and verification of the aforesaid crime, on the 24th March of the same year, as proved by the sentence here annexed, not to leave his land or its boundaries within the three months following the passage of the aforesaid sentence, to which was added the order, that he must dispose of his property within this time and after its expiration to remove from the district of *Middelburgh*, paying besides a fine of 300 guilders and all the expenses of the suit. The said *John Gray* has paid no attention whatever to this said sentence of your Hon^{ble} Worships; against the order expressed therein he has remained on his land, going to the village of *Middelburgh* and elsewhere, until the third of this month of August, when he was sent here to *Fort Amsterdam* by the Magistrates of *Middelburgh* and delivered into the hands of the Fiscal as a prisoner.

The said Magistrates of *Middelburgh* and others have bitterly complained of the insolence and misconduct of the said *Gray*, now a prisoner, as the attestations delivered by them at *Middelburgh* to the Hon^{ble} Director-General show; *John Gray* having been examined and heard in regard to these declarations before your Hon^{ble} Board on the 10th, 13th and 15th inst. confessed without torture and unbound according to the statement signed by him on the 15th as follows:

First. He owned by word of mouth, that he has paid no attention to the sentence passed over him by your Hon^{ble} Worships nor has he paid the fine imposed upon him.

* His counsel, see N. Y. Col. MSS., Vol. V, 318.

Second. That he disobeyed the order given by the Magistrates of *Middelburgh* and resisted the Marshal making a seizure, as the affidavit of the latter, repeated in presence of *John Gray* on the 13th, shows.

Third. *John Gray* has lodged and concealed two of the robbers or privateers, who annoyed and tried to plunder the inhabitants of this Province on land and at sea.

Fouth. He has admitted, that he with his son *Luke* has threatened the inhabitants of *Middelburgh*, saying the same would create there such an uproar, as never had been heard before. This is proved by the declaration repeated in *John Gray's* presence.

Fifth. He acknowledges to have uttered a threat, saying it should cost a life, if anybody were to come with the intention of seizing or levying on his property for village-taxes.

All this tends to a vilification of your Hon^{ble} Worships' sentence and order and to a disregard of the authorities, which in a country, where justice is valued, ought and cannot be tolerated, but must be proved by the maintenance of justice and as an example for others.

The Fiscal moves therefore, that *John Gray* shall be taken to the place, where justice is usually administered, there to be whipped with rods and then banished the country, moreover that after having received sentence and punishment he shall be condemned to imprisonment until he has paid the fine imposed by the sentence of March 24th, 1653, together with the costs and mises of the laws.

New Amsterdam in New Netherland, August 17th 1654.

CORNELIS VAN TIENHOVEN, Fiscal.

SENTENCE OF JOHN GRAY.

The Director-General and Council of *New-Netherland* have read the charge and motion of the Fiscal *Cornelis van Tienhoven* against *John Gray*, a resident within the jurisdiction of *Middelburgh* on *Long-Island*, now a prisoner, and have further read and heard the confession of the prisoner, based on which the motion of the Fiscal might be agreed to. But we must bear in mind, that by the sentence of the 24th of March 1653 the said *John Gray*, now a prisoner, received permission to remain on his property undisturbed; if thereafter he would conduct himself properly and give no new cause of complaint, so that the Magistrates of *Middelburgh* and his other neighbors could not find fault with him and further, that it has not been proved to the satisfaction of the Director-General and High Council, that the said *Gray* has received any further insinuation either from the Fiscal as plaintiff or by the Magistrates of *Middelburgh* concerning this case, his confession and the evidence of others only showing, that the said *Gray* has not conducted himself since that time to the satisfaction of the Magistrates and his neighbors, but has acted very wickedly, insolently and disobediently against the said Magistrates of *Middelburgh* and his neighbors, as the annexed affidavits of witnesses and his own confession prove. We must further remember, that the aforesaid insolence and disobedience were, as he himself admits, the result of an ungovernable passion, roused by the prisoner's belief, that he was no subject of them and that the land belonged to him absolutely, by virtue of patent and conveyance, therefore he had a right to defend and protect it. After the other side has now been shown and proved to the prisoner, to wit, that the land, claimed by him and which he has bought from others, had first been given and granted to the village in common on the condition, that they would surrender the patents, they had received, and in the interest of the community assert no claims of more right and

title in the lands, covered by the patents, than other inhabitants, if more people should come to the village of *Middelburgh* and settle there, as they have done afterwards, the first patentees *John Carreman*, *Robeson* and *N. Forman* inviting the greater part of the present inhabitants and inducing them to come from the North: the prisoner now having been informed thereof and understanding the situation better, regrets his actions and words in this regard and submits with an humble prayer for grace. Having duly considered and weighed all these points and everything connected with the case and being satisfied, that nearly all the troubles, threats and vituperations were caused thereby, desiring also to prevent such occurrences in future, the Director-General and Council administering justice to the best of their knowledge and experience on behalf of their Noble High: Might: the Lords-States-General of the *United Netherlands* and the Lords-Directors of the General Priv. W. I. Company command and decide herewith, that the said *John Gray*, at present a prisoner, as well as his neighbors shall first surrender their so-called patents, in conformity with the stipulated conditions and pursuant to their own request and promise given to the present inhabitants of *Middelburgh*, and shall make no further claims upon the lands, provided, however, that the land, which he, *Gray*, has cultivated, improved and fenced in shall remain the property of himself and his heirs and as much more land, as shall have been granted or allotted by the Magistrates to the other inhabitants of the village. For this land he or his heirs and the other inhabitants shall in due time receive proper patents and title deeds.

Therefore the so-called patent, which he already has, is hereby annulled and cancelled.

The prisoner is moreover condemned to pay the fine and the mises of the law, then under the last sentence to ask God, the Government and the Magistrates of *Middelburgh* with uncovered head and bent knees to forgive him and further to pay the costs of his present detention and these proceedings, remaining in confinement until he shall have completely conformed with the terms of this sentence or produced sufficient sureties, satisfactory to the Fiscal, which having been done the Fiscal's further complaint and motion are denied.

(See Laws and Ordinances of *New Netherland*, p. 177.)

RESOLUTION TO POSTPONE THE COLLECTION OF THE TENTH AND TO IMPOSE A TAX ON LAND AND CATILE.*

We, the Director-General and Council of *New Netherland*, have at several occasions seriously considered the instructions of the Noble Lords-Directors, Department of *Amsterdam*, Lords and Patroons of this Province of *New-Netherland*, in regard to a collection of the tenth and to providing revenues for defraying past and future expenses, and having held several meetings and consultations on these points we find, that the collection of the tenth is for the present and as long the inhabitants live so far from each other very difficult and almost impossible,

* See the Resolution of June 2^d, 1654, p. 269.

so that the expenses of collecting the tenth would almost be as great as the receipts. Besides some settlers in the country claim under their letters-patent each for himself large tracts of land, remaining uncultivated and waste, from which for many years no tithes can be expected. Wishing on the one side to counteract the acquisition of too large tracts and on the other to prevent the great expenses, which must be incurred by collecting the tenth, the Director-General and Council have for these and other weighty reasons deemed it best, most useful and profitable for the Hon^{ble} Company, subject to the approval of the Lords-Patrooms, not to demand and collect the tenth for some years to come, until the population shall have increased, levying instead a tax on cattle and land, to wit for each morgen, which a party claims or desires to own under letters-patent, one guilder of 20 st. shall be paid yearly, for each head of cattle over 3 years old, one guilder for each head of two years 12 stuyvers, payable one half in November, the other half in April at the General Treasury. The tax on houses and lots in the respective villages, the owners of which do not own or claim any land, shall be the 100th penny of their real value payable yearly, the valuations to be made by three impartial men, one being a member of the High Council and the other two members of the respective Courts in the villages, appointed by the Director-General. These valuations completed, vacant lots shall be granted to others, if the actual owners have neglected or are unwilling to build thereon in pursuance to the printed and published ordinances.

LETTER FROM THE BURGOMASTERS AND SCHEPENS TO THE DIRECTOR AND COUNCIL: SALARIES OF THE MINISTERS, THE CHURCH OFFICERS AND THE MILITARY; CITY-SHERIFF; TAXES.

To the Noble, Very Worshipful, Honorable
Director-General and High Council of *New
Netherland*.

Show with due reverence and submission the Burgomasters and Schepens of the City of *New-Amsterdam*.

On the 20th of July, while in session, they were summoned before the Hon^{ble} Director-General, when his Honor in presence of two ministers, Domine *Megapolensis* and *Driesius*

communicated to them the letter from the Noble Lords-Directors, Department of *Amsterdam*, Lords and Patrons of this Province of *New-Netherland* and what their Noble Worships demanded. His Honor thereupon admonished them not to remember what had passed before, but to live henceforth in harmony, which was promised by both sides. Then the Hon^{ble} Director-General delivered to the Burgomasters and Schepens the letter addressed to them by the Noble Lords-Directors, by which we are willing to govern ourselves, following the directions contained therein.

Now the Hon^{ble} General and High Council have been pleased to censure us in a memorial sent us on the 4th August concerning some omissions and to lay before us the great necessity of providing a revenue, by which the civil administration, the church and the military (arrived by the last ships and to be expected in the following ones) might be supported and maintained, also to determine our quota of the amounts to be paid for the loan, for the building of the walls and breastworks around the City and to remember besides, that the Burgomasters and Schepens had obtained last year the revenues from the Tavernkeepers' Excise under condition, that the expenses of the ecclesiastical establishment should be paid therefrom and that the Burgomasters and Schepens should make good the deficit from other resources.

Hereupon the Burgomasters and Schepens of the City of *New-Amsterdam*, having no other aim, but the welfare of and harmony between this City and their superiors, the Government of this Province, and wishing first to pay off all debts, have offered as their quota the sum of 3000 guilders, as shown by their resolution delivered to the Hon^{ble} Director-General on the 10th of August, other districts to pay in proportion. By doing this, they believe, that the taxes and debts can be liquidated.

Whereas the Noble Lords Directors, as Lords and Patrons of this Province have consented, that the Excise shall be paid into the City's Treasury, as the 4th article of their letter to the Burgomasters and Schepens shows,

Therefore we agree and engage ourselves on behalf of this City of *New-Amsterdam* to pay for the ecclesiastical establishment the salaries of

One of the preachers,
One precentor, who is to be schoolmaster at the same time,
One beadle,

For the civil administration

the Schout,
both the Burgomasters,
the five Schepens,
the Secretary,

the Court messenger and whatever other expenses we shall consider necessary. The Burgomasters and Schepens will further provide, in pursuance of the directions from the Lords-Directors, for some minor revenues, of which they will in time inform the Hon^{ble} General and Council, if the amount is not sufficient.

As to the proposition of the Director-General and Council to support the military, the Burgomasters and Schepens believe, that the community of this City is not able to bear it and ought not to be burdened with it, because it concerns not this City alone, but also the country generally and because we and the train bands have always shared in all general works, expeditions, watches and other heavy burdens, and have been willing and the first in times of troubles and defended ourselves.

Whereas the Hon^{ble} Director-General proposed to us on the 21st of July 1654, that *Jacques Corteljou* take the office of Schout of this City of *New-Amsterdam* and whereas nothing has come of it, the Burgomasters and Schepens request herewith, that the Schout may be appointed according to the instructions of the Lords-Principals.

Whereas last Thursday, the 27th of August, *P. Leendertsen* and *Oloff Stevensen* were called to the session of the Hon^{ble} Director-General and Council on account of some prisoners and whereas at the same time a proposition was made to them by the Hon^{ble} General and Council, to inform the Board of Burgomasters and Schepens, that their Honors had the intention of imposing a tax of the 100th penny on all real property and whereas the Burgomasters and Schepens submitted on the 10th August a resolution to the Hon^{ble} General, wherein they promise to raise as their quota the sum of 3000 guilders, if permitted to levy it on the real property, now therefore they have resolved to impose a tax of the 100th penny on the real property within their jurisdiction and trust, that the Hon^{ble} Director-General and Council will not object to it.

Thus done at the session of the Burgomasters and Schepens, *Martin Cregier* and *William Beeckman* being absent, this 31st of August 1654, at the City-Hall in *New-Amsterdam*.

ARENT VAN HATTEM.

By order of the Burgomasters and Schepens of the City of *New-Amsterdam*.

JACOB KIP, Secretary.

COUNCIL MINUTE. THE MAGISTRATES OF MIDWOOT (FLATBUSH) ARE AUTHORIZED TO LEVY A TAX.

On the day, date underwritten, the Magistrates of the village of *Midwout* submitted a petition, to which the following answer was given :

The Hon^{ble} Director-General and High Council of *New Netherland* authorize herewith the Schout and the Magistrates of the village of *Midwout* at their request, to levy a tax of six guilders on each lot in the jurisdiction of said village to defray past and future expenses.

LETTER FROM DIRECTOR STUYVESANT TO LADY MOODY AT GRAVESEND IN REGARD TO THE APPOINTMENT OF COMMISSIONERS TO SETTLE CERTAIN BOUNDARY DISPUTES.

My Lady.

Agreeably to your Ladyship's request and our promise we have commissioned Messrs. *Nicasius de Sille*, *Jan de la Montagne*, members of our High Council and *Paulus Leendertsen van der Grift* and *Oloff Stevensen Cortlandt*, Schepens of this City, to settle the boundaries between the lands of the village of *Gravesend*, of *Anthony Jansen on Coney Island* and the land formerly owned by *Robert Penoyer*, according to the letters-patent and deeds. Our aforesaid commissioners will, if it so pleases God, report to-morrow morning and these lines are to request and admonish your Ladyship to send some persons there, who may take care of your Ladyship's rights.

Recommending your Ladyship with cordial greetings to God's protection, we remain, my Lady,

Your Ladyship's
affectionate friend

DECREE DECLARING UNLAWFUL AND VOID THE MARRIAGE OF JOHANNES VAN BEECQ AND MARIA VERLETH, MARRIED BY A FARMER IN CONNECTICUT.

Whereas the Director-General and Council of *New Netherland* have heard the charge of the Fiscal against *Johannis van Beecq*, a free merchant and inhabitant of this City of *New Amsterdam*, defendant, who has been duly summoned by the Court Messenger *Elslandt* in the name of the Fiscal on three Court days and who has had himself married by an unauthorized countryman, named *Goodman Crab*, living at *Greenwich*, against the laudable laws and customs of the *United Netherlands* and, as the Fiscal further states and proves in his charge, contrary to the advice and command of his lawful guardian, the Hon^{ble} Director-General, also without previously publishing the bans and who has so far failed to make his appearance,

And whereas the Fiscal demands by his motion, exhibited on the 1st of September 1654, that the said *van Beecq* be condemned in contumacy,

Therefore, after proper invocation of the Lord, the Director-General and Council of *New Netherland*, in the name and behalf of their Noble High: Might: the Lords-States-General of the *United Netherlands* and of the Noble Lords-Directors of the Privileged West India Company administering justice at the requisition of the Fiscal, declare, that the Fiscal's charges are true and founded in law and therefore the marriage of *Johannis van Beecq* and *Maria Verleth*, solemnized at *Greenwich* and confirmed by an unauthorized person contrary to the laudable laws and customs of *Netherland* and without previous publication of the bans, is hereby declared by the Director-General and Council unlawful and the said *Jan van Beecq* and *Maria Verleth* are commanded to live separate under penalty of being punished according to law for living in concubinage.

Thus done etc., *New Amsterdam*, Septbr 14, 1654, present the Director-General, Mr. *N. de Sille*, *C. van Werckhoven*, *La Montagne*.

ANSWER OF THE DIRECTOR-GENERAL AND COUNCIL TO THE LETTER OF THE BURGOMASTERS ETC DATED AUGUST 31, REFERRING IT TO THE HOME AUTHORITIES.

We had not intended to give an answer in writing upon a case so often discussed and proved so sufficiently to be not less fair, than necessary, and we should not have meddled with it any further, if it were not for the purpose to give, at the request of the Burgomasters and Schepens, a more detailed information and report to the Lords-Directors and whomever it concerns, of our endeavors, to obtain subsidies and money, and of the dilatory excuses and pretenses of the Burgomasters and Schepens brought forward to obstruct so reasonable and urgent a measure.

We assent to and pass over the statement of the Burgomasters in regard to what has passed between them and us in presence of the two ministers.

We had expected, that the Burgomasters and Schepens would more value their promise made then, concerning the raising and procuring of a subsidy, but as they have failed to fulfill it, we deemed it our duty, acting under the instructions from the Directors and feeling the urgency of the case, to remind the Magistracy in writing of their duties and promises, of which they acknowledge the substantial part leaving out however all mention of the amounts to be paid for the loan, which was made for building the City walls and breastworks. It has never been our intention, that the

Burgomasters and Schepens should pay and support all, for that would be not less unfair, than impossible, and our memorial of August 4th was not meant so much to berate, as to remind the Burgomasters and Schepens, who understood the necessity as well as we, to fulfill their promises made and subscribed by them on the 13th of March 1653, to wit: *

"The Burgomasters and Schepens of this City of *New-Amsterdam*, *Martin Cregier*, who is absent excepted, advise and demonstrate, that above all it is necessary to enclose the greater part of the City of *New Amsterdam* with pallisades and after this has been done as speedily as possible to put *Fort Amsterdam* in good shape for defense, to serve as a place of retreat. They offer for the accomplishment hereof to provide the sum of 5 to 6 thousand guilders."

The consent given hereto by the Director-General and Council and their reasons for it are stated in their resolution of the following day, the 14th March, but the promise of the Municipality, to assist in repairing the defenses of the Fort after the breastworks of the City had been erected, has never been carried out and the 5 to 6 thousand guilders, offered for the payment of the materials, have been used by the Burgomasters and Schepens not for the works in general, but have been borrowed from some merchants for the defense of the City alone. These creditors now dun the Company, as the Burgomasters and Schepens have so far failed to repay the loan, and demand, that their loans should be set off against the duties.

As shown by their petition of last November **, the Burgomasters and Schepens obtained from the Director-General and Council the privilege of collecting the Tavernkeepers' Excise on the promise and under the condition, that they would induce or compel the citizens to provide means for the support of the preachers and to pay the debts made on account of the fortifications, also to raise some further revenues. Besides this they obtained upon their request of the 19th February the authority to levy other municipal taxes for the purpose, as they state in their petition, of defraying the expenses for the fortifications and of paying debts incurred therefor. Impartial people may judge how deceitfully and perversely the Burgomasters and Schepens have misled, if not ridiculed, the Director-General and Council in each case, and disappointed them of their income, the returned accounts and the requests or remonstrances of the 10th and 31st of August annexed thereto show with sufficient conclusiveness the first, to wit the accounts submitted, that the revenue from the Excise was not employed according to the intentions and stipulated conditions, in paying the ministers' salary and the expenses for the fortifications, but rather in entertaining and sending off one *Le Blue*, the second, that is the request or remonstrance of the 31st August, to which what follows hereafter may serve as answer, that although promised the necessary subsidies were not given.

It appears strange to us, that the Burgomasters and Schepens pretend, that in order to liquidate the debts their quota should only be 3000 fl. which sum they offer to raise as a good example, according to their statement of August 10th, wherein they nevertheless plainly state, that the whole amount of the debt is 16000 fl.

The Burgomasters and Schepens will first please to consider the former statement, that the works were not for the benefit of the country in general, but only for behalf of this City and that neither the Magistrates nor the community of this City have done or contributed anything for the general work.

They will further please to consider another previous statement, that they have promised last year to contribute towards the City's fortifications made to their satisfaction and afterwards destroyed, the sum of five to six thousand guilders, for which we refer to their signed

* See page 199, *supra*.

** See page 219, *supra*.

request and offer, besides what they should be held to contribute with us and others, toward repaying the loan negotiated this year. The Burgomasters have further had the use of and drawn from the Tavernkeepers' Excise over 3000 guilders, which heretofore had always been paid into the General Treasury for the benefit of the whole country, so that the Burgomasters and Schepens are quite mistaken in believing, they set a good example in offering 3000 fl. as their quota, when they have already collected more, than that sum out of the Excise, belonging to the whole country.

Not less strange and perverse is the statement of the Burgomasters and Schepens, that the Lords-Directors, the Lords and Patroons of this Province, intend, the Tavernkeepers' Excise should be paid into and received by the City Treasury, as they themselves had written to the said Directors and plainly stated, that the aforesaid Excise had been granted to them only conditionally by the Director-General and Council, consequently not by the Lords-Directors, who by no means disapprove of this limitation, but rather deny the assertions and proposals of the Burgomasters and Schepens. As to the further remonstrance and complaint, that the Excise, obtained conditionally from the Director-General and Council and *not* from the Lords-Directors, was not sufficient for the support of the civil and ecclesiastical officers and for the keeping in repairs of the City walls, for which reason they ask authority to impose new taxes, stating the community to be satisfied therewith, the Burgomasters and Schepens are referred to the decision of the Director-General and Council; *cessante conditio cessat obligatio*.

As the Burgomasters and Schepens do not fulfill their promise and carry out the conditions, to provide for some other revenue in place of the Tavernkeepers' Excise and as they have failed, to let the same for the purpose of paying the salaries of the clergymen and placing them above want, the Director-General and Council are compelled, to let the said Excise to the highest bidder in conformity with their resolution of the 13th of Aug. last past, and to employ the proceeds in promptly providing for the support of the clergy. By these means the Burgomasters and Schepens will be excused and delivered from carrying out their offer to support at their expense one clergyman, one schoolmaster and one beadle, the intentions and order of the Lords-Directors will be executed, the *jus patronatus* will be preserved and both the clergymen paid and placed above want.

The Director-General and Council never intended, when making the proposition in regard to the support of the military, to place the whole burden thereof upon this City, as the Burgomasters and Schepens apprehend; that would be not less unfair than impossible. The meaning of all the former propositions, remonstrances and memorials has been and still is, that the Burgomasters and Schepens, as the most prominent men of this our capital and residence, should contribute their fair and just share of the past and future expenses, increasing from year to year, so that other less prominent people may see their good example and follow it. As we have not been able to obtain this by persuasion, we are obliged to find means ourselves or else to report to the Lords-Patroons the excuses, subterfuges and disinclination of our subjects in this matter, the more so, as it is well known and proved, that the export duties on peltries amounting year in year out to hardly more than 20 to 22 thousand guilders are not sufficient to support the present civil, ecclesiastical and military establishment, and to defray besides other expenses and outlays, necessary for the acquisition of ammunition, repairs of the fortification, public works, churches, houses etc.

As to the request, that a Schout might be appointed to complete the Court, according to the order of the Lords-Directors, the Burgomasters and Schepens are right in stating, that at the urgent request of Mr. *Werkhoven* we intended to commission for this place *Jacques Corteljou*.

He, however, found himself aggrieved by the instructions given him and we have been compelled to defer the matter, until the Lords-Patroons shall have approved or altered the instructions, as first framed, or until we find another capable person.

On the last point the Burgomasters and Schepens have been correctly informed by their colleagues *Paulus Leendertsen* and *Oloff Stevenson*. To provide for the above stated wants, the Director-General and Council have found it necessary and concluded, to levy on the houses and lots, the owners of which pay no cattle or ground tax, the 100th penny for this year. The Burgomasters state, they had also resolved, to levy such a tax, to raise their quota, which they pretend to be 3000 guilders. This point has substantially been answered before. The Director-General and Council care very little, whether the 100th penny is ordered to be levied by and paid to them or to the Burgomasters and Schepens, as long as the proceeds are used according to the instructions of the Lords-Directors, to ease their burdens and for the civil and military servants.

We have spent more time, than we intended, in explaining and answering these points, but it was done for the better information of the Burgomasters and Schepens as well as of the Lords-Patroons, to whom this letter with the request or memorial of the Burgomasters and Schepens and our resolution concerning the tax of the 100th penny will be sent, that they may make disposition of the subject according to their usual wisdom.

Given at *New-Amsterdam* in *New-Netherland* September 16th 1654.

By order of the Hon^{ble} Director-General and High Council.

CORNELIS VAN RUYVEN, Secr^y.

ORDER ON A PETITION FROM THE COURT OF MIDWOUT AND AMESFOORT RESPECTING CHURCH MATTERS.

The Magistrates of *Midwout* and *Amesfoort* presented to the Council a petition, which is copied into the Book of Petition and to which the following answer was given.

It is resolved upon the petition of the Court of *Midwout* and *Amesfoort*, first concerning the proposition to continue the teacher, that they must proceed in this matter according to the rules of the church and await the answer of the Lords-Directors to the request made by the said Court or its deputies. Meanwhile the Director-General and Council are satisfied, that the present teacher, D^r *Polhemius*, attend to the divine service among them, until further orders shall have been received from the Fatherland and they also consent, that he shall receive for his ministrations a proper and fair remuneration in conformity with the teachings of the Apostle Paulus, "*that he, who serves at the altar, shall live by it.*"

As to the further request for assistance to obtain a house, in which divine service may be held, the Director-General and Council consent, that some persons, duly qualified by the said Court, may solicit assistance from others and take up a collection, to which the Director-General and Council will contribute their share according to their means.

Thus done etc *New Amsterdam*, Octbr 13th 1654, present the Director-General and all members of the High Council.

LETTER FROM THE DIRECTOR AND COUNCIL TO THE (GOVERNOR AND COUNCIL OF CONNECTICUT ?)
COMPLAINING OF ENCROACHMENTS ON LONG ISLAND AND IN WESTCHESTER COUNTY.

Honorable, Prudent and Very Worshipful
Gentlemen.

It has pleased the great and good God to end the however short, but not less bloody differences between two so old friends, allies and co-religionists and to turn them into a closer union, firmer friendship and alliance, than ever existed between the two nations. God be praised, we in this American wilderness shall enjoy the desired benefit of it, but considering the present constitution of the world and its sudden changes, we deem it our duty and that of others, whom God has placed in authority, to take as much care, as our knowledge and power allow, that jealousies and misunderstandings between two nations, especially when believing in the same religious doctrines, should be avoided or made impossible and in their place a new alliance be made, by which the subjects of either might be assured and confidently attend each to his business. If this is necessary in some places of the world, how much more it is so in these distant countries between the subjects of your Noble Honors and ours, who have been called and placed by God's Providence into a waste wilderness beyond the reach and help of friends, left to themselves amidst vast numbers of savages, who seek only the ruin and destruction of both and would accomplish it, if they were not restrained by the hand of the Almighty.

Before and during the European differences we have addressed several letters to this effect and made friendly offers to your Noble Honors and the other neighboring Governments, declaring repeatedly our real intentions on this matter, which we still hold. If our affairs had permitted we would have presented ourselves or sent deputies to the usual meeting of the Hon^{ble} Commissioners, had we had timely notice of the day and place of meeting, but with great regret we must now defer it to the next time.

In the meantime we are in duty bound to remind and inform your Noble Honors in a neighborly and friendly way, that some of your Noble Honors' subjects are beginning to settle and establish villages far within our boundaries on land, bought and paid for by us a long time ago, both on *Long Island* at *Schouts* or *Martin Gerritse's Bay* and on the mainland opposite to the *White Stone* not quite two leagues from *Manhattas Island*. We do not know, by whose authority and under whose commission they do this nor whether with or without the knowledge of the Hon^{ble} Commissioners for *New-England*, but we hope it is without their knowledge, for it would be quite contrary to the convention made at *Hartford* between their and our deputies.

We dislike very much to enter upon anything, which might increase the jealousies between the two nations in this country, but our honor and oath forbid us to let pass and allow such unlawful encroachments on and usurpation of lands bought, paid and partly settled and inhabited by us, without doing something to prevent it. Pursuant to special orders and instructions, given by the Lords-States-General, our Sovereigns and the Lords-Directors, our Masters and Patroons, we are further compelled to resist these unlawful encroachments and appropriations with all our available forces and means, if the Government of *New-England*, herewith once more kindly requested thereto, does not interfere.

Before we undertake this, we have resolved, in order to prevent further troubles, first to let the law officer of the Hon^{ble} Company, our Fiscal, issue an interdiction to all these usurpers, ordering them to desist in their proceedings and to remove. We request your Noble Honors as neighbors,

most kindly and earnestly to assist us herein and favor us with an answer, offering our poor services in similar more or less important matters.

Closing herewith we commend your Noble Honors to God's protection and blessing and remain

Honorable, Prudent and Very Worshipful
Gentlemen,

Your Noble Honors' friend and neighbor

ORDER GRANTING PERMISSION TO ANDRIES HARPERTS TO BUY AN ISLAND AND A PIECE OF LAND
OPPOSITE FORT ORANGE.

A petition of *Andries Harperts* (copied in the Book of Petitions) was read in Council, by which he asks permission to buy from the savages a small island opposite *Fort Orange* and so much woodland on the East side of the river, as he requires for a good bouwery, that he may enter upon and cultivate it. After a vote had been taken, it was resolved to grant the petitioner's request, as the small island asked for is used by the savages as a den to conceal their plunder, to the great prejudice of the inhabitants of *Fort Orange* and *Beverwyck Village*.

Thus done etc *New Amsterdam*, Octbr 27, 1654.

RESOLUTION TO HIRE ISAAC ALLERTON'S HOUSE FOR THE PURPOSE OF LODGING THE CHILDREN SENT
FROM THE POORHOUSE IN AMSTERDAM.

After reading the letter of the Noble Lords-Directors, the Director-General and Council resolved, to hire the house of Mr. *Allerton* and lodge there the children sent over by the Poormasters and to direct *Peter Lefever*, who has hired the same house, not to move into it for this and other weighty reasons.

NOMINATION AND APPOINTMENT OF MAGISTRATES FOR HEMPSTEAD, L. I.

The Hon^{ble} Director-General and Council having received the nomination made by the inhabitants of *Heemstede*, from which their Honors are to elect and confirm two persons to serve as Magistrates for the ensuing year, select and confirm herewith out of the persons nominated, viz: Mr. *Stickland*, *John Symon*, *Robert Asiman* and *Henry Pearsall*, these two, viz: *John Symons* and *Robert Assiman*.

Done *New Amsterdam* November 10th 1654.

LETTER FROM THE DIRECTOR TO THE MAGISTRATES OF HEMPSTEAD, RECOMMENDING THE NOMINATION OF A THIRD MAGISTRATE TO BE SENT IN.

Dear and Good Friends.

We have selected and confirmed out the names submitted to us *John Symons* and *Robert Assyman* as Magistrates for the next year. But we have already before now stated, that an odd number would be more convenient, than an even one, to decide all questions and differences, therefore we believe it would be better for the peace of the village to add a third member to the aforesaid Magistrates and we await by next opportunity the nomination made by the village. In the meantime we recommend you to fear God, honor your authorities and obey both.

PROPOSALS FROM THE COURT OF FORT ORANGE AND BEVERWYCK WITH THE ANSWERS OF THE DIRECTOR AND COUNCIL.

Before the Council appeared *Pieter Hartgers* as deputy from the Court of *Fort Orange* and *Beverwyck*, who verbally as well as in writing, made the following proposals and requests, to which the Director-General and Council gave answer, as noted in the margin:

1

The Commissaries are hereby authorized, to remind *Abraham*, the carpenter, who has taken the contract for the work and has been paid the greater part, of his duty and if he still remains careless, to compel him, as the work requires it. The Commissaries may make contracts for the rest to the best advantage of the Company

That the new house of the Company should be speedily completed. For want of funds they cannot do it.

2

The soldiers shall be sent to the Commissaries. The request concerning 2 st. for each beaverskin is denied.

That six soldiers be sent up to go the rounds and for other services, and that for their support two stuyvers may be levied on each beaverskin, sent away, which could be deducted, when the duties are paid at the Company's office.

3

The Commissary *Carel van Brugge* will receive orders to send 200 lbs and Mr. *Abram Staats* will be written to to deliver the balance of the last 100 lbs to the magistrates, but a correct account of this and what was formerly sent must be kept and submitted.

He asked for a quantity of gunpowder for *Fort Orange* and its small garrison.

4

The Director-General and Council approve of it.

It has been necessary to let the Tavern-keepers' Excise on wine and beer, in order to prevent smuggling.

5

The Dir. Gen^l and High Council have conferred with *Pieter Hartgers* on this matter and given him directions.

That some new grounds be allotted for building lots, as all the formerly allotted ground has been built on.

6

They must first show, in what points the instructions given, require to be amplified.

He requested an amplification of the instructions, given by the Dir. Gen^l and High Council to the Commissaries of the Court at *Fort Orange* and *Beverwyck*.

7

He shall receive 150 fl yearly.

That the Messenger *Peter Ryverdingh* receive an increase of his monthly salary.

8

Dir. Gen^l and Council agree, that the Commissaries should have a remuneration for their services and loss of time, according to the decision given to their request on the 13th May 1654.

That the Commissaries receive a salary to compensate them for their services and loss of time.

Thus done in the session held by the Hon^{ble} Director-General and High Council at *New Amsterdam*, October 28th 1654 and continued on the 18th November, present the Director-General *Petrus Stuyvesant*, Mr. *Nicasius de Sille* and *La Montagne*.

COUNCIL MINUTE. RESOLUTION RESPECTING THE TOWN OFFICERS OF GRAVESEND.

Whereas the inhabitants of *Gravesend* have repeatedly complained, that no order was kept there and the fences and pallisades were not cared for, because the former Magistrates *George Baxter* and Sergeant *Hubbard* had for important reasons been removed from office by the Director-General and Council:

Therefore the Hon^{ble} Director-General *Petrus Stuyvesant* and the Hon^{ble} Mr. *Nicasius de Sille* and Mr. *La Montagne* of the High Council appeared to-day, the 23^d of November, in person and in presence of the whole community proposed, that they should either nominate new Magistrates or remain satisfied with the present incumbents, viz: *William Wilckens*, Commissary, *Jan Mourits*, Schout and *John Tilton*, Secretary of the place, until the next election of Magistrates or add a fourth officer to the above named three.

Hereupon a unanimous answer was returned to the Director-General and High Council, that they were satisfied with the said three officers, until the time should have come for a new election. This was granted to them with an admonition to fear God, honor their Magistrates and obey both.

Thus done at *Gravesend* in the house of *Lady Moody*, the 23^d of November 1654.

LETTER FROM THE DIRECTORS IN HOLLAND TO STUYVESANT: TAXES AND REVENUES:
RENSSELAERSWYCK: BOUNDARIES AND THE TREATY OF HARTFORD: NEGRO SLAVES.

1654, 23^d of November

Honorable, Prudent, Pious, Dear, Faithful.

By the ship "*Coninck Salomon*," arrived here on the 10th of September last, we received your general letter of the 27th of July of this year, and as the "*Groote Christoffel*" and "*Swaerte Arent*" are now ready to sail, we shall not let the opportunity pass to answer your letter and add, what is required.

We have not been pleased to learn, that the great mass of the inhabitants could not be persuaded by any arguments to consider the difficult position of the Province at this time and contribute their share towards paying the expenses necessary for the safety of the whole community. But though it could not be done by appealing to their conscience, you ought not to have neglected this matter directly and entered into negotiations for a loan; seeing, that reasons and inductions were unavailable, you should have made use of your proper authority, as all competent rulers would do, and imposed upon the community fair and necessary taxes either to be paid voluntarily or levied by execution. Under such circumstances the rulers acting with circumspection and discretion and considering the financial abilities of each individual cannot be blamed.

The measures introduced by you later are approved of for the present, except that we again find, that duties have been imposed on some articles of merchandise contrary to our promise, made to merchants here; although it may be said, that this kind of goods can bear an import duty, that is not the question, from which the difficulty arises. These people are private traders, who have contracted with us, that they are to ship such goods paying such duties on them: as they are held to their part of the contract, the Company must not deviate from the same in their treatment of them and you have therefore not the power to exceed these limitations, without causing loss to the shippers and bringing us into discredit. We thought, that we had before now explained our position in this matter so well, that there need not be cause for repeating it, but seeing that you go again over the old road and every time make use of your former arguments not at all pertinent to this case, we are compelled to give you once more our serious opinion, namely, that you are to observe the contracts, made by us here, to the letter and that we are firmly resolved, if you do not, to take other measures. The administration of affairs in *New*

Netherland has been entrusted to you, but you are not to upset our promises, and even if we have not levied such duties on goods, as you think that they can bear, you are not qualified to give orders contrary to our promise and to the conditions, upon which the people rely; you may remonstrate to us and then we shall adopt such measures for the future, as we deem necessary and to which we can make the shippers agree. Before we leave this topic, we have to add, that the equivalent of this new duty on liquors (*natte waeren*) might have been collected from the consumers without obloquy and that we notice on the other side in regard to the imposts on real estate and cattle, that you are altogether too timid, raising difficulties, before they exist, and imagining dissatisfaction, which is not apparent: to say the truth, the tax of 10 stivers per morgen and one guilder for each head of cattle is so moderate, that neither the *English* nor others can reasonably complain against it.

3. The consideration of the foregoing and similar points has induced us to direct you again most seriously, to send us every year promptly and without any delay, as we have repeatedly desired, a correct statement of the amount of expenses, which must be paid there, also what the revenues received amount to, so that we may govern ourselves in our successive resolutions accordingly. At present we have no knowledge of these matters whatever and grope about as if blindfolded, for since the year 1646 we have received only once a general statement or simple balance sheet extracted from the ledgers of *New Netherland* running into the year 1649, in which among others we fail to find the credit item for the sale of the ship "*Tamandare*." You may be quite sure, that we have our suspicions, which will be increased, if by the ships now due the general records of revenues and expenses there are not sent over as promised. Should we be disappointed, which we do not expect, then we shall be obliged to adopt other means, as in duty bound.

4. We wish you to consider, whether the aforesaid revenues, each service being taken separately, might not be farmed out in one or the other district, for we think a farmer of the revenues would pay more attention to their collection.

5. We have been glad to learn, that the last embassy to the Governor of *Virginia* has been the inducement for extensive trade and sale of merchandise. You will do well to cultivate this friendship by all possible means.

6. Your action in suspending the placat sent you concerning the exportation of cattle has led us to examine the same and we are considering some difficulties, which might arise from its publication. They are not the same as those, of which you are afraid, namely that the *New England* people might be instigated by it to publish a similar prohibition in their country, whereby our people would suffer the most, as undoubtedly they draw many animals from that quarter, where there are a larger number of them and can be bought at more advantageous prices than in our Province. There is little fear therefore, that cattle will be exported from *New Netherland* and we consider the publication of this placat on this point quite unnecessary, as to the second point contained in it, concerning the slaughtering of cattle, good rules must and can be made, as there is no difficulty and it will not prejudice any one. You have herein the best experience and are therefore hereby authorized to draw up another placat concerning this matter to be published and executed pursuant to its form and tenor.

7. Regarding the running and determining the boundary line between *Fort Orange* and the Colony, we recommend that it be done the earlier the better and although we prefer not to express our final opinion on the tenth to be paid by said Colony, until other private parties actually pay theirs and the Company is in a position to receive the said tenth; yet we must say, that meanwhile, when you impose some new taxes, you should assess the Colony provisionally for one

year in the lump and to such an amount, as considering the buildings, land and cattle in the Colony, private settlers would pay in proportion: according to this assessment they must immediately pay their taxes and if they refuse the property of the Colony must be levied upon.

8. You may use the enclosed form for patents and we shall be glad to receive a statement of all the lands successively granted, to be used for our information, as it ought to be. We think more attention ought to have been paid to the obstinate refusal of *George Baxter* to deliver the letters of the *English* colonies; we have already written about former proceedings of him and some of his accomplices. If with the power you have, you do not dare to punish a few seditious persons as a warning example to others, then we willingly admit, that we see no way of suppressing evils, which if they remain unpunished gradually increase in strength.

9. We had been informed, that no order existed in the use of weights and measures and had therefore written you on this matter. As now however we have your differing advices, we are at ease about it and have ordered the desired whole and half *schepel* measures, which you may expect with this letter.

10. We do not know, what has astonished us most: that the newly arrived *Swedish* troops have endeavored to take our fort on the South river or that our commander has surrendered it so infamously. This cannot be borne and when occasion offers other measures must be adopted, so that we may not fare worse. In order to prove here, when necessary, the impropriety of these proceedings and the violation of the Company's title to their lawful property, you are directed to send us by the first ship not only authenticated copies of the conveyances and title deeds for the lands on the South river bought in 1650, but also all such other authenticated documents and papers as are required for strengthening our hands.

11. The undisturbed peace with *England*, which we enjoy by the help of God, will easily appease the ruffled mind of the *English* at the North. Meanwhile we do here our best, to obtain the long desired settlement of the boundary between the Republic and us, at least in conformity with the provisional negotiations of 1650. Their High: Might: have only lately written an urgent letter on this point to their ambassadors now in *England* and as long as no effective or final decision one way or the other has been agreed upon, you can do nothing else, but conform strictly to the terms of the aforesaid provisional agreement. If however some *Englishmen* make attempts prejudicial to the agreement, as you write, you must oppose them, first by warning them off, then by force; however so only, that no other trouble is caused to the people, then that they are prevented from settling or otherwise taking possession. If you write to their principal men, either the Governor of the nearest places or others and give notice both of our right and the usurpation by their people, you need not fear of being blamed for it here. We leave the further measures to determine the jurisdiction of the Company and when they can be carried out, to your discretion, for you have the best information, as we have already said in our letter of May 18th.

12. We do not know the person, whom you have appointed *Schout* of *New Amsterdam* and trust, that he is a capable man; but as we had proposed somebody else, the respect, due from you to us, demanded it, that you gave some reasons, why he was not appointed as proposed.

13. We are sorry to hear of the murder of *Jochem Pietersen Kuyter* and are astonished that we do not learn, what you have done to arrest the criminal. It is at present not necessary to go to war with the whole tribe, but other means might be used carrying punishment with them, even if the delinquent cannot be taken. Because if you have asked and solicited (in vain), you must endeavor to capture a member of the same tribe and keep him in prison until the real delinquent

has been placed in our hands or at least other and full satisfaction is given. If the matter is passed over without notice, the savages will believe, that every thing is allowed to them and they will be induced to more such deeds.

14. Pleased as we have been to learn, that the Burgomasters and Schepens of *New Amsterdam* have become convinced of their errors and have promised to be more cautious henceforth, it has nevertheless grieved us, that they could not be persuaded to contribute their share to the general expenses, to which they ought to have induced the community especially in these bad times, setting a good example themselves, because these expenses, the support of the military and the repair of the fortifications, were incurred for their own defense and protection. They are therefore reasonably and fairly bound to bear if not the whole, at least a share of it. If it should happen, against our expectation, that they continue so unreasonably obstinate, you must make use of your authority and proceed as we have said before on the first point, so that they may not longer imagine, that without their consent or approval no contribution can be assessed or levied.

15. Thus far in answer to your aforesaid last letter of the 27th of July; what follows is to give you further information.

16. Among the enclosures received in the said letter we found several depositions concerning the infamous surrender of the Company's fort on the South river, which are neither sworn nor attested. As this is necessary for its *justification*, we have concluded to write and order you not only to send them over duly authenticated, but also henceforth to do the same with all other depositions concerning the Company's interests, that we can make use of them in due time.

17. The good report, which you have given us of *Brian Newton*, has induced us to re-appoint him on his petition made to our board to his former charge of Lieutenant. He now goes for this purpose in the "*Grote Christoffel*" to *New Netherland*.

18.*

19. We have made here a contract with *Sr. Henrico Mathias*, who is to sail with his ship "*Jonge Tobias*" to *Porto Rico*; upon his request we have also given him permission to bring salt from *Buenairo* to *New Netherland* on condition of his paying to you such duties as are imposed and on the goods and merchandise, which he may bring besides, 16 per cent., as other traders pay here to the Company for outgoing goods. That you may be better posted in this matter, we send you enclosed the invoice of the cargo of the said ship taken in here.

20**

21. Experience has taught us, that *New Netherland* tobacco is packed in hogsheads very deceitfully with intention to defraud, for the top layers at both ends are of the best quality, while in the middle the worst and most rotten is packed. The bad condition and rottenness originated through moisture, as the tobacco is packed too damp and not sufficiently cured, which causes the leaves to turn black at the edges and spoils them, while if they retain their yellow color throughout they bring a much higher price. To prevent this the inspectors of tobacco should be directed and strictly held to keep a close watch either by opening the hogsheads at both ends and taking out the tobacco to see whether it is dry and well cured or by some other convenient and safe means, which are considered best; in case of neglect or connivance the inspector must be removed from office. Further, the planters there must be informed, that much depends on the cultivating and curing of the tobacco, for it is considered much stronger and pleasanter, when it is pruned in time, during its growth; and if after drying it has a good yellow color, it has been found to be valued

* Discharge of *Barthold Maniken*, a soldier in the Company's service.

** Refers to the account of *Cornelis Oesma van Harlem*, a former servant of the Company.

much higher here, bringing one-half as much more, than the *Virginia* tobacco. We believe this to be a matter of considerable importance, to which all possible attention ought to be paid: if well taken to heart, it may make the commonwealth and its inhabitants flourishing and wealthy. We deem it therefore necessary, to recommend to you most seriously, to make such rules and see to their enforcement, as the importance of the matter requires.

22. We have already referred above to the damages done to private traders here and the disrespect to us, if contrary to made agreements merchandise is taxed and we have at the same time expressed our opinions and desires; especially, that we by no means understand or wish this to be done there by you without our knowledge. Later, on the 5th of this month, we have resolved upon just and well founded complaints made to us here by traders, that the said newly imposed and collected duties shall be refunded there by you and that this may be done so much sooner and with the least inconvenience to you we shall remit to you now one fourth of the 16 per cent duty (so that we retain here only 12 p. c. for goods shipped to *New Netherland*), which fourth part or 4 p. cent., received by you now, together with the four stivers on beavers, shall be specially deposited and used, until the said newly imposed duties have been completely refunded by direct payment, counter charges or other indemnifications; furthermore the loan negotiated and raised by you there must also be liquidated out of these funds, as the enclosed extract from the resolutions, adopted by us in this matter, will tell you.

23. Upon one of these two ships, the "*Swarte Arent*," goes as supercargo *Johan de Decker*, whose abilities, we admit, deserve of a better and higher position; for besides being a well conducted man, experienced in business, having served faithfully for some years as *procureur* (state's attorney) and notary at *Schiedam*, he is a young man of sound judgment and writes a neat and manly style. You may try him and employ him provisionally in the office or in some other place, for we have concluded, that he shall remain there in the Company's service, recommending that upon the first occasion offering you give to the said *Decker* a proper and decent appointment, for we are confident that the Company and you will be benefitted by his good and faithful services.

24. Whereas some time ago and again now great complaints have been made concerning the delivery of private letters coming thence, which are often kept undelivered two or three weeks or lost entirely to the great disadvantage of private traders and others, therefore we direct you herewith to have a box or chest made there, in which the said letters are to be collected and then to give them, well secured in one package to the supercargo, whenever a ship sails, with orders to hand them to us on arrival here, so that the people can quickly receive them.

25. As passenger of the ship "*Grote Christoffel*" comes over a freeman, *Jean Paul Jacquet* with his family; as he does not know any one there and intends to engage in farming, we could not upon his request refuse him a letter of recommendation, the more so as he has served the Company in *Brasil* for many years. We desire you therefore to assist him as much as possible without prejudice to the Company and after selecting a convenient place to give him as much land under the usual conditions, as he shall be able to cultivate.

26. After closing and dispatching the duplicate of this letter by the "*Swarte Arent*," we have upon the request of some private traders, *Jan Sweerts* and *Dirck Pietersen Wittepaert*, and in consideration of the promotion of population and agriculture in *New Netherland*, given permission and consented, that with their ship, the "*Wittepaert*," they may sail to the coast of *Africa* and trade there for negro slaves to carry to *New Netherland* and sell to the inhabitants, on condition, that they pay to the Company here for the goods and proceeds from their sale of

slaves, brought back here in the same ship, the legal dues or, if the Company prefers it, the usual tonnage fees pursuant to the rules for trade to the coast of *Africa*. The enclosed extract from our resolutions of the 19th inst. gives you further information.

27. The invoices and bills of lading of goods and merchandise shipped in the "*Grote Christoffel*" by private traders is here enclosed. The Fiscal is herewith directed to keep a good watch, when this ship discharges her cargo, that the Company may not be defrauded of her dues.

28. We enclose the muster-roll of the soldiers, coming over in the "*Grote Christoffel*." We have made great endeavors to obtain a larger number, but could not succeed on account of the recruiting by the East India Company. You will take care and direct, that the accounts of such as come with their wives and children are duly debited with the passage money of their families, besides their arms and two months' pay paid in advance, for the Company, as you know, has to pay the passage for these women and children here. Besides a master carpenter, a gunner and a boatswain, we send you also in the said ship a quantity of pioneers' and other tools, as per invoice.

REMONSTRANCE OF THE SCHEPENS OF NEW AMSTERDAM AGAINST BEING DEPRIVED OF THE
REVENUE FROM THE CITY EXCISE.

To the Noble, Very Worshipful, Honorable
Director-General and Council of *New
Netherland*.

Show with all due reverence and submission the present Schepens of this City of *New Amsterdam* :

Whereas they have learned from affixed handbills, that your Hon^{ble} Worships intend to let by public auction on the 25th of November next to the highest bidder the Tavernkeepers' Excise on wines and beer within this City,

Therefore they, the undersigned, beg leave to remind your Hon^{ble} Worships, that by a letter from the Noble Lords-Directors, Department of *Amsterdam*, Masters and Patroons of this Province, the excise in this City was conceded to the City. Hence we submitted to your Hon^{ble} Worships several documents on the 31st August, wherein we made such promises, that we were entitled to hope, everything would be settled to our mutual satisfaction. As yet we have received no answer, so that we have not been able to do one thing or the other, and we trust that your Hon^{ble} Worships will not deprive the City of the revenue from the aforesaid Excise, conceded and granted to us by the Lords-Patroons. If however your Hon^{ble} Worships should require funds, it

would be, in our humble opinion, preferable to levy for them on the country generally, but not on this City alone. We refer this matter to your Hon^{ble} Worships' wise discretion and commend your Hon^{ble} Worships to the gracious protection of God, remaining

ORDER AUTHORIZING THE INHABITANTS OF MESPACHT TO BANISH ONE JOSEPH FOWLER FROM THEIR VILLAGE.

The inhabitants of *Mespacht* having submitted to the Council a request in English asking, that *Joseph Fowler* might be banished from their village, because he does nothing else, than incite the people, one against the other and cause mischief.

It is therefore ordered, as follows, by the Director-General and Council: the petitioners may direct the said *Fowler* to leave the village and if he refuses, arrest him and deliver him to the law officers.

AGREEMENT BETWEEN P. L. VAN DER GRIFF AND PARTNERS AND THE DIRECTOR AND COUNCIL FOR THE CHARTER OF THE SHIP "DE GULDEN HAY," TO BE SENT TO THE WEST INDIES.

To the Noble Honorable Director-General *Petrus Stuyvesant*.

1.

Sir.

The Director-General and Council charter to the associates the ship "*de Hay*" with its anchors, ropes, sails and all the tackle and rigging required for navigation for the time of 4 months from the day, on which the said ship shall heave anchor at the usual watering place and go to sea in order to make, as stated, a voyage to the *Caribbean* and *Curaçao Islands* and if the voyage should last longer, they are to give a compensation for the excess of time, to be determined by impartial experts.

The associates have considered the favorable terms, which the Hon^{ble} Director-General offers in regard to the ship "*de gulden Hay*," which is to be chartered for 4 or 6 months to be employed in the *West India* trade either to *Barbados*, *Curaçao* or the *Caribbean Islands*. We thank your Honor also for favoring commerce by thus offering to have the ships provided with tackle and rigging, to have it well caulked and made ready for departure.

It will be expected, that the associates shall provision the ship at their expense and take care, that the chief officers are sober and careful men, able to sail the ship over the sea.

If the agents of the associates, after their arrival at the Islands, have reason to suspect any danger for the ship "*de Hay*" on account of the *Suedes*, it shall be left to their choice and discretion to make use of the ship "*Abrahams Offerande*" in place of the ship "*de Hay*," if both have arrived there.

The petitioners are granted permission to trade at all places under our Government and other *Caribbean Islands*, where by treaty our nation has access; they are also permitted to take in cargoes of salt, logwood and horses at the *Curaçao Islands*, provided they pay for it the prices fixed by the general orders and rules of the Hon^{ble} Comp.

Is granted absolutely and without restriction, except as far as peltries are concerned.

The goods and merchandises, which are products of either nature or industry in the *West Indies*, shall be exempted from all import duties here for this first voyage and venture.

By order of the Director-General and Council.

CORN. VAN RUYVEN, Secr^y.

2.

The associates shall endeavor to provide the said ship with everything and to hire and pay for their own account a skipper and sailors.

3.

They respectfully request, that the Hon^{ble} General would place at their disposal, when the ship "*de Hay*"* has arrived at the Islands the small ship "*Abrahams Offerande*," to discharge their cargo in, thereby avoiding danger for us, and they further request permission to trade, where they deem proper.

The associates request, that they may have liberty to trade at all places within the Government of the Hon^{ble} General, be it for salt, logwood, or horses and that the price, which we are to pay for the last of salt or wood and for each good horse, stallion or mare, be fixed.

5.

Further, that the cargo, which we shall take from here, be exempted from all tolls and duties.

6.

Also that the return freight, which we might receive in the *West Indies*, as salt, wood, horses, indigo, cotton, tobacco, ginger, and other products of the country, shall not pay any duties or tolls neither for export from or import into any place under your Honor's Government.

COUNCIL MINUTES. RUMORS OF AN INTENDED INVASION OF LONG ISLAND BY THE UNITED NEW ENGLAND COLONIES: COMMISSIONERS ORDERED TO VISIT THE NEW SETTLEMENT AT OYSTER BAY.

27th of January (1655.)

At the meeting of the honorable High Council, his Honor the Director-General being absent,* held at *Fort Amsterdam*, Fiscal *Cornelis van Tienhoven* reported: he had been informed on Friday the [22^d] of January, that *George Baxter* coming from *New England* had crossed the East river on the ice at *White Stone* and arrived at *Gravesend* on *Long Island*, his dwelling place; that as a *Scheepen* of *Breukelen* and other credible persons had told the Fiscal, he had said it was quite true, that the *English* had returned victorious from *Canada* to *Boston* and that the Lord Protector of *England* had commissioned and charged the *English* general and the Colonies of *New England* to take *Long Island* from the *Dutch nolens volens* and bring it under their jurisdiction, also that this should be done at the latest next May. Although there is no doubt that this report was forged and invented by people bearing ill will against the *Dutch* nation, especially because neither our Noble Lords and gracious Sovereigns nor the Colonies of *New England* have given us any information about it, when they communicated the treaty of peace now lately made between our home government; yet the Fiscal declared it to be his duty to give this information to the High Council, that in time inquiries be made into the truth thereof and such orders given, as might be considered necessary for preventing such a design.

The High Council having listened to the Fiscal's report resolve, that inquiries shall be made as far as possible, which however can hardly be done now, because all rivers are frozen and the land and roads covered with snow and therefore traveling by water or land to obtain information of the designs of the *English* impossible; but as soon as the waters are free from ice and the land from snow some members of the Council with one of the Magistrates of the City shall go to *Long Island* and where else it may be necessary to inquire civilly and secretly into the matter, using as a pretext a visit to *Oyster Bay* in the limits of *New Netherland* to order the withdrawal from this jurisdiction of the *Englishmen*, who have settled there during the troubles of last year, and in case of refusal to protest against them in due form. Thus resolved the 19th of January 1655, and reaffirmed the 27th ditto at *New Amsterdam* in *New Netherland*.

COUNCIL MINUTE. DOMINE POLHEMIUS ASKS FOR PECUNIARY ASSISTANCE. AID ASKED FOR BUILDING A CHURCH AT MIDWOUT, L. I.

Tuesday the 9th of February (1655.)

Before the Board appeared D^o *Polhemius*, provisional preacher in the village of *Midwout*, who asked pecuniary help producing a letter from the Hon^{ble} General, which read as follows:

* *Stuyvesant* was in the *West Indies* from December 1654 to July 1655. See *Journal of the Proceedings of the English Army in the West Indies* and *Thurloe's State Papers*. — B. F.

Copy. His Honor the Fiscal will please to assist and accommodate during my absence the bearer hereof, Domine *Polhemius*, in some matters required by him, with wampum and also 5 to 6 lbs of powder. Done at *New Amsterdam*, the 15th of Novbr 1654. Signed P. STUYVESANT.

Being asked several times, how he might be accommodated and assisted now, he answered he would ask for no more, than the Hon^{ble} Council was willing to give. The Council replied, that he had already received considerable sums and there was still some to be paid for his account to the merchants. He answered, that he would be satisfied to have 30 fl in wampum now. Their Honors directed the Receiver to give him that amount if feasible.

At the request of the Commissaries of *Midwout* for assistance by the inhabitants of *Breukelen*. and *Amesfoort* in cutting and hewing timber to erect a building for the exercise of divine service, for which they received the permission by a resolution of their Honors, the Director-General and Council in 1654, it was, upon the vote being taken, resolved that after the celebration of the Lord's Supper now at hand a committee of the High Council shall go there with D^e *Megapolensis*.

COUNCIL MINUTE. REPORT OF DOMINE MEGAPOLENSIS ON THE BUILDING OF A CHURCH IN
MIDWOUT, L. I.

2^d of March (1655.)

Before the Board appeared the reverend D^e *Johannes Megapolensis*, minister of the gospel in the City of *New Amsterdam* in *New Netherland*, as representative of the inhabitants of the village of *Midwout*, who showed, that the people of *Midwout* had received from their Honors, the Director-General and Council, permission to erect a meetinghouse and make in it quarters for the preacher and that whereas such a work must cost a considerable sum, the people of *Midwout* aforesaid have asked the inhabitants of *Breukelen* and *Amesfoort* for assistance, promising to do the same for them under similar circumstances; that the latter pretended to be willing to contribute to the meetinghouse, but said in regard to the preacher's quarters, that if the people of *Midwout* desired them, they could make them themselves. He requested directions as to what he should do and the Hon^{ble} High Council replied, that the resolution of the 9th of February 1655 should be carried out.

COUNCIL MINUTES. COMMISSIONERS APPOINTED TO SETTLE SOME DIFFERENCES IN THE ENGLISH

jurisdiction of *New Netherland*; their Honors Councillor *La Montagne*, *Cornelis van Tienhoven*, Fiscal of *New Netherland*, and Burgomaster *Allard Anthony* are hereby appointed to arrange the matters according to their best judgment, to protest against the usurpers of the territory of the Lords Patroons and to direct them to withdraw.

LETTER FROM THE DIRECTORS IN HOLLAND TO STUYVESANT: JEWS: TAXES AND THE REFUSAL OF THE PEOPLE TO BE TAXED WITHOUT THEIR CONSENT: REVENUES: FORT ON LONG ISLAND: BOUNDARIES.

26th of April 1655.

Honorable, Prudent, Pious, Dear, Faithful.

Our last letters to you were sent by the ships "*Swaerte Arent*" and "*Grote Christoffel*" on the 16th resp. 23^d of November 1654, in which we give you full details: since that time the ships "*Schel*" and "*Bear*" arrived here on the 15th of December, by which we received your letters and packages of the 22^d and 25th of Sept 1654 and later by way of *England* your letter of the 27th of October, same year, all of which will be answered now as far as required, while we shall add, what we consider necessary.

We would have liked to agree to your wishes and request, that the new territories should not be further invaded by people of the Jewish race, for we foresee from such immigration the same difficulties, which you fear, but after having further weighed and considered this matter, we observe, that it would be unreasonable and unfair, especially because of the considerable loss, sustained by the Jews in the taking of *Brasil* and also because of the large amount of capital, which they have invested in shares of this Company. After many consultations we have decided and resolved upon a certain petition made by said *Portuguese* Jews, that they shall have permission to sail to and trade in *New Netherland* and to live and remain there, provided the poor among them shall not become a burden to the Company or the community, but be supported by their own nation. You will govern yourself accordingly.

We have been aware and now again learn with displeasure, that the community there cannot be persuaded, to raise subsidies; it looks very strange, that people of experience and sound judgment, as the municipal officers under you and others must be, continue to sustain so perverse opinions, contrary to all reason and justice and notoriously in contradiction to the maxims of every well governed county or city. But what we have said at large in our last letter, we repeat now, it is not necessary to wait for their consent and approbation. The measures to raise subsidies, which you now propose, are mostly the same as those proposed before and sufficiently approved by us, which approval we now repeat, to wit, That 10 stivers shall be paid for each morgen of land and for each head of cattle one guilder, both annually; as to the 100th penny on houses and lots we have thought it to be more convenient and also less burdensome to direct and authorize you hereby, to levy in place of it the 20th penny on the rental of the houses, payable yearly, two thirds by the owner and one third by the lessee, as it is done in this city; provided however, that the houses to be built there hereafter shall be exempted from this tax for the time of ten consecutive years. We shall write to the Burgomasters and Schepens of *New Amsterdam*, also to all other inferior courts there and notify them hereof with such arguments and recommendations as are required; you will learn this by the said letter, which we intend to dispatch by the man-of-war now ready to sail.

The difficulties which you make and apprehend in regard to the collection of the tenths, have led us to order that it be suspended for this year; we shall give you our orders concerning it later.

We believe, that the inhabitants there are dissatisfied with the general clause in the patents, because evil minded and disaffected persons misinterpret willfully its meaning in order to deter the simple minded community from entering upon certain lands. Although it does not deserve of much consideration, yet to remove all obstacles, which might appear to impede and decrease

agriculture, we have resolved to alter the said clause, not however as you have proposed, because we find some difficulties in that, but as follows: *On condition of submitting after the expiration of ten years from the date hereof (the date of issuing the patent) to the payment of the tenths for the use and behoof of the Lords Putroons and such other taxes, as according to the requirements and condition of the country all the other inhabitants shall have to pay.*

We might now say something about the statements of expenses and revenues sent us, because the expenditures for monthly wages and boarding have for the last 7 or 8 years been as much as they have been last year, the contrary of which can be proved. The revenues for the last years have also amounted to considerably more than 22000 or 23000 fl, but as they are only given in total (*grosso modo*), we expect, in conformity to our last letter, a correct and pertinent statement and balance sheet from you, which you are to send every year, that we may govern ourselves accordingly.

The caution used by you in and concerning the detention and appraisement of the Swedish ship* and her cargo meets with our approval and has been well received. We stated in our last letter to the Director, how you should live with the *Swedes* on the South river and we shall hereafter say more about it: but we cannot omit to inform you, that while engaged in examining and proving the right of the Company to the said river, we have found, that the transmitted documents and copies are not only valueless and bad, but also so villainously and miserably written, that in many instances it is impossible to comprehend their meaning. This is especially the case with the papers drawn up there and sent us containing the report of what happened between Director *Stuyvesant* and the *Swedish* Governor at the South River in 1650, so that when we were to make use of these papers on the main question, we would find ourselves completely at sea and unprepared. We were in the same condition, very much to the injury of the Company when treating with the *English* here, who upon our assertions regarding the boundaries between us and their people there, demanded and called for proofs and attestation of documents, principally the deeds and conveyances for the land bought by the Company and the provisional agreement concerning the boundaries made between us and them there at *Hartford* in 1650. As to our great astonishment none of these documents has ever reached us, this important matter has been, delayed with little prospect of ever being settled here. We are therefore compelled to charge you most seriously, not only to send us authenticated copies of all these documents and papers concerning the *English* as well as the *Swedes*, but also to take henceforth better care in such cases, that the Company may not suffer more losses through such carelessness.

Concerning the usurpation and invasion of *Long Island* and other places by the *English* we refer to our last general letter, in which we fully expressed our opinions and intentions. We must however urge you to be on your guard, that in the purchase of land this nation does not outwit you, as according to report it is done frequently. We find it meanwhile not less required than formerly to determine our boundary there by erecting a fort at the East, wherever you think it most advisable. For this purpose we intend to send you by the man-of-war now ready to sail a quantity of ammunition, materials and soldiers, in order to take in hand and accomplish this work after the expedition against the *Swedes* has been made.

The reasons adduced by you, why you think it advisable to have rules made concerning

*See N. Y. Col. Doc. vol. xii, pp. 76 et seq.

homeward bound cargoes, do not appear to us sufficient or practical, considering that private skippers should have herein as perfect liberty, as the traders in their trade, and both would by such restrictions be more deterred from, than animated to engage in the *New Netherland* trade.

* * * * *

We send herewith an instruction drawn up by us for the Schout of the City of *New Amsterdam*. You may examine it and give us your opinion by the first opportunity, letting the Fiscal** in the meantime take charge of the office. We have hesitated much to allow him to do so, on account of the serious and general complaints made here against him every day. We have therefore deemed it necessary to recommend to the said Fiscal, that he give, if possible, better satisfaction to the community there, or else we shall be compelled to take other measures.

The preacher *Polhemius*, arrived there from *Brasil*, has informed us by letter of his willingness to remain in *New Netherland* and take charge of the congregation at *Midwout*. If you think, he is wanted there and the said *Polhemius* is found to lead an irreproachable life, we have no objections to his becoming minister there provisionally and until our further order at a salary already provided or to be provided for by the congregation, without becoming a burden to the Company. Although the condition of affairs is not favorable to still further diminish the revenues, received by the Company here, we have nevertheless, out of consideration of the bad times and to encourage and assist both traders and inhabitants there, resolved to reduce the duties on outward bound cargoes, except Indian goods, as duffels and blankets, from 16 to 10 per cent. so that we have received from one only 12 and from the other only 6 p. c. duties, the remaining 4 p. c. being sent to you as formerly, until the negotiated loan is paid. You will govern yourselves accordingly.

In our last letter directed to Director *Stuyvesant* personally, and sent by the ships "*Swarte Arent*" and "*Grote Christoffel*" we fully expressed our settled determination and intention concerning the manner, in which you must deal with the *Suedes* on the South river. In consequence of it we hoped, that the expedition against them had already been made; but having since learned by a letter from the said Director, dated at *Barbadoes* on the 22d of January of this year, that he had left *New Netherland*, we found ourselves disappointed in our hopes. It has properly astonished us and given very little satisfaction, especially because the Director's voyage was made without our knowledge and consent; but we have nevertheless decided not only to take up the project again, but also to carry it out with so much more assurance of success. We have now chartered for this purpose from the Burgomasters and Council of this city one of their four largest and best ships, called the "*Waegh*," armed with 36 pieces, which is now being made ready for sea and will sail from here with about 200 men in 12 or 14 days. As soon as it shall have arrived there you are directed and authorized to undertake immediately and as quick as possible, but with caution, this expedition and carry it out bravely, even though Director *Stuyvesant* should not have returned from his voyage. In that case you may open our said last letter to him personally, that you too may be informed of our opinions and wishes and govern yourselves accordingly; but we strictly command you to keep its contents a secret among you, as honor and your oath demand it, and not to divulge them until with God's help the expedition shall have successfully been made. As we have said above no delay or sluggishness must be permitted, for we understand, that great preparations are being made in *Sweden*, to assist their countrymen on the South river.

*Passages referring to personal accounts of servants and soldiers of the Company.

***Cornelis van Tienhoven*.

The enclosed letter directed to Director *Stuyvesant* privately is not to be read by any one except himself. We trust this injunction will be obeyed.

We have chartered here a ship, "*Liefde*," of about 180 lasts, which sailed from the *Texel* for *Curaçao* on the 27th of March last, to take in the cargo of wood and salt now ready there and bring it here. Copies of our letter to Vice-Director *Rodenbergh* and the lists of necessaries sent out to the Island will be forwarded to you by the next ship for your own government.

We have already mentioned, that by the first opportunity we expect to receive from you the original and authenticated documents and papers concerning the illegal proceedings of the *Suedes* on the South river. You will please to remember, that we include among them attested depositions regarding the shameful and hostile capture of the Company's fort on said river and everything relating to it, which was fully explained in our last letter, to which we refer.

LETTER FROM THE DIRECTORS IN HOLLAND TO STUYVESANT: CHILDREN FROM THE ORPHAN ASYLUM:
BOUNDARIES: DISTURBANCES ON LONG ISLAND.

Received by the man-of-war
"de Waegh" Aug. 13th.

May 26th, 1655.

Honorable, Prudent, Pious, Dear, Faithful.

You will see by the enclosed duplicates, to which we refer, what we wrote to you in our last general and private letters of the 26th of April l., sent by the ship "*Bontekoe*" three or four weeks

ago. The ship "*Gelderse Bloom*" has, thanks to God, arrived here since; by her we received your letters and papers of the 22^d of December 1654 and 29th of March 1655, to both of which we will now reply as far as necessary and not answered by our former letter, adding thereto what we deem proper. We approve, that you bought there the ship "*Abraham's Offerhande*" to ply between *Curacao* and the islands and if necessary also *New Netherland*, but that to pay for her you draw on us for 800 fl appears strange to us, for we have on several occasions expressed our displeasure with such transactions and given special orders not to trouble us with such drafts. You ought to have been the more careful now, because out of our so small revenues here, diminishing daily, we send you a considerable share and contribute and do more, than our ability and condition warrant. You must recollect, that in future all such drafts will not be accepted or paid by us, (nor do we pay it in this case) but simply returned.

You are to inform us by the first opportunity, what revenue the Company receives in *New Netherland* from salt, that we can act upon it.

The written conditions, sent over, have told us of the rules made and the care taken there of the children from the Almshouses, which have our approval; we hope, that the Burgomasters and Almshouse authorities have also been pleased; they are again sending by this ship a party of boys and girls as per enclosed list. We recommend them as before to your care and although among them some may be found of tenderer age than you require, we think it does not matter, for it can be amended and corrected by one or two years' longer service, which is of little importance to the boys.

It appears to us very strange, that vinegar sells there as high as 70 to 80 fl the hogshead, while vineyards and grapes thrive so well and a good deal more might be planted and cultivated; we begin to think, that our inhabitants there show very little industry or diligence in agricultural pursuits; besides it might be made from beer, as here in this country. Although much might be said on this subject, we shall leave it for the present and commit it to your own speculations.

*

We are surprised, that you did not expect *Brian Newton* to return to his old post of duty there, for in your letter of the 27th of July 1654 you recommend him so highly as the only trustworthy Englishman, who had remained faithful to the Company in all the troubles there and now it is said, that he not only expressed, but also at that time already by his acts proved his unwillingness to march against his countrymen, the *English*. If this is the case, we do not consider it advisable to continue him in his position, but to discharge him. You may then put in his place the ensign *Direk Smith*, if he is capable and leads the life of a good and faithful soldier.

You do not seem to understand our opinions or wishes, expressed in our letter of the 22^d of November 1., as you remind us, that the new duties, imposed there on certain goods, might easily have been laid only on liquids: we are however of a different opinion and desire therefore, that our orders in this regard be obeyed; but we have no objection, that you should get a revenue from the consumption of liquids, which we always have thought and still think can be done without obloquy. You will act accordingly.

We are fully aware, that it is very necessary to establish the boundary lines between us and our *English* neighbors there, but as you have never sent us the documents and proofs, called for by our last general letter, without which we can do nothing here, this so very desirable question has to our great regret been necessarily left unsettled. Meanwhile we have directed you, not only to determine our boundaries by the erection of a fort, wherever you thought best and most

* For the following paragraph see Vol. XII, p. 90.

convenient, but we have also ordered and authorized you, as we herewith do again, that in case some *English* people should make any attempt upon our territories there contrary to the provisional boundary-agreement made at *Hartford* in 1650, you should proceed against such usurpers with energy after previous protestation and warnings (further explained in our letter of the 23^d of November). For this purpose we send you, according to the enclosed lists and invoices under No. 4, the requisites for building a fort, of which as well as of the soldiers going over now you will make all proper and prudent use. This for your instruction.

We were very much pleased to learn, that you live in harmony with the inhabitants of the Province and we recommend to you to maintain and promote this good feeling by all fair and just means, for good and prudent rulers can contribute much thereto. As the heavy outlays, which we make, are also for the maintenance and protection of our said inhabitants, we have hardly any doubt that they could easily be persuaded to give us some subsidies, very much needed to pay for and keep up these supplies. We have therefore considered, agreed and decided upon the measures, of which our general and the enclosed letters will inform you and the copy of our letter, No. 5, will tell you, what we have been writing in this matter to the Burgomasters and Schepens of *New Amsterdam* and to all the inferior courts there; the original of it you can hand to them respectively, but whether that is to be done before or after the beforementioned expedition, we leave to your judgment and discretion.

We have considered, that the ship "*De Waegh*," now going over, cannot well sail from there before next winter and have therefore decided to direct you to keep her there until the month of February or March of next year and then to dispatch her with such a cargo, as you may find for her.

If Captain *Frederick de Coninck* (who is to obey your orders implicitly pursuant to the extract of our resolutions here enclosed under No. 6), and Lieutenant *Ysvoort*, both coming as such in the ship "*De Waegh*," should desire to remain there as freemen and not in the service and pay of the Company, you may keep them there. The soldiers and sailors, not absolutely required for the said ship, who wish to remain there, may also be kept either as freemen or in the Company's service, but nobody shall be compelled.

The extract from our resolutions of the 10th of May 1655, here enclosed under No. 7, will inform you of our wishes and the consent we have given to the skipper and the owners of the ship "*New Amsterdam*" and we add, that they have given us good bail here.

The goods and merchandise attached there by the Fiscal out of the ship "*Groote Christoffel*" are found not to have been declared here, especially the 36 awms* of brandy, as both the letters written for the purpose and the receipts here enclosed under No. 8, show; they are therefore legally confiscated and must remain so: this for your information.

The enclosed copies (No. 9.) of our letter and of the invoices will tell you what we have lately written and sent to *Lucas Rodenburgh*, Vice-Director at *Curaçao*, by the chartered ship "*Liefde*." A copy of the letter, which we have since received from him via *Hamburgh* would have too been sent you, but as Director *Stuyvesant* has been on the Island and received sufficient information of the condition there, we have deemed it unnecessary.

You have lately informed us, that you have been obliged to negotiate a loan from the inhabitants there (not at all to their liking, nor to ours, and many complaints, perfectly justified, have been made to us on account of it), but you did not report, how large the sum was and as for its repayment we have remitted from here the often discussed 4 p. ct. duty amounting already to

* One awm ca. 40 English gallons.—*Webster*.

7600 fl, we have considered it advisable, to order imperatively, that by the first opportunity you send us a detailed and correct statement or account not only of the whole amount of the said loan, but also how it was levied and with whom negotiated and how much of it has been balanced in account with or otherwise repaid to the individual parties: we require this for our accounts.

The good testimony given us every day concerning the life, suitableness and industry of *Johan de Deckere*, arrived there lately in the ship "*Swaarte Arent*," has so increased our good opinion of the man, that we have concluded to confirm our recommendation of him of the 23^d of November 1654 and to direct you to pay special attention to him, because we believe it will be for the benefit of the Company; in the meantime we increase his salary provisionally by 150 fl a year or as much more as you already may have allowed him.

You can well believe, that the treacherous action of *George Baaster* and his accomplices has startled us very much; the papers and documents sent over have been translated and we are busy examining them, to form an opinion, but we are expecting the remaining papers, which you promised to send by the "*Groote Christoffel*": upon receipt of them we shall inform you of our opinion and wishes in this matter. Meanwhile you are strictly charged, to keep the aforesaid men in close and stringent confinement, as it is required in so important a case: we further recommend, that henceforth you dispense in the government of the respective places there with such foreigners, who have no domicile in this country, for little or no confidence can be placed upon them.

Herewith etc etc

Amsterdam,
the 26th of May 1655.

P. S.

We enclose the invoices of the few private goods shipped by the "*Waegh*," also the muster-roll of the sailors and soldiers going over, which will inform you of the items to be charged to their accounts: you will pay strict attention to it, that the Company may not be the loser.

We have here given permission to *William Brouwer*, to go over with his wife and three children without paying passagemoney, on condition that he act as reader or comforter of the sick on board the "*Waegh*," until she arrives there, but not longer. This for your information. Date as above.

LETTER FROM THE DIRECTORS TO THE MUNICIPALITY OF NEW AMSTERDAM AND THE MAGISTRATES
OF OTHER TOWNS IN NEW NETHERLAND: TAXES ON LAND, HOUSES ETC IMPOSED.

To the Burgomasters and Schepens of the
City of *New Amsterdam* and the respective
Colonies and Courts of the Province.

No. 31.

Honorable, Worshipful, Pious, Faithful.

As a good government is bound to take care in protecting and defending its territories, cities and inhabitants as far as possible against molestations and attacks from all foreign enemies and

neighbors, so is it the duty of a good community to help carrying the common burdens, made necessary by and imposed for their own maintenance. You well know the care and expenses, which we have had, before the country there arrived at its present position ; notwithstanding you have failed so far to assist us by subsidies from the people. This is not only contrary to the maxims of all well governed countries and cities, especially of the government of this state, but it is also during the present state of affairs so highly necessary, that a longer delay is not admissible, unless we wish to see the Province, now giving so great hopes, utterly ruined. We have therefore been obliged to consider some means of obtaining the required support and have concluded, agreed upon and determined, to impose the following taxes :

For each morgen of land yearly 10 stivers.

For each head of cattle yearly 20 stivers and

For the rent of a house the twentieth penny (5 p. et.) every year.

Although this our order will be fully communicated to you by our Director-General and Council, to whom with their office we have given absolute authority in this matter, we have nevertheless thought it necessary, to send this letter to you with the urgent and earnest recommendation, not only to set yourselves a good example to the community in raising the subsidy, but also to animate them thereto and if need be, in case of refusal, to execute this order, for we have deemed it necessary for the benefit of the country : whereupon we rely.

Nota : This point regards only the Burgomasters and Schepens of N. A. We have already allowed and granted to your Board the collection of the excise on beer and wine, that you may defray therewith the communal and other expenses, stated to you by our Director-General

and Council there. But as we notice, that the moneys are not applied to these purposes, but have been used by you or your predecessors for the pay and sending over here of one *Le Bleu* and for other private matters to the disservice and dissatisfaction of the Company ; we have decided to inform you herewith, that we have resolved to have the collection of this money made again by the financial officer of the Company there : you will act accordingly.

Herewith etc etc.

Whereas with the consent of their Honors, the Directors of the W. I. ON LONG ISLAND.

Thursday, the 3^d of June 1655.

The reverend D^r *Johannes Megapolensis*, Minister here, and *Johannis de Peyster*, Deacon and Schepen of this city, appeared before the Council and stated in behalf of the Board of Overseers of the Poor in this city, that said Board had some time ago bought for the behalf and best of the poor a certain bouwery situate on the other side of *Hellygate* and that the Honorable Director-General *Petrus Stuyvesant* had given to the Board a piece of land near the said bouwery, which annex they intended in time to turn into a new plantation or bouwery, when God's blessing had increased their stock of cattle. They find now, however, that this piece of land or a part of it had afterwards been given to one *Abraham Rycken*, but as the said *Abr. Rycken* is a poor man, who has no more than what he can earn with his hands, they are neither able nor willing to disturb him; yet they have cause to remonstrate, because the said *Abr. Rycken* closed up and fenced in a public road, which had been in use as such for many years, to the great prejudice and disadvantage of the said bouwery of the poor. They request therefore most respectfully, that the said *Abr. Rycken* be directed and ordered to remove the posts and rails or pallisades erected by him and to make the road and then leave it as it has been formerly and long before he came there.

They give also to understand, that the small island obliquely opposite the said Poor Farm, commonly called *Huelicken* or *Borger Joris' Island*,* would be very suitable, useful and profitable to their Board for the pasturing of their pigs and cattle and requested therefore, that if it had not been given to others, it might be granted and given to the Board for the benefit of the poor.

The Honorable Council reply, that a committee shall be appointed to proceed and inspect the road closed up by *Abraham Rycken*; as to the island, it has been granted away a long time ago.

Show very humbly we, the undersigned inhabitants of the village of *Gravesend* in the Province of *New Netherland*, your Worships' subjects, that we have assembled together in the said village yesterday, the 8th of July to make a nomination, from which the Magistrates for the next term might be chosen by your Worships, the order for making this nomination or (as they

We find, however, that we are prevented by underhand and treacherous measures and for this and other reasons we are compelled to turn to your Worships as our only recourse and respectfully request, that your Worships will for the present suspend the confirmation of these illegal elections, as well as that of the Schout for the following and other reasons, which we will submit to your Worships, whenever ordered so to do:

First: Your Worships' order to make a selection was not shown to us,

5th. They would not allow, that an honest Dutchman, who was a hired man, should cast a vote, his master being absent,

They demanded, that all orders issued by the patentees, who have been Magistrates all along and had formerly on account of their misdeeds not only been exiled, but also imprisoned, should be strictly obeyed: which we cannot promise to do any further, than the welfare of the government, under which we live and which protects us, requires. Submitting all this to your Worships' consideration and good will for the welfare of this place we remain

Your Noble Worships' very obedient servants.

LETTER FROM THE DIRECTORS TO STUYVESANT: BOUNDARIES AND THE TREATY OF HARTFORD;
NO MORE GRANTS OF COLONIES TO PATROONS; TRADE WITH BOSTON; POSTAL FACILITIES;
EMIGRANTS.

The 25th of September 1655.

Honorable, Pious, Dear, Faithful.

Our last general letter to you was dated the 26th of May last past and was sent by the ship "*Waagh van Amsterdam*," which sailed from here on the 7th of June following. We have since received here the letters of the Council there of the 11th and 28th of May last by the "*Groote Christoffel*" and "*Swarte Arent*," also Director *Stuyvesant's* letters of the 8th, 13th and 24th of June, by the last of which we were informed of his departure from *Curacao* and we have no doubt, he arrived in *New Amsterdam* shortly afterward and has taken care, that the contents of our aforesaid letters and of others sent over since his departure have been attended to as far as it had not been done already; we expect to hear from you on these matters in due time. In the meantime and as the ship "*Geldersche Bloom*" now sails to *New Netherland*, we shall answer your letters briefly, as far as required. The principal point is the settlement of the boundaries with the people of *New-England*, about which we have now written several times, as you too have done, but, we must confess, not in such a manner, as we would have wished and we are compelled to declare, that we have no such thorough and complete information of the affair and of the proceedings, as far as any have taken place, as the importance of the matter requires. It is stated for instance in a letter of the 26th of November 1650, that a provisional agreement concerning the boundaries had been made to stand until a future convention and the final ratification by the mutual governments at home, whereby in the meantime further acquisitions of territory on the

main land and on *Long Island* were prohibited. Later letters make no mention of this agreement, but they recommend, that the question be settled in *England* or here and finally now it is stated, that the *English* claim, they will show the approval and ratification of the aforesaid agreement by the present government, when the same has also been approved and ratified by their High: Might: . Considering these aforesaid contradictory statements, we must confess, that you have managed this matter very badly and that you change your opinion too easily. All depends upon whether an agreement was made at *Hartford* in 1650 containing a provisional settlement of the boundaries or not; if it was made, it ought to have been sent over, that the approval of our government and of that of *England* might be demanded; if not, as many here believe, and if instead of it the question was only the subject of debate, which each side could interpret in their own fashion, then it would be useless to demand approval of a matter, which cannot be found. In that case efforts should be made, to have the boundary question decided here or to request, that the governors there be authorized to do it upon the basis of what resulted from the debates at *Hartford*, as far as it may be of any good. We have taken all possible steps, so far without success, to bring about one or the other, but we have been assured, that the pretended *English* approbation is as yet fictitious, and that they allege it only to lull you into sleep, for their continued coming closer and occupying land would keep you too wide awake; you will do well therefore, to inform us explicitly, how the whole question stands, and especially of the beforementioned agreement made at *Hartford*, which is the foundation of all; *ordering meanwhile, that, contract or no contract, the English be prevented by all possible means from further encroaching upon our territory.* The commerce with *Virginia*, which begins to grow up there, must be encouraged by all proper means and we hope, that it will also favorably affect the trade from here to that country.

We have not heard here of the agent of the Crown of *Sweden* nor anything concerning that whole nation there. We are anxious to learn, what the forces lately sent by us have accomplished and we recommend, that you will give us a detailed and pertinent statement of everything, so that we may be well prepared for a defense against whatever accusations shall be brought up against us; they are much more likely to be made now, as this nation is getting a so much higher opinion of itself, because their designs against *Poland* seem likely to be successful.

You will assist the agents of Baron *van der Capellen toe Ryssel* in pressing his claims for a proper accounting with vouchers and funds as well against *Melyn* and *Dincklage* as against others, but as to establishing a colony under the same conditions as those of *Rensselaerswyck*, you know very well, that long ago we have considered the granting of such colonies unadvisable and injurious to the increase of population and that instead of it we have decided to accommodate private parties with as much land, as they are able to cultivate, without giving them any privileges: you will act accordingly.

To prevent the *English* from *Boston* to send in their vessels, victuals and other necessities of life to the *Suedes* on the South river, is not in our power; but it looks very strange, that people participate in it and consequently increase this trade, who are in our service and whom you possibly trust too much; however as the reports thereof have come here by themselves, it must have been known there and you will therefore do well to inform yourself about it and report the result by the first opportunity.

We shall not mention now the matters concerning the Island of *Curaçao*, but await the arrival of the Vice-Director; we recommend however, that in employing the persons, brought away from *Brasil*, care be taken not to injure or cause expenses to the Company; this refers especially to the men, who have been soldiers and have for the most part behaved like scoundrels.

We have noticed in several documents, that the members of the Council there assume the title of "High Council," which we have not given them by their commissions or instructions. You will do well to abstain therefrom in the future and be satisfied with the title belonging to each office.

As we have before done repeatedly, so we now order and direct you hereby again, to send us from time to time the list of the soldiers and of those, who have served their time or who have been discharged for other reasons, also of those, who are coming over, for if we remain ignorant of the debit charges against them there, the Company must necessarily suffer loss, as it has happened lately with one *M. Breyer*, a soldier arrived from there by the "*Groote Christoffel*," to whom upon his lamentations we would have advanced money on account of his monthly salary, if we had not been informed by private parties, that he had been banished from there for some misdeed,* (they did not know of what kind), of which you in your letter do not say a word: in future you must do better.

We send you herewith a list of the soldiers, who came over to you last year, 1654, and who assigned here two months' pay yearly or became indebted for transportation. You will take care that every one of them is duly charged in his account, that not too much be paid to them.

We repeat our recommendation to have a box made there for letters, which are destined for here, because great complaints have been made over bad delivery of letters. Have it hung up at the Warehouse or whatever other place you think best, so that the letters from merchants and the community in general may be gathered there and when a ship sails be placed in a bag and sent to us under seal in care of the supercargos and duly delivered here; you know, how it is done here.

Herewith etc etc.

This for your information. Date as above.

* *Hans Brayer* was accused of robbery and burglary; refusing to confess an application of the torture was ordered, when he admitted his guilt and was sentenced to be stripped of his arms in the presence of the soldiers in *Fort Amsterdam* and then hung by the neck until dead. This sentence was commuted to perpetual banishment, at the urgent solicitation of the public, the culprit standing already under the gallows. See N. Y. Col. MSS., Vol. VI, 35, 40-44, 49.—B. F.

To their Noble Honors, the Director-General and Council of *New Netherland*.

Show with due reverence the preachers in this city, that they have been informed by several persons living at *Middelburgh* in this Province, that since the removal and during the absence of

Mr. *Moore*, lately preacher there, some inhabitants of that place and unqualified persons have ventured to hold conventicles and gatherings and assumed to teach the Gospel, from which nothing but quarrels, confusion and disorders may be expected in church and communality not only in that place, but also, by giving a bad example, in other places of this Province.

They request therefore, that some provision be made by your Honors' authority and during Mr. *Moore's* absence some suitable person be appointed, who by reading the Bible and some other edifying and orthodox work on Sundays would continue among the inhabitants the forms of religious worship, until your Honors should make other provisions. Which doing etc.

JOHANNES MEGAPOLENSIS. SAMUEL DEISIUS.

PETITION OF THE MAGISTRATES OF MIDWOUT AND AMESFOORT FOR AUTHORITY TO TAKE UP A
COLLECTION FOR THE SUPPORT OF THEIR MINISTER.

Tuesday, 15th of February 1656.
Copy.

To the Noble, Very Worshipful, their Honors the
Director-General and High Council of *N. N.*

Show with due respect and reverence the Magistrates of *Midwout* and *Amesfoort* upon *Long Island* in *New Netherland*, that they have adopted a resolution for the common welfare, as they think, to take up a voluntary collection in the villages of *Breuckelen*, *Midwout* and *Amesfoort* and depending places for the support of a minister or teacher, to which they believe many are willing to contribute; but as they have no authority to do it without having first informed their Noble Worship the Council of *New Netherland*, the aforesaid Magistrates request hereto your Worship's approbation and favorable order, that they may carry out their well meant project and resolution; the Magistrates aforesaid engaging themselves to give to your Worship or to your Worship's delegates a full and true account and statement of the moneys received, if it is necessary and they are called upon to do so. Which doing etc.

The Magistrates of *Midwout*, *Amesfoort*
and adjacent places.

Done 8th of February 1656.

By their order

PETER TONNEMAN as Secretary.

The foregoing request was read in Council and after a vote had been taken the following answer was made:

The Director-General and Council of *N. N.* consider the contents hereof not only proper, but also necessary and therefore authorize the Schout and Schepens named therein to take up a collection. Date as above.

PETITION OF JACOB LUBY FOR DISCHARGE FROM THE MILITARY SERVICE AND PERMISSION TO SETTLE
AT AENHEM, L. I.

February 15th, 1656.

To their Very Worshipful Honors the Director-
General and Council of *New Netherland*.

Shows with due respect and submission *Jacob Luby*, Sergeant in the Company of the Hon^{ble} Director, that with the consent of their Honors he would like to settle here in the country in the

village of *Arnhem*, as he has been granted land there and he finds it very inconvenient and expensive to live on the place given him near the Fort of the Hon^{ble} Company: the petitioner therefore very respectfully requests the Noble, Prudent, Honorable Director-General and High, Council will grant him his honorable discharge from the Company's service, that he may with less restriction attend to his business and land, settling and taking up his residence there with others, who live there already, for a better defense against the mischievousness of the savage barbarians. If your Honors will please to favor this request with a gracious decision, the petitioner will be greatly obliged, remaining

Your Honors humble servant

JACOB LUBY.

After having read the foregoing petition and taken a vote thereon, it was decided *fiat ut petitur*. Date as above.

PETITION OF THE MAGISTRATES OF BROOKLYN, THAT THE MINISTER OF MIDWOUT PREACH
ALTERNATELY IN BROOKLYN.

February 25, 1656.

To their Honors the Director-General and
Council of *New Netherland*.

Show with due reverence the Committee of the Schepens of the village of *Breuckelen* and depending places, that they have learned and see, that the people of *Midwout*, belonging in their, the petitioners', jurisdiction, are going about taking subscriptions or a collection for the support of the minister in the said village of *Midwout* and as the reverend D^o *Johannes Polhemius* is performing the duties of his charge only at *Midwout*, the inhabitants of *Breuckelen* and adjacent places are disinclined to subscribe or promise anything for the support of a minister, whose services they do [not] enjoy. The petitioners therefore respectfully request, that the said D^o *Johannes Polhemius* officiate for the present alternately at *Midwout* and *Breuckelen* (which he appears willing to do); then they are ready to contribute to his support according to their means; or else that they and the inhabitants of *Breuckelen* and the adjacent places may be excused from contributing to the support of a minister, whose services do not benefit them. Awaiting your Honors' favorable decision we are and remain

Your Honors obedient servants

JORIS DIRCKSEN, ALBERT CORNELISSEN, The mark \$ of
JORESEY RAPAILJE.

The foregoing petition having been read in Council and a vote taken thereon, it was resolved to decide as follows:

The Director-General and Council of *New Netherland* have no objection against D^o *Johanne Polhemius* officiating alternately at both places, wind and weather permitting.

Done in Council, date as above.

PETITION OF THE INHABITANTS OF MESPATH KILL FOR A SURVEY OF THE VILLAGE OF ARNHEM.

February 29th 1656.

To their Very Worshipful Honors, the Director-General and Council of *New Netherland*

Show very humbly the inhabitants of *Metspatts Kël*, desiring to begin the village of *Arnhem*, that they have learned that *Claes van Elslant* will be sent by his Honor *de Sille* to-day or to-morrow to survey his land and the small island, granted to his Honor by your Worships; Therefore we, the petitioners, request your Worships, that the said *Elslant* be directed to survey also the island, upon which the village of *Arnhem* is to be built and to determine how long and wide it is in front and rear and that your Worships will fix the width of the main street and the size of each building-lot, for some among us do not understand the laying out of lots and would locate the houses arbitrarily, which would give it a sloven appearance. We expect therefore a favorable decision and remain etc.

After having read the foregoing request and taken a vote thereon the following answer was given:

To place this petition into the hands of his Honor *Nicasius de Sille* to have the survey made by *Claes van Elslant* and after it is done, mark and lay out the streets and lots in such a manner, as his Honor shall deem most advantageous for the settlement. Date as above.

LETTER FROM THE DIRECTORS TO STUYVESANT: JEWS TO HAVE SOME PRIVILEGES; INDIAN RAID ON NEW AMSTERDAM; HARTFORD TREATY; EMIGRATION.

The 13th of March 1656.

Honorable, Prudent, Pious, Dear, Faithful.

The ships "*Vergulde Beer*," "*Bontekoe*" and "*Wittepaert*," which sailed from there on the 2^d of November of last year and meanwhile were obliged by contrary winds to run into *Plymouth*, safely, arrived at the *Tessel* on the 10th and 11th of January last past, God be praised. We received by them your letter of the 30th of October with enclosures, which upon the occasion of the departure of the "*Bever*" and the "*Bontekoe*" we cannot omit to answer.

The first point of consideration in your letter is the agreement regarding the boundaries made with the *English* at *Hartford* in 1650, of which you would make us believe, that a copy had been already sent, trying to prove it by the tenor of some of our answers. We do not consider it worth while, to enter into a dispute about it, but say only, that our statements were made upon your advices, in which you repeated the treaty narratively, and not upon the text of the treaty itself. If however the latter had been sent pursuant to our repeated demands, we might have saved ourselves the trouble, to write you so often about it; but as all this is past, we shall only say, that, in order to prevent and counteract all further evasions on the part of the *English*, we have

resolved to lay the said treaty before their High: Might: the States-General and ask for their approval, which if possible shall be despatched with this letter. In that case however you must be careful and not let the approval out of your hands, unless the *English* can produce a similar document from their side, to avoid an injury to the respect and authority of the highest government of this country.

The permission given to the *Jews*, to go to *New-Netherland* and enjoy there the same privileges, as they have here, has been granted only as far as civil and political rights are concerned, without giving the said *Jews* a claim to the privilege of exercising their religion in a synagogue or at a gathering; as long therefore, as you receive no request for granting them this liberty of religious exercise, your considerations and anxiety about this matter, are premature and when later something shall be said about it, you can do no better, than to refer them to us and await the necessary order. Your next remark concerning trade does not as yet divert us from our resolution, nor do your complaints about the sailing to and fro of the "*Scots*," because for the sake of increasing the population, trade and its freedom must not be hampered with, but ought to be relieved from all restrictions. However, to prevent complaints from the burghers and free people living there, we have made some modifications in our letter of March 12th, 1654, which are still in force; we only add, that we have been informed by trustworthy persons, that divers people going over, soldiers, sailors, even supercargoes dare to take with them goods and merchandise without paying freight or at least duties for them: you must see to it, that the Fiscal pay proper attention, as we shall do here; for we can well understand, that other honest people cannot compete with such men and have therefore good reason to complain of unequal taxation.

We will gladly approve of the expedition to the South river and of what has occurred and been done there, as being substantially conform to our intentions; only we would have preferred to see, that no such formal capitulation had been made for the surrender of the Fort, but that all had been done in the same manner, as the *Suedes* gave us an example of at *Fort Casimir*; our reason for it is specially, that what is written and given in copy can be preserved for a long time and appears occasionally at the most awkward moment, while on the other side the spoken word or the deed is forgotten in the course of time or may be interpreted and smoothed over one way or the other, as the occasion may seem to demand. But as in the above case it has already been done, we have only wished to make this remark as a rule, if similar situations present themselves in the future. The aforesaid *Fort Casimir* must be properly provided and armed by you, but little attention need be paid to *Fort Christina*, where you will leave only 3 or 4 men to live there as garrison and to keep it in our possession; you must try to induce some private parties to remain there.

We cannot discover, that we have given directions to detain the ship "*Waegh*" there until further orders; but we find that we directed you to despatch her quickly in the early spring of this year, which we hope has been done and if not, we order expressly, that it be done forthwith, to relieve the Company of this heavy tax on its funds; remembering this tax you will take care to send in the said ship as much freight as you possibly can find. We had to promise to the soldiers sent in the ship from here, that against their wish and will they should not be sent inland there, and you must keep that promise, but in the meantime you may try to persuade these soldiers or at least part of them to remain there voluntarily, in which case you may assure them, that upon arrival of the ship "*Waegh*" here the pay earned by them there shall be paid in full to their attorneys in the same manner, as if they were here themselves.*

* See for the following paragraph Vol. xiii, p. 63.

Thus far for the present in answer to your letter; what follows is for your instruction and information.

On account of the many fold complaints made to us from time to time against *Cornelis van Tienhoven*, the Fiscal, and his brother *Adrian van Tienhoven*, Inspector of imported goods and merchandises, we have decided to dismiss them from the service of the Company and further order and direct, that neither of them shall henceforth be employed in any public service or civil office. You will let the first councillor, *Nicasius de Sille*, provisionally perform the duties of Fiscal and engage as Inspector some other fit and honest person. We intend however, to keep the Company's Warehouse there henceforth well provided with soldiers' clothing and what belongs to it; the ship "*Bontekoe*" is now already taking over something of the kind, for which see the enclosed invoices and bills of lading: for the distribution and management of them a faithful and honest man is needed as Commissary, who shall be held responsible for the property and give a detailed account of it from time to time and we desire it expressly understood, that we expect such account to be rendered to us, because we shall charge the account of the Warehouse administrator with whatever is sent to him. We think therefore that the duties of both Inspector and Commissary can be performed by one honest and experienced man, and if you believe *Johan de Deckere* the right man, of which we have no doubt, you may appoint him and for the present let him also take one of the members of the Council; but if the said *Decker* does not like it or cannot well be missed from his present office, then we approve of his appointment as Chief Commissary at *Fort Orange* in place of *Dyckman*.

We enclose the act of approval just received from their High: Might: the States General for the settlement of the boundaries agreed upon at *Hartford* in *New England* in 1650. As we have said above, you must be careful and not let the document pass out of your hands, unless the *New England* people can exhibit and submit a similar consent and approval from their home government.

The care and tender affection, which we have had all the time for promoting the increase of population and the cultivation of *New Netherland*, has induced us to resolve and decide, that henceforth all mechanics and farmers, who can prove their ability to earn a living there, shall receive free passage for themselves, their wives and children; provided that whenever they wish to return here, they shall pay double fare. We have further decided for the benefit of the inhabitants there, to trouble the Burgomasters of this City again and request their Worships' assistance in our endeavors, to have *New Netherland* tobacco exempted from the duties here. We have yet to learn the result.

We have been highly astonished, that in your letter you say not a word about the logwood in the above mentioned ships. Although we suppose, we know the truth about it, yet we cannot say, whether it was forgotten by accident and stuck in the pen, and are completely ignorant of the facts. You will therefore send us by the next ship a full report and information about it: do not fail to do so. You must also send us an account and report on the horses and salt, brought there in the "*Liefde*," *Anne Douwesen*, skipper, from *Curaçao*, that we may make sure of it and see, what disposition has been made of them.

We are informed here, that a cask containing 90 hats or hoods, marked WH and after the closing of the invoices sent on board the "*Waagh*" by the widow of *William Hensen* for *Cornelis van Ruyven*, has not turned up there and as the duties for it have been promptly paid to the Company, inquiries should be made of Captain *Coninek* and of the skipper of the said ship "*Waagh*" and the cask must be found, to prevent just complaints.

The enclosed list will tell you the number of soldiers, going over with these ships. We wish, we could have engaged more of them, but for the present it was impossible. You may expect the rest with the next ships and as on account of the sudden and unexpected departure of the ships the soldiers now going have not taken the oath here, we recommend that you administer it to them upon their arrival.

The hasty departure of the ships is also the cause of our sending only part of the ammunition, which we had decided to send according to the enclosed statement; there remain here yet 100 firelocks and matchlocks and 50 pistols, which could not all be made and got ready. We must therefore await for them the next opportunity. You will see from the enclosed invoice, how much ammunition we send at present by the "*Bontekoe*," also what tools and implements for securing prisoners, heretofore required.

We close herewith and shall reply to all unanswered points in your letter by the next ship : meanwhile you will punctually execute our orders, for the service of the Company requires it.

Herewith etc etc.

COUNCIL MINUTE. NOMINATIONS AND APPOINTMENT OF MAGISTRATES FOR MIDWOUT, AMESFOORT
AND BREUCKELEN.

March 28th Tuesday.

Having received and read in Council the nomination made by the Schout and Schepens of the villages of *Midwout* and *Amesfoort* and their request, that the Director-General and Council fill the places of the Schepens, who according to former instructions have served their terms and will go out of office, therefore the Director-General and Council have chosen out of the number of nominated persons, in place of those going out, for the ensuing year and herewith confirm as Schepens for the village of *Midwout* *Jan Strycker* and *Peter Loth*, while they continue *Jan Suedicker* for good reasons as presiding Schepen: for the village of *Amesfoort* *Marten Jansen* of *Breuckelen* and authorize the Schout *Pieter Tonneman* to administer the usual oath to the incoming Schepens.

Having received and read in Council the nomination made by the Schout and Schepens of *Breuckelen* and their request, that the Director-General and Council fill the places of the Schepens, who according to instructions have served their term and are going out of office, the Director-General and Council of *N. PETITION OF THE MAGISTRATES OF BREUCKELEN FOR AN ORDER OBLIGING PROPRIETORS OF VACANT
LOTS TO BUILD THEREON AND ORDER OF THE COUNCIL TO THAT EFFECT.

To the Very Worshipful, Honorable
Director-General and Council of
New Netherland.

Humbly and reverently show the Magistrates of *Breuckelen*, that for some years past a number of lots have remained unused and vacant, which they believe to be contrary to the resolutions and desires of their Honors, the Director-General and High Council. The said Magistrates

therefore request your Honors' permission, to affix and publish in the said village notices, directing the owners of lots, which ought to have been built on long before now, to erect buildings thereon within two months or such time, as your Honors may deem proper and under such penalties as your Honors may prescribe. The petitioners further believe that such an order would benefit the community and increase the population of the village of *Breuckelen*. Awaiting your Honors' favorable decision they remain

Breuckelen, the 20th
March 1656.

Your Honorable Worships' faithful servants

The Magistrates of *Breuckelen*.

By order PETER TONNEMAN, Secretary *pro hac*.

The foregoing request having been read, the following decision was made :

Director-General and Council admit the fairness of the request, but direct, that if in two months the order cannot be obeyed, it must be done within six months at the latest, under penalty of confiscation. Date as above (March 28th 1656).

COUNCIL MINUTE. APPLICATION FROM THE MAGISTRATES OF MIDWOUT FOR ASSISTANCE TO PAY THEIR MINISTER AND ANSWER OF THE COUNCIL.

The Schepens of the village of *Midwout* appeared before the Council and demonstrated, that the subscription obtained for the support of their present minister Domine *Johannes Polhemius* amounting to about 600 guilders was only a voluntary contribution and that they could not rely upon it every year, as the inhabitants of the said village, who had settled there only lately and were still without means, would find it a heavy tax and burden upon themselves to contribute so much every year. Now as the said Domine had requested, that they should not only pay him the arrears, but also give him henceforth a fixed salary or else he would remove as soon as an opportunity offered, they ask for advice, what to do and how much the Director-General and Council would contribute for the minister's support in the name of the Hon^{ble} Company.

The answer of Director-General and Council is: They authorize the said Schepens to make a contract with the said D^r *Polhemius*, provided that they take care to fulfill the engagements they make and collect the means thereto from the community, as the Company has had many and heavy expenses for years, without receiving any assistance. Besides 700 guilders have already been advanced to the said D^r *Polhemius* for account of the Company during the eighteen months of his residence here and considering the present troubles and scarcity of funds in the Company's treasury, they cannot promise or consent to do so in the future. This may serve for their government. Date as above (March 28, 1656).

RESOLUTION OF THE DIRECTORS OF THE W. I. CO., DEPT. OF AMSTERDAM, CONCERNING A SHIP
FROM MEDEMBLICK SENT TO CURAÇAO WITH NEGRO SLAVES.

Monday, the 3^d of April 1656.

This Board having been informed, that with a commission from the Director of *Medemblick*, under the Department of *West Friesland* and the *North Quarter*, a ship has sailed for the coast of *Africa* for slaves to be sold at *Curaçao* or on the *Main*, resolved to prevent such sale or trade and write to the Vice-Director *Beck* to hold the said ship and slaves there and proceed against them, as the law shall prescribe.

COUNCIL MINUTES. APPOINTMENT OF MAGISTRATES FOR MIDDLEBURGH (NEWTOWN L. I.) RESOLUTION
TO OFFER FOR SALE THE HOUSE AND LOT CALLED THE OLD CHURCH, ON THE EAST RIVER, NEW
AMSTERDAM. PETITION OF SARAH JORESEY, FIRST BORN CHRISTIAN DAUGHTER IN NEW NETHERLAND,
FOR A PIECE OF LAND ON L. I. AND ORDER OF THE COUNCIL.

April 4th 1656.

Received the nominations made by the people of the village of *Middelburgh* with their request, that the Director-General and Council select therefrom the Magistrates of the said village for the ensuing year. Thereupon Director-General and Council of *New Netherland* have selected and confirmed, as they hereby select and confirm, as Magistrates of the said village for the ensuing year Mr. *Robert Coe*, Mr. *Feecke*, *Richard Betten*. Date as above.

Present in Council his Honor, the Director-General *Petrus Stuyvesant* and the Councillors *Nicasius de Sille*, *La Montagne* and *Cornelis van Tienhoven*.

Resolved, that on Saturday, the 8th of April, the house, lot and buildings thereon called the Old Church and formerly tenanted by Capt. *Newton*, situate and lying on the East river in the alley running between it and Fiscal *Tienhoven's* house, opposite the house of *Sr Hendrick Kip* be sold at public auction to the highest bidder.

To the Very Worshipful, Honorable
Director-General and High Council
of *New Netherland*.

Humbly and reverently shows *Sarah Joressey*, first born Christian daughter in *New-Netherland*, widow of the late *Hans Hansen* and burdened with seven children, that your Hon^{ble} Worships have granted her a piece of land of about 20 morgens in the *Waale bocht* upon

Long Island and that a small meadow is adjoining this tract, but not included in the patent, which the petitioner's neighbors use for making hay, although they have meadows within their own boundaries: she therefore humbly requests, that she may have sole control and use of this small meadow for herself and her heirs and that her patent receive this addition, considering that she is the first Christian daughter born here and is burdened as above stated and for other reasons, which may induce your Hon^{ble} Worships to benefit her and her heirs by exempting her from the payment of tithes and other taxes already imposed. Awaiting your Hon^{ble} Worships' favorable decision etc etc.

The mark of SARAH JORESEY.

The following decision was given to this request:

The petitioner shall have her share of meadow as well as others: the further request is denied for good reasons. Date as above (April 4th 1656).

COUNCIL MINUTES. LANDS TO BE DIVIDED BETWEEN Middelborgh and Arnhem, L. I.; Cannons for Gravesend; Magistrates of Fort Orange; ANTHONY JANSEN.

Present his Honor, the Director-General *Peter Stuyvesant*, *Nicasius de Sille*, *LaMontagne*, *Cor. van Tienhoven*.

Mr *Robert Coe*, sent by the village of *Middelborgh*, appeared before the Council and whereas the people of the newly planted village of *Arnhem* mow and use the meadows, granted to the said village of *Middelborgh*, as if they belonged to them, he requests, that the meadows may be divided between the villages of *Middelborgh* and of *Arnhem*.

After due consideration it was resolved, to send two commissioners to inspect the land and to allot to each party the due share. Date as above (April 4th, 1656).

Monday, April 10th 1656.

Received and read the petition of the Magistrates and inhabitants of *Gravesend*, asking, that, as they have surrounded their village with pallisades, they might be provided with three or four small pieces of ordnance and ammunition, in order to protect their village and its inhabitants against an attacking enemy, when necessary.

After a vote had been taken, it was resolved to grant their request and give them for the use of the village two of the pieces lying near the Packhouse on the Strand of the East river; also to direct the Commissary, to deliver to the petitioners 50 lbs. of powder and for each piece 12 balls of 4 lbs. each. Thus done at *Fort Amsterdam* in *N. N.*

Received and read the letter from the Commissary and Magistrates of the village of *Beverwyck*, dated —.

A vote having been taken, the following selection was made from the list of nominations for officers for next year to take the place of the outgoing and as ordinary Magistrates of *Fort Orange* and the village of *Beverwyck* were appointed and confirmed

JACOB SCHERMERHORN

PHILIP PIETERSEN [SCHUYLER].

As extraordinary

GOOSEN GERRITSEN [VAN SCHAICK].

As to the other matters mentioned in said letter, it was resolved, to send up two commissioners, as soon as the ships "*Waegh*" and "*Gelderse Bloom*" shall have sailed. Done at *Fort Amsterdam* in *N. N.* Date as above (April 12th 1656).

Concerning the petition of *Anthony Jansen*, received by the Council and relating to the old differences about the boundaries between the village of *Gravesend* and his land, the Director-General and Council decide and herewith order, that the petitioner shall give a copy of his petition to the Magistrates of *Gravesend* and the court messenger shall direct them, to leave the matter upon reading this order *in statu quo prius* and not to proceed with the fencing and dividing of the land until further order and decision of the Director-General and Council. Date as above.

LETTER FROM JOHN TILTON, CLERK OF THE TOWN OF GRAVESEND, TO STUYVESANT.

Honoured S^r

LETTER FROM THE DIRECTORS TO STUYVESANT: TRADE BETWEEN VIRGINIA AND NEW NETHERLAND PROHIBITED; JEWS; LUTHERANS; PUBLIC RECORD.

The 14th of June 1656

Honorable, Vigorous, Pious, Dear, Faithful,

Our last letter to you, dated the 13th of March last past, was sent by the "*Bontekoe*;" we have since received by the ship "*Nieuw Amsterdam*," *Pieter Dircksen Waterhont*, skipper, your letter of the 21st of the same month, to which we shall briefly reply, as several points have been answered by ours of the 13th of March, that we are well satisfied with the expedition, which agreeably to our former orders you have caused to be led so discreetly and without difficulty or bloodshed against the *English* on *Long Island*, who encroached there upon the Company's territory. We approve of what has been done there and recommend you to act henceforth in the same way in regard to encroachments or usurpations by the *English*; but be as cautious as possible, that no acts of open hostility occur, which must be avoided and harmony maintained.

As to your fears concerning the trade with *Virginia*, that it will not be of long duration, because of the high price of all kinds of merchandises, the low price of tobacco, and because you are informed, that *England* has forbidden the trading from *Virginia* to *New Netherland*,—we are not so much alarmed as you show yourselves to be in your last letter, partly because the price of tobacco may shortly improve, which will re-establish the trade and make a better market for merchandise, partly because they in *Virginia* receive from their own nation in *England* no such goods as they need: besides they have to buy from their own people at higher prices, than from us—a natural consequence—because *Virginia* tobacco sells in *England* on an average at a lower price, than here: it is therefore often brought from there directed to our provinces and this, we think, should induce the *Virginians* to continue their commercial relations with you under all circumstances. But as no reliance can be placed upon all such and similar relations and because trade to all foreign places is brisker one year than the other, the cultivation of tobacco (which also succeeds well in *New-Netherland* if properly cured and preserved) should be so much more promoted and fostered; that would give a firmer footing to and vastly encourage commerce. We shall therefore think of all possible measures and endeavor to have the import duties on tobacco removed.

We have seen and heard with displeasure, that against our orders of the 15th of February 1655, issued at the request of the *Jewish* or *Portuguese* nation, you have forbidden them to trade to *Fort Orange* and the South river, also the purchase of real estate, which is granted to them About the without difficulty here in this country, and we wish it had not been done and that you Jews. had obeyed our orders, which you must always execute punctually and with more respect: *Jews* or *Portuguese* people however shall not be employed in any public service, (to which they are neither admitted in this city), nor allowed to have open retail shops, but they may quietly and peacefully carry on their business as before said and exercise in all quietness their religion within their houses, for which end they must without doubt endeavor to build their houses close together in a convenient place on one or the other side of *New Amsterdam*,—at their own choice—as they have done here.

We would also have been better pleased, if you had not published the placat against the Lutherans, a copy of which you sent us, and committed them to prison, for it has always been our About the intention, to treat them quietly and leniently. Hereafter you will therefore not publish Lutherans. such or similar placats without our knowledge, but you must pass it over quietly and let them have free religious exercises in their houses.

We are here still negotiating with their Noble Worship, the Lords-Burgomasters of this City, in regard to the establishment of some colonies there, which we think will soon be concluded and when the people for them sail, which will greatly increase the population there, we shall give you our decisions as to peace or war with the savages there. Meanwhile you may cautiously treat with them, but you must by no means consent to a new purchase of *Stuten Island* or any other territory surprised and ruined by them in their revolt. We hear, that they insist upon it, but it would be a precedent for them to commit some other massacre, when at one time or the other in want of goods or for other reasons: you must therefore on all occasions try to renew and confirm the treaty of peace made with the savages hostile to them, which we have pleased to learn, you have done with the savages of *Long Island*.

We understand as well as you do, that on account of the unexpected affair with the Indians and the consequent bad condition of many people in the open country, it is difficult to collect there the general tax on land and cattle, the more so, as the inhabitants of the colony of *Rensselaerswyck* and of the village of *Beverwyck*, who have not at all suffered from the late Indian outbreak, can neither by our letters nor by your persuasive reasoning be induced to pay it. We have therefore decided to direct you to act leniently, but nevertheless to demand payment from the said Colony and village, without however proceeding severely, until you have our further orders.

We consent to the provisional appointment of *Jean Paul Jacquet* as Vice-Director of the South river and hope and trust, that you have acted herein with so much caution as to have ascertained, that his abilities are equal to his duties.

The foregoing is in answer to your letter: we'll add divers complaints and requests, presented to us by parties there as well as living here, of which the most important says, that there is no rule or order in the issuing of papers concerning commerce. We have therefore resolved to make a table of fees and to order and direct you to take care, that henceforth not more is demanded or paid there, than

for a bill of lading or clearance for 1 to 6 casks of tobacco	-	-	12 stiv.
"	"	7 to 12	" - - - 18 "
"	"	13 to 25	" - - - 24 "
"	"	from 26 to as many, as a merchant wishes to ship	50 "

Also for a passport for a family consisting of one or more persons, who wish to return here 24, and for all other commercial documents in proportion. You must also reduce the cartage and portorage fees for goods taken in and out of the Company's Warehouse, which are now too high, so that the free people there, who informed us of the dishonest tax or demand of the laborers, be satisfied.

Some particular complaints have also been made to us concerning the anchorage fees paid there, about which we would like to know the details, as to when they were first exacted and on what grounds they are demanded, how much is paid for a large ship or a smaller one in proportion, so that we may act thereon; and whereas one hundred pounds of powder are sent over in this ship as anchorage fee for the ship "*Sta Maria*," already paid there for her or for which security was given to the amount of 150 fl, we recommend to you to refund upon receipt hereof the money paid or to release the securities from their obligation.

We enclose two separate acquittances or groundbriefs of land apparently bought on *Long Island* by *Cornelis van Werckhoven*, who died last year, for which the guardians of his minor children have asked our consent and approval. We refused, partly because the groundbriefs were executed privately before the Notary *Schelluyne*, contrary to the Company's orders, partly because we first desired to have your opinion about it and we await your report on the quantity and quality of the land, how many persons they have there, how much land they can keep in good order and cultivate and everything else relating to it. We expect to receive this information by the first opportunity, so that we can give a final decision. As the said guardians are now sending over their attorneys to manage the affairs of the late Mr. *Werckhoven* and have asked us for letters of recommendation for them, we could not well refuse their request and recommend, that in everything just and fair you assist them, without however granting them more land or allowing them to enter upon more, than for which proper papers of conveyance have been executed before the Director and Council there as usual pursuant to the Company's rules.

We need here very much at present the groundbrief or briefs for *Staten Island*, for which please to have a search made in the Secretary's office or wherever they may have been deposited and then send them to us directly, adding a statement of the manner, in which the Company obtained possession of them, of who were the purchasers and who the sellers, what price was agreed upon, who paid it and all other circumstances relating to it, upon which we have to act. Look out meanwhile, that *Cornelis Melyn*, who, we understand, is now at the North and in negotiation about the Island, does not sell or deliver it to a foreign nation, not subject to our jurisdiction; in such a case you must seize it for the Company, as having the best title and endeavor cautiously to inveigle said *Melyn* to *New Amsterdam*, arrest and keep him and then send him well treated, but also well secured, to this country, if the above rumor proves to be true.

Now and then we are much embarrassed here by the lack of copies of divers groundbriefs or conveyances of lands, houses, gardens and other real estate, of the daily and secret minutes as well as all other public documents concerning the country. You will send them to us by the next ship and continue with it hereafter.

The wife of Domine *Polhemius* goes over in the ship "*Gulden Otter*;" we gave her permission, as to all other private parties, to go there as cabin passengers, the Company paying the fare for her and her children on condition, that the amount shall be deducted from the salary earned by her husband in *Brazil*.

In the ship "*Blauwe Duif*"" goes also over *Thomas Lodewicksen*, carpenter, for whom the Company too paid the fare, on condition of his remaining in *New Netherland* for three years or if he leave before he must refund the passage money to you in *Holland* coin or its equivalent.

It appears strange to us, that you prevent *Abraham Jacobsen van der Pot* from returning to this country, under pretext of his not having paid his passage out nor the freight for his goods, although it is apparent from the receipt given by the cashier, *Hontum*, that he paid his passage, while the freight for his goods was remitted.

Some requests and complaints are made here now and then, of which we intended to inform you, but as we have no time, the wind being favorable and the ships ready to sail from the *Texel*, we decided to refer you for information to the enclosed extract from our daily minutes. *Lucas Rodenborgh*, late Vice-Director of the Island of *Curaçao*, goes as freeman with his wife, one child and one negro in the ship "*Verquulden Otter*;" there is due him yet as balance of his salary from the Company the sum of 6000 fl, which on account of scarcity of money in the treasury we have not been able to pay in full; we allowed him therefore, pursuant to our resolution of the 16th of March last, to balance it there with negroes, horses and whatever else may be of service to him; you will act accordingly.

In the same ship goes *Gerrit Sincertsen* from *Eswiller*, engaged by us as mason at a monthly salary of 12 fl, and it was agreed with him, that he should go from there to *Curaçao* to build a new oven; you can arrange this, when an opportunity offers.

We are greatly embarrassed in settling the accounts of the lately returned soldiers, because they could not exhibit any papers, but simply declared, that they had delivered to you the arms brought from here: you will therefore hereafter give to the soldiers, returning home, whose arms you retain, a receipt for them, that we may know, what to do.

We would have liked to send you with these ships 24 or 25 soldiers, but could not engage them, so that only the number goes, whose names you will find on the enclosed muster-roll.

Herewith etc etc

Amsterdam,

the 14th of June 1656.

Your good friends

The Directors of the W. I. Company,

Dept. of *Amsterdam*.

EDWARD MAN.

Herewith also the invoices of the lately arrived ship "*Nieuw Amsterdam*," from the marginal notes you may learn, how great the depredations committed there by the Customs Inspector *Adrian van Tienhoven* have been and the quantity of merchandise, the weight or measure of which have been falsified; on account of these defalcations we have been summoned before the Court of Admiralty by their Fiscal for the direction-money (*directie-gelt*) and steps have been taken for the confiscation of it. You must make there proper arrangements, that henceforth such falsifications cannot be perpetrated, for not only we, but also private parties, suffer great loss thereby. We hope, that it will be stopped now, else the Company would by such a manner of doing business get into a bad reputation with the government, which must be avoided.

RESOLUTION, THAT THE DIRECTOR AND COUNCIL PROCEED TO GRAVESEND FOR THE SETTLEMENT
OF BOUNDARY QUARRELS THERE.

20th of June 1656.

Resolved and decided in Council, that their Honors, the Director-General and Council of *New Netherland* proceed to-morrow to the village of *Gravesend* on *Long Island*, to settle the question so long pending about the boundaries between said village and *Anthony Jansen*, *Robert Pennoyer* and others; if possible in the presence of some prominent and impartial Englishmen. Date as above.

JUDGMENT IN THE CASE BETWEEN GRAVESEND AND ANTHONY JANSEN AND OTHERS.

The Director-General and Council of *New Netherland*, after having on Wednesday last, the 21st of this month, personally inspected the enclosures or posts and rails put up lately by the inhabitants of *Gravesend* and also compared them on the spot with the tenor of title deeds, find, that the posts and rails are not put up or placed in accordance with their patent, which begins at the kil or creek next to *Coney Island* and not at the middle of the bay, as their fences stand and stretches thence not along the shore of the bay, but to the point, where the land of *Anthony Jansen*, and *Robert Pennoyer* join each other, thence to the western side of a pond in an old Indian's land, which meets and bounds have evidently not been adhered to by the people of *Gravesend*; therefore the Director-General and Council direct the Magistrates of the said village upon receipt hereof to take up the posts and rails lately set and to put the land lately fenced in by them on their own responsibility (*propria auctoritate*) to the prejudice of the partnership of *Anthony Jansen* and *William Bredenbent* into its former condition (*in statu quo prius*); after this has been done, the Director-General and Council or their impartial committee shall assign to them, according to their patent, the limits of the village, to be enclosed in obedience to the patent. In case of refusal and further contumacy the Fiscal is directed, to do it or have it done *nomine officii* and to proceed according to law in regard to the damages already suffered or yet to be suffered by their contumacy. Thus done in Council of Director-General and Council of *New Netherland* held at *Fort Amsterdam* the 24th of June A^o 1656.

PAPERS REGARDING THE DISPUTE BETWEEN THE DIRECTOR-GENERAL AND THE PATROON
OF RENSSELAERSWYCK AS TO THE PRIVILEGES OF THE LATTER.

Remonstrance made by *Jean Baptist van Rensselaer*, Director of the Colony of *Rensselaerswyck* situate on the North river of *New-Netherland*, to his Noble Honor, General *Petrus Stuyvesant* and the High Council of *New-Netherland*.

First. Your Honors, the Director-General and High Council, will see by a copy of an extract from the register of resolutions of the Lords-Directors of the W. I. Company, Dept. of *Amsterdam*, dated the 24th of November 1633 and marked B, that the grievances complained of by the Patroons were submitted to a committee and that it was decided, that the conditions granted to the founders of colonies were lawfully obtained.

Second. Your Honors may also see by a copy of an extract from the register of resolutions, signed by the Honorable Committee of the Assembly of the XIX of the W. I. Co. at *Amsterdam* on the 9th of December 1633, marked A, that the said Committee delegated five out of their number, to confer with the Patroons and in case they could not come to an understanding, the matter should be referred to a committee of their High: Might: or the court of justice and it was further declared, that the privileges granted to the Patroons by the XIX and recorded, should be considered to remain legally in force.

Third. Your Honors may further see by two letters from their High: Might: dated the 13th of May and 1st of June 1634, copies of which we marked C and D, directed to the Patroon *Kiliaen van Rensselaer*, that the Company and the Patroons of the Colony were summoned by their High: Might: to have their differences settled by the Committee of their High: Might:

As it has pleased their Honors, the General and the High Council, pursuant to their resolution, to let publicly to the highest bidder the excise on wine and beer at *Fort Orange* including therein the consumption of wine and beer brought into our Colony of *Rensselaerswyck*, against which we have duly protested before the former Commissary *Johannes Dyckman* and his assistants, carrying out the order and being there on the spot; as the Hon^{ble} General and High Council did not condescend to let the matter rest there, but ordered the present Commissary *Johan de Decker* to gauge, as he said in obedience to his order, of which he would not show a copy, the wine and beer in the possession of the tavernkeepers under our jurisdiction, against which we again duly entered protest, whereupon the said Commissary *Jan de Decker* summoned in the name and on behalf of their Honors, the General and High Council, our tavernkeepers and then arrested them: we protested again in due form and as the innkeeper *Peter Adriansen* escaped from his arrest, I requested the said Commissary to desist from further measures, because I intended to proceed to the *Manhattans* and confer on the above related matters with their Honors, the General and High Council; for this purpose I present now to your Honors the accompanying copies, specified on the other side, from which I conclude, that the differences over the letting of the excise on wine and beer for sale in our jurisdiction should be submitted to arbitrators as concerning a point of jurisdiction, as the differences arisen before now have been referred and submitted to arbitrators and if their Honors are not satisfied, but against our expectations should execute their resolution and order, to make the tavernkeepers licensed by us appear before them, then I shall be compelled to protest against the use of violence, as I hereby do requesting at the same time a copy of your Honors' resolution and as your Honors have told and directed me not to leave before the aforesaid tavernkeepers have appeared here in person, I engage myself, wishing

to prevent further difficulties and troubles, to satisfy the late farmer of the excise at *Fort Orange* under solemn protest for the duties imposed upon wine and beer sold during his time by our innkeepers according to his or the innkeepers' books under the special condition that your Honors, the General and High Council, promise to refund the money paid by us, if another decision by impartial arbitrators is given in the Fatherland. As to the orders received by your Honors in regard to the tenths from the bouweries in our Colony, that is altogether contrary to the privileges, declared legal by the Hon. Company and the Assembly of the XIX, and also to the 6th article* of high and low jurisdiction.

I am highly surprised, that the Hon. Company tries to impose such taxes and charges upon our Colony and its inhabitants, as they have no right whatever to do so, for on the contrary we have been promised by the Company in the 25th article* that they will defend us against all violence; notwithstanding which we have two or three times with considerable expense assisted the inhabitants of *Fort Orange* and the village of *Beverwyck* in repairing the Fort, namely first during the war of the French savages, then in the English war and now during the late troubles and whenever any difficulty arose, we have quickly made considerable presents to the savages and do so yet daily. Let us add thereto the damages done us daily through the killing of horses, cattle, pigs, etc., by the savages, costing us yearly several thousand and further that the Patroon and the other Directors maintain at their own charge their officers and servants; I will leave it to your Honors judgment, having some knowledge of these matters, whether such demands are proper, especially now.

Amsterdam in New Netherland,
the 20th of June, 1656.

Extract from the Register of Resolutions of the Hon.
Delegates sent to the Assembly of the XIX of the West India
Company now sitting at Amsterdam.

Monday, the 19th of December 1633.

Present at the meeting Messrs. *Michael Pauw*, *Hendrick Hamel*, *Nicolas van Sitterich*, *Kilian van Rensselaer* and *Samuel Blommert*, who gave an oral answer to the resolution of the 17th inst. concerning the affairs of parties making colonies and after a vote, it was decided to appoint a committee of five from this Assembly, who are to confer with them and take care of the Company's rights. If they cannot agree, then the matter is to be referred to the committee of their High: Might: or the Court of Justice.

Before this committee is appointed, it is understood, that the privileges heretofore granted to the Patroons and recorded in the Book of Resolutions of the XIX shall be considered as having been lawfully obtained, whereupon Messrs. *Conradus Velinckx*, *Bruyn*, *Nicolaï Dolfyn* and *Schreiff* were appointed as the committee.

Agrees with the said Register.

Extract from the Register of Resolutions of the Lords-Directors of the W. I. Company, Dep^t of *Amsterdam*.

Tuesday, the 24th of November 1633.

The complaints of the Patroons of the Colony on the South river of *New Netherland* having been read, it is agreed to place them into the hands of the Commissioners for *New Netherland*; before it is done, the question is proposed, whether the conditions granted to parties planting colonies should be considered as having been lawfully obtained, which is answered in the affirmative; then it is proposed, that their Honors, the Commissioners for *New Netherland*, should examine the affairs of the Patroons and the colonies and how far their jurisdiction reaches.

Agrees with the aforesaid Register.

JACOB HAMEL.

Having compared the foregoing with the original I testify, that I have found it to agree with it.

The States General of the United Netherlands.

Honorable, Pious, Dear.

As we have to-day deputed several members of our Council, to hear you with the other Patroons, who have planted colonies in *New Netherland*, and the delegated Directors of the W. I. Company with the principal shareholders on the other side, in regard to the differences arisen between you, Our committee having authority to give by a majority of their votes a final decision in these matters; and as Our said committee have selected and fixed as the day on which to transact this business, the 22^d inst; therefore We have resolved to advise you thereof, directing you to report here at the *Hague* with all necessary documents on the evening of the 21st, so that you may appear for the purpose aforesaid before the said Committee, appointed by Us, the next day, who then shall open the business.* Do not fail hereof. Giving notice to the other Patroons of colonies, interested in these questions We commend you to God's protection.

The *Hague*, the 13th of May 1634.

By order of their High: Might: The Lords States General.

To the Hon^{ble}, Our Pious, Dear *Kilian van Rensselaer*, Co-Patroon of the Colonies in *New Netherland* and merchant at *Amsterdam*.

Concordat copia cum sui originali, quod attestor infrascriptus publicus Amstelodami residens adii vi Maji A° 1641.

J. GFF VAN DE VEN Notarius.

* By a subsequent letter D the meeting was deferred to the 14th of June following.—ED.

The remonstrance made by *Jan Baptist van Rensselaer*, who calls himself Director of the Colony of *Rensselaerswyck* on the North river of *New Netherland*, to their Honors, General *Petrus Stuyvesant* and the Council of *New Netherland*, was received and read.

Upon this we answer in the first place, that the Director-General and Council have no knowledge of his appointment as Director of the Colony etc., of which nevertheless they ought to have been informed pursuant to the 9th and 28th articles of the Exemptions.

The documents marked A, B, C, D, the first two being extracts or *resumptions* from the resolutions of the delegates to the Assembly of the XIX and the two others copies of letters from their High: Might: citing or summoning Patroons to appear on a certain day before them, have little or no reference to the question and therefore require no answer, in so far at least as the Director-General and Council have never thought, much less tried to do or intend anything prejudicial to the granted and accepted Exemptions.

For this reason, in the second place, the protest is absurd, frivolous and unfounded, which the said remonstrant enters against the Director-General and Council, who by their commission from their High: Might: the States General of the *United Netherlands* and the Lords Directors of the General Privileged West India Company represent the supreme government of this Province of *New Netherland*. By virtue of this commission the Director-General and Council maintain, that it is not becoming to their official position and duties to exchange polemic writings with their vassals and subjects, much less to reply to their frivolous and unfounded protests with counter-protests: they should rather correct and punish such frivolities as an example for others and fine therefore the remonstrator 52 fl, without however depriving him or anybody else of the privilege of petitioning or showing his or their grievances.

Concerning the tax or the excise, for the present laid, not as the remonstrant mistakenly implies, on the general consumption of wine and beer, but only on the tavernkeepers' consumption, the Director-General and Council maintain and declare, that it is very light and was imposed for good reasons; that it was let to the highest bidder, pursuant to the usages of our Fatherland, for the benefit of the community and that the tavernkeepers and inhabitants of the Colony of *Rensselaerswyck* are and will be subject not only to these, but also to all other fair and bearable charges, like the other colonies and inhabitants of *New Netherland*. This may be deduced and proved not only by the nature and form of all well regulated governments, but also by the exemptions themselves, Art. 18, by which no infraction of jurisdiction can be proved. The Director-General and Council therefore decide and direct, that the amounts due to the farmer of the excise, which the tavernkeepers of the Colony refused to pay, be now promptly paid with damages, losses and interest and that they shall henceforth submit, like the other tavern and innkeepers in this Province, to the farmer's gauging. Inasmuch the remonstrant in his protest confesses to have been the *causa movens* and to have advised, that the tavernkeepers should not submit to the general tax and examination and that they did not appear upon the first, second nor third citation by the Fiscal, nor upon the further order and summons of the Director-General and Council, thereby bringing justice and the supreme government of this Province into contempt, while they still remain contumacious, therefore the Director-General and Council of *New Netherland* repeat their order, that the remonstrant be detained here in this city in the most civil and honorable manner at whatever house he may please, until the disobedient and contumacious tavernkeepers of the Colony of *Rensselaerswyck* personally appear here before the Director-General and Council and give full and proper satisfaction or until the remonstrant gives bonds to the amount of 3000 guilders for sending down the summoned and disobeying tavernkeepers at his expense and charges.

As to the demand for tithes from the bouweries of the said Colony as well as from others, which the remonstrant not only thinks, but absolutely declares to be contrary to the privileges granted to Patroons by the Company, the Director-General and Council after perusal of the Exemptions printed in 1630 find no article, by which the said Colony and its inhabitants, may they have come at the Patroon's or their own expense (as the majority has done), are to be and remain exempted in perpetuity from the general and special taxes and not to contribute anything for the maintenance and advancement of the commonwealth, as the delegates from the said Colony have from time to time and especially at the provisional assembly met in September 1653, to which *Anthony de Hooges* and *Johannes De Hulter* were deputed, declared in regard to subsidies, maintaining in pursuance to their written instructions, that they were neither held nor directed to contribute any subsidies, which then so much needed and urgent matter during the very dangerous situation occasioned by the *English* troubles, has been delayed, since neglected and is still prevented; for, if the oldest and most flourishing bouweries and inhabitants refuse to pay the tithes or other taxes for the support and advancement of the commonwealth, the Director-General and Council cannot perceive, under what pretext of fairness the tithes can be demanded from newer and less prosperous bouweries.

Inasmuch however the remonstrant at the end of his protest shows the burdens to be borne by the Patroons in supporting their servants and officers, in which we suppose the officers of the church are included, for whom apparently the tithes are ordered to be gathered and set aside in the old testament, the Director and Council provisionally and until further order consent in this point to the prayer of the remonstrant so far, that this question of the tithes shall once more be referred to our superiors in the Fatherland: save that an agreement be made with him in regard to the tithes demanded for this year, principally in order to meet possible exceptions made by others and if our superiors in the Fatherland or arbitrators appointed by them decide, that neither the Colony of *Renselaerswyck* nor any of its bouweries is subject to tithing, then the Director-General and Council engage to refund the sums agreed upon as tithes.

Concerning the further question raised by the remonstrant of promises made by the Company to protect the Patroons in pursuance of the quoted 25th article, he omits either by mistake or intentionally to quote the text in its true meaning, which says "*engages to assist in the defense with the forces which they (the Company) have there as far as possible;*" as far as we know the Company has now during thirty years never failed to do so, neither will they fail at present to do it to the best of their ability.

That the people of the Colony have two or three times repaired *Fort Orange* with the assistance of the inhabitants is stated, but not sufficiently proved. If it was done, we acknowledge it gratefully, notwithstanding it was done more for their own, than for the general interest. We, the Director-General and Council now in office, do not know anything of a war with the *French* savages; and during the *English* troubles, the people of the Colony have, it is true, made some promises, according to their letters, to bring the Fort into a proper condition, but after working four or five days they dropped it again and the necessary repairs devolved then upon the officers and men of the trainband in the village of *Beverwyck*. What they may have done last year during the troubles, the Director and Council do not know.

Thus done at *Fort Amsterdam* in *New Netherland* in Council of the Director-General and Council, the 27th of June 1656.

INSTRUCTIONS FOR THE TITHE-COMMISSIONERS OF LONG ISLAND.

Instruction and Commission for the Deputies
Peter Tonneman and Gysbert Op Dyck.

Pursuant to an order of the Lords-Directors the Director-General and Council of *New Netherland* have notified the farmers by their resolution and published orders, not to presume to remove the crops from the fields before first having given notice to the Director-General and Council or their deputies, who are to count off the tenths, as it is done in the Fatherland; but to leave it on the field for the behoof of the community: it being well understood, that this applies to all, who by their patents and title deeds have become subject to tithing or who before have agreed about the tenth with the Director-General and Council or their delegates, as which *Peter Tonneman*, Schout of the villages of *Breuckelen*, *Amesfoort* and *Midwout* and with him *Gysbert op Dyck* are hereby appointed and authorized and in pursuance of our published orders and resolutions they are directed to inform and notify again the farmers and planters in the open country in the villages of *Breuckelen*, *Amesfoort*, *Gravesend*, *Hemsteud*, *Flushing* and their dependencies and to give them the choice, in the name of the Director-General and Council, either to make an agreement regarding the tithes to be paid this year or to leave the crops, mowed, sheaved and in shocks upon the fields, until the said Commissioners shall have designated the tenths under the penalty fixed therefor in case of opposition, which the Director and Council hope shall not take place. The said Commissioners are directed to make or cause to be made a note of the names of all, who may oppose, and of what they say or at least the substance thereof, that upon their return they may make a proper report and inform us, notifying meanwhile all, who refuse, of their action, that they may have no excuse of ignorance if punished. Of those, who declare not yet to be subject to the tithing or who have lost their crops by fire or theft, they shall take only the names without making any further arrangements with them; it is also left to their discretion to make fair settlements with or release entirely for this year all those, whom they or the Magistrates of the villages deem to be poor and unable, without conniving with others on whatever grounds for delay may be.

ORDER ON A COMPLAINT AGAINST GRAVESEND.

11th of July 1656.

Received the petition of *Anthony Jansen* from *Vaes* complaining of the proceedings by the people of *Gravesend*, who have not only forbidden him to pasture his cattle upon his own land, but also driven them away from there, warning him, that he must not let his cattle graze there any more and threatening, that else a mishap will occur. He requests the Director and Council to correct the matter.

After a vote had been taken, it was decided:

Whenever the Director-General and Council of *New Netherland* shall fix the boundaries of the village of *Gravesend*, his boundaries shall also be adjusted.

REPORT OF THE COMMISSIONERS ON THE BOUNDARIES BETWEEN GRAVESEND AND ANTHONY JANSEN
AND ORDER OF COUNCIL.July 19th 1656.

We, the undersigned, by their Honors the Director-General and Council of *New Netherland* appointed arbitrators, to proceed in company with the Hon^{ble} Fiscal *Nicasius de Sille* to *Gravesend* and there to examine with the Magistrates and *Anthony Jansen* from *Salce* the letters patent for the lands of either party and to see what their rights and extent of area are, did yesterday, the 18th of July, proceed there and following the patent of *Gravesend* we went to the mouth of the kil opposite *Coney Island*, being the first and best known place. We find that pursuant to the tenor of the patent their land should border westward from the mouth of the kil on *Anthony Jansen's* and *Robert Pennoyer's* land, *Anthony Jansen* claiming also, though it is not stated in his patent, that his land begins at the mouth of the said kil and runs along the south side of the same eastward to *Gysbert's* Island, and on the other side northward from the mouth of the kil is the land of *Robert Pennoyer*, which is separated by a creek or small kil, running through the meadow to or past *James Hubbard's* mill standing in the meadow, from this meadow, the kil runs by *Gysbert's* Island, so that in our opinion *Anthony Jansen* claims much more, than expressed in his patent, unless their Honors, the Director-General and Council, as interpreters of all the letters patent in this country, consider the said meadow and the whole southernmost point to the mouth of the kil opposite *Coney Island* to be the extreme points, and belonging to *Anthony Jansen* besides the 100 morgens stated in his patent, which we think, under correction, not to have been the intention of the signer of the patent. In order not to proceed too hastily and upon unsound premises in our advice, which is to serve in ending these disputes, we advise before going any further, that *Anthony* as the oldest and first settler by virtue of his grant shall cause his land to be surveyed in pursuance of his patent and place posts or marks at each turn of the compass. When that is done, it will be possible to see clearly, what hooks or points of land belong to *Anthony Jansen* and then it will be evident what belongs to the people of *Gravesend* and how much land between them still remains to the government.

JUDGMENT IN A CASE OF THE TOWN OF GRAVESEND AGAINST ANTHONY JANSEN FOR TRESPASS.

Monday 21st of August 1656. Extraordinary Session at *Fort Amsterdam* in *N. N.*

Having heard the debates *pro* and *contra* and examined the evidence the Director-General and Council find, that the complaints of the Magistrates of *Gravesend* are unfounded, because the ocular inspection, made by the Director and Council on the 25th of June, has proved, that the people of *Gravesend* without the justification of law have fenced in a part of *Anthony Jansen's* land and the meadow of *William Bredembent* and placed their posts and rails not in conformity with the consent of the Director-General and Council upon the land granted them by their patent, but, as it has been stated, partly upon the land of *Anthony Jansen* and through the meadow of *William Bredembent*. The Director-General and Council therefore, by their resolution, ordered, that the inhabitants of the said village remove the posts and rails put up by them from the land in question and return and leave the land not belonging to them *in statu quo prius*, as directed by the resolution of the 24th of June to which reference is here made. Although at the request of the said Magistrates this order has been in so far modified by the Director-General and Council, that for the prevention of damage to the grass and other crops the posts and rails should remain until further order and the gathering of the harvest, yet, as the inhabitants of the said village without the knowledge and against the order and intention of the Director-General and Council have let their calves and other cattle graze on the meadow in question, which is proved by credible witnesses and not denied by the Magistrates, thereby causing and inducing *Anthony Jansen*, as he declares, to let his cattle also run along the strand upon the same meadow, so that the subsequent disorders were not occasioned by him, but by the people of the said village, who by their own authority and in contempt of the supreme government have acted as parties and judges in the matter, as well in carrying off *Anthony Jansen's* cattle, as in making hay from and on land not belonging to them, the Director-General and Council to maintain their own authority and the administration of law and justice find themselves compelled to detain the said Magistrates, until they shall give due satisfaction to the Director-General and Council for the contempt shown to their authority, returned the land unlawfully fenced in *in statu quo prius* and paid the costs and mises of law. Meanwhile *Anthony Jansen* and *Jaques Corteljouw* are requested and charged to gather the mown hay at the expense of the Director-General and Council for the future disposal thereof.

Done at *Fort Amsterdam* in *N. N.* date as above.

P. STUYVESANT.

NICASIUS DE SILLE, LA MONTAGNE.

Whereas we, the Magistrates and delegates of the village of *Gravesend*, by order of the Director-General and Council have in behalf of the said village been arrested to satisfy your Honors' orders and judgment or in default thereof to give bail, are unable to do either at present,

because we can find no bondsmen here and whereas on account of the harvesting time we shall be considerably injured in our private affairs, therefore for ourselves individually and for the rest of the inhabitants of the said village, our neighbors, we hereby bind and engage ourselves to obey and carry out the sentence and order of the Director-General and Council and to comport ourselves, as we have done before, as good and faithful subjects. In witness whereof we have signed this at *Fort Amsterdam* in *N. N.* the 22^d of August 1656.

As they stood up to sign the foregoing document, they requested that they might first have a copy thereof, which was granted and a day or two later they appeared again before the Council.

Tuesday, the 29th of August 1656 at *Fort Amsterdam*.

Present in Council General *Petrus Stuyvesant*, Councillors *Nicasius de Sille* and *La Montagne*.

On Saturday last the Magistrates and inhabitants of the village of *Gravesend* were shown their boundaries pursuant to their patent and other title deeds, beginning at the mouth of the kil, the west side of which is nearest to *Coney Island*, where their boundaries begin, stretching thence pursuant to their patent along *Robert Pennoyer's* and *Anthony Jansen's* lands, thence north to a point in an old Indian field. These are their bounds on the west side, and the Magistrates acquiesced in this decision, but requested that for the present year they might have the mown hay, because they needed it very much and, if the inhabitants of the said village should be deprived of the hay made by them, they feared to loose their cattle for want of forage or be compelled to sow no winter grain this year in order to keep their cattle by these means with the second crop. After further consideration hereof the Director-General and Council have allowed and granted the inhabitants of the said village, as they herewith allow and grant, to carry away and use the hay already made on condition of their paying therefor an fair equivalent to the Director-General and Council to lighten the expenses incurred in this matter, except only the hay made between the two outermost hooks, which the Director-General and Council give for this year to *Anthony Jansen* of *Salée* and nothing more. In regard to the balance of the grass not yet cut the Director-General and Council consent and order, that the same remain for this year for the behoof of *Jacques Corteljouw* to winter his cattle.

Further, in case the hay granted as above should not be sufficient for the village of *Gravesend* to bring their cattle through the winter, they are allowed to cut and harvest this year the balance of the grass not yet cut in the nearest meadows east of the *Stroom kil*.

Thus done in Council at *Fort Amsterdam* in *N. N.* Date as above.

ORDER FOR A RESURVEY OF THE BOUNDARIES OF JANSSEN'S AND PENNOYER'S PATENT.

23^d of August 1656 at *Fort Amsterdam*.

Present in Council General *Petrus Stuyvesant* and the Councillors *Nicasius de Sille* and *La Montagne*.

Upon the urgent request of the Magistrates of *Gravesend*, assisted by Sir *Henry Moody*, Bar^t, it was resolved to send the following order to *Jacques Corteljouw* at *Najeek*:

Jacques Corteljouw is hereby requested and authorized to survey once more with a compass, according to the tenor of their patents the lands of *Anthony Jansen* and *Robert Pennoyer* to the extent of as many morgens as covered by the patents and to place marks at every corner; also the hay or meadowland of *Bredenbent*. After he has done this, he is to draw a line from the mouth of the kil, to the easternmost point of *Anthony Jansen's* land, where it touches the westernmost point of *Robert Pennoyer's*; this line is according to the patent the boundary line of *Gravesend*; he is to do all to the best of his knowledge, without favor, dissimulation or regard of persons, also to gather the hay and leave it in hocks on the place until our arrival. You will be paid for your work. Date as above.

ORDINANCE EXPLAINING THE ORDINANCE OF AUGUST 11th, SO FAR AS THE ANCHORAGE GROUNDS IN THE PORT OF NEW AMSTERDAM ARE CONCERNED, PASSED AUGUST 24, 1656.

(See Laws of *N. N.* p. 248.)

PATENT FOR LAND ON LONG ISLAND.

Petrus Stuyvesant, Director-General etc., and the Council testify and declare, that to-day, date underwritten, we have given and granted to *Hendrick Jansen* from *Jeveren*, a piece of land, situate on *Long Island* near the *Hellegate* bordering to the West on *Lieven Jansen*, to the East on *Adrian Dircksen*, in width along the kil or the valley stretching W. N. W. and E. S. E. fifty rods, going into the woods W. S. W. to a large thicket, in length on both sides three hundred rods, along the said thicket fifty rods, containing twenty-five morgens.

(Nota: The aforesaid parcel of land was allotted to and surveyed for *Jerian Fradel*, but as he has sold his interest to the aforesaid *Hendrick Jansen*, this patent is made out in his name at the request of all parties concerned.) With the express condition and stipulation, etc.

Done at *Fort Amsterdam* in *N. N.* this 25th of August 1656.

ORDINANCE REGULATING THE FEES PAYABLE AT THE CUSTOM-HOUSE AND PUBLIC STORE AT NEW AMSTERDAM, PASSED SEPT. 6, 1656.

(See Laws of *N. N.* p. 249.)

REPORT OF THE COMMISSIONERS APPOINTED TO INQUIRE INTO SOME DIFFERENCES BETWEEN INHABITANTS OF MIDDELBURGH, (NEWTOWN) L. I.

We, the undersigned Commissioners, deputed by the Hon^{ble} Director-General and Council of *New-Netherland* to settle to the best of our ability the differences between the Magistrates of *New Middelburgh* and *Thomas Stevensen*, have proceeded to the bouwery or plantation of the said

Stevensen, situate on *Long Island* in the jurisdiction of *New Netherland*, on the 18th of September. There the Magistrates of the said village appeared before us, who made complaint in presence of the said *Thomas Stevensen*.

First. That the said *Stevensen* had closed the wagon road from *New Middelburgh* to the East river near his house and turned it farther down to a deep river or kill, over which he has built a dam of wood and other material and as he has constructed the same at a right angle, it is very difficult to turn the carts and wagons coming from above. As the said causeway might with great danger to their animals cause them to come to grief, they request, that the old road be reopened. *Stevensen* maintained, that the old road, separating his house from his barn prevented him from fencing them in together or defending his place, and that he had therefore made the change. He asserted, that the new road was quite practicable. After having listened to the parties and inspected the place, we are of opinion, that the common interests must be preferred to individual interests, and that the old road being straighter and more convenient, than the other, should be reopened for the use of the village of *New Middelburgh* under the condition, however, that the same be laid out from the house of said *Stevensen* to the wagonroad, running from the new road to the meadow, as the new road is convenient from there to the river.

Second. The neighbors of *Stevensen* complained, that he has dammed up a certain run of water, generally used, for his own private convenience, so that the kil is always dry below the dam and remains without water to their damage and loss, because there is no fresh water elsewhere for their cattle. *Thomas Stevensen* asserts, that the dam built by him does not injure his neighbors, because the kil has no source or spring, but receives its water only from the rain fall, which soon runs off on account of the steep grade of the kil and because he has made a sluice in the dam, which he opens, when it rains.

Having inspected the place we think for the reason alleged by said *Stevensen*, that the aforesaid dam is neither injurious nor prejudicial to the neighbors, because they can build a similar dam below the first and gather thereby sufficient quantities of water for their use.

Third. The neighbors complained, that the said *Stevensen* has run his fences into the river and thereby obstructed the passage of their cattle coming from the woods, which causes the same frequently to return into the woods to their great disadvantage. The said *Stevensen* said, that he had placed his fences into the water to save further labor and expenses and that there was room enough behind the land for the cattle to come home. After having heard the parties and examined the title deeds of said *Stevensen*, we found that *Stevensen's* boundaries run along the river and not into it: we are therefore of opinion, that the said *Stevensen* has deprived his neighbors and others against the law of nations of the use of the shore and should now leave it to the public.

Fourth and lastly. The Magistrates of *New Middelburgh* complained, that the said *Stevensen* had against the general rule of the said village fenced in all his meadows with one enclosure and they maintained, that the meadows should have been divided into three equal parts, one of which was to remain in his possession, while the two others were to be used by the community generally and he should receive for them two equally large shares in the large meadow. *Thomas Stevensen* answered, that he owned and used the said meadowland by virtue of his patent, which being produced it was found, that the Hon^{ble} Director-General of *New Netherland* had granted to the said *Stevensen* the meadow in question containing twenty morgens. The Magistrates replied, *Stevensen* had obtained the said patent from the Director-General by trickery, as he had not stated, that the meadow belonged to *Middelburgh* territory which seems credible, for the Director-General

had promised them, that no patents should prejudice their rules and as we could find no decision (*moderate*) in this controversy, we concluded to submit the case to his Honor, the Director-General, as being the best exponent of his promises and the patent.

LA MONTAGNE.

The Director-General and Council of *N. Y.* received the report made by their delegates, Councillor *La Montagne* and Capt. *Thomas Willett* concerning the differences between *Thomas Stevensen* and the people of *Middelburgh* and approving the same confirm it, to wit: that the general interest must be preferred to private concerns and order therefore on the first point, that the said *Thomas Stevensen* shall remake the old wagon road, changed by him on his own authority from his house to the wagon road leading from the new road to the valley.

On the second point regarding the complaints of the village about the damming of a certain run of water, the Director-General and Council order, that the dam, as it now is, may remain, but that the people of the village may if they wish construct another dam below that of said *Stevensen*, to collect water for their cattle.

On the third, the Director-General and Council order, that *Thomas Stevensen* shall upon sight hereof take up his fences, carried into the river by him, whereby the passage along the strand is closed for the people of the village, or that the Magistrates of said village may do it.

On the fourth and last it is understood, that the above mentioned patent has been obtained by misinformation and false report; that the proposition, intention and promise of the Director-General, as President of the Council, in every respect was and shall remain in force to the effect, that no private bouvery or plantation should prejudice a village community: it is further notoriously evident, that a mistake has been made by either the clerk or by the surveyor in measuring and reporting the area and boundaries of the meadowland and that further disputes may result therefrom. The Director-General and Council order therefore, that the patent of *Thomas Stevensen* shall be corrected, but so that, in place of a third part of the meadow allowed by the Magistrates to him as to others, he shall keep one-half of it near his fields, because he has been hitherto the oldest and first owner of it; in regard to the other half he shall be considered in the allotment with the other inhabitants of *Middelburgh*.

COUNCIL MINUTE. THE MAGISTRATES OF BROOKLYN AND OTHER LONG ISLAND VILLAGES ASK,
THAT MEASURES BE ADOPTED TO PACIFY THE INDIANS IN THEIR VICINITY.

26th of Septbr 1656.

Before the Council appeared the Schepens of the villages of *Breuckelen*, *Midwout* and *Amsfoort*, requesting in the name of the inhabitants of said villages, that before starting on his journey to *Fort Orange* the Director-General would please to make peace with the savages hereabout and proclaim the same, because some people have very gloomy forebodings, that in the absence of the Hon^{ble} General the savages might make some attack; or else that if possible the General should remain here or if circumstances did not allow him to remain, that his Honor then would please to give orders, by which they could govern themselves in an emergency.

After some opposition, because the time had passed, they were told, that their request and remonstrance should be considered to-morrow. Done as above.

COUNCIL MINUTE. INDIANS OF MARSEPINGH, L. I., VOLUNTARILY RETURN GOODS STOLEN BY SICKETAWACH (L. I.) INDIANS.

Anno 1656, the 30th of September, about twelve savages from *Marsepinck* came here to the *Manhatans* and into the Fort, bringing by order of their Sachem a coat of gray cloth or *innocent* and two old shirts, which they said, had been stolen by members of the *Sicketawach* tribe, one shirt from a negro on *Long Island* at *Joresey's** plantation, the other at *Breuckelen* from *Jan Eversen's* house and the coat or *innocent* from this side of *Mespuitt kil*, where three houses stand together. They declared, that the savages of *Matinecogh* of the tribe called *Sicketawach* had done it and that the Sachem *Tachpauan* was angry, because they, the savages, had done it; it is proved [his anger], because he ordered the return of the stolen articles. They declared further, that the savages from this side of the *Wappings*** had also taken a blanket from the place, where the coat had been stolen and that the *Matinecogh* men had now gone there to bring it back, as they had been obliged to return what they had stolen, and when they had come, it would also be brought here.

Through the interpreter *Laurens Hansen*, they were thanked for the trouble taken by them and told, that their chief had done very well in causing stolen goods to be returned, for else it might create disharmony and quarrels. We accepted this on the contrary as a sign of sincere friendship, which our chief would reciprocate, whenever any theft was reported to him and we would inform him of it as soon, as he had returned from *Fort Orange*.

After these speeches we gave them a pound of powder to deliver to their chief as a sign of our good heart, with which they left.

SENTENCE OF WILLIAM HALLETT OF FLUSHING FOR ALLOWING BAPTIST CONVENTICLES IN HIS HOUSE AND OF WILLIAM WICKENDAM FOR OFFICIATING AS MINISTER OF THE GOSPEL AT FLUSHING.

Whereas *William Hallett*, born in *Dorsetshire*, in *England*, about 40 years old, a resident of the village of *Flushing*, and now a prisoner, has had the audacity to call and allow to be called conventicles and gatherings at his house and to permit there, in contemptuous disobedience of published and several times renewed placats of the Director-General and Council of *New Netherland*, an exegesis and interpretation of God's Holy Word, as he confesses, the administration and service of the sacraments by one *William Wickendam*, while the latter, as he ought to have known, had neither by ecclesiastical nor secular authority been called or appointed thereto; and whereas he with several others has been present at and listened to this exegesis and interpretation and after hearing it has with others from the hands of the said *Wickendam* received the bread in the form and manner, in which the sacrament of the Lord's Supper is usually celebrated and given; all of which is in direct contradiction with the general political and ecclesiastical rules of our Fatherland and especially contrary to the said placats of the Director-General and Council, which he as Schout in the aforesaid village was bound to uphold and strictly enforce, which, however, he has not only failed to do, but himself has transgressed and disobeyed.

* Rapaelje.

** See Volume XIII, N. Y. Col. Doc.

Therefore the Director-General and Council of the *New Netherlands* in pursuance of the tenor of the said placats, first dismiss the said *William Hallett* from his office of Schout in the said village of *Vlissingen* and furthermore condemn him to a double fine, to wit, 50 pounds *Flemish*, because being Schout and executive officer he should have prevented these proceedings and enforced the placats of the Director-General and Council; he is also banished from this Province of *New Netherland* and shall be detained in prison, until the said fine with the costs and mises of law incurred in this case have been paid.

Thus decreed and sentenced in Council of Director-General and Council at *Fort Amsterdam* in *N. N.* the 8th of November 1656.

Whereas *William Wickendam*, a native of *Oxfordshire* in *England*, old 42 years, now a prisoner, has had the audacity to call to and hold conventicles and gatherings and in disobedience of published and repeatedly renewed placats of the Director-General and Council of *New Netherland* has, as he himself confesses, usurped the office of Minister of the Gospel in expounding and interpreting God's Holy Word and administering and officiating in the sacraments of Baptism and the Lord's Supper without being called or appointed thereto by any ecclesiastical or secular authority, which is directly contrary to the general political and ecclesiastical rules of our Fatherland and especially to the said placats of the Director-General and Council, expressly forbidding all such conventicles and gathering, public or private, except the usual meetings, which are not only lawfully permitted, but also based upon God's Word and ordered for the service of God, if they are held, conform to the Synod of Dort here, in our Fatherland and in other churches of the Reformed Faith in Europe.

Therefore the said *William Wickendam*, in pursuance of the tenor of the said placats, is condemned to a fine of 100 pounds *Flemish* and is banished from this Province of *New Netherland*, but to remain in prison, until the said fine with the costs and mises of law, incurred in his case, shall have been paid.

Thus decreed and sentenced in Council, etc., the 8th of November 1656.

Whereas the Director-General and Council have been credibly informed and told, that the aforesaid *William Wickendam* is a very poor man with a wife and several children and a cobbler by trade, to which he does not properly attend, so that nothing can be obtained from him,

Therefore the Director-General and Council have remitted the aforesaid fine of fl 600 and allowed him to remove, on condition, that if he is caught here again, he must pay it.

11th of November 1656.

LETTER FROM D^r POLHEMIUS TO DIR. STUYVESANT; COMPLAINING THAT HIS HOUSE IS
NOT INHABITABLE.

Noble Sir, Honorable General in *New Netherland*.

I am compelled to respectfully complain to your honor, that I must see the planks, given, by your Honor out of compassion and presented to the community here to finish my house against this cold winter, being taken and lost this way or that; for instance two were lost on the way here by having been left on the beach in nobody's care: after having been brought into the village

without my knowledge, twenty-four were delivered to *Jan Eversen Meyer*, six were put down at the church for benches, of the balance 69 were taken away with the consent of *Jan Suedicker* and *Jan Strycker*, 17 carried to *Thomas Swartwout* and his brother *Aldert Swartwout* to dry malt, so that my house remains open as it was and I with my wife and children must live and sleep on the bare ground and in the cold. They say, there is no carpenter here, that I should procure one to have the work done. In order not to make my situation worse by keeping silence, I write this to your Honor.

Midwout, the 14th of December 1656.

In haste

Your Honor's obedient servant,

JOH. TH. POLHEYM.

To his Honor, General *P. Stuyvesant*,
at *New Amsterdam*.

EXTRACT FROM A LETTER OF THE DIRECTORS TO STUYVESANT: SETTLERS TO DWELL IN VILLAGES; DELEGATIONS TO NEW ENGLAND; TENTHS; RENSSELAERSWYCK; REVENUES; FRENCHMEN AMONG THE INDIANS.*

The 19th of December 1656. Honorable, Prudent, Pious, Dear, Faithful.

Our last letter to you was dated the 14th of June 1656, and sent with the ships "*Otter*" and "*Blauwe Duiff*," since which, praise be to God, the ships "*Gelderse Blom*," "*Waegh*," "*Dolphin*," "*Bever*" and "*Bontekoe*" have safely arrived here and we received your letters of the 25th of March, 2^d of May, 8th, 10th and 11th of June, 7th of July and 11th of August.** Although many points in them have been answered by our aforesaid letter, we shall now as briefly as possible answer what remains and what we think needs a reply.

* * * * *

We would have preferred to see you keep there the detained ship "*Dolphijn*" instead of sending her here with a cargo, for the amount of freight money earned by her has been reduced considerably by the settling with and paying of the people, whose goods were on board of this

Unfitness of the ship "*Dol-* vessel and were utterly spoiled by her unfitness. It is therefore evident, *phin*," that it would not do to send her again to *New Netherland* for use there,

unless we were to lay out on her more that she is worth, which you apparently have done already. As it is likely that a demand may be made here for this ship, you are directed to send us by the

To send over the account of first opportunity the account of these expenses incurred there by you, repairs. that we may make use of it in due time.

* * * * *

The complaints made by merchants here over the badness of *Virginia* tobacco and the frauds *Virginia* tobacco to be in- committed there by their factors have made us resolve to write you, spected. that this tobacco must be inspected, like the *New Netherland* tobacco and as we understand, that the inspector of tobacco† there has not the necessary experience or

fitness for this duty, which would not remedy this case, we recommend you, to look about for another fit and experienced person, who can judge of the bad or good qualities of tobacco, by pulling some out of the cask to see whether it is well dried and cured and by whatever else is done on such occasions. Much depends also on the cultivation of the tobacco plant, for when it is cut and cured at the proper time during the growing period, it is much better and stronger and may easily fetch a higher price, as we have explained in our letter of the 23^d of November 1654, to which we refer for brevity's sake.*

We consider a change of the value of your currency, that is, placing the beaver at 6 fl instead of 8, and wampum at 8 for a stiver, instead of 6, a matter of great importance and have therefore deferred the consideration of it until next spring. Meanwhile we shall think about it and later inform you of our opinion and wishes.

We are ready to believe, that the collection of the tenths is as yet of little consideration and causes much trouble, but that is no reason for neglecting it: as we have already said repeatedly, you must introduce this measure in the most

suitable and lenient manner, for even though the amount collected may not be sufficient to defray the expenses of each village, as the maintenance of the preacher, schoolmaster, etc., the tenths must nevertheless be demanded and paid over in behalf of the Company to the aforesaid officers, while the community, being held to make up the deficiency by other ways of subsidy or self taxation, would then not contribute more, than now.

As to the collection of the tenths in and the contribution to other burdens by the Colony of *Rensselaerswyck*, we must consider this matter still a while and shall advise you of our final decision in the spring. Meanwhile you must try to have the taxes paid by them agreeably to the proposition made by the resolution of June 27th, 1656.†

It is undeniable, that it would be exceedingly good and advantageous for our Province there and the inhabitants, if a free and untrammelled commerce with our *English* neighbors could be established; but we have taken in consideration the animus and condition of the Protector and of the present *English* government, with which we notice you are not well

acquainted, else you would have saved yourselves the trouble of drawing up so many commissions and instructions; and therefore we deemed it impracticable to carry out your proposition of sending a committee. We shall be pleased to learn, what arrangements you have been able to make in this matter with the *English* there.

The proposition made repeatedly by you, to have the remitted 4 p. et. and the 8 p. et. return

duties paid here and for the amount sent you the required necessities, will be taken into further consideration by us and we'll inform you in the spring of our decision and wishes. In the meantime we send you herewith in the ships "*Bever*" and "*Gelderse Blom*," as large a

quantity of military equipments, as our treasury could possibly afford, for which see invoices: we recommend to you to distribute them fairly among those who most need them.

* The result of this recommendation was an "Ordinance of the Director-General and Council for the better Inspection of Tobacco," passed March 30, 1657, for which see *Laws of New Netherland*, p. 367.

† See page 353, ante.

You seem now to think the latter yourself (and should have noticed it long ago, if you had made everybody do his duty,) as regards *Adrian van Tienhoven*, whose brother, the late Fiscal, was too long spared and respected to call for an accounting of his administration as Receiver-General, as it ought to have been done, because, as you say, for this reason the books, so often demanded and so long expected by us, could not be closed. it can only be to the disadvantage of our Province and the inhabitants. However we have not as yet deemed it advisable to come to a final resolution in this matter, as being premature and the matter perhaps of small consequence only, before we are not better informed about it. We desire

About *Johan de Deckere*. As you have given permission to the Commissary of the aforesaid Fort, *Johan de Deckere*, to come to *Holland* on private business, we trust, that you have provisionally filled the place with a proper and honest man, until the said *de Deckere* shall have returned, which he will undoubtedly do in the spring.

be found ready made and the time for making them is too short, you will have to wait till the spring.

Whereas *Marritje Fransen*, the mother of *David Jacobsen van der Linde*, who sailed as

J. Davidsen van der Linde boatswain in the ship "*Waagh*" and remained there, has urgently discharged. requested us to discharge her said son from the service of the Company, we have granted her request, in case her son wishes to leave the service, which we tell you for your instruction.

We have seen in a statement of monthly wages earned there by *Jacob Hendricks*, the barber, that you have credited him with an item of fl 455. 4.-for expenses incurred by him, while living in the Company's house. We perceive, it is your intention, to shove all your expenses there upon

The payment of slaves bought here referred, We have also referred to you the payment of an account of a purchase of slaves, imported there by the ship "*Welcomst*": as such things cause us and the people the greatest inconveniences, we warn you as before to prevent them and give all proper satisfaction to the creditors there.

Ship "*Duijff*" arrived in 29 days. We had written so far and were about to close this letter, when the ship "*Duijff*" arrived here in 29 days from *New Netherland*. We received by her your letter of the 12th of November last, intended principally, as the general letter is to come by the "*Otter*," to accompany the long-desired account books, which we shall now thoroughly examine here. Time will show, how much satisfaction we shall derive from them, which we'll communicate to you.

Enclosed is a letter sent us among others from *Curaçao* by Vice Director *Beck* to be forwarded to you. The enclosed lists show, what passengers and free people are coming over in the "*Bever*."

We send in the "*Bever*" also a small cask containing drugs and other medicines, demanded by you for sick horses. When required, make use of them and observe, whether they have such an effect, as the *English* [man and] farrier imagines.

LETTER FROM DIR. STUYVESANT TO THE MAGISTRATES OF MIDWOUT ABOUT THE MINISTER'S HOUSE.

Honorable, Dear, Faithful.

When last with you in *Breuckelen* at the house of *Albert Cornelissen* it was agreed in parting, by mutual consent and approbation of yourselves and the other delegates from the villages of *Breuckelen* and *Amesfoort*, that you should together make an estimate of the funds, out of which the preacher, D^r *Polheym*, was to be paid and placed above want and report it to us and the Council within eight days. As this time has passed and we are not yet informed of the result, we have deemed it necessary to remind you of it through the Schout and this open letter, that you fulfill your promise; else we shall be compelled by our official position and duties to take steps and give such orders and provide for such means, that the Minister be duly paid and placed above want. The said D^r *Polheym*, who was then present, complains further of the uninhabitable state and inconvenience of his dwelling house, which has as yet neither ceiling or wainscoting, so that he and his family are compelled to sleep on the floor. The winter being imminent, this is unbearable and improper and in order to remedy it we sent you for the ceiling and wainscoting of the house one hundred hemlock planks, which parties deputed by you received and carried to my brother's-in-law *Bucker's* house. I am however credibly informed now, that the said boards have not been used for the purpose intended by us, but that the Commissaries dispose of them privately according to their pleasure, for instance, so I am told, twenty-four have been given to the hired man of *Jan Ebertsen*; six ordered to be cut up for benches, seventeen given by *Jan Snedicker* to the *Swartwouts*, so that the boards disappear here and there, while nothing whatever is done to finish the Minister's house, which is most urgent to do, the winter being so near at hand. We command therefore herewith, that the boards be brought together again upon receipt hereof and put to their proper use and to no other, as we have ordered. If you fail herein, we shall take proper measures: whereupon relying we commend you all with the usual greetings to God's protection and remain

PETITION OF THE MAGISTRATES OF AMESFOORT, PRAYING CONFIRMATION OF AN ASSESSMENT FOR THE MINISTER'S SALARY; GRANTED.

To their Noble Honors, *Petrus Stuyvesant*, Director-General and the Council of *New Netherland*.

Show respectfully and with due reverence the delegated Schepens of the village of *Amesfoort*, as well in their official capacity as individually, that pursuant to the resolution, adopted in the presence of the Hon^{ble} Director-General *Petrus Stuyvesant* on the 29th of December 1656, last

past, after conferring with and with the consent of the Courts of *Breuckelen*, *Midwout* and *Amesfoort*, we considered it determined, that we of the jurisdiction of the said village of *Amesfoort* should in proportion to our neighbors of the villages and jurisdictions of *Breuckelen* and *Midwout* find and raise as our quota of the annual salary and pay promised to the reverend preacher, D^o *J. Theodorus Polhemius* the sum of three hundred guilders. After several considerations and deliberations, conferring also with the congregation and inhabitants, under correction, we have, in order to raise the aforesaid 300 fl in the easiest way, appraised and assessed the property of each person conscientiously and to the best of our knowledge and made the cotisation and taxlevy, here below given in detail, which with what some parties from *Gravesend* have voluntarily promised to contribute, will make up the sum of fl 300. When we shall have received your Honors' approbation we promise to carry it out, hoping for your Honors' assistance against a few, say two or three, evil minded persons, who might oppose and resist our good intention and project.

The persons assessed and provisionally taxed for the contribution of the said 300 fl. are the following:

<i>Peter Classen</i> promises to pay..... f 20	<i>Hans Jansen</i> f 16
<i>Marten Jansen</i> likewise..... " 20	<i>Jan Claesen</i> " 16

Having received and read the foregoing petition of the Court of *Amesfoort*, dated the 13th of this month of January, the Director-General and Council of *New Netherland* find the request therein contained to be just and therefore the said Magistrates of *Amesfoort* are authorized to carry out their taxlevy and to proceed legally against renitent parties.

PETITION OF THE MAGISTRATES OF MIDWOUT FOR POWER TO MAKE AN ASSESSMENT TO PAY THEIR MINISTER, TO FARM THE EXCISE, ETC., AND ORDER THEREON.

To their Noble Honors, Director-General
Petrus Stuyvesant and the Council of
New Netherland.

Show with great humility and due respect the delegated Schepens of the jurisdiction of *Midwout*, that pursuant to the resolution, adopted by the Hon^{ble} Director-General *Petrus Stuyvesant* after consultation with and with the assent of the Courts of *Breuckelen*, *Midwout* and

Amesfoort on the 29 of December 1656 last past, the inhabitants of *Midwout* were to contribute to the yearly salary, promised to the reverend pastor, D^e *J. Theodorus Polhemius*, 400 fl, those of *Breuckelen* 300 fl and *Amesfoort* a like sum of 300 fl. That after several meetings, they could find no other way, than to impose upon each lot and parcel of land, of which there are about 40 in *Midwout*, a tax of 10 fl yearly in proportion. This tax of 10 fl yearly for every lot proportionally would make up the sum of 400 fl., which we of the Court of *Midwout* have promised in presence of the Hon^{ble} Director-General to contribute to the yearly pay of the said Domine *Polhemius*. But as every one of the inhabitants and neighbors has not the same amount of property, one having less, the other more, we must and cannot tax all alike, but each in proportion to his property and real estate. If we receive your Honors' approbation to such a cotization and tax up to 400 fl for the yearly pay of the said D^e *Polhemius*, we promise to levy it directly and continue in it, each according to his ability and to make the assessment conscientiously, provided we are supported by your Honors against unwilling parties, which we hope will not make any opposition. We promise also, to take care and pay attention, that at the expiration of each six months the salary then due shall be paid to D^e *Polhemius* and we think, that the said Domine *Polhemius* might be satisfied with it.

We further very respectfully request, as we have already done in our letter to the Hon^{ble} Director-General personally dated the 21st of December 1656, that we may proceed at such time, as your Honors decide, with the letting of the burghers' excise on liquids and meats and use the revenues therefrom for the benefit of this village of *Midwout*, in paying the yearly salary promised to our Court messenger and other daily and incidental expenses. We promise to give an account and prove the balance in hand at any time, when called upon to do so, upon which your Honors may rely. Awaiting your Honors' favorable decision we are and remain

Having received and read the foregoing petition of the Magistrates of *Midwout*, dated the 13th of January, the Director-General and Council of *New Netherland* find the request therein contained reasonable and just; the said Magistrates are therefore authorized to levy the tax and to proceed against all who refuse. PETITION OF THE MAGISTRATES OF BROOKLYN AGAINST THE ASSESSMENT FOR THE MINISTER'S SALARY AND OBJECTING TO THE APPOINTMENT OF REV. POLHEMUS.

Noble, Very Worshipful, Very Learned, Wise
and Prudent, Honorable Director-General in
New Netherland etc.

Very Worshipful Sir.

Pursuant to the resolution adopted by your Honor on the 29th of November (*sic*!) last past at *Breuckelen* in our meeting, the delegates from *Midwout* and *Amesfoort* being present, *Midwout* was to contribute to the yearly salary of the reverend D^e *Polhemius* 400 fl, *Breuckelen* 300 and *Amesfoort* also 300, which we then thought a heavy tax and took in consideration to inform and

submit to your Honor our decision after having made our calculation. Now we, your Honor's humble servants, the Magistrates of *Breuckelen*, report and submit to your Honor the impossibility to contribute yearly 300 guilders, because this sum cannot well be collected from a weak and impoverished community, many members of which have suffered great losses and damages in the times of war through surprises by the Indians and otherwise, which have disabled them. With the best they will some cannot raise, what they would like to contribute; nor has the said D^o *Polhemius* ever been called or engaged by us as pastor, but he has intruded here against our wishes, desiring to preach in the public street in the open air; on account of which the house of the Schepen *Joris Dircksen* here in *Breuckelen* was provisionally given him to avoid giving offense to any one. The burghers and inhabitants of *Breuckelen* generally and the neighbors say, that for such meager and unsatisfactory service as they have had hitherto, even if they could, they would not resolve to contribute anything, for during the two weeks he comes here only for a quarter of an hour on Sunday afternoon, gives us only a prayer instead of a sermon, from which we learn and understand little and when we think, that the prayer or sermon, whatever it be called, is beginning, it is already over, so that he gives small edification to the congregation. It has happened to us only on the Sunday before Christmas, the 24th of December last, that in place of a sermon, which we had expected to have, we had to listen to a prayer so short, that it was over, before we had collected our thoughts; it was also nearly evening, before he, *Polhemius*, came over, so that he had really not much time and was compelled to break off and leave hastily to return home, and this was all the edification—little enough—which we have had during the Christmas holidays. We maintain therefore, that we shall enjoy the same, if not more edification by appointing some one of our midst to read a sermon from a book of homilies (*huys postille*) every Sunday, than we have hitherto received by the sermon or prayer of said D^o *Polhemius*.

We do not intend, however, by this our request and remonstrance anything to the dishonor of the said *Polhemius* or to the injury of his good reputation, but say only, that his great age is the cause of all and that his faculties are evidently not, what they were formerly; we see also, that *Polhemius* is not deficient in good will, but as he has not been called by us, we cannot conclude to contribute to his support aside from our inability already explained and submitted to your Honor. Although we, the Magistrates of *Breuckelen*, have resolved to contribute to the salary of the said *Polhemius*, the congregation here cannot come to such a resolution, as there are many, who cannot make any contribution and whom it would be more necessary to support; there are besides many bouweries unoccupied and vacant, for instance that of Mr. *Paulis*, the one of *Frerick Lubbertsen* on the strand, while a very simple and poor man lives on his other bouwery, who is also unable to give anything, and *Lodwyck* lives upon the Poor Bouwery while his lot is vacant, the same as *Peter Cornelissen's*, *Elbert Elbertsen's*, the land of *Black Hans*, *Grabiels* land, *Peter Mallemocque*, *Peter Manist*, *Jean Martyn* and others more of whom there is quite a number. From the foregoing your Honor may well consider and conclude, what can be raised and given here and although every one shall be assessed by us and put on the tax list, nobody will be able to resolve to contribute anything for such slender services, as we have heretofore enjoyed. We finally submit with due respect, that whereas the people of *Midwout* have engaged *Polhemius* alone without our knowledge or consent, we are very willing and well satisfied, that the *Midwout* people shall enjoy the services of D^o *Polhemius* alone, if the Domine wishes again to perform the service and prayer instead of a service as formerly, we shall not be bound by it to any thing, except to what from inclination and free and unbiased will may be added to his salary, as several among us here are well inclined to him, although we do not enjoy his, *Polhemius's*, services. Closing

herewith we commend your Honor to the gracious protection of the Almighty and wish a happy New Year besides a prosperous and blessed administration until the end and commending ourselves to your Honor's good favor we are and remain

After having read the foregoing letter the following answer was made :

Mr. *Tonneman* is hereby commissioned by the Director-General and Council to remind the people of *Breuckelen* once more to fulfill their obligation and promise concerning the salary of their pastor, D^e *Polhemius*, else the Director-General and Council will give such orders and make such dispositions as are necessary. LETTER OF THE MAGISTRATES OF BROOKLYN TO THE DIRECTOR AND COUNCIL ABOUT THE SALARY
OF THEIR MINISTER.

Noble, Worshipful, Honorable, Very Learned,
Wise and Prudent, your Honors the Director-
General and Council of *New Netherland*.

Gentlemen :

We respectfully submit as our answer to the decision made by your Honors on the 16th of January of this year 1657, by which we were to find means to supply the amount of 300 fl yearly for the salary, promised without our consent and knowledge by the people of *Midwout* and *Amesfoort* to the reverend Domine *Polhemius*, that we of the Court of *Breuckelen* do not know,

that we have ever promised or agreed to pay anything, but requested only time to gather information and make a calculation, whether it was feasible and means might be found; that we fear and apprehend, it cannot be done in so weak and impoverished a congregation, as ours and the neighborhood. It was not our intention or wish, to be constrained thereto by the Director-General and Council and therefore, not desiring to oppose the Director and Council herein, we have resolved at last to collect and contribute the said 300 fl., how or where ever we might be able to collect it, on condition that from the expiration of the first year of D^o *Polhemius*' engagement, which is on the 7th of April 1657, we shall be excused for this and the following years, unless in the meantime we should hear of improvements and favorable changes (God grant it) here in this country and in the Fatherland, as we hope, when we shall make a proper agreement with D^o *Polhemius* and promise to fulfill our former conditions, to which we have bound ourselves, but we cannot engage ourselves for subsequent and more years as above stated.

Closing herewith we commend your Honors to the gracious protection of God wishing a prosperous and happy administration until the end and commend ourselves to your Honors' good favors, with which we are and remain

PETITION OF MERCHANTS TRADING TO NEW-NETHERLAND CONCERNING DUTIES ON IMPORTED GOODS.

To the Honorable Lords-Directors of the Priv. West India Company, Department of *Amsterdam*.

Respectfully show herewith the undersigned merchants trading to *New Netherland*, that they have found and are assured, that many goods and merchandises, especially Indian goods, until lately procured by the *English* nation from the *Manhattans* in *New Netherland*, are now being bought by them and others at this place and shipped by way of *England* or directly to *Virginia*, *New England* and other places in that neighborhood, whereby the petitioners are deprived of a considerable share of their trade, which threatens to diminish daily, unless your Honors' wisdom should prevent it. The petitioners have therefore resolved, to lay the matter before your Honors and to submit to your consideration as the only expedient, that the cause thereof is to be found in the heavy duties imposed upon these goods above all others, wherefore some relief should be granted. Our agents in *New Netherland* complain also, that his Honor, Director *Stuyvesant*, demands, pursuant to your Honors' order, as he says, on all goods, taken out of the ship there, a duty of 4 p. et. in beavers at 6 fl or in silver coin, *Holland* valuation, and if it cannot be paid in either, he takes the value of it arbitrarily out of the cargo, advancing the prices fifty per cent

against those, declared here at the Company's office. A great injury is thereby done to the liberty of commerce, because cargoes arrive there often after the beaver-trading season is over or when few beavers come into market and because there is no or at least very little silver coin in the country. If the duty were to be taken out in merchandise, why should the best and most saleable be chosen, without considering, that often many articles are spoiled or that many casks of liquids arrive there empty, while contrary to the usages of this country as much duty is demanded for the spoiled goods and wasted liquid, as for full casks and goods in proper condition? We do not believe, that your Honors have intended that and turn therefore to your Honors with the friendly request for a reduction of the duty on Indian goods and that the 4 p. ct. may be paid in *New Netherland* in wampum, being the most current specie there, or at least that if to be paid in beavers, they be valued at 8 fl, at which price the honorable Director marks them, when making payments to our agents. The further request, that the amounts overpaid by us or agents on account of such importations, during the last year, be refunded to them there or balanced against the duties on goods, which henceforth we shall import there.

As the petitioners have also been informed, that the said *Stuyvesant* has upon several occasions threatened the merchants there with new taxes or tunnage fees, they request, that measures be taken and the doubts about this matter forever settled; as for other reasons the duties are already heavy enough, the petitioners further request your Honors' assurance, that henceforth no changes in the tariff or in the manner of paying the duties there be made, unless a previous notice has been given here.

Doing which etc., at *Amsterdam*, March 12, 1657.

LETTER FROM THE DIRECTORS TO STUYVESANT: CURRENCY; RENSSELAERSWYCK; NEGROES; CULTIVATION OF SILKWORKS; LUTHERANS.

Duplicate. The 7th of April 1657.

Honorable, President, Pious, Dear, Faithful.

Since our last letter of the 19th of December, 1656, sent by the ships "*Bever*" and "*Prins Maurits*," we received here the disagreeable news of the wreck of the "*Otter*" on the coast of

The "*Otter*" wrecked near *England*; by this misfortune we are now deprived of your general letter and other papers, of which you very carelessly did not send the

many things; so that we can hereby only reply to some points deferred in our last letter until now and a few others for your instruction and rule.

Concerning the proposed change of the value of your currency or reduction of the beaver and the wampum,* we have after due consideration come to the conclusion, that depreciation of

* *Wampum*, *peage*, *wampumpeage* or *sewant* were the names given to the *Indians'* currency, which the *Dutch* found in use among the aborigines, when they came to settle on the *Hudson*. *Wampum* was black and white perforated beads from $\frac{3}{16}$ to $\frac{5}{16}$ of an inch in length and $\frac{1}{8}$ in thickness. The *Quahog* or *Whelk* (*Buccinum undatum*), a shellfish formerly abounding on the coast of *L. I.*, but now rather rare, furnished the material, from which the black (in reality it was dark purple), and more valuable, also called *Suckauhook*, was made. The white beads were made from another shellfish, called *Metanhook*, *Periwinkle* (*Turbo littoreus*, Lin.) and were more strictly the *wampum*. *Isaac de Razieres*, Treasurer of *New Netherland* in 1627, introduced wampum in the *New-England* Colonies, much to the disgust of the inhabitants, who declared it the "*Devil's work and money*." See in *Laws of N. N.* the Ordinances rel. to Wampum.

Wampum reduced from 6 to 8 for white and 3 to 4 for black.

To be carried out in the spring of 1658 after due notice to the inhabitants.

The reduction of beavers to be deferred.

That the remitted 4 p. ct. are not of great advantage to you has not surprised us ; it is there-

The remitted 4 % to be collected in *Holland* and necessities sent instead.

They send a Bell for *Beverwyck*.

We send herewith the small bell, which the inhabitants of *Fort Orange* and the village of *Beverswyck* requested for their newly built little church ; as the 25 beavers, brought over by *Dirck Jansen Croon* to pay for making a pulpit, have arrived much damaged and therefore the proceeds therefrom were not sufficient, we have at

75 fl advanced for a pulpit for s^d congregation.

Two bells for *Midwout* and *Hemstead* to be sent later.

We enclose the duplicate of a letter from *Mathias Beck*, Vice Director at *Curaçao*, the original of which we received by way of the *Caribbean Islands*, you will learn from it among others, how aggrieved he is because of the empty condition of the Warehouse there ; this will be

improved however by the arrival there of our ship "*Bontekoe*," in which besides clothing we also sent victuals, as we are doing again now by the private ship "*Vogel Struys*," specially chartered by us to take out provisions and necessary materials.

To keep up a correspondence with the Island and whenever possible provide for it. We intend for this purpose to send you the ship "*Hay*," if she is considered seaworthy and can be fitted out with small expenses. If in the meantime private parties there desire to bring away from the Island in their own vessels a quantity of salt, of which they have a large stock, also horses and other animals, permission may be given them under fair and just conditions.

About the cultivation of the mulberry to feed silkworms. Upon this or any other occasion you must not fail to send one or two hundred mulberry-tree seedlings or shoots, (not grown trees, for that would surely require a pretty large ship,) put into earth in one or two barrels or hampers; in order to see, whether with eggs of the silkworm brought there in due time, they cannot be hatched out and silk advantageously produced there.

We think, this industry is likely to have much greater success in *New Netherland*, where nature has already planted the food of these animals. Our *English* neighbors have not failed to observe this and lately a few bales of silk arrived here, produced in *Virginia*. This has induced us to send you herewith a small box with eggs, that the experiment may be made there also. The season is rather well advanced and if therefore as we fear these eggs might be spoiled on the voyage, you must try to obtain a new supply from the said *English* neighbors or better still some silkworms, to make a beginning and see how it will turn out. We recommend it to you most seriously.

About the Lutherans. We have by no means the intention, to grant to the Lutherans any more liberty regarding the exercise of their religion, than stated in our letter of June 14, 1656, by which we still stand.

About the Schout of this City. We do the same in regard to our order, formerly issued, not to separate the office of Schout from that of the Fiscal and still desire, that the duties of both be performed by one person: this for your information and guidance.

Could get little information from the books sent. Their opinion. Very little information could be gathered from the books sent over, which contain only entries of debit and credit of many persons: the origin of these entries must be looked for in the day-book or else should have been given substantially in these books. The consequence is, that after waiting so long, we are not wiser than before. If we cannot obtain any better satisfaction out of the accounts of the former Receiver *Tienhoven*, we shall be compelled to try another tack, for we cannot believe, that everything was done in good faith. In the ledgers sent us we find among others, that one *Christian Remmingh*, who deserted like a villain, as proved by the book of monthly wages lit. W., and thereby forfeited all his pay, has nevertheless had the pay due him credited to his account with fl 52. 2. 12 and this amount transferred to the credit of *Hendrick Hendricksen from Elblingh*, who has procured an authenticated extract of it and sent it over, to collect the amount from the Company here. You can imagine, what impression such and similar errors and studiously perverse practices make on us and you must give us a detailed report about it by the first opportunity.*

* * * * *

The enclosed copy† of a petition from the merchants trading to *New Netherland* will inform you what complaints they make to us, among which we find some to be justified by good reasons,

* See Vol. XII, p. 183.

† See above, p. 385.

principally, that you demand the remitted 4 p. ct. in beavers at 6 instead of at 8 guilders or in silver coin, *Holland* valuation; this is entirely against our intention and wish, as you may have learned from the conditions sent you, which we made with this city for the establishment of colonies there. If therefore the receipt of these 4 per cent duties could not be missed by you the last time and returned to us (as we have proposed above), you shall demand them only in *New Netherland* valuation and the beaver at 8 fl without compelling the merchants to make up the difference out of their cargoes at an advance of 50 p. ct.; for such a measure can only tend to ruin the trade, which must be unrestricted. We have deemed it necessary, to urge this upon you with much earnestness, so that we may not be troubled with any more such complaints in the future.

In our last letter of December 19th, 1656, we not only reminded you, but also directly charged

Not to take imposts on goods you, not to take imposts or duties on goods sent within the jurisdiction conveyed from one place in the Province to another.

thing quite unheard of and contrary to custom here; but as we now observe, that the trade to *Virginia* and *New England* is in danger of being diverted by the heavy taxes which you are imposing upon merchandise going out of the Company's territory, we have decided, that to prevent it the old rules must be followed again and only one per cent

Not to demand more than 1 % on goods going out of the Province.

demanded from outgoing merchandise; we therefore recommend, that you do it henceforth, charging you to have close attention paid to the collecting of these and other royalties and revenues of the Company; but it is not necessary, we think, to farm it out, which as you state in your letter of June 8th, 1656, is now done for 3,000 fl per year. This sum appears very small to us, considering the complaints made to us over excessive duties on outgoing goods, as for instance 3 fl and more for an anker of distilled water and all other measures in proportion. Either the farmer of the revenue goes beyond his instructions or the Company loses by the farming out and is defrauded; you will report to us by the next opportunity, how it is.

Complaint is also made here, that 6 stivers are paid as fee for weighing each hundred pounds of tobacco; this is indeed too much and unbearable in so early a beginning and it must be changed; remember this.

Jan Withart, the agent of the owners and freighters of the ship "*St. Michiel*," has complained to us, that on account of some powder in the cargo he as agent has been condemned to a fine of 1500 fl, which had been reduced to 1000 fl by composition and the decision of arbitrators. He paid this latter sum long ago, but after the payment and entire settlement of the case the former Fiscal *Tienhoven* has pressed out of him 500 fl more; he therefore demands, it may be refunded to him, to which we could not consent, as we are ignorant of the case, but if his statement is correct, great wrong has been done him; you must send us a report about it.

We are also importuned here by a certain *Peter Luycassen*, formerly skipper of the "*Abrahams Offerhande*" about the payment of monthly wages to his crew, whom you engaged there. As we refused to pay, which we told you in our letter of September 25th, 1655, we must desire you to satisfy the man or his attorney there; remember however, that out of pity, we have paid here to the carpenter, *Doucke Huyckens*, the sum of 100 fl, so that he has only 142 fl coming to him now.

There sailed from here in the ship "*Waegh*" as soldier one *Lindert Claesen* from *Rijpen*,* whose wife has since died here and left three children, now maintained by the Overseers of the

These officers have requested, that the said *Claesen* might be induced to live frugally there, so that they could receive part of his pay for the maintenance of the children (the oldest of whom they are willing to send over, if the father is in a position to keep him), as their mother received for the same purpose 90 fl. We wished to call your attention to this matter and recommend it to your consideration.*

To Director *Stuyvesant* and Council
in *New Netherland*.

Post Datum :

Cornelis Martsen Factoor, whom we have placed as supercargo on the "*Goude Meulen*," has asked this Board for compensation for two half awms of Spanish wine, illegally confiscated there with two half awms of brandy by the former Fiscal *Tienhoven*. If this is true and we presume it to be so judging from your resolution of the 8th of November, 1656, it is not more than just, that he should be indemnified and contented, which we recommend to you herewith.

By order of the Directors,

A. B. DE DECKER, junior.

COUNCIL MINUTE. A MARKETDAY APPOINTED FOR BROOKLYN.

The Magistrates of the village of *Breuckelen* and adjacent localities having petitioned for authority to hold a market day in their village,

It is decreed, their request is granted; the market day shall be held weekly every Thursday.

LETTER FROM THE DIRECTORS TO STUYVESANT: NEW MEMBERS OF THE COUNCIL.

Honorable, Prudent, Very Discreet.

In our last letter of the 7th of April, dispatched by the "*Vogelsangh*" and the "*Goude Meulen*," we informed you among others, that we would order an inspection of the confiscated Swedish ship "*Hay*"*and, if found seaworthy and suitable, send her over well fitted out and repaired, to be employed there as a regular packet between *Curaçao* and *New-Netherland*; this has been

* See Vol. XII, p. 183.

done and the vessel is so far fitted out, that in 3 or 4 weeks she may sail for *Curaçao* and thence with a cargo of salt and horses directly to *New Netherland*; you may make your arrangements accordingly.

While examining the documents and papers relating to the confiscation of the aforesaid vessel, we found, that she has been appraised there, but cannot discover any specification or statement of the quantity of goods or merchandises, which may have been on board, much less what they were sold for and to whom the proceeds of the sales were entrusted. We were surprised, the more so, because in sending the ship this could hardly have been overlooked; if any reclamation had been made here, we would have been thoroughly embarrassed and as we are not yet quite relieved of this matter, we must desire you, to send over these papers by the first opportunity, also a statement of the losses and damages, inflicted upon the Company and the inhabitants by the surprise and capture of *Fort Casimir*, so that when called upon we may make use of them.*

It is possible, that the money received from the sale of the cargo of this Swedish ship was placed into the hands of *Cornelis van Tienhoven*, who was then Fiscal, but we can hardly believe, that you should have left it there; if it was done, you must try to get possession of it, as even in case his estate should be insolvent, which we do not believe, the Company should have the preference; report, how it is.

We have engaged here as Councillor for your aid and assistance *Johan de Decker*, late Commissary at *Fort Orange*; and as we have observed from time to time, how badly the finances of the Company are managed there, we have specially committed their administration to said *Decker*, for which he is to receive as salary 25 fl monthly besides the 50 fl as Councillor's pay and 200 fl yearly for rations. We trust, the Company and you will derive great benefits from his performance of these various duties and if his private affairs had not detained him here he would have sailed in the ship "*Waagh*," but he was obliged to delay his departure.

The enclosed copy of instructions will inform you, how the Company's finances are to be administered: we have had them specially compiled for this purpose, that for once we may see well and correctly kept books. These instructions provide also, that as soon as the said *Decker* shall have arrived out, you are to make him a committee of the Council for the supervision of the finances, upon which he is to report to you from time to time.

We have committed the funds and the books of the treasury to the care of the Secretary *van Reuven*, who has, as we understand, good qualifications for this office. You will let him open new books and conform to the instructions without waiting for the arrival of said *Decker*, without whose assistance everything can be prepared.

INSTRUCTIONS FOR THE DIRECTOR AND COUNCIL IN NEW NETHERLAND FOR THE ADMINISTRATION
OF THE COMPANY'S FINANCES.

1.

They are to take first an inventory of all the assets of the Company, consisting of money on hand and amounts due, of the provisions, ammunition, equipments, soldiers' clothing and merchandise in the Warehouse, of all rents and tenths due and of the lands and houses belonging to the Company.

2.

Out of this inventory they are to make ledgers of the finances, of the cash, debtors, farmers of the revenue, current values and the Warehouse, each to have a separate ledger, of the houses, parcels of land and bouweries belonging to the Company, also properly debit and credit the Company and those, who owe tenths etc.

3.

In order, that the receipts and expenses be properly accounted for, the cash account shall be kept in one coin or value, namely *Holland* currency, the *rijxdaelder* at 50 and the ducatoon at 63* stivers. All receipts and expenditures in light money, either in wampum or beavers, shall be reduced to the valuation of the cash book by addition or subtraction.

4.

If any slaves, horses, salt or other merchandise shall arrive there from *Curaçao* or elsewhere for account of the Company, they are to be sold publicly, every thing properly labelled, either for cash or on time with sufficient security; but no officer of the Company shall be allowed to take or buy any of them, except at the public sale as above.

5.

Nobody shall buy for account of the Company any provisions, material or other things except with the knowledge and by order of the whole Council, nor shall an account or draft be paid, unless approved by the Council and signed by two of its members.

6.

No officer or servant of the Company shall be allowed, to buy any land, lots or other valuable property from or make any conveyance to the Company without the consent of the whole Council.

7.

No officer or servant of the Company shall farm any of the revenues or have a share in such farming, neither directly or indirectly.

8.

A strict account shall be kept of all export and import duties, for each ship separately with remarks concerning all the parties interested; this must also be done in all cases of confiscation and affecting other privileges of the Company.

9.

They are to take care, that the financial ledgers are at all times kept intelligibly posted up, also that the books of monthly payments to the soldiers and others are properly charged with what they have received and that the time of their death or discharge be noted against their account: the property left by deceased soldiers and other servants of the Company must be administered upon for the benefit of the heirs.

* \$1.00 and \$1.26.

10.

They are further to take care, that the emoluments, allowed to the Company's officers, remain regulated by the list published in regard to them and they must severely correct and punish all excesses and misuses in this matter.

11.

The persons, to whom the supervision and administration of the finances are specially entrusted, shall be held to report for the information of the Council on the condition of the finances every three months.

12.

They are to close the financial ledgers on the last of December of every year and send them to the Fatherland and draw up and send over also a general statement (*blaffart*) of all revenues and expenditures, received or made by the Company during the year, down to a stiver, reporting the cash on hand and specifying the contents of the Warehouses and all other property of the Company.

Thus done and decided at the meeting of the Directors of the *West India Company*, Dep^t. of *Amsterdam*, the 26th of May, 1657.

EDWARD MAN,

ISAAC VAN BEECK.

LETTER FROM THE DIRECTORS TO STUYVESANT: LAMONTAGNE, VICE-DIRECTOR AT FORT ORANGE
SMUGGLING; TENTHS; FRENCH PRIVATEERS; RECORDS.

The 15th of September 1657. Honorable, Prudent, Pious, Dear, Faithful.

Our last letter to you was dated the 26th of May 1657 and sent by the ship "*Waegh*"; the copy of it is here enclosed, to which we refer; since that date the private ships "*Bever*," "*Beer*" and "*Gelderse Bloom*" arrived here safely, praise be to God, on the of July and we received by them your letters and papers of the 2^d and 3^d of June, also the duplicate of your letter of November 1656, the original of which had been lost with the "*Otter*." As several matters in this letter have been answered by ours of April 7, 1657, we shall as briefly reply to the rest and what else requires it, as possible in so short a time.

1.*

2.

The satisfaction apparently felt by the resident community of *Fort Orange* and the village of *Beverwyck* over the administration of the Councillor *La Montagne* has induced us to continue the same there as Commissary or Vice-Director provisionally and until further orders.

3.*

4.

We shall further examine the renewed ordinances and placats issued by you for the Orders against smuggling prevention of smuggling, also the draft of an ordinance relating and about inspecting tobacco to the inspection of *Virginia* tobacco and the arguments of the to be examined. merchants and factors against it; our opinion and wishes in this regard will be sent to you by the first ship.

5.

Whereas Captain *de Coninck* has not given us the least information concerning the expenses They desire an exact account and wages paid in the repairing of the ship "*Hay*" (now called of the ship "*Hay*." "*Diemen*" and already on her way to *Curacao*;) you must as well as you can draw up an account and send it to us with a complete list or statement of all the material, used for the repairs of the said ship and delivered out of the Warehouse. These papers have not been found among the other documents, with which you say they were sent; we may require them some time or the other.

6, 7, 8.*

9.

Although the village of *Hemstead* and some other distant bouweries would not make an No expenses to be spared in agreement about the tenths, the expenses to collect them forcibly must be collecting the 10 cts. not be considered, but every necessary step must be taken to obtain the Other Reasons why. right of possession, which is very important to us and when such collections have been made once or twice, the people may find out the errors of their way and come to an agreement.

10.

We have read your lengthy debates, verbous complaints and far-fetched excuses in reply to our letter of December 19, 1656, showing that you do not intend to give in or submit and we might give you a satisfactory answer, if we considered it necessary or worth while: but we'll only say, that in future you better keep aloof from such reproaches and challenges and take greater care not to give cause for just complaints.

11.

Your arguments regarding the questions, which often arise between skipper and merchant They send instructions for over the average of spoiled merchandise have been duly considered by the Comm^{rs} of Admiralty in us; but as this is a matter, which cannot well be disposed of by an order in average cases. or rules, we have found it advisable, to send you herewith — to prevent injustice to the skippers, which we notice has been done to them — two or three copies of the Maritime Laws of *Wisby*† and as many copies of instructions drawn up here for the information and guidance of the commissioners of admiralty, that you too may act accordingly. As to making In due time rules for the rules for the freightage of goods sent to *New Netherland*, we think freight money to be made. we can do it and shall take it into consideration, of which you may expect the result by the next ships.

12.

You state later on and lastly, that a *French* privateer with a *Spanish* prize had arrived there, and request to know how you should act in such cases considering the peace with *Spain*, while you would shut your eyes in the meantime to the sale of the prize cargo. We answer briefly, that you cannot prevent such privateers to enter your port, but you can forbid them to break cargo and Not to allow privateers with sell some of the prize goods, which must not be allowed to be done *Spanish* prizes to break cargo. either directly or indirectly within the Company's jurisdiction; we are therefore surprised, that you have made such a mistake and have acted contrary to the usages of

Which would tend to diminish the *Curaçao* trade. to prevent this and give offence to nobody we have decided to write to you and seriously recommend not to allow or connive at such breaking of cargo and selling of prize goods under any circumstances; you will act accordingly.

13.

We enclose the bills of lading of the private goods shipped in the "*Wasbleecker*," also the list of passengers coming over in the same ship; among them is a woman, for whom the Company paid the passage. We have no doubt, that you keep a book or register of such persons, so that on their removal from there you can recover the money.

We have forgotten to mention, that we are pleased by your sending us the records of reso-

As we understand, that the ship "*Wasbleecker*," now coming over is intended to bring a cargo of salt from *Curaçao*, we recommend, that you send some provisions to the Island, which

also be an inducement to open the trade between *New Netherland* and *Curaçao*, the more so, if upon arrival there the shippers of salt are treated civilly and kindly and not too heavy and unbearable duties are imposed. You will see to this, that every body may feel encouraged.

A. B. DE DECKER.

Honorable, Prudent, Pious, Dear, Faithful.

After having closed and dispatched our general letter, we resolved to send you by the same ship "*Wasbleecker*" some commodities and necessities, as *Russian* cloth, *English* caps, shirts, socks and shoes for the soldiers as per enclosed invoice, so that they may be provided with them before winter. We urge you to distribute them properly and to those most needing them.

A. B. DE DECKER.

LETTER FROM THE DIRECTORS TO STUYVESANT; SMUGGLING; WAMPUM; DUTIES; RENNELAERSWYCK AND TAXES; JOHAN DE DECKER.

The 22^d of December 1657.

Honorable, Prudent, Dear, Faithful.

1.

Our last letter to you dated the 15th of September was sent by the ship "*Wasbleecker*," to the duplicate of which here enclosed we refer. Since that time the ships "*Otter*," "*Draetvat*," "*Goude Meulen*" and "*Vogelstruys*" have safely arrived here, God be praised, and brought us your letters of the 13th and 16th of August and 7th and 10th of September, which we shall now answer as briefly as possible together with some few points formerly deferred.

2.

The first point offering itself is your deliberation to prevent the smuggling in the fur trade specially, carried on at the North. We also made this matter a subject of our consideration as well as the renewed placat regarding it, which you propose and which with some alterations and modifications we have approved, as you may see by the printed copies, to be forwarded by the ships now ready to sail. You can affix them there and must punish those, who break the rules, without any connivance.

3.

We do not disapprove of your reasons for executing the placat concerning the reduction or the issue by measure of the wampum and would have confirmed it, if the magistrates and some of the principal merchants there were satisfied with it. Their opinions should be heard and if they approve of the step, you may carry it out there; we return therefore the said placat* with a few alterations, believing, that wampum should not be received or paid out by us at a higher rate than in *New England* and as we have noticed, that you usually publish such ordinances and placats in the name of the Privileged *West India* Company without mention of the Department of *Amsterdam*, we found it necessary to direct, to name the latter also on all future occasions and not to neglect it.

4.

Your project or motion, to have the *Virginia* tobacco also inspected there, and the arguments of merchants and factors against it have been thoroughly examined by us and although we incline to your project and to the appointment of an inspector, which would prevent some faithless factors from defrauding their principals, yet, seeing that it would give cause to dissatisfaction and complaints generally among the merchants there, we prefer for the present to wait and you will govern yourself accordingly.

5.

Since we wrote last we have also considered rules for determining and collecting the rates of freight for goods coming from here demanded by the skippers, but we did not find them practicable or at least not so very necessary, considering it is well known, that the skippers discriminate and make special agreements, so that the small merchant does not pay more than the great one and we inform all at our office, who are ignorant of it, that they may act thereon.

6.

As before the adoption and publication of our resolution concerning the remitted 4 p. ct. some merchants here had paid to us the duties of 10 and 6 p. ct., we have this time, to prevent trouble, given them and other shippers the choice to pay their dues there in beavers as formerly or here in place of 4 p. ct. only 2½. What we shall receive here will be sent to you in necessities and commodities, as requested, by the ships now ready to sail. The enclosed bills of lading of the private shippers will inform you, from whom you have to demand there the said 4 p. ct. in beavers.

7.

We regret to hear, that the people of the Colony of *Rensselaerswyck* continue to maintain their unfounded position and cannot be persuaded to collect and pay the tenths and other taxes.

This is very dishonest and on account of the consequences can and must not be tolerated ; we have therefore resolved to direct once more and for the last time, that you make the attempt and in case of non-compliance or refusal compel them by way of execution.

8.

At your urgent solicitations and in order to push the walling in of the Fort we have engaged three stone-masons, who with . . . sailors, called for formerly, are now going over at such wages, as the enclosed list shows ; as yet we have not been able to engage carpenters, because they are more inclined not to enter service and to go there as free men, as some are doing now with these ships, so that if need be you may employ them on day's wages.

9.*

10.

A record must be kept of all people, whom the Company brings over at our expense, although they are not in our service and each person must be charged on his account with 36 fl *Holland* money for passage, children under ten years half as much and infants nothing and payment must be demanded, when these persons desire to leave there. Strict attention must be paid to this, that the Company do not suffer loss.

11, 12, 13, 14.*

15.

Johan de Deckere, whom we have appointed Conneillor and Superintendent of the Finances, as we informed you, is about to sail with his wife, lately married here, in one of these ships, the "*St. Jan Baptista*," unless the sudden and unexpected frost has taken him unawares and prevented him from getting ready ; in that case he will surely leave in one of the ships now preparing to sail. We neither can nor will doubt but that you shall receive much assistance from him and the Company will be well and faithfully served by him. But we must recommend and direct, that you thoroughly maintain and support him in the performance of his duties and live with him in harmony and friendship, as members of one administration, each in his place, ought to do.

16.

We send herewith a small box with eggs of the silkworm, which you may distribute there among people, who understand the business, so that in time desired results may be had.

17.

We have hastened the preparing of the commodities and clothing to be sent to you on behalf of the Company so much, that they will be forwarded now by the ship "*St. Jan*," consisting of such quantities and different kinds, as the enclosed invoices show. We recommend you to be careful in their distribution.

The invoices of goods shipped by private parties in the "*St. Jan*" are also enclosed. The Fiscal must watch their discharge closely.

Having heard the answers of the Clerk *Edward Hart*, it is resolved to send him to prison until further order.

3^d of January 1658.

8th of January 1658.

Whereas the Director-General and Council are credibly informed by a letter from *Bustdorp* * dated the 29th of December and signed by twelve of the principal inhabitants of said village,

* *Jamaica, L. I.*

that the Quakers and their followers are lodged and provided with meat and drink and have an unusual correspondence in said village at the house of *Henry Townsend*, which *Townsend* has already heretofore called together and been present at the conventicles of Quakers, being condemned therefor on the 15th of September 1657 to a fine of 8 pounds *Flemish*, not yet paid by him,

It is resolved, to summon him before the Council. Date as above.

Received the written answer of *John Tilton*, formerly Clerk at *Gravesend*, (imprisoned on the charge made by the Schout of *Gravesend*, that he had lodged a Quakeress) to the complaint of the Fiscal: it is ordered to send a copy thereof to the Schout of *Gravesend* for his reply. Date as above.

The petition, made to the Council by the two imprisoned Magistrates of *Vlissingen*, *Noble* and *Farrington*, for liberty to go about on *Manhatans Island*, promising to appear at any time, having been taken into consideration, is granted. Date as above.

10th of January 1658.

Present in Council their Honors, the Director General *Petrus Stuyvesant*, and the Councillors *Nicasius de Sille* and *Peter Tonneman*.

Received and read the charge of the Fiscal against *John Tilton* for lodging and entertaining a banished Quakeress and the written answer of *John Tilton*; which having been read the following sentence was pronounced:

Whereas *John Tilton*, residing at *Gravesend* on *Long Island*, now a prisoner, has presumed to lodge and entertain a Quakeress banished from this Province of *New Netherland* and some persons of her following, adhering to the abominable sect of Quakers, which is contrary to the orders and placats of the Director-General and Council of *New Netherland*, and therefore deserves a severe punishment as a warning example to others,

Yet, taking into consideration the humble petition of said *Tilton*, wherein he acknowledges and declares, that the aforesaid Quakeress and other neighbors came to his house during his absence and further considering his former behavior,

The Director-General and Council of *New Netherland*, administering justice in the name of their High: Might: the Lords States-General of the United Netherlands and the Lords Directors of the Priv. W. I. Company, condemn the said *John Tilton*, as they herewith do, to a fine of twelve pounds* *Flemish* together with the costs and mises of law; of the fine one third to be paid to the Fiscal, one third to the Schout of *Gravesend* and the rest as directed by law. Date as above.

Amsterdam,

January 10th 1658.

WILLIAM  NOBLE

EDWARD FARRINGTON

The Fiscal having submitted to the Council and read the interrogatories, on which in presence of commissaries the Magistrates of *Vlissingen*, *William Noble* and *Edward Farrington*, were examined, it is found, that the said Magistrates have been misled by the Schout *Tobias Feake*; that they deserve some punishment for having signed the remonstrance entered here on the first of January, but considering their verbal and the foregoing written acknowledgment of their error and promise to be more cautious hereafter, their fault is graciously forgiven and pardoned on condition of their paying the costs and mises of law. Date as above (10th of January.)

Before the Council appeared upon summons *John Townsend*, who being questioned, whether he had not gone, while at *Vlissingen*, with the Clerk *Edward Hart* to the house of *Edward Farrington* and had not persuaded *Edward Farrington* to sign the foregoing remonstrance, answered that he had been at *Vlissingen* and visited *Farrington*, being an old acquaintance, but had not persuaded him to sign anything.

Further questioned, whether he had been at *Gravesend* with the banished Quakeress, he answered he had been at *Gravesend*, but not in her company.

As there are other suspicious indications, that the said *Townsend* was friendly to the Quakers, he is given the choice either to go to prison, until the Fiscal shall have further informed himself on this point or to give bail for twelve pound sterling, that he will appear upon the Fiscal's summons; he promised to give bail, which he has done as the records prove. Date as above (10th January.)

15th of January 1658.

Henry Townsend, who on the 8th inst. had been summoned for reasons stated in the resolution of that day, appeared before the Council this day and the Fiscal *Nicasius de Sille*, as law-officer, demanded by word of mouth, that, as the said *Henry Townsend* had before now and

again lately transgressed and disobeyed the placats of the Director-General and Conneil in lodging and keeping with the sect called Quakers, which he openly acknowledges, the said *Henry Townsend* for the stated reasons should be condemned to a fine of one hundred pounds Flemish, as an example for other transgressors and contumacious offenders of good order and the placats of the Director-General and Council in *New Netherland*.

Having heard the demand of the Fiscal and the confession of the said *Henry Townsend*, the Director-General and Council of *New Netherland*, administering the law in the name of their High : Might : the Lords States General of the *United Netherlands* and the Lords Directors of the Priv. W. I. Company condemn said *Henry Townsend* to a fine of 300 fl, to be applied as directed by law, he to remain in prison, until the fine has been paid with the costs and mises of law as an example to others.

Done in Council, the 15th of January 1658.

Your humbell Saruantt

WILLIAM LAWRENCE.

22^d January

The foregoing letter from the oldest Magistrate of the village of *Vlissingen*, *William Lawrence*, having been opened and read in Council, it is resolved, to answer by the bearer thereof, *William Noble*, that they should suspend their meetings as Magistrates, until the Director-General and Council have been in their village or sent their committee, to give the necessary orders; if meanwhile something extraordinary occurred, they should refer it to the Director and Council.

For the above stated reasons and on account of what the people of *Hemstead* report and request in their foregoing letter of the 28th of December, it is resolved that the Director-General and Council proceed in person in some safe and convenient manner to the neighboring English villages to give there some necessary orders.

LETTER FROM EDWARD HART TO THE DIRECTOR AND COUNCIL ASKING TO BE RELEASED AND PARDONED AND COUNCIL MINUTE THEREON.

Right Honorable Governor and Counsell.

ffor asmuch as I hane written a writeing whereat you take offence my humble desire is that your Honnors would be favorable and gracious unto mee, for it was not written in disobedience

vnto any of your lawes, therefore my humble request is for your merey, not your Judgement, and that you woulde bee pleased to consider my poore estate and Condition and release mee from my bonds and Imprisonment, and I shall indeavor hereafter to walke inoffensively vnto your Lordships and shall ever remaine your humble servant to Command.

January 23^d 1658.

EDWARD HART.

In Council received and read the foregoing petition of the imprisoned Clerk of *Vlissingen*, *Edward Hart*, and having considered his verbal promises of better behavior and the mediation of some inhabitants of said village, also that he has always been an efficient officer and as an old resident is well acquainted with divers matters; further whereas the Schout *Tobias Feake* has advised him to draw up the remonstrance recorded on the first of January and he is burdened with a large family,

The Director-General and Council forgive and pardon his error this time on condition of his paying the costs and mises of law. Date as above.

SENTENCE OF TOBIAS FEAKX, SCHOUT OF FLUSHING.

Whereas *Tobias Feake*, a resident of *Vlissingen* on *Long Island* now a prisoner, has confessed and acknowledged, that he received an order from the Hon^{ble} Director-General, not to admit, lodge and entertain in the said village any one of the heretical and abominable sect called Quakers, but has nevertheless had the audacity, in contempt of the said order and formerly published and renewed placats, to be a leader and instigator in the conception of a seditious, mutinous and detestable letter of defiance (*chartebel*) signed by himself and his complices and by him retained and then delivered to the Director-General, wherein they justify and uphold the abominable sect of Quakers, who vilify both the political authorities and the Ministers of the Gospel and undermine the State and God's service, and absolutely demand, that all sects, especially the said abominable and heretical sect of Quakers shall and must be tolerated and admitted; all of which is directly contrary and repugnant to the above referred to orders and placats of the Director-General and Council, which he pursuant to his oath, official position and duty, as a subordinate officer of the General and Schout in the said village of *Vlissingen*, should by all means have upheld and enforced,

But whereas he has herein not only failed, but has himself transgressed and disobeyed, for which as an example to others he deserves severe punishment, yet considering the humble petition of the prisoner *Feake*, confessing his wrongdoing and promising hereafter to avoid such errors.

Therefore the Director-General and Council of *New Netherland*, administering the law in the name of their High: Might: the Lords States General of the *United Netherlands* and the Lords Directors of the Priv. W. I. Company first dismiss the said *Tobias Feake* from his office as Schout of the said village of *Vlissingen* and banish him from this Province of *New Netherland* or to pay a fine of 20*g* fl to be applied as directed by law, if he will keep his promise, together with the costs and mises of law.

Done at *Fort Amsterdam* in *N. N.* the 28th of January 1658.

P. STUYVESANT.

PIETER TONNEMAN.

PETITION OF THE MAGISTRATES OF MIDWOUT, (FLATBUSH L. I.) AS TO THE DISPOSITION TO BE MADE OF THE CHURCHLAND AND ORDER OF COUNCIL THEREON.

To their Noble Very Worshipful Honors,
Petrus Stuyvesant and the High Council
of *New Netherland*.

Show with due humility and reverence the Schepens of the Court of *Midwout*, that heretofore they have several times requested and shown, how necessary and useful in easing the burdens of the village and the congregation the four church-lots would be, if granted to the village of *Midwout*; whereupon at last your Honors directed, that a further report in writing and a statement of the manner, in which the said church-lots were to be administered, was required.

We submit therefore to your Honors as our report and further explanation: we believe, under correction, that the best measures for the advantage of the congregation and the village of *Midwout* are as stated here below:

First. That 25 morgens with their appurtenances lying on the east side of the plain and south side of the road be used for the repairs and maintenance of the church.

Second. That another lot of 25 morgens lying also on the east side of the marketplace and north side of the road with their appurtenances and privileges be used for the support of a school, divine service etc. If your Honors approve and consent, the necessary means thereto shall be found.

Third. The remaining 50 morgens lying on the west side should necessarily be added to the parsonage, but we cannot well decide, which is the most requisite and best use for them. The further explanation of this point, quite lengthy, is substantially a request to be excused from contributing to the support of their Minister, until the tithes for their village became due; I have abbreviated it here, because the deputies from *Midwout* took the petition and answer directly away and I had therefore no time to copy it entirely. It was signed *Jan Strycker, Adriaen Hegeman, Willem Jacobse van Boerum* and below stood By order of the Schepens of the Court of *Midwout*, *Pieter Tonneman*, Secretary.

Having received and read the foregoing petition the following answer was given:

We consent to the first two points regarding the lots and allow, that they be used for the purposes and no other, which the petitioners propose and submit.

The Director-General and Council agree, that the remaining two lots or 50 morgens be used for the parsonage, to support as far as they will go, the present and future Ministers.

The Director-General and Council are of opinion, that the deficiency must be made up by the inhabitants according to their former promises and subscriptions and continue so, until the tithes are due, when further orders concerning the support of the Minister shall be give

Thus done in Council held at *Fort Amsterdam* in *N. N.* the 29th of January 1658.

ORDER ON A PETITION OF D^r POLHEMIUS, MINISTER AT MIDWOUT, L. I., CONCERNING HIS SALARY.

January 29th, 1658.

Received and read the remonstrance and request of D^r *Johannes Theodorus Polheym*, preacher at *Midwout*, etc., on *Long Island*, who shows, that from the month of October 1654 to the 7th of April 1656, the date of his agreement with the inhabitants of the villages of *Breuckelen*, *Midwout* and *Amesfoort*, he has had charge as pastor of the congregation and performed the duties connected with it as well as he could, without however receiving from the inhabitants of said villages any remuneration for it. Having arrived here from the Islands poor and without means he has been compelled to draw, with the knowledge of Director-General and Council, from the Company's Warehouse and office the necessaries of life, amounting now to fl 942. He requests therefore, that this sum might be balanced against his services performed during the time, as above stated, when he received no salary, so that his wife or children might not be troubled or asked to pay it at some future time.

Having taken this into consideration and being well aware, that the laborer is worthy of his hire, that the petitioner served as pastor in the said villages from the year 1654 to the 7th of

April 1656, without receiving any pay from the inhabitants, The aforesaid amount of fl 942.6.— is placed to his credit and the bookkeeper is directed to discharge his account for so much and to balance the amount against the service, performed by the petitioner.

Date as above.

COUNCIL MINUTE. A SCHOOL ORDERED TO BE CLOSED.

February 19th 1658.

Upon a report the hon^{ble} Fiscal *de Sille* was directed, to proceed to the house of *Jacobus van Corlear*, who for some time past has undertaken to keep a school in this City, and for weighty reasons inducing the Director-General and Council thereto, to order the same to cease holding school, until he has asked for and obtained the consent in proper form. Date as above.

COUNCIL MINUTE. SURVEY OF LAND IN DISPUTE NEAR MIDDELBORGH, L. I., AND ORDER THEREON;
SCHOOLMASTER; MAGISTRATES FOR MIDWOUT AND AMESFOORT.

Tuesday, March 19th, 1658.

Received and examined the fieldnotes and return of the sworn surveyor *Jacques Corteljou*, according to which the land in dispute between *Jan Ilie* and *Hendrick Jansen*, situate upon *Long Island* near the village of *Middelburgh*, has been surveyed on the 5th of January last and in which the said surveyor declares, that the said piece of land has been surveyed and measured and agrees with the bill of sale of 1652.

If the aforesaid *Hendrick Jansen* or his wife are not satisfied with and consider themselves injured by this measurement, they may have the land resurveyed at their own expense.

Date as above.

Received the petition of the Burgomasters and Schepens of this City, requesting that *Jacobus van Corlear*, to whom on the 19th of February last the Director-General and Council forbade to keep school, may receive permission to keep school.

It was decreed: To keep a school and appoint a schoolmaster depends absolutely from the *jus patronatus*, in virtue whereof the Director-General and Council have for good reasons forbidden it to *Jacobus van Corlear*, who arrogated the same to himself without their order; and they persist in their resolution and interdict. Date as above.

Received the nominations, made by the Schepens of the villages of *Midwout* and *Amesfoort* on *Long Island*, with the request, that the Director-General and Council of *New Netherland* would please to select therefrom the Schepens for the ensuing year in place of those, whose term now expires.

The request having been considered, the Director-General and Council select and confirm from the list of nominated persons as Schepens for next year in the village of *Midwout*: *Jan Suedicker*, *Willem Guiljansen* (Williamson) and continue of the old Schepens *Adrian Hegeman*; for the village of *Amesfoort*:

Peter Claesen and continue *Marten Jansen* of the old board.

Douthey*, stretching out of the valley to the land of *N. the Frenchman* N. W. by N. seventy rods, along the Frenchman's land one hundred and thirty-six rods, wide in the widest place ninety rods, bordering on the land of Mr. *de Sille*, containing with a parcel of meadowland of eight morgen adjoining the field altogether thirty-four morgens, five hundred and sixty-three rods; with the express condition and stipulation, etc.

COUNCIL MINUTE. THE SCHOOL OF JACOBUS VAN CORLEAR; MAGISTRATES FOR BROOKLYN.

Tuesday, March 26th, 1658.

Received the petition of *Jacobus van Corlear*, asking permission to keep a school in this City for the instruction of children in reading, writing, etc.

For weighty reasons the Director-General and Council decree: *Nihil*. Done at *Amsterdam* in *N. N.*, date as above.

Whereas the Director-General and Council of *New Netherland* have let to *Jan Montagne* at public auction the Tavernkeepers' Excise for *Long Island* and *Montagne* has appointed *Richard Bridnel* as his collector for the village of *Hemsteede*,

Therefore the Director-General and Council notify and warn herewith all tavernkeepers in the said village, not to tap or sell any beer, wine or distilled waters, without first having paid to said *Richard Bridnel* the usual excise, under the penalties stated in former placats. Date as above.

Received and read the remonstrance of *Peter Tonneman* as Schout of the village of *Breuckelen*, who complains of having received bad treatment, when demanding the long due salary of D^r *Polhemius* from *Lodewyck* —, *Jan Martyn*, *Nicolaes* the Frenchman, *Abraham* the mulatto and *Gerrit* the wheelwright.

The following order was thereupon sent out:

By order of the Director-General and Council of *New Netherland*, *Lodewyck* —, *Jan Martyn*, *Nicolaes* the Frenchman, *Abraham* the Mulatto and *Gerrit* the wheelwright are hereby cited and summoned to appear at *Fort Amsterdam* on the 2^d of April next and to hear the complaint and demand for punishment, which the Fiscal shall *ex officio* bring forward against them. Date as above.

Received the nominations, made and submitted by the Schout and Magistrates of the village of *Breuckelen*, with the request, that the Director-General and Council please to select therefrom Schepens to take the places of those, whose term now expires.

The Director-General and Council continue as Schepens for the ensuing year, *Joris Dircksen* and *William Bredenbent* and select from the list and confirm *Tewis Nysen* and *Peter Monfoort*. Date as above.

SENTENCE OF THE PERSONS, WHO REFUSED TO CONTRIBUTE TO THE SALARY OF DOMINE POLHEMIUS.

April 2^d, 1658.

Pursuant to the order of the Director-General and Council, dated the 26th of March, *Jan Martyn*, *Nicolaes* the Frenchman, *Abraham Jansen*, called the Mulatto, appeared before the Council, being the persons, who on several occasions, about 7 or 8 times, have been called upon by the Schout of the village of *Breuckelen*, *Peter Tonneman*, and in his behalf by the Court messenger *Simon Joosten*, and have each been asked, to contribute six guilders for the support of D^r *Polhemius*, the preacher on *Long Island*, according to the levy, ordered by the Court of *Breuckelen* and approved by the Director-General and Council; they have behaved very insolently and stubbornly, making none but frivolous excuses, one for instance, that he was a Catholic, the other, that he did not understand Dutch, etc. Therefore the Fiscal demanded, that the aforesaid persons should be condemned to pay a considerable fine.

The Director-General and Council, after mature consideration of the merits of the case, and after having heard the answer of the accused, found them guilty and sentenced them, as a warning example to others, to pay instead of six guilders twelve into the hands of the said Schout *Tonneman*, before leaving the *Manhattans*. Date as above.

Whereas besides the abovenamed persons *Gerrit* the wheelwright and *Lodewyck Jough* were also summoned, but did not appear; the Fiscal is ordered to summon them once more, to appear at the next session of the Court. Date as above.

LETTER FROM FATHER SIMON LE MOYNE, S. J., TO DIRECTOR STUYVESANT, TRANSMITTING A LETTER
FROM THE MARQUIS DE DAILLEBOUT, GOVERNOR OF CANADA.

The 7th of April 1658.

Very Illustrious Sir.*

I send you with my love a letter received in *Quebec*, which though written in French is sincere and friendly. He, who signed his name to it, a very noble and also learned man, Lord *Daillebout*, did not wish, I think, to write in Latin, because perhaps more among you know French, than Latin, anyway because it treats of a matter concerning the French and those, who love the French only.

Furthermore he wrote it, who to-day acts as the deputy of our absent Viceroy and who some time was himself Viceroy.

May it therefore bring happy, beneficial and fortunate results. Dear friends of the *Manhatans*, draw your furrows through the sea to our *Quebec* and some time hereafter our *Canadians* will unexpectedly with God's guidance safely reach your shores. Although it is not in my power to make, as I hoped, the voyage with you, for I have my forest boatmen with me; yet at some future day I promise to be your guest and servant.

Even though my pen may have taken some liberties, overlook them, if you please, Illustrious Sir, and take this letter as an assured testimony of my regard for the *Dutch* and my love for you, with which I am

Illustrious Sir,
Your most faithful and obedient servant,
SIMON LE MOYNE, S. J.

Quebec, the 18th of February 1658.

Reverend Father

I have communicated to all the principal persons of this country the intentions of Messieurs the *Hollanders*, of which you spoke. Nobody had any doubt, that in consideration of their being admitted as friends and allies of the Crown in all the ports of *France* since many years, we could for any reason refuse their coming to trade with us and I cannot object to it. I consent, that they may come when they please under the condition, that they submit to the same customs as *French* vessels, forbidding trade with the savages and the public exercise on land of their religion, which is contrary to the Romish. You know the orders of the King about this matter. Wherewith I commend myself to your prayers and am

LETTER FROM THE DIRECTORS TO STUYVESANT: CURRENCY; ENGLISH INTRIGUES ON LONG ISLAND;
LUTHERANS; LATIN SCHOOL; MINISTERS; SMUGGLING.

The 20th of May 1658.

Honorable, Prudent, Dear, Faithful.

We wrote you last by the ships "*St. Jan Baptista*" and "*Gulden Otter*" on the 22^d of December 1657, since which date the ships "*Waegh*" and "*Hoop*" arrived here safely on the 15th of March, after having been in England all winter. We received by them your letter of the 22^d of October of last year with divers enclosures belonging to it, which we shall now answer agreeably to circumstances and as far as necessary.

1.

It gives us satisfaction, that you have made good rules against the squandering of the finances and for keeping proper accounts; nor is the reduction to be made there in receiving and paying

Beavers to be reduced to 6 fl out beavers at the Company's office at no higher rate than 6 fl and and wampum by the measure. wampum by the measure and in proportion to its quality and value against our instructions sent to you in this matter nor have we any objection to the keeping of two

The instructions sent to be cash accounts in these two values, if they are finally reduced to *Holland* observed. currency pursuant to the above mentioned instructions, which we recommend you to observe and follow in every part and point.

2.

Reflections over the letter sent by the Protector to our people.

With you we consider the sending of the letter from the English Protector,* undoubtedly intended for our people on *Long Island*, not only a matter of grave importance, but also of dangerous consequences; you must therefore keep a close and strict watch upon the doings of this nation there, that they may not in time work us some mischief or injury. People, who might make an attempt of that kind and fall into our hands, must not be spared or pardoned, (as it has been done in a manner with the traitor *Baxter*;) but must be punished according to the exigency of the case as an example to

* I could not find this letter, but the Protector's speech to Parliament on the 25th of January, 1658 (see *Carlisle's Cromwell*, II, 639 *et seq*), informs us of his feeling against the *Dutch* generally.—B. F.

others. Meanwhile we are not only taking steps to increase the population there by offers of free passage, but we have also submitted this matter to the government of this country and petitioned, that they might take the necessary steps with the government of *England*, to obtain the approval and ratification of the provisional agreement entered into by the two nations there in the year 1650. When this is obtained, we trust many difficulties arising out of the boundary questions will be obviated and therefore we shall continue to urge it and inform you of the result in due time.

3.*

4.

That you have sent back here the Lutheran preacher is not contrary to, but rather in accordance with our good intentions, although you might have proceeded less vigorously. The principal reason, which induced the Lutherans there to separate from the Reformed Church, was not only, so people of their persuasion here complain, because in the Sacrament of Baptism some words are used there, which are offensive to them and not contained in the new formulary, particularly in the second point of the questions or admonitions to the parents and witnesses, to wit, whether they acknowledge the dogma taught in the Christian Church there according to the Synod of Dort, as the true one etc; but also, because they were compelled to be present at the baptizing of their children. We do not know how this is, but we are aware, that the Church here does not lay such great stress upon the presence of the parents and witnesses; we think also, that the old formulary of baptism is still used in many churches here, as being less offensive and more moderate, than the new, and therefore adopted at the beginning of the Reformation as necessary under the circumstances, in order thereby not to alienate, but rather to attract people of different belief. We shall leave it to your prudence and trust, that henceforth you will use the least offensive and most tolerant means, so that people of other persuasions may not be deterred from the public Reformed Church, but in time be induced to listen and finally gained over to it.

5.

The two women of bad reputation, *Magdalena Dircks* and *Gertie Jacobs*, whom you sent back here on account of their dissolute life, shall not again receive our permission to return to *New Netherland*, and if they should come there again by deceitful practices or under a false name, you may punish them, as they deserve it.

6.**

7.

Thus far in answer to your general letter. As we have seen by the private letter of Director *Stuyvesant*, that you need there some iron, coal and sledge hammers, we have deemed it advisable to send them herewith, as you may see in the enclosed invoice.

8.

Whereas Secretary *van Ruyven* has requested, that one or two experienced clerks be sent over from here to assist him, therefore we have engaged two, namely *Hendrick van de Wal* and *Jan Adriaenszen Duyvelant*, who are now going over in these ships, bringing some blank books and sealing wax, which he also required.

* See Vol. XIII, p. 80.

** See Vol. XII, p. 209.

9.

Domine *Drisius* has repeatedly expressed to us his opinion, that he thought it advisable, to establish there a Latin school for the instruction and education of the young people, offering thereto his own services. Although we have no objection to this project, we communicate it to you, so that, if you too consider it desirable, you may make an experiment by opening such a school there ; but you must not fail to inform us, how such an institution can be managed to the best advantage of the community and kept up with the least expense to the Company.

10.

To encourage the said D^e *Drisius* in the performance of his duties, we have increased his board money from 250 to 300fl yearly and granted him besides a house rent free or instead of it 200fl yearly, the same amount, which is allowed or paid to his colleague D^e *Meyapolensis*. This for your information and guidance.

11.

We found among the enclosures, sent by you, an extract from your resolutions, which informs us, that at the request of the congregation of *Fort Orange* and *Beverwyck* you have engaged the former pastor of the Colony of *Rensselaerswyck*, D^e *Gideon Schaets*, as their pastor at a salary of 100fl monthly ; we do not disapprove it, for the greater part of this salary must necessarily be paid by the said congregation, as it is proper, but we expect you to report by the first opportunity and without delay, how this can and ought to be done in the most convenient manner.

12.

Several merchants, trading to *New Netherland*, have previously and again now complained to us, that the extensive smuggling carried on in private vessels sailing to the *Manhattans*, ruins their and other honest merchants' trade, because they cannot compete with their wares against such smugglers. Although we would like to take measures here for the prevention of the smuggling, we cannot see, that it could be done so effectually as there. For as the contraband goods are put aboard ship, when the ships drop down from here to the *Tweed*, it would require their unloading there upon a presumption or a certainty of fraudulent shipment and that would cause great inconvenience to us and to the shippers : besides here, where the swindlers have their friends and the Company no jurisdiction, it would not be possible to proceed against them in case of discovery and confiscation, as it might be necessary under the circumstances to deter others. We have therefore deemed it necessary and advisable to call your attention to this most serious matter and to direct, that you take such steps, as you may think best to discover and prevent this smuggling either by posting at the *Sandpoint** (where as we understand the ships upon arrival from here send ashore their smuggled freight) a suitable person, to whom as an encouragement for the good performance of his duties the rank of Auditor might be given, or by such other measures, as you deem best and most efficacious, that the Company may not longer be defrauded of their revenues and the complaints of all honest merchants and traders prevented and obviated. As this smuggling and the discharging of contraband goods at the *Sand Point* can hardly be done

* Sandy Hook.

without knowledge of the supercargoes, this matter should be closely investigated there and whoever is found guilty of corruption and connivance must not be spared, but punished for his faithlessness as an example to others according to the exigencies of the case.

13.

We are informed on good authority, that also many contraband goods are sent in these ships there, which endanger the safety of the country and its inhabitants. We have therefore resolved to submit the matter to their High: Might: and obtain the issue of strict and rigorous placats, by which persons breaking the law here or in *New Netherland* after having been discovered may be punished without mercy. We expect to send you these placats by one of the four ships now preparing for the voyage.

14.

The amount of clothing, powder and bullets for the soldiers, which we have resolved to send over, is stated in the enclosed lists and the bills of lading and invoices will tell how much of it is sent in the "*Moesman*." You may expect the balance by the "*Brugvisch*," which will sail in 8 or 10 days.

15.

Although several families and a number of free men,—of whom you must keep an account and demand the money advanced to them and the passage, when they remove or are in prosperous circumstances,—are coming over at the expense of the Company in these ships, we have nevertheless thought it advisable to send in the same ships a detachment of 25 to 30 soldiers, in case we should be able to engage them. We do this, to promote the safety and well being of the country by increasing the population. You see therefore, that nothing is left undone by us, but that we contribute as much as we can, so that it only and principally depends upon a good administration and government there, of which we entrusted to you the management. It is your sacred duty not to relent in your exertions either in discovering measures benefitting the country and its inhabitants or in lifting or diminishing unnecessary taxes. Economy must always be to you a matter of the greatest importance, so that the Company, to whom the Province has cost so much, may at last reap some benefit.

The duplicate of our letter of September 15, 1657, per "*Wasbleecker*," which we believed to have been sent by the "*St. Jan*" lately, but which was left behind by mistake, is enclosed herein, as the "*Wasbleecker*" has been shipwrecked near the Island. The two copies of the Maritime Laws of *Wishy** are also enclosed for your information and guidance.

RESOLUTION CONCERNING THE FERRY TO LONG ISLAND.

Whereas the lease of the ferry from this Island of *Manhattans* to *Long Island* expires on the last of this month and it therefore becomes necessary to let it again, and whereas it was resolved, to do so publicly on the last of this month for a period of three years to the highest bidder,

Whereas also the Director-General and Council have ascertained, that the ferry cannot be let on the conditions proposed by the Director-General and Council, namely that the lessee shall be bound, to buy or build within four or not longer than five months a scow, large enough for the transport of animals and other goods: because the majority of the persons, who wish to lease the ferry, are people of small means, if not poor; also because nobody can afford to incur so heavy expenses for a term of three years.

Therefore it is resolved, to try, whether the said ferry cannot be let again without public competition, for a fair equivalent to the present ferryman, *Egbert van Borsum*, for the term of three years, on condition, that within four or five months he shall have built or purchased a scow for the transport of cattle etc. Their Honors *Nassius de Sille* and *Johan de Deckere* are hereby appointed a committee and authorized to do this and bring about an agreement. Date as above (May 28th, 1658.)

EXTRACT FROM A LETTER OF THE DIRECTORS TO STUYVESANT: LUTHERANS AND THE FORMULARY OF BAPTISM. (JUNE 7, 1658.)*

* * * * *

We expressed in our enclosed letter [of May 20th] our opinions and intentions concerning the Lutherans, to gain them over by moderate measures to the Reformed Church and since closing this letter we have come to the conclusion to direct, that in the churches not only there the old Formulary of baptism be used, but also the words "*present here in church*" be entirely omitted, because we believe that thereby these and other dissenters will be satisfied and kept in the Reformed Church. Date as above.

COUNCIL MINUTE. AGREEMENT WITH GRAVESEND FOR THE TENTHS.

On the 2^d of July 1658 appeared before the Board *William Bouwne*, *Thomas Spicer*, *William Willekens* and *Charles Morgan*, Magistrates of the village of *Gravesend* on *Long Island*, being deputed and authorized by the inhabitants of said village to make with the Director-General and Council an agreement concerning the tenths for the ensuing year. After some debates *pro* and *contra*, the said Magistrates agreed with the Director-General and Council, that 160 schepels, one half of wheat, the other of peas, should be paid as the tenths of the whole village for this year, to be delivered on the seashore near the village. Date as above.

LETTER FROM STUYVESANT AND THE COUNCIL TO THE VICE-DIRECTOR OF FORT ORANGE
CONCERNING THE TENTHS OF RENNELAERSWYCK.

Honorable, Dear, Faithful.

This goes as cover of an extract from a letter of the Lords-Patroons, which will inform you of their intentions and orders concerning the collection of the tenths, now long due from the Colony of *Rensselaerswyck*. We desire and direct you, to proceed immediately upon receipt of this order against the people of said Colony for the collection thereof in the following manner.

Upon receipt hereof you will summon Mr. *van Rensselaer* or go to his house, inform him as well of the enclosed extract from the letters of the Lords-Directors, as of the tenor of this letter and try to persuade him, to obey the orders from so high authority. If he shows himself well disposed, you are authorized, to make a reasonable agreement with him for the present year; but if the said Mr. *van Rensselaer* remains as obstinate, as formerly, and refuses to listen, you are to let the tenths publicly to the highest bidder, giving the former full and ample promise, that he shall be supported by us: after you have farmed out the tenths, you must warn the tenant-farmers of the Colony, on pain of a fine of one hundred guilders, not to remove any of the crops from the fields, unless they have first made an agreement with the farmer of the tithes or have allowed him to set aside his dues: persons, violating this order, must be duly punished and a full report of your proceedings sent us by the first chance.

Wherewith etc etc

Fort Amsterdam in *N. N.*

July 2, 1658.

Your affectionate friends

The Director-General and Council of *N. N.*

Enclosed in the foregoing letter was the following note:

Monsieur MONTAGNE

For your information and guidance we state, that we desire you to make the agreement with Mr. *van Rensselaer* concerning the tenths for not less than about four hundred schepels. You will act accordingly. *Fort Amsterdam* in *N. N.* Date as above.

COUNCIL MINUTE. MAGISTRATES FOR GRAVESEND, L. I.

Thursday, July 4th (1658).

Received the nominations for Schout and Magistrates of the village of *Gravesend* on *Long Island*, made by the inhabitants of said village, who nominated and presented the Schout and Magistrates now in office, to-wit:

<i>Thomas Spicer</i>	} as Magistrates
<i>William Willekens</i>	
<i>Edward Brouse</i>	
<i>Charles Morgan</i> as Schout.	

The Director-General wrote underneath the list: the abouff mentioned persons are accordinh to order by these presents authorised and confirmed as Magistrates for the towne off *Gravesant*. *Actum Amsterdam in New Netherland*, date as above.

PETITION OF PETER TONNEMAN FOR PAY FOR HIS SERVICES AS SCHOUT AND SECRETARY OF
BROOKLYN, L. I.

To the Noble, Very Worshipful, Honorable
Director-General and Council of *New Netherland*.

Shows the assistant member of your honorable board, also Schout and Secretary of the villages of *Breuckelen*, *Midwout* and *Amesfoort*, that he has served in the aforesaid capacity as member of the Council for 18 months and as Schout and Secretary for 29 months, but that the bookkeeper *C. van Brugge* has not given him credit for these services and is at a loss how to do it; he also raises a question now regarding your petitioner's salary of fl 200 yearly for services in the Council, which your Honors have granted him according to the resolution of and commission from the Director-General and Council, copied from the records and here annexed, and disputes your petitioner's claim to it. Anyway, he makes difficulties, to place your petitioner's name on the books without your Honors' order and consent; and

Whereas your petitioner has without doubt performed the duties of the several beforementioned offices without reproach,—at least he cannot believe, that just complaints can be made against him or submitted to your Honors,—and whereas even if somebody else had charge of the Schout's office, the yearly salary of fl 200 would have to be paid; your petitioner and member of your honorable board thinks, under correction, that he is justly entitled to it and therefore requests an explanation concerning his salary as member of the Council and as Schout and Secretary and that thereupon his name may be properly placed on the books.

Honorable gentlemen! Your Honors well know, what it is to be embraced and burdened by a wife and five children, when everything here is so expensive and dear, especially for those who try to support their families honestly according to their position. But the petitioner has no other intention and desire, than to ask for what is justly due to him for performing the duties committed to his charge and what in your wise discretion your Honors will decide to be due to him. Awaiting hereupon your Honors' disposition and favorable decision etc etc

Amsterdam in New Netherland

July 8th, 1658.

Your Honors' obedient and humble servant

PETER TONNEMAN.

After having received, read and considered the foregoing petition, it was answered:

The petitioner shall receive provisionally and subject to the approval of the Lords-Directors, besides his salary as member of the Council, two hundred guilders yearly for performing the duties of Schout and Secretary in the village of *Breuckelen*, *Midwout* and *Amesfoort*. Date as above (July 30th, 1658.)

COUNCIL MINUTE. MAGISTRATES FOR NEWTOWN, L. I.

July 30th 1658.

The Council having received and read the nominations, made and submitted by the inhabitants of the village of *Middleborgh* on *Long Island*,

The Director-General and Council of *New Netherland* select from the list of nominated persons and confirm as Magistrates of the said village of *Middleborgh* for the ensuing year :

COUNCIL MINUTE. LAND MATTERS CONCERNING NEW UTRECHT, L. I.; SCHOOL.

August 13th, 1658, Tuesday.

Received a petition of *Anthony Jansen* from *Sallee*, showing that the meadow, now granted to the new village of *Utrecht*, had been bought by him from the Indians and paid for on the 26th of September 1651. He requests, that the part of it near his house may be given to him.

After a vote had been taken, it was answered :

This is to be placed into the hands of the people of *Utrecht* and if it is found, that petitioner has no meadow for making hay, a part of the aforesaid land shall be given to him, as to others. Date as above.

Received the petition of *Jan Lubberts*, requesting consent to open a school for instruction in reading, writing and arithmetic.

It was answered :

The request is granted, provided he behaves as such a person ought to behave. Date as above.

COURT PROCEEDINGS CONCERNING THE RIGHT OF WAY IN MIDDLEBORGH, (NEWTOWN) L. I.

July 9th 1658.

Thomas Stevenson, plaintiff, against *John Gray* and *Samuel Sales*, defendants.

Plaintiff states, that defendants have cut down his posts and rails, to which defendants make answer, that plaintiff obstructed the road, ordered to be made.

Having listened to the contesting parties, the Director-General and Council order the defendants not to use nor to make any other road, than the one now in use, until the Director and Council or the Magistrates of the village of *Middleborgh* shall have directed otherwise and for their unseemly behavior towards each other, both parties are condemned to pay a fine of one pound sterling each: *Thomas Stevens* is further ordered, to lay out and make the road, as Messrs. *La Montagne* and Captain *Thomas Willett* directed it. Date as above.

August 30th 1658.

Thomas Stevens complains, that the Magistrates of the village of *Middleborch* have opened another road through his fences, than the one heretofore ordered by the Committee of the Director

and Council, Messrs. *La Montagne* and Capt. *Willett*, and confirmed by their Honors; whereby the aforesaid *Stevens* claims to suffer great injury in his pastures: this being so, the Director-General and Council once more order, that conform to their former and also to their last order of July 9th the public road shall be and remain, as laid out by the aforesaid committee. If anything has been or is being done against this order, the Magistrates of the said village are ordered to appear before the Director-General and Council and show cause for their action. Date as above.

LETTER FROM THE DIRECTORS TO STUYVESANT: SMUGGLING; CURRENCY; TOBACCO; SALARIES OF OFFICERS; DUTIES; SALT DECLARED A MONOPOLY: FORT ON OYSTER BAY; LATIN SCHOOL; PRIVILEGES OF THE CITY OF NEW AMSTERDAM.

The 13th of February, 1659.

Honorable, Prudent, Dear, Faithful.

Our last letter to you, dated the 19th of June, 1658, of which a copy is enclosed, was sent by the "*Brugwisch*," since which time there arrived here, praised be God, from time to time the ships "*Spharamundi*," "*Beer*," "*Bever*," "*Dracteat*" and "*Moesman*," and we received by them your general letters and enclosures of the 17th of June, 23^d of July, 23^d of September and 5th of October of last year, also a private letter from Director *Stuyvesant*, dated the 24th of September, all of which we shall now answer according to circumstances and as far as necessary without following point for point of your letters.

The first point in your general letter, which attracted our attention and of which frequent mention is made, concerns the smuggling going on there more extensively, than we like, not only in beavers and merchandises, to the great prejudice of the Company and all honest traders, but also in contraband goods, which, we notice, are being taken over there from here from time to time in large quantities endangering the safety of the country and its inhabitants. The case lately tried here before the Court of the Schepens between skipper *Blommaert* and one *de Lange* for 2000 lbs of powder sent to *New Netherland*, proves how true the reports of it are and we wish, that we had then already obtained from their High: Might: the placat formerly spoken of, which has been delayed for some reasons: the smugglers could have been tried then and not only the said contraband merchandise confiscated, but the men could also have been sued for the fourfold value of it or any other fine determined by their High: Might. This would have deterred all such smugglers so much more, as they would have been held accountable for it here as well as in *New Netherland* for many years to come. We shall now push this matter again with the government and endeavor to obtain it: meanwhile we can well understand, that all such defraudations cannot be discovered there and the goods be confiscated, yet we have hardly any doubt, are in fact, for good reasons, quite sure, that the Fiscal is not doing his duty thoroughly, although this is a matter specially recommended to him and given into his charge as concerning his office specially. We direct him therefore herewith most strictly to watch henceforth with more zeal and care, if he has any intention to continue in the service of the company. We think, it would help to discover or prevent smuggling, if upon the arrival and before the departure of ships some reliable soldiers were placed on board of each vessel, to whom you were to promise and also give a certain share of discovered smuggled goods: that has often been done here with good results. We believe also, that enclosing the City there with pallisades would be of advantage and necessary for this purpose, and therefore we approve of it, recommending further, that you continue in your endeavors, as we shall do in looking about for and engaging faithful and experienced men as supercargos, whose duties will require them to be present at the discharging and taking in of freight without being allowed to come ashore during the time (we understand, that they continually are ashore) and this rule you must specially enforce. If they do not obey or we may be deceived or misled in our choice, then you must not hesitate to punish the disobedient as an example to others. We send you now some printed copies of the order issued by you against the excessive smuggling carried on under the name of *provisions for the sailors*, that everybody may be warned to live up to them without being in a position to plead ignorance.

The arguments, which you use, why wampum is not reduced generally, but only in the Company's office, do not appear to us well founded or sufficient, for we are quite sure and cannot arrive at any other conclusion, than that a general reduction will cheapen all commodities and goods and therefore the laborer and the people generally will profit more by it, than the natives. Anyway the general reduction is necessary, so that it cannot be cried down still more, for at present it has yet to serve in the place of silver and gold coin as change between individuals. Although Director *Stuyvesant* says in his private letter, that it would be very desirable, if coin could be brought to *New Netherland*, we see as yet no chance for it, there being many more places in the world, where this kind of currency is not to be found, as for instance among the people along the Gold Coast of Africa, where for want of it they make shift with some kinds of dress goods or small shells or other objects of little value, which for all that has quite as good a circulation, for anything will pass as currency in trade, as long as a value is placed upon and benefit derived from it. Even if we saw any chance and had the means to bring coin into the country, we see no way of keeping it there, especially as long as so much is lost on the return cargoes from there. The experience in Brazil has taught us the same lesson, for notwithstanding that the gold and silver coins were made 25 to 30 p. ct. lighter, specie could not be held there, but was exported. As we said before, we see therefore no other nor better way, than to prevent a further crying down of wampum by a general reduction of it. We have resolved to direct you to do this there without delay, for you will undoubtedly discover, that the wampum is held at a higher value and therefore the tradesman and the farm-laborer will be better satisfied and encouraged thereby.

Although you still seem to think, that the *Virginia* tobacco should also be subjected to inspection there, considering the complaints made to us some time ago by private traders here we cannot rescind our former orders in this matter and we leave the inspection and classification of the tobacco to the traders themselves, to whom we prefer to concede perfect freedom, than to restrict them herein, for they will certainly adopt such measures, that this trade, which is of great importance to them, will not be diverted into other channels.

We have already repeatedly expressed our displeasure over the increase of salaries, which you have allowed one or the other of the Company's employees and officers there before the expiration of their time of service. We are therefore surprised, that you have done it again by giving to the three masons, lately arrived there, besides their monthly pay of 14 fl, 20 stivers for each day's work; we cannot approve of it, the more so as according to your testimony these men are progressing lazily and slowly in their work. We direct therefore, to discharge them, if these masons are not willing to work diligently and properly for the stipulated pay of 14 fl, and in that case to deduct and make them pay for the passage from here. To finish the work on the Fort you may then engage such *English* masons, as understand to build with stone.

It seems, you do not understand the meaning of our words, when we directed you to pay to *Van de Voorde & Co.*, or to their agent for the confiscated goods out of the ship "*Nederlantche Fortuijn*." We meant to say, that the money received from the sale of these goods, as far as they had been cleared here pursuant to the enclosed bill of lading, shall be refunded to them in the same currency of *New Netherland*, either beavers or wampum. This order applies not only to *Van der Voorde & Co.*, but also to *Baron van de Capelle*, whose goods were shipped under the same names, viz: *Adrian van der Donck* and *Cornelis Melyn*, and also confiscated; likewise to all others falling under this category without detaining them any longer by empty prettexts. We trust, that then the parties concerned shall be satisfied and their just complaints in this regard cease.

For your better information we shall continue to send you statements of the payments made here for accounts of the soldiers and others in the service of the Company there; but we do not consider practicable the proposition made by you in regard to the dislike to their duty, conceived by the soldiers, when they see their accounts charged with the debts made here, for the people, who have fitted them out, would suffer serious losses.

Our order henceforth to levy a duty of one per cent on all goods and merchandises sent out of the Company's jurisdiction, was given to satisfy the traders and other people here, because complaints had been made to us about it; but since you inform us, that the carrying out of it meets with unexpected opposition, we have no objection, that you continue herein on the old footing and levy only on wine, brandy and distilled waters the duties already imposed; for we endeavor always to prevent everything, by which the trade might be diverted.

The logwood, brought there by the yacht "*Diemen*," has safely arrived here in the ships "*St. Jan*" and "*Beer*." We were pleased to learn, that you will quickly despatch the yacht with provisions and boards to *Curaçao*, where she is to take a cargo of salt, of which there is little on hand. This trading from one place to the other must necessarily tend to benefit both conquests and their inhabitants and it should be kept up. As to the salt expected there we have decided, that it shall be stored in the Company's Warehouse and *and not be sold by anyone except by the Company at a fair and honest price, to be fixed by you, for we intend to retain the trade with salt as a special monopoly for the Company.*

The inclosed invoices and bills of lading will inform you of the quantities of clothing, coarse cloths, linen and other necessary material sent for the garrison there, also of the amount of powder and lead shipped now. We earnestly recommend you to distribute these articles with great carefulness and a saving hand, and only among the most needy. As to your apprehension, that in consequence of the permission given to a few, now and then, to bring over some bars of lead for windows, more lead may be imported there, than required for window frames, we see no way to refuse that permission, for every one may pretend to be about building a house or houses there: you can much better examine into it, for we do not only send you a statement, but shall henceforth add, on what pretext and representation the permission has been given here, so that you can see, whether it is true, and if not, seize and confiscate the lead, as being imported with evil intentions.

We send you herewith some bound account books, paper, quills and ink-powder, required by you to complete and send over the resolutions and other documents of your administration since January 1657. Although some of the most important resolutions and documents have been received by us since that time, the copy of the record of resolutions must not be sent without them, that we may have here and can examine the whole series in chronological order. We would have provided you with this stationery earlier, if you had asked for it; and we send it now with pleasure according to the enclosed statement. After the schoolbooks and stationery to be used for the education of the youths, stated in the enclosed invoice, you will please to look yourself.

We do not like it, that the *English* make such unfounded claims in regard to the extent of the boundary under the agreement made between them and us at *Hartford* in 1650; not so much because by it the establishment of the blockhouse has so far been prevented, as on account of their haughtiness and obstinate inclination to quarrel and to arrogate to themselves all authority.

* For the omitted paragraphs see Vol. XII, p. 232 and Vol. XIII, p. 96.

As we cannot always submit to it, we have decided to direct herewith, that, if you have not yet made any agreement or are not liable to make any with the government of *New England*, a block house shall be erected at our extreme limits, advanced to *Oyster Bay*, without waiting for the decision of the *English* nor submitting to it.

*

*

*

*

*

The agreement, made by you concerning the tenths, among others with the Colony of *Rensselaerswyck*, has our fullest approbation and we have therefore no intention to make any change here, even though the agents of the Colony should apply to us about it: we should refuse their request and keep to the agreement made in *New Netherland*. We recommend, that you continue in this way, for it is a matter of great concern to us on behalf of the Company.

What we have ordered in our last letter of the 19th of June in regard to the Lutherans, may be learned from its duplicate sent herewith; our intentions are still the same, as we see no reason, why the preachers there should raise difficulties about it; for it is an order practised in most of the Reformed churches here. The enclosed open letter will tell you, what we write to them on this subject: after having read and sealed it, give it to their Reverences.

We uphold what we formerly wrote you about *Baron Hendrick van der Capelle*, who has bought *Staten Island* without the knowledge of the Company and calls himself Lord and Patroon of it. Our former order must be executed and the island taken possession of by you in the name of the Company either by virtue of a purchase already made or to be made hereafter. As *Cornelis Melyn*, whom you should sound on this matter, has now arrived here from *New England*, we shall examine him and inform you of our success as soon as possible.

We find the request, made by *Johannes Pietersen Verbrugge*, that the salary of his predecessor, *Lucas Rodenbergh*, late Vice-Director at *Curacao*, be paid there or credited in *Holland* currency, not unreasonable, but quite just and we direct you therefore to pay him there in this manner.

The arguments brought forward, why for the establishment of a Latin school there it is necessary to send from here a fit and honest man, to instruct the children in the elements and foundations of the language, have induced us to decide, that such a teacher shall be inquired for, care being taken, that he writes a good hand, to teach the children also calligraphy; you may expect him by the ships sailing from here during the spring.

We are well pleased with your vigilance exercised in discovering the smuggled goods, shipped in the "*Draetboot*" and approve of the subsequent confiscation. We wish, that the disposition made of the goods would give us as much satisfaction and deprive us of reasons to show our displeasure. Your letters do not say anything of the disposition of the goods, but a resolution, sent as enclosure, substantially directs, that one half of the confiscated beavers shall be the share of the Company, (with the remark, that its treasury was not in funds), one fourth shall go to the board of Director-General and Council as informers of this violation of the customs-laws, to whose share one third should therefore fall, and of the last fourth one half to the Fiscal and the other to the church. This is a very uncommon proceeding and sounds very strangely to our ears, for according to the above unheard of remark the Company receives *out of pity* apparently a larger share, than it is really entitled to. We confess, we do not understand that, because the Director-General and Council have no claim whatever upon these confiscated goods, which must be and remain converted to the benefit of the Company alone, as bring the only sufferer by such defraudations. It is true, that the placats issued concerning smuggling allow to the discoverer and informer one third of the goods, but to apply this rule to duly appointed officers of the Company, who—and this is the

principal point — are to be the judges, is really too vile, frivolous and unreasonable. Being made parties in interest, you could by no manner of means sit as judges, it was therefore a blunder so grave, that it has not its equal, and has never been committed by any judge or court. We leave it to yourselves, to imagine the obloquy and the bad reputation, which your action must give you as members of such a board; you would therefore act wisely and we recommend you to do it, if you were not only to correct this blunder, but also abstain henceforth from proceeding in such a manner, without however ceasing to watch for and discover smuggling, as the service of the Company requires it. As to the share of the confiscated goods, allotted to the church, we will not object to it absolutely, because it seems, that they needed it, and this practice may therefore be continued occasionally; we consent also, that the Fiscal should receive a reasonable share for prosecuting the case in proportion to his troubles and duties.

After examining your request in favor of a certain representation in writing, intended to obtain more liberty for the foreign trade of the inhabitants there, we find this to be a matter of importance and especially benefitting your people, but of doubtful advantage for the Company, for a wide door will thereby apparently be opened to further defraudation and the Company's revenues here in this country considerably reduced, also the general government and specially this city might claim, that the trade from here would suffer by such measures. However, we believe, that it is a measure to encourage everybody in the cultivation of the soil and that upon the country's progress and benefit depends much of the prosperity of this state, and we have therefore, after long deliberations, decided, that the experiment, which you are to make after our ratification, shall provisionally be continued, under the express condition, that the ships, sailing thence for French Spanish, Italian ports, the Caribean Islands and elsewhere, to trade with their cargoes of products of the country, salt-fish, goods and merchandises, shall be bound to return with the return cargoes procured with the proceeds of their ventures, either to this City of *Amsterdam* or to the place of your residence in *New Netherland*, in order to pay you, upon discharging and selling their cargoes, such duties and convey fees, as the Company receives here: it has also been decided by the Company, that no beaver, otter or other skins shall be exported, except in ships coming directly to this country. As to the duties to be imposed upon exported products of the country, wooden ware, salt or dried fish, and what else industry or ingenuity may manufacture or produce — not knowing, what measures your English neighbors have adopted in this respect, which it might be proper to copy to a certain extent,— we have preferred to leave it to you, instead of making mistakes through ignorance; you are therefore hereby authorized, to obtain the required information and after consultation with the Magistrates there impose such moderate duties, subject to our approval, as shall be deemed proper. Before leaving this matter we desire to urge and most seriously recommend, that a close watch be kept over these ships while taking in or discharging freight, that the good will and intention of the Company for the welfare of the community may not lead to its suffering from defraudations or having its revenues reduced.

Thus far in answer to your general letters; we shall now proceed to reply to the private letter from the Hon^{ble} Director-General and take up such points in it, as we consider necessary, and as have not been discussed in former letters.

*

*

*

*

*

In regard to the recommendation, in favor of the request from the Burgomasters and the principal inhabitants there to obtain a modification of the duties on *New Netherland* tobacco, we have already mentioned, that we have made every possible effort, to have it completely exempted from duty; but the obstacles, which we encounter, deprive us almost, if not entirely, of the hope

ever to succeed: when occasion offers and the time seems to be favorable, we shall nevertheless press the matter again and endeavor to see, whether so serviceable a measure cannot be brought about. You shall hear the result in due time.

The arguments, made by the said Burgomasters in favor of their request, to increase the weights in the public weigh-house 6 p. et. are not sufficient to make us order such a change, for we see many difficulties in such alterations; the merchants, buying tobacco and other merchandises there, upon which the English allow no rebate, can and undoubtedly make their calculations by your weight satisfactorily and without risk, as everybody knows his own business and is therefore alert and cautious about it.

The three flags, the partisans, halberds and drums, required for the trainbands, are sent herewith, also some drumskins, snares and strings, to be used when necessary.

* * * * *

Thus far in reply to the letter of his Honor, the Director-General. The Burgomasters and Schepens have among others requested us, that for repayment of the debts of the administration they might be given and granted the whole income from the public Weighhouse, observing, that one fourth of it was already given them by you, which we now have also learned from your resolution of the 25th of January 1658, lately sent over. This appears strange to us, for you ought to have first received our approbation and added reasons for the necessity of this step, so that we could express our opinion on it, especially as time and circumstances required no hurried action; which we presume was not the case here.

Although the books of the colonists' accounts and of monthly wages, sent by you, have not yet been thoroughly examined, we have already found in them much to displease us, especially the items placed to the credit of the Company's officers, while they were still indebted to the Company, for instance

Councillor <i>La Montagne</i> is credited with	fl 117.16.8
<i>Vincent Pikes</i> with	13.10.0
and <i>Gerrit Bicker</i> with	15.00.0

all in favor of one *Jacob Schellinger*, upon the statement of whose account payment was demanded here from us, notwithstanding that the first still owes the Company fl 1900, the second has not as much to his credit and the third* had already committed his villainous deed. You have also given credit to *D^e Johannes Polhemius* for fl 782.6.—, but as he has that much to his credit on his Brazilian account, we have balanced these two sums against each other, which you too must do in your books and you are hereby expressly charged, not to give further credit either to his reverence, whose account is now closed and with whom the Company has nothing further to do, nor to anybody else, be he an officer or a party, to whom the Company owes nothing; for in case of death of the persons or other troubles the Company would only be the loser. We learn further from the books of monthly wages, that the Councillor *La Montagne* receives instead of fl 200 for rations 300 per year; the same increase has been allowed to *Peter Tonneman* in his account of salary; both changes having been made without the knowledge of the Company, as if it did not concern us and we need not know what became of our funds. To prevent troubles we are now compelled to give to Councillor *De Decker* also 300fl for rations yearly, instead of 200, to begin with his arrival there, unless we wished to disapprove your action completely, which for reasons we do not at present, but shall certainly do in the future, as we must necessarily resent any neglect

* *Gerrit Bicker* had been commander of *Fort Casimir*, which he surrendered to the Swedes under *Rysingh* in 1654, without offering any resistance. See Vol. I, pp. 601-605, and Vol. XII, p. 86.

of the Company's interests and reputation. We shall inform you, what else we find to remark on in the aforesaid books; in the meantime we expect your general Journal (*blaffart*) of all the Company's expenses and receipts for the year 1658, to see now and for the future, how its means and revenues are employed. In the administration of the finances the instructions drawn up here and sent to you must be strictly obeyed without any deviation whatever, and in order that this may be done without fail, we charge herewith the Receiver General *Van Ruyven* not to neglect his duty and to make no payment to anybody, whoever he be, unless ordered according to the instructions. As he has undoubtedly a good knowledge of affairs, we have for your own relief decided to give him an advisory and conclusive vote, but only on questions concerning the finances and what is intimately connected with them; you will make a note hereof and act accordingly.

The arguments submitted by the Burgomasters and Schepens there, why the office of auctioneer and the sale of real estate within the City should be committed to the charge of the community or its Secretary, appear so convincing and satisfactory, that we have granted their request and Secretary *van Ruyven* is herewith relieved from these duties. We understand, that he charged for the sale of real estate a commission of 5 p. ct., which is too much and should anyway have been paid into the Company's treasury, as it is done in this City here. That this method may be followed there also, we have resolved, that henceforth there be paid for sales of real estate into the Company's treasury in cases of voluntary sales the 40th penny, one half by the seller, the other by the purchaser, on Sheriff's sales the 80th penny by the purchaser alone, together with one half of a guilder to the Secretary besides his office fees; you will act accordingly.

A considerable number of free people are now going over at the expense of the Company; among them you may find some, who have engaged to serve other masters, as this is the manner in which the authorities of *Rensselaerswyck* and other private owners of colonies bring over their people. It is not feasible to discover that here and we have therefore resolved to direct and recommend you, to keep and cause to be kept a sharp look-out and to demand from the masters of persons coming over that way the passagemoney advanced by us: for else the desire of the Company, to increase the population, would be thoroughly abused at our expense, while we intend to grant free passage only to free indigent persons, having the ability to make a living, on the condition, that it be considered as a loan, to be repaid, when they are in better circumstances or if they leave the Company's territory. You must keep a good account of them and enter the item to the debit of every one not only to demand the money in due time, but also to see upon the departure of ships whether some of these men do not return to this country. A copy of these accounts must be sent to us without delay every year, that we too may be able to see, how careful of the interests of the Company you are.

*

*

*

*

*

The slow expedition of the ships coming over now, caused by an early frost, has compelled many colonists and other freemen, now going in this ship the "*Trouw*" at the expense of the Company, to expend their little fund of money, so that we finally decided out of pity to give to the most needy for their support small sums, as you will see by the enclosed lists, and we direct, that you charge these sums to their individual accounts and allow them to earn as much by labor or otherwise, also to take care, that these and other free people coming over, may find places with good masters and farmers, for the country must be made to prosper especially by agriculture.

The invoices of private goods, shipped in the "*Trouw*," are enclosed and we recommend to you and still more to the Fiscal closely to watch the discharging of her cargo.

LETTER FROM THE DIRECTORS TO STUYVESANT: CHILDREN FROM THE ALMSHOUSE SENT TO NEW NETHERLAND.

20th of February, 1659.

Honorable, Prudent, Dear, Faithful.

As you will find among the free people, going over in the ship "*Trouw*" at the expense of the Company six children from the Almshouse, named as in the enclosed list, who by mistake received no passport and therefore were not entered upon the manifest, we thought it advisable to inform you thereof, that the skipper may not have trouble on account of it. We further recommend you to place these children (girls and boys, who might be apprenticed to farmers) with proper and honest masters, as it has been done heretofore. Relying thereupon we commend you to God's holy protection.

Amsterdam,

LETTER FROM THE DIRECTORS TO STUYVESANT: RENSSELAERSWYCK; LATIN SCHOOL; STATEN ISLAND; CODE OF PROCEDURE.

April 25th 1659.

Honorable, Prudent, Dear, Faithful

Since our last letter to you of the 13th of February, sent by the "*Trouw*" and the "*Otter*," the Patroon and the other directors of the Colony of *Rensselaerswyck* have presented a remonstrance, containing various, but in the main the same, complaints, which have already been made several times, to which they have only added their lamentations over the demand of the tenths and the farming out of the excise on wine and beer consumed in the said Colony of *Rensselaerswyck*. In regard to the last two points we referred to what had passed between you

and *Jan Baptista Rensselaer* in June 1656 and we must admit, that we are highly pleased with your answer to his remonstrance, wishing only, that you had avoided or passed over the too minute explication or statement regarding the expenses, which he claims the Patroon and the co-directors incur in the maintenance of their servants: the following words "or if impartial men &c" might also have been omitted, for it seems, they have given these people with their unfounded claims some hope, that by supporting a preacher they could avoid the paying of the tenths; especially if the case is to be adjudged by arbitrators, which they have always desired, while we considered it uncalled for and against the interest of the Company: we stand upon quite a different, but sufficiently firm basis, also upon some demands against the Patroon and the co-directors, for which in due time we shall demand satisfaction. These points and the provisional answer, already given to their abovementioned remonstrance, are herewith sent you for an expression of your opinion thereon and in order to see, whether you may not have still other complaints against the Patroon and the other directors, which we shall expect in due time. As we cannot discover, that according to the Freedoms and Exemptions, which they quote so often, the Company is deprived of the power and authority of appointing a Schout even for the Colony of *Rensselaerswyck*,—we intended to direct and authorize you hereby, to appoint and instal somebody there as such, but in order to do this for the present with the least commotion, we would suggest to you, whether the present Schout in the said Colony — we think, he is *Gerrit Swart*, who has already taken the oath of allegiance to the Company — should not have the preference before others and be continued in his office, on condition, that he receives and accepts his instructions and commission (to be drawn up by you) on behalf of the Company as Chief Patroons and Sovereigns under the jurisdiction and government of their High: Might:, the Lords States-General. If you think it advisable, you may act accordingly or in any other convenient and suitable manner; act however without precipitancy, but await a favorable opportunity; meanwhile we desire you, to continue in the former manner with the demand for the tenths and other duties from the Colony, until we shall give you other instructions.*

In our next we shall inform you and give a complete and explicit account of the statements, made by *Cornelis Melyn* concerning the purchase of *Staten Island* for account of the Company under the administration of the former Director *Minuit*; also of our answers, given to some of his representations and requests.

How much trouble we have taken, to find a Latin schoolmaster is shown by the fact, that now one *Alexander Carolus Cursius*, late Professor in *Lithuania*, goes over, whom we have engaged as such at a yearly salary of 500fl, board money included; we give him also a present of 100fl in merchandise, to be used by him upon his arrival there, as you may learn by the enclosed extract from our resolutions or by the contract, made with him, to which we refer for brevity's sake.

We have sufficiently proved, by our late precaution and orders, of how great importance we consider the proper administration of the finances there: as we have seen, that to carry out our plans a suitable and experienced bookkeeper is required there, we have here engaged as such *Jacob Sam* at a monthly salary of 50fl and 200fl a year for board; he is coming over with his wife and family in one of these ships. There is further doing over one *Dirck Looten*, whom we have engaged as clerk at a monthly salary of 20fl with 80fl a year for board; he belongs to a good family and is also said to be a promising young man. If you have occasion to advance him, we recommend you to do so; in the meantime employ him, wherever his services may be found required and useful.**

* The following two paragraphs refer to lawsuits between private parties.

** See Vol. XIII, p. 99.

We send you herewith twelve copies of a little book, called "Ordinances and Code of Procedure before the Courts of the City of *Amsterdam*." We desire, that these Ordinances and Code be put into practice there; you may therefore distribute them among the Burgomasters and Schepens, who must strictly govern themselves accordingly.

The enclosed bills of lading and invoices will tell you, what clothing required for the soldiers is now sent by these ships; we direct and recommend that it be properly distributed.

The invoices of private goods, shipped in the two vessels now sailing to *New Netherland*, the "*Bever*" and the "*Moesman*," go with each ship and copies herewith; the Fiscal must keep his eyes open, when they discharge their freight.

Wherewith etc etc

To Director-General *Petrus Stuyvesant* and Council in *N. N.*

The books, required by the schoolmaster, now coming over, for the instruction of the young people in Latin, could not be procured in the short time before the sailing of these ships; they will be sent by the next opportunity.

RESOLUTION OF THE AMSTERDAM DEPARTMENT OF THE W. I. COMPANY APPOINTING A LATIN
SCHOOLMASTER FOR NEW AMSTERDAM.

Thursday, the 10th of April 1659.

Before the Board appeared *Alexander Carolus Cursius*, late Professor in *Lithuania* mentioned in former minutes, who offered his services. After a vote had been taken, he was engaged as Latin schoolmaster in *New Netherland* at a yearly salary of 500 fl, of which one quarter shall be paid to him in advance, that he may procure what books he requires. The Board further grants him a gratuity of 100 fl, which the Company will lay out in available merchandise to be used by him upon his arrival in *New Netherland*, where a piece of land convenient for a garden or orchard shall be allotted to him by the Director-General. He shall also be allowed to give private instructions, as far as this can be done without prejudice to the duties, for which he is engaged

Agrees with the original record.

PATENT FOR LAND IN FLATLAND, L. I.

Petrus Stuyvesant, Director-General, etc., and the Council testify and declare, that to-day date underwritten, we have given and granted to *Cornelis van Nes* a piece of land, situate upon

Long Island near the village of *Amesfoort*; beginning in the boundary of *Wolphert Gerritsen* at a marked oak tree, thence along the flat E. S. E. and W. N. W. in width eighty rods, in the rear in the woods also eighty rods; going S. by W. into the woods three hundred and seventy-five rods on both sides, containing fifty morgens.

LETTER FROM DIRECTOR STUYVESANT AND THE COUNCIL TO THE DIRECTORS IN HOLLAND:
CURRENCY; NEW ENGLAND AND THE TREATY OF HARTFORD; PUBLIC ACCOUNTS; RENSSELAERS-
WYCK; LATIN SCHOOL; FORT AMSTERDAM.

By the "*Trouw*."

Honorable, Wise, Prudent and Very Worshipful Gentlemen.

Your Honors' favor of the 13th of February with enclosures were duly received by us, the original with the "*Trouw*" and the duplicate with the "*Otter*." For your better information and, we hope, for your satisfaction we shall answer herewith and, as far as time allows, add a statement of how your Honors' affairs stand in this country.

All possible care shall be continually taken to prevent smuggling, in pursuance of the placats, heretofore passed and now sent us by you in print. In the meantime we await anxiously the further and stricter orders, to be issued at your request by their High: Might:; after having received these, we shall vigorously carry them out to the best of our ability. Your recommendations to the Fiscal on this subject have been communicated to him by reading your Honors' letter, which we further impressed upon his mind by some earnest words. The order, to place some faithful soldiers on board while the freight is discharged and the Fiscal makes his search, is and always has been observed. In order to prevent corruption, they are often relieved every day and we have promised and paid not only to these soldiers, but also to everybody else, whatever position he may have, free man and Company's servant, who discovers and reports an attempt at smuggling one full third share, as shown by our resolution and the placat publishing the same of the 23^d of April 1658, for which see the Register of Resolutions, sent you, lit E p. 186.

We wish, that in sending us the printed placats against sailors' provisions* your Honors had also communicated your advice and opinion, whether the seamen shall be permitted, as they claim they are, to trade to the amount of two months' wages without paying duties. We have so far admitted their claim, but you will please to inform us of your approval or disapproval, that we may act accordingly.

At the repeated requests and representations of the Burgomasters and Schepens and after many debates with them, wampum had already generally been reduced from 6 to 8 for a stiver before the receipt of your letter, but the expected reduction of prices for necessary commodities and labor did not follow, for everything remains as dear as formerly and a difference of about 50 p. ct. is made between beavers and wampum, because, as beavers† are not now bartered by counting so many for a guilder or a stiver, but by the handful, length or fathom, the trader can afford under these circumstances, receiving more pieces for one stiver, to give a longer

* Literally translated "sailors' lining" (mastroosen voering). It was an old custom, to allow the crew of a merchantman to ship a small quantity of goods for trade in foreign countries, without paying freight or duty on them. See Laws of *N. N.* p. 42, section 21 of the Ordinance.—B. F.

† Probably a clerical error in the original for wampum.

string to the native for a beaver. We benefitted very little by it; only at first it helped for a short time to sell the great quantity of imported goods, but with the arrival of the ships and the abundance of merchandise brought in them it stopped immediately and eight pieces of wampum for a stiver are therefore now not more worth than six. It is quite apparent, that it shall keep on its course.

Your Honors' order, that the salary of no one shall be increased before the expiration of his term of service, is and shall henceforth be obeyed. As to what has passed concerning the three masons, an examination of our resolutions and the book of monthly wages would show, that the guilder daily was not really given them for their day's work, but is only an increase of their board money, which, if reduced to *Holland* money, would not amount to 8 stivers. We cannot imagine it to be your intention, that these masons with a stipulated monthly pay of 14fl should board themselves or that they, who have to work every day, should receive no more for board money, than a common soldier, who, except on extraordinary expeditions, has only to go on guard duty in his garrison every third day and has the other two days at his disposal, to earn elsewhere something to supplement his small pay and boardmoney. Carpenters, masons and others of the train cannot do this and in others of the honorable Company's forts and places, where rations and no board money are given, they receive therefore a lieutenant's or at least double rations. In consideration thereof and for the purpose of encouraging these men and furthering the work, one guilder, in wampum, light money, a day has been given them, but only when they are at work. Your displeasure surprises us and we have on that account upon receipt of your order withheld the additional guilder daily and allowed them only double the boardmoney paid to a private soldier.

Pursuant to your Honors' repeated recommendations we would have liked very much to continue and advance the trade between this country and *Curaçao* by providing one place with provisions and timber and the other with salt. But as from time to time we have found ourselves in want of a suitable vessel, required thereto, we could not carry out this plan, as we desired, which is a great disadvantage to the Company and diminishes the trade. From the enclosed copy of a letter and enclosures, received by the ship "*Meulen*" and the galiot "*New Amstel*" you will learn, that our fears for the loss of the yacht "*Diemen*" are well founded; for she was sent by Vice-Director *Beck* to this port with a cargo of salt in September of last year, but has as yet not arrived here; our fears for her loss are increased by the verbal reports, that this yacht had several times struck the rocks, while taking in her cargo at the salt pans of *St. John*, and had leaked considerably before her departure from there. It is therefore necessary, that another suitable, but somewhat larger vessel be sent over, if this highly necessary commerce shall be carried on with zeal and managed for the advantage of the Company. In regard to this subject your Honors directed, that the salt, ordered or sent from *Curaçao* for account of the Company, should be stored in the Warehouse and sold at moderate prices only as a monopoly of the Company. We suppose, your intentions were to benefit the public generally by selling at retail, but this order is contradicted by the fourth point of the instructions concerning the management of the finances, as well as by your letter of the 7th of April 1657 per "*Moesman*": for your instructions require, that whenever any slaves horses, salt or other goods arrive here from *Curaçao* or from elsewhere, they are to be sold at public auction, proper labels with the price being affixed to all, while in your letter of the 7th of April 1657, recommending particularly the commerce with *Curaçao*, you advise us, to give permission to private parties here, who desire it, to bring from there in their own vessels salt, (of which a large quantity is on hand at the Island), horses &c under just and fair conditions.

Although it might be said, that the last order repeals the former and therefore must be obeyed, yet being unable to do the one or the other for want of a vessel, we find ourselves compelled respectfully to submit to you, whether, in case you affirm your last order, to keep salt as a royalty of the Company and sell it at retail and wholesale, this may turn out to the advantage of the Company, unless you forbid at the same time the importation of salt by private parties from other places; and if this measure is adopted, whether it would not cause an infraction, a diversion or at least an obstruction to the commerce and as a consequence would embarrass and injure both, this place and the Company. As some barks and other craft arrive here now and then from the *Caribbean Islands, Virginia, New England* and other places, sometimes bringing besides their cargoes of sugar, hides, tobacco, some salt, they would, if forbidden to sell the latter, take it as a pretext not to sell the other goods. On the other side, if the importation and sale of salt is reserved as a royalty of the Company and no salt arrives from elsewhere, and if the Company's vessel should meet with misfortune, as it has happened now and several times previously, while we cannot obtain another within two or three years—the community would suffer much and the administration blamed for it.

Beside what we have said above, you will please to consider, that by reserving the importation of salt from *Curaçao* as a royalty of the Company the inhabitants here would be greatly discouraged from trading to *Curaçao* or sending anything there, for except salt they can obtain there very little or hardly any other freight, than horses, for which private vessels are as yet too small and inconvenient. We would be blamed for preventing our own subjects, who have no resources among the neighbors, from trading to our own places, which we cannot forbid to strangers, unless we also forbid them to bring salt from *Curaçao*. This would injure the Company and both their colonies, but if your Honors in your farseeing wisdom expect greater advantages from the execution of your last order, it shall be faithfully carried out upon receipt of your further advices and the arrival of a craft, suitable to bring salt from *Curaçao*.

* * * * *

Since our last letter we had but little intercourse and less differences with our neighbors of *New England*. If no new troubles arise between the two governments in *Europe*, which God prevent, we may hope, that no material differences between us and the English here shall spring up: anyway, we, as the weaker party, have always been very careful, and shall continue so, to give them no cause for dissatisfaction and although your description of them hits the nail exactly on the head, we cannot persuade them, notwithstanding our satisfactory proofs, that they deviate from the boundary agreement, made at *Hartford* in 1650. The question, as we have already advised you, is only about the location of *Oyster bay*: the oldest inhabitants of *New Netherland* place it at $2\frac{1}{2}$ leagues farther east, than the oldest residents of *New England*; the land comprised in these $2\frac{1}{2}$ leagues is of very poor and sterile nature, but the convenient location of the Bay is of greater consequence, for if it remains in the possession of and is settled by the English it will be an open door for all smugglers. To prevent this, it is therefore necessary to build a fort or a blockhouse pursuant to your orders: but the greatest difficulty arises in deciding where and upon which point; for if built according to the statements of the Dutch, $2\frac{1}{2}$ leagues farther east, the English village of *Huntington* would come within the limits of *New Netherland* and we would immediately and without doubt meet with opposition, to be followed by further differences and troubles, which would not suit us at all at present, as long as the relations between the two governments in

* See Vol. XII, p. 246.

the Fatherland are so uncertain and dangerous. We have therefore concluded to wait with it another year, expecting in the meantime your further letters and orders, also some good carpenters, to build the works and the necessary houses at the least expense. We are still more induced to make this delay, because the few negroes of the Company are required for the quarrying and hauling of stone, lime and other materials for the walls of this fort.

As very few persons live on *Staten Island* on behalf of Baron *van der Capelle*, not more than two or three families, for whose safety pursuant to your orders 5 or 6 soldiers are kept there at the expense of the Company and as so far no more show any inclination to settle there as colonists, this matter remains as it was, at least until you shall have spoken with *Cornelis Melyn*, who is still in *Holland* and who conveyed the island to the aforesaid gentleman, and have given us further information.

Concerning the displeasure expressed by your Honors over the disposition and distribution of certain smuggled and confiscated beavers, we must not argue with you, being our Lords and Masters, who may dispose and order according to their pleasure; we beg therefore only to state with due respect, that no abridgment of any privilege was intended by us, much less committed; that may be gathered from the ingenuous expression used in the sentence and its application, which else might have been disguised and covered by the quotation from your own printed placat,—one-third for the informers: as it is without precedent and not practicable, that judges should themselves retract or alter a sentence once pronounced by them, we shall submit to the alterations and the application, which your Honors may please to order.

What you have been pleased to direct, ratify or consent upon the written representation of some merchants concerning greater liberty for the foreign trade, is gratefully acknowledged on their behalf. Whenever advantage shall be taken of it, of which there is little likelihood now, your orders concerning this matter shall be strictly obeyed.

*

*

*

*

No other concessions, concerning the fourth part of the receipts of the Weighhouse, have been made to the Burgomasters upon their request, than those ratified by you, as their petition and the answer thereto show. But the proceeds have as yet not been paid to them and seeing that you are displeased on that account, we shall await your further orders, before the granted revenues are handed over to them.

Such rules have been adopted for the keeping of the accounts, that we have no doubt you will be well satisfied and pleased with them.**

The great mistakes, abuses and false statements, found to our regret in the old books of accounts, have caused us so much trouble and labor, that we have been engaged with them nearly the whole year 1658 and have not yet quite finished with them; but we have got so far, that most of the private accounts with merchants are adjusted and only a few items concerning the Company alone remain, with which we are now laboring daily. These adjustments have, of course, to be made first, before a general statement can be drawn up; the desired balance sheet can therefore not be sent with these ships. You may expect it early next year with the accounts balanced on the last of December. The enclosed scheme made by Receiver *van Ruyven* will show you, how we intended to have the books kept; if you desire any changes made in this

* See Vol. XII, p. 100.

** Explanation of some items in former accounts in the following paragraph is omitted here.

method, we request to be informed of them by the first ship, that we may act accordingly. The Receiver* gratefully acknowledges the honor, conferred upon him by your Honors: we neither can nor wish to doubt, that you and we shall be benefitted by his good and faithful services, as we have already so far.

The order issued by you in regard to the sale of real estate shall henceforth be obeyed and carried out; we have only considered it advisable to wait with the collection of the 40th penny until the arrival of the expected candidates for the ministry (*proponenten***), for then we shall have so many more reasons for the introduction of this measure.

Not only the present Secretary *Van Ruyven*, but also all others, who have before served in that capacity, have received 5 p. ct. for selling real estate, but *only when the property was sold to the highest bidder at public auction*; for this commission the Secretary has not only to attend to the sale and everything connected with it, but he must also collect the purchase money and in case of bad debts, make up and pay the deficit: he must further pay the Court messenger for acting as auctioneer. This custom has until now been followed by the said *Van Ruyven*, but henceforth this business shall be attended to by the Secretary of the City at such a salary as you may consent to give him.

Your orders concerning passengers, from time to time coming over at the expense of the Company, were already put into practice before now and we shall continue to obey them strictly. The advances made by you out of pity to the passengers lately arrived in the "*Trouw*" have been carried to the debit of each individual; the book containing these accounts is being copied and will be sent you by the "*Moesman*."†

So far in answer to your Honors' favor of the 13th of September received by the "*Trouw*." While we considered the same the ship "*Moesman*" arrived here bringing us your favor of the 25th of April last, to which we have to reply as follows.

The complaints and lueubrations of the Patroon and the other directors of the Colony of *Rensselaerswyck*, together with your reply to them, first call for our answer. We have little or nothing to add to what you said, because since the departure of *Brant van Slechtenhorst* little has occurred between us and his successor *Jan Baptista van Rensselaer* concerning the old, frivolous claims and questions; as far as we know no other complaints have been made, than against the farming of the tavernkeepers' excise on beer and wine and the collection of the tenths and as what has occurred between us and them in regard to these matters has been sent to and received by you from time to time, we think a repetition of it unnecessary. But we must say about your displeasure over our too minute explanation concerning the expense borne by the Patroon and the other directors of said Colony, and over the expression "or if impartial men, etc": first, that we could not assume the final decision of this case without erring on one side or the other, especially as by maintaining the right of the Company, in whose pay we are, in matters of this nature we would be suspected of being too favorably inclined toward it: we used however such expressions, as we thought, to the best of our knowledge, would be the least prejudicial to the Company and therefore referred the case, not to arbitrators "or impartial men etc," but directly to your Honors "or impartial men" called by you, meaning that in case a difference of opinion should be claimed, their High: Might: or the Worshipful Magistrates of the City of *Amsterdam* should give judgment, as you might decide.

* The letter is in the handwriting of *Cornelius van Ruyven*.

** *Proponent* is a Bachelor of Divinity, a Vicar.

† Here follow again explanations of items in private accounts, which are omitted.

As to your further remarks on this point, concerning the appointment of a Schout or the continuation of the present incumbent under our commission and instructions, also in regard to the collection of the tenths pursuant to agreement, we shall carry out the one and the other conform to your orders in due time and with all possible leniency and report the result to you. But we request now your advice and order by the next opportunity, whether the salary of the Schout for the said Colony should not be paid out of the Company's funds; this, we think, is necessary to uphold the sovereignty of the Company.

Alexander Carolus Cursius, engaged by you as Latin schoolmaster, has arrived here. We hope and trust, that the community shall reap the desired fruits through their children, to which God may give his blessing: the state of the school shall be reported to you in due time.

Secretary *van Ruyven* has put the cash books into such order and kept such accurate accounts of what has been transacted since the dismissal of the former Receiver *van Tienhoven*, that not only we, but also everybody else, who has now an account with the Company, is well pleased and satisfied. As it has pleased you to send over as bookkeeper one *Jacob Sam*, we shall employ him as such and let him open the new general ledgers on the last of December, while Commissary *van Brugge* writes up his old account books and corrects the errors in them. Please to inform us, whether you desire, that *Carel van Brugge* shall be continued as Commissary of the Warehouse or whether the abovesaid Sam shall attend to these duties, as *van Brugge* has acted in both capacities for some years past. We think, that one man can easily do it with the assistance of a faithful clerk but we await your decision.

D^r *Johannes Theodorus Polheym*, preacher upon Long Island, remonstrates, as you may see from the enclosure N^o—that you have deducted fl 782.6.—heavy money from his credit on his Brazilian account, which amount he has received here in light money besides fl 160,—a total of fl 942.6.—for serving as minister from October 1654 to the 7th of April 1657; for these services the above sum was allowed him and credited to his account, as shown by the Register of Resolutions, sent to you, under let. E. p. 63 January 29th. You will please to give such order in this matter, as in your opinion equity demands.

If the work of the masons continues to progress as fast, as it does now, we may hope to have the fort completed by next summer; then it will be necessary to build new carriages for the guns, for which we shall require also wheels: these could be made here, to avoid expensive freightage, but some flat and square iron must be sent over for bolts and coverings of the axles and similar purposes: as these axles must be proportionately heavier and thicker, than the axles of common carts or wagons, a large wheelmaker's anvil should be sent us, to bore out the naves of 5 to 5½ inches diameter, for we have here in the country none larger than 3 to 3½ inches. It should be made in the Fatherland and sent with the first ship.

LETTER FROM STUYVESANT TO THE DIRECTORS IN HOLLAND: SICK ' DECLINE OF TRADE AT FORT ORANGE; EMIGRATION.

Per "*Moesman*."

Honorable, Wise, Prudent and Very Worshipful Gentlemen.

I did not think, that I would be able to address your Honors once more, because the All Good, but not less Just God has been pleased to visit me, during the past four weeks, with a sickness accompanied by a hot internal fever, (I hope it is for my best,) and although now and then the use of such medicines, as may be obtained here, produced a change and improvement, I am and remain still very sick and weak, having neither inclination nor appetite for anything to eat, except liquids, which are considered injurious. However, as I have been upon my feet for two or three days now, I hope, that with God's blessing I shall recover, which I desire so much more, because your Honors' service and the present state of the country require our presence here and elsewhere.

At *Fort Orange* almost everybody complains against his neighbor, wholesale dealers against retailers and vice versa, because of the decline of the trade, which grows worse from year to year. It is stated on authority, that although the beavers have been bartered from the savages at high prices this summer, 100,000 guilders have been given to them as presents. I see no or only little hope to remedy this, but upon the complaints and requests of the inhabitants I have contemplated to go there during the greater part of the summer, more to restore harmony among them and give them some satisfaction through my presence, than in the hope of effecting any redress in the decline of the trade; principally also to carry out, quietly and gradually, your orders and instructions concerning the Colony of *Rensselaerswyck*. Hitherto I have been prevented by manifold other business and my subsequent indisposition.

* * * * *

I must submit to your Honors, that I am convinced by your letters and documents, of your zeal and inclination to make this country prosperous, sending over for that purpose, as the lists show, free people at your expense, but when they arrive here, we find them to be mostly traders and hence persons unaccustomed to labor, who quickly become a charge of the Poormasters; others, who are more honest, enter the military. It would be better and the Company would with more certainty recover the sums advanced to these people, the country would also be more benefitted, if in place of sending such persons, you would look about and send us farmers or farmlaborers, foreigners and exiles, used to labor and poverty.

What I have stated on this point, as my opinion concerning passengers brought over at the expense of the Company, in the hope, that it shall not be misinterpreted, applies with still greater force to the people sent over by the City of *Amsterdam*; if they had been persons of frugal and industrious minds, the good intentions of the Burgomasters would not have been rendered void and the country acquired such a bad reputation. It is therefore necessary, if the said Burgomasters or the Company expect any return or advantage from previous or future expenditures of this kind, that farmers and farmlaborers, frugal and industrious people, be sent over.

EXTRACT FROM A LETTER OF STUYVESANT TO THE DIRECTORS: LATIN SCHOOL; MEDICINAL SEEDS WANTED.

Septbr 17, 1659.*

* * * * *

The Latin schoolmaster or rector, lately sent over, complains of his salary, because, he says it is impossible to support himself decently with it, as you may see by his enclosed letter to us. Your repeated instructions do not allow us, to raise anybody's salary without your knowledge, we have therefore referred him to you, promising him our favorable recommendation: we now request your Honors' advice, whether a reasonable sum may not be granted to him for board money. As to his services and his diligence, we must truly testify, that his industry is astonishing and the progress of the young people remarkable.

Among other necessities required we would respectfully remind your Honors and submit, whether it is not possible, to receive by somebody's recommendation and intervention from the Botanical Garden at *Leyden* some medicinal seeds and plants, which could be cultivated here; if so, which we desire most heartily, please to have some of them sent over by the first opportunity, taking care, that such seeds be not packed in boxes or pots in the shipshold, but in small, linen bags, all placed in a larger one and hung up in the cabin, in the room on the quarterdeck or in the gunner's quarters, to be preserved from spoiling.

LETTER FROM STUYVESANT TO THE DIRECTORS: DIRECT TRADE WITH FRANCE.

Per "*Meulen*."

Honorable, Wise, Prudent and Very Worshipful Gentlemen.

By your Honors' consent, granted to the inhabitants of this Province by your letter of the 17th of February last past, several prominent burghers of this City have been encouraged to freight the fly-boat, the "*Moolen*," here with boards and other lumber, as per enclosed invoice, and dispatch her directly to *France*, where the lumber is to be exchanged for wine and other goods, and then she is to sail for *Amsterdam* direct, pursuant to the clearance and permit here annexed. As this is the first attempt, the abovementioned burghers and freighters requested letters of introduction to your Honors, that upon arrival in the Fatherland they might be favored by you.

We enclose also a petition, handed in by the master of said flyboat, concerning a cargo of salt, taken in at the Island of *Tortugas* without the proper salt permit, brought here, discharged and partly sold: as this is prejudicial to the Company's monopoly and intentions regarding the salt trade, limited to the Islands of *Curaçao* and *Bonaire*, while the carriers must deliver one fourth part of their cargo salt without pay and expenses at the place of their destination and as we do not know what rules for discharging salt at other places have been prescribed by you, we have by our resolution referred the said skipper to you for disposal of his case, but we beg to remind you, that, if this is permitted in the future, salt will be imported from other places than your colonies, and in smaller quantities, which, under correction, would injure the Company and its territories.

Herewith we commend your Honors to God's protection etc.

RESOLUTION OF THE AMSTERDAM DEPARTMENT, W. I. Co., CONCERNING MAIL FACILITIES.

Thursday, the 30th of October 1659.

It has been discovered that private letters are not placed into sealed bags in *New Netherland* and *Curaçao*, as ordered by the government and long practiced in *Brasil*, and sent to the Company in charge of the supercargos or masters of the vessels, sailing to these parts, (for the benefit of the merchants, as the Company intended it,) but that masters of private vessels, coming this way, usually take them along and very often deliver them badly or with great delay. It is therefore ordered, that to enforce again the abovementioned order henceforth a clause shall be inserted in the bailbond, given by skippers, sailing to *New Netherland* and *Curaçao*, forbidding them to bring privately letters to this place under penalty of one hundred Carolus guilders for each contravention; they are to hand them in at the places to be designated by the Director-General of *New Netherland* and the Vice-Director at *Curaçao* respectively, and both these officers shall be written to and ordered to see to the collection and expedition of the letters in the aforesaid manner by all ships, which shall also be done here, as far as possible.*

Much Honnored S^r

Wee haue therefore thought it necessary by this o^r Letter as also by o^r Honnored & welbeloved Major *William Hawthorne* and Mr. *John Richards* (to whom wee desire you to giue Credit) to Lett you vnderstand o^r cleare & honest Intentions in the business to stop yo^r Admiracion & demonstrate the equitie of the motion of the Honnored Commission^{rs} on o^r behalfe.

PETITION OF THE MINISTER AND CHURCHWARDENS OF MIDWOUT FOR MATERIAL TO PAINT THEIR CHURCH.

Noble, Rigorous and Honorable Gentlemen, Honorable Director-General and Gentlemen of the Council in *New Netherland*.

The church edifice at *Midwout* on *Long Island*, begun under your Honors' direction and now, with God's help, nearly completed, requires according to our and many other people's opinion a

coat of color and oil, to make it last longer, being covered on the outside mostly with boards; these materials must necessarily be fetched from the *Fatherland* and we request, that it be done upon your Honors' order and recommendation to the Hon^{ble} Company. Which doing, etc.

Your Honors' humble servants

JOHANNES THEOD^{us} POLHEMIUS, pr.

Having received and read the foregoing petition, the Council decided: The request shall be submitted to the Lords-Directors by the first opportunity. Date as above (January 23, 1660.)

LETTER FROM THE DIRECTORS TO STUYVESANT; IMPORT DUTIES; BLOCKHOUSE AT OYSTERBAY;
REVENUES' RENSSELAERSWYCK; LATIN SCHOOLMASTER.

The 22^d of December, 1659.

Honorable, Prudent, Dear, Faithful.

Our last letters to you of the 9th and 14th of October were dispatched by the "*Liefde*" via *Curaçao*; duplicates of the same are here inclosed, to which we refer. As we have delayed to answer your letters of the 23^d of July and 4th of September 1659, received with their enclosures by the "*Trouw*" and "*Moesman*," we shall reply to them and your later letters of the 16th, 17th and 18th of September, received by the "*Otter*" and "*Bever*" as briefly, as the time and their contents admit.

It has never been our intention, that officers and men of ships, sailing to your ports, should be allowed to trade to the amount of two months' pay without paying duties; nor shall we allow it now, because we have seen what abuses arise from it, permission having been given to the steward and cook of the "*Trouw*" to bring over 40 beavers and 32 deerskins, worth more than four times two months' pay. It is a bad custom, by which not only the Company, but also all honest traders suffer, who cannot compete against such hucksters not paying even freight. Therefore it must be abolished completely and not further connived at or permitted; such merchandises, taken along by officers and sailors, must be seized and confiscated, as well as everything else not entered upon our bills of lading or permits. For this very reason we have here refused to exempt from the payment of duty the beavers, lately brought over in the aforesaid four ships, partly under the name of provisions partly otherwise designated, among which are found to belong to

Peter Tonneman 106 pieces in the "*Moesman*"

Councillor *John Decker* 95 to 96 in the "*Trouw*"

Balthazar and *N. Bayard* 16 in the "*Moesman*"

D^o *Harmanus Blom* 70 in the "*Bever*"

Nicolas Varlet 14, 5 in the "*Moesman*," 9 in the "*Bever*"

Paulus Leendertsen 10 under D^o *Bloms* name.

and others, all of whom you must charge in their accounts with the duties for these beavers and collect or balance the amounts, while we earnestly recommend to you not to be so liberal in remitting or giving away the duties to whom ever it may be; for the above stated reasons we consider this as required.

We presumed that the yacht "*Diemen*" had been lost, because of her long delay, and have

therefore written to Vice-Director *Beck* on the 7th of August, that in place of her he should employ for the trade between *New Netherland* and *Curaçao* the ship "*St. Jean*," which was expected there daily with slaves from the coast of *Guinea* and which, we learn, is well adapted for it. Desiring that one place should be provided by and reap advantage from the other and in order, that the cultivation of the soil in our Province be forwarded, we have reduced the price of horses, exported from *Curaçao* or *Bonaire* for this purpose, from 50 fl to 40 fl; also the price of horses, exported from the same places to other territories, from 80 to 60 fl; this for your information. As to your arguments about the salt, if it were reserved as a monopoly for the Company, the most important seems to be concerning the obstructions, which would arise from it to the commerce between the two places. We desire its continuation and to prevent any interruption, we withdraw our former orders for the present, so that the salt trade may be carried with perfect freedom as formerly under such regulations, (especially one fourth part of the cargo to be delivered to the Company free of all expenses,) as you may learn from the enclosed copy. Under these rules and no others salt may also be imported from *Tortugas* and other places, which under these circumstances will not be injurious to the Company, for we shall have neither trouble nor expenses on account of it. As the ship "*Meulen*" has brought there a cargo of salt, the aforesaid fourth part must be demanded upon her arrival here or in *New Netherland*.

Besides some copybooks and other stationery some wearing apparel for the soldiers is sent herewith, as you may learn from the enclosed bill of lading. It is our intention that it should be given only to the poor and needy soldiers and not to other employes of the Company, (which has been done, as we understand,) who only gain thereby, while their circumstances allow them to order their clothing from here, especially when they draw their salaries earned there, as will be stated hereafter. We recommend you therefore to make such rules, that our good intentions be carried into effect.

Your new arguments for the delay in erecting a fort or blockhouse at *Oysterbay* have surprised us, as we had given absolute orders for doing it, which were based upon your own suggestions of its necessity. If the necessity does not surpass the alleged difficulties, then the waste of so much paper in this matter has been unnecessary: you can judge of that better, than we here, and we can only say, that we persist in our former directions, provided, that their carrying out will prevent and hinder not only smuggling, but also the intrusion and usurpation of your English neighbors, (upon whose present quietness we place no reliance,) if not, then we think that the expenses, which would fall upon the Company, might be avoided.

We were not pleased, that you had granted one fourth of the revenue from the Public Weighhouse to the Magistrates there, because before giving it away you ought first to have asked for our consent and stated the reasons and the necessity for such a measure. At present we are ignorant of the revenues and expenses of the city there, of which you must inform us by the first opportunity; meanwhile take care, that the Magistrates give without fail a detailed account every year of the revenues, already granted to the city; so that we may see, whether these revenues are properly administered.

You are specially charged with the supervision of the city's financial administration and we direct you generally, to take care, that the finances of the Company there are well and properly managed: you must constantly think of means to increase the revenues and therefore rather farm them out, than have them collected by officers of the Company; avoid all unnecessary outlays, especially when not urgent and a better time may be awaited: you might, for instance, have waited with the erection of the house at *Fort Orange* by Commissary *La Montagne* which undoubtedly will cost the

Company a considerable sum : we do not know, whether it was done with your consent and although we trust, it was not, we learn by the enclosures, that Commissary *Beeckman* has enlisted some soldiers on the *South river* without your knowledge, which, like the beforementioned, must not be done, without communicating with and obtaining special authority from your board, to whom the general government is entrusted : nor shall any one of the Company's officers have anything to do with the purchase or transportation of provisions or other necessaries, nor shall they or any one for them be given credit for such provisions or anything else. You must be especially careful in all this, that by doing everything according to prescription the burdens of the Company may be eased and injury prevented.

We have no doubt, to our regret that many gross errors, abuses and mistakes have been found in the old account-books ; a remedy might have been applied long ago, if everything had been duly examined, as it is done now. However as matters stand now, we must be patient. As to the draft of a scheme for keeping the books, sent over by Secretary and Receiver *van Ruyven*, which we approve, if such a method and order have been observed before, the mistakes, errors, or to speak plainly, frauds, would have been easily discovered. We expect by the first opportunity the desired balance sheet with the account book closed on the last of December.

You must have forgotten, that the Secretary or Auctioneer formerly received the 20th penny from the sale of real estate, for else you would not have delayed the collection of the 40th penny till the arrival of the expected candidates for the ministry. We remind you of it now, that upon receipt of this letter the measure be introduced.

We agree with your opinion concerning the appointment and pay of the Schout for the colony of *Rensselaerswyck* and therefore authorize you to give him such a salary, as he now receives from the said Colony, which most likely is very little, as these officers mostly have to collect their pay out of fines and penalties.

Your order concerning the payment of the soldiers and other servants of the Company in wampum has our approval, as it will have the tendency of placing all on the same footing and thereby giving satisfaction ; but as it has not the value of *Holland* money, we have concluded to direct and authorize you, to calculate wampum at that rate and for the same reason we reduce the currency value of a beaver from 8 to 7 guilders ; we do this principally, because we have resolved, henceforth to pay here neither monthly salaries, (the two months' pay advance excepted), nor any other amounts earned there no matter, who the employe of the Company may be. You will strictly conform to this rule.

This special reduction of wampum must necessarily be followed by a second, more general one, if we desire to prevent its complete debasement, caused by the abundant importation of wampum by the people of *New England*, who make their payments with it and take out of the country not only the best goods sent from here, but also many beavers and other furs to the detriment of the Company's revenues, while the merchants here have to wait so much longer for profitable return freights, their factors and the inhabitants sitting meanwhile on their boxes full of wampum, a medium of trade current only among the savages of *New Netherland*. Some merchants here, with whom we have consulted, fear, that the natives may change their minds in this respect, and state, that the tribes begin to incline towards another kind of beads, which they mix with the wampum for the sake of ornament, so that it will have less value and finally be entirely depreciated, unless its over-abundant importation be stopped by a general reduction of it in *New Netherland* to the *Holland* standard. Such a reduction can, we think, be introduced so much easier, because the Company sets an example by the mode of paying their employes and thereby

fixing the price and value of wampum. We feel assured, that the tradesmen also will find it a convenience in the purchase of necessary commodities and there is no danger, that the beaver and fur trade with the savages or the tobacco trade with the people of *Virginia* shall be led into other channels by this measure. We have therefore to consider the *New England* people, who, as we said above, draw the best goods out of the country in exchange for this villainous wampum. However, in order to prevent as far as possible the losses, which the inhabitants of our province might suffer by a general reduction, it will be necessary, that they be previously warned of it by public notices to be given in March and in June, the reduction taking place the following year. We desire that you carry out this order strictly according to our wishes.

Before we leave off discussing this matter, we have to say, that we have learned, that European goods and merchandise are imported there by way of *New England* and *Virginia* in order to avoid the payment of duties. As this injures the interests of the Company and of all honest dealers, it is necessary, that you and especially the Fiscal, whose duty it really is, take good heed and collect from all goods and merchandise coming in that way the proper *Dutch* duties. We further repeat our directions to watch the exportation of beavers and other furs by our *English* neighbors, as mentioned before.

We intend, to send over two or three young preachers on the same conditions, as Domine *Blom*, and have been looking about for them; it is not sufficient, that they lead a good moral life, they must be of a peaceable and moderate temperament, which depends a good deal on the place of their studies, and not be infected with scruples about unnecessary forms, which cause more divisions, than edification. The preachers there, D^{es} *Megapolensis* and *Drisius*, do not seem to be free from this kind of leaven, for they make difficulties in regard to the use of the old formula of baptism without order from the Classis here, pretending, that they might be accused of innovations, although the name of innovators could be better applied to those, who have made changes in it without the order of the Church generally or of a Classis. The most moderate preachers here understand this and consider it an insignificant ceremony, which may be performed or omitted according to circumstances and without hurting one's conscience. We had expected, that the abovementioned preachers and brothers would hold the same opinion after our too friendly letter to them. We are told, it is true, that the Lutherans come to church now and that everything goes on quietly and peaceably, but care must be taken, that this state of affairs continue; that is uncertain, as long as such precise forms and offensive expressions are not avoided. It is absolutely necessary, that they be avoided in a church, which is so weak and only beginning to grow, especially when we consider the difficulties, liable to arise, which might result in the permission to conduct a separate divine service there, for the Lutherans would very easily obtain the consent of the authorities here upon a complaint and we would have no means of preventing it. We find it therefore highly necessary to direct herewith, that you communicate all this to the aforesaid preachers there and seriously admonish and recommend them to adopt our advice and use the old formula of baptism without waiting for further orders from here. That will allay the dissensions in the state and of the church there.

The two *English* preachers, for whom their Reverences have asked to be located in the *English* villages under our jurisdiction, will not be sent for the present, because the country, from which they must come, that is to say, *England*, is now very much disturbed not only in her political, but

also in her ecclesiastical government and therefore it is too dangerous. We shall try to find among the *Dutch* candidates some, who know enough of the English language to perform the service in both tongues.

We believe, that the complaints made by the Latin schoolmaster or rector about the insufficiency of his salary are almost answered by the payment of all salaries there at *Holland* valuation, as now ordered, which, with what he receives from his pupils every year, should be sufficient to support him decently, as long as he remains a single man; with the increase of young people in the school his income will increase daily, for the parents of his pupils will not hesitate to remunerate him fairly, if he does his duty. You can assist him in this matter according to circumstances.

The medicinal seeds, for which you asked to propagate them there, shall be ordered from the academical garden at *Leyden* and it is possible, that they will be sent herewith.

The request made by you in behalf of some inhabitants and freighters of the ship "*Gulde Meulen*," sailed from there for *France*, that some favors might be extended to them in regard to the cargo, which they will ship with the proceeds of their outward freight, is not intelligible, for we think, we have done enough for the encouragement of these merchants. They clamor for more, because they are the first to attempt this channel of trade, but they will deny to have been accessories to the first fraud, committed by this ship or by her crew in bringing over, against special order, a quantity of beavers and other furs sold by them in *France*, as the supercargo of the ship writes us from there. If this smuggling cannot be stopped, we shall be compelled to withdraw the liberty and privileges, provisionally granted for this foreign trade, to prevent the loss and injury, which the Company and the city would suffer thereby.

We believe, we have now answered your letters, but we received with them also a letter from *D^r Drisius*, who asks, that he be treated in regard to board money in the same manner, as his colleague, *D^r Megapolensis*, because he too is burdened with a family. We are of opinion, that he cannot be placed in the same category, because his stepchildren* have undoubtedly their father's property and are no burden to him. You may tell him so, also that we paid to Mr. *Edward Man* the amount of his statement of salary earned, but we do not intend to do it henceforth for the reasons given above; let everybody govern himself accordingly.

The children and heirs of the late *Cornelius Werckhoven* have represented to us, that one *Jacques Cortelians*, in whose charge as agent their father, before leaving *New Netherland*, left all his land, houses, cattle, furniture and merchandise, refuses now to give an accounting of his administration to their attorney and tries to delay it under various frivolous pretexts, while he enjoys the profits of the estate, left to them by their father. They request us to write to you, desiring your assistance in maintaining their right and in having the business speedily closed up under all circumstances. We could not well refuse it and therefore urge you, to take good notice of this case when it comes before you, and to decide it as speedily, as justice and equity admit.

We send you herewith again a lot of silkworm eggs for distribution among people interested in this matter, to see whether thereby the production and spinning of silk might not become an industry there. You can contribute much toward it.

We should have sent you also the abovementioned clothing, stationery, ammunition, farming

* Domine *Drisius* married *Lyshet*, the widow of *Isaac de Riemer*, the daughter of — *Grevenraedt*, in 1659. Her daughter *Margaret* became the wife of *Cornelius Steenwyck* in 1658 and after his death was married to Domine *Henricus Selinus*.—B. F.

implements etc, but we could not get them ready, besides, this ship could not have taken them. You may expect them by the "*Bever*," which is now taking in freight and, if not hindered by ice, will follow in a few days.

EXTRACT FROM A LETTER OF STUYVASANT TO THE DIRECTORS IN HOLLAND: PROPOSALS FROM
NEW ENGLAND; AN ENGLISH FRIGATE AT NEW AMSTERDAM; FINANCES AND TRADE.*

Honorable, Wise, Prudent and Very Worshipful Gentlemen.

* * * * *

As to the request made by the Commissioners of the *New England* Colonies and our answer to it, we have received no further writings or advices and we must presume and fear, that they will carry out their intentions, unless your Honors speedily send out an armed vessel to keep the rivers free. This is much required here and might assist to ward off other inconveniencies, as the falling off of the *New England* wampum trade and the *Virginia* tobacco trade. We must say here, that since dispatching our last letter there arrived here and passed through an English frigate, freighted with salt, mounting 22 guns and having a crew of 34 to 36 men; she is now said to be at *New Haven*, 15 to 16 leagues from here. It is also reported, that she has three commissions, to wit, an English, a Swedish and a Portuguese, to interfere with the travel between here and *New England* and on the rivers within the jurisdiction of *New Netherland*; she has already taken two small vessels from here and further loss, inconveniencies, interference and diversion of the trade is to be feared. If this or any other such vessel with such commissions should anchor and remain in the *North* or *East* rivers beyond the reach of our guns, it could easily ship the tobacco trade with *Virginia* and even the furtrade and communication with *Fort Orange*, while *New Netherland* could do nothing to prevent it for want of a vessel properly equipped for our defence.

* * *

The letters of Mr. *Beck* to your Honors by the ship "*Coninck Salomon*," duplicates of which are here enclosed, and to us by the "*Sphera Mundi*" inform us of the scarcity of provisions and other commodities, which we are asked to send according to the enclosed lists. We would provide him and the Island at all times with everything, he requires, if we had a suitable and convenient vessel or could hire one to send them in. At present, in order to accommodate him as speedily as possible, we have hired from Mr. *Jacob Alrichs* the galiot "*Nieuwe Amstel*," for which we have to pay 500fl a month, the crew being fed at the expense of the Company** and only three days of

demurrage allowed by him for taking in freight and dispatching her. She arrived here last Saturday and we have resolved, to send in her to *Curaçao* for account of the Company 250 schepels of white and gray peas, 300 schepels of wheat, 4000 to 5000 lbs of meat and bacon and as many beams and spurs, board and other lumber as possible. What we are short of now, will be made ready during the winter, so that, when an opportunity offers, it may be sent in the spring or following summer. As far as we had a chance, we have not failed to obey your orders and provided the Island, where according to the enclosed extract we sent by the fly boat "*Liefde*" in 1655 provisions and materials

to the amount of.....	fl1029. 8.—

Total in heavy money of *New Netherland*..... fl7851.12.13

The logwood, sent as return freight, has been transmitted to you agreeably to Mr. *Beck's* request; the fourth part of the salt, brought by the galiot and the "*Sphera Mundi*," has been received for account of the Company and is for the most part on hand because of the poor trade and low prices, so that we have little or no advantage of the return cargoes in these pressing times. We would therefore respectfully request you, to provide us at the first opportunity with a good cargo of merchandises, as well for the use of the soldiers as to barter for provisions for this place and the Island of *Curaçao*; by which the Company will be considerably benefited.

On former occasions you have recommended and urged us, to encourage private individuals in this province to trade to *Curaçao* with provisions and other merchandises for the sake of continuing the commerce and correspondence between the two places. This is highly necessary and desirable if it could be done with profit or at least without loss, but that is hardly to be expected and we see less inclination and no chance for a profitable trade, as long as the inhabitants and merchants sending goods here are and remain subject to the duty of 12 to 16 p. et., while those who send their goods to *Curaçao* direct, pay only two p. et., as the bearer hereof, skipper *Jan Pietersen Groot*, tells us, and goods sent directly from *Amsterdam* to *Curaçao* sell there *cent p. cent*: on the other side, goods sent here must be first exchanged for wampum, and this for beavers or tobacco; when disposed of at the best advantage with a great deal of trouble they do not bring 20 p. et. clear profit, which of course can give only little encouragement for a trade from here to *Curaçao*. Furthermore, negroes brought there for 140 to 150 pieces of 8 in cash, cannot be sold here for that price in beavers or tobacco, so that the expenses and the risk of the voyage out and back are lost.

Your Honors hold logwood for your own account, agreeably to a contract, made with some private parties; therefore nothing can be exported: salt remains at a low price and there is no hope of an advance for the private trader. Meanwhile commerce is the soul, the life, the salvation of a place, which depends on its development, and it is impossible, that your territories should exist, much less prosper without it. For the sake of the salvation and welfare of this province and its inhabitants we respectfully request you, to give them such privileges for their encouragement, that they shall be taxed like, but not more than, others. Impelled by our duty and an inclination to advance the condition of your province and its inhabitants we submit to your Honors' discreet judgment and decision, whether the duty on goods sent to *Curaçao*, where private traders may at present make the surest and most profits, should not be increased and the duty on cargoes sent here diminished or both equalized: we believe, that this measure will not diminish, but rather augment,

your Honors' revenues, while the good inhabitants, your subjects, would be under obligations to you and feel encouraged to trade and enter into correspondence with *Curaçao*. When the duties in both places are the same, it is pretty certain, that the intercourse and traffic between them will prevent the frauds and contraband trade, carried on by ships coming here *via Curaçao*, as two of them have done lately. If you would further be pleased for the benefit and encouragement of agriculture to place a fair and fixed price upon negroes, whom your subjects might desire to import here for provisions, lumber or otherwise, as you have fixed the price for horses, imported here from *Curaçao*, it would undoubtedly increase the trade to *Curaçao* and provide the Island from here with plenty of commodities, timber etc, so that it would never be in want of anything. The enclosure from Mr. *Beck* informs us, that for the benefit of the people on the Island you sell negroes to the usurious Jews at a lower price, than to Spaniards and other foreigners. We believe and are quite sure, that for the sake of promoting the trade between the two places, of encouraging agriculture and advancing the welfare of your subjects here your Honors will give them, if not more, at least the same privileges and demand the same taxes, as from the usurious and covetous Jews.

Shows with due humility and respect *Jan Zeelen*, a farmer, that he has purchased from *Peter Roeloffsen* a house at *New Utrecht*, hoping to made there with God's help a bouwery or plantation; that the said *Peter Roeloffs* and his family has removed to live in *Amesfoort* on the Bay, abandoning a certain parcel of land No. 18, taken up by him in *New Utrecht*, and whereas thereby his rights in the said village of *New Utrecht* have again escheated to the Company, your petitioner requests, that your Honors will please to give and grant to him this parcel of land and the same rights in the said village as others have. Awaiting your Honors' favorable decision he remains.

COUNCIL MINUTE. COMMISSIONER APPOINTED TO HAVE BROOKLYN AND NEW UTRECHT SURVEYED AND ENCLOSED. PETITION AND ORDERS CONCERNING NEW UTRECHT.

February 23, 1660.

Whereas it is highly necessary, that the lately formed villages of *Breuckelen* and *Utrecht* be surveyed, enclosed with pallisades and put in a good state of defence, as quickly as possibly. Therefore the Director-General and Council have hereby specially commissioned and authorized the Hon^{ble} *Nicasius de Sille*, Councillor and Fiscal of *New Netherland*, to have this necessary work quickly done, using all possible means and making such arrangements thereto, as he shall think best for the public good and the inhabitants especially. Date as above.

To the Noble, Very Worshipful, Honorable
Director-General and Council of *N. N.*

Respectfully show the good inhabitants of the village of *New Utrecht*, that there are some evil minded persons in their midst and some are absent, who will neither follow advice nor continue, like the well disposed, but who always oppose the well disposed, flocking together riotously, even refuse to obey the sergeant *Jan Tomassen*, of which we informed your Honors some time ago and have several times written to the Fiscal, complaining of the great damage and troubles caused by horses, cattle and hogs; also that they will not listen to either *Jacob van Corlaer* or *Jan Tomassen* concerning the cutting of pallisades;

We therefore humbly request, that your Honors will please to send over, as promised, some negroes and also to favor us of the newly planted village of *New Utrecht* by approving the enclosed ordinance or by passing such laws, as your Honors shall think, that we require. Which doing, etc.

In the name of the good inhabitants
of the village of *Utrecht*,
Your Honors' servant
NICASIVS DE SILLE.

Here follows the Ordinance passed at the request of the inhabitants of the village of *New Utrecht*.

See "ORDINANCE FOR THE ENCLOSING OF THE VILLAGE AND FOR THE BETTER GOVERNMENT OF THE TOWN OF NEW UTRECHT" in *Laws and Ordinances of New Netherlands*, p. 370.

The Director-General and Council of *New Netherland* hereby appoint and commission his Honor *Nicasius de Sille*, Fiscal, or in his absence his deputy, to take charge of the office of Schout in the village of *New Utrecht* and of what depends therefrom, until the Director-General and Council shall nominate another capable person.

LETTER FROM THE DIRECTORS TO STUYVESANT; POSTAL ARRANGEMENTS; CURAÇAO AND SLAVE TRADE.

The 9th of March 1660.

Honorable, Prudent, Pious, Dear, Faithful

Our last letter, sent by the "*Trouw*," was dated the 22^d of December last past, of which we send copy herewith and to which we refer.

As we have found, that the skippers do not obey or execute our orders concerning the delivery of letters coming from there to the great discomfort of the merchants, we have been compelled, to impose a penalty of 100 fl, as the enclosed extract from our resolutions will inform you, and we have therefore added this clause to the usual contract, made with skippers bound for *New Netherland*, as you may see from the enclosed blank form.

* * * * *

We have resolved, that the ship "*St. John*," which will come there from *Curaçao*, shall be employed in place of the little vessel "*Diemen*"; it is, as we have written you, very suitable and therefore you may make use of it . . . against other vessels and privateers, which might make the *East* or *North* rivers unsafe. As to the frigate, which lies at *New Haven* and has already threatened the communication between the *Manhattans* and *New England*, also on the rivers within the jurisdiction of *New Netherland*, it would be desirable to capture and punish her as a pirate, if she sails under the commissions as reported to you, pursuant to the placat of their High: Might:, of which a copy is here enclosed. We desire you to do your duty in this matter and not to miss any opportunity; some of the private ships, coming over, will undoubtedly be ready and willing for such service, if you thought it advisable for the sake of greater security; we leave the matter to your judgment and discretion.

Nor must you delay in obtaining detailed information concerning the people, taken by the frigate in the two boats, mentioned by you; such information must be sent here by the first opportunity, that we can make use of it.

We approve of the orders, issued by you, for provisioning the people of *Curaçao* and sending there commodities and wooden wares and would have been pleased, to learn, that the salt, imported from there, sold at good prices, so that it would be of more use to you. We hope, that the market will soon improve and better prices may be obtained; then it will balance the expenses, incurred by you in taking care of and providing for that Island.

In regard to the trade between the inhabitants of the two colonies, we think, that we have done for this and other foreign commerce as much and more, than could almost have been expected from the Company. We have made the export of salt so easy and placed such fair prices upon the horses, as it was possible without loss: the complaints of the inhabitants there over the difference in the duties on goods, sent to either place, will cease in time. It is true, that when we first made a trial with the trade to *Curaçao*, a duty of only 2 p. ct. was imposed upon goods going there, but seeing that the trade continues we have already doubled the duties and demand now 4 p. ct., which will be further increased, if the trade continues to grow, so that they will soon be equal to the *New Netherland* duties. The difficulties, which you allege to hinder the commerce between the two places, would then be removed. As to the trade in slaves or negroes, in which the inhabitants there would like to engage in *Curaçao*, it is as open to them, as to other traders, but not at a lower price, because the Company would be too great a loser. As

* See Vol. XIII, p. 149.

however the importation of negroes would greatly benefit the cultivation of the soil and we are very anxious for its promotion, because the welfare of the country mostly depends on it, we have agreed and resolved to make a trial with a number of negroes, whom we shall send to you by the first ship or ships from *Curaçao*. You must sell these at public auction to the highest bidder, on condition that they are not to be carried off from there, but employed in cultivating the soil; for this purpose correct registers must be made and kept of them, as you may learn from the enclosed copy of the conditions.

To the Noble, Very Worshipful, Honorable
Director-General and Council residing at
New Amsterdam in *New Netherland*.

Some of the undersigned inhabitants of the village of *Gravesend*, your Honors' subjects, very respectfully show the licentious mode of living, the desecration of the Sabbath, the confusion of religious opinion prevalent in this village, so that many have grown cold in the exercise of Christian virtues and almost surpass the heathens, who have no knowledge of God and his commandments: the words of the wise King Solomon are applieable here, that where prophecy ceases, the people grow savage and licentious and as the fear of the Lord alone holds out promises of temporal and eternal blessings and as we, your petitioners, to our sorrow and constant regret see no means, by which to make a change for the better, we have concluded, to address ourselves to your Honors, as being the only hope for us and the wellbeing of this community, and humbly and respectfully to ask and pray, that a preacher or pastor be sent here, that then the glory of God may be spread, the ignorant taught, the simple and innocent strengthened and the licentious refrained. Then we shall be able to live in greater peace and in the fear of the Lord under your Honors' wise administration and government; whereupon relying we await your Honors' favorable reply and so doing &c.

LETTER FROM THE DIRECTORS IN HOLLAND TO STUYVESANT: CLERGYMEN AND CHURCH AFFAIRS ;
SHERIFF OF NEW AMSTERDAM.

The 16th of April 1660.

Honorable, Prudent, Pious, Dear, Faithful.

We informed you briefly, by the "*Bever*," by which we sent a duplicate of our last letter, that besides the two preachers D^{rs} *Bloom* and *Selyns*, also some books were sent, which were to be given to and used by them for the public service; this must be strictly adhered to. Before their departure we have sounded both the preachers concerning the old formula of baptism, to discover, whether they would make difficulties about using it; but they answered negatively, considering it a matter of no importance and engaged themselves to make use of it in the exercise of their clerical duties. You will find therefore the old formula in both the testaments in 4^{to}, which we send, placed in its proper place in the appendix, also in the psalm books in 8^o and 12^o, printed with notes, to be given to D^{rs} *Megapolensis* and *Drisius*, that they too may use it at the proper occasions and carry out our good intentions and wishes, which they must not oppose; for it would displease us on account of the loss and injury to the province and the church there. We told you this before and refer to our former letter for brevity's sake.

The urgent and repeated solicitations of the Burgomasters and Schepens of the City of *Amsterdam*, requesting the appointment of a separate Schout for them, have finally induced us to consent to it. We have therefore been inclined, to appoint to this office *Peter Tonneman*, now coming over in the "*Gulden Otter*," at a yearly salary of 250fl, over and above what the said Burgomasters and Schepens may give him for attending to the duties of the office, (as we are told, they gave an extra compensation to the Fiscal), besides such a share of the fines and penalties, as you may find stated in his commission and instructions, which as well as the oath, to be administered by you, he shall be bound and obliged to execute punctually, remaining faithful to the Company. You must uphold him and cause him to be upheld in this position in all matters of law and equity, as the case and circumstances may demand.

After this appointment we can and must dispense with the services of *Resolveert Waldron*, acting as Substitute Fiscal, but not wishing to dismiss him from the service, we have resolved to offer him the position of Schout for the three villages, for which the said *Peter Tonneman* hitherto acted as Schout—a position still vacant, as we learn,—at a yearly salary of 200fl besides the usual emoluments appertaining to it. You will strictly govern yourselves in accordance with this direction.

*

*

*

*

*

*

Lieutenant *Brian Newton*, who was discharged there from the service on the last of June 1659 and subsequently arrived here in the ship "*Coninck Salomon*," where he received his final settlement and pay, has again sailed from here for *New Netherland* in the "*St. Christoffel*," on the

* See Vol. XIII, p. 358.

2^d of December following. Although he could not claim any pay during his absence and since leaving the service there, we learn from the books of monthly wages for the year 1659, which you sent over, that his account has been continued during the whole time, in which he did not serve, and he is credited with the pay. This appears very strange to us, because it is not only entirely unreasonable and unauthorized, but also makes a bad precedent. We can therefore not admit it either in the case of the Councillor and Superintendent of Finances *Johan de Decker*, now also returning in the "*Gulden Otter*," to complete his term of service, although we highly value his abilities and good services, of which we have many proofs. We direct and recommend therefore, that the aforesaid abuse or error in *Newton's* account be corrected in the books and that you act henceforth with greater care, so that the Company may be saved all unnecessary expenses, as far as possible.

* * * *

As we are told, that Rector *Curtius* practices medicine there and therefore asked to have a herbarium sent to him, we have been willing to provide him with one herewith, you will hand it to him with the understanding, that it shall not cease to be property of the Company; likewise the books sent with and for the above-mentioned clergymen. You will make a note of this, that it may not be forgotten.

Herewith &c &c

Your good friends

The Directors of the W. I. Company
Department of *Amsterdam*

ABR. WILMERDONCK
C. BURGH.

To the Director-General and Council in *New Netherland*.

COMMISSION OF PETER TONNEMAN AS SCHOUT OF NEW AMSTERDAM AND HIS INSTRUCTIONS.

The Directors of the Priv. *West India* Company, Department of *Amsterdam*, specially charged and empowered by the Assembly of the XIX with the management of affairs in *New Netherland*, To All, whom it concerns.

Whereas the Burgomasters and Schepens of the City of *Amsterdam* in *New Netherland* have repeatedly asked and solicited to have the services of a separate Schout (whose duties have hitherto been performed by the Fiscal) and as we find, that it would not only much gratify the burghers of that city, but also would promote the administration of justice and law,

Therefore, relying upon the ability, piety and experience of *Peter Tonneman*, we have appointed and commissioned, as we herewith appoint and commission him to be Schout of the aforesaid City of *New Amsterdam*, giving him full power, charge and authority to assume and perform the duties of this office in said city and its limits, pursuant to the rules of the Schouts office in this renowned City of *Amsterdam* and in accordance with the instructions already given or hereafter to be given him; to bring to trial all, who break political, civil and criminal laws, placats and ordinances; to arrest all delinquents in the city and its jurisdiction, as his instructions direct him; to fine, execute and inflict the punishment, therein prescribed, to demand, that upon his direction and complaint all criminal matters and abuses be corrected and decided and all

sentences speedily and without delay executed and further to do in this respect, what a good and faithful Schout is in duty bound to do under the oath sworn by him. We therefore order the Burgomasters and Schepens and all inhabitants in the limits of the aforesaid City of *New Amsterdam*, to acknowledge and respect the said *Peter Tonneman* as our Officer and Schout and, if called upon, to give him all necessary and possible assistance in the execution of his duties, for we consider that requisite for the service of the Company and the advancement of justice.

Done at the meeting of the Directors at *Amsterdam*, this 9th of April 1660.

BONTEMANTEL.

By their order,

L. VAN SEVENTER.

THE SCHOUT'S INSTRUCTIONS.

1.

As law officer of the Director-General and Council of *New Netherland* in the district of the City of *New Amsterdam*, the Schout must to the best of his abilities and knowledge assert, protect and preserve the authority and privileges of the Priv. W. I. Company, in so far as these have been conferred upon the board of Burgomasters and Schepens by our instructions, without dissimulation or regard for any favor or disfavor.

2.

In his quality aforesaid he shall convoke the board of Burgomasters and Schepens and preside at their meetings, also move all matters coming up for deliberation, collect the votes and decide by their plurality.

3.

He shall ex officio be the complainant against all who contravene or break placats, laws, statutes and ordinances, already made or hereafter to be made and published, in so far as the court of Burgomasters and Schepens has jurisdiction in such cases and on the condition, that having made his complaint against such breakers of the law, he shall instantly rise and await the sentence passed by the Burgomasters and Schepens, who, when they are ready, shall immediately pronounce it on his motion.

4.

That he may well and properly maintain his accusations, the Schout shall, before beginning an action or arresting anyone, gather correct information concerning the misdeed, with which he intends to charge the accused; but he shall not be allowed to arrest any one before having collected his information, unless he was present, when the deed was committed.

5.

He shall take testimony in the presence of two deputies from the board of Burgomasters and Schepens, if circumstances allow it, or in the presence of two respectable men, who shall sign such testimony with the Secretary or his substitute.

6.

The said Secretary and the Messenger of the board of Burgomasters and Schepens are expressly ordered to assist the Schout and be at his service in everything, that pertains to their respective offices.

7.

He shall be careful, that in taking and verifying testimony everything is done uprightly and the truth ascertained and brought to light, as far as possible; paying close attention to all circumstantial evidence, which might come into consideration and relates to the case

8.

Upon being informed or hearing, that some people have been slandering or quarrelling with, each other, the Schout shall have power, either in person or through the Court Messenger, to order them to be silent, and forbid them to proceed to blows on penalty of arbitrary correction by the Burgomasters and Schepens according to circumstances.

9.

He shall not have power to compound with individuals for their misdeeds without the knowledge of the Burgomasters and Schepens.

10.

He shall take care, that all sentences of the Burgomasters and Schepens, from which no appeal has been taken in accordance with their beforementioned instructions, be executed in conformity with the customs and usages of the Fatherland, especially of the City of *Amsterdam*.

11.

Also, that certified copies of all the aforesaid sentences, of the appointments, acts and resolutions of the Burgomasters and Schepens are once a year delivered to the Director-General and Council.

12.

If he receives notice or obtains knowledge of some misdeed, of which either on account of its nature or of the delinquent he cannot take cognizance, it shall be his duty, to report it instantly to the Fiscal, but he shall not be allowed to take evidence, much less make an arrest, except in an actual assault to prevent further misdeeds or to prevent flight in a case of felony.

13.

This done, he shall, as above directed, without delay deliver the testimony or the prisoner into the Fiscal's hands, who shall proceed according to the exigencies of the case.

14.

In order to encourage the said Schout in the faithful performance of his duties, he shall receive etc.

This is to be determined in *New Netherland*, subject to the approval etc.

15.

If the Schout should fail to obey one or the other of these rules, he shall be tried before the Director-General and Council upon the complaint of the Fiscal and punished according to circumstances.

His Oath.

I promise and swear, that I will be true and faithful to their High : Might : the Lords States General of the *United Netherlands* and to the Lords-Directors of the Priv. W. I. Company, Dept. of *Amsterdam*, that I will treat the Director-General and Council of *New Netherland* with all the respect, honor and obedience due them, that I will observe and execute the rules and prescriptions, contained in my instruction or added thereto hereafter and finally behave and act as a faithful officer is in duty bound to do.

So help me God !*

LETTER FROM DIRECTOR STUYVESANT TO THE GENERAL COURT OF MASSACHUSETTS, VINDICATING THE
DUTCH TITLE TO NEW NETHERLAND AND THE HUDSON RIVER.

Very Honorable Gentlemen and Beloved Neighbors.

We had thought, that our last letter of the 29th of October of last year, replying to a letter from the Commissioners at *Hartford* in *Connecticut* and sent to the Hon^{ble} Governor *Endicott*, had sufficiently and convincingly informed him, you and everybody else, why our honor, our oath and the express orders from our masters forbid us, to concede either claim or title to, trade with or passage through this region of the *North river*, indisputably belonging to us, to any other persons, than to our faithful, sworn subjects and inhabitants of this Province of *New Netherland*. But as your Honors do not seem to be satisfied with our former reply and in your last letter of the 12th of November by your deputies, Major *Hathorne* and Mr. *John Ryckarts*, bring forward and urge some new arguments, we shall answer them as briefly and clearly as possible.

In the first place, you say,—the patent, granted by the late *King Charles* to the Colony of *Massachusetts* begins on the South three miles from *Charles river* or *Massachusetts Bay* under 42° 20' N. L. and reaches in a straight East and West line through the whole of *America* from sea to sea.

To which we answer: we grant, that such a patent was given, but that does deprive their High : Might : the Lords States General of the *United Netherland* of the power and authority, to give and grant a similar patent to their good and faithful subjects, the Lords Director of the Privileged *West India* Company, as it was done in regard to the pretended patent from the said King: the patent, obtained from this unfortunate monarch, neither can nor ought to prejudice the previous occupancy by allied friends and neighbors. Your Honors forget, either intentionally or by accident, to mention the date, when the said patent for the Colony of *Massachusetts* was obtained and issued. English and Dutch histories inform us, that the unfortunate King succeeded his father in the year 1625 ; the printed histories, archives, journals, letters and daily papers of *New Netherland* prove, that this *North river* of *New Netherland* was first discovered at the expense of the Dutch in 1609 by *Hendrick Hudson*, a skipper and supercargo of the yacht "*Halve Maen*" in

* *Peter Tonneman* was sworn in as Schout of *New Amsterdam* on the 5th of August, 1660. B. F.

the service of the *East India* Company. Upon the report of the said *Hudson* some merchants of *Amsterdam* sent another vessel to the *North river* in 1610 and in the following year obtained a privilege from their High: Might: the Lords States General, to navigate this river: for the safety of their trade they erected in 1615 a small fort, from which an island near *Fort Orange* still bears the name of "*Castle*" Island and the remnants of which can still be shown: high water and ice having injured this small fort three years later, it gradually fell to pieces and finally *New Netherland*, consequently also the *North river* as a part of it, was conveyed by their High: Might: the Lords States General to the *West India* Company, which in 1623 (two years before *King Charles'* accession to the throne and apparently several more before the date of the *Massachusetts* patent) really and effectually took possession of this *North river*, planted colonies and for its greater security erected *Fort New Amsterdam* at the mouth of the river and *Fort Orange* above, now visible and undeniable signs of their legal possession. Therefore your Honors' argument, made evidently upon the lying information of others, is too weak and hardly deserves an answer, when you state: "*Wee are very wel assured that some part off Hudsons Revier (a name wel knowne to the English) before the arrivall off any Dutchs in those parts lyeth to the northward off the sayd Latitude, and is within our patent granted and possessed by us about thirty two yeares*" We had said above and undertake to prove that the *North river*, although named by the English after the discoverer *Hudson*, was through him, a servant of the *East India* Company, first discovered by the Dutch, before any English ship ever came upon it; was navigated and occupied by private parties under a privilege from their High: Might: not only about 32 years, but 50 years; and has now been peopled and strengthened with two forts by the *West India* Company for more than 37 years. Your Honors therefore most unjustly call us and our nation by the name of intruders, a name and epithet better to be applied to those, who upon your Honors' recommendation try to invade our indisputable territorial possessions, and to those, who have invaded and settled upon the territory, occupied by us for 36 to 37 years between the *Fresh* and the *North rivers*, (many years previously guarded and bounded by the strong house *Hope, New Amsterdam* and *Orange*). Your Honors will unquestionably approve the general rule, accepted by all Christian nations: *qui prior in possessione, prior est in jure*.*

Your Honors quote the instances of the *Elbe* and other rivers in *Germany*, where though they run through divers principalities, states and jurisdiction, one government does not refuse passage to the other: Your Honors would have yourselves solved the question, if you had substituted the river *Thames* in the place of the aforesaid. We are well aware, that upon the banks of one or the other river lie divers dukedoms, principalities and cities, which being members of the same empire or kingdom have each its own jurisdiction by separate names, but yet of the same nationality, and do not therefore give and grant free passage, much less possession, jurisdiction and ownership to *England, France* or other governments, as little as the *English* nation would give to another possession of or jurisdiction over the *Thames* and therefore does not allow even passage to it. Even though it were done, we hope, your Honors are not ignorant of *quod similitudines aliquo modo demonstrant, sed nihil ponunt*." Your Honors state further, that you have forbidden all foreigners to trade with the nations in your territory and that you cannot refuse to us such privileges: we presume, that the authority of our masters, the liberty and privileges, granted by them to their subjects, place the latter in such a position, that they need not trouble themselves about the refusal or consent of others or concerning the rules on this subject made or to be made in other jurisdictions.

* First in possession, first in law.—Possession is nine points of the law.

But your Honors continue, "*we shall therefore not consent to be prevented from trading with our own Indians, living near you, and possibly interfering with your trade*"; we leave it to your Honors own judgment, in how far this agrees with your former statement, "*if our enjoying our rights should prejudice your trade, we would consider such an arrangement so unbecoming the professors of Christian faith, that persons, who value common righteousness, would never seriously think of enforcing it without blushing.*"

What and whom your Honors call your "*own Indians*" and how far you extend this term, is not stated in your Honors' letter; we are therefore in the dark on this point. We hinder no Indian in trading with other nations, but we do not allow it upon our streams and rivers and in the territory, long ago bought and occupied by us, and cannot therefore without utterly wrecking our honor and reputation, lives and fortunes, body and soul, concede to you or anybody else any title or claim thereon, much less passage thereupon.

We confess willingly, that by the commission from their High: Might: the Lords States General of the *United Netherland* and the Very Worshipful Lords Directors of the Priv. *West India* Company we have sufficient and ample authority and power, with all possible means given us by God and them, to maintain, protect and guard their right and jurisdiction upon the *South* and *North* rivers, by purchase and conveyance from the natives, the indisputable, real and effectual property of our nation before having been visited or occupied by any other nation. We cannot give away this their indisputable right, authority and jurisdiction without their special order and a change in the commission formerly given us.

Your Honors seem to close this matter with threats, which are so much more suspicious, as you cut them short by an emphatic *Etc.* We can therefore at present only reply, that we have nothing to fear, except what the merciful, but not less righteous Lord God shall be pleased to decree, who alone is able, to maintain our just possession either by small or great power and means, even by none at all.

The agreement made at *Hartford* is explicit and speaks for itself; but even as the Commissioners from *Massachusetts* then pretended to have no interest in the boundaries between us and the Colonies of *Connecticut* and *New Haven*, namely the twenty miles mentioned, so they also pretended then, to have no interest in, title or right to the lands, kills and streams in the *North* river territory beyond the twenty miles. If they had done it, this and other questionable claims would have then been decided or at least discussed.

Closing herewith, we commend your Honors with our cordial greetings to the protection of God and remain

Your Honors' affectionate friend and

P. STUYVESANT.

To their Very Worshipful Honors and our Beloved Neighbors,
The Honorable General Court of the *Massachusetts*, at *Boston*.

LETTER FROM STUYVESANT TO THE DIRECTORS IN HOLLAND: STATEN ISLAND; BLOCKHOUSE AT OYSTERBAY; AUCTIONEERS' FEES; DOMINE POLHEMUS; CURRENCY AND FOREIGN TRADE.

Honorable, Prudent and Very Worshipful Gentlemen.

Your Honors' favors of the 9th and 14th of November by the "*Lieffde*" were received in due time and on the 5th of April the "*Trouw*" brought us your letter of the 22^d of December,

which we shall first answer herewith, proceeding then to report the state of your Honors' affairs here. The first point is the agreement made by you with *Cornelis Melyn* concerning *Staten Island*; your recommendations and orders in this matter shall be obeyed pursuant to your letter. We hope, although we fear the contrary, that the aforesaid *Melyn* will fulfill his part of the contract; we have never had any proof, that *Melyn* had any rights on *Staten Island* as Patroon and we are therefore astonished, that you have treated him so liberally in this matter; we were still more astonished by his first speech to the Director-General, on presenting the contract, in which he said, that your Honors had taken upon themselves all the injuries, wrongs and damages inflicted upon him by Director *Stuyvesant* from time to time, because he had acted pursuant to your orders. He was told in the presence of Secretary *van Ruyven*, that his utterances could not be believed or accepted as correct, because, as far as we know, no injury or wrong had been done to him, except what he had brought upon himself by his own misbehavior; much less had the Lords-Directors ever given any order to injure, wrong or cause loss to him or anybody else. Your further orders in this affair, in case the heirs of Baron *van der Capelle* should assume the title of Patroons, either on the strength of a new purchase of the said island from the natives or because of a special agreement made with *Melyn*, shall be executed in due time, and we shall prevent it by discreet and proper measures as something not to be tolerated by the Company; although we think that it might have been opposed and prevented in the Fatherland with more and stronger reasons, before so favorable conditions and a sum of money, far beyond his does, had been given to the first pretended Patroon and grantor of this title. However, your good intentions and wishes are to us a law and a rule to be observed. Time will show, whether the heirs of the said Baron *van der Capelle* will be satisfied with a certain portion of the land under private deeds, or whether *Cornelis Melyn* shall acquiesce in what you conceded to him. The still glowing embers of his former heated outbreak prognosticate a new eruption of the flames between the two. *Adrian Post*, late agent of the Baron, told us a short time ago, that *Melyn* claims as his property all the land cleared and cultivated by the farmers of the Baron. For the welfare of the Company and the advancement of agriculture we shall put a stop to this and inform you of the result in due time.

Your orders and the contract with the skipper of the "*Lieffde*," to come here by way of *Curaçao*, have been received and we allowed him to enjoy their effect, keeping as close a watch upon the discharging of his cargo, as possible; we presume, that he, as well as the skipper of the "*Spheramundi*," previously arrived here from *Curaçao* and sailed there again on the 26th of December, are well pleased with these through voyages and that they and others will continue making them, which would revive the commerce and intercourse between the two colonies. In our last letter by the "*Spheramundi*" we submitted several projects concerning this matter to your judgment, which, as the duplicates are here enclosed, we do not repeat for the sake of brevity, but we await your decision and answer, favorable to the interests of both places.

The carpenter, sent by you in the "*Lieffde*," has been detained on the Island of *Curaçao* by Vice-Director *Beck*; it inconveniences us very much, the more so, as we may not expect another one in less than a year under the most favorable circumstances.

* * * * *

Thus far in answer to your Honors' two letters, received by the now departing "*Lieffde*." The first point in your letter by the "*Trouw*," calling for a reply, is your order concerning *seamen's provisions*, which we shall henceforth carry out as punctually as possible pursuant to your

* See Vol. XII, p. 801, and Vol. XIII, p. 162, for the omitted paragraphs.

intentions and directions. But we must say, which we hope will satisfy your Honors, that it has never been our intention, to exempt and permit the exportation of 49 beavers and 32 deerskins without duty to the butler and cook of the "*Trouw*" or to others specified by you. As to the lot of the butler and cook, it has been proved to us, that most of it was owned by the crew.

The beavers of *Peter Tonneman*, 106 pieces belonging to *Balthazar* and *Nicolas Bayard*, both clerks in the Secretary's office and to *Nicolas Varlet*, Commissary of the Warehouse, had been given them on account of their earned salary and the payment of duties had therefore been referred to your Honors' discretion and approval. As to the beavers of Councillor *de Decker* and *D'Blom*, the one *ex merito*, the other *ex gratia* hoping to receive some favor from you, requested to be exempted here from the payment of duties, which out of consideration we granted, but only subject to your approval. We shall henceforth strictly obey your orders in this respect.

The ship "*St. Jan*," sent by you to take the place of a regular packet between the two colonies, has been wrecked on the Island of *Rocas**, much to our regret and inconvenience. We hope and do not doubt, that in consideration of your own and of our urgent projects, sent you by way of *New England* and in the fly-boat, "*Spheramundi*," you will dispatch another suitable frigate to this coast before winter.

We have delayed and are still delaying our project, approved by you in an absolute order, of erecting a redoubt or block-house near *Oysterbay*, because we lack the necessary means, especially carpenters, creating unexpected and constant interruptions, often mentioned in our former letters. These delays are not made to deride your absolute orders nor caused unnecessarily, but whether the construction of the blockhouse will satisfy you and fulfill our hope and intention of stopping and preventing the invasions, intrusions and usurpations of the English, not to mention the smuggling traffic, we neither can nor dare to assure. We can only say, that the English under your jurisdiction here and in this government sell their cattle, corn, bacon, meat and other commodities for beavers here and then take the latter overland to their villages and homes; they never bring them back; it is therefore evident, that they send them that way to *New England* or exchange them for English goods, imported there without inspection or care; nor can they be arrested by the Fiscal or anybody, but in that case it could not be done so well and openly.

Experience has taught and teaches us daily in regard to the invasions and usurpations of the English, that the forts and blockhouses, formerly erected on the *South* and *Fresh* rivers, did not prevent the usurpations by this nation of the territories claimed by your Honors. It is certainly beyond question, that if *Fort Casimir*, now called *New Amstel*, had not been erected, that region and with it the whole of the *South* river would have been stolen by them from the Company not long ago or last summer; the same may be said of *Fort Orange* or of this place: what nevertheless is done and may follow is uncertain and must be left to the future. God grant, that such measures may be adopted as will preserve not only the *South* river, but also this *North* river against the invasions and usurpations of the English. Your remarks on this subject: "Provided, that thereby not only the smuggling, but principally the invasions and usurpations of the English be prevented and stopped, upon whose present quietness no reliance can be placed; else we think, these expenses might be spared to the Company," hold us in perplexity and doubt as to what to do or omit; a well-manned yacht stationed there, which might also be employed elsewhere, could as well if not better, than a redoubt or blockhouse, stop most of the smuggling trade; but neither could hinder an invasion made by a large force, while a fast sailing and armed yacht would do better service, than a stationary fortification.

* In the Atlantic Ocean, 125 m. N. E. from Cape St. Roque.

As previously stated and proved by the ledgers, the whole revenue of the Weighhouse is still paid into the Company's treasury. Meanwhile we shall urge the Magistrates, to send you every year a statement of their revenues and expenses and of what they need, in which direction they have done nothing or only little, unless called upon by us.

We trust, that the Company's revenues are administered so carefully and economically, as necessity and circumstances allow. The lack of funds compels us to be economical, while on account of the dangerous and troublesome times we have to maintain more than 200 soldiers, the officers and trainmen not counted; it forces us to think of increasing the revenues and we would do it, if on the other side the poverty of the inhabitants of this principal place, increasing through the lack of foreign and inland trade with neighbors, and of the country people, caused by the fear of being murdered by the barbarians, did not make us circumspect and we hesitate to impose taxes on the community now.

To our regret we must confess, that we might have waited for a better time and condition of affairs, before building the house in *Fort Orange*; especially as your and our estimate of the expenses have been exceeded considerably and it might have been done at less cost. But we did not then foresee the difficulties, caused now by the savages and by our neighbors and approved too willingly the plan of Commissary *La Montagne*, who estimated the cost at from 1200 to 1400*fl.* What is done, cannot be undone.

As to the enlistment of two or three soldiers by Commissary *Beeckman* without previously informing us, it was done because of the decease of several others, whose places he desired to fill. It has not been done again, since we wrote to him about it.

The VendueMASTER has, as you say, received heretofore 5 p. ct. for the sale of real estate, but of no other except from a few personal goods, publicly sold to the highest bidder, where the sellers did not agree with him about the lowest price: in such cases he has to be surety for irresponsible purchasers, as we stated in our letter of July 23^d. You have been pleased, to direct, that the 40th penny shall be collected not only from property, sold at public auction, but also from the sale of all real estate. As this order touches also the country people, whenever they sell their land, we had deemed it advisable to await the arrival of the expected candidates or young preachers, whom we intend to instal at first in the distant villages, before we demand the 40th penny, so that then we might so many more reasons for it, as we said in our beforequoted letter. Pursuant to your orders we shall now do it in the next month of May and at the same carry out your directions regarding the appointment of a Schout for the Colony of *Rensselaerswyck* and the dismissal of Commissary *van Brugge*.

We wish, that what you say so clearly regarding the reduction of wampum to the value of silver or at least of beavers and your arguments for it, could be put into practice without any trouble and without diverting our trade into other channels. We believe, it cannot be done without considerable risk, for wampum is the source and the mother of the beaver trade, and for goods only, without wampum, we cannot obtain beavers from the savages. If we receive no wampum from outside—we have none in our country*—, this would certainly cause a diversion of the beaver trade.

To your further statement, that the special reduction of the wampum must be followed by another and general one, if we desire to prevent its total depreciation in consequence of superabundant importation, we must say, under correction, that we do not quite understand, what you mean by the special reduction of the wampum. The reduction affects man and man, seller

* Wampum was principally made at the east end of *Long Island*. B. F.

and buyer, generally, who pursuant to the placat count 8 pieces for a stiver, instead of 6, unless they agreed upon another rate by written or verbal contract. If, as we understand it, you mean by special reduction, that wampum is received at our offices at the rate of ten for a stiver, we have to say, that it is done only in consequence of a previous contract or stipulation in letting, selling or farming out some of the Company's demesne and that except to officers of the Company it is not issued to individuals for either days' wages or commodities at any other rate, than the one established by the general reduction, to wit, 8 for a stiver, unless called for by previous stipulation, when the one is calculated with the other, as the receipts and disbursements in the ledgers show. If, as we presume and conclude from what follows, you intend to have the wampum once more reduced by a general reduction from 8 to 10, then we think that under present circumstances it would be premature, because the reduction from 6 to 8, made last year, has been such an obstacle to its overabundant importation, that wampum is somewhat scarce now. Should the importation of it increase with the beaver-trade during the summer, then we shall consider your order for the best of the Company as well as we can, and carry it out, giving you information by every chance. Before we leave this matter, we have to say, under correction, that it matters little, whether 8 or 10 pieces are counted for a stiver, because the dealer marks, holds or sells, his goods, according to the abundance of wampum and the price, he has to give for beavers. It would be desirable therefore, as we have repeatedly stated to you, that wampum and beavers, as well as tobacco, should be declared an absolute commodity or merchandise and that the importation of no other small currency, than silver, should be allowed here, which we believe can be done when beavers, tobacco and other things are brought and kept here under the Dutch market.

We have very seldom seen European wares and merchandises imported here by way of *Virginia*; the contrary is much more likely, because that province exports from here every year great quantities of goods, brandy and distilled water, exchanging them for tobacco, which is the principal trade here and without which only small return cargoes would be taken out from here. But we are well aware, that some English dress-goods and stockings are imported here now and then over *New England* by some merchants, among whom *Thomas Willett* is the most influential, and towards him and others we shall act, as you recommend. Of much greater importance is the exportation of beavers via *New England*, which they barter here and in the distant English villages and then clandestinely manage to carry out of the country by night and at other untimely seasons across *Long Island* and along the *East river* in small boats and canoes. We must presume, that on one third, if not one half, of these beavers no duty has been paid; but it is not easily prevented, as long as access and egress by water and by land is possible here in day or night-time. We shall consider all possible preventative measures and judge, that for the beginning the best and most convenient would be, as we said above, to station a fast sailing and well-manned yacht in the *East river* during the most active trading season, which must unexpectedly board and closely inspect all departing and arriving vessels.

* * * * *

We hope and do not doubt, that, when you send over some farmers and later some lads of 15 or 16 years, at a monthly pay of 4 or 5 fl, you will inquire as much as possible for industrious persons, used to work, and not take up and engage whomever chance may throw in your way, so that the money, you advance, be not spent without advantage: this has been the case with the people sent to the Colony of *New Amstel* and with most of the children from the Orphan Asylum, accustomed and more inclined to carry a beggar's gripsack than to labor. We shall not fail, to do our duty in this matter.

* * * * *

We are sorry, that your Honors are so displeased, as your expressions make us presume, with the preachers here, whose zeal in teaching, admonishing and punishing, whose peaceable, and edifying life and conduct, agreeable not only to ourselves, but also to the whole community, compels them and us to pray, that God may give them long life for the best of his infant church here and to assure your Honors, that neither of them can be suspected of any leaven of innovation or turbulence. In consideration hereof, we have so far withheld your expressions and shall continue, to do so, in order not to discourage them in their good and faithful service. We shall however not fail, to communicate to them your wishes, while it would help much in observing and carrying out your orders, if some psalmbooks or special liturgies of the Reformed church or formularies of baptism could be found somewhere and be sent over, in which the words "*here present*" are not used.

* * * * *

The last point in your Honors' letter, requiring a reply, is your repeated instruction concerning the heirs of *Cornelis van Werckhoven*. As yet we can only state, what we have already said and written, that as soon as somebody appears, who shall sue *Jacques Corteljou* in their behalf, we shall administer the law equitably and fairly, after having heard the parties.

Messrs. *Hick* and *Jackson* complained, that the savages would not remove from the land, which they had bought, and that the savage dogs did much damage to the animals of the *English*.

The savages answered, that they had not sold the land, but only the grass upon it.

Having heard both sides, it was decided, that the savages should be allowed to harvest their corn this year, on condition of enclosing their fields and killing their great dogs. Meanwhile we should see, how they would behave henceforth. Date as above.

ORDINANCE PROVIDING FOR THE SAFE TRANSMISSION OF LETTERS TO HOLLAND, PASSED JUNE 2^d, 1660.

(See Laws and Ordinances of *N. N.*, p. 379.)

LETTER FROM DIRECTOR STUYVESANT TO THE DIRECTORS IN HOLLAND : POSTAL ARRANGEMENTS ;
 ENGLISH ENCROACHMENTS ; SHERIFF OF BROOKLYN ; CURRENCY.*

* * * * *

Your directions in regard to the forwarding of letters have been published and posted here and we have placed for this purpose a box or chest in the Secretary's office ; the letters deposited in it will be sent to you together with ours, as you desired.

* * * * *

The requests made and the invasions threatened by the *English* of the South as well as of the North are of much greater importance. We had expected and desired, that upon our ample and repeated reports you would have given us broader advice and assisted us by counsel and deed on so pregnant an occasion. You have declared formerly and also declare now your title to both rivers indisputable by virtue of purchase and possession and we share your opinion, but if more powerful and stronger neighbors maintain the same and besides exhibit a royal patent, expressly describing the limits, while we cannot do it in your name, will they be satisfied by our bare assertion ? We must leave the final issue to time. You have on previous occasions and again now recommended and directed us, to inform and warn our neighbors, that they must desist from such usurpations, and in case they do not heed us, to attack, stop and dislodge them. Probably they would only laugh at the first, anyway they would pay but little attention to our warnings ; for the second we request once more your assistance by counsel, deed and means. In answer to our request for a well-equipped frigate to keep the rivers and streams free, you have been pleased to order here the slaver "*St. Jean*" ; it is unnecessary now to discuss the question, whether this vessel would have served our purposes, as it is reported, that it was lost on the Island of *Rocas*, to our regret and your Honors' loss. We can therefore make no use of it conform to your good intentions and our present need. We request you therefore once more most respectfully, to send us in its place another well-equipped vessel at the first chance. The English frigate, spoken of before, which remained at *New Netherland* and in that neighborhood during the winter and obstructed the navigation between the two places, has sailed for *Barbados* in the beginning or middle of April, so that it would be useless now to collect information against her captain, the more so, as the injured parties have sued him before the Governor and Magistrates of *Hartford* and *New Haven* and received sentence against him, also some indemnification.

The quantity of provisions, lumber and other commodities, sent to *Curaçao* at the request of Vice-Director *Beck* in the galiot and by other vessels, has been stated in our last letter by the "*Lieffle*" and may also be learned from the enclosure.

We shall not say anything concerning the trade between these two places and your recommendations in regard to it, because while on this point we are just now informed by a fisherman, that the galiot "*New Amstel*" and another fly-boat with horses and negroes from *Curaçao* are below, and we desire to wait for the news brought by them, which will be sent you with the next or if possible with this ship, the "*Trouw*." Meanwhile your directions concerning the sale of negroes shall be observed.

* * * * *

Thus far in answer to your favor of March 9th, received by the "*Moesman*." The following must briefly serve as answer to your last letter by the "*Boutekoe*," wherein we first come upon

* See for the omitted paragraphs Col. Doc., Vol. XII, p. 317, and XIII, p. 176.

** Concerning the capture of the Dutch colony at *Cape Verd* by the privateer, commanded by Captain *Beaultieu*.

your order concerning the preachers and the appointment of *Peter Tonneman* to the Schouts office of this city. Your orders and recommendations shall be obeyed, as it is proper, but in regard to *Resolved Waldron* we must submit, that he had been appointed substitute to the Fiscal and Naval Officer (*Schout by Nacht*) for this place, the duties of which offices he has performed with vigilance and faithfulness to our and the Magistrates' satisfaction; that his services cannot well be spared by either the Company or the Fiscal and that further he is not as fit to serve as Schout for the villages, mentioned by you, because he cannot quite easily use the pen. We shall therefore continue him in his present position until your further orders and request, that he be confirmed in it, allowing at the same time, that for the advantage of the Company and of the three villages the Schout's duties be performed by *Peter Hegeman*, who has already attended to them provisionally in *Tonneman's* absence and still acts as Schout there to our satisfaction. His behavior and fitness are such, that we have no reason to reject him or pass him over: we await your Honors' decision.

* * * * *

You say in your letter by the "*Trouw*," that you will send us with the books and other stationery some clothing for the soldiers, as per invoice. As however neither the "*Trouw*" nor the following ships have brought us the invoice, much less the clothing, and it is not mentioned in the following letters, we are very much disappointed and troubled, because the poor soldiers, stationed at the *Esopus*, here and at the *South river*, make many marches now and are completely without socks, shoes, shirts and other necessary pieces of clothing. Relying upon your promises we have waited from ship to ship, but if the required articles do not arrive in the "*Otter*," we cannot delay any longer and shall be compelled, to purchase them from dealers here at extravagantly high prices, at least one and one half per cent higher, than they would cost, if sent from the Fatherland. To charge the difference against the pay of the soldiers would be doing them a great wrong, as their monthly pay would not buy the necessary socks, shoes and shirts. If we were to reduce the price of these articles to *Holland* valuation and add 50 p. et. to it, conform to orders and old customs of the Company, our treasury, consequently also the Company, would lose 70 to 80, if not 90 p. et. and besides great disorder, at least great trouble, would arise in the book-keeping.

The precautionary order, which you add while writing about this matter, to wit, that these articles should be issued only to poor and needy soldiers and not to other servants of the Company, who, as your Honors were informed, take advantage of it, compels us to say, that we wish, you had been more explicit, so that the abuse might be corrected. We cannot help believing, that you have been misinformed in this matter by some disaffected persons.

The second point in your letter per "*Trouw*," which is not yet answered, is your order concerning the reduction of beavers from 8 to 7 guilders, in order to do justice and give satisfaction to your Honors' servants. This measure can and must be received and carried out with grateful heart and faithful service and although it is not the equivalent of what is due to them, their pay being stipulated in *Holland* money, your order concerning this matter will be obeyed and observed, as far as it regards your employes, when the new books are opened. We desire heartily, that we were able or might be placed in such a position, as to obey also your next order, to wit, to pay all debts and salaries of officers here, excepting the two months' advance pay. Under the present condition of affairs in this province, caused by the low market prices, war with the Indians, fear of invasions by our neighbors, complaints of the military and other burdens, which we have to bear, it is impossible to do it here, as time and the ledgers will prove. When you have been

convinced by them of our inability, we hope and trust, that according to circumstances you will not persist in the carrying out of your resolution and order, for it would endanger the existence of this colony.

The flyboat, mentioned above as having arrived with the galiot from *Curaçao*, is the "*Eyckenboom*," which sailed in the service and pay of the Company to *Guinea* 16 or 17 months ago and came from there with negroes to *Curaçao*. As there was no return freight for her at the latter place, Vice-Director *Beck* has sent her to this port with 50 horses from *Aruba*, the galiot bringing 29 more, to obtain a cargo. She comes at a very unseasonable time, as there are many other vessels here and we fear a bad trade. Of the shipment of horses only 27 were alive on landing, the rest died on the way for want of good fodder; the remainder is so thin and weak, that most of them can neither walk nor stand; they had to be carried in carts and on sledges from the seow and the shore to the pasture. It is doubtful, whether only one half of these twenty seven will live and they will hardly bring as much as the ship, having used up all her stores during the long voyage, will require to provision her again, so that the principal invested in this venture and the freight from *Curaçao* to this place are a dead loss.

In the same ship 19 negroes arrived here, the twentieth having died at sea; the others are in fairly good condition. Trade in *Curaçao* was very slack at the departure of these vessels and the larger share of all goods were still on hand. Further advices by our next. Wherewith etc.

COUNCIL MINUTE: MAGISTRATES FOR MIDDELBORGH, (NEWTOWN, L. I.) APPOINTED; LAND MATTERS IN AMESFOORT; CHURCH MATTERS IN BROOKLYN.

July 5th, 1660.

Received and read the nominations, made and submitted by the inhabitants of the village of *Middelborgh*. The Director-General and Council of *New Netherland* decide, that the present Magistrates of the said village shall continue in office for another year and therefore charge all and everybody, whom this concerns, to acknowledge and respect the authority of the Magistrates hereby continued and again confirmed in their office. Date as above.

Elbert Elbertsen and *Peter Cornelissen*, Magistrates of the village of *Amesfoort* on *Long Island*, appeared in the Council Chamber and stated that a few days ago *Jacob Steendam* had sold to *Albert Albertsen* a parcel of land near the said village; they requested, that this parcel be acquired by the Company for them, because on account of the meadows belonging to it, it would be of great advantage to the inhabitants of said village. They offered and promised, that, if it were acquired for their village, they would collect and pay over, when due, the sum agreed upon as purchase-money between *Albert Albertsen* and *Jacob Steendam*.

The proposition having been heard and considered, *Jacob Steendam* was informed by the following resolution, that on behalf of the Lords-Patrons possession had been taken of the aforesaid parcel of land. Date as above.

Upon a report, made to the Council by the Magistrates of the village of *Amesfoort* on *Long Island*, the Director-General and Council resolve, that on behalf of the Lords-Directors of the W. I.

Company, Patroons of this Province, they will resume possession of the parcel of land, sold by *Jacob Steendam*, a resident of this City, to *Albert Albertsen*, and take it on the same conditions, under which it was sold to *Albert Albertsen* pursuant to the deed of sale, made before the Notary *Van Vleeck* and certain witnesses on the 17th of June last past and entered here below ;

Because the said parcel of land is considered necessary for the better accommodation of the inhabitants of said village of *Amesfoort*. *Jacob Steendam*, being present, was informed hereof and that, when due, the buckwheat agreed for, would be promptly paid to him on behalf of the Director-General and Council. Date as above.

To-day, the 17th of June 1660, before me, *Tielman van Vleeck*, a Notary Public, appointed by the Very Worshipful, Honorable Director-General and Council and residing at *New Amsterdam* in *New Netherland*, and before the witnesses named below, appeared the Worshipful *Jacob Steendam*, who acknowledged to have sold and hereby to sell to *Albert Albertsen*, also present and acknowledging to have bought, as he hereby buys, a parcel of land, as large or as small as the patent bounds it, east of the village of *Amesfoort*; the same which the vendor together with *Auke Jansen* obtained as a freehold from the Director-General on the 12th of November 1652 and upon which he lived for some time, subject to the Lord's right, for the sum of 190 schepels of good, marketable buckwheat, to be paid in two installments, to wit: ninety-five schepels on the 15th of October next and the balance of ninety-five schepels a year later, on the 15th of October 1661. The aforesaid land shall remain pledged to the vendor for the payment without expense and loss of the purchase money, until the same has actually been placed into his hands: it is also expressly hereby stipulated by the seller, that *Albert Albertsen* shall have the free use of this land during the years 1660 and 1661, when he may take possession of his parcel of land, while the seller binds himself to deliver, upon payment of the last instalment, at his own expense a deed and conveyance in due form. The parties on both sides promise to uphold and fulfill this agreement honestly and inviolably, under legal engagements, and consent, that a copy hereof be made and delivered in the usual form.

Done at *Amsterdam* in *New Netherland* in presence of the worthy *Solomon Lachavie* and *Henrick Tibbel*, called in as witnesses, who signed the original record hereof in my, the Notary's charge with the parties in interest.

This copy agrees with the original record.

Quod attestator: *TIELMAN VAN VLEECK*, Not. Public.

The 12th of August 1660.

Honorable, Very Worshipful, Wise and Very Prudent
Gentlemen, Honorable Director-General and Council.

Gentlemen

Your obedient servant *Jacob Steendam* requests with all due respect, that he may have a written order, properly signed, upon some honest man for the 190 schepels of buckwheat for the land, of which the West India Company has taken possession for the village of *Amesfoort* on the 5th of July last, that, when due, the grain may be received upon the strand pursuant to agreement by the party, who had bought the buckwheat already, before the Company resumed possession of

the land: because your petitioner is now about to leave and desires to fulfill his promise to the purchaser, so that he too may receive by his attorney the stipulated payment for the grain. Which doing etc

Your Honors obedient subject and servant

JACOB STEENDAM.

It was answered:

The petitioner shall receive a proper assignment by the Director-General and Council upon *Elbert Elbertsen* and *Peter Cornelissen* from the Receiver-General. Date as above.

Monday, August 30th, 1660.

Present his Honor, the Director-General *Petrus Stuyvesant*, and the Councillors *Nicasius de Sille* and *Johan de Deckere*.

Before the Council appeared *Joris Dirck* and *Joris Rapailje*, Magistrates of the village of *Breuckelen* on *Long Island* and stated, that pursuant to an order from the Hon^{ble} Director-General they had convened all the inhabitants of the village of *Breuckelen*, had talked to them and investigated, how much they could together contribute to the salary of *D^e Selyns*; that after much trouble they could discover and bring together not more, than 300 guilders yearly, to be paid in grain at beaver valuation, and besides they would provide a suitable lodging for said *D^e Selyns*. They were told, that the said *D^e Selyns* had been promised a salary of about 1200^{fl} yearly and had come here on that promise, therefore this sum must be collected and the Company would for the present contribute towards it the tenths from the said village, but they must endeavor to collect the balance. They declared, that it was impossible for the inhabitants of the village, because the burden would fall upon a few, the rest being people, who had nothing but their daily wages. They were reminded, that they should have considered that, before they asked for and gave a call to a clergyman. Replying, that they hoped, the village would increase daily and they would therefore be able to contribute more in the future, they requested, that the said *D^e Selyns* should come there by the first opportunity. Date as above.

His Honor, the Director-General *Petrus Stuyvesant*, having been informed of the inability of the inhabitants of *Breuckelen*, offers, provisionally and until their situation has improved, to pay to the Company two hundred and fifty guilders yearly towards the salary of the said *D^e Selyns* on condition that the Domine shall preach at his Honor's bowery on *Manhattan Island* on Sunday evenings. The Council after considering the offer accepted it and with his Honor resolved, to inform *D^e Selyns* of it. Date as above.

PATENT FOR LAND IN FLATLANDS, L. I.

Petrus Stuyvesant &c and the Council testify and declare, that to-day, date underwritten, we have given and granted to *Jan Martensen* a parcel of land situate near the village of *Amesfoort* on the northwest side of *Peter Claesen* and the southwest side a small meadow, southeast a kill, containing 12 morgens 182 rods; also a parcel of flat land, bounded on the southeast side by *Peter Wolphersten van Couwenhoven*, on the northwest by *Govert Lookermans*, in width 38 rods and in length 162 rods, containing 10 morgens, with the express condition &c.

COUNCIL MINUTE. CONFERENCE WITH LONG ISLAND INDIANS.

September 2^d, 1660.

Tapousagh, chief of the savages on *Long Island*, came into the Council Chamber.

1.

He said, that *Ninneeracht*, the chief of the *Narricenses*, wages war against the savages on the East end of *Long Island* and kills many of them. As his [*Tapousagh's*] tribe is only small and he does not know, whether he too will not receive a visit from the enemy, he has come to renew the peace, formerly made with us. He gives a small box with wampum.

Note: The wampum was measured and amounted to fl 15.18.—

2.

He says, that he has always endeavored to keep the peace with us, which is true, and that he will continue in peace with the villages under his authority; that they shall do no harm and if he hears of any, he will inform us of it; in case some strange savages should pester him, he requires our assistance, for he has no other friends, than us.

3.

He says, that his people are badly provided with powder and lead and requests therefore some help, if his enemies came to attack him.

The answer to the foregoing proposition was as follows:

On the first two points we caused him to be told, that we would continue our friendly relations with him without interruption, and as proof thereof and to assure him still more of it, we have included him and the villages under him in the peace made with the *Esopus* savages and renewed with the *North river* Indians and stipulated, that they should do no harm to him or to and of his people, so that he has nothing to fear from that side. As to the *Narricenses*, who live at some distance and have never injured us, we trust, that they will neither injure our friends: but if they are afraid of the *Narricenses* and desire to come and hide among us, we will protect them to the best of our ability.

As to the last proposition, that they were badly off for powder and lead, to protect themselves against the aforesaid savages, they were told, that, when they had further and more positive information concerning them, we would provide them with it, on condition that they paid for it in deerskins, corn or otherwise.

LETTER FROM THE DIRECTORS IN HOLLAND TO STUYVESANT: BLOCKHOUSE AT OYSTERBAY; CURRENCY;
NEGRO SLAVES.

The 20th of September 1660. Honorable, Prudent, Pious, Dear, Faithful.

Since the departure of the "*Gulden Otter*," by which we sent a quantity of ammunition and clothing, (we hope you received all in good order,) the ships "*Lieffde*" and "*Trouw*" have

arrived here, by which we received your letters of the 21st of April and 25th of June. As the "*Liefde*" sails now again for *New Netherland*, we cannot let the opportunity escape, to answer a few points in your letters.

We notice first, that you urge us again, to advise you about the erection of the blockhouse at *Oysterbay*, notwithstanding we informed you in our last letter, how much we disliked to repeat the same thing over and over again. You say, you want further advice, because our orders in regard to the construction of the building are ambiguous and may be interpreted in two ways. If it is so, then your changing information on this subject has been the cause of it, for on such occasions we must see, so to speak, through your eyes and act upon your reports. Although you appear to think now, that not only the smuggling trade, but also the usurpations of the English can be better stopped and prevented by a well-equipped yacht, than by the erection of a blockhouse, you will have, and we order you, to proceed with its erection, for the Company is not in the position at present, to dispatch such a vessel to *New Netherland*. It is not necessary, to wait for the arrival of carpenters, for all the buildings there, among others the erection of the house at *Fort Orange* at the Company's expense, which you say will cost a good deal, have not been constructed and erected without such tradesmen; you may therefore employ the same, for we think it is more advantageous to pay these men good wages for a short time, than to keep them constantly in your service and pay.

We will not discuss the arguments and difficulties, raised by you on account of our order for reducing the wampum, as far as the time to carry it out is concerned, for we perceive by your prolix explanations, that you understand, what we mean and therefore we need not repeat it. But about the manner itself we say again and maintain, that it is based upon good reasons, into the explanation of which we have no wish to enter now; we only recommend to you most seriously and order, that this reduction be put into practice as soon as time and circumstances are favorable, without fail.

Although we give no credit to the common report and belief, that the English neighbors were still bent upon making a settlement on the *North river*, which caused your fear of an invasion by them, yet we approve most heartily your spirited resolution, agreeing with our special order, to oppose them by all means and measures. For your assistance in such a case, we have sent you such a number of soldiers and quantities of ammunition and clothing by the last ships, principally by the "*Gulden Otter*," as the Company's treasury would permit. Our reason for having a better opinion of our English neighbors is the change in the government, which has taken place by the restoration of *King Charles II.*; better things may be expected from his honesty and righteousness, than from the former unlawful government; it is not likely, that the English there will at present find any support for their unjust usurpation, especially as the King shows himself very friendly to our government. Their High: Might: have already selected ambassadors, whom they will soon send to his Majesty to make a treaty of close alliance; we shall not lose the opportunity of pressing the interests of the Company and the province of *New Netherland*, so that the said ambassadors will be directed and commissioned, not only to complain of former invasions, made into our territory and jurisdiction, and to ask redress, but also to prevent them in the future and to take every possible measure for obtaining a favorable settlement of the boundary between us and that nation there on the North and on the South. We have our documents and papers for this purpose all ready, so that you shall hear the result of it in due time.

* See Col. Doc. Vol. XIII, p. 187, and Vol. XII, p. 326.

The enclosure of your letters have informed us of the occasion, the reasons and causes, which led you to send Commissary *Nicholas Varleth* and Captain Lieutenant *Brian Newton* to the Governor of *Virginia*. We find them quite in order and approve your action, as being an endeavor on your part for promoting the welfare of the country; as the concession of an unmolested trade with that nation can only benefit our places and their inhabitants, we shall be pleased to learn from you, what has been done and agreed with the *Virginians* about this matter, that we may make proper use of it.

* * * * *

We were sorry to hear of the death of so many horses, sent from *Curaçao* in the "*Eyckenboom*," but as it has happened and there is no help for it, we must bear it in patience. We hope the remainder have regarded their former strength and sold at good prices, also that the ship may find a good cargo for this market, so that it may help to pay the hard earned wages of the crew. As to the slaves, arrived there in the same ship, they must be sold at public auction there, as we directed in our letter of the 9th of March, under the express condition, secured by a sufficient bailbond, that they shall not be exported from there, but be used for the cultivation of the soil, the country and in consequence also the Company may then perhaps reap the imagined and hoped for fruits.

* * * * *

The desired paints, oil and a new *halsstert* (?) for the mill there are sent herewith, as per enclosed invoice. As to the upper millstone, asked for by you of 4 feet and 3 or 4 inches diameter, we do not know what you mean, nor do several millers, of whom we inquired, understand it. You must therefore express yourselves a little clearer.

COUNCIL MINUTE. THE CHURCH AT MIDWOUT, L. I.

September 30th, 1660.

Before the Council appeared D^r *Johannes Theodorus Polheym*, preacher at *Midwout*, on *Long Island*, and *Jan Strycker*, elder and churchwarden of the same place, who informed the Council, that the church at *Midwout* was almost completed, except the windows, and requested that the Director-General and Council would present the said church with one or two windows. After considering the request, a window for the church was promised on behalf of the Company. Date as above.

To the Noble, Very Honorable, Very Pious Director-General
 and Council of *New Netherland*.

Show with due respect we, the undersigned, that for the building of our church at *Midwout*

we have collected in the communities of *Fort Orange, New Amsterdam* and here on *Long Island* the sum of fl 3437.12.—of which amount we have expended fl 3433.9.—but we still owe

To <i>Jacob Lourens</i> , carpenter.....	fl 230
" <i>Isaac Foreest</i> for nails and hinges.....	" 117
" <i>Tyde Syricks</i> , mason.	" 215
" <i>Sander</i> , the skipper, for freight of boards.....	" 81
" <i>Aucke Jansen</i> , carpenter, for outside work as appraised by arbitrators.....	" 100 fl 743
There is still due us from <i>Claes Notelaer</i> on a note.....	" 119
so that we are still indebted.....	fl 624

In the name of our whole community we therefore humbly request, that on behalf of the Noble Lords-Directors of the Priv. W. I. Company, our high masters and for the support and propagation of the holy gospel in this country the above stated sum may be supplied as a present. Which doing we shall always remain

Your Noble Honors' obedient and faithful servants

JOHANNES TH. POLHEMIUS.

JAN STRYCKER.

The foregoing petition was received and read and the annexed statement of the moneys collected in the community and of the expenses having been examined, it was found, that the receipts did not cover the expenses. Whereas on behalf of the Company as yet nothing has been contributed towards building said church, it is resolved, to disburse to the petitioners on behalf of the Company for the present for completing the work fl 400, common currency, and the following answer was given :

When the treasury is in funds, four hundred guilders shall be advanced to the petitioners on behalf of the Company for completing the work. Date as above.

LETTERS FROM STUYVESANT TO THE DIRECTORS IN HOLLAND: POLITICAL CONDITION OF THE NEW ENGLAND COLONIES; REVENUES; TRADE; CURRENCY; ENGLISH VILLAGES ON LONG ISLAND WITHOUT PREACHERS; PLAN AND SKETCH OF NEW AMSTERDAM; MANUFACTURE OF POT AND PEARL ASHES.

Honorable, Wise, Prudent and Very Worshipful Gentlemen.

Since our last general letter, of which the original was sent in the "*Trouw*" and the duplicate in the "*Moesman*," nothing worth reporting has occurred here after the peace with the

Esopus Indians had been made and the conditions of it submitted to you in our letter by the "*Cataryna*" and subsequently in a letter from the Director-General by the "*Bever*," to both of which we refer.

We hear little or nothing about the threatened invasion by our English neighbors and trust, that the change of government in *England* has turned their minds from it or at least postponed it for the present. Meanwhile we learn, that the restoration of the King has caused less commotion and change among the people of *New England*, than we and many others had expected; as a rule they are now as good Royalists, as they formerly were Cromwellians or Parliamentarians. We are told, that the three Colonies of *New Plymouth*, *Hartford* and *New Haven* have proclaimed the King and do all business in the King's name, which they never did in the old King's time: *Quantum mutatus ab illo Hectore*. The Colony of *Boston* alone, it is said, remains faithful to its old principle of a free state, depending only upon God. We must leave to God the future results of this new state of affairs, but we also hope and trust, that you will take advantage of it and of the probable new alliances between the King and our home government and see, that the boundaries be at last determined; after this question is once settled, the population will cultivate the soil with increased vigor and zeal and we shall not fail to contribute thereto what we can.

* * * * *

We have partly left unanswered by our last letter, what you were pleased to say and order concerning the payment of salaries here in beavers at 7 fl. Although the equivalent in the stipulated Dutch money is not obtained by this method of payment, because of the duties and other taxes, placed on beavers, yet your officers would be satisfied with it, if in due time they could pay them out at the same rate. Experience and the ledgers, now transmitted, show, how impossible it is; your servants have all learned to their own disadvantage, how it was before. The heavy burdens, which we had to bear on account of the threatened invasion by our English neighbors, the aggressive and defensive wars with the savages, the support of about 250 soldiers and everything else required from us,—further the bad condition of our market, make the profit from beavers so small, that after balancing our accounts and paying old debts no or only few beavers find their way into the treasury. Even if all had come there this year, they would not have been sufficient to pay the salaries. The following statement proves it: according to clearances and invoices about 25,000 to 30,000 beavers have been handled here this year, of which the duties, a beaver skin valued at 7 fl, amount to about 16,000 fl. The groundrents brought in about 5,000 fl. It is easy to calculate, how far these sums will go in paying the abovementioned soldiers alone. The other revenues from tobacco and the farming of the excise do not bring in as much, as the duty on beavers and for want of silver money or another and better circulating medium the latter is paid in wampum at 10 pieces for a stiver, according to the rules of the treasury. Before the wampum is reduced to the valuation of beaver, at 7 fl, it suffers a depreciation of 50 p. ct., because beaver, calculated at the usual rate of 8 fl, is bartered and valued at public sales at the rate of 15 to 16 fl in wampum, which amounts to almost 18 fl, if the beaver is rated at 7 fl; wampum, therefore loses 50 p. ct. in value. *This shows, how much your officers have so far lost by not receiving their salaries at the rate of Dutch money*, and to what further losses they will be subjected, if for want of beavers they are compelled to take wampum or to buy the needed commodities from merchants on credit. We must say to you on this subject: if you were inclined and in the position, to send us at once one good cargo, amounting to about 24,000 or 25,000 guilders, which would bring here

* See Vol. XII, p. 327.

about 40,000 guilders in beavers, or if such a cargo were distributed here at that rate in payment on account to the officers of the Company, it would wipe out so much of our debts and then the duties would be paid in beavers only, your officers could henceforth be paid in beavers, conform to your order, or else a fresh capital might be called for for the beavers every year. Without such a measure we see no chance, how to avoid making debts among the merchants and to pay beavers to the officers in accordance with your order.

If you are not inclined or in the position to make such an advance, then we hope, under correction, that with your consent some persons may be found, who would loan the required capital at a reasonable yearly interest of 5 to 6 per cent; but we leave this to your wiser judgment.

Our general and the private letters of the Director-General have already spoken of the loss, which not only the Receiver, but also individuals, officers as well as inhabitants, suffer by the receiving and paying out of wampum, because for want of some other kind of money or coin it is a legal tender between individuals. Whatever orders, rules and reductions may be made and carried out, they do not prevent its depreciation and further losses. The lower it is reduced, the more the trader gives for a beaver, going, as we said before, as far as 15 or 16 fl. To reduce the price of wampum to 12 or 16 for a stiver, as we reduced it from 8 to 10 in receiving it at our offices, will remedy the evil only for a brief period; the trader would give the length of one hundred hands, instead of fifty and he, who receives it at so much a guilder, would lose so much more time and have so much more trouble in counting it. To declare it absolutely bullion and not receivable at so much a guilder, would endanger the beavertrade and lead it into other channels; nor can it be done as long as we have no other currency here for the retail trade. On the other side we are taught by experience, that if we let it go, as at present, wampum will depreciate more and more every year, the inhabitants grow poorer and houses and lands go to ruin. We would therefore request you once more, to consider measures by which coin or some sort of currency may be brought into this country: we have repeatedly submitted to you our plans on this subject, namely, that beavers and other furs should be reduced in price and kept under the market price in the Fatherland; all merchants, Scotchmen and traders, be warned to pay their duties for tobacco and beavers at our office here and to make the calculations accordingly. We hope and believe, that such a method would bring specie into the country and request you to recommend to Vice-Director *Beck*, that he pay in coin for the provisions and other material required from here, for which he has to pay in money, when obtained from the Fatherland or elsewhere, and that as often as he receives from here goods for account of the Company they be accepted at *Holland* valuation and cash remitted for them. This would afford great facilities to the trade, but we submit our limited knowledge cheerfully to your superior wisdom.

* * * *

Copies of the representations and requests made by the English villages, which have been deprived of religious instruction for some time and now take advantage of the departure by the "*Bontekoe*" of a minister from *New England*, Mr. *William Leverets*, are sent herewith and will inform you of their wishes. We have no doubt you will reply as favorably as possible.

The two preachers, lately arrived, D^{ns} *Blom* and *Selyns*, had been placed conform to your directions and their call. In the meantime three or four other villages still need preachers and are deprived of religious services, namely *New Utrecht* and *Gravesend* on *Long Island*, *New Haerlem* on this Island and a newly planted village of about thirty families across the *North* river. Necessity therefore requires, that two pious and learned candidates be sent over besides the desired English preachers.

Honorable, Wise, Prudent and Very Worshipful Gentlemen.

After closing our letter the Burgomasters have shown us the plan of this city, which we did not think would be ready before the sailing of this ship. In case you should be inclined to have it engraved and publish it, we thought it advisable, to send you also a small sketch of the city, drawn in perspective by *Sieur Augustin Heermans* three or four years ago or perhaps you will hang it up in some place or the other there. For the present we have no other wish, than that the place may gradually increase.

October 6th 1660.

Sent by the hands of *Michael Muyen* via *New England*.

Honorable, Wise, Prudent and Very Worshipful Gentlemen.

Although since writing our last general and private letters by the ships which left here last summer, little or nothing worth reporting has occurred, I neither could nor dared to let escape this good opportunity of writing to you by *Mr. Michael Muyen*, who goes over *Boston* and thence over *Old England*, to give his master a better verbal report concerning the discovered test and the great hopes for making pot and pearl ashes. If it can be continued on a larger scale at a future time, we may hope, that it will help to make the country prosperous by increasing trade, population and navigation. We have no doubt therefore, that you will encourage him and others as much as you think that the advantage of the Company and the interests of the country require.

LETTER FROM THE DIRECTORS TO STUYVESANT: BOUNDARIES; MINISTERS FOR THE ENGLISH VILLAGES ON LONG ISLAND; ENGLISH SETTLERS IN NEW NETHERLAND; CHURCHBELL FOR BROOKLYN; STATEN ISLAND.

The 24th of December 1660.

Honorable, Prudent, Dear, Faithful.

Our answer to your letters of the 21st of April, 25th of June and 26th of July, received by the "*Lieffde*," "*Trouw*" and "*Sta Catarina*," is contained in the enclosed writing of the 10th of September, which we had dispatched in the private ship "*Lieffde*," but as she met with an accident near the *Texel* and was injured, which prevented her proceeding on her voyage, our said answer has been detained until to-day. Since that time the ships "*Bever*," "*Moesman*," "*Bontekoe*," "*Eyckenboom*" and "*Gulden Otter*" arrived here, by which we received your general letter of the 6th of October. We shall answer it now as briefly as possible.

That you hear no mention made of the threatened invasion by the *English* neighbors, is in accord with our opinion, expressed in our last letter, here enclosed. We are still more confirmed

in our opinion, since we learn, that the said *English* profess now to be good Royalists. The King will not, we believe, support them in their unjustified claims, much less encourage them to usurpation, as the preceding government has undoubtedly done.

As to your careful suggestion, that we would do well to take advantage of this change of affairs and endeavor to have the boundary question finally settled, the enclosed copy of our representation will tell you, what we have done and accomplished so far in this matter. Their High: Might: have given special instructions regarding it to their ambassadors and the latter have not only arrived in *England*, but also have had several audiences of his Majesty; we must now await the result in patience, but are not quite idle, for we have addressed and sent representations to the said ambassadors, asking that the matter might soon be discussed and settled. We are not satisfied with the provisional agreement concerning the boundary, made there, but desire redress for the usurpation of our lands and trespass upon our jurisdiction at the *Fresh river* and upon *Lony Island*; because the Company has been injured too much by that agreement and expects to be treated in their good cause with more fairness and justice by the present King and to obtain a more favorable settlement of the question. We should like, that upon this occasion the absolute liberty of trade between our people and the *English* there were discussed and if possible conceded, but as we see little hope or chance to obtain this here, while it is a matter of great importance to the province of *New Netherland* and its inhabitants, we must urge you most earnestly, to use all possible means and treat with your *English* neighbors there about it, so that the commerce between the two nations and places may become reciprocal and safe.

* * * * *

We are willing to believe, that the servants of the Company there are satisfied with receiving their salaries in beavers at 7fl, because they lose nothing by it, beavers selling here now at 9fl and more. But we are not pleased, that the payments cannot be made in this currency at present and you therefore desire to throw this burden again upon our shoulders, as we notice by several new attempts; it is against our orders and intentions, for if the payments cannot all be made in beavers, you must pay out wampum. Nobody need complain, when it is reduced for that purpose to *Holland* or beaver valuation. Although you seem to insinuate, that the general revenues do not amount to as much, as you require, on account of the present burdens, especially the large military force, we believe, that by applying economy in many cases, you might find yourselves able to make these payments: the books, which you sent us, will probably prove that, when we shall have found time to examine them. If contrary to our belief they show a different state of affairs, then the expenses there must be diminished and cut down; you might begin with the military establishment, for it is utterly unnecessary to keep 250 soldiers in the service now, that you need not fear any troubles from your *English* neighbors or from the savages, and it is too expensive and beyond the means of the Company to maintain the establishment for the purpose of defying both nations or obtaining their respect. You can enlist soldiers there at all times and keep them under arms for a short period, as the *French* and *English* have always done, who in planting their colonies on your continent, in the *Caribbean* and other islands never employed or kept soldiers for their preservation or protection. This has made them so much more cautious and caused less expense while it increased their profits, so that they have flourished and increased so much sooner. We direct and charge you therefore to get rid of as many soldiers as possible, not only by discharging those who have or soon will have served their term, but also by encouraging the others to apply for their discharge and then to remain in the country. You may offer the latter some inducements,

* See Col. Docs. Vol. XII, p. 332.

perhaps by allotting and granting them a larger parcel of good land, or whatever else you believe to be the best: the revenues will then not only be sufficient, but even exceed the expenses and we may at last hope to see and enjoy here the long expected profits. You propose, that 24000 to 25000^{fl} should be sent over in goods, but the Company has not the funds to do it now; besides, we think it would be more disadvantageous, than profitable and we have the same opinion of the goods and commodities sent for distribution among the soldiers. Anyway, the Company is not compelled to make such remittances, especially when we pay the soldiers, what we have promised them; this has hitherto been done, as the payments were made at *Holland* valuation either in beavers or in wampum. It is quite sure that the indolent profit but little by these distributions, as they sell them often at an advance and spend the proceeds in riotous living, while the frugal and careful men see to it and give orders, on receiving their pay there, to have the required things brought from here by some opportunity or by some skipper, to whom they entrust the commission. We send therefore very little this time, for the more you indulge the soldiers the more indolent they grow, as several instances in the Company's foreign service prove, which we need not repeat here, as you have been yourself a witness of what occurred in the City's Colony.*

We have written several times about the depreciation of wampum, but we cannot discover any other means to prevent it, than to reduce it again, which must be done, whenever you think, that the time and circumstances are convenient, as we told you in our last letter. Your statement, that the continued reductions impoverish the inhabitants and ruin houses and lands and that therefore we cannot go on reducing it, unless some other currency is brought into the country, astonishes us, because we have before us so many instances to the contrary, not only among the heathens, but also among Christian people, for instance your own neighbors, *English* and *French*, there and in the *Caribbean* and other islands of the *West Indies*, where no silver money is in circulation, † and nevertheless they flourish. We see no way of bringing coin there, much less to keep it, if brought over. Your repeated proposition, to reduce beavers and other peltries and keep them under the market price here, has been realized by accident or rather by the scarcity of beavers here, which sell now at 9 and more guilders. Your further proposition, that the duties there should be paid in silver and that cash be paid for the provisions and other goods, sent from there to *Curaçao*, requires our deliberate consideration, because it is a matter of great importance. We shall inform you of the results of our deliberations in due time.

We shall also consider the request for two or three suitable candidates or ministers, to be located in the *English* and *Dutch* villages; we are inquiring for such persons, that both nationalities and churches may soon be properly provided.

* * * * *

Thus far in answer to your general letter, but as we have noticed several points in the Director-General's private despatch, we shall now reply to them.

First, you ask our advice, what to do, if it should happen, that in consequence of the change of government in *England*, many people of that nationality were to remove into the jurisdiction of the Company, whether you shall admit them and under what conditions. We reply briefly as to their admission, that we do not believe, they will come in such number, that danger may be apprehended from them, because your general letter informs us, that the *English* at the North

* *New Amstel*, now *New Castle, Del.* See Vol. XII, Col. Doc.

† The Directors are mistaken: in *New England* silver money of their own coinage was in circulation together with wampum, *Massachusetts* having established a mint in 1652 and in the *West Indies* the Spanish coins were used as circulating mediums.—B. F.

unexpectedly profess to be good Royalists ; as to the conditions, they can only be the general ones imposed upon all our inhabitants and on which they are admitted.

We have been pleased to receive the map of the City of *New Amsterdam* : we noticed, that according to our opinion too great spaces are as yet without buildings, as for instance between *Smee Street** and *Princes Gracht*† or between *Prince Street*‡ and *Tuyn Street*,§ also between *Heeren Street*|| and *Beyers Gracht*,¶ where the houses apparently are surrounded by excessively large lots and gardens ; perhaps with the intention of cutting streets through them, when the population increases, although if standing closer together, a defense might be easier. We leave this to your consideration and care.

As D^r *Selyns* has asked us, to send a good bell for the church at *Brooklyn*, which could be used to call together the country people in times of distress, we have resolved to send it if possible with this ship, also another for the *Esopus*, that they may use them on proper occasions.

The agreement, made by us with the executor and co-heirs of the late *Baron Frederick van der Capelle tho Ryssel*, concerning his pretended claim upon *Staten Island* and its dependencies, is here enclosed for your information. You are now directed and authorized, to receive, demand and have properly conveyed to you such rights, houses, buildings, implements, cattle and other things, as the said *Baron van der Capelle tho Ryssel* may have had or laid claim to on the said island, and to take immediate possession of it, that nothing of the property may be carried off to the detriment of the Company. You may believe, we would not have been so liberal in this matter, if the executor and the other heirs had not been perfectly willing to take in payment outstanding accounts against the Province of *Guederland*.

D° *Driesius* preached twice the next day and baptized eight children and two aged women. The Under Schout had meanwhile been informed, that a meeting of Quakers was being held at *Gravesend*, and in company of *Nicolaes Bayard* went there early on Monday morning, but the Quaker had escaped. They returned to this place in the evening, bringing with them the Quaker's cloak and *Sam Spycer*, because he with several others had not only followed and listened to the Quaker in several conventicles, but also entertained him in his mother's house. They further brought the following notice and the list of persons who were present at the Quaker meeting :

Present his Honor, the Director-General *Petrus Stuyvesant*, and the Councillors *Nicasius de Sille* and *Johan de Deckere*.

To their Honors, the Director-General
and Council of *New Netherland*.

Show with due reverence the Schout and Schepens of the village of *Midwout* : your Honors

have been pleased to give your verbal consent to the people of said village of *Midwout*, that they might mow every year a certain piece of meadowland near the *Canarisse*, to supply themselves with fodder for their cattle, which, praised be God, number now many heads; the inhabitants of this village have done so for some years past without being prevented, but your petitioners bear in mind, that suddenly somebody else might lay claim to these meadows, which, if it happened would tend not only to the decrease and disadvantage of the said village, but also to the complete ruin and destruction of the same and its inhabitants, who are engaged there in tilling the soil and have made considerable improvements; for besides the said meadows they have already not enough land to make hay for their present number of cattle, which is increasing daily. To prevent such a calamity, your petitioners feel bound by their official duty, to submit the matter to your Honors and respectfully to request, that your Honors may pass a written document, confirming to the said village the aforementioned meadowland between the *Fresh kil* and the *Canarisse*, stretching S. S. E. from the sea to the woods, as it has been mowed by the inhabitants for some years past, as your Honors have granted them to the village of *New Utrecht* and other places. Which doing, etc.

Nicasius de Sille, ex-officio Plaintiff against *Henry Townsend* and *Sam Spicer*, prisoners.

The plaintiff asserts and proves by trustworthy witnesses, that *Henry Townsend* has not only lodged Quakers, but also informed his neighbors and others, that a Quaker was at his house and asked them, to come and hear him. He has admitted, that the Quaker preached at his, *Townsend's*, house in his presence and that the said *Sam Spicer* was present at the meeting of the Quakers not only in *Rustdorp*, but also at *Gravesend* and that he lodged them in his mother's house, contrary to the placat, published against conventicles and separate gatherings. The plaintiff therefore, demands, that the prisoners be condemned to a fine of 600 fl each, conform to the placat.* The defendants were asked, whether they acknowledged, what the Fiscal charges against them, and answered that they would not eriminate themselves, but the charge had to be proved. The Fiscal having done it, they brought forward many frivolous excuses; that they had only called on their friends, that no law forbade friends to meet each other, etc. As they gave no pertinent answer, the Fiscal was directed to give them a copy of his charge and demand for sentence, to which they are to give answer on the next court day. They were then taken back to their confinement. Date as above.†

Whereas *George Rapalje*, *Teunis Gysbertsen Bogaert*, *Aert Anthonissen Middach*, *Jan de Clercq* and *Philipp Berchstal* with several other persons have asked and received the permission of the Director-General and Council of *New Netherland* to form a hamlet between the lands of the said *Teunis Gysbertsen Bogaert* and *Jacob Kip* and whereas upon the consent having been given some persons began to build houses at the aforesaid place, while the abovenamed and other parties fail to do it, although they themselves asked for it, as proved by the foregoing petition, which is not only to the great disadvantage of those who have already built, but also will cause the decay of the hamlet,

Therefore Courtmessenger *Claes van Elslandt* is directed to warn said persons for the last time and inform them, that pursuant to former orders and placats they must remove from their separate bouwerics before the 15th of March next, on the penalty as prescribed by law. Date as above.

Received and read the petition of *Joris Rapalje*, *Teunis Gysbertsen Bogaert*, *Rem Jansen Smit*, *Everet Dircksen van Nas*, *Jan Jorisse Rapalje*, *Jan Le Clercq* and *Wynant Pietersen*, who request, that they might be excused from the order, sent to them on the 10th inst and be allowed to erect for their defence a blockhouse on the hook of *Joris Rapalje's* land.

It was answered :

The petitioners shall appear with *Jacob Kip* and *Christina Cappaens* at the next meeting of the Director-General and Council in *Fort Amsterdam*, when the parties on both sides will be heard.

To the Noble, Very Worshipful Director-General and Council of *New Netherland*.

Show with due respect and reverence the undersigned farmers, all living or having land in and near the *Waelebocht*, that as faithful inhabitants and obedient subjects they have at all times been and are still willing and ready, to obey and observe your Honors' good and praiseworthy ordinances, firmly believing, that they were intended only for the general welfare of this province in general and the advantage, prosperity and well-being of each individual inhabitant. However your Honors have been pleased a short time ago, to direct upon the request of *Jacob Kip* and his

followers, that a village should be formed and a blockhouse erected at the end of said *Kip's* land on the hill, and to order your petitioners to remove there with their dwellings, while experience and fact have disclosed, that this place is altogether inconvenient, because the woodland thereabout is too full of stones to be turned into fields and apparently there is no or at least very little chance of harvesting any crops from it, working it with a plough being impossible on account of the many rocks and crevices and your petitioners could therefore not earn a bare living there by their hardest labor. It is furthermore impossible on account of the uncommon height, to make convenient and sufficient wells, as proved by *Jan de Kaaper's* well near his house on the low ground, into which he has to climb on a ladder dipping the water with a small vessel, but not obtaining enough for the two families, who live there now. When they want to water their cattle, they are obliged to haul water in casks from the well of *Teunis Gysbertsen*, the most troublesome and disadvantageous labor for a husbandman keeping cattle, the sinews of farming. God Almighty, whose name be praised, has blessed your petitioners with a considerable number of animals, but it has been observed, that the creeks in the woods frequently are dry during the summer and if then we had not a sufficient supply of water near our houses, the animals would perish for want of it; likewise in the winter, when they are kept in the stables, they must be watered every day, while the roads are often so extremely hard and sharp, at other times so deep and muddy through heavy rainfalls or impracticable through snowdrifts, that it is almost impossible to go to *Teunis Gysbertsen's* for water; which your petitioners sorrowfully see their neighbors attempting every day. As good subjects your petitioners therefore respectfully request your Honors, that in consideration of the preceding statement you will allow them to erect a blockhouse on the hook of *Joris Rapalje*, where they may retreat in times of need. They consider that place much more convenient, because by nature it is easier defended and stronger, while water from the very noblest spring in the country would be near the work and their bouweries and plantations, so that your petitioners shall be able to live there better, more conveniently and more prosperous; they would build a bridge of the width of two or three planks over the kill, so that high water could not separate them, and give to every one, who desired to settle among them, a suitable lot for a house and garden and convey it to him in fee absolute. Thus with God's help it might grow up into a handsome village, able to defend itself, a pleasure to your Honors and a consolation to your petitioners, who, in the hope of a favorable answer, remain

The Director-General and Council reaffirm their order of the 10th of February, as communicated to the petitioners.

COUNCIL MINUTE. SALT MEADOWS AT MESPATHKIL; GYSBERTS ISLAND; CHURCH AT MIDWOUT;
NEW ARNHEM; EXCISE ON LONG ISLAND.

April 7th, 1661.

To their Noble Worship, the Director-
General and Council of *New Netherland*.

Respectfully shows *Thomas Wandel*, residing at *Mespath*, that he has been iufirmed, that all the meadows at *Mespathkil* have been given and granted by your Honors to the farmers living in the village of *Boswyck*, and that they are to be distributed by lot. Your petitioner would thereby lose his meadow, given him by the Magistrates of *Middelborch* upon your Honors' order in the year 1654, which is the outermost hook between *Smits Island* and the land of the late *Eldert Engelbertsen*, where the latter was killed by the savages. Your petitioner has ever since peaceably occuiped this meadow, not knowing any better, than that it was his free and own property, beyoud which he has not a foot of salt meadow near his bowery and without which it would almost be impossible to live on the land. He therefore turns to your Honors and humbly requests that the said meadow, containing about four morgens, may be left to him for his own use or that at least he may receive a share in the meadows of *Mespath*, nearest and most convenient to him and least in the way of the farmers of *Boswyck*. Awaiting your Honors' favorable decision he is and remains

Upon a vote it was answered :

Petitioner must prove his title to the meadow mentioned herein before the Director-General and Council. If he fails, the matter shall be considered with the others in due time. Date as above.

Received and read the petition of *Anthony Jansen of Fics, Willem Jansen of Berkeloo, Jan Emans of Cologne and Ferdinandus Jansen of Sichelen*, who ask for a certain small island south of *Gravesend*, called *Gysberts Island*, and the meadows belonging to it.

The answer was :

The request is denied for good reasons. Date as above.

When the treasury has sufficient funds, the petitioners shall be paid by the Receiver on behalf of the Company and for the benefit of the church one half of the above amount. Date as above.

To the Noble, Honorable Director-
General of *New Netherland* and his
Council.

Monday, May 30th, 1661.

We respectfully represent, that the people of the village of *Boswyck*, who have entered upon the new lots, are much embarrassed for want of meadowland. We have therefore sent out ten men, to look up meadows, not covered by any patent, and as far as we know, there are meadows near the land of inhabitants of our village, which they need themselves, but which we have not mentioned here. The aforesaid ten men have seen of meadows mowed by the first comer,

near <i>Smith's Island</i> ,	6 morgens
in the same neighborhood	4 morgens
adjoining <i>Elbert Engelberts</i>	
land, where he was murdered by the savages	3 morgens
near the two lots of <i>Severy Oele</i> , who also	
was killed by the savages	5 morgens
a short distance towards the woods	
fresh water meadows	4 morgens
total	22 morgens

They and we humbly request the Director-General and Council, that these ten men having taken the new lots may have the aforesaid meadowland, for they could not live in our village, unless they had meadows, nor do they know, where they could mow grass for hay. Humbly hoping, that the Director-General and Council will assist them, they await your Honors' answer and remain

Your obedient servants

PETER JANSEN Wit

LETELIER.

The foregoing petition having been received and read, it was answered as follows:

If the meadowland herein mentioned is not covered by any patent, they are granted to the village of *Boswyck* and the Commissaries of *Boswyck* are authorized to distribute them by lot for the benefit of the inhabitants, who need them. Date as above.

Received and read the petition of *Peter Tarragon*, *Jacob Begyn* and others, asking, that they may remain with their dwellings at the place, called *New Arnhem*. After consideration of the request, it was decided to be prejudicial to the progress of the newly planted village of *Boswyck* and therefore the following answer was given.

The Director-General and Council re-affirm for good reasons their former orders, communicated to the petitioners.

The Director-General and Council of *New Netherland* to all, who shall read this or hear it read, Greeting! Know ye, that for a period of twelve months, beginning on the first of this month and ending on the last of May 1662, we have let to Mr. *Paulus van der Becq* the excise on wine, beer and distilled water, sold by and consumed during this time by the tappers, innkeepers and dealers on *Long Island*, at the Ferry and in the villages of

Broekelen

Heenstede

Rustdorp

Midwout

Vlissingen

Utrecht

Amesfoort

Middleborch

Boswyck &c

Gravesande

We order and direct therefore all innkeepers, tappers and all, who sell wine and beer at retail, in the said villages on *Long Island* not to lay in a store of wine, beer or distilled waters, unless they have first paid to the said Mr. *Paulus* or his representative the following excise, payable in beavers or in wampum at the rate of 12 white or 6 black beads for one stiver:

for a ton of domestic beer.....	fl4.—
for a ton of imported beer.....	6.—
for a hogshead of French wine.....	20.—
for an anker do	4.—
for an anker of Spanish wine, brandy or distilled water	7.—
for an anker of cider.....	2.—

Larger or smaller quantities in proportion.

We hereby authorize the said Mr. *Paulus* to demand this excise either in person or through others, by him thereto appointed; also, if he thinks it advisable, to let the excise for each village publicly to the highest bidder. We require and direct all subordinates Magistrates in the respective villages, to assist the said Mr. *Paulus* in the execution hereof, when called upon, and show him all possible favor.

COUNCIL MINUTES. LONG ISLAND LAND MATTERS.

To the Noble, Worshipful Director-General
and the Honorable Council of *New Netherland*.

Show with due respect the Schout and Schepens of the village of *Breucklen*: Whereas your Honors have verbally consented and granted to the people of said village, for supplying their cattle, of which they have now, thanks be to God, a fair number, with sufficient fodder, certain parcels of meadowland, near *Frederick Lubbertsen's* Hook, and near the *Red Hook*, in the *Waele Bocht*, also a small piece in the woods between the hills and the swamp, a parcel on the other side of the third Kil, stretching Eastwardly along the seashore to the fourth Kil and Westwardly from the shore to the woods,

Therefore your petitioners very humbly and respectfully request, that your Honors will please to grant to them the said meadows. In order that this petition may have as favorable a result as possible, your petitioners find themselves compelled to submit it by virtue of their offices and request that your Honors will give the said village a patent for the meadows mentioned above. Awaiting your favorable reply they are and remain

Your Honors' willing subjects and servants
The Schout and Schepens of
the village of *Breuckelen*
By their order
Adrian Hegeman, Sec^r pro hac.

June 13th 1661.

The foregoing petition having been received and read, the following answer was given :

Before we decide on the main question, the petitioners must cause all the meadows, mentioned by them, and any others, used by the inhabitants of *Breuckelen* and neighborhood, excepting the meadows near *Frederick Lubbertsen's* Hook, to be surveyed by the sworn Surveyor *Jacques Corteljouw* and exhibit the field notes to the Director-General and Council, who will then dispose of the request. Date as above.

Received and read the petition of *Cornelis Jansen van der Veer*, *Adrian Hendricks* of *Haerlem*, *Gerrit Remmerts*, *Herpert Claesen*, *Jan Luycassen* and Comp., and *Govert Loockermans*, who asks for a piece of land each for a plantation on the *Cunaresse*.

Answered :

The petitioners may have a survey made of the land mentioned by the sworn surveyor, *Jacques Corteljouw*, that we may be enabled, to make a calculation of how large each bouwery shall be. This done, the petition will be further considered and disposed of. Date as above.

Middleburgh, the 3^d of June, 1661.

We hereby certify to whom it may concern, that about six years ago Mr. *Coo* and Mr. *Hazard* and some others went to the meadows at *Mespath* kil and surveyed there by order of the Governor as the share of *Thomas Wandell* a piece of meadowland, containing about ten acres.

(Signed) EDWARD JESOPP
The mark of RALF HONDT.

After reading the foregoing, it was resolved to write to the Commissaries of *Boswyck* for their report on this matter, as follows:

Worthy, Dear, Faithful.

Thomas Wandel has represented to us, that the four morgens of meadow, lying nearest to *Smiths Island*, which you asked us to grant to the village of *Boswyck*, belong to him, as the same have been allotted to him by the Magistrates of *Middelburgh* some years ago, by our order as they say. You will therefore not dispose of the said parcel of meadow, before you have given us an explanation about it and have received our further orders. Relying thereon &c &c

Fort Amsterdam

Your good friends

in *N. Y.*, the 17th of June 1661. The Director-General and Council of *New Netherland*.

16th of June.

Before the Board appeared *Adrian Hegeman*, Schout, *Jan Snedicker* and *Jan Strycker*, Schepens in the village of *Midwout* on *Long Island*, who requested, that no action be taken on the report of the Surveyor *Jacques Corteljouw*, who at the request of the Commissaries of *Amesfoort* had been ordered, to survey all the meadows of *Midwout* and then report to the Director and Council, without giving a hearing to the people of *Midwout*.

Upon a vote, they were told, that the Surveyor's report would not be acted upon, until they had been heard. Date as above.

Whereas some differences exist between the inhabitants of the villages of *Midwout* and of *Amesfoort* respectively about the meadows, lying on the *Unaresse* on *Long Island*, the Surveyor *Jacques Corteljouw* has been commissioned, to survey all these meadows. Having done it and reported to the Board to-day the quantity and quality of the meadowland, stating in substance, that he believes, the meadows should be divided between the two villages in equal shares, — the following order is made:

The Director-General and Council have received and heard the report, made by the Surveyor *Jacques Corteljouw* concerning the quantity and quality of the meadows of the villages of *Midwout* and *Amesfoort*. They commission and authorize the said *Corteljouw*, to lay out and allot the meadows, conform to the orders given him here, and order and direct the Magistrates and all other inhabitants of the said villages to be quiet and satisfied with the allotment and distribution of the said meadows, to be made by *Jacques Corteljouw*, for we consider it necessary for the peace, progress and increase of the said villages. Date as above (June 23^d, 1661.)

COUNCIL MINUTES. A COURT MESSENGER FOR BROOKLYN, WHO IS ALSO TO ACT AS SCHOOLMASTER
SEXTON, BELLINGER &c; COLLECTION OF THE TENTHS IN BROOKLYN AND NEIGHBORHOOD.

July 4th, 1661.

To the Noble, Very Worshipful Director-General
and the Honorable Council.

Show with due reverence the Schout and Schepens of the Court of *Breuckelen*: Having upon consideration found it very necessary, that the Board of Schepens were assisted by a Messenger, to be employed in the village of *Breuckelen* and wherever he might be needed to summon people; who also could read the service in church on Sundays and act as precentor,

besides keep school, bury the dead, ring the bell and what else there is to do, the petitioners have thought to engage subject to your Honors' approval of so necessary an undertaking, a suitable person, whom they have found in one *Carel van Beauvois*. They have allowed him as salary 150fl and free lodgings, but as your petitioners doubt, whether the said *C. v. Beauvois* will or can do it for this sum, while the petitioners cannot promise him more,

Your petitioners humbly and most respectfully request, that your Honors will assist them, to accomplish a so necessary undertaking. Awaiting your Honors' favorable decision &c &c.

Your Honors' subjects and servants

The Schout and Schepens of the said village.

By their order, *Adrian Hegeman*, Secretary.

Upon a vote it was answered :

The Director-General and Council will pay for the support of the precentor and school-master in the village of *Breuckelen* fifty guilders every year. Date as above.

The Director-General and Council of *New Netherland* to all, whom it concerns.

We have sold to *Warnaer Wessels* and Mr. *Paulus van der Beeck* the tenths, due to the Lords Patroons for this year 1661 from the village of *Breuckelen*, the *Ferry*, *Gouwanus* and *Waele Bocht* including the bouwery of *Hans Hansen* deceased. We order and direct therefore all and everybody, residing within these limits, whom this in any way concerns, not to remove any grain, peas, Indian corn or tobacco from their fields, unless they have first made an agreement with the abovenamed persons or their representatives for the tenth or before the tenths have been counted out by the said persons or their representatives after the custom and manner of our Fatherland, under a penalty of fifty guilders and of the just value of the tenths, to be paid by those, who act contrary to this order.

EXTRACT FROM A LETTER OF STUYVESANT TO THE DIRECTORS: BLOCKHOUSE AT OYSTERBAY;
BOUNDARIES WITH THE ENGLISH; LORD STERLING'S CLAIM ON LONG ISLAND. (July 21st, 1661.)

*

*

*

*

*

We have not yet begun with the construction of the redoubt or blockhouse on *Long Island*, because of the differences about the boundary and the question arisen between us and our neighbors concerning the location of *Oysterbay*, which as we already informed you the *English* place about $1\frac{1}{2}$ *Dutch* miles farther west, than the *Dutch*. Now comes your letter of the 24th of December, stating that you do not consider yourselves bound by the agreement of *Hartford*, but are trying to obtain redress through the ambassadors of their High: Might: as well for the usurpations on the *Fresh* river as on *Long Island* and that you hope to procure a more favorable settlement of the boundaries from the present King; we wish you success, but the erection of a blockhouse as a mark and for the securing of our extreme boundary upon a disputed spot under these circumstances would be useless and therefore we shall await the result and your further advices.

We are not less, than formerly, troubled in regard to your order about the reduction of wampum, for our daily experience convinces us more and more of how little use the former

* See the omitted paragraphs in Col. Doc., Vol. XII, p. 347, and XIII, p. 204.

reduction from 6 to 8 has been. We have already told you, that in the trade wampum is handled by the handful or length of string and that there is so much underselling going on, that no redress by reduction is possible. A beaver, bartered formerly for 6, 7, at the highest for 8 guilders in wampum at the rate of 6 for a stiver, is now bought and sold for 18 to 20 guilders, wampum rating at 8 for a stiver. If we were to go on reducing wampum at this rate, we would at once drive away all our trade, which is already suffering; for this and other reasons we dare not carry out at present the reduction, though repeatedly ordered by you.

* * * *

We are troubled and perplexed by some vague, but nevertheless suspicious rumors, that Lord *Sterling of Scotland* has renewed his old claim upon *Long Island* and petitions the King for confirmation of his pretended patent, received from the late King. Some people think and do not hesitate to say and affirm, that the present King has already confirmed the grant of his father to the said Earl of *Sterling*.

COUNCIL MINUTE. A PETITION FOR PERMISSION TO SELL GYSBERT'S ISLAND DENIED.

August 25th, 1661

To the Noble, Very Worshipful Director-General and Council of *New Netherland*

Humbly shows *Gysbert op Dyck*, an old servant of the Company, but now out of the service that his Honor, Director *William Kieft*, gave and granted to him, the petitioner, a certain small island, lying between the *Stroomkil* and *Coney Island*, now called *Gysberts Island*, which the petitioner could not occupy without danger from the Indians on account of its distance. The inhabitants of *Gravesend* have hitherto used the said island as pastureland for their calves and are still using it so to-day; with the knowledge and approval of your Honors they are willing to buy said island from your petitioner for the benefit of their village; therefore your petitioner, being now out of office and needing the necessities of life, respectfully turns to your Honors and humbly requests permission to convey the said island to the village of *Gravesend*. Which doing I remain.

Your Honors' humble petitioner
GYSBERT OP DYCK.

Answered :

The petitioner has to prove his title to said island, before a decision can be given on the main question. Date as above.

EXTRACT FROM A LETTER OF DIRECTOR STUYVESANT TO THE DIRECTORS IN HOLLAND: REPORTS
OF ENGLISH DESIGNS ON NEW NETHERLAND; LONG ISLAND GRANTED TO CAPTAIN SCOTT.

Honorable, Wise, Prudent and Very Worshipful

Gentlemen.

Your Honors' favor of the 24th of December l. with enclosures, received by the "*Trouw*," make us hope for a firm and inviolable alliance with the Crown of *England* and consequently for the long desired settlement of the boundaries with our neighbors and the quiet possession of what has caused and cost here so much labor, anxiety and troubles. Although your later letters of the 9th of May by the "*Bever*" and "*St Jan Baptista*" contain not the slightest report of a change nor any warning and information for us to be governed by, yet, as well previous to, as after their receipt we have to our regret been informed by good authority from various quarters and still receive reports every day not only of an imminent rupture between our home government and the lately crowned King on account of his marriage and close connection with the Crown of *Portugal*, but also of new attempts to invade and take *Long Island*, while you had given us hope of recovering the land, claimed by you between here and the *Fresh river*.

* * * * *

Concerning the desigus upon the Province of *New Netherland*, Capt. *Thomas Willett*, showing his letters received from *London* and *Boston* to the Director-General, reports that not only is a rupture between our country and *England* imminent, but also the King, the Duke of *York* and Parliament are urgently asked for three or four frigates to take this capital and whatever else belongs to the Company here; they try to persuade the King to grant this demand, by telling him, that the W. I. Company claims and holds this province by unlawful title, because in 1623 *King James* had granted to the Company only a watering place on *Staten Island* and nothing more. The writers of the abovementioned letters presume and believe, that the petitioners request will be granted in *England* and that they will obtain authority and commission to capture these places.

The letters from *London*, dated the last of May old stile, state about *Long Island*, and later passengers confirm it, that the whole of it has been granted and conveyed by a new patent to one *John Scott*, who sailed from here in the "*Eyckenboom*" last year and that a Captain —, lately ennobled by the King, urgently asked for this province.

COUNCIL MINUTE. DISPUTES ABOUT LAND AT MATINICOCK AND GRAVESEND, L. I.

In the Name of the Lord, Amen

The first of January 1662.

Mr. *Marck Miez* has informed us, that some inhabitants of *Southold* on *Long Island* have warned him to remove from a certain piece of land in this Province of *New Netherland* in *Martin Gerritsen's Bay* by the Indians called *Mattinnekonck*, otherwise *Hogs Neck* or *Hogs Island*, by Mr. *Govert Loockermans*, a merchant in this city, let to *Jonas Wood* on the 5th of July 1659 and by the said *Wood* underlet on the same conditions to *Marcq Miez*, who until now has had peaceable possession of it, when as before said one *John Knocklingh* of *Southold* has dared to warn the said *Marcq Miez*, to remove from the said island, or else he would make him move, adding thereto that the island did not belong to the *Dutch*, but was lying within the government of *New England*. Whereas the said *Marcq Miez* has requested our assistance against the agitator and all others,

Therefore we authorize the said *Marcq Miez* to arrest this disturber of the peace and all others, who try to prevent him from quietly enjoying the said parcel of land, and to bring them as prisoners to this place. That he may execute it so much better, we, Director-General and Council of *New Netherland*, order and charge all Schouts and Magistrates within our government to assist the said *Marcq Miez* at his request in the arrest, that he may peacefully live on his land. They will thereby help to carry out our intentions.

Done at *Port Amsterdam* in *N. N.* Date as above.

January 12th:

Evertsen Pietersen and *Harmon Vedder* attorneys for *Dirck de Wolff*, merchant at *Amsterdam*, plaintiffs against the Magistrates and Inhabitants of the village of *Gravesend* on *Long Island*, defendants.

The plaintiffs exhibit a conveyance, dated the 20th of October of last year, from *Gysbert op Dyck*, by virtue of a patent, granted him by Director-General *William Kieft* on the 24th of May 1644, to the said *Dirck de Wolff* for *Coney Island* with the meadows and a parcel of land on *Coney Hook*, specially expressed in said conveyance. As the defendants are daily driving their cattle to pasture on said island, the plaintiffs demand, that the defendants be ordered to keep their cattle away from it and the said piece of land and not to drive them there again, nor to mow there any grass, but to allow the plaintiffs in their aforesaid quality to use the island and land &c, as they would use their own, free property, without trouble, molestation or interference.

The Schout and Magistrates of *Gravesend*, representing the inhabitants of said village, replied in substance, that the founders of their village had come there in 1643 with the express consent and order of the late Director-General *William Kieft* and the Council of *New Netherland* and that from that date until now they have quietly and peacefully without anybody's objections, occupied and used the said *Coney Island* and their other lands as common property of the village for pasturing their cattle and making hay in the meadows, under and by virtue of a patent given them in September 1645 in confirmation of the promise given in 1643. This patent gives and grants to them *Coney Island* and its dependencies, as a pasture for their cattle, and all their other lands, where their village is now located, for agricultural purposes. Therefore they demand, by virtue of their old possession, their patent and privileges, that the plaintiffs' case be thrown out of court and their demand and conclusion be refused absolutely with costs, especially as the said *Gysbert op Dyck* has never taken possession of said island or of any part of it.

The Director-General and Council, having heard the arguments of both sides and examined their documentary evidence, find, that the so-called patent to *Gysbert op Dyck*, by virtue of which he has conveyed *Coney Island* etc to *Dirck de Wolff*, has never been signed by the late Director-General *William Kieft* and that it has been recorded in the Book of Patents by the then Secretary through a mistake or otherwise as of the 24th of May 1644, as if it had been signed and sealed by Director *Kieft*. *Gysbert op Dyck* has made an improper use of it, stating, that the original patent had been mislaid and thus he has deceived and misled the plaintiffs as well, as the Council and the Secretary, by whom this conveyance was passed. The Director-General and Council therefore and for other reasons, submitted by the defendants, deny the motion and demand of the plaintiffs without prejudice to their action and claim against said *Gysbert op Dyck*, and absolve the defendants from the compensation of costs in this case.

EXTRACT FROM A LETTER OF THE DIRECTORS TO STUYVESANT; BLOCKHOUSE AT OYSTERBAY; LORD STERLING'S CLAIM TO LONG ISLAND.

January 27th 1662.

* * * * *

We first notice in your last letters the statement of your reasons for delaying the construction of a redoubt or blockhouse on *Long Island*; they surprised us and were unexpected, because in our former letter we had so undisguisedly told you, how little we liked to write again and again about the same thing and had positively ordered you, to proceed with its erection at the most convenient place. For, although we had said in our letter of the 24th of December 1660, that we were asking the King of *England* through the ambassadors of their H. M. for redress of the usurpations by our English neighbors there and therefore hoped, to obtain a more favorable settlement of the boundaries, than by the former provisional agreement,— we did not countermand our former order, which you ought to have carried out especially as you then would have been in a position to prevent all further usurpations upon that island. You ought to have known that, as well as we, and we order you once more, now to proceed in this matter, and to do it also in other places, where it might have the same result and can be done at small expense. We recommend this matter to your consideration and judgment.

We shall duly consider, what you say about the reduction of wampum and your propositions about it in the second letter, and if possible, communicate our opinions by this letter.

We must say concerning the vague rumors, afloat there, that Lord *Sterling* has renewed his old claim upon *Long Island* before the present King of *England*: little or no credit can be given to such scattered reports, because the nation pretends and makes public much more, than ever had any result; we consider these reports to be only ruses to make our people uneasy; they must therefore not be communicated to our inhabitants, much less fostered, and it is not the less required, that you inform us of them from time to time, so that if necessary we may inquire into them and act as circumstances may compel us, to frustrate such designs.

It was answered :

The desired piece of land is granted to the petitioners, on condition that they remove their dwelling houses to one or the other settlement, most convenient to them, and do not make a new settlement. Date as above (March 30th 1662).

To the commissaries of *Boswyck*.

The community of *Boswyck* find, that the road, formerly made around two swamps to reach the water is a quarter of a league longer than necessary, so that this road is of no use in times of war, for the owners of the land threaten us, (although the Director-General granted us this wood,) and take it by force and obstruct every passage to it. We find, it is done out of hatred and we therefore request the Commissaries, that the road shall run at the West end of the village, one rod outside of the gate, right along the meadows, towards an old stubble field on the hill, to the spring

LETELIER

March 30th

The mark of JAN CORNELISSEN.

The foregoing petition, was submitted by the Commissaries of *Boswyck*, who also requested, that some old houses, still standing at the place called *New Arnhem*, should be removed or taken down, because they fear somebody might again move in to live there to the disadvantage of their village. After due consideration it was resolved, that his Honor, the Director General, or some member of the Council, shall proceed there at some convenient time and inspect the desired new road and the old houses, upon which further order shall be given.

To the Noble, Very Worshipful Director-General
and the Honorable Council of *New Netherland*.

Respectfully show the inhabitants and property-owners of the village of *Amesfoort*, that your Honors have granted to the people of *Midwout* as pasture for their cattle two flats, called *Wouter van Twiller's* and *Curlaer's* flats, across which several public roads run to the flats belonging to *Amesfoort*. The people of *Midwout* have fenced in not only their said flats, but also the woods and thereby obstruct your petitioners' cattle drift and passage, which will finally cause the ruin and destruction of the village of *Amesfoort*, unless your Honors make timely provision. The petitioners therefore turn to your Honors with the humble request, that to prevent all damage, obstruction or hinderance, your Honors would order the people of *Midwout* to stop fencing in the said flats and woods and to allow your petitioners free drift for their cattle and passage to their village: for if the people of *Midwout* enclose their said two flats and the woods, as they intend to do, the people of *Amesfoort* will have no other driftway, than through a marsh, where a great many animals would most likely be lost in wet years. In order to prevent trouble between the aforesaid two neighbor villages, we request, that your Honors will please, to determine the boundaries between the villages of *Amesfoort* and *Midwout*, so that each village will henceforth know, how to govern themselves in regard to passage and the driving of cattle.

Which doing we remain etc.

It is resolved, to summon the inhabitants of *Midwout* by the following letter, before an answer is given to the foregoing petition.

Worthy, Dear, Faithful.

As the commissioned Schepens of the village of *Amesfoort* have represented to us, that the people of *Midwout* are enclosing and fencing in, to their great disadvantage, some flats hitherto used as a common pasture, we direct you, to stop doing so until further orders and to appear before the Director-General and Council with the Schepens of *Midwout* and *Amesfoort* on the next Courtday, which will be Thursday, the 13th inst., and report to us on this matter. Received from *Vlissingen* the 13th of April 1662.

Thursday, April 13th 1662

Pursuant to the order of the Director-General and Council of *New Netherland* the Schout and the Schepens of the villages of *Amesfoort* and *Midwout* appeared before the Board. The representatives of *Amesfoort* claimed, that the people of *Midwout* injured them by putting up new fences around the flats; also, that it would hurt both villages, because the common pasture of the cattle was thereby diminished. They request, that the *Midwout* people be ordered to desist.

The representatives of *Midwout* reply, that they are fencing in only what has been granted to them long ago and that they have been compelled to do it, because else they would not have enough fodder for their animals.

Having heard the arguments of both sides the Director-General and Council commissioned and authorized the Surveyor, as they hereby do, to proceed to the place, where the new fences are put up, and to see, whether the people of *Midwout* have not fenced in more of the said flats, than was granted to them, also if possible, to make the parties come to an understanding; if not, he is to report to the Director-General and Council. Date as above.

Date as above.

May 25th 1662.

Received and read the petition of *Pieter Jansen Trinbol*, requesting permission to make upon his land on the Southside of the *Noormanskil* a settlement of four families, because it would be a considerable accommodation for the village of *Boswyck* in landing there their canoes and boats &c

Having heard the Magistrates of *Boswyck* on the matter, it was decreed: Fiat ut petitur. Date as above.

We thank God, that nothing has come out of the flying rumors, but the advices continue to inform us, that this or that person, principally *John Scott*, had not only made several requests to the prejudice of this province, but had also obtained consent to them; further that upon the arrival in *England* of Mr. *John Winthrop* and his report to the King a decision upon these requests had been postponed and they were finally denied. We shall undoubtedly have more exact and correct information about this matter, when Mr. *Winthrop*, who is daily expected in his government, shall have returned.

After the foregoing letters had been delivered in the several English villages, their Magistrates either brought or sent the letters, received by them from *John Jongh*, to the Director-General ; *Vlissingen*, *Middelburgh* and *Rustdorp* forwarded them by the Schout *Waldron*. *Gravesend* had not yet received any, but they promised to send it, as soon as it came, which they did a few days later.

The Magistrates of *Hemstead* brought the letter, given them by *John Jongh* himself. Questioned as to their conversation with said *Jongh*, they said that nothing special had been talked of, as he had been only a few hours in *Hemstead*. He had said in substance, what his letter contained, whereupon they had replied, that if he had anything to say concerning jurisdiction, he should address himself to the Director-General and Council of *New Netherland*.

The letter for *Middelburgh* was addressed to Captain *John Coo*, the younger, for *Rustdorp* to Mr. *Coo* the elder,* for *Gravesend* to Sergeant *Hubbard* and for *Gravesend* to Mr. *John Ticks*.*

LETTER FROM THE DIRECTORS TO STUYVESANT: SALTWORKS ON CONEY ISLAND.

The 6th of December 1662.

Honorable, Prudent, Dear, Faithful.

As the unexpected frost does not allow us at present to reply to your letters by the "*Trouw*," "*Hoop*," and "*Wapen van Stuyvesant*," this is only to inform you of the complaints, received from *Dirck de Wolf*, who had our permission to erect saltworks there. We believe, these complaints are not without foundation, because the place, which you allotted to his representative, at *Coney Island* &c, has now again been taken away from him by your sentence upon apparently frivolous claims, made by the English in the village of *Gravesend*, and his labors rendered fruitless, to the great detriment and loss of said *de Wolf*, who had already built there a house and fenced

in a garden, also erected a salthouse. All this is said to have encouraged these English and they were afterwards bold enough to destroy all he had done, especially the garden, which they laid waste, pulling down the fences and then burning them; threatening to throw the refiner on the burning pile, when he warned them off. It appears to us very strange and uncalled for, partly because it seems to have been caused by sheer carelessness in allotting and conveying a piece of land which had already been given to others or upon which they pretended to have a claim; partly because this assault by the English was not resisted, which certainly should have been done on account of the consequences. We are therefore compelled to direct, that you send us by the first opportunity a detailed report of this matter with all such documents and papers, as both parties have used in their lawsuits or which may be produced. As we do not like, to see the English pushing any further in that direction and as the good location of the island is highly praised by many, you must send us a map or chart of it with your opinion of it and we further order, that two or three soldiers shall be sent there, to take possession in the name of the Company of the buildings, which *de Wolff* has erected there, so that further spoliations may be prevented.

COUNCIL MINUTES. BUSHWICK AFFAIRS.

December 28th, 1662

The Commissaries of *Boswyck* came before the Board and represented, that they required in their village a suitable person to act as reader and schoolmaster, to teach the children; as *Boudewyn Maenhout* from *Crimpen* on the *Leck* * had been proposed as such person, they had made an agreement with him, that he should act as reader and also keep a school for the instruction of the children, for which he is to receive a yearly salary of 400fl in wampum and free lodgings. They request, that their action may be approved by the Director-General and Council and that the Company may contribute something towards the salary every year.

A vote having been taken,

The Director-General and Council of *New Netherland* have approved the engagement of and the contract made with said *Boudewyn Maenhout*, on condition that the same be first examined by the reverend clergy of this city and declared fit for the performance of the said duties. On behalf of the Company 25fl heavy money shall be paid to said *Boudewyn*, to make the payment of the salary more easy.

The Director-General and Council elected to-day as Schepen of the village of *Boswyck Jan Tilyez* in place of *Jan Catjouw*, who sailed for the Fatherland by the last ships.

COUNCIL MINUTES. CHURCH AFFAIRS IN MIDWOUT, L. I. MAGISTRATES FOR NEW UTRECHT.
January 4th 1663.

Noble, Very Worshipful Director-General and
Honorable Council of *New Netherland*.

Upon your Honors' order the undersigned began to erect a church edifice at *Midwout* in September 1658 and with God's help they have accomplished so much, that all debts have been paid. Having borne the burden for some time and desiring to be freed from it, also considering, that we are mortal, we respectfully request, that we might be discharged and an order made to that effect by your Honors.

This 17th of December 1662.

Your Honors' obedient servants
JOHANNES THEO. POLHEMUS
JAN STRYCKER.

The foregoing petition was received and read. After a vote upon it, it was answered :

The petition is granted and the Magistrates of *Midwout* are authorized, to nominate a double number, from which the Director-General and Council will select two other churchwardens in the place of the above. Date as above.

Received and read the nominations, made and presented by the Schout and Schepens of *Utrecht on Long Island*. The Director-General and Council select and confirm as Schepen *Jacob Pietersen*, in place of him, whose term expires. Date as above.

EXTRACT FROM A LETTER OF STUYVESANT TO THE DIRECTORS: LONG ISLAND ANNEXED TO
CONNECTICUT. JANUARY 8th, 1663.

* * * *

We were in hope that the peace between *England* and our country would be definitely concluded, but see now with considerable anxiety, that our success with the Crown is still uncertain, of which we have already experienced some results before the receipt of your favor of the 1st of September last. The people of *Connecticut* or *Hartford*, exalted by their newly obtained patent, have either by letter or verbally through their emissary *John Young* informed all the English villages on *Long Island* under this government, that his Majesty had been pleased, to include *Long Island* within their patent, that therefore they were in the jurisdiction and under the government of *Connecticut*, and should not acknowledge any other Prince or State or take an oath of allegiance to them. The enclosure No. 7 will tell you, what we have done in the matter and written to *Hartford* and what they have answered ; for your better information we have added a copy of the patent, given by the King to the people of *Hartford*, which a good friend has procured for us, stating, that it was a true copy. If you will please to compare this patent with the letters and claims of the *Boston* people, sent us in 1659 and then forwarded to you, of which we send other copies to save you the trouble of looking for them, you will find and learn, that not a foot of land is left here to you, because *Boston* claims *Fort Orange* and the land thereabout from ocean to ocean and *Hartford* the remainder as far as *Maryland* and *Virginia*. You may easily imagine, how much all this discourages your people here. We must therefore urge you, to make all possible endeavors before it is too late, that the long desired settlement of the boundaries be seriously taken up and determined, so that we and your well meaning subjects and good inhabitants may know, what to do.

The foregoing nominations were presented to the Director-General, who selected as Magistrates of *Hempstead* for the ensuing year the following persons :

Fort Amsterdam, date as above

February 8th.

To-day the Director-General and Council selected and confirmed as Churchwardens of the Church at *Midwout Jan Strycker* and *Jan Snediker*. Date as above.

To the Noble, Very Worshipful Director-General
and Honorable Council of *New Netherland*.

Respectfully show the Commissaries of the village of *Boswyck*, that several persons have asked permission to come and settle with their families in said village; that at present no lots are unoccupied, nor can any other convenient lots be found, except at the East end of the village on the land of a Frenchman, *Jean Mailliart* by name. Your petitioners have asked said *Mailliart* for some lots on his land for the new comers, which said *Mailliart* would not give, to the great disadvantage of the village, although a new lot was given him on this account. Your petitioners therefore turn to your Honors for an order, that this village shall be laid out within the boundaries formerly determined. Awaiting your Honors' special directions, we remain

Your Honors' faithful servants,

PETER JANSEN Wit REYCK LEYDECKER
The mark of JAN CORN. ZEEUWS LETELIER.

Answered :

The petitioners and *Jean Mailliart* shall personally appear before the Director General and Council.

Mr. Paulus van der Beeq,

From time to time many complaints are made to us, that you do not fullfil the conditions, under which the Ferry was let to you, to the great inconvenience of inhabitants and travellers,

who have to use it and whom you often make wait half a day or night, before you carry them across the river. You are hereby directed and warned, strictly to act up to the conditions, of which we annex a copy for your better information; if the complaints continue, we shall let the said Ferry publicly to somebody else at your expense.

Fort Amsterdam in N. N., the 15th of February 1663.

To the Noble, Very Worshipful Director-General
and Honorable Council of *New Netherland*

Show with due respect the undersigned inhabitants of the village of *Breuckelen*, your Honors' obedient servants, that there is near *Breuckelen* a place, very convenient for us to settle a new village with great advantage. It is the woodland, well known to your Honors, where there is sufficient room for twenty to thirty persons to have a good place and lot each. Except the annexed part between the third and fourth kil, there is no nearer place for making hay and providing our cattle with fodder, than the meadows adjoining this land; we therefore turn to your Honors with the humble prayer and request, that the above described land may be granted to us, each receiving his lot, as the meadows are very far and it is very difficult to bring in the hay dry and in good condition, for the preservation, with Gods blessing, of our cows and what depends on it in farming. From the nominations by the Schout and Schepens of *Midwout*

Jan Snedicker was confirmed as Schepen there and from the nominees for *Amesfoort Elbert Elbertsen*. Date as above.

The Director-General and Council received and read the nominations, made and submitted by the Magistrates of the village of *Boswyck* on *Long Island*, from which they selected and confirmed as Commissaries

Gysbert Teunissen and *Barent Joosten*.

Pursuant to appointment, made on the 8th of February at the request of the Commissaries of *Boswyck*, the said Commissaries and *Jean Maillart* appeared before the Council. The consideration of the petition of *Boswyck* was resumed and the claim of *Jean Maillart* and the arguments of both parties were heard. The Director-General and Council decide, that *Jean Maillart* shall give up, — because it is for the advancement of the village, — as much land as is required for six lots, each lot being six rods wide and fifteen and one half long, on condition, that the parties, who are to receive these lots, shall pay to him upon demand 25fl for each lot. *Fort Amsterdam* in *N. To the Noble, Very Worshipful Director-General
and Honorable Council of *New Netherland*.

Show with humility and respect *Dirck Volckertsen, Gysbert Teunissen, Hendrick Willemsen, Barent Joosten, Peter Jansen Witt, David Joghensen, Jan Maillart, Barent Gerritsen* and Mr. *Jacob Strycker* as attorney for *Jacob Steendam*, that they have considered the great expenses, which each of them would have to incur by fencing in his lands, especially as wood is growing scarce around there and hard to obtain and the fences would cost a great deal. The petitioners would be willing, to enclose all their lands near *Boswyck* on *Long Island* by a ring fence, which would run from the *Noormans* kil North along the village of *Boswyck* to *Mespats* kil and each of the petitioners would pay his share of the expenses for this ring fence in proportion to his acreage. About 450 morgens could be enclosed in this fence, which would probably cost 4000fl; while if each petitioner were to put up a fence around his land, it would cost altogether 4000fl, which is too heavy a tax on the petitioners.

It is also to be considered, that this ring fence can be so put up on the petitioners' lands, that it will not overlap on or injure any of the neighbors' lands or give offence to them.

To close the fence and allow a passage for wagons, carts, people and animals, it would be necessary to make a turnstile, which, under correction, should be placed near the end of *Peter Jansen Witt's* lot. But as your petitioners are aware, that they cannot make such a fence and turnstile without your Honors' consent, they turn to you with the humble prayer and request, that your Honors will allow them to build the fence and make the turnstile, as described, for the above reasons. In the name and behalf of all their above mentioned neighbors.

To the Noble, Very Worshipful Director-General
and Council of *New Netherland*.

Humbly show your always ready and obedient servants, here undersigned, all living in the village of *Boswyck*: they have learned, that some of their fellow-inhabitants have by a petition asked your Honors' permission, to build a fence from *Noormans* to *Mespaths kil* and to make a turn stile in the same on the road of the village. This would injure your petitioners, because three roads would be closed by the fence, to wit, one to the wood point, another to *Mespath kil* and the third from the West end of *Boswyck* village to *Noormans kil*. Some of the Company's land would also be enclosed in this fence, to which we have as much right as they, who want to build the fence. We should be compelled when going with produce to the strand in ox carts, to take with us a farm laborer to drive the oxen back from the strand and open the stile for them, which would take in going and coming three quarters of an hour's time. If we do it ourselves we run the risk of having our things stolen, because we cannot unyoke our oxen on the public highway. Furthermore, our pigs would be prevented from going to the kil, where they obtain most of their food. Your petitioners desire to receive from your Honors and enjoy as many privileges as they, who try to deprive us of the same, for the road from the village of *Boswyck* to the woodpoint goes partly through the Company's land, partly through *Dirck Noorman's*, which he, *Noorman*, has given to the village, when it was yet woodland. We desire to live with each other in peace, harmony and love, but it seems, that persons coming from outside try to injure us, which your petitioners hope, your Honors will help us to prevent. Upon receipt and perusal of the foregoing petitions it was resolved to view the place on the first fair day.

Note: The place having been inspected the following order was made on the 10th of April and affirmed on the 19th:

The foregoing petitions were received; the situation was inspected by the Director-General and Council, who after listening to and considering the arguments of both sides, declare, that everybody must have liberty to fence in the land granted to him in the easiest and least expensive manner, but as also good roads are required and necessary for the welfare and growth of the village, the Director-General and Council decide,

That the first petitioners may fence in and enclose their lands with one fence and as a common wagon-road and driftway to the strand is required for the behoof of the village across their land, reason and equity demand, that this road and driftway shall be secured by a fence and the fence kept in repairs by all the inhabitants of the village, in order that the owners of the land may not suffer any damage now or hereafter. If the inhabitants of *Boswyck* or a majority of them oppose and refuse, to make this common fence and keep it in repair, then the request of the first petitioners is granted, provided they leave free for the public use a lane or wagonroad across their land to the strand, which lane or road the owners may close at the end of the village with a turnstile, and also provided, that they erect and keep at the strand a corral or stable, where, people

driving down must place and fasten their oxen or horses for the time, they remain on the strand, that the owners of lands may not suffer any damage in their crops.

Thus done, decided and resolved at the meeting of the Director-General and Council of *New Netherland* on the date as above and confirmed on the 19th of April.

Thursday, April 12th.

Received and read a petition of *Govert Loockermans*, who in the name and as representative of *Cornelis Jansen de Zeeuw*, *Jan Teunissen*, *Harbert Cluesen*, *Gerrit Reyniersen*, owners of land at *Canarisse* and inhabitants of the village of *Amesfoort* on *Long Island*, remonstrates, that they suffered great losses in their crops on the *Canarisse*, because they lived so far from their land and therefore requested permission, to make there a settlement of six houses.

Answered :

Referred to the Magistrates of *Amesfoort* for report to the Director-General and Council. Date as above.

EXTRACT FROM A LETTER OF THE DIRECTORS TO STUYVESANT: PROCEEDINGS OF CONNECTICUT ON LONG ISLAND; FORTIFICATIONS; HUGUENOTS; QUAKERS. (APRIL 16th, 1663.)

* * * * *

As to your anxiety over the patent lately obtained by Governor *Winthrop* for the Colony of *Hartford*, and the proceedings resulting therefrom, in which they have endeavored by notifications and warnings to draw the English in the village of *Long Island* from our jurisdiction into theirs; we admit, that such proceedings by more powerful neighbors are suspicious. You will have learned since that time, that the peace between *England* and our State has been concluded and therefore such attacks from the English are not to be expected henceforth, but for the sake of greater safety we consider it highly necessary and have recommended in the enclosure, that proper attention be paid to the safety and protection of the mouths of the rivers on *Long Island* and *Staten Island*; you must not delay this, so that envious neighbors may thereby be discouraged from further invasions and undue usurpations and we may keep our own in peace and without fear. We see here no or only very little chance to bring about a final settlement of the boundary question between us and the English: it must be done there and the return of Governor *Winthrop*, who as we understand has sailed from *England* to *New Netherland*, will undoubtedly offer you a good opportunity. He has always shown himself a friend of our nation and the government there and would have liked to come, we are told, and confer with the Company, if his sudden departure or, as others say, the fear of raising suspicion had not prevented him. We urge you most seriously, to employ all possible means for the final accomplishment of this so long desired settlement.

No doubt, if some of our people have sold their beavers in *Boston* at high prices in silver, they will feel encouraged to continue trading there, at least as long as the English are willing and they are able to make a profit on the goods and merchandises, which they purchase there at the same prices as here. But this would injure the Dutch trade and diminish the Company's revenues as you well understand, and must therefore be prevented, anyway merchandise imported that way must pay the same customs and convoy duties, as the goods, brought from here, and the duties

upon beavers, exported via *New England*, should be increased. We do not know, what duties are paid on beavers and therefore must call on you for information, while we give you to consider, whether it would not be more advantageous for the Company to have these duties demanded and collected by officers of the Company, because the farmer of the customs contracts for one half only and less, as experience must now have taught you. We leave this to your consideration.

You have not been correctly informed in regard to a renewed request of the oppressed *Piemontese* for transportation to *New Netherland*, but we have been approached on a similar subject by and in the name of the Protestant people of *Rochelle*, who are now also considerably oppressed and deprived of their privileges. Although we cannot as yet say much about it, it is not unlikely that it will go on some time and then we shall not fail to give you timely notice before they arrive, that you may make the necessary preparations. As in the meantime more and more people will come there from here every day, we think, that you should not delay the purchasing of fertile and conveniently located lands from the natives, to anticipate the English and be in possession of these lands more rightfully and peacefully. You will act accordingly.

*

*

*

*

Your last letter informed us that you had banished from the Province and sent hither by ship a certain Quaker, *John Boune* by name: although we heartily desire, that these and other sectarians remained away from there, yet as they do not, we doubt very much, whether we can proceed against them rigorously without diminishing the population and stopping immigration, which must be favored at a so tender stage of the country's existence. You may therefore shut your eyes, at least not force people's consciences, but allow every one to have his own belief, as long as he behaves quietly and legally, gives no offence to his neighbors and does not oppose the government. As the government of this city has always practised this maxim of moderation and consequently has often had a considerable influx of people, we do not doubt, that your Province too would be benefitted by it.

We rejoiced to learn from your letters the settlement of the difficulties between the Crown of *England* and our government, which somewhat diminished our fears and anxieties concerning further usurpations of your territories here, but did not quite allay them, as our last letter by the "*Vos*" may have told you. Our neighbors of *Hartford* have not yet desisted from extending their undefined limits according to their new patent, as enclosure No. — will tell you. You will also learn from it, how impossible it is to obtain a favorable settlement of the boundary question here from people, actuated by such a haughty and insatiable spirit and supported by a patent so ample and unlimited in regard to your territory, which is not mentioned in the articles of peace nor in the patent: this causes great anxiety to your faithful servants and good subjects. Our official position, honor and duty compel us to remind you once more, even to pray in behalf of your subjects, that the so often demanded and so necessary settlement of the boundaries be brought up for discussion by a special letter from their High: Might: and obtained from his

Majesty of *England*. You will understand the urgent necessity of it, if you consider the peremptory order of the Deputy Governor and General Assembly of *Hartford* to your subjects in *Oostdorp*, by them always called *Westchester*, the assent and submission to this order by the village in general and the fact, that this village is hardly one half of a league from *Helle Gatt* or *Manhattans Island* and not a league from the *North river*.

Your Lovinge Friend & Govern^r

P. STUYVESANT.

Copies of the foregoing letter were sent to the Magistrates of *Middelburgh* and of *Vlissingen*.

To the Noble, Very Worshipful Director-
General and Council of *New Netherland*.

Respectfully shows *Thomas Terry*, that with your Honors approbation and consent the Magistrates of *Hemsteede* gave and granted the petitioner a parcel of land in *Hemsteed Bay*, on condition that the petitioner should take possession and cultivate it within two years, which term is about to expire in four or five days. The petitioner has now come to take possession, but there are some Magistrates who will give him the land, while others and with them Mr. *Risbil* [*Richbell*] who lives at *Oyster Bay* and claims, that this piece of land belongs to his patent, are not willing, he should have it. In order to begin making an enclosure around the said land and planting it, the petitioner left there £40 sterling, but he now finds to his regret, that the persons, who took the money and had the matter in charge, have not begun, much less furthered the work. As both *Oyster bay* and *Hemstead bay* are in this Province of *New Netherland* and as your Honors may approve and confirm the grant of this piece of land, your petitioner turns to you with his humble request, that you will concede the land and issue your patent for it to him and because his circumstances prevent him from starting promptly with his whole family and his animals, to come and live on the said land, he humbly prays, that your Honors will allow him another year, before he settles there : in the meantime he will entivate and plant it as well, as it can be done in his absence. If your Honors should not deem it advisable, your petitioner still intends to carry out the contract, written in English here annexed. Remaining &c

Mr. Secretary.

Three persons came here to *Gravesend* yesterday, who called together the whole village and to-day read a commission, stating, that we were no longer under the Dutch government, but under that of *Hartford*; it was a simple commission, signed *Coo*. I have arrested him, but the

arrest was not upheld, because the authorities would not do it. Therefore I hold him for debt and must prove the debt at 10 o'clock to-morrow morning. Be kind enough, quickly to send me orders, what else I shall do or omit in this case. Patiently awaiting your orders and advice I am in haste this 24th of September 1663.

The foregoing note was communicated to the members of the Council*, who resolved, to send the sergeant with eight men to *Gravesend*, to take the rioters and bring them to this place. The following letter to the Magistrates was given to him.

Worthy, Dear, Faithful.

We have just been informed, that three persons have come to your village, who read there a document, stating, that you did no longer belong to this government, but to the Colony of *Hartford*. This is very strange, because we understand, you have done nothing about it. We have therefore deemed it necessary, to send the bearer hereof, our sergeant, with eight men, to arrest said persons and bring them here. You will please to assist, if necessary and if you are called upon. Relying hereupon we commend you to Gods protection and remain

Your affectionate friends
the Council of *New Netherland*

By their order: CORNELIS VAN RUYVEN, Secr.

Tuesday, the 25th of September, at 9 o'clock A. M. the sergeant and his detachment returned, bringing with them the person, who had carried the letter to *Gravesend* and read it there. His name is *James Christy*. The sergeant reported, that he had delivered the letter to the Magistrates, who after reading it, had answered "There he is", pointing out said *James Christy*, "you may take him with you, if you like." As night was setting in, the sergeant said, he had intended to remain there until morning, but some people warned him, that upon his arrival several persons had been sent out, apparently to call up the inhabitants of the nearest English village; then he resolved, to set forth at 2 o'clock in the morning, doing which he arrived here next day.

September 26th, at 8 o'clock A. M. Lieutenant *Stillewel* arrived here from *Gravesend* and reported, that last night about 9 o'clock a young man had come to his house, who, after a few words, proposed to drink the health of a certain girl in *Gravesend*. This was done and while the toast was going round, the young man said, "Go on, I shall return immediately." He had just left, when another young man came in hastily and told *Stillewel*, that there was a party of men on horseback and on foot near his house. *Stillewel* went out and having walked a few steps from his door, they forthwith took possession of his house, saying, they would have *Stillewel* alive or dead, because he had caused *James Christy's* arrest; it was so dark, that they did not see *Stillewel*; he got away and went to the house of his son-in-law *Brittingham*, whom he sent to see, how they had treated his wife. Returning he said, that they had made themselves at home in his house, drunk two ankers of brandy, which they found in the cellar, lighted candles every where and opened all doors, but

* *Stuyvesant* had gone to *Boston* on the 6th of Sept. to confer with the Commissioners of the *United Colonies*.

they had not taken any goods. He therefore resolved, to come here and report, which having been done, it was decided, to send an express to the Director-General at *Boston*, that he might inform the General Assembly there of this occurrence.

It is said here, that the party, which came to *Gravesend*, numbered about 150 men, gathered mostly at *Westchester*, *Middelburgh* and in that neighborhood.

The preceding letter having been opened and read by the Council, the following was written to the people of *Gravesend* :

Worthy, Dear, Faithful.

We have received your letter by your deputies *Charles Morgan* and *William Willekens* and consider, that it contains two points. The first is a complaint against *Mr. Nicolas Stillwel*, our Lieutenant, whom we therefore heard in presence of your deputies and confronted with the same. We find it is more a wordy quarrel, than a matter of great importance and therefore recommend peace and unity to both sides. If *Stillwel* has been guilty of any violence in his expostulations, which he partly acknowledges and partly says, was used in the heat of passion, he has done it without our approval, but nevertheless we confirm and approve what he has done in detaining and arresting *James Christy*. We wish you had anticipated him in this manner and saved him the trouble, which would have pleased us much more. The second point is the relation or report about a party of disturbers of the peace and mutinous loafers. As they have already departed, we shall say nothing about them, but recommend to you herewith, not to allow henceforth such messengers, as *James Christie*, to speak to the community, but to send them to us under guard or detain them and give us speedy advice, that troubles, likely to arise from their proceedings, may be prevented and the good inhabitants continue to live in quiet and peace, as they have hitherto done with Gods blessing. We have no doubt and trust, that you will not fail always to protect the person and property of our said Lieutenant *Stillwel* against all invasions and violences and commending you to God's protection we remain with our greeting

Fort Amsterdam

the 27th of Septbr. 1663.

Your affectionate friends

The Council of *New Netherland*.

Thursday, October 9th 1663.

Present, the Director-General *Petrus Stuyvesant*, the Councillors *de Sille* and *de Decker* and the Burgomasters of this City.

Whereas last night a letter, written at *Middelburgh* upon *Long Island*, informed us, that a party of mutineers had again taken up arms and was stirring there, to reduce that and other villages on *Long Island* for the Colony of *Hartford*, which causes no little trouble to some well affected people, they being threatened every day with loss of their property, if they do not also take up arms against the *Dutch*,

Therefore it is resolved in order to prevent such mischief, that Captain *Thomas Willett* and *Mr. John Lawrence* shall be requested and commissioned to proceed with Secretary *van Ruyven* to said village and to inquire of the Magistrates, by whose authority and commission these rebels presumed to act, who were the ringleaders and what their meaning and intentions are. They shall report to us, how and by what means these rebels may be stopped and resisted.

To-day appeared at *Fort Amsterdam* *Jan van Cleef*, who reported, that he was sent by the inhabitants of *New Utrecht* on *Long Island* to inform the Director-General and Council, that about 300 Englishmen have gathered at *Jamanica*, also called *Rustdorp*, who intend to come to the other villages, Dutch as well as English, and to summon them. He says also, that the son of *Mr. Stillwell* went there yesterday in the forenoon, to make peace, as they say, between these Englishmen and his father about the arrest of *James Christy*.

Eight mounted and well-armed men came yesterday morning to *Jamanica*, to wit, *Barthol-*

omeus Appelgaet, Charles Morgan, Natingh, Thomas Witlock, James Hubbard, William Goulder, Goetman Ben and N. N., who on starting had called out to some *New Utrecht* people, happening to be at *Gravesend*, "How is it now? Will you be the King's or the States' men" and then they rode off.

An Englishman came yesterday to *New Utrecht*, who had hired two oxen to somebody there and now took them away, saying, he knew, that they would be attacked by some English people and if they resisted, the English would try to ruin them completely. He came therefore for his oxen, because he did not wish to suffer loss.

This report was made by said *Jan van Cleeff* in the presence of the Director-General, the Fiscal and the two Burgomasters of this City, at *Fort Amsterdam*, the 6th of November 1663.

After hearing the report of *Jan van Cleeff*, the following letter to the people of *New Utrecht* was given him:

Worthy, Dear, Faithful.

The bearer hereof, *Jan van Cleef*, came before us and said, he had been sent by the inhabitants of *New Utrecht*, to inform us, that there are at *Rustdorp* 300 men in arms and ready, to reduce not only the English, but also the Dutch villages on *Long Island* for the Colony of *Hartford*. If they should come to your village, you will assuredly know what you have to do. We wonder, that we received no written information and as far as we are concerned, we have heard nothing about it. However, if some should come and make such propositions to you, then you must properly defend yourselves and inform these rebels, that they are to address themselves to the Director-General and Council, if they have any thing to say. Relying hereon we are with our greetings

Fort Amsterdam N. N.
the 6th of Novbr. 1663.

Your affectionate friends.

Dear friends.

We are credibly informed, that some unruly persons are presuming,— we do not know on what conditions or under whose commission and authority,— to trouble and excite the good inhabitants of this province, English as well as Dutch, settled under the jurisdiction and protection of the High and Mighty Lords States General and the Lords Directors of the W. I. Company. They intend to come to the village of *Gravesend*, to proclaim there another government and jurisdiction. All our well affected subjects are therefore hereby required, not to believe them, but to keep and continue quiet and peaceable as they have done hitherto, until the differences about the boundaries shall have been settled in *Europe*. We have ordered and required, as we herewith do, Mr. *Nicasius de Sille*, Councillor and Fiscal of *New Netherland*, to proceed to all the villages in this Province of *New Netherland* and oppose such mutinous, illegal acts, proceedings and proclamations by legal measures and we request all and everybody, who shall see this, to assist and aid him.

Fort Amsterdam in *N. N.* 6th of Novbr. 1663.

Note: The Fiscal was to-day sent to *Gravesend* with the above letter, written in English; he had orders to proceed to the other English villages, if he thought it advisable.

The Director-General and Council with the Burgomasters of this City have especially taken into consideration the unlawful, obstinate and unwarranted proceedings of the English at *Hartford*, who cannot be diverted by any inducements or reasoning from their unfounded pretenses and claims; the journals kept by the Director-General, of his transactions at *Boston*, and by the Commissioners, of their proceedings at *Hartford*, fully prove this. The English pretend, that the provisional boundary agreement, made at *Hartford* in 1650, is null and void, because his Majesty of *England* has now definitely fixed their boundaries, and pursuant to their patent they must and shall take under their protection *Westchester* and the English villages of *Long Island*; they have already done the latter, one hundred Englishmen on foot and on horseback have been in all English villages on *Long Island*, have called together the Magistrates and inhabitants, said, it was the King's territory and they should no longer pay tenths and other taxes to the Dutch government: they have deposed the old Magistrates and appointed and sworn in others in their places. Our weak military force, the dangerous and still continuing war with the savages, fear of the total ruin of the country people, if we were to take hostile measures, prevent us from doing any thing against them without express order, advice and the promised support of the Company. Having often considered and weighed all this, we have judged it best and most advisable for the good of the Company and of the country people, to answer the propositions, made by *Hartford*, as follows, in the hope, that thereby further invasions of the Dutch villages may be prevented, until we have made some agreement with the English or received orders from the *Fatherland*.

COUNCIL MINUTES. CONFERENCE WITH LONG ISLAND INDIANS ; APPOINTMENT OF MAGISTRATES ; MILL AT BUSHWICK ; OFFICES OF RECORD ESTABLISHED ON LONG ISLAND.

Monday, the 7th of January 1664, *Tapausagh*, Sachem or Chief of the *Long Island* Indians and *Rompsicka*, alias Capt. *Lambert*, appeared before us, the Director-General and Council, the Burgomasters of this City and the below named interpreters being present.

Tapausagh and *Rompsicka* reported, that about 6 days ago he, *Tapausagh*, and a squaw were summoned by the English to come to *Vlissingen* and were told by them, that a parcel of land, upon which they set, had not yet been bought and they had it in charge and an order from their King, not to settle on any land, not bought and paid for. They would therefore purchase the land. The Indians were asked, who had summoned them, and replied *William Laurens*, however when they came there, *William Laurens* was absent ; but Mr. *Noble* and *Robert Terry* and Mr. *Douthy* and many others, a house full, said to them, "We want to buy the land from you." Being further asked, what they had replied, they said, the woman had told the Englishmen, she was willing to sell a piece of the land, upon which English people sat and which lies nearest, but not all together. The English wanted to buy the whole, upland, meadows and all. He told them, he would confer with his people, whether they desired to sell the land. The English then said, they should fix the price, whereupon they, the savages, told them, "Why should we fix a price, as long as we do not know, whether our people will sell at all or not ? If they desire to sell, then we first want to see the goods."

Asked, whether the people of *Hemstead* and *Rustdorp* or *Jamenico* had not summoned them too, they replied, "no," but Mr. *Hicks* and his son had also been at *Vlissingen* ; they had only been listeners and had not spoken. They further report, that the English had said, three ships would come from *England*, to drive ont the Dutch and *Stuyvesant*, all the land belonged to them and if *Stuyvesant* tried to do anything, they would bind his hands on his back and send him out of the country or kill him ; but if he kept quiet, it would be well and he might remain in his own house and on his land, like any other man.

The report of these savages having been heard, they were told, that all the land on *Long Island*, now occupied by him and other savages, had been conveyed to the Dutch by *Mechowodt*, then chief of *Marsepingh*, the father of *Tapausagh*, on the 15th of January 1639 and that since that time the conveyance had been renewed and confirmed in his own presence on the 12th of March 1656. He was therefore told and warned, that he must not presume to sell or convey to anyone the said lands, so many years ago conveyed to us by his father and by himself, because they are and have long been our property. Date as above.

The interpreters were *Sarah Kiersteside*, Lieutenant *Couwenhoven* and Sergeant *Peter Wel*.

Received and read the petition of *Abraham Jansen Timmerman*, who requests permission to build a mill near the village of *Boswyck*.

Answered :

Before a definitive answer is given, the petitioner must come with the Magistrates of *Boswyck* before the Council and give some information as to the place. Date as above.

Honorable, Wise, Prudent Gentlemen,
Honorable Director-General and High
Council of *New Netherland*.

The Commissioners of the village of *Boswyck* have read your answer to the petition of *Abraham Jansen Timmerman* and by our messenger we have inquired among the inhabitants of *Boswyck*, whether anybody would be injured by *Abraham Jansen's* intention to erect a water grist mill on *Mespathkil* at a place well known to them. The messenger reported, the inhabitants had told him, that such building would not be in their way, but they heartily wished, that it was already erected, because it would be of great advantage to our village. of the said *Abraham Jansen* can satisfy the owners of the meadows, the soil and the water, we, the Commissioners, have no objection on our part and allow him to erect a mill. Commending your Honors to Gods blessing we remain

February 7th

Abraham Jansen Timmerman came before the Board and exhibited, pursuant to the appointment of January 28th, the written answer of the Commissaries of the village of *Boswyck*, which having been considered by the Director-General and Council, the petitioners request of the above date was granted and it is hereby granted, on condition, that he shall pay such taxes and royalties as other mills are paying or may hereafter have to pay and that he shall satisfy the owners of the land and meadows. Date as above.

To the Noble, Very Worshipful Director-General
and Council of *New Netherland*.

Respectfully show the Schout and the Schepens of the villages of *Midwout*, *Breuckelen* and *New Utrecht*, that experience has taught and is daily teaching them, that many irregularities and

confusion occur among the inhabitants of said villages, because parcels of land, houses and lots, which have been sold, are not properly conveyed: for it often happens, that a piece of land, a house or a lot is sold four or five times without a deed for it having been given and a receipt for the purchase money taken, because the persons considered the trouble, loss of time and expenses, caused by coming to *Fort Amsterdam* to have the deed properly recorded in the Secretary's office. As it is an old custom in Holland, that all real estate is conveyed and transferred before the Schepens, in whose jurisdiction it lies, and in order to prevent the confusion and irregularities, likely to arise through the neglect of having it properly conveyed,

Your petitioners turn to your Honors respectfully requesting, that you will favor your petitioners with the authority and allow them in their aforesaid quality and by their Secretary of the four villages, to have the conveyances of real estate, already sold or hereafter to be sold there, made before the Secretary in presence of two Schepens of the village, where the property is situated. Also, that henceforth the petitioners may take acknowledgements, before two Schepens of the respective village, of mortgages and bonds: the petitioners shall keep a separate record of the conveyances and mortgages in each village. Which doing etc.

ORDINANCE FOR THE RECORDING OF DEEDS AND MORTGAGES IN BROOKLYN, FLATBUSH, FLATLANDS
AND NEW UTRECHT, PASSED FEBRUARY 14th 1664.

(See Laws of *New Netherland*, p. 459.)

Worthy, Dear, Faithful.

Our answer to your petition is contained in the enclosure. This serves only to recommend and direct you to take care, that no deed or mortgage of any piece of land, house or lot be passed, of which no proper patent can be produced, so that our good inhabitants may not be cheated and misled, for deeds and mortgages of property, for which no patent has issued, are null and void. In passing deeds, mortgages etc you will use the seal, sent herewith, until further orders. Wherewith etc.

February 14th, 1664.

To the Noble, Very Worshipful Director-General
and Honorable Council of *New Netherland*.

Noble, Very Worshipful Gentlemen.

The present desolate condition of *New Netherland*, caused as well by the English as by the savages, has induced us to turn to your Honors with the humble request, that you will please to call a meeting of the delegates from the several Dutch villages on *Long Island* at an early day and favor it with your presence, for we desire to select two men, who have property on *Long Island* and have suffered under *John Scotts* summons, and persuade them to go to the Fatherland

by the first ship and report to the Lords Directors and their High: Might: the Lords States General, what has happened to the village on *Long Island*: we have no doubt, that we will be supported. Which doing we remain

In their name,
ADRIAN HEGEMAN, their Schout & Secretary.

Received and read the foregoing request. It was answered:

February 21st.

The Director-General and Council find the request to be just and the petitioners have therefore permission, to meet in the village of *Midwout* on Thursday, the last day of this month. In the meantime they must inform the inhabitants of *Bosweyk*, that they may come there either themselves or by delegates on the same day. The Director-General and Council or their representative will also be there then, to hear their propositions and consult with them concerning the welfare of said villages.

CERTIFICATE OF THE REMOVAL OF SOME ENGLISHMEN FROM SCHOUTS BAY IN 1640.

March 10th 1664.

The Director-General and Council of *New Netherland* certify and declare herewith at the request of *John Cooper*, a resident of *Southampton* on *Long Island*, that the six or seven Englishmen, who attempted to settle at *Schouts bay* on *Long Island* in the year 1640, were brought away from there by order of the Director General and Council, then in office, as shown in the annexed extract. It was about the middle of May 1640, after they had broken down the arms of their High: Might:, erected there long before, and, as they acknowledged, put up in place of it a fool's head. Eight years before, that is in the year 1632, subjects of their High: Might: had begun to settle on and occupied this western part of *Long Island*, eight or nine years before any other nation had settled on any part of *Long Island*.

EXTRACT FROM A LETTER OF STUYVESANT TO THE DIRECTORS: FORTIFICATIONS ON LONG AND STATEN ISLAND; JOHN SCOTT, AND THE ENGLISH ON LONG ISLAND. (APRIL 26th, 1664.)

* * * * *

The first point in your letter, requiring an explanation, is the wish, expressed by you, concerning the settling and securing of both *Long* and *Staten Islands* near the *Narrows*. Your Honors' servants are and have been taking care of this and carried it out some time ago by forming hamlets on both islands, according to the circumstances and the convenience of the places and soil as near to the *Narrows*, as the accommodation of settlers would permit. First the village of *New Utrecht* was formed and laid out on *Long Island*, about a quarter of an hour's travel inland from the *Narrows*, there being no convenient place nearer for the location of a village; it is settled by about 22 to 24 families of the *Dutch* or *Netherland* nation. A hamlet, not yet named, was begun on *Staten Island* about two years ago and has now about 12 to 14 families of *Dutch* and *French* from the *Palatinate*; it lies about half an hours walk from the *Narrows*, there being no more convenient place for a village nearer the water. Both these places were provided with commodious blockhouses as a defense against the attacks of the savages last summer; the blockhouses are built by putting beam upon beam and for their better defence are each provided with two or three light pieces of ordnance, of which one or two are *pedereroes*: the hamlet on *Staten Island*, being the weakest and too far to be relieved in time, is garrisoned with ten soldiers for its greater safety. We trust, that these arrangements satisfy your wishes in this direction.

* * * * *

As to the third and principal point, namely the unlawful, not to say decidedly hostile proceedings of the *English*, we do not desire to bother you with a repetition of our former report, but refer you to our last letters by the "*St. Jacob*" and "*Vergulde Steere*," duplicates of which go herewith. If you will once more read them and then take into consideration the proceedings of one *John Scott*, fully reported in a remonstrance from the *Dutch* villages of *Long Island*, which still remain under your government, (God knows, for how long,) and verified by attestations of the remonstrants, here enclosed; you will agree with us, that they prove sufficient that the malevolent *English*, *John Scott*, as well as the people of *Hartford*, have received further order, intelligence or encouragement from *England*, either from the King, the Duke of *York* or some other great men than their new patent; even though your opinion differs and you inform us, that they would receive no support from that side. Their hostile attempts and daily increasing threats and affronts, better known to us and the good inhabitants, than can be expressed in writing, are a sufficient proof, that they expect something else, unless your vigilance and the representations by their High: Might: to his Majesty of *England* prevent it by the determination of the boundaries. If this cannot be accomplished speedily and before the summer, then we must fear as an inevitable

consequence, that notwithstanding the provisional patent and the peremptory orders and letters of the States General * to the *English* and *Dutch* villages, they will forcibly make themselves master of the whole of *Long Island* and further take possession of the *North river* and of the *Esopus* and the *Newesings* on the other side of it. A considerable number of people from *Gravesend* have lately been at the *Newesings*, to take possession of it.

You reply very categorically, that "*so unbearable proceedings of so dangerous and farreaching consequences must not be suffered, but prevented by all possible means, anyway as far as with the power and means within your reach you can do it*" and you further order and charge us in your letter of the 2^d of February **: "*we therefore recommend to you herewith, to maintain the authority of their High : Might : and defend their jurisdiction with the means, now within your reach, and strengthened by the soldiers now sent to obey the letters of their High : Might : and maintain the patent now given and therefore to deliver immediately the letters to the village on Long Island and the mainland, publish the patent, sending at the same time such military force, as you have there, to depose the Magistrates, appointed by the English and reinstate the former, after which you shall leave the soldiers in the said villages as garrison, to prevent the people of Hartford from returning and repeating their proceedings.*"

Very worshipful Gentlemen! We must confess, your recommendations and orders are categorical enough; to maintain the jurisdiction and authority of their High : Might : and of your Honors, to redress and revenge the affronts, to which we had to submit, it is requisite and necessary, that they should be carried out and we could execute them with the soldiers, now sent by you, and the force, which we had before, first in one, then in another village, as long as the soldiers were kept in one detachment,—if we had not to expect and fear something worse, namely an inevitable surprise and capture of all the Dutch villages on *Long Island*, still under your government, the total ruin and spoliation of their houses, cattle and fields and consequently unavoidable poverty, famine and destruction of the Dutch nation, who will not submit to English government. In your usual wisdom and far seeing judgment you can easily conceive these fearful consequences, if you will only recall to your mind, what has been done in this direction by one *John Coe* with about 70 to 80 men on foot and on horseback and shortly after by *John Scott* with 170 to 180 men, raised on *Long Island* only, without help from the Colonies and what we and the good inhabitants thought, judged and reported to you about it, namely, that they only hoped, desired and expected, to meet with firm resistance or to have somebody shot or wounded, which would have given them cause, to surprise, plunder and altogether to ruin the Dutch villages. You must further consider, that if the patent and the letters of their High : Might : shall be enforced conform to your orders and recommendations, if the illegally appointed Magistrates are to be deposed and the old ones reinstated and if for the support of the latter against the *Hartford* people only 20 soldiers are stationed in each English village, of which there are six, our little force will be scattered at once and each detachment left to the mercy of rebellious Englishmen of the village, where it is stationed. Should *Hartford* give them the least support and in case of opposition our soldiers be killed or of non-resistance be captured in further derision of our authority, then the whole province would be in danger and on the one side at the mercy of envious English neighbors, on the other side, and this is worse and more dreadful, of the barbarous savages. For these and other good reasons, based upon the present situation, and for the better securing the country and some Dutch villages and hamlets, we have deemed it best, to follow the advice of their High : Might :, that we should consider the state of affairs and our own means and keep the latter

* See Col. Doc., Vol. II., pp. 218, *et seq.* & 219, *et seq.*

** Not on record.

together for the preservation of what we still have, rather than to endanger everything by scattering our forces and offering resistance. It must be further considered, that for the sake of preserving the Dutch villages on *Long Island* and of keeping off the rebellious troops of *John Scott*, which as we said above numbers 170 to 180 men, foot and horse, also to save the said Dutch villages from being plundered,— we have been compelled, to make an agreement with him and his people for the space of one year, to the effect, that for the prevention of bloodshed and plundering the question about *Long Island* should be referred to our mutual home authorities, the subjugated or rebellious English villages remaining as they then were and the Dutch continuing in peace and quietness under your government. We would not like to break our word and promise by beginning hostilities or evade it in other ways, because we wish to deprive them and all others of reasons for complaints. We shall not fail in the meantime, to forward the letters from their High: Might:, of which some, that is those sent by the “Bever,” have not yet arrived in the most reasonable and convenient manner to the said English villages, admonish them at the same time and see, whether we cannot induce them, voluntarily to come back to their allegiance. We hope to accomplish more by keeping our promise and using persuasion, than by hostile opposition; anyway it will place the country people into less danger. We long to learn the result of your representations to their High: Might: and through them to his Majesty of *England* concerning the needed and long desired settlement of the boundaries. If it cannot be obtained and accomplished and if your servants and good inhabitants do not receive further succor and sufficient protection from you or, upon your request, from their High: Might:, our sovereigns, then it would be folly on our part, it would be like running with our heads against a wall, to make a hostile opposition, much more to make an attack and do anything against our promises and the provisional agreement, even though only the direst necessity compelled us to make it. Considering our present force, the situation of affairs and the unsafe position, in which we still find us as regards the savages we deem it best, to await further developments or more help and succor and remain on the defensive, for they can bring into the field ten, if not twenty, against one of ours.

COUNCIL MINUTES. MILL ON HOGS ISLAND; GOWANUS BAY; TENTHS.

Before the Council appeared *Jan von Bommel*, a carpenter, who requested permission, to erect a water mill near *Hogs Island* and that in consideration of the expenses, which he will have to incur, nobody else shall receive permission for some years, to build a mill in that neighborhood.

Having heard the request and having voted upon it, the Director-General and Council grant the petitioners permission, as they do herewith, to erect the mill, as desired, and during a period of three years nobody else have their consent, to build such a watermill in that neighborhood.

Council of *New Netherland*.

Respectfully shows *Adam Brouwer*, in the name of the inhabitants of the *Gouwanis* and other persons on the *Manhattans*, that there is a kil between the end of *Frederick Lubbertsens*

land and the *Red Hook*, which could be turned into a passage to the *Gowanus* and the mills, without going round West of the *Red Hook*, where the water is ordinarily very low; the said kil is now filled up with sand at one end, but with little trouble and labor it can be made navigable by dredging, so that boats, carrying one hundred schepels of grain or a full load of wood etc could pass through it. As your petitioner is aware, that neither he, nor the persons, in whose name he makes this request to your Honors, could presume or undertake to dredge and make the said kil navigable without your Honors' consent and approval, he humbly requests in the behalf as aforesaid, your Honors will consent and permit, that the kil may be dredged and made navigable as aforesaid at the expense of the petitioners, which would be of great advantage to the inhabitants here and at the *Gowanus* and in times of hard weather would apparently prevent disasters. Awaiting your Honors' favorable decision etc we remain

Received and read the foregoing petition of *Adam Brouwer* etc and heard at the same *Frederick Lubbertsen* mentioned therein, as the meadow belongs to him. He declares to have no objection against the dredging of the kil, provided that it shall neither now nor hereafter prejudice his title to the meadow.

The Director-General and Council of *New Netherland* therefore allow and consent to the dredging of the kil at the expense of the petitioners, saving the rights of *Frederick Lubbertsen* and others, who may have interests there. May 29th 1664.

Whereas the Director-General and Council are informed that some of the farmers, living in the jurisdiction of the village of *Breuckelen*, have failed to pay their tenths according to covenant, although they have been called upon by the Schout and the Courtmessenger on several occasions, Therefore said Schout, *S^r Adrian Hegeman* is hereby authorized and directed, to summon and order such persons, who have not paid their tenths, to pay their dues in three times twenty-four hours on pain of execution. Date as above.

EXTRACT FROM A LETTER OF STUYVESANT TO THE DIRECTORS: ENCROACHMENTS BY CONNECTICUT:
EFFECT OF THE STATES-GENERAL'S LETTERS IN LONG ISLAND. (JUNE 10th, 1664.)

*

*

*

Although the English of *Hartford* have not committed any act of hostility since our last letter, they continue with their threats, invasions and claims. They have now purchased from the savages all the land between *Westchester* and the North river, up to the river, including the

several tracts of land, which Director *Kieft* or we had given out by the usual patents and which in virtue thereof had been occupied and settled by people of our nation, for instance the land of *Jonas Bronck*, also the land which old *Van der Donck*, his children and partners divided into several boweries and plantations, but which were deserted at the time of the massacre in '55, and several others, all adjoining this island, from which they are separated only by a very narrow kil, fordable at some places, when the water is low. The savages report, that they have also tried to buy other lands on the East and Westsides of the North river.

On *Long Island* matters are *in terminis*, as reported in our last letter, to which we refer. The five Dutch villages *Amesfoort*, *Breuckelen*, *Midwout*, *New Utrecht* and *Boswyck* with their dependencies continue, to remain so far under your government and jurisdiction, God knows for how long; the five English villages, *Gravesend*, *Hemsted*, which is half Dutch, half English, *Vlissingen*, *Rustdorp* and *Middelburgh*, whose names and Magistrates were changed, as we reported, remain in revolt.

The letters from their High: Might: were delivered by the Underschoont *Resolved* (*Waldron*) and Courtinessenger *Claes van Elstrand*, as soon as the "*Bever*" had brought the last. We added to them an address, of which a copy is here enclosed. They had no effect whatever upon the English, at least not upon their intruding Magistrates and the followers of the latter. As the bearers reported, they hardly condescended to receive, much less to read them, but sent them immediately to *Hartford*, without having opened or read them, as if they wanted to say and indicate, "You may get your answer there."

We were informed yesterday by Captain *Thomas Willett*, Mr. *John Lawrence* and other well-affected Englishmen, that these letters of their High: Might: made neither any impression on the General Court at *Hartford*, who generally believed, that they had been fabricated and forged by the Company in *Holland* or by your servants here; they say, the States General have nothing to do with this province; they knew, it belonged to the King and was granted to them by their patent. The last General Court of *Hartford* has therefore resolved and decreed according to Captain *Willett's* and Mr. *Lawrence's* advices, to reduce the whole of *Long Island* and to establish their government there. You may easily judge from enclosure No.—, a report made to Lieutenant *Couwenhoven* by *Wapping* Indians,* what will be the fate of the remaining part of *New Netherland*, if it should happen, that the English not only subdued *Long Island*, the key to the Northriver, either by anticipation or by force, but also came to occupy the North river to the Eastern bank, as they not only say and threaten, but of which we have proofs that they are doing it.

PETITION OF THE REVEREND HENRY SELYNS FOR HIS DISMISSAL FROM THE CHURCHES AT BROOKLYN
AND THE BOUWERY.

Gentlemen.

Your Honors' petitioner and subject respectfully submits, that with the special help and blessing of God he has served his churches in the settlement near the Director-General's Bouwery

General and Council of *New Netherland*.

and at *Breuckelen* and that he has now asked for his dismissal by the Company, the term of years, for which he had engaged himself, being about to expire. The dismissal was granted in consideration of the expiration of his time and of the great age of your petitioner's father, who obtained the discharge with the assistance of the reverend Domine *Jacobus Friglandius*, Pastor at *Amsterdam*, and wrote concerning it to the General.

He requests, that your Honors will consent to his dismissal and considering the ships are now ready to sail, allow him to depart in the "*Bever*," in which he came. He has no doubt, that when D^r *Samuel Megapolensis*, Pastor and Medicinæ Doctor arrives, your Honors will have a good opportunity, to fill your petitioner's place, and that your Honors will give the petitioner a favorable reply.

EXTRACT FROM A LETTER OF STUYVESANT TO THE DIRECTORS : IMPRISONMENT OF JOHN SCOTT ;
LONG ISLAND AND THE ENGLISH ; (AUGUST 4th 1664.)

* * * * *

We confess, we informed you* and it is our opinion, that not all has been lost yet, which might not be recovered and replaced by an equal force, but under this proviso, which we already stated in our letter, "if we had not to expect or fear something worse." In our detailed despatches of the 26th of April by the "*Stettyn*" and of the 10th of June by the "*Vos*," to which we refer, we have clearly and fully shown, what this proviso presupposes and why, notwithstanding your categorical and now repeated orders concerning the recovery of the English villages and their High : Might : letters, we have not executed them with the military force, here enlisted, and the 46 or 47 men, who arrived in the ships "*Trouw*," "*Gekruyste Hert*," and "*Bever*." We requested you, to consider our arguments in your wisdom and farseeing judgment and then to advise us by he next ship, whether you desired us to execute your repeatedly given absolute orders in regard to maintaining the patent and recovering the rebellious English villages on *Long Island* in the manner, prescribed by you, notwithstanding the consequences, which may be expected and therefore feared to arise, if the boundary question is not settled and no further or sufficient succor is sent. We described them in our beforementioned letter of April 26th and believe, that we gave you full and detailed information on this subject, which, as you say, your servants, being here on the spot, can do better, than you writing from there.

Your supposition, that it is "only a rebellious troop of 150 men" is clearly and undeniably proved by the authenticated information and reports sent to you ; but it is not so clear and undeniable, that this rebellious troop has not to expect relief or support from elsewhere, as our letters by the "*Stettyn*" and "*Vos*" tell you.

The majority of these rebels, who had first set up *John Scott* and made him their chief and president, changed their minds through the efforts of *Hartford* people, who imprisoned *John Scott*,

* See the letter of the Directors, dated April 21, 1664, to which this is an answer, in Vol. II, p. 235.

because he had attempted to usurp to himself the government of *Long Island* in the name of his Majesty of *England* and of the Duke of *York*; while he acted under a commission and orders, which the people of *Hartford* had given him by virtue of their patent, to subdue *Long Island* for them and bring it under the government of the Colony. Governor *Winthrop* himself and some of the Commissioners of *Hartford* came to *Long Island* last June, and, as they told us, at the recommendation of the other three Colonies, deposed the Magistrates appointed by *Scott* in the villages of *Heemsteede*, *Vlissingen*, *Rusthlorp*, *Middelburgh* and *Gravesend* and making the officers, appointed by them, swear allegiance to the King, promised them help and assistance against all and everybody, who should resist. We, your faithful servants here undersigned, were witnesses of it, as the Director-General and Secretary *van Ruyven* with Burgomaster *Cortland* and several other prominent burghers had proceeded there, in order to protest personally against such disorders, which was done in all the villages, except at *Heemstead*, where they had arrived before us and without our knowledge and had done their business. It was of no avail and you may easily see, how unfounded your supposition is, that "it does not appear, the rebels will receive support from elsewhere" or that "the other three Colonies will declare these proceedings illegal and Governor *Winthrop* will not approve them." It is therefore so much more necessary to await your further orders after this report; while on this subject you ought to be informed also, that, although the majority of the inhabitants of the said English villages have submitted to the government of the Colony of *Hartford* and sworn allegiance to it, not all, as far as your undersigned servants, then present with Governor *Winthrop* and his suite, could observe, a fair third of the inhabitants would have preferred to see it otherwise and to remain under your jurisdiction and government; but the promises of assistance and the threats, publicly uttered with the most assuring words by Governor *Winthrop* and the Commissioners, made them afraid of worse consequences and of losing every thing and they dared not say openly, what they told us in private, that they only wished and hoped, the question would be referred to Europe to be settled between his Majesty of *England* and the States-General by a determination of the boundaries or otherwise without any further injury. Protesting loudly, but vainly, in the presence of all the inhabitants of said villages, that they held themselves innocent of all harm and bloodshed, likely to follow such proceedings, your officers insisted upon a reference of the case to Europe; but the Governor and the Commissioners of *Hartford* continued to make changes in the Magistracy and to administer the oath of allegiance, positively declaring, that their patent and commission gave them sufficient power and authority for it. They also stated, reading to the people from an open letter, that they had been requested and urged by the other three Colonies and what your faithful servants replied, alledged and proved against them was all in vain, as if talked against a wall: we told them, that we, the first discoverers and owners, had held possession of *Long Island* now for 40 years, 20 years before the English came; that we had bought the land lawfully from the natives, the real owners; that the English, now withdrawing against their oath and duty from our jurisdiction either because persuaded and misled or from malice, had acknowledged our purchase, possession and jurisdiction as lawful by petitioning us and our predecessors and having asked their or our consent and patent to establish and continue these same villages; that they had voluntarily submitted to our government and jurisdiction, some 20, others 22 to 23 years; further that in making the provisional agreement at *Hartford* in 1650 it had fallen to our share and last year it had been agreed at *Hartford* between us and the Commissioners of *New England*, among whom was Governor *Winthrop* himself, that the old convention of *Hartford* should remain in force until further orders and

decision from our mutual sovereigns; and everything else, that could be said and alledged, too long to repeat here. It is the King's land, they are mostly the King's born subjects and it shall be and remain as it is without any further discussion, conform to the saying: *Sic volo, sic jubeo, stat pro ratione voluntas*. We shall now anxiously and patiently await your further directions upon this and our former reports and when received, carry them out; in our humble opinion, though based upon better information, it would be more advantageous to the inhabitants and safer and less expensive for the Company, if the matter could be settled through a determination of the boundaries; if not, then we require a greater force and succor of soldiers and ships, not so much to reduce and punish the rebelling villages, as to maintain and hold with hope of success the diminished province and what did not yet require a reduction — our honor.

We shall not discuss now, much less say anything against the following parts of your letter and the impressions, which you have received from your advices from *Old England*; that the King would like to bring all his dominions under one form of government in political, as well as in ecclesiastical matters; that therefore some Commissioners (with two or three well armed and well manned frigates with soldiers aboard, they say here,) are ready in *England*, to proceed to *New England* and introduce there Bishops, as in *Old England*. Nor shall we speak of what you say and advise for our and the inhabitants' welfare and encouragement; but we wish and hope that it will come to pass, as you suppose, if it will be for the best of God's church and ourselves. Meanwhile we cannot omit to communicate and respectfully submit to you the contradicting verbal and written reports about this matter, by which we are daily warned and informed, for which we refer to enclosure No. — and to the verbal relations of passengers and skippers, coming from here, to wit: that the real design of these Commissioners with their frigates and soldiers is rather upon *Long Island* and your other possessions here, than an imaginary relief of *New England*. Several circumstances make us believe, that the former is the more probable, among others the patent, granted to *Rhode Island* last year, in which the King gives liberty of conscience and religious service to everybody, even to Quakers and Anabaptists, who are there the most numerous and influential. Then, as we have already informed you and which is now confirmed, that *Long Island* and all the adjoining islands, *Rhode Island* excepted, have been conveyed by patent to the Duke of York and that for that purpose the frigates have been so well provided with ammunition and soldiers. Although time alone can show the result and consequences, these and similar rumors, coming up so often and confirmed in all letters and by every passenger from *England*, make us very circumspect, anxious and watchful; we keep the military force under our command as close together as possible, heighten the walls of our fort, strengthen it with gabions and make all arrangements for defense. It is not our least anxiety, that we have so little powder and lead on hand, there being only 2500 lbs in the magazine and besides that not over 500 lbs among the militia and inhabitants here and at *Fort Orange*, as we are informed. You can easily judge, that this supply will not last long, for it is not more than two pounds of powder for each man able to bear arms and then we have nothing left for our artillery, if we have to sustain an attack. We hope, that it will not come to that, but we must most urgently request you, immediately and successively to provide us better, than hitherto, for the preservation and protection of this capital, which if lost, all is lost, with the following war materials: powder, lead, grenades and small arm; else the great expenses of building a wall of stones around the fort, which is daily being made higher and stronger, will be speedily lost for want of the necessary ammunition and to the dishonor and shame of the nation and your faithful officers.

You give us hope, that the attempts made to obtain a settlement of the boundaries, begin to

look favorable, because the interests of the East and West India Companies having been seriously taken into consideration by their High: Might: and the Lords States of *Holland*, it was advised to have the boundaries between the two nations generally settled, in *Asia*, *Africa* and in *America*. We wish and pray the good God, that he will bless the means employed for this purpose, so that we and your good inhabitants here were at last relieved from the fear of imminent misfortune and could peaceably live with our neighbors. We sent you by the "*Slattyn*," the desired authenticated copies of contracts and conveyances for divers tracts of lands, bought from the natives. During the discussions and discourses with our English neighbors, concerning the extent of jurisdiction and ownership, at the general meetings in *Boston* and *Hartford* and lately with *Winthrop* and his associate Commissioners, we have learned by experience, that such deeds of sale and conveyances are little respected by them, especially when they are of an earlier date, than their own documents; they have always some exception to take or objection to make, for instance, that we had not bought from the real owners, that they had no right to sell this or that piece of land, that the savages declare now not to have sold so much land and similar pretences. But when their deeds are older than ours, then they must be accepted as valid without objection. This is an instance; among others we have here certified copies of the titled deeds for the land on *Hartford* river and of the eight witnesses, who were present at the purchase, five are still living, who can and are ready to confirm under oath, that the land was purchased and taken possession of, before any Englishmen ever had come to the *Fresh* river, that it was purchased from the savages or natives, who then owned and occupied the land along the river and declared themselves to be the lawful proprietors of it. Notwithstanding these proofs, our people have been driven from and robbed of their purchased property by the English under the pretext, that it had not been bought from the real owners, that therefore our purchase was unlawful, but theirs was lawful, even though of so much later a date, than ours; at the same time they could not produce any more or better proof, as to who were the real owners, than we, for the barbarians will lie and as they can neither read nor write, their word *meum est* is the only evidence which after a year or even less somebody else will contradict, saying often with the assent of the first seller, *it is mine*. We know from experience, that speaking falsehoods and thieving are not considered dishonorable among them. For your information we have allowed ourselves to grow somewhat prolix in verifying and considering, what you say about this matter, namely, that in a case of disputes *de limitibus Imperii* particular stress must be laid on the first discovery, first and oldest occupation and possession, which you have undeniably established as regards the three rivers, the *South*, the *North* and the *Fresh*; proofs of your jurisdiction are the *Forts Nassau* on the *South* river, *Amsterdam* and *Orange* on the *North* and *Hope* on the *Fresh* river. Under your patent one *Abraham Pietersen* of *Harlem*, who is still living, has in your name taken possession of *Quotenisse Island* in *Narrycanse Bay* near the *Red Island* and of another island above and near the *Pequod* river, which is called *Dutchman's Island* by the English to this very day.

We received among other papers and enclosures by the last ships also an extract from your resolutions, dated January 24th and a letter to the Director-General referring to it, in which you seriously recommend us, to treat with kindness the French families, which were to arrive here from *Rochelle* and from *St. Martin*, to allot to them good parcels of land and assist them in every way. Your faithful servants shall not fail to obey your directions: we shall promote this work, so highly recommended by you, by all possible means and above all others, as far as our responsibility to you permits; you and the coming emigrants may be sure of it. Seven or

eight persons of that nationality came over for that purpose by the last ship, the "*Eendracht*," to view the land. As far as the shortness of their stay here allowed, they have done it and being most pleased with *Staten Island* some of them, among them one *Jean Collyn*, addressed themselves to us and he said, for the better promotion and speedier execution of the plan they had resolved that he should return in person by one of the ships and report to the others: he therefore requested our recommendations to you, that you would favor them with as favorable conditions and as much assistance, as possible and fair; especially that you would please to allow your answer to a petition, made to you on the 14th of April 1661, take effect, so that they could be provided with a good French preacher, which would help to promote the undertaking. They informed us, that the preacher at *St. Martin* was willing and could easily be persuaded to come here, if your Honors or perhaps we ourselves were to encourage him by a letter. In their name we request you to write such a letter and to save you and us the trouble of repetition we have given them a copy of this recommendation, not doubting, that for the best of the country you will favor them with whatever your wisdom deems advisable.

PROCEEDINGS TO ASCERTAIN THE TITLE TO CERTAIN LANDS AT OYSTER BAY, L. I.

Oct. 20th.

Whereas *Henry Lenington* of *Hog Necke*, neare *Oyster Bay* on *Long Island* being served with a warrant from mee, to shew just cause for his keeping possession of a certain piece of Land, which the Towne of *Oyster Bay* layes claime to, by purchase from *Govert Looquermans*, and the said *Henry Lenington* & *Govert Looquermans* being this day before mee where the said *Govert Looquermans* on his part produced several writings to prove his title, but the said *Henry Lenington* had nothing to shew, save only a Lease from *John Conklinge* to him the said *Henry Lenington* & *John Plott* with a warranty to save them harmlesse, but no recital by what power hee the said *John Conklinge* Layed Clayme to the land afore. These are therefore to require the said *John Conklinge* to make his personall appearance before mee in this ffort on the 20th day of November next, then & there to shew his clayme and title to the said land in difference between them that I may proceed to give my Judgement thereupon according to Equity & good conscience. Hereof hee is not to fayle. Given under my hand at *fort James* in *New York* on the Island of *Manhatans* this 20 Oct^r. 1664.

Whereas a Warrant was Issued forth under my hand bearing date the 20th of October last for *John Conkling* to make his personall appearance before me on a certaine day, to show his Title and claime to a Parcell of Lands on *Long Island* in difference between the said *John Conkling* and *Govert Lookermans* of this Towne, and both p^{tyes} this day having produced severall Deeds and writings to prove their Titles to the Lands in question (That is to say) *John Conkling* on his p^{te} brought a copie of a Letter of Attorney bearing date April 20th, 1637, made by *Wm. PROCEEDINGS IN A SUIT ABOUT THE TITLE OF HORSE NECK, L. I.

The Proceedings at the Generall Court of Assizes held at *New Yorke* on the Island of *Manhatans*, before y^e Governo^r and his Councill, and the Justices of the Peace of *Yorkshire* upon *Long Island*, on the 28th, 29th, and 30th dayes of September, and the 2^d, 3^d and 4th dayes of October, in the 17th year of his Ma^{ties} Raigne, Annog Domini 1665.

September the 28th. *John Richbell* P^l.

The Inhabitants of the Towne of *Huntington*, Def^{ts}.

The Names of the Juro^{rs}. *Richard Gildersleeve*, foreman of the Jury. *John Symonds*, *William Hallett*, *Henry Pierson*, *Edward Titus*, *Thomas Smith*, *John Burrowes*.

M^r *John Rider* Attorney for y^e p^l.

The P^l declares upon an aegon of Trespasse for that the Def^{ts} have given him unjust molestagon, in the Possession of a certaine parcell of Land, commonly called *Horse Neck*, to his Damage etc, where upon hee brings his Suite. To prove his Title, The P^l produces a Bill of sale of the said Land, from *Richard Russell*, & *Nicholas Davison*, who were appointed by the Gen^{all} Court at *Boston*, to administer upon all the Estate, both Reall and Personall, of *Samuell Andreeves*, who dyed Intestate, at *Charles Towne* in *New England*. The P^l proves the Purchase of the said Neck of Land, for a valuable consideraçon by *Samuell Andreeves*, from *Daniell Whitehead*, who was y^e first Purchaser thereof from y^e Natives, Sept. 20th 1664.

After that *Samuell Andrewes* had made his Purchase from *Daniell Whitehead*, hee obtained a Confirmacon thereof, from the grand Sachem *Wyandance*, which was produced.

Nathaniell Silvester declares in Court, That hee is a witsesse to the Confirmacon, and that hee disbursd the Pay for it, at y^e Request of M^r *Andrewes*.

Richard Woodhull, Sworne in Court, Saith hee accompanied Sam^l *Andrewes*, and *Daniell Whitehead*, to *Shelter Island*, where y^e Grand Sachem Mett them, and Confirmed the same, and that returning Homeward, hee mett one *John Gosby* of *Huntington*, who said he was Employed by the towne, to Purchase the said Neck of Land of the Sachem for their Towne, but hearing of the said Confirmacon, hee said hee was come too late, and so returned Homeward.

John Scudder, (not sworne) declares in Court, That hee being then an Inhabitant of the Towne of *Huntington*, knoweth that M^r *John Gosby* was so Employed by them, and that hee returned with the Answer, That hee went too late.

Cap^t *John Underhill*, Sworne, Saith, That hee then living at *Southhold*, M^r *Andrewes* came & told him hee was going to gett *Horse Neck* Confirmed by the Sachem, returning, hee call'd on him againe, and said, hee had done his businesse, and that a While after, *John Gosby* coming to him, told him what hee came about, but was come too late.

The Attorney for the Plaintiffe pleaded likewise a verdict obtained by the Plaintiffe at the General Meeting held before the Governo^r at *Hempsteed*, in y^e beginning of March 1664, Where upon hee had judgm^t given for him, against *John Conckling*, who sued for the same Land in the behalfe of his Wife and some Orphans, and had an order for possession accordingly.

M^r *Leveredge* Attorney for the Defend^ts in Answer to the Pl^ts Declaracon, denies the unjust Molestacon, p^rtends the want of timely benefit of y^e Declaracon, and Alledges that the judgment and Order at y^e Gen^{all} Meeting at *Hempsteed*, concern'd onely *Concklings* p^rteneces, not theirs.

He argues the def^ts Title to *Horse Neck*, to bee more valid, as being more antient then y^e Pl^ts He produces an Assignm^t from the Inhabitants of *Oyster Bay*, of all their Rights to the Lands at *Huntington* &c, bearing date the 2^d Aprill 1653. Wherein hee saith, *Horse Neck* is included (though not by name mentioned) as not being excepted, and that it comes within their Line, for prooffe hereof, two Deposigons are read in court. The one from *Thomas Benedict*, sworne before Justice *Denton*, the other from *John Corce*, sworne before *John Strickling*, (who lives out of the Governm^t) They are both to this purpose, That after the first Purchasers had sold theirre Lands, to those of *Huntington*, some of them bethought themselves of *Horse Neck*, and desired that they might have halfe of it, and if not the one halfe, then that they might have Liberty to put their Horses on it, but both were denyed them.

Mr. *Leveredge* alleadges, That this desire of the first Purchas^{rs}, after their Resignacon, implyes that they were sensible they had parted wth their right; Hee likewise pleads Possession of the said Neck, near double 4 years, wthout any Legall demand, or just molestacon. The attorney for the Plaintiffe offers to prove, That *Horse Neck* was not included in the Resignacon made by the first Purchas^{rs}. *Daniell Whitehead*, one of the first Purchasers of the Lands at *Oyster Bay* and *Huntington*, not admitted to take his Oath, it being alleadged, hee was a party, declared that *Horse Neck* did never belong to either of the Townes, it being reserved by the Indiyans at their first sale, for Hunting, and y^t Mr. *Leveredge* being told by a Cheife Sachem, hee writt to the said *Daniell Whitehead* to buy it, otherwise Hee should not come to live at *Huntington*.

Robert Williams, not sworne, one of the first Purchas^{rs} Declares, That *Horse Neck* was excepted by the Indiyans in their first sale, as reserved for their Hunting, so *Oyster Bay* could not resigne, what they had not; Hee saith moreover, That they being sensible of their want of Title

to the said Neck, hee strooke a Bargaine with an Indyan, for it, and delivered him a Coate in part of Paym^t, but the Indyan coming no more, hee could not go through wth his Bargaine, w^{ch} afterward *Daniell Whitehead* did performe.

Richard Holbrooke, another of the first Purchas^{rs} deposeth to the Indyans reserving *Horse Neck*, when they bought their Lands at *Oyster Bay & Huntington*.

Anthony Wright, Thomas Hermitage, Attest the same under their hands.

Nicholas Wright, sworne in court, Declareth, The same, and that hee knew that Mr. *Leveridge* writt a Letter about the Purchase of it;

As to the possession, the Attorney for the Plaintiffe declares, That the Plaintiff had possession given him by an Order at the Gen^{all} Meeting at *Hempsted*, before w^{ch} hee knew not where to have recourse for Law or Justice.

The Attorney for the Def^t objects against y^e taking Possession by the Plaintiff, to bee Legall it being not done by the Sheriffe, by virtue of an *Ejectione firma*.

Hee findes a difference in y^e Oathes, Depositions & Attestagons made for the P^t, some calling that wth Mr. *Andrewes* Purchased at *Shelter Island*, a confirmagon, others a sale.

And hee questions the Sachem *Wiandances* power, to do either.

The Attorney for the P^t alledges, That notwithstanding Mr. *Leveridge* questions *Wiandances* Power, yet the Towne of *Huntington* would have Purchased *Horse Neck* of him, and had a Confirmagon of their Lands from him likewise, w^{ch} was then allowed of by them.

After a Long debate of the Cause on both parts, It was refer'd to y^e Jury, who the next Morning, being Sept. 29th brought in their verdicts as followeth, Vizt.

That upon serious consideraçon of y^e cause depending betweene Mr. *Richbell* and the Towne of *Huntington*, weighing all the evidences, wee finde for the Defend^t, wee finding, that y^e auntient Deed is the right of the Towne of *Huntington*, wherein wee finde by the Bounds of *Huntingtons* Deed, and by evidence, That *Horse Neck* (which is in controversy) lyeth within the Bounds of *Huntington* Deed, except further light can bee made appeare unto us, by the Honoured Govern^r and Councell, and that the P^t shall Pay all Costs and Charges depending upon this suite.

The P^t appeal'd from y^e verdict, to y^e Govern^r & Councell, who together wth y^e rest of y^e Bench taking y^e Equity of y^e Case into consideraçon, made this following, definitive Decree, vizt.

THE COURT OF ASSIZES, &c.

John Richbell P^t. The Inhabitants of the Towne of *Huntington*, Def^{ts}. The Court having heard the case in difference between the P^t and Defend^{ts} debated at large, concerning their Title to a certaine Parcell of land, commonly called *Horse Neck*, and having also seene and perused their severall Writings and Evidences concerning the same, It was committed to a Jury, who brought in their verdict for the Defend^t upon which the Court demurring, did examine further into the Equity of the Cause, and upon mature and serious consideraçon, do finde That the said Parcell of Land, called *Horse Neck*, doth of right belong to the P^t, it being Purchased by the said P^t, for a valuable consideration, and by the Testimony of the first Purchasers (under whom the Defend^{ts} claime) was not conveyed or Assigned by them to the Defend^{ts}, with their other lands, upon w^{ch} and divers other weighty consideraçons, The Court doth Decree, That y^e said Parcell of Land called *Horse Neck*, doth of right belong and appertaine unto y^e Plaintiffe and his Heirs, And it is hereby Ordered, That the High Sheriffe, or under Sheriffe of the *North Riding of Yorkshire* upon *Long Island*, do forthwith put the said Plaintiffe, or his Assignes, in Possession thereof, and all Persons are hereby required to forbear the giving the said P^t or his Assignes, any molestagon, in the peaceable and quiet enjoyment of the p^rmisses.

A L^{re} FROM Y^e GOVERNO^r TO THE CONSTABLES AND OVERSEERS OF FFLATLANDS CONCERNING THEIR MEADOW GROUND.

Whereas March last, at the Generall Meeting at *Hempstead*, it was found necessary, & ordered That a Survey should bee made of the South Meadowes, and from thence an additional supply propogoned to the necessity of each Towne mentioned in that Order, wherein consideration is to bee had, as well of y^e number of all Cattle belonging to each Towne, as of the quantity of Meadow Land adjacent to yo^w severall Townes, or home Lotts; To the end that y^e aforesaid Order may bee fully executed according to the true intent thereof; You are hereby required to send mee a true and full account of y^e Number of yo^r Cattle and Horses, wth a computagon as near as possibly you can, of yo^r respective Meadow Ground in your home Lotts, whereupon I shall immediately give directions according to the said Order of *Hempstead* for y^e surveying and proportioning the South Meadowes, that all future disputes may cease upon that occasion.

THE GOVERNOR'S LETTER TO THE CONSTABLE & OVERSEERS OF OYSTER BAY.

I received yo^{rs} of the 18th Instant, signed by & in the Name of the Constable & Overseers of *Oyster Bay*, in behalfe of the Towne, and shall never bee unwilling to manifest the openness both of my Eares and heart, to y^e meanest man in the world, who can object to mee the least oppression upon him, either in Temporalls or Spirituals; ffor the last, you cannot desire more Liberty than is contrived for tender Consciencs in the Lawes, for y^e first, you may all know that I have put the country to no charge, for which I might have drawne Presidents from all the Colonyes in *New England*, and his Ma^{ties} Letters Patents would have warranted the same; However the common charge must be defrayed by a Publicke Rate, and upon a late view of both, I found that y^e charge exceeded the Rate of 200 lbs p Ann, besides that, the fractions of every Townes Account would have proved more difficult to reconcile, then you could possibly imagine. Therefore well knowing that the Trust committed to mee by his Ma^{ty} is a sufficient Warrant for such necessary alteracons, and well weighing that the charges must be paid by Rates and that all those accounts are to bee cleared in the face of the country, at the Assizes, where every man may see, wherefore hee payes his Rates, I say, Upon full and due consideragon of the necessity and equity thereof, I have Ordered (for the good and benefitt of the whole) That y^e Rate bee made and collected at the value of one penny per pound for this yeare, that y^e Publicke Debts may not runne into Arreares, or men (who bestow their time and paines for y^e Publicke) complaine that they must stay two yeares for their Payment.

Gentlemen, You see how ready I am to satisfy your scruples, and therefore, I cannot but expect your complaynce to my directions, whose dayly meditacon it is, which way I can best serve the country, and without any other expectagon of benefit from them, then a good name, and no such peevish dispositions, which may render them refractory to his Ma^{ties} Government. I must not forgett to remind those that thinke the 200 lbs. was so fully concluded, as not to bee exceeded, for it was then apparent enough, the Rate was too small for the charge, But it was concluded that in that case, a second Rate should be leyed for y^e defraying thereof. I count my selfe ill rewarded for all y^e charge and Paines I have taken, to finde my diligent inspection into the Publicke Affaires, brought into Question by those from whom I expect no Profit, And if any man shall dispute my Commission, or the Power I have derived upon y^e as Towne Officer, in putting the Lawes, or my special Warrants in Execution, you may be assured, I will Justify my selfe and actions, and yours also in conformity to them, before God and the world, when y^e most forward and perverse will wth shame acknowledge their erro^r; This is the full Answer to your Paper, from

Gentlemen

I am commanded by the Governo^r to acquaint you, That upon consideragon of an agreement heretofore made, betweene the Commission^{ers} of his Ma^{ties} Colony of *Conecticott*, and Mr. *Smith* of *Nesapeake*, Hee hath beene pleased to confirme the same, and to Grant him a Patent for his Lands, with the Priviledge that it shall bee free from all Rates and Taxes, from the first settlement untill a certaine Terme of yeares shall bee expired as in the Patent is exprest; Now his Hono^{rs} meaning therein is, That from y^e Time of his first arrivall here, untill such a time, the Land shall bee free, so that if yo^{ur} late Seasure of any Beasts for a Rate or Tax, bee for any such thing, before the time of y^e Governo^{rs} coming they are not cleared by this Patent, But if it bee for any Rate since, yo^u are to make returne of the Beasts, or any other Goods yo^u have seized, and also are to forebare doing y^e like for y^e future.

THE GOVERNO^{rs} LRE TO THE JUSTICES OF THE NORTH RIDING, TOUCHING A SESSIONS HOUSE AND PRISON.

Having taken into serious consideragon several Times, the Building of a Sessions House and Prison for the *North Riding*, and hearing divers Proposals for facilitating the charge thereof from the Inhabitants of *Jamaica*, well knowing also, that the meane condigon of the whole County (for want of Ordinary Supplies) is the chiefe Impediment to so necessary a worke; I have thought fitt to impart to you my advice and opinion, concerning the whole matter, leaving the result thereof to your consultagons, therefore I propose, that yo^u would agree with some sufficient workmen, to undertake the building thereof, at a certaine Rate, for which, you may freely engage to see them paid the next yeare, by an assessment peeuilar to the severall Townes in the *North Riding*; Now in regard the Inhabitants of *Jamaica* have propos'd to pay an extraordinary proporgon towards the same, upon condigon they may make use of the said Sessions House, for the meeting of their Congregagon to serve God, and it is very likely, that the other Townes will thinke it a Burden to them extraordinary, whereof *Jamaica* hath y^e more frequent benefitt.

Vpon the whole matter I offer this expedient, That every Towne proporgonably to their Estates, shall pay the next yeare, to y^e whole Building thereof, and in regard those of *Jamaica* shall have a double benefitt, & use of it, That the Inhabitants stand obliged to keepe the said Sessions House and Building, in repaire at their charge for the terme of 21 yeares, the casualties of fire onely excepted, or if 21 yeares bee judged too much, I am of opinion that 14 yeares is too little, but remitt these thinge to your consideragons and remaine

THE GOVERNO^{rs} LEE TO Y^e HIGH SHERIFFE, CAP^t TOPPING, AND M^r JOHN MULFORD, TOUCHING
Y^e INHABITANTS OF SOUTH-HAMPTON, EAST HAMTON AND SOUTH-HOLD.

Vpon advice from *Southton* and *East-hampton*, that neither the Inhabitants of these two Townes, nor y^e Inhabitants of *Southhold*, have made choyce of Constable and Overseers, at y^e time appointed by Law, towards the Orderly managem^t of each particular Township, in their private as well as in y^e publick concerns, of this his Royall Highnesse, the Duke of *Yorke*s Governm^t I am not a little mov^d agst close and seditious practices of some who secretly distill into y^e hearts of his Ma^{ties} good subjects, such refractory and mutinous humours, as tend to y^e disturbance and breach of the Lawes Establish^t, but I am much more troubled, to heare that such wicked designes should have such a Gen^{all} Influence upon those three Townes, contrary to the Duty they owe to his Ma^{ty}, whose crowne and dignity, wisdom & Power, I must and will assert, not only against his publike, but his private Enemyes. I am willing to believe better of the good Inhabitants of *South-hold*, having heard that y^e delay of choosing the Select men formerly hath hapned in those parts, however, my p^{rs}ent directions are positive, That you Sumon y^e Inhabitants of *South-hold* together, and shew them where the Law doth Enjoyne y^e eleccion of a constable, and foure New Overseers, for the yeare Ensuing, in their Towne; And further, That I have taken notice of their Neglect, contrary to Law, and therefore that they are by these p^{nts} required, at that very meeting to proceed to an Election of a Constable and Overseers according to Law, otherwise, I shall bee necessitated to declare against the dissenters therein, as mutinous contemners of y^e Lawes Establish^t, and disturbers of the peace of this Governm^t, and shall (with God's Assistance) proceed agst any or every p^{rs}on according to Law, in those cases provided;

By the Governo^rs Comand, I am to acquaint you, that before the Receipt of yo^rs of the 16th Instant, his Hono^r had rec^d Ample Information from Cap^t *Topping* and M^r *Mulford*, how affairs stand in the 3 Easterne Townes, as to the neglect of their Election of Offic^{rs} according to Law. To which there is answer already return'd (which will bee with you before this) with particular Instructions to yo^rselfe, Capt. *Topping* and M^r *Mulford*, how to proceed in your severall Townes, by a Lre from the Constable of *Southhold*, His Hono^r doth likewise understand, that y^e generality of the people there, are unwilling to pay the Rates, and even some of the Overseers who assented to the making of them, refuse to contribute, to the Payment of their proporgons. You are in such Cases to give Order to the Constable to distreyn upon the Estates of such Persons, as the Law requires, and to make returne of their names; I am also to put you in minde, that in those Townes where any Charges have arisen by the keeping of y^e publique Courts at y^e Assizes and Sessions, and moneys remaine due for y^e Expences there, That you contrive it so that y^e Paym^{ts} may bee made wth the least trouble, as that y^e Rates of those Townes Where the Courts were held, or the nearest to them, should by yo^r Order, out of their Proporgons to the Rates, discharge those Debts and Publique charges first, after wth due care may bee taken to pay the salaries; Thus much I have in charge to deliver you, so conclude being

A LETTER SENT FROM THE GOVERNO^r UNTO M^r WM. WELLS, CAP^t TOPPING, ETC., TOUCHING THE INHABITANTS OF SOUTHAMPTON.

Having received an addresse under the hand of most part of the Inhabitants of *Southton*, by their messengers, *Christopher ffoster*, and *John Jessop*, with whom upon conference, the severall particulars of their grievances, are reduc't to one head, where unto I must acknowledge my selfe Easily perswaded in regard it will (as the said Messengers informe mee) give satisfaction to the inhabitants, and the affaires of the Towne will bee carryed on with Mutuall Amity & peace: To which good end, and for the aforesaid consideragons, I have condescended, and do by these presents give my consent and approbation, That the Oath required in the Lawes of this Government, to bee taken by y^e Overseers in each Towne, shall not bee exacted from them, but that any Overseer duly Chosen by the Towne of *Southton*, or any other Towne in this Government, may exeunte the Office of Overseer, without Oath taken, in the same capacity, as if hee had taken his Oath, any thing in the Lawes to the contrary notwithstanding.

You are further to take notice, that my true meaning is, that by these p^{re}sents, I have onely granted a suspenson of said Oath of Overseers, untill the consideragon thereof, is further debated in the next Generall Assizes.

In the mean time, that no Oath be Exacted from the Overseers, for the Election of whom, I have lately sent you my orders, and do againe renew my directions, that y^e Lawes in that Point bee observed, and that this suspension of the Oath, may not p^{re}judice the affaires either of private Townes or Interrupt the Managemet of the Publique Affaires, so far as the Overseers are held obliged by the Lawes to attend them. A SPECIALL WARRANT FOR THE REHEARING OF THE CAUSE BETWEENE THE INHABITANTS OF HUNTINGTON AND CAP^t CEELY.

Whereas at the Sessions held in December last at *Southton*, There was a Tryall betweene y^e Inhabitants of the Towne of *Huntington* and Cap^t *Ceely*, concerning a certaine Neck of Land, for which Capt. *Ceely* obtained a verdict, and had a judgment there upon; Now for as much as the Inhabitants of the Towne of *Huntington*, have made suite unto mee for a review, and rehearing of the Cause, because (as they say) there was no Deed at all produced or proved, By vertue of w^{ch} Capt *Ceely* makes his Claime, And for that it is Alleged, the Conditions upon w^{ch} the Deede of Guift was made by the Indjans, to M^r *Euton*, were never performed, wth severall other matters which the said Towne of *Huntington* say they have to offer to the Bench & Jury upon a New hearing; It being also (as I am inform'd) of more then Ordinary concerne to y^e Towne, I have thought fitt to Graunt a Review and rehearing of the Cause, betweene the said Inhabit^{ts} of the Towne of *Huntington* and Cap^t *Ceely*, of w^{ch} yo^a are to give timely notice to y^e Clarke of y^e Sessions, to make due entry thereof, and to Empannell a New Jury there upon, according to y^e law in such Cases provided & for yo^r so doing, this shall bee to you, my speciall Warrant; Given under my hand at *ffort James* in *New Yorke* y^e 3^d day of May 1666.

A LETTER FROM Y^e GOVERNO^r SENT UNTO MR. JOHN UNDERHILL.

Mr. *Underhill*.

I have received yo^{rs} of the 29th of Aprill, wherein you represent the distempers of some people, against the p^rsent forme of Governm^t by which (you say) they are enslav'd under an Arbitrary Power, and that I do exercise more than the King himselfe can do, w^{ch} is so high an imputation, that I cannot suffer my selfe to be reputed or Blasted in the hearts, or by the Tongues of such false and malicious men, therefore instead of writing to mee under the notion of some people say thus and thus, bethink yourself of some particular Persons who do thus slander mee with a charge of no lesse weight than High Treason; You may Easily believe how much I am concerned to vindicate my selfe in that Point, and to return that accusagon upon the heads of these mutinous persons. The Late Rebellion in *England*, with all y^e ill consequences thereof, began with the selfe same steps and p^rtences, By defaming his Ma^{ties} Governm^t, to corrupt and steale away the hearts of his Ma^{ties} subjects. You tell me that you have Issued forth new Warrants for the gathering of the Rate, but you say nothing of a discourse you made to a Dutch man, betweene *Jamaica* and *flushing*, about them. You know the Rates, and y^e manner of levying them Generally received by the Assembly at *Hempstead*, with that provision, That if the Sume menconed would not satisfy the Publique charge, an Additional Rate should supply it, to bee Levyed according to the forme prescribed. I can speake with a cleare Conscience that I have no benefitt from y^e country, but a great deale of trouble, which is increas't, to see men so factious as to hazard both life and Estate in a Munity and Rebellion, rather than beare the Burden of y^e publike charge. As for those of *Oyster Bay*, who cannot make Payment of their Rates in such kinds as they ought, I did tell you when you were last with me, that if such Pay as they could

make would satisfy those, who for their attendance upon the Court, have an allowance by the Law, that y^e end of making those Rates, was fully answered, and the like for killing of wolves.

I spare no pains to give any private man satisfaction, but I do not intend to vindicate my selfe thus privately, when you have sent mee the names of two or three (if there bee so many) who have opened their venomous hearts so freely to you. And I doubt not, you have authors for the expressions you sent to mee; This all at p'sent from

THE GOVERNO^rs LETTER TO CAPT. TOPPING.

Mr. *Topping*

Yours of the 1st curreant, is rec^d with much thanks for your care, diligence & affeccon for the peace and good Government of the affaires in your parts, and I shall not doubt of your constancy therein; The two Deputyes from *Southton*, arrived here Thursday last about noone, with whom upon full conference, I concluded to their plenary satisfaction, where upon in the name of rest, they promis't a compllyance to y^e Eleeccon of Towne Offic^{rs}. The whole matter was remitted to yourselfe, M^r *Wells* and M^r *Mulford*, as you will finde in my letter Dated the 3^d instant. I hope the other Townes will acquiesce with *Southton*, for I should very unwillingly proceed with severity, if I can possibly avoid it, and probably some ill Neighbours lay their designes to give mee a just provocation, thinking to overcome my patient temper, whilst the distempers of other mens spiritts are hott and fiery. But they will be mistaken in their measures for I will take my owne time and not theirs. I do but Guesse at some Incendyaries, and could I but really prove their practices by good testimony, I would doubtlesse put an end to the like for y^e future; I believe Cap^t *Young* is a bad instrument but if I am not mistaken, he hathe not brains to carry on such a businesse, I hope much better of M^r *Howell*, and if you can Learne at a distance by way of discourse, that hee is free to receive a Commission for Justice of the Peace, I will send him one, according to the discourse I had with him the last Assizes, and truly my opinion is that the Towne wants one; I am glad to heare that M^r *ffordham* show'd his good affeccon to the Government, for I never heard from yo^r that hee was a man of good conscience & Understanding, which are sure foundations. Tumultuous clamours, will never shake his Ma^{ties} authority, but may bring destruction upon their owne heade; I referre to yo^r discrecon What part hereof you shall thinke meete to communicate to M^r *Howell* or M^r *ffordham*, but rather by word of mouth, then under my hand, I hope all things are in a good measure quieted by the two late messengers, but I desire you not to omitt giving mee advice upon any Emergency, by either Indyans or Christians, and I shall bee accomptable to defray the charge as you direct, nothing more at p'sent from

M^r *Rider*, Attorney for the P^{ts}.

Hee putts in their Declaracon Alladging their being fenc't out of the common Rhode or Highway, betweene their Towne and the fferry, by the Def^{ts} and that this is the third time, of their being so injuriously dealt with, An Order concerning this matter, made at the last Court of Sessions heald at *Gravesend* is read wherein it was referr'd to five men there in nominated, to view the Ground, and make report of their so doing, wth their opinions thereupon. The report of the said five men, was likewise read. *Richard Ponton* Sworne saith, That at y^e ffirst laying out of *flatt Bush*, to bee a Towne, hee had a Lott there, and that then the Highway or Rhode, betweene *Gravesend* and y^e fferry, was on the outside of any of the ffencing, belonging to the Def^{ts}. Severall other Testimonyes were brought in, to prove the old Highway.

Nicholas Bayard, Attorney for y^e Def^{ts}.

Hee putts in their Answer, to the Plaintiffs Declaracons, and produces the Defend^{ts} Patent or Ground Briefe, wherein each Lott was to runn so farr into the woods, that consequently this Highway, fell within their Lotts, That their former Poverty, at the first Planting, was the Cause they could not run their ffencing to the utmost of their Limitts, but that now by their Labour, having Cleared the Ground, and by Gods Blessing, being in a better Condigon, they suppose it not unreasonable for them to f fence in what their Patent gives them. The P^{ts} insist upon the Enjoyment of their old Road, which they have had Right to abone twenty three yeares, and Declare the inconveniency of their being forced to go so farr about the ffencing, by reason of the deepnesse of the wayes in winter there, besides that it's at least two Miles further, and many unskillfull in the new wayes, may bee subject to loose themselves in the woods.

The Case in difference being referr'd to a Jury, They brought in their verdict as followeth, vizt. In the Case Where in *Gravesend* Inhabitants are Plaintiffs, and *flatt Bush* Inhabit^{ts} are Defend^{ts} The Jury finde for *Gravesend*, That the primary Highway from the fferry to *Gravesend*, shall henceforth remaine the Common Highway, except *Gravesend* Inhabitants will give way to some variagon for *flatt Bush* men, their conveniency; and whatsoever Interrupgon of the said Highway which is to continue, *flatt Bush* men have occasioned, They are to remove the same that there may bee free Passage.

That as to the buisness of *Samuell Daytons* having foure Lotts & his exposing them to sale upon his Removall, Its thought fitt hee should have one either to enjoy or otherwise to dispose of, but no more, the other three may be reserved for the Encouragement of other families to come and settle upon them.

And for the proposall of the Inhabit^{ts} of giving a Name to the place, The Governo^r dont approve of what they shall doe therein as also that no person shall be forced upon them without his approbation.

What the Indians have given to *Robt Williams* may bee confirmed unto him as likewise the severall Lotts to the Inhabit^{ts} where their bonnds shall bee layed out & certainly knowne to prevent future cavills about it. Yo^r Lre, in the name, and on the behalf of yo^r Towne, dated the 30th day of September, came to my hand; Soone after which, I acquainted the Governo^r with the contents thereof, in answer to that p^{te} of it, where yo^r endeavor to shew yo^r particular Reasons, why you have made no application to his hono^r for a Patent, within the time prescribed, as all other Townes have done, in Obedience to an Order made at the last General Court of Assizes; Hee hath commanded mee to give you notice that at this next Court of Assizes, beginning the 30th day of this instant month, you are to shew unto the Court by what Title yo^r Towne p^{tend} to hold their Land, and that then and their, you or some other Persons appointed by yo^r Towne, bee ready to justify and defend the same, otherwise the Court will take such Order therein, as the Lawes shall direct; Thus much I had in charge to deliver yo^u, which is all at p^{sent} from

TRIAL OF THE CASE BETWEEN SOUTHAMPTON AND SOUTHDOLD.

The Inhabitants of *Southampton* P^{ts} } Nov^r 1st [1667.]

The Inhabitants of *Southold* Def^{ts} } afternoone.

The names of y^e Jur^{rs}.

Thomas Hall Foreman, *Peter Winsten*, *Patrick Hayes*, *John Palmer*, *Thomas Wandall*, *Thomas Applegate*, *John Carpenter*, *Ralph Hunt*, *John Foster*, *William Noble*, *Jonas Halstrad*, *John Dixy*.

Capⁿ *John Howell* and Mr. *Henry Pierson* appeare for y^e P^{ts} being empowered by them and put in their declaragon.

Capⁿ *John Young* & Mr. *Jonas Moore* Appeare for the Def^t and produce their Power. They also employ Mr. *Rider* as their Attorney and put in their Answer: Before which they did demurre to the P^{ts} fayling in filing their Declaragon in due time according to y^e Direction in ye Law.

Mr. *Pierson* excuses it to y^e Co^t alladging their great distance of 130 miles at least, and that they gave in the heads of their declaragon to y^e Def^{ts} in time.

So the Co^t ordered them to proceed to a hearing. The P^{ts} produce an Indian deed, made to Capⁿ *Tapping* dated Aprill 10th 1662. And by him assigned to y^e Towne of *Southold*. A Certificate thereof is read, it being at large under y^e Governo^rs hand who made the agreement, betwene the Towne and Capⁿ *Tapping* Octob^r 3^d 1666. A writting likewise of acknowledgm^t from y^e Indians of their Recieit of y^e Pay agreed for y^e said Land dated Feb^r 22th 1666.

Mr. *Pierson* alleadges that the Meadows are 28 or 30 Miles from *Southold* and not above 10 Miles from *Southampton*. But Cap^t *Young* saith, they are not above 17-18 m. from *Southold*.

The P^{ts} presse to have y^e Indians examined for them they were for y^e Presents deferred.

Mr. *Richard Woodhull* & Mr. *John Ogden* Sworne. Mr. *Woodhull* offers to deliver into y^e Co^t a writting of what hee knew as to *Aquebaak* meadows which is the Land in question, But its not admitted being there in person. Then hee declares that about 20 yeare agoe there was a graunt made to him selfe & Mr. *Wells* by the foure sachems of a parcell of Land on y^e north side of *Aquebauke* or *Piaconnock* River, when at y^e signing of their Graunt by y^e Towne Sachems a great number of Indians were pres^t. This Land lay on *Southold* side. Hee saith further that at that time hee ask^t the 4 Sachems, what the reason was, that they would graunt away this Land and would not as well part with some land on y^e other side where there was most meadow. Their Answer was, that their Ancesto^rs and they had wonne this by Conquest, but that laid on t^e otherside was not theirs. It did belong to *Skinnacock* Indian.

Then the said Mr. *Woodhull* asking of y^e said to bny *Quequenantack* Land, they answered him, they could not sell it, for it was none of theirs, for suith they own all the Land from *Peaconnock* to *Quaquenantack* belongs to the *Skinnacock* Indiyans, within which compasse the Lands now in question lyes. Mr. *Ogden* saith that hee heard the *Montauket* Sachem and severall other Indians Say that the Land from y^e head of y^e Bay or *Peaconnock* to *Quaquenantack* was y^e *Skinnacock* Indiyans Land.

Eldmund Shaw saith, That about 8 or 9 yeares agoe, hee was with *Wyamcomboue*, the *Montaukett* Sachem, when y^e Sachem being at *Southton* side, where hee lay all night went over the two Rivers and markt a Tree, as the bounds betwene *Southton* and *Southold* it was at *Peavonnock*, the Tree is at the high water marke and is on *Southold* side.

The inhabit^{rs} of *Southton* claime all the Lands from *Peaconnock* to their Towne north and South.

There were two Indian Testimonies read, to prove this land to belong [to] *Skinnacock*.

Richard Howell & Joseph Raynets, depositions read, to prove The *Skinarocks* Indian right to y^e Land in Question by the Beares skin being sent to them &c.

Severall Indians appeare in Co^t to give their Testimony for *Southton*. It being askt them, if they knew to whom the land lying betweene *Niamock* and *Peaconnock* doth belong, they answer they have sold that Land to Capⁿ *Tapping*.

They say further that there happened a Beare to bee killed in y^e River *Peaconnock*, of which River y^e one halfe to y^e *Yannocock* t^her halfe to y^e *Skinnacock* Indians of which Beare the *Yannacock* Indians had the Flesh and the *Skinnacock* the skin and greace; It was about 14 yeares agoe since the beare was kill'd. It being further askt them, If they had rec^d paym^t for the Land, They say, it was not all paid for, but most of it was, there being three Coates behind for which they were to stay till Cloath were brought unto y^e Country. Another Indyan Testimony was read.

John Jennings had two depositions read and *John Laughton* one on y^e behalfe of y^e P^{ts}.

Mr. *Rider* Attorney for y^e Def^{ts} Insisted upon 4 yeares possession, but y^e Co^t overruled that plea, and that it should not debarre y^e p^{ts} title, then hee produced the Copy of a deed bearing date y^e 15th day of March 1668.

The hearing of y^e Rest of y^e Cause was put off to y^e next day.

Southton P^{ts} Novemb^r 2^d

Southold Def^t

The Attorney of y^e Def^t reads *Southold* deed with Severall Indyan Testimonies in two other writings, The Deed is dated Decemb^r 27th 1662. The def^{ts} pleads their purchase, according to y^e Custome ordred to bee used in all the Colonies, It being done with y^e approbacion of y^e Govern^r of *New Haven*, under w^{ch} Governm^t they then were and that Capⁿ *Young* made purchase of the Land in question for *New Haven*. Mr. *Wells* and *Barnabas Horsens* deposition read about their paym^t for *Aquebauke* Land, to the Treasurer of *New Haven* by order of their Co^t.

A Petigon from the Inhabitans of *Southold* to the Co^t of *New Haven*, concerning this Purchase was also read.

Richard Howell Testimony of what hee heard a *Skinnacock* Indyan say concerning the Land in question it was dated Dec: 17. 1662.

Thomas Stanton an Interpreter of y^e Indyan Language, testified upon oath before *Robert Macon* June 12, 1667 what he had heard severall Indyans relate about this Land they being examined about it.

Another paper of June 4th 1667, of Indyan Testimonies brought in amongst the which *Vnachaag* Sachem, was one, It being urged by the P^{ts} that the Govern^r had put a decision to this matter allready, when it was before him upon Comp^t of y^e Towne against Capⁿ *Tapping*, The Govern^r was pleased to declare that what hee did y^e last yeare about the Matter in Controversy betweene Capⁿ *Tapping* and y^e Towne of *Southampton* which was then composed, Hee only Confirmed the Right that either of them really had, but did not create any new Right in either of them. Capⁿ *Young* further alleadges that about 6 yeares agoe, when Capⁿ *Scott* sold some Land neare this to *Southton*, hee reserved this very Land to him selfe, and that then *Southton* made no pretence or Excepcion to it. Mr *Pierson* for the P^{ts} affirms *Skinnacock* Indyans were the Right Owners of the Land in question, and no other.

Richard Howell sworne saith according as this Testimony in writing, That *Southold* southbounds went to a Certaine Creeke To *Youngs* and no Further.

Mr *Ogden* being Upon his oath further declares, that about 8 yeares agoe hee employed severall Indiyans to mark out y^e Bounds of these Lands and that they were at Markt Tree over the two Rivers at *Peaconnock*, which were y^e Bounds betweene *Sinnacock* and *Yennecock* Indians. Hee further declares how hee came seized of y^e Land in question, that it was about the firemoney the *Shinnacock* Indiyans being to pay a Certaine sume of money for y^e Mischiefe done by them. The *Montuiks* Sachem being bound for them tooke the Land in question into his possession, and upon some Consideracon made it over to Mr *Ogden*, and Mr *Ogden* saith all his Right is conveyed to *Southton*. Mr *Woodhull* further certifies what hee heard from y^e *Vnheckaug* Sachem That hee being desired to enquire of him who were y^e Proprietors of *Aquebauck* Lands He mett with him about a fortnight since and asking of him, who they were hee said hee knew not, but that hee remembers well that a beare being killed there about the skin and greace was caryed to y^e *Shinnacock* Indiyans as an acknowledg^{mt} that it was their Land, There was also another Indyan that spake to y^e same purpose Two depositions of *Joshua Barnes* and *Eldonnd Howell* were read, to prove the P^{ts} possession by moweing of the Grasse there.

After a full debate on either parts, the matter was referred to ye Jury who brought in their Verdict for y^e P^{ts} as followeth Vizt.

Wee the Jury appointed and ordered by the Govern^r Gen^l and Councell to determine the difference between The Towne of *Southton* and the Towne of *Southold*. Wee finde and are all agreed for y^e P^t with Cost.

Thomas Hall Foreman.

The Def^{ts} move the Co^t for an appeale and give in their Reasons, wherenpon this following order was issued forth.

Southton, P^{ts} *Southold* Def^{ts}.

The Def^{ts} having appealed from y^e verdict of y^e Jury to bee heard in Equity, This Co^t upon Consideracon, doth thinke fitt to allow of y^e Def^{ts} appeale to bee heard, at y^e next Generall Co^t of Assizes to bee held on y^e First Wednesday in Octob 1668 they giving security according to Law. And doe order that as to the Meadows in Controversy betweene y^e P^{ts} and Def^{ts} they shall both have liberty to mowe Each upon y^e one halfe thereof, at y^e season of y^e yeare or for their Cattle to feed, theretupon in y^e meane time untill the Title Shall bee decided in Equity, unlesse they Shall otherwise agree amongst themselves, which y^e Co^t doth recommend unto both parties. Haning now (by the authority to be derined from his R. H. *James Duke of York*) taken the Charge of the Government of all his R. THE GOUERNO^rs LRE TO M^r JAMES MINIST^r OF EAST HAMPTON.

I received yo^r Lre of the 9th of Nouemb^r by *Frank y^e Indian* & am heartily glad to see that the same hand that has inflamed yo^r heart wth a desire of aduancing y^e Gospell of Christ in the conversion of the Gentiles & bringing them to the knowledge of his Law has likewise bestowed on yo^a the spirit of perseuerance in so glorious a work as will undoubtedly not only crowne yo^a wth comfort and peace of mind here but wth eternall beatitude & joy above yo^r fellows hereafter for if he that saues a soule shall shine as a starr in heaven what a glorious Lustre may that person expect that shall saue nations, goe on therefore & prosper & be assured there shall be nothing wanting in my parte to aduance so worthy a worke if yo^a but put me in the way.

I very much approne of yo^r composure of a catechisme w^{ch} as it was the primitive way of

instruction so it is most practicable at this tyme for those darke soules who being not yet arin'd to that degree w^{ch} the Apostle speaks of of being but babes in Christ, are therefore to be esteemed but as embryos in Christianity, so that the sincere milk of the word is euen to strong for their infant digestion. A stimulation to vertue must therefore be the first worke though it were but such as was eminent in the ancient Romans who as the Apostle observes were by instinct of nature a Law unto themselves to check their appetite to any licentiousnesse & irregularities, in your catechism care would be had that the composure thereof be gentle & easy so that reason may be the hand maid to Religion, and not to puzzle them with those Arcanas (mysteries of salvation) which as they will be very difficult to instill them in their myndes (being the proper objects of faith) so the difficulty of their comprehensions might make them weary & desire a release of that burthen w^{ch} their myndes are not able to beare for nothing is a greater heauinesse to it than a desire to apprehend that w^{ch} the soule at that tyme is not able to comprehend, easy interrogatories will therefore be most suitable & I would aduise yo^a that some proper chapters might be recommended such as might make them in loue & desirous to proceed in the reading of scriptures but above all be carefull that there be good examples sett them by those whome they connerse with lest that they finding o^r practise is not proportionable to o^r precepts might make them haue a light esteeme of what yo^a would desire to instruct them in. To facilitate yo^r worke in w^{ch} yo^a desire that certain dayes may be appointed that so the Indians may the better know when & where to attend yo^a I shall not determinyn that positively but leave it to y^e consideration of the Com^{rs} whome I haue appointed to take a strict care to that particular as well as to the regulation of other affaires, that shall happen betwixt them & the Christians, & therefore make the best contriuenment for the p^{re}sent till the spring when (by Gods permission) I will be wth yo^a to order & rectify any inconuenience that shall appeare to the carrying on so charitable a work.

For the circumiacent Colonies to be contributory to the support, I hope it will not be necessary for I doubt not by the representagon of yo^r pious inclination to my M^r his Royall Highnesse but to procure yo^a y^e exhibition as may both support yo^a in that ministry & give furth^r externall incouragem^t to yo^r new Proselytes. That w^{ch} I shall desire from yo^a at p^{re}sent is the Catachisme wth some few select chapters & Laudatory Psalms fairly transcribed in the Indian Language w^{ch} I will send over to *England* & haue quantities of them printed, & if yo^a thinke it necessary I conceive a small book such as shall onely serue to the instructing y^e Indians to read may likewise be compiled & sent wth them All w^{ch} so soone as I shall receive from yo^a I shall speedily dispatch to *England* & wth the first opportunity yo^a may expect a retorne of them though I am not out of hopes ere long to haue a printer here of my owne hauing already sent to *Boston* for one but whether I shall speed or no I am uncertaine.

So soone as I can be furnish't wth an able Person to attend the ministry in yo^r place I will entertaine him & then totally free yo^a from yo^r Charge that soe yo^a may attend that worke onely w^{ch} God hath put into your heart to performe, to the aduancement of w^{ch} I shall pray God to direct yo^a.

I haue according to yo^r instruction made much of *ffrank* hauing entertained him kindly at my house duering his abode here, & at his departure furnisht him wth a new garment I look on him according to yo^r obseruation, as a person of a more then ordinary Capacity & therefore (if fitt applications be made) may easily be drawne ouer to the great encouragement of his fellowes, who doubtlesse will be much benefitted by examples of their owne stampe.

S^t I shall detain yo^a no longer, hauing as I conceive answered the most materiall partes of yo^r Lre & if any thing be slipt my obseruation pray remynde me of it by the next Conueniency.

To Conclude I shall recomend yoⁿ & yo^r endeavours to the alsufficient grace of the Almighty who hauing inclyned yo^r heart to will may likewise establish yo^r mynde to doe, & may both tend to his Glory the building up of the Church of Christ here & the endless Comfort and saluation of yo^r selfe & those that shall be Comitted to yo^r charge I remaine

It is somewhat admiured the people in yo^r p'ts should be disturbed at the noyse of it more than others the Imposition being reduced so low, neith^r will the scrupulous temper of the person to be employed about yo^r p'ts & *Shelter Island* be counted wth the attendance of a man & a boate; But the Governo^r would have yoⁿ advise & consid^r of a more easy way, & to rend^r him an account there.

Whether the present Constable for the tyme being in every Towne hauing an allowance for tronble & losse of tyme or if the clerke of the Sessions or any one oth^r p'son in the Riding would not be sufficient to looke after the Customes there, It is the Gouern^{rs} pleasure that yoⁿ should aduertise Mrs. *Scott* & her friends that their fynes will be expected to be ready in the spring, & when yoⁿ send there, yoⁿ may please also to take the trouble to gine Mr. *Lawton* of *Southampton* notice, that the Gouerno^r expects a speedy account of his horses, & mares, w^{ch} he hath undertaken to conuey up hither, His Hono^r would also desire yoⁿ to make inquiry what wrecks of whales or great flsh hane beene cast on the Shoare or beaches in yo^r partes, out of w^{ch} yoⁿ know there is an acknowledgm^t due to his Royall Highness:

Yo^r Petigon or Adress^e by *Richard Gildersleeve* on y^e behalfe of yo^r Towne, concerning the price of corne and other matters therein sett forth I have p^rsed. In answe^r to yo^r scruples & dissatisfaction about my late ord^r I haue thought good to explaine it to yo^a. In y^e first place that it had no regarde to private mens debts but onely to y^e collecting of y^e publique Rates, y^t wth I thought & still do think very reasonable that they should be so regulated as to answe^r expectagon. As to y^e latter parte of y^e Ord^r whereat yo^a seeme to stumble most (vizt) That no oth^r shall be esteemed good payment for any sune of money due unles it be otherwise agreed vpon betweene party & party. It hath no relagon at all to any private debts contracted amongst yo^rselues for y^e tyme past, but is only to direct yo^a for y^e future. It being y^e best & most equitable standard, yet leaues yo^a this liberty that yo^a may make any other agreement for y^e paym^t of yo^r debts amongst yo^rselues, if yo^a find it more convenient. For answe^r to y^e oth^r perticulers of yo^r Petitionary adresse I shall refer yo^a to oth^r more proper tymes & places when yo^a may expect all due satisfacon & redresse in what shall be found needfull. Neith^r doth it take away anothers right, though wthin them In fine I thinke Mr. *Smith* cannot be denied a tryall at Law, wth will be ye best touchstone to proue who hath y^e right, & if matters succeed not at y^e Sessions according to yo^e desire or expectagon y^e Law directs yo^a to y^e Assizes where I shall sitt mysele wth y^e Justices of y^e Gouvernm^t & be ready to do what shall be according to Law & good Conscience wth is all at p^rsent from

COURT PROCEEDINGS: LAND NEAR CONEY ISLAND IN DISPUTE.

*Fort James in New Yorke June 21st 1669.**Francis Browne Plf.*Before y^e Governo^r.

Mr. William Goulding
& Capⁿ Willkins on y^e
behalf of y^e Towne of
Gravesend. } deff^s

The Pl^t and deff^s desiring to referre their Case in difference about a parcell of Meadow ground or valley from y^e Court of Sessions for the West Riding to the Govern^r it was this day heard and debated as followes, Vizt.

The plaintiff pretends hee hath not his full proporgon of Land graunted by ground briefs or patent and therefore Supposes the meadow in controversy lyeing next his Land doth belong to him to make up the Complem^t of his patent.

Obiection. It appears that all the Pl^ts lines were drawne exactly according to his patent therefore if hee were iniured in the quantity it was by the unskillfulnesse of the Surveyo^r.

That heretofore upon a Survey of his Land before the Meadow or valley was drowned the Surveyo^r offered the plaintiff to make up his Complem^t of Land out of this valley in dispute but hee then refused it alleadging that what hee fell short of was to bee taken out of the Wood Land and not there so that then hee layd no claim to it.

And Whereas it may bee alleadged, that there are twelve morgen of Land to the South East of the other sixty nine morgen belonging to the Pl^ts Bowery or flarme, this Meadow or Valley intervening betwixt both, he did therefore presume it did appertaine to him if that were allowed then by that calculaçon it would exceed the hundred Morgen graunted in the patent So by neither pretengon can it belong to him.

The deff^s pretend a right to the Meadow ground or valley in difference by virtne of their patent from Gov^r *Kieft*, which expresses, that the Westernmost bounds of their limitts comes to the easternmost parte of *Anthony Janssen* Land That their Westernmost bounds begin at the Mouth of a Smale Creeke on *Coney Island* from whence a Line being drawne North and by East to *Anthony Janssen* Land it doth fully comprehend within it the Meadow ground or valley in dispute.

Objection. Admitting that by their Patent the Easternmost bounds of *Anthony Janssens* Land Should bee their Westernmost bounds, And that a Line is to Runn from the Creeke aforementioned whereby it Comprehends the said Meadow or Valley, yet the deff^s cann in no wise haue the benefit of it, In regard that they haue not taken out a new patent as in the Law is required so can pretend to no Legall bounds.

Neither doth it fully appeare (if allowed) which is the Mouth of the Creeke upon *Coney Island* from whence their lines is to bee stretched, other Creekes appearing, which may more probably bee given the denomiñaçon of Creeks, then that which they so much urge and if so then their pretensions by that westerly line are cutt of.

Lastly. It is found that the valley or meadow now in question was heretofore environed round by three distinct patents and possessions so that it was not probable *Gravesend* should have any claim to that valley to which they could never come without trespassing on their neighbo^rs.

Vpon the whole it appears very evident and cleare by the foregoing allegaçons and

circumstances that the Meadow or valley in Controversy appertaines to neither of the pretendes being formerly esteemed as drowned and waste land though since for their owne Conueniency both have stroue to make use of it.

The premises however having beene duly considered, it is thought fitting to qualify both parties and the Govern^r and Councill doe order and declare that there shall bee assigned and made over unto *Gravesend* two third part of the meadow or valley in dispute to bee and belong to their Towne for ever. Provided that the said Towne doe with . . . dayes after the date hereof make their applicacon to the Gouvern^r for the renouacon of their Patent according to the Lawes establisht in this Governm^t they haueing elapsed their interest by their old patent and the resignacon of the new.

The other third part of the Meadow or valley Shall be and remaine to the use and behoofe of *Francis Browne* his heirs and Assignes but not as of Right belonging to him only as of grace and fav^r from the Governo^r.

If this fav^r bee accepted on both parties, a Surveyo^r shall be speedily employed to make a draft or Plott of the said ground that so their proporçons may be allowed unto them according to this order. Given at *ffort James* in *New Yorke* this 22th day of June 1669.

CORRESPONDENCE ABOUT A RUMOURED INDIAN OUTBREAK.

Gentlemen

July 5th N: Yorke.

Vnderstanding a Rum^r of y^e evill intent of *Ninecraft* and his Indiyans with y^e Indiyans at y^e East End of *Long Island* to joyn together upon some mischievous designe against y^e English I thought good by this opportunity of Mr *Thomas Terry* goeing into yo^r Parts to advertize you of it. The which I have likewise done to y^e Governo^r. It behooves you as Conservat^{rs} of y^e Peace to have an Eye over their actions. Mr *Terry* tells mee of 6 Indiyans servants runne away from him, who are harboured and kept by *Ninecraft* though the Indiyans belong not to his people. If hee were sent to peremptorily to give his Reasons for that abuse it might probably do some good for they are not to bee suffered to abuse any of our Nation I take this liberty to write these lines to you partly at y^e request of *Thomas Terry* about his owne concernees. But more especially upon y^e apprehension that divers have of y^e Indyan Insurrection which I am not yet willing to give Credit to, so not doubting of yo^r Care and circumspections in this matter which concernees a Publick good I bid you kindly farewell being

This opportunity presenting I was willing to give you notice of y^e apprehension some persons at y^e East End of *Long Island* have of Comotions like to arise by their Indians and yo^r of the *Narragansett* sett on by Sachem *Ninecraft* against the English. A Copy of some passages in a letter sent expresse from thence to mee, I herinclosed send you. For my part I cann not thinke them in a condition strong enough to make any such bold attempt. Whatsoever their will may bee however its good to bee circumspect and to provide against the worst I shall desire you would make enquiry into y^e matter, and send mee yo^r opinion of it by y^e First. It seemes *Ninecraft* hath beene an old Enemy to y^e English, so to bee suspected. Mr. *Thomas Terry* of *Block Island* informes mee that hee hath had 6 Indiyans servants Run away from him which *Ninecraft* protects and keepees though none of his Indians I thinke you may do well to admonish him of it, and that hee ought not to doe the least injury to the English under whose protection he lives, without giving satisfaction for it. It may bee by his answer you may indge of his intent.

I have not further but to desire a neighbourly and friendly correspondence betweene us which shall bee cherished upon all occasions, by

AN ANSW^r TO YE PETITION ON YE SEVERALL TOWNES.

1. In Answer to y^e 1st head wherein they desire to have Deputyes to be Joyned wth y^e Govern^r & Councell in making of y^e Lawes of y^e Government as is Customarye in y^e Neighbour Colonies, & as Co^{ll} *Nicolls* did promise them.

It doth not appeare that Co^{ll} *Nicolls* made any such promise, & ye Governo^{rs} instructions directing him to make no alteration in the Lawes of ye Governm^t settled before his Arrivall, they cannot Expect his Hono^r can comply wth them therein, & for their desire to know what is required of them, There is nothing required of them but obedience and submission to y^e Lawes of y^e Governm^t as appeares by his R. In ye springe season I purpose to be wth yo^a & view y^e Generall appearance both of Horse & foot, not doubting in y^e least, to fynde y^e Militia in such a posture as is fitt for y^e end it is designed for; I would not willingly believe some have beene so indiscreet as to discountenance oth^{rs} from listing themselves, unlesse by scattering a Jealousy amongst men onely to fitt them for more, desperate & Impious undertakings, but I shall insist no more on that p^rticuler till I am convine^t by y^e Sequell; In ye meane tyme, I expect yo^r cheerfull concurrence to this my ord^e & promoting a cheerfull compliance of such as are qualified for that Employ^m^t I have no more but to Assure yo^a that I am

The Papers delivered in Co^{rt} of Sessions from the Townes of *flushing*, *Hempstead*, & *Jamaica* taken into consideragon.

The Opinion of y^e Justices of y^e Peace hereupon to be drawn up by To-morrow morning & an Order from y^e Governo^r & Councell concerning the same.

Whereas there have beene lately made at *Southampton* by y^e Commission^{rs} for y^e Indian affaires in y^e East Ryding of *Yorkshire* upon *Long Island* severall orders Dated y^e 6th 7th & 8th Dayes of Decemb^r last, Two whereof doe more p^rticularly relate to *John Cooper* of *Southampton*, & y^e third both to himselfe & others engaged in y^e designe of whale fishing who do imploye severall Indians thereabouts for their Assistance therein Upon Mature Deliberation & Consultation had hereupon, I doe wth y^e Advice of my Councell approve of & Confirme what y^e Com^{rs} aforementioned hane done in their said orders, & do likewise recomend that Clause in y^e Ord^r of y^e 8th of Decemb^r concerning what shall be given to y^e Indians for their Service in that imploye to be punctually observed as long as it shall be found convenient & practicable, but wthall if it shall prove otherwise & that other agreements are p^rmitted to be made wth y^e Indians

for their worke by any p^{son} or Company I doe hereby graunt & allowe That *John Cooper* aforementioned who is said to be one of y^e first that brought y^e Indians to be serviceable in that designe have for his encouragem^t altogether as much libertye to make his Conditions wth y^e Indians for their Service as any oth^r p^{son} or company shall p^{sume} to take, & if he hath alreadye made any Agreement wth any of y^e Indians upon this Account for any p^{ticular} Season or tyme p^{ecedent} to what hath beene made wth them by others, y^e first agreement is to stand good, & if y^e Indians so agreed wth, do refuse to made good their engagem^t they are not to be p^{mitted} to worke wth any others untill they have p^{rformed} y^e same.

Given und^r my hand at *ffort James* in *New Yorke* this 29th day of Decembr^r in y^e 22th yeare of his Ma^{ties} Raigue Annoque Dm. 1670.

Whereas at y^e last Gen^l Court of Assizes held at *New Yorke*, amongst many things there propounded & concluded on, It was thought requisite for y^e welfare & safety of theise his R. H^{ss} his Territoryes & Dominions, that y^e ffort wthin this City being fallen to ruin by reason of y^e decay of y^e Pallisadoes should be taken into consideragon & repaired, And that y^e Justices of y^e Peace at their next Court of Sessions should consult & conclude of y^e ways and means whereby that worke should be put into execution, to y^e ease & satisfaction of y^e Inhabitants, who then were to be acquainted wth what was then determined to be y^e most equitable way. But so it is that three Townes und^r his R. H^{ss} his Dominions That is to say *fflushing Hempsteed & Jamaica*, having called each of them a Towne meeting before y^e matter was recommended to them from their respective Justices of y^e Peace und^r whose Ryding they apperteyne & having at their said Towne meetings drawn up severall papers, y^e w^{ch} they p^{resented} to y^e Justices of y^e Peace at y^e Court of Sessions held at *Jamaica*, who p^{using} y^e said papers they appeared in themselves so false scandalous & seditious that it was thought requisite to recommend y^e consideration of y^e said papers and libell to y^e next Co^{rt} of Sessions to be held at *Gravesend*. To the end that all or most parts of y^e Justices being there mett might take y^e merit of those scandalous papers into their consideration, w^{ch} being accordingly p^{rfourmed}, Upon mature deliberation & consideration had thereupon they did unanimously conclude and adjudge that y^e said papers were in themselves scandalous illegal & seditious tending only to disaffect all y^e peaceable and well meaning subjects of his Ma^{tie} in theise his Royall H^{ss} his Territoryes & Dominions & thereupon declared, That this their resolution should be so p^{resented} to y^e Govern^r & his Council to proceed upon it, as they should conceive would tend to y^e suppression of such mischiefs as might arise by y^e Impression or false suggestions & Jealousyes in y^e myndes of peaceable & well meaning subjects, from their duties & obedience to y^e Laws wthin theise his R. H^{ss} his Territoryes & Dominions Now y^e Govern^r & Councill having taken y^e whole matter of fact into their serious considerations, They do agree that what y^e Justices have declared at their meeting in y^e Court of Sessions held at *Gravesend* y^e 21th & 22th dayes of this instant month, and do adjudge that y^e said Originall papers contrived & delivered from y^e severall Townes aforementioned of *fflushing Hempsteed & Jamaica* to be both scandalous illegal and seditious & y^t y^e said Originall papers be openly & publicly burned before y^e Towne house of this City at y^e next Mayors Court to be held there, & y^t y^e principall contrivers thereof be inquired into & proceeded ag^t according to their demeritts & y^e Lawes of y^e Land Establish^t, and that y^e Mayor of y^e City be desired to pnblish this Proclamation & see y^e contents thereof put in Execution. Wee his Ma^{ties} Justices of y^e Peace wthin theise his R H^{ss} his Territoryes & Dominions being assembled togeth^r according to y^e Lawes establish^t at y^e Court of Sessions held at *Gravesend* for y^e West Ryding of *Yorkshire* upon *Long Island* y^e 21th & 22th days of Decemb^r 1670, being assisted by some of y^e Governo^{rs} Councill & likewise of o^r brethren of y^e North Riding having had y^e p^{rs}all of Three papers p^{rs}ented at y^e Court of Sessions at *Jamaica* y^e weeke before from & in y^e name of y^e Townes of *Flushing Hempstead & Jamaica*, Upon mature deliberation & consideration had thereupon, We have unanimously concluded & adjudged, That y^e said Papers are in themselves false scandalous illegall & seditious tending only to disaffect all y^e peaceable & well meaning subjects of his Ma^{ty} in theise in his R H^{ss} his Territoryes & dominions, & do declare this to be our Sentiments & opinions, y^e w^{ch} we humbly represent to his Hono^r y^e Governo^r & his Councill to proceed upon it as they conceive shall best tend to y^e suppression of such mischiefs as may arise by y^e Impression of false suggestions & Jealousyes in y^e myndes of peaceable & well meaning subjects from their just duties & obedience to y^e Lawes wthin theise his R H^{ss} his Territoryes & Dominions, And this we humbly p^{rs}ent attested und^r our hands.

Francis Lovelace Esq^r &c. Whereas It hath beene usuall & is found very convenient that some p^{rs}on amongst y^e Indians should in their respective Tribes or Nations be as Chief or Sachem over y^e rest as well to keep them in y^e bett^r order as to be responsible for any mischeife they should happen to committ, & y^e Indians neare *Southampton* in y^e East Riding of *Yorkshire* upon *Long Island* comonly called y^e *Shinnacook* Indians being destitute of such a p^{rs}on having nominated & elected y^e Indian named *Quaquashawge* to be their Sachem who is likewise approved by y^e English to be a fitt person amongst them for that purpose by reason of his quiett and peaceable disposition, I have thought fitt to Confirme & appoint y^e said Indian *Quaquashawge* to be Sachem over ye *Shinnacook* Indians of y^e w^{ch} they are all to take notice & obey him as their cheife & Sachem, Always provided that he nor y^e rest of his Indians doe not hereby p^{rs}ume to transgresse such orders & rules as are appointed for them to observe by y^e Com^{rs} of y^e Indian affayres in those parts, but that he applye himselfe to keep his Indians in peaceable & good ord^r both amongst themselves & also amongst their neighbours. Anoth^r Com^{on} for a Sachem at *East Hampton* wth a blanke to put in a name.

A Comission for an Indian Constable amongst y^e *Shinnacook* Indians.

Whereas it hath beene proposed unto me that for y^e bett^r keeping of y^e Indians in good order it would be requisite that one amongst them should be nominated and appointed as Constable, & that he may have a Staffe wth y^e Kings Armes thereon by y^e Reputation whereof y^e rest of y^e Indians may be kept in a more quiett & peaceable condigon And having beene sued to for a Confirmation of a Sachem over y^e Indians neare *Southampton* commonly called y^e *Shinnacook* Indians y^e w^{ch} accordingly I have graunted I do also hereby allow of y^e Indian called *Cawbutt* who is recomended to be a person of a peaceable temper to be Constable amongst y^e said *Shinnacook* Indians, & that he have a Constables Staffe as is desired. He is by vertue of his office to keep his fellow Indians in good order, & to suffer no violence or abuses to be offer^d amongst them by Excesse of Drinke or otherwise, & wthall to obey his Sachem, & to observe y^e Rules & orders appointed by y^e Com^{rs} for y^e Indian affaires there for y^e doeing Whereof this shall be his warrant. Anoth^r warr^t for a Constable at *East Hampton* wth a blanke.

Whereas Several Complaints have beene made unto me from y^e Townes in y^e East Ryding of *Yorkshire* upon *Long Island* of divers abuses comitted by y^e Indians amongst themselves & sometymes amongst Christians, occasioned by their inordinate & Excessive drinking of Strong Liquors whereof blood shed hath often ensued, & frequently great danger of murther to be comitted, And there being likewise oth^r Complaints that y^e Indys doe p^rfourme outward worship to y^e Devill by Powowing in or neare y^e Townes, y^e w^{ch} is contrary to y^e Laws Establisht in theise his R. H^{es} Territoryes & dominions, These are to require all officers of Townes or others whome this may Concerne that they Cause y^e Lawes prohibiting y^e abuse of selling Liquor to y^e Indians to be put in Execution & that y^e best course be taken to restraine these exorbitances they are thereby subject unto, & also that y^e Indians be not suffered to Powow but y^e Laws in that Case be also followed, with this Provisee that such p^rsons who Imploy Indians in their whaling designe may have libertye to give them encouragem^t by affording them some small quantities of Strong Liquor for their reliefe and that it be done wth such moderation that no disord^r or abuse do come thereby. Likewise that y^e Indian Sachems of *Shinnacook* & *Meantaukett* have some priviledge more then ordinary Concerning y^e Receiving or disposall of y^e like small quantities of Liquors to such Indians as they thinke deserve well of them. Whereas I have thought fitt to graunt & order Several matters relating to y^e Indians of *Shinnacook* & *Montaukett* as also Concerning those imployed in y^e whale fishing, & y^e abuse of selling stronge Liquors to y^e Indians & their Powowing all w^{ch} graunts & orders are Sent by y^e hands of Mr. *John Cooper* of *Southton*. THE GOVERNO^r LRE TO MR. JOHN MULFORD, MR. THOMAS JAMES & MR. JEREMIAH CONCKLING AT EAST HAMPTON.

Gent.

The Governo^r hath received yo^r Lre by y^e hands of Mr. *Cooper*, wherein yoⁿ intimate what conclusion yoⁿ have made wth y^e Indians for whome yoⁿ were Suretyes to y^e Com^{rs}. He hath also p^rused y^e Copy of yo^r Indian Deed for a p^rcell of Land made over to yoⁿ in satisfaction for what yoⁿ have disburs^t for them, for wh^{ch} deed yoⁿ desire his Hono^rs Confirmation & that it may be Recorded;

The Governo^r having advised wth his Conncell upon this & other matters from yo^r parts hath beene pleased to give me ord^r to retorne yoⁿ an Answer, that he is well satisfyed wth y^e Conclusion yoⁿ have made wth y^e Indians & also that I should take a Copy of yo^r Deed to have it Recorded, but desires since there are Com^{rs} wth yoⁿ appointed for y^e Indian affaires that they should certifie unto him y^e nature & Extent of y^e Land made over to yoⁿ by y^e said Indians wth an Attestation of their free consent thereunto that hereaf^r they may have no Cause of Complaint that they have beene Constrayned to parte wth their Land against their will, Not that there is y^e least distrust of yo^r integritye in this or any other matters, but you being y^e persons cheifly concerned it will be more regular to have a Certificate about y^e same from y^e oth^r Com^{rs} no way related thereunto then from yo^r selves, y^e w^{ch} being done yoⁿ may have what furth^r Confirmation is requisite, ffor oth^r matters wherein yoⁿ left a lattitude for Mr. *Cooper* to Act as about restraint of selling Liquors to y^e Indians & such oth^r matt^{rs} he hath y^e severall ord^{rs} thereupon, & will acquaint yoⁿ what y^e Governo^r hath done therein.

His Hono^r intends to Answer Mr. *Mulfords* Lre & what Mr. *James* adds at y^e latt^r of yours more p^ticularly, so I conclude leaving yoⁿ to the Protection of y^e Almighty & remaine

ORDERS AND CORRESPONDENCE CONCERNING INDIAN LAND AT THE EAST END OF L. I.

Whereas M^r *John Mulford*, M^r *Thomas James* & *Jeremiah Conckling* of *Easthampton* did request my confirmation of y^e sale of a certaine piece of Land by some of y^e *Mantucket* Indians unto them to w^{ch} end they desired y^e said deed might be Recorded in y^e Office of Records here according to Law, y^e w^{ch} I thought good to suspend until I should receive some further satisfaction therein from y^e Com^{rs} appointed for y^e Indian affairs at y^e East end of *Long Island*, And there

being since that a caveat desired to be entered by Mr *Thomas Backer* on behalfe of y^e major parte of y^e Towne of *East hampton* against y^e said Deed of Sale as being contrary to a former order & agreement made in y^e tyme of my Predecessor Col^l *Richard Nicolls*, & may prove a great p^rjudice to y^e rest of y^e Townes if they should be debarr'd of their comonage there. These are to ord^r & appoint the Comission^{rs} for y^e Indian affairs aforesaid to take ye p^rmisses into their serious considerations & having carefully examyned into y^e same that they give me account thereof so that I may proceed thereupon according to justice & good conscience. Given und^r my hand at *fort James* in *New Yorke* this 8th day of february in y^e 23th yeare of his Ma^{ties} Raigne Annoque Dm 1670-1.

To y^e Com^r for y^e Indian affaires at y^e East end of *Long Island*.

Mr *Mulford*.

I rec^d yo^r Lre of 21th of December, & I hope I have taken such a course (by Mr *Cooper*) as may satisfye yo^r just complaint touching y^e Exorbitance of y^e Indians, & truly if you reflect but on y^e power I have invested you togethe^r wth y^e rest of y^e Com^{rs} for y^e Indian affaires, you will then conclude that I should rath^r expect to heare of y^e Indians conformitye to yo^r orders, as to dispose them to a better temper of life than to heare any complaint of yours to y^e contrary since I have invested you wth power sufficient to Exact an obedience from them, but I hope all things are now to your satisfaction as to that perticular. I was since solicited by Mr *Topping* in an affaire that I thought I had likewise taken care for, concerning y^e Two Indians that Mr *Cooper* p^rtended to appertayne to him by precontracts & must confesse (though as you may well imagine) I was much in y^e darke and so likewise y^e rest of my Councell, as to an affaire of this distance, yett my case was so circumspect as not to lessen y^e former authoritye I had invested you & y^e Com^{rs} wth that I resolved to refer y^e matter wholly to your consideration & to extend that Justice as yoⁿ conceived most effectual. The businesse therefore as then so now lyes before you to determyne, to w^{ch} Mr *Topping* chearfully submitts, & therefore I recomend it wholly to you. The occasion as is alleadged of Mr *Topping's* taking this paines of a journey hither, was that y^e ord^r whereby y^e Com^{rs} were desired to decide y^e difference betweene him & *Cooper*, was not produc^t wth so soone as he p^rused y^e Record of it, he seemed to be so satisfied wth it, that he never would have taken so fruitless a journey had he had but a sight of it there. To w^{ch} direction & order I have still referr'd, and therefore Expedite y^e difference as speedily as may be.

Whilst I was dispatching him to his satisfaction I received anothe^r Lre from yoⁿ y^e of first of february 1670, wherein you seemd to Complaine as if yoⁿ feared you might be misrepresented to me by Mr *John Topping* (& likewise for w^{ch} I am indebted to your friendship) that I was traduc^t by him, as if I had graunted out an Execution before both partyes were heard, Tis true yoⁿ apprehended it rightly when it was so answered that that was false, for yoⁿ know my order was not in y^e nature of an immediate Execution, but wth a reservation to y^e determination of y^e Councell for y^e Indian affaires to w^{ch} I still referre him, chusing rath^r to incurre y^e censure of a remissnesse, then in that where I cannot make a cleare demonstration (by my determinaçon) an injustice to eith^r partye, & therefore left y^e whole affaire as I found it to yoⁿ who being on y^e place had better opportunityes to discover y^e subtiltyes of it, then I with all my assistance could do, having now declared so much I can add no more to this perticular, but it lyeing before yoⁿ that yoⁿ prosecute y^e scope of that order Mr *Cooper* brought to you, & to determyne as (I am confident yoⁿ will) with Equity & Justice.

I have likewise sent yoⁿ my resolution concerning yours & Mr. *James* purchase of y^e Indian land but in regard it has mett with fresh oppositions from your Towne, I desire that matter may

be a little suspended till I have y^e oppertunitye (God willing) to visitt those partes & then I doubt not but to compose all affaires so as shall be to mutuall satisfaction, till then I must desire yo^r patience, I have onely to add this (it being y^e subject of yo^r last Letter) that Mr *Topping* has not delivered any thing to me concerning yo^r pson but what savoured much to yo^r worth & reputation Comend me kindly to Mr *James* & Excuse my not wryting to him, being resolved before longe to visitt him. I have no more but my Kinde respects to all o^r friends & desire yo^u to believe that I am

Yo^r assured friend

All w^{ch} was returned unto mee wth their Request that y^e Agreem^t might bee Recorded, & my Confirmagon had there upon, but for some Reasons for that time was suspended untill certificate was made unto mee by the Commission^{rs} for y^e Indian affaires in those parts, That all Obstructions & Objections against y^e agreem^t afores^d were removed, & that there was a right Vnderstanding on all parts had there upon; These Presents therefore Certify & Declare, That the Agreem^t of Purchase made by the aforenamed Mr. *John Mulford* Mr. *Thomas James*, & *Jeremiah Conckling* with the *Meantuckett* Indjan Proprieto^{rs} afores^d mentioned, returned into y^e Office of Records here, is to all Intents & Purposes of fforce & valid according to y^e Condigons therein sett forth, & I doe hereby allow of & confirme y^e same, against all other pretences whatsoever. THE CASE OF HEMPSTEAD AND THE MATINECOCK INDIANS.

Whereas there long hath been and still is a Contest or difference depending between y^e Inhabitants of *Hempstead*, & some Indyns of *Matinicoock*, about certaine Lands lyeing there, y^e w^{ch} is claymed by those of *Hempstead* as their Purchase, but is also contradicted by y^e Indyan Proprietors of *Matinicoock* who deny that either They or their Ancestors or any for them have ever sold or received Satisfaction for y^e same; The w^{ch} hath occasioned great trouble, & proves a hindrance to the Planting & Improvement of those parts, w^{ch} otherwise had been ere this settled for y^e Good and Benefit of these his R: H^{ss} his Territoryes; These are in his Ma^{ties} Name to require that some person or persons be appointed by y^e Justice of the peace, Constable & Overseers of y^e Towne of *Hempstead*, and two of y^e discreetest of y^e Indians of *Matinicoock*, or some one or more Christians chosen by them to plead their Cause that they make their Appearance at ye next Gen^l Court of Assizes to be held in this City beginning on y^e first Wednesday in October next, being y^e 4th day of y^e said Month to make out their Title to y^e said Land, that upon due Examination had and Proofs made thereupon; It may be knowne to whom it really & of right doth belong and Judgment be given accordingly, consonant to Law and good Conscience. They insist also upon Governo^r *Nicoll's* promise to them under his Hand, that noe other Persons, but those of their Towne should have Leave to buy the Land at *Matinicock*.

Robert Williams & y^e Attorneys plead that *Matinicock* Land was never sold to *Hempstead* Men by their Consents, and that *Tuckpoushe* disowns it; And further that it is not soe much as once mensioned in their Deeds.

It was proposed by y^e Governo^r, That hee would buy it for *Hempstead*; the w^{ch} the *Matinicock* Indiyans referred to his Hono^r to purchase for himselfe, as being willing to sell it to him, but desire a Months time to consider of the price; The w^{ch} was agreed upon, & the following Ord^r of Court made.

By Ord^r &c:

The Petigon of y^e Inhabitants of *Huntington* directed to this Court being taken into Consideragon, more particularly as to that part thereof, Wherein they seeme to suggest or take for granted that the settlem^t of y^e ten famileyes upon the Land w^{ch} they recovered from *Richard Smith* of *Nesauquake* (the w^{ch} hee was obliged to doe by his Patent if hee had gained the suite)

was an Injunction laid upon them, w^{ch} they conceive is intollerable; the Court is soe well satisfied of what was then done, The w^{ch} was freely consented unto by the Persons of that Towne then present, who informed the Court they had full power to Act on the behalfe of the rest, That they finde no reason to alter their Judgment then given, but doe Order the same to bee putt in Execution, upon y^e penalty & Condigon therein exprest. As to their Bill of Charges relating to *Richard Smith*, the Governour & Conncell will take into further Consideraçon, and make some Order thereupon Consonant to Justice, and the Course & practice directed in the Laws of this Governm^t.

Whereas I am given to understand that y^e Majo^r part of yo^r Towne did at a Publick Meeting Contract wth *Richard Charlton* to keep a Schoole to Instruct y^e Children & Youth there to write and read, the w^{ch} hee hath performed for the whole time of y^e Contract, yet diverse of the Towne although they haue received the Benefitt thereof, doe refnse or too long delay the Payment Contracted for; These are to require you to cause speedy Payment to bee made unto him, according to your Contract, that Persons of that Calling bee not discouraged, otherwise hee will

A LETT^r TO MAJO^r GEN^l LEVERETT AT BOSTON.

S^r It was neither out of Vanity or Pride, that hitherto I have not had a Close Correspondence wth you ; for believing it a receiv'd Practice that when any Stranger enters himself into a Neighbourhood, y^e p^sent Inhabitants (by y^e Rules of Vrbanity) ought to Congratulate his Reception, This being unfortunately omitted by you I could not expose the Dignity of my Royall Mast^{rs} Interest, whose Substitute (by his great Indulgence & ffavo^r) I am to any cheap Rate ; However passing by all former Mistakes, & since y^e vicinity of y^e Place, & mutuall Interest may teach us a more substantiall Benefit, then ayery Compl^{ts} I shall bee very gladd to embrace y^e opportunity whenever Fairely rep^sented to mee ; It is possible I may fall under yo^r hard Censure in y^e Prohibi^{ti}on of Wheate in Grayne, but it being universall (not respecting Persons) & y^e great Vtility wee receive by it, may be satisfactory without further Arguments too long here to recite ; All that I drive at is, that his Ma^{ties} Interest, the Glory & Honor of our Nation (now in these portending boysterous times) may bee entirely p^served, to w^{ch} end the expedient is a mutuall Understanding of our nearest Allyes, w^{ch} if you believe your selfe soe, with us I doubt not but time and a happy Opportunity may demonstrate that the (almost unknown) parts of y^e World will bee able to manifest, though wee are divided from our native Soyle by Distance, yett not by Publick Interest and Loyalty ; I have now noe more but to assure you I am with all respect

AN ANSWER FROM MAJO^r GEN^l LEVERETT TO A LETTER SENT HIM FROM Y^e GOVERNO^r OF N. YORKE BEARING DATE APRIL Y^e 23^d 1672.

Boston May y^e 9th Anno 1672.

S^r.

Yo^r^s by Mr. *Sharp* of y^e 23th April came to hand y^e 29th day, thereby y^e first occasion offered unto mee to assume y^e Boldness to enter into this way of Correspondence wth you not knowing but your beliefe may hold amongst Equalls, circumstanced sutable for Time & plase, of w^{ch} Number should I vallue myselfe, you might justly acempt mee worse then Ayery, whilst the Omission of that you Count soe could not bee any temptation to you to prostitute his Ma^{ties} Interest under your Betrustment to any cheape Rate, I hope I shall never give you any just Cause

& blame mee for backwardness in embracing any Opportunity offered for my Acting to Publick Benefitt, & less to suspect mee for being busy in enquiring into y^e motions of any publique Instrument, least of all to bee censuring of them; Even bearing it with mee as my great Concerment, to bee ready & able to give Acco^t of mysef, & may I bee helped in my private & more publique capacity soe to carry it, that I may render my Acco^t wth Joy unto y^e Lord whose Barr there's noe avoiding; To mee it will bee sufficient in attending to y^e way thereof; I'm sure there can bee noe faylor in preserving entire in his Ma^{ties} Interest, & the Nations Honor bee y^e times never soe boysterous; & by y^e Grace of God I desire and shall endeavour to bee found most nearly allyed to those that feare God, Honor y^e King, Love y^e Brotherhood; & in that may bee ready to doe Good unto all men that thereby I may keep close acc^t of Publique Interest & true Loyalty. Yo^r Honor intimating that some of yo^r Souldyers had left their Colo^{rs}, not nameing them I enquired of Mr. *Sharpe* their Names & told him (if hee could give them to mee) I would secure them, if they were to bee found Amongst us, & send them to you according to yo^r Desire, who since informed mee that hee had learnt their Names, & that they had shipt themselves wth one Mr. *Thomas Gennor* Commander of a Ship that is gone to *Long Island* to take in Oyle, & soe bound for *London*. Thus presenting my humble service to yo^r Honor I commend you to y^e Protection of God, assuring you that I am

LEE FROM Y^e GOVERNO^r TO Y^e COM^{ms} FOR Y^e INDIAN AFFAYRES AT Y^e EAST END OF LONG ISLAND.
Gent.

I take hold of this Opportunity by y^e hands of Mr. *Delavall* to acquaint you of severall Complaints that have been p^rferred to mee concerning yo^r Administragon of Justice in relation to y^e Indyan Affayres many seem to groan under yo^r heavy Hand, believing the Intention of that Commission you were invested wth will not extend to y^e Determinagon of severall Courses wth naturally appertaine to y^e Sessions. When that Commission was graunted to you by my Predecessor (& since allowed of by mee) it was in y^e infancy of time, before the Whalefishing was in Practice & then lookt on as an Expedient to keep y^e Indyans in some Order & Decorum. But Multiplicity of Affayres dayly intervening, by vertue of yo^r Commission you seem to extrude Causes properly determinable at y^e Sessions, by w^{ch} means y^e Inhabitants will believe themselves debarred from y^e Ordinary Establish^t way of Administragon of Justice towards them. You have now Justices of y^e Peace sufficient to sitt in the Courts; And therefore if Mat^{rs} were determined in those Co^{ts} of Sessions I believe it would give a generall satisfaction to y^e whole Countrey; but in regard I am soe great a Stranger to this new Affayre, I shall determine Nothing at this time positively, desiring I may Discourse it wth you at *Seatalcott*, Where I will be (by y^e help of God) on y^e 8th day of May. I cannot but take Notice that notwithstanding I sent Ord^{rs} by Cap^t *Manning* that you should forbear to fine & Levy them till my farther Ord^{rs} were signified, you notwithstanding proceeded therein; whereby you either believ'd Cap^t *Mannings* Writing not to bee my Sence, or if mine of noe validity. I have noe more at p^rsent, but committ you to y^e protection of y^e Almighty, & rest you

Yo^r Loving Friend

AN ORD^r ABOUT WHALES.

Whereas I am given to understand, That there hath been great Abuse by y^e neglect of y^e Offic^{rs} of severall Townes upon *Long-Island* in not making Enquiry into or securing his Royal, Highness his part of Drift Whales or Great fish cast upon y^e Beach or Shoare according to y^e Directions in y^e Law, the w^{ch} other persons p^rsume to Engross without rendring any acc^t; ffor y^e p^rvention thereof for the future, and better securing y^e Dukes Interest therein, I have thought fitt to constitute and appoint, & by these Presents have hereby Constituted and appointed Mr. *Wm. Osborne*, & Mr. *Jno. Smyth* of *Hempstead* to make strict Enquiry either by Indiyans or others, of all such Drift Whales or great fish as shall bee cast up on the Beach or shore between y^e Bounds of y^e Towne of *Seatauncott* Eastward, & y^e utmost part of the Lymitts of *Gravesend* or *Coney-Island* Westward; and if any such Whale or Great fish shall bee at any time found that they give an acco^t of and secure his Roy^{ll} Highness his Interest and part of them as in y^e Law is sett forth; And y^e said *Wm. Osborne* & *John Smyth* shall bee solely employed herein for and dureing y^e space & terme of years: They behaveing themselves therein according to y^e trust reposed in them, and for what they shall lawfully Act or Doe in the Premisses, This shall bee to them a sufficient Warrant. Given under my Hand at *Forte James* in *New Yorke* this 2^d day of May in y^e 24th yeare of his Ma^{ties} Reigne, Annoque Dni 1672.

LIBERTY GIVEN TO M^r CORNHILL & M^r DOUGHTY TO SELL LIQUO^{rs} & POWDER TO Y^e INDYANS WHO ARE HELPFULL IN Y^e WHALE FISHING DESIGNE.

Whereas Mr. *Richd. Cornhill* one of y^e Justices of Peace, & Mr. *Elyas Doughty* being engaged wth others in y^e Whale fishing Designe, upon y^e South-parts of *Long Island*, in the w^{ch} they are of opinion the Indiyans on those parts may bee very instrumentall unto them, if they might bee permitted to furnish them with some moderate proporgon of Strong Liquors, Powder, and Lead as they shall have occasion of, y^e w^{ch} many persons p^rsume to sell unto y^e said Indiyans wthout Lycence, but the said Mr. *Cornhill* & Mr. *Doughty* Declare themselves to bee unwilling to break y^e Law therein. At their request, I have thought fitt that for the space of one Whole yeare dureing y^e Whale-fishing Season, or in relagon thereunto y^e said Mr. *Cornhill* & Mr. *Doughty* shall have Lycence to sell or truck wth the Indiyans of those parts such a moderate proporgon of Strong Liquors, Powder, or Shott as shall noe way occasion disturbance or abuse amongst y^e said Indiyans or Christians, & shall bee usefull for their Whaleing Designe. For y^e doing whereof This shall bee their Warrant. Given under my Hand & seale at *Forte James* in *New Yorke* this 4th day of May in y^e 24th yeare of his Ma^{ties} Reigne, Annoque Dni 1672.

Whereas I am given to understand that a Whale hath not long since been cast upon a parcell of Beach claymed to bee w^{thin} *Jno Coopers* Bounds or Precincts, of the w^{ch} severall Indiyans have taken & carried away the Whale-Bone ; These are to authorize the said *Jno Cooper* to make Enquiry into and to make seizure of such Whale-Bone (if it bee found) of the w^{ch} hee is to give an acco^t to y^e next Justice of the Peace, & likewise unto my selfe, And for soe doing this shall bee his Warrant. Given &c : at *Seatalcott*, als *Brook Haven* y^e 10th day of May 1672.

At a Councell held at *Fort James* in *New Yorke* y^e 17th of May 1672.

Whereas it was represented unto his Hono^r y^e Governor that a certaine difference had arisen between *Jno finch* of *Huntington* & severall persons of *Oyster-Bay* concerned in the Whale-fishing Design, touching three Drift Whales cast upon the Beach & cutt up and tryed by those of *Oyster Bay*, wherein his Royall Highness was concerned as to his particular Dues out of the Oyle of the said Whales ; All w^{ch} was referred by ye Governo^r to *Thomas Delavall* Esq^r one of y^e Councell to Examine & Endeavour a faire composure between ye Parties, securing the Dukes Interest ; Hee having an Ord^r in the meane time to receive the Oyle, & bee accountable for ye same when the controversy should bee decided, to whom of Right it did belong ; and the said *Thomas Delavall* having Declared that to prevent further contest, hee had made a faire agreem^t between them or most of them concerned ; That is to say, That *Jno finch* should have for his Share or Proporgon ffifteen Barrells of Oyle upon Acco^t of his Interest in y^e Beach where the Whales were cast up, out of w^{ch} hee is to pay his Royall Highness his Dues, & two Barrells more to heare the Necessary charges had hereupon ; And that y^e Remainder should be unto them of *Oyster Bay* that cutt up & tryed the Oyle of the said whales for their charge and paines therein, together with y^e cost of the Barrells, & Transportation ; Vpon consideragon had hereof, the

Governo^r & Councell have thought fitt to allow, & doe very well approve of what y^e said *Thomas Delavall* hath done herein, And doe order that the agreement aforesaid doe stand good & bee observed accordingly.

By Ord^r &c.

The agreem^t made by Mr *Delavall* between Cap^t *Topping* and y^e Commission^{rs} for Indyan Affayres approv'd of. Their Commission to bee call'd in at y^e next Sessions.

The Agreem^t made by him wth y^e Whale Men, securing the Dukes Interest at *Oyster Bay*; It's allowed.

A Petigon from y^e Inhabit^{ts} of *Boswyck* being taken into consideraçon, wherein they request that some period may bee putt to y^e difference between them & *Newtowne*, about their Bonnds & Limitts, concerning the w^{ch} there hath beene soe long Controversy & Dispute. It is Ordered That y^e Bonnds in question shall bee viewed & Survey'd by the Survey^r Gen^l and Report made thereof to y^e Governo^r that the Matt^r in difference may at length bee issued, & noe farther Dispute bee had upon the same.

By Ord^r &c :

Whereas severall Applications have been made unto mee both by y^e Inhabitants of y^e Towne of *Newtowne* & *Boswijck*, that y^e Lymitts & Bounds in Difference between them might bee ascertayned, The which was recommended to y^e Court of Sessions at *Gravesend* to appoint some indifferent Persons to view the same and endeavour a composure; There having been likewise some Orders of Councell upon y^e same Acco^t, but as yett nothing hath hitherto been done therein; To y^e end an Issue may bee had of this Controversy, The Persons whose Names are hereunder written being y^e same who were nominated by y^e Court of Sessions are to meet upon y^e Place y^e 27th or 28th day of this instant Month to view y^e Bounds, & endeavour a composure between ye two Towns aforesaid, for y^e furtherance whereof *Thomas Delavall* Esq^r & Mr *Matthias Nicolls* two of y^e Councell are likewise desired to bee p^{rs}ent to give their best Advice to y^e putting of a Period to this Controversy; & if either of y^e foure Persons nominated as aforesaid shall bee absent at this time appointed, y^e said *Thomas Delavall*, & *Matthias Nicolls* may if they see Cause putt some other Persons to Act in his or their Places, of all which they are to render me an Acco^t at their Returne. LRE FROM Y^e GOVERNO^r TO CAP^t YOUNG & THE REST OF Y^e COMMISSION^{rs} AT Y^e EAST END OF LONG ISLAND, ABOUT SENDING ASSISTANCE TO FORTIFY &C :

Gent.

Haueing lately receiv'd a Lett^r from his Ma^{ty} by the way of *Boston*, Wherein hee precautions us (by reason of y^e Troubles w^{ch} are like to arise in *Europe* to prepare, & putt our Selves into y^e best posture of Defence, wee are capable of; I thought good therefore to acquaint you wth it, that soe at y^e Sessions you might consider wth y^e Countrey what will bee most necessary to bee practizd in order to yo^r Security; The Determinaçon I should bee gladd to receive by y^e Returne of the High-Sheriff, that soe I might y^e better bee able to assist you by my Power.

I am likewise to acquaint you of y^e necessary resolutions I have of repaying the Walls of this forte wth some stronger fortifications then heretofore it was, & being altogether uncapable to performe such a worke by my Publick Stock here, I have thought good to recommend our Condition to yo^r & y^e Countreys Consideragon, to contrive and send such an Assistance as may (in some sort) bee helpfull to mee in that Vndertaking. You will know I have been very tender to press this Point to you ; It being now the first I have desired of you in that kinde. Thus not doubting of yo^r Chearfull Concurrence wth mee in a work w^{ch} soe nearly concerns y^e publick safety, I take my Leave of you, & bidd you heartily Fare-well.

COUNCIL MINUTES. LONG ISLAND AFFAIRS.

June 10th 1672.

The *Hempstead* Petigon allowed of that they shall haue Liberty to Provide themselves of such a Minist^r as the Law approues off.

The Petigon of *Mad-nans Neck* being considered off, It having been by y^e Court of Assizes referred to the Sessions Court of *Jamaica* formerly to enquire what was done therein there & give y^e Governo^r Acco^t of it.

Matinick Petition about Commonage to bee taken into Consideragon, when it shall bee discourst of wth those of *Hempstead*, & M^r *Paine*, & *Terry*; In the mean time Nothing to be done to their p^rjudice.

The Widdow *Neuius* Petigon about y^e fferry to have her time renewed for six years.

To have it respited till the former Conditions bee viewed, & then considered of.

At a Councell held in *Fort James* y^e 24th of June 1672.

Present The Governo^r Cap^t *Delavall* Cap^t *Steenwijck* The Secretary.

The first thing taken into Consideragon is the Returne from *Hempstead* of Contribugon & New Election of Constable & Overseers.

The returne of Constable is for *Mr Robert Jackson* 39; for *Simon Seryon* 31 voyces; To the w^{ch} Objection is made by *Mr John Hicks* & *James Pine* on behalf of severall of y^e Towne, That *Mr. Jacksons* votes or the Major part of them are of the great Neck, or *Mad-Nans Neck* who have small parcellls of Land & have noe Relation to the Towne, equall wth y^e Ancient Inhabitants, some Lotts being divided into severall shares.

It is demanded if they are ffree hold^{rs} and Consented to;

The Determinagon being left to y^e Governo^r & Councell.

The Present Election is allowed of to bee Constable for the ensuing yeare, both Partyes being call'd together, & their Allegations heard, noe material Objection being made against it; It is thought fitt y^e Inhabitants of *Mad-nans Neck* shall have their Votes for the Election of Constable & Overseers, they being capacitated by the Law to give their Votes as ffre-holders; for the Proposall of their being a Village abstracted from the Towne of *Hempstead*, & to have officers of their own; It shall be taken into farther Consideragon.

As to y^e Returne of y^e Voluntary Contribution towards the Reparation of y^e ffort, It being

read, It was very well approved of, & Ordered, That Thanks should bee given them for their forwardness therein, the w^{ch} is to bee Recorded.

LETTER FROM GOV^r LOVELACE TO THE GOV^r OF CONNECTICUT.

Fort James y^e 26th June 1672.

Dear S^r.

I rec^d 2 Lett^{rs} lately from yoⁿ of May 2^d & June y^e 17th together wth his Ma^{ties} Declaragons & severall Gazetts, for all w^{ch} I must acknowledge mysel^f yo^r obsequious Deb^{tor}; the substance of most of it had arriv'd mee before, only I very much long'd to have a sight of his Ma^{ties} Declaragon against the Hollander, in regard I beleieve upon that p^{sumption} the Govern^r of *Boston* caus'd open Warr to bee proclaim'd against the Dutch, I must confess I am not skilld enough to determine whether it bee proper, or a Declaragon only to use y^e formality of denouncing Warr;

Proclamagons (w^{ch} allwayes are accompanied wth Directions to y^e particular Offic^{rs} to putt what is therein specified into Execution) have been y^e practicable way ; Soe that being a little in Doubt I have suspended y^e formality till either I receive Advertisem^{ts} from *England* (w^{ch} I dayly expect) or till by y^e practice of our Neighbo^{rs} they resolve my Doubts, of w^{ch} I principally desire yor Opinion.

By Lett^{rs} I received from *Holland* I am assur'd of the seizure of all our Vessells, that were unfortunately in their Portes being 4 in number, viz^t my Ship y^e *Fame*, Mr *Delavalls* y^e *Margarett*, Mr *Stenayeks* y^e *James*, & *Fredrick Philips* the *fredrick* ; They are as yett but under an Arrest, being not proceeded soe farr as to a Confiscagon ; Wee hope y^e 32 Article of Agreem^t at *Breda* will secure us, there being a particular Provision made against y^e Inconveniency of suddaine Rupture by allowing all Subjects 6 Months Liberty to withdraw their Estates after a Stroake is strook ; However wee must attend wth Patience. About a fortnight hence here is a very good Ketch design'd for *England*, w^{ch} I shall dispatch with a Pacquett to his M^{tie} & my R. Mast^r ; I thought good to Advertize you of it, that soe (if you were desirous to send) you might finde a suddaine Opportunity.

S^r there is 4 Persons within 2 dayes runn away from hence, the one is a Covenanted servant to Mr *Garland* (who brings you this, the other is deboysted away by y^e rest, being my own Cook, *Isaack Ratt* by name, who is notoriously marked havinge the use butt of one hand, y^e left being splitt in two, hee is of a light brown Hayre, & in gray clothes, but tis possible hee may change them, for hee had variety.) If he happen in yor Jurisdiction (as he is gone that way in a Canoe, pray lett them bee stopt & sent back, & I will (wth thanks) satisfy what cost shall arise on it.

Truly S^r if there be not some severer course practized, Mast^{rs} will neither be able to keep their serv^{ts}, nor Offic^{rs} their souldyers. I can reckon 9 or 10 of our Souldyers that lye lurking in your parts, though I am very well assured wth out yor Privity. Pray assist mee to yor power at this time in my Cooke, & you will lay an Obligation on mee to acknowledge myselfe.

THE GOVERNO^r ANSWER TO Y^e LETTER OF THE MASSACHUSETTS, BY M^r PAINE AUG: 8th 1672.

S^r I receiv'd yo^r Lett^r of y^e 12th of March 1672, by the hands of M^r *Jno Paine*, a Person very fitt for such an Undertaking you designed him, being of a temper Active & of a singular good Comportment, & having perus'd the contents of it, I found it noe Diffinly in mee to comply wth your Desires, where I saw it did not oppose the Current of my Royall Masters Interest; I must confess these generous Cogitagon of yours to enlarge yo^r Territoryes, might doubtless have mett with more satisfaction, both to yo^rselves, & all other Neighbouring Colonyes, w^{ch} bound on yo^rs, if these Resolutions of yours had been started, when his Sacred Mat^{ies} who wisely foreseeing y^e Inconveniencies that might arise by y^e uncertainty of Boundaries, happening from erroneous Principles, as Variagon of Compasses & other Obscurities, traced by immaginary Lines, where though the Error at the first setting forth may appeare but inconsiderable, yet by y^e was extension of it; will at length terminate into a palpable encroachment, if then I say this Designe of yo^rs had been revealed when his Mat^{ie} out of his Princely & Paternal regard to these his American Dominions, was at that large Expence to Comissionate Persons of known Integrity to make Inspection into severall publick Affayres; Amongst other things, this in particular was recommended to their consideragons, tis more than probable a Positive Determinagon would have ensued, & freed us from all future doubts & Jealousyes, by affixing such Stations to each Lymitts as might have assured each Colonyes their undoubted Rights and possessions. But I waveing any Expostulagon that concern'd the time before I had y^e Hono^r to assume this Charge of my Royall Master, I am not only to assure you how ready I was & shall bee to Comply wth each Desire of yo^r Letter; How amicably I received yo^r Messenger, (in w^{ch} I had regard to yo^r selves as well as to his own merritt) I leave to his Cander & Justice to informe you & because wth those I desire to Converse wth by all Mutnall ffriendship & Correspondency, my Nature is to deale frankly & openly wth them, I am to informe you that haneing a fitt Opportunity to signify these Resolutions of yo^rs to My Royall Master, I have transmitted them thither, hoping before you will bee ready to putt this your Affayre into practice (the unhospitaleness of the yeare approaching) I may bee furnisht wth such Directions from him as may bee both agreeable to your

LETTERS TO CAP^t. JNO. HOWELL & C:

Gent. I received yo^r Letter of y^e 14th of Novemb^r 1672, the subject matter being an Acco^t of yo^r Proceedings wth the Marrishall for his presumption of administring an Oath, when the Matter appertain'd to the Justices properly; I could not have thought such a Punctilio could have begatt soe much trouble as already it has done & like to doe, especially there being another affayre twisted wth it, & that is some defamatory words *John Cooper* should bee accus'd to utter against the Assembly for the wth you have carefully & prudently bound over both partyes to answer at the next Sessions; It was a wonder to mee since *Jennings* who (it seems) had long intelligence of *Coopers* carriage in this affayre, that hee not see much as ever reveal'd it, when all Partyes were here at y^e last assizes, where the whole Busyness might thoroughly have been seann'd, but to lett it sleep all that time, & only to awake it to make it subservient to his private end, for I learn'd this eruption should (perhaps) never have appear'd the light, had not *Jennings* been disobligh'd by *Cooper* in the refusall of delivering him into the whole possession of a parcell of Land hee had contracted wth him for, In fine, at this time I referr y^e whole matter in controversy to yo^r just & prudent Managery, not doubting but you will bee as zealous to preserve the dignity & reputation of those entrusted in the Publick Managem^t of affayres, as you will have a tender respect for yo^r particular Neighbor. I have taken the Deposition of *William Jeanes*, see that now that is authentick, sufficient to validate y^e truth of his Alligagon & Accusagon of *Cooper*, yet withall leave circumstances to yo^r Justice, as to make a Determinagon (when you shall see cause to determine) if it may end in such a composure, not derogatory to what I have above specified; at yo^r Sessions severall of y^e Councell & Justices of these parts are resolv'd to bee wth you, on Occasions of publick Busyness & private, when that Matter may bee more thoroughly inspected, & those that shall appeare culpable left to suffer such penalties the Court shall finde fitt.

S^r I have according to yo^r Reccommendagons invested *Jennings* in the receipt of the customes

in yo^r parts, & desire you to assist him in all lawfull helps to the Execucion of his Office, if occasion shall present for your Aid, ffor y^e recommendacon of yo^r Towne for you to bee continued in your Office of Justice of the peace for the next ensueing yeare, I shall most readily consent unto it, & to that end have sent you yo^r commission, being very well satisfied of the Execution of that trust I reposed in you this last year, & not in the least doubting of yo^r continuance in the same care of the Publique. I have noe more, only on all Occasions that shall bee presented to you, to transmitt to mee the state of yo^r affayres in those parts, that soe that Vnity may bee preserved amongst us, as may best tend to the peace & prosperity of these his Royall Highness Territories now under my care & trust, Allwayes remembering you beare a part of it. Pray recommend mee to all my ffrinds about you, & assure them I shall allwayes continue soe unless it bee their own faults. I am

Yo^r Loving ffrind

y^e 21th of Novemb^r 1672.

S^r I had forgott to take notice of one particular busyness; It seems *Jennings* is remooved from executing that Office of Deputy Constable; for very vallid reasons now too tedious to rehearse, I conceive it requisite hee bee continued in that Office till the next Sessions.

Fort James Novem : y^e 28th 1672.

To Capt. *Jno. Howell* Justice of peace on *Long Island*.

S^r The last I sent to youⁿ was in answer to one of yo^{rs} & M^r *Mulfords* brought to mee by an unknown hand, & soe was foret to send it by *Jennings*, by w^{ch} yoⁿ will finde my sence on that complaint *Jennings* seem'd to prefer against *Cooper*; I am very much of yo^r opinion, that his prosecution of *Cooper* may take its rise from private ends, not that I doe not believe *Cooper* may bee blamable of untoward expressions (being a man naturally not so well polisht as others of a more gentle nature) but in regard the matter lay buried soe long w^{thout} y^e least mention of it till the Difference betwixt them both reviv'd it; I have referr'd y^e merit to yo^r Determinacons at the Sessions, in w^{ch} I shall desire you to bee a little favourable to *Jennings* concerning the Oath hee p^sumed to administer w^{thout} yo^r Appointm^t. And I recommend this the rather, in regard it will bee a discouragem^t to Publick Vndertakers of offices, when by their unskillfulness they shall runn into any Premunires. I doubt not but by yo^r Moderacon & Prudence to heare of such a composure as may end in Love & y^e p^servation of ffrindship amongst Neighbo^{rs}.

Yo^r Brother presses mee for a Determinacon concerning the Regulacon of the Indyans affayres, it being discourst of at the Assizes, & referred to M^r *Delavall* for his advice in it, but hee having ever since been at *Albany*, and but newly return'd I have not had an Opportunity to discourse it thoroughly wth him, & indeed I am the more willing to forbear till I receive some light from you; ffor since y^e scene of that affaire lyes properly amongst you I would willingly receive some Directions from you before I make a finall Determinacon in that affaire; To conclude both *Reyner* & yo^r Brother seemed on the paym^t of the Townes Benevolence to hint some priviledges you expected for that Place; to w^{ch} I can make no other answer, but wonder at yo^r impatience, since you have rep^sented that affaire (without my privy) to his Royall Highness to think I can doe any thing without his direction. I am

Yo^r affectionate ffrind

A NEW ORDER CONCERNING THE BOUNDARIES OF NESAUQUAKE AND HUNTINGTON.

December 5, 1672.

Rich^d Smith — P^{lt}. The Inhabitants of *Huntington* — Def^{ts}.

This Case being taken into Consideragon, and fully debated in Court ; wherein the P^{lt} desired to be heard in Equity for that part of *Nesauquake* Land on the West side of the River, w^{ch} he alledges to bee part of the Land on w^{ch} hee was obliged to settle the first ten ffamilies, although now claymed by the Def^{ts}, by vertue of the Verdicts they obtained at Common Law against the P^{lt} for other Land as hee conceives,

It is Ordered, That for y^e present Respite shall bee made of any Proceeding in this matter, untill the Spring, when some time in the month of May next his Hono^r y^e Governour intends to have a Gen^{all} Trayning, & a Meeting of the two Troops of Horse at the East end of *Hempstead Playnes*, from whence some indifferent persons from y^e East end of *Long Island*, who will bee there, & some others from the West end, shall bee appointed to goe & view the said Land called *Nesauquake* Land on the West side of the River, & to make enquiry thereunto, in the best manner they can, & if possible make a Conclusion therein between y^e P^{lt} & Def^{ts}, w^{ch} if it cannot bee attain'd unto, that then the P^{lt} shall have Liberty to preferr his Bill in Equity against the Def^{ts} at the next Gen^{all} Co^{rt} of Assizes, as to that Land Called *Nesauquake* Land, where a definitive Determinagon shall bee made thereupon according to Law & good Conscience. AN ORD^r ON BEHALFE OF MR. TERRY ABOUT THE MATINICOCK LAND, &c.

Whereas I lately issued forth an Ord^r that according to Agreem^t between the Inhabitants of the Towne of *Hempstead* & Mr. *Thomas Terry* & Company, the Land Called *Matinicock* should bee layd out & divided, the w^{ch} hath mett wth some Obstruction by reason of the p^tences of the Inhabitants of *Musketo Cove*, who its said have made Purchase from the Indyans of the Timber of a considerable parcell of Land towards *Hempstead* or the Playnes, I have thought fitt to Ord^r that if there bee sufficient quantity of Land behinde the said Plantation of *Musketo Cove* towards the North, the said Inhabitants shall in lien of their p^tences to the Timber of the Land on the South bee supplied wth an equall or better proportion both of Timber & Land to the North behinde them ; The w^{ch} I doe hereby recommend both to the Inhabitants of *Hempstead*, Mr. *Terry* & Company, & those of *Musketo Cove*, that there may bee an amicable Composure of this Difference between them. To the last of them, I pray yo^r favour of referring you for the most part, to my former of the 4th; Onely as to that word you mention of disabusing, I am sorry I should not bee well understood therein, it only regarding those of the East End of *Long Island* who I thought had or might misunderstand, and misapply the favour and assistance rec^d from you, and if so, might also have pretended yo^r Shelter or Countenance, (though without any reason or Colour at this time) But I am now altogether satisfied both by my late voyage, and yo^r said Letter, All things there being settled (quiet) and I thinke to Gen^{all} satisfacon, as well as mine; Having also had the opportunity there, and by Mr. *Willys* and Major *Winthrop* yo^r son (being sent by you here to congratulate my arrivall to this Govern^t) to bee particularly Informed of all transacongs, and yo^r so generous assisting those People, during the late warre, (refusing the reiterated proffers some of them made you, in the name of the whole) wth I doubt not will bee very satisfactory to his Ma^{ty}, and redound to yo^r Hono^r and advantage. I thank you for yo^r favour, in giving them now so advantageous a character, of which I hope a continuance in them, and they receive the fruits in every respect: That I may not detain you too long, I must referre you for all particulars to Mr. *Willis* and Major *Winthrop*, to whom as I have endeavoured to give that due recepgon and satisfacon as I thought, so I will not doubt their making a favourable construegon and report to you accordingly, for the continuance of a good Neighbourly correspondence, between

the Colonyes, and so Hono^{ble} a p^{erson} As yo^r selfe; I have onely to add my acknowledgm^{ts} and thanks for yo^r sending to me by such worthy Persons, who were also actually employed during the late warre, and your Son particularly remainiing in command upon *Long Island*, where hee did worthily acquit himselfe, which I take as a particular respect to his Royall Highnesse my master, and remaine

Southhold, July 14th 1675.

New Yorke, August the 4th, 1675.M^r Woodhull.

I have this afternoon rec^d yo^rs of the 4th which I suppose was writ yesterday; you have done well in prosecuting my Orders to yo^r out Indjans of *Unquechange*, for their Armes, and particularly sending a party to compell them, when they did not punctually bring them in, as you desired, which cannot be a misse, though tis possible the Sachem being at *Southton*, (as you all alleadge) to that day, and others disperst, might have no notice, so not faulty; But I would not have you faile to seize the Indjan Messengers you sent, as soone as you can light on them, and unlesse they can give you a Satisfactory Account of Endeavo^rs, that you send them up hither by the first Convenience, and for others, that you continue the same care for their proteegon (being disarmed) and do them Justice, upon all occasions requiring it, of which you may acquaint them againe; I dispatch this the sooner to you, upon receiving this night, a Paper and Letter from the Eastward, of which I send you Copyes, you'l send forthwith toward *Nesauquake*, to informe yo^r selfe if there hath been any meeting of the Indjans that way as intimated, and that you give Order to M^r *Smith* to bee carefull, and give you notice if any thing happen there for the future; And that you take such Order therein, as you shall Judge necessary, and give mee Account thereof, if any thing requiring it; As to the Charge of the Party, or any thing else concerning the Publick, I thinke it ought to be borne by the Publick, and shall be allowed out of the Country Rates; But if any seem to exact at any time, you may send up their demands hither, where it shall bee determined, But none are to bee suffered to refuse a Publick Service; I hope all our Indjans will bee quiet, But you are not (however) to omit yo^r watching, till further order; I am

Yo^r very Loving friend.

E. ANDROS.

A Letter to *Seatacoott*.

Gent.

In the absence of the Governo^r I rec^d yo^r Lre by Serjeant *Biggs*, The contents thereof relating some apprehengons you have of yo^r Indjans ill designe, for that they stragle abroad, and are not Conformable as they ought, to the Orders left by the Governo^r; I have made some enquiry about the matter, and advised there upon, and in answer thereunto (at p^rsent) can make you no other returne, then that you give yo^r Indjans, notice duely to observe the Governo^rs Orders & Direcgons; And if any one of them, shall do any violent Act, or Harbo^r strange Indjans, without giving notice thereof, that you send them up hither, where they shall be Secured, to answer their misdemeano^r or Contempt; Of the which, the Governo^r will shortly bee back, to bee Judge; In the meane time, it will not bee proper for you to show any Doubts, or feares you may have of them; Onely to have a vigilant eye, over their Acgcons, otherwise to live with them as formerly.

Tom, the Indjan hath been heere, who saith hee came from the Sachem, only to see if the Governo^r were returned, for that hee intends then to come to the Governo^r, as hee was appointed; At his Hono^rs returne (which may bee expected the latter end of this, or beginning of the next weeke) such further Order, will bee taken about yo^r affaires, as will bee thought convenient; This is all apt ^rsent from,

Gent,

Upon y^e Indjans appearance afternoone, the *Hempstead* men were called againe; *Tuckpoushat* declares y^t *Merick* Land which *Hempstead* enjoy was never paid for. It's alleadged payment was brought, but being short was not received; This for y^e North side.

As for y^e South, Hee saith likewise that it hath not beene paid for neither. Mr. *Gilderleeve* saith that their right is from y^e Dutch Governour who bought it & graunted it by Patent to them, that besides part of it was to bee given in Consideracon of a Mare, some Cattle & Hoggs killed by them.

They pleaded Conquest of them likewise & say that y^e *Muntauckett* Sachem, who was chiefe Sachem of the Island, confirmed this Land to them. The Indjans deny that Sachem right to give away their land, & still insist upon it, never to have been paid for it.

The Govern^r proposed to y^e Indjans to know what they would desire as Satisfaction for their Land, but that it be in moderation, the Towne of *Hempstead* having been so long in possession.

They desire time to consider of it, & to advise with their friends.

They are allowed time to consider of it till y^e Governours returne from *Albany*.

Gent.

I yesterday rec^d yo^{rs} of the 13th instant, so long a coming, (as the Indyan saith) by reason of the wett weather; I arrived here on the 9th instant, late, and am sorry to heare that you (as well as the most Part of the Island) have been so alarm'd, upon a false Report of our Indyans ill intent against us, which I endeavour'd, and hope is now Rectified, and all Parties well satisfied, and quiet; some Officers from all the Townes, on this side *Seatalcott*, and all the Sachems of *Long Island*, and neighbourhood on the maine, having been here with mee since; And although I did hope, you would not have been alarm'd, yet I writ to you on the 11th, which I hope came well to yo^r hands, and satisfide you; The same night, I Ordered and sett out a sloop armed, to cruise in the sound, and the next morning, went myselfe in my Pinnaee, as farre as Mr. *Pells* to the Indyans there, and from thence to *flushing*, and home by Land, the better to settle Peoples mindes; I now

send you a copy of a Proclamagon, relating to the said matters, that it may bee forthwith put in Execucion, both by you, and the Neighbouring Townes of *Southhold* and *Easthampton*, to whom you are to send copies attested, and also to communicate this, not having time to write to them, and unwilling to stay yo^r expresse Indyan; Though I do not apprehend any danger by the Indyans, yet there shall continue an armed sloop to ply in the Sound, that so, no ill Indyans may have opportunities to crosse it, at their pleasure, which sloop is intended to call at *Southhold* and *Easthampton*, sometime the next weeke; and if there should happen any occasion, more sloopes shall bee forthwith sent out, as the matter may require, so that I hope, none will have cause to neglect their Lawfull occasions; recommending you to bee vigilant, and that I may heare from you, upon all occasions requiring it, I remaine

Yo^r very Loving friend

New Yorke, Sept. the

18th 1675.

Postscript. It being Resolved, That the Indyans of the North and West Ridings of *Long Island*, shall (by reason of their good comport, and the season of the year) have their Guns restored to them, you have likewise Liberty to do the same, in yo^r Parts, unlesse you know of any of yo^r Indyans not fitt to bee trusted therewith, excepting *East hampton* and *Shelter Island*, who having p^d contribucion, to the *Narroeginssett* Indians, are not to have them, for the p^{re}sent.

To Mr. *John Topping*, Justice of the Peace, and Capt. *John Howell*. These at *East Hampton*.

THE GOVERNO^rs LETTER TO MR. WOODHULL, SENT BY THE INDIAN, THE 18th SEPT. 1675.

S^r.

I rec^d yo^rs of the 16th the last Night, and am very well satisfied, of yo^r Care and Justice, in relagon to y^e Indyans, who I finde, have not misbehaved themselves, Notwithstanding the great Noise, Jealousies and apprehensions of them, so that the Cause and Instruments thereof, ought to bee severely Punisht; However, the Indyans to the Eastward, being still strong and active, I have Issued forth the Proclamagon herewith sent, the better to satisfy all Peoples minds, Particularly the Christians, and to keepe a Sloop Armed in the Sound, that no ill Indyans may easily Crosse it, and shall bee ready to send more, upon any occasion requiring it; I would advise you to be vigilant, though as yet no cause of feare, but to continue in being Just, and Protecting yo^r Indyans upon all occasions; Had you named those of yo^r Towne, who yoⁿ seeme to imple to bee troublesome, or exceed their Bounds towards the Indyans, I would have taken such present Order in it, as had been fitting; But you having sufficient Power as a Justice, I do not doubt, but you will make use of it, as there is occasion, and you see Cause; I sent for Capt. *Bayly*, and the Offic^{rs} of more of the other Townes (as well as Sachems of *Long Island* and Neighbourhood, upon the Maine) have been wth mee since my returne, and all satisfied and well; I am

At a Conncell. Sept^r 28th 1675.

Present. The Governo^r. The Secretary. Capt. *Brockholes*. Mr. *J. Lawrence*. Capt. *Dyre*. Mr. *Fred : Philips*.

The matter in Consultation was about a letter brought by an Expresse from y^e Island *Nantuckett*, intimating their weaknesse, & great strength of the Indyans, both on their Island, & *Martins Vineyard*, not above 40 men at y^e last & 30 on y^e former, 1500 Indyans capable of bearing Arms, On *Nantuckett* y^e Indyan men women & men 5 or 600; not so many on *Martins Vineyard*. They desire in their letter a Couple of great guns, & halfe a dousen Sould^{rs}. They pretend an ill consequence may arrive upon the Indyans Trayning in Armes on *Martins Vineyard*.

Resolved, To send them each a great Gun at y^e two Islands of *Nantuckett & Martins Vineyard*, & to each y^e Proclamation concerning y^e Indyans, of keeping Watches, erecting Block-houses &c.

LETTERS TO GOVERNOR ANDROS ON INDIAN AFFAIRS.

Right Hon^{ble}.

I and my men understanding that yo^r Hono^r was pleased to grant Liberty to the other Indians to have their guns returned to them, but a restraint was imposed upon us the *Montauket* Indians by reason of some Compliyance we have had with *Ninecraft* the *Narkiggon* Sachem have sent this our messenger with these few lines to Intreate yo^r Hon^{rs} favour towards yo^r poor Suppliants yo^r Hon^r may understand my father and grandfather have stood always loyall to y^e English in y^e *Pequod* wars now towards 40 years since my forefather was a great help to y^e English having then this whole Island att his command & since then upon all occasions manifested his faithfullness to the English & if any plot were att any time against them tymely discovered them & this is known to many of the English yet alive: and concerning this plot now on foot against the English & yo^r hon^r may be assured (for we speak it before God the knower of all hearts) that had we been in the least acquainted with any such matter we should have discovered the same & though of late years we have held some correspondency with *Ninecraft* yo^r hon^r may be assured it was only with regard to our own Society we being very weak & few in number & he being great & having had wofull experience of the great desolation he made amongst us while we stood in terms of hostility against him but this we understanding is offensive to y^r hon^r we shall forbear for the future onely intreate yo^r hon^r to take some speedy course for our security that we may not be molested by the *Narkigansets* for our dependance is wholly upon y^r hon^r for protection as we hope your Hon^r shall find us ever loyall Subjects to the king and duke of *yorke* & to yo^r Hon^r & to all authority under you. yo^r Hon^r may be pleased to take notice that 4 of our stoutest men have been this tyme of warre with the English Captains & fought under them & helped to doe some execution upon their enemies & had their free liberty to return home being dismissed upon their desire to return to their friends & relatives by the Governor at *Boston* we leave ourselves with yo^r Hon^r hoping yo^r hon^{rs} favourable acceptation of us; now is the vsuall tyme of our hunting & to get a

little provision & some skins for clothing & if our humble request herein, may find a gracious answer, we shall take it as a further engagement to yo^r Hon^r & shall rest yo^r hon^{rs} humble servants.

Right Hon^{ble}.

The lines upon the other side I wrote upon the desire of the Sachem & his men, they were their owne words, & the substance thereof they also had expressed before Mr. *Bucker*, but since my writing of them w^{ch} was almost a week since, I perceive that delivering vp the armes to the Indians doth not relish well with the English, especially since of late we heard of the great slaughter, they have made vpon the English in other parts of the country; I perceine att *South-hampton* y^e English are much troubled y^e Indians haue their armes & I thinke it doth much disturbe y^e spirits of these haue them not; as for these Indians for my owne part I doe thinke they are as Cordiale freinds to the English as any in y^e Country & what is written by y^m is knowne to many to be y^e truth, though God knows their hearts. As their Counsoler, S^r, your hon^{rs} predecessor wrote severall letters to me to stirre me vp about Instructing the Indians in the knowledge of God & true religion & that he would further & encourage the business so farr as lay in his power. I doe thinke if yo^r Hon^r be pleased to set in att this tyme it may be a good promotion of that work, w^{ch} may conduce to y^e enlargm^t of Christs kingdome & that w^{ch} I have seen in severall writeings of his most excellent Majesty y^e King his pious desire expressed for y^e putting forward y^e worke, but Sir I cease further to trouble yo^r Hon^r att present & for w^t y^e Indians haue written I leaue to y^r Hon^{rs} prudence to act for y^e best & rest wth my humble service to y^r Hon^r & hon^d Counsell.

A small island Called *Hoggs island* at the South side of *Long island*.

Merricooke the indian Planting land voluntarily left. *Massepeake*

On *Tuckopawu* & his Indians did formerly Plant but about three or four years ago they were turned of by one *Cheepy* Who Claimed the said land to bee his as informed by Indians whereupon *Tuckeparis* of *Marsepeake* and of *Murricoke* did remain and plant upon *Rockeway* where he had planted ever since.

Declaration by *George Hewlett*.

That *Cove Neck* has been fenced in and enjoyed by those of *Hempstead* this 25 years and doe not knowe the same to be claimed by the Indians ever since.

That *Great Madnans Neck* has been settled about eight years ago by the English with many were settled thirty years ago by *John Richardson* and do not know that it has been claimed by the Indians since.

Little Madnans Neck settled by several families about eight years and near twenty years reputed to be purchased under *Hempstead* and is now under *Flushing* all these several trackes were spoken off in Gouver^r *Nicoll*s time after Gouver^r *Lovelace*s arival and particul^r discoursed afore them at Mr *Hixes* the Indians being sent for and present but nothing fully concluded onely advised that if they persisted should give to the Indians a present to satisfy them.

Memorandum The Indians do owne they had sold the land at the Soudward but not Nortward.

At a Councill Oct 21 1675. The Indians to follow the directions of the Assizes to remove from Mr *Pells*. No powder nor lead to be sold in this town to the Indians. Mr *Cornell* Captain Wm *Lawrence* from *Flushing* Mr *Gildersleeve* and Mr *George Hewlett* from *Hempstead* they came according to order this day from the two towns *Tuckpousha* and the rest came not till this evening and brought some pretending to land with them the persons appeared just agoeing returned with them. Tuckpousha brought some other pretenders of being owners to some of the land at the North.

Oct 22 1675

At a meeting of Indians before ye Governor at the Fort *Tackpousha* his son and some others.

Its about an agreement for the lands on the North of *Hempstead* limits.

One of the Indians claymes three necks to belong to him and an old Squaw they ask 120 Lbs again as before for the three necks and to keep *Cow Neck* themselves all that have pretences must come together some other time and the Governor will agree with them.

LETT^r TO M^r BAKER OF EAST-HAMPTON.

Mr. Baker.

I have just now received yo^rs of y^e 24th of yo^r Indyns friendly Intelligence, & Declaracions of their Good Wills & constant friendship w^{ch} I shall also acknowledge upon all Occasions; & may assure them that if any Disturbance should happen to the Eastward, or any other against the Governm^t, soe long as they continue thus, they shall bee sure of Protection, and need not feare.

But I finde noe cause or Likelyhood of their intelligence, w^{ch} I rather beleewe the ffancies of some dis-affected Indyns who would gladly have it soe; for I have not heard of one English Man kill'd, much lesse 12; which could not have been concealed; nor is there, nor hath been for some years one Indyan belonging to *Staten Island*; and those towards *Achtercull* are now as friendly as ever: However wee as you know have made all fitting preparations, & are upon our Guard; And upon some Intelligence of the *Rockaway* & *Masha-Peage* Indyns Plotting have again disordered them, & See rather lesse Cause of apprehending Troubles this way then when you were here, but would have all Watches continued, And soe none neglect their occasions abroad, as well as at home.

If any Troubles should happen you have by yo^r commissions, & Places of the Peace and Militia sufficient Power to call before you, disarm, & commit any that shall goe about, or (you suspect) would break the Kings Peace; not only Indyns but Christians; And if any resist to make use of all the fforce of yo^r Towne to reduce them Pray both you and *Southhampton*, send daily to see yo^r Indyns in their Plantagons, and then unlesse you discover very good cause, bee not at all alarm'd to hinder (as above) any yo^r Occasions. PETITION FOR LEAVE TO EMPLOY L. I. INDIANS IN WHALING.

To the Hono^{ble} *Eldmond Andross* Esqr Generall of all his Royall Highnes his Teritories in *America* And Govern^r at *New Yorke*.

The Humble Petition of *Jacob Schallenger* *Stephen Hand* and *James Loper* and others adjoyned in them in the whale Design at *Easthampton*.

Humbly Showing to your hon^r that y^e last Spring your petiton^{rs} appoynted or agreed to Joyn together in one entire Company for whaling For the carrying on of which theire Designe they agreed to Indent wth 12 Indians to man forth yo^r petiton^{rs} two boats they prepared with all suitable Craft thereunto. According whereunto your petiton^{rs} Seeing y^e Indians yearly employed by other men both of their own Towne *Southampton* and Elsewhere. And knowing Nothing but that they might assume like liberty and doe therein as themselves and others vsed to doe in former yeares They hired and covenanted with 12 Indians about June last to goe to Sea in their s^d boats with Craft this whale Season Soe Nigh at hand upon terms which your petiton^{rs} and y^e Indians agreed on: But it fell out soe that foure of the said Indians (Competent and experienced men) belonged to *Shelter Island* who with the rest received of your petiton^{rs} in p^t of their hire or wages 25d a peece in hand at the time of the contract as the Indians Custome is and without which they would not engage themselves to goe to sea as aforesaid for your petiton^{rs}: After all which p^rmises had passed your hon^rs Order came Downe to *Easthampton* (as they say) requiring all Indians to keep at their owne usuall quarters for winter though yo^r petiton^{rs} understand it relates onely to the Indians at Mr. *Pells* plantation: And some of the Towne of *Easthampton* wanting Indians to make up their crue for whaleing they take advantage of your hon^rs Sd Order thereby to hinder your petiton^{rs} of the said *Shelter Island* Indians One of y^e Overseers being of the Company that would soe hinder your petiton^{rs} And Mr. *Backer* warned yo^r petiton^{rs} Not to entertaine the said foure Indians without licence from your hon^r And although some of your petitioners opposites in this matter of great weight to them seek to prevent yo^r petition^{rs} from having those said foure Indians under pretence of Zeale in fulfilling yo^r hon^rs order yet it is more than apparent that they endeavour to break yo^r petiton^{rs} Company in y^t manner that

soe they themselves may have oportunity out of the other eight *Easthampton* Indians to Supply their owne wants.

The p^mises Considered And for that your Sup^{ts} Designe is utterly broke for this whale season if they cannot enjoy the help of the said foure Indians which will bee to their great loss and Dissappointm^t also for that there is now noe hope of supply by home Indians because all capable are by others already hired Alsoe it is hopefull in reason that foure poore knowne Indians belonging to a place soe neere adjacent will not nor can they Doe much harme to the Towne if reall trouble should come which is hopefull may not come, however not this winter season And alsoe for that your Sup^{ts} are like to bee Deprived of the pay before mentioned which they were necessarily exposed to imparte to the said Indians vpon Indentm^t with them Your Sup^{ts} most humbly and Earnestly beseech yo^r hon^r to take this their address and weighty concerne into your Serious Consideration And of your goodness grant liberty unto yo^r Sup^{ts} of the help of the said foure Indians this Imediate ensuing whale season according to their honest contract with them And alsoe bee pleased to vonsafe your Sup^{ts} an order from you to that effect. And yo^r Most humbly Devoted Supp^{ts} as Duty bindes them shall ever pray for yo^r hon^rs happiness etc.

Granted Novbr 18, 1675.

I yesterday received yours of the 25th in the name of your Whaling Company, in which you referr mee to *Stephen Hand* yo^r Constable, who tells mee hee hath nothing to say in y^e matter, and M^r *Baker* that though both the Indyans and yo^rselves did refuse to lett him know (as justice) the newes of either, yet out of respect to my Order, hee did not forbid you, nor send away said Indyans: and on the other I have seen two Letters from Cap^t *Silvester*, heavily bemoaning the Incouragem^t those Indyans have had in your Towne to the disquiet of others, at least himselfe & whole ffamily; soe that I feare you have not been so wary as you ought with the Indyans at such a time and juncture, in making such a complaint: One of you, though seemingly employed, will not own noe more than you have or doe, when yo^r Company are, which you ought not to have conceal'd from any, but y^e contrary, made Publick to all, as Occasion, And therefore I expect you shall without delay give mee a particular acco^t thereof, and of all matters and persons concerned, under yo^r hands, or some one in the Name of the rest, that Right may bee done to either; Assuring yo^r selves that as I shall not bee wanting to uphold the just Authority of the Magistrates & Officers, soe I shall bee as ready to heare and doe Justice to y^e meanest Inhabitant of the Govern-ment; & remaine

PETITION OF THE MAGISTRATES OF HUNTINGTON REFLECTING UPON THE COURT OF ASSIZES.

Feb 1, 1675-6.

To the Right Hon^r *Edm Andros* Gov^r of all his Royall Highness Territories in *America*.
The petition of the Constable and Overseere of the towne of *Huntington*
Humbly Sheweth.

That whereas wee received yo^r Hono^rs Letter wherein yo^r Hono^r was pleased to recommend to our consideration the case of those farmers now dispossessed of their farmes and that [we] should supplye them with suitable Lands to what [they] have now lost according to the Judgm^t of the last Court Assizes. Though wee acknowledge ourselves civilly & morally obliged to yield ready obedience to all yo^r Hon^r' commands yet that yo^r Hono^r may bee more fully informed in this matter wee humbly beseech yo^r Hono^r to take cognisance of these following considerations.

In primis The towne was not the first cause of the farmers setting forth neither did wee willingly consent to it but the consideration of the after inconvenience that would therby happen to the towne made us very averse to it and if the Courts decree concerning it could have been answered by any sum of money y^t wee were capable of paying we would rather have done it than to have set out any one farme but the Courts decree was absolute and to be performed in the space of three years, or else wee to loose the benefit of y^e verdict and Judgm^t.

2nd Neither did the Towne enforce any man to take up these farmes but they went out voluntary for their own (expected) advantage.

3^d Neither did the greatest part of the Towne (proprietors in those their comon Land on which the farms are built) sell the Land to these farmers at any other price then that the whole ten farmes should pay to the proprietors only what charges they had expended at Law in defence of their title to their Land which was an inconsiderable Sum for so much Land and some of those four farmers never payed anything and those that did pay have now demanded Some have received what they before payed, so that wee humbly [conceive] that the Loss of that Land now falls upon the first suposed owners and not on the farmers And one of those farmers hath a house & [lot] in y^e Towne and all other accommodations equall With ourselves but went out to take up a farm there for his greater enlargement. But we humbly conceive that the greatest Damage that those farmers Sustaine is in the Loss of so much Labour and Charge that they have been at in building, fencing, clearing and manuring of Land which is indeed very great. And M^r Smith only doeth reap the benefit of that Labor and Charge. And some of them had made some considerable beginnings before that order of the Court December 6th 1672. We also humbly beseech yo^r Hono^r to consider the ground of y^t order or means by which it was procured which was as wee conceive a false information of M^r Smiths by which wee conceive the Court was misled. And that his information was untrue we doubt not but we are able to prove to yo^r Hono^r Satisfaction. Yet the Court judiciously ordered that a fuller understanding of the peculiarities of it should be indeavored for in the Spring following and that a Respit should be made for the present till the spring and we humbly conceive that the intent of it was not to put a stop to the farmers proceedings for the settling their farmes was Absolutely Commanded by the former Courts that wee should not press so hard for our charges which were in pursuance of and that M^r Smith might cease [troubling] the Gov^r & Councell with his dayly petitions having before that order according to former orders made considerable beginnings upon their farmes.

Now our humble petition to yo^r Hono^r is that you will not inforce us to give out any more farmes to these men or any other! for we are very sensible of the intollerable prejudice the town sustains by them wee have been forced to set out already & adding more would bee a great addition to our present burthen wee have already tendred to those of them that have not already in the towne Equall with ourselves that wee will give them in the towne Land Equall with o'selves so far as wee are capable. Wee hope yo^r Honor will conceive our Tenders to bee rationall and not inforce our towne to settle any more farmes abroad which doeth & will prove very destructive to the well being of the towne.

Thus prostrating o'selves at yo^r Hono^rs feet for yo^r favorable acceptance of their requests as in duty bound wee shall ever pray etc.

(Endorsed:) Sent for y^e wthin y^e 12th Febr. 1675-6.

They are bound over to the next Assizes Feb. 24th 1675-6.

Thomas Warner, born in *Barbadoes*, young man, one of the two that came downe from *Albany* & had beene prison^r wth y^e Indyans who arrived here this morne being examined saith.

That hee was one of 9 psons that being sent out from *Hatfield* where the English Army lay to discover the Enemy but a party of Indyans way layd them & shott downe 5 of their Company & tooke 3 — of which he And his Comrade are two the 3^d they put to death, the 9th was an Indyan that came with them & escapt away.

That the Indyans lay still two dayes after they were taken & then a party of about 30 with whom hee was marched to a River North East from thence about 80 miles called *Oasuck*, where about a fortnight after the rest of the Army came to them, having in the meane time burnt two Townes. They killed one of the prison^{rs} presently after they had taken him cutting a hole below his breast out of which they pulled his Guts & then cutt off his head. That they putt him so to death in the presence of him & his Comrade & threatened them also with the like. That they burnt his nayles & put his feet to scald them agst the fire & drove a stake through one of his feet to pin him to the Ground. The stake about the bigness of his finger this was about 2 days after hee was taken.

That they continued at *Oasuck* sending out p^tyees about 5 weeks agoe & that at one of their meetings hee told 2100 Indyans fighting men whith 5 or 600 French Indyans with straves in their noses.

When hee was taken the p^ty were about 600 Indyans.

That the River Indjans rec^d those Indjans kindly furnished them with provision & some of those Indjans were with them that took him.

That there were 5 — or 600 — of the Indjans with straws in their noses, which they called the French Indjans.

That hee was made to tell the number by y^e Indjans themselves which hee did 3 times over. That there were about 300 horse of them. That they were most young men the oldest not 40 years old.

That they were supplied with powder from the French Indjans. That they s^d — their design was in y^e spring to goe to *Hartford*, *Hudley* & to *Conecticott* Col & having destroyed them to goe to *Bostinge*.... & then after these they w^d destroy y^e Dutch. . . .

1st, I know of no Commerce or Correspondence wth such Indyans, butt upon the Rumour of your Warre, (having made fitting preparations) when s^d Indyans did approach our Confines, were repulsed by our Indyans, the *Maques & Sinnekes*, and (as wee are informed) are retreated beyond *Connecticut River*, but am ignorant if our Indyans have any particular knowledge of you, which should bee best known to yourselves.
2^d & 3^d.

Having already taken fitting Orders, Hope the *Maques &c* will do their duties as they ought to this Government, on all Occasions, and cannot be subject to two.

4th Thinke it strange that you should aske to treat with any branch of this Government apart, and upon your own Ace^t, And Notwithstanding y^e Neighborhood & all my Endeavours unask't, that you have hitherto, and still keepe mee a Stranger to all the Concernes of your said Indyan Warre.

New Yorke, Apr. 10th 1676.

Councell of *Connecticut* Colony, according to our Instruecons and y^e Import of that Letter as agents sent from the said Councell, Wee doe in their behalfe desire.

First, That yo^r hono^r will please to inforem us of what Intelligence you have, as to y^e State & place of the Ennemyes of the Colony of *Connecticut*, and what Correspondence y^e Enemy holds with y^e *Maques & Sinnekes*, and how y^e said *Maques & Sinnekes* stand affected towards the said Colony of *Connecticut*, according as your hono^r is advertized or knoweth.

Secondly, That your hono^r will advize us what is best to bee done in Exciteing the *Maques & Sinnekes* to prosecute their and our Ennemys, according as is propounded in the said Letter, & what Present (if any) you will advize us to give them to that end.

Thirdly, if your hono^r advize us thereunto, That you will please to afford your Aide & Conduct to us therein, & an Interpreter, with what else may in your hono^rs prudence best effectuate y^e same.

Fourthly, What Liberty your hono^r will graunt us to passe to *Albany*, or any other Convenient place in your Governm^t to Excite y^e said Indyans, according to our Instructions to proceed against our Ennemyes.

LETTERS AND ORDERS CONCERNING SOUTHAMPTON AND SOUTHHOLD.

Southampton Sept. 28th 1676.

Hon^{ble} S^r

Wee the subscribed the p^rsent Constable & Overseers of this Towne hereby present to you our humble service etc. Wee have had some Intelligence by Mr. *Justice Arnold* very lately, That it is your hon^{re} pleasure, our Towne and *Southold* should send vp against the next Court of Assizes the reasons, why we take not out a Patent for our lands as some other plantations in this Jurisdiction have done: S^r wee always are and shall bee most cheerfully willing and ready to

render you duty and the best satisfaction whereof wee are capable. But in reference to y^e p^rmissed occasion being straightened by tyme we are bold to present yo^r here inclosed a Just copy of our reasons, which sometime vpon like Injunction our Towne & the Towne of *Southold* sent to Coll. *Francis Lovelace*, Esq^r then Govern^r, whoe (for aught wee know) accepted them, as wee hope yo^r Hon^r will: Soe humbly Craving yo^r p^rdon with our constant and sincere desire of your happines we rest.

S^t Your servants

JOSEPH RAYNER.

EDWARD HOWELL

JOHN JAGGAR

FRANCIS SAYER, JOHN FOSTER.

It hath pleased yo^r hon^r to require of vs the Inhabitants of *Southampton* to receive a patent from you for our lands w^{ch} wee have long possessed, and alsoe to Demand of vs the reasons of our delay: Our reasons, some of them, are these:

1. Because wee apprehend that wee have a just & lawfull right and title to our land already without such a pattent ffor at our owne cost and charge (and not at any others) wee transported ourselves into these forraigne parts, and here purchased our lands wee now possess of the Natives the then proper owners of them and that by the approbation of the Lord *Sterlings* Agent. And alsoe have with long and hard labour subdned parte of these lands with the perill of our lives especially in those times, when wee were few in number, but y^e heathen numerous.

2. Wee have possessed our lands (some of vs) about the space of thirty yeares without any man laying claime to them which is Esteemed a matter of some weight in law.

3. Because it seemeth a new and strang thing to vs that each Plantation on this Island should bee enjoyned to take a pattent for their lands: wee never heard of any such practice in *England*, or in any of his Ma^{ties} Dominions, that every Towne or Parish is enjoyned a pattent: although y^e English vnder the Dutch Governm^t have had their land-briefs.

4. We apprehend That where Pattents are made vse of the Termes and Conditions are expressed betweene him whoe grants and them to whome the grant is made, But it doth not seem to vs, to bee soe in the Pattents here imposed. But persons are vpon vncertaineties and at the Will of their Lords, to make such acknowledgments and payments from time to time as seemeth good to him to appoynt, soe that men know not what to looke for or trust vnto.

5. Lastly wee conceive that the Proclamation made by his Ma^{ties} Comm^{rs} here in the yeare 64 assure vs of as much, if not more then this Pattent will doe: the substance of w^{ch} Proclamation was this, That the people here should enjoy whatsoever Gods blessing and their owne honest labours had furnished them with. And after this Gov^r *Nicolls* gave vnder his hand that we should have equall priviledges, freedome and Immunities (if not greater) as any of his Ma^{ties} Collonies in *New England*: the truth is (to speake plainly) wee cannot bee free to pass over our owne proper rights to our lands into other mens hands and put ourselves and successours into a state of Servitude, which, if soe, whoe will pittie or helpe vs: But that wee may not bee further troublesome to yo^r hon^r at this time, wee humbly take our leave of you and rest ready to our abillities to render all such dues & duties as either the law of God or Nature binde vs to.

At a Gen^l Co^{rt} of Assizes &c

Vpon reading of a letter & pap^{rs} from the Constables & Overseers of *Southton* bearing date

NOTE.—The reasons given by *Southold* are word for word the same.

the 28th of Septbr. last & another without date (to the same Effect) from *Southold*, as Reasons for not complying with the Law in takeing out Grants, Patents or Confirmations for their Towns or Lande, The Law in 1664 & orders of Co^{rt} of Assizes in 1666 & 1670 relating thereunto being therevp read, The Co^{rt} give Judgm^t That the s^d Towns for their disobedience to Lawes have forfeited all their titles, Rights & priviledges to the lands in the s^d Townships & if they doe not by Monday fortnight next (being the 23^d day of this instant month) send up the acknowledgm^t of their past Default & Resolves & Desire to obey & fullfill the Law & the severall orders of the Co^{rt} of Assizes, for the taking out their Grants, Patents or Confirmations, as directed by Law, Then Execution to issue ont by Authority of this C^{rt} for the above forfeiture to the use of his Ma^{ty} without further delay.

All p^ticular p^rsons concerned have like liberty granted them & shall be rec^d on their Application to have Confirmations or Grants for their p^ticular interests according to Law.

By Order of the Go : & Gen^l C^{rt} of Assizes.

The Go : doeth further grant to signify:

Any private p^rson or p^rsons, that cannot make their application wthin the time limited, giving in their Names & Desires to the Justice of the Peace shall have further seasonable time for their Compliance herein.

By Order of the Go :

[October 5, 1676.]

Whereas the hon^{ble} Court of Assizes held at *New York* the 4th, 5th &c Dayes of this Instant October Adjudged our Towne of *Southampton* to send up by the 23^d Instant there resolves to fullfill the law for takeing out patent or Confirmation for our properties Interests & liberties wee the Subscribed the Constable and Overseers of y^e s^d Towne of *Southampton* In Obedience vnto our hon^{ble} and Esteemed Govern^r & the s^d Act of the Court of Assizes Doe in behalfe of our s^d Towne hereby Depute our friends, Mr. Justice *Topping* and Capt. *John Howell* with all possible convenient speed to make address to his hon^r Our Govern^r for such s^d pattent or Confirmations. Also to present the Townes service to his hon^r & to crave his p^rdon whereinsoever y^e Towne or ourselves have any way accidentally though not intentionally made Default. And since by devine Providence his hon^r is now in singular capacity to contribute to our Townes wellfare in respect of concernes both Civill Ecclesiasticall, To beseech his hon^r that in both respects hee would please to bee propitious vnto vs in this soe weighty concerne, since God only knowes, who may hereafter succeed him to Govern vs and ours. Soe shall wee and ours have cause to bee ever most thankfull vnto him and to God for him, and to said Deputies for their paines.

COUNCIL MINUTES. INDIAN AFFAIRS.

N. Y. Nov: 5. 1677.

Mr. *Meyer* & Mr. *Elsall* Int^rpret^{rs}.

This day *Tackpousha* &c as farre as *Uncheauke* on behalfe of themselves & Indjans come to the Go: to see him againe before hee goes, to wish him a good voiage.

Tackpousha & son first speake.

They speake about *Cow Neck*, That there have been severall proposalls to buy that land by y^e Gov^r or part of it, That they are not willing to part with or sell all, but would part with one halfe. The Gov. now goeing away they say he may dye & another come, that knows nothing of this, therefore desire somewhat might bee left to make it knowne.

Another Indyan speaks, hee is the Sachem of *Seaketaulke* named ———. Hee speaks about the beach which the *Huntington* men offered to buy for the convenience of their fishing for Basse &c, they refused to sell or hire it, but would let them have it for 6 yeares, now they have had for a yeare & halfe longer & have given them nothing, nor come near them about it.

Tackpousha son speaks about Mr. *Smiths* pretences to the South meadows, that nothing has been p^d for it by them nor any bought that they know of.

Another Indyan speaks. About *Seatacott*. Hee saith that formerly Gov. *Winthrop* came over upon the Isl; & they gave him a piece of Meadow, hee being a very good Man; but hee is now dead and did not buy any Upland & the Meadow was given, yet — *Dayton* & those of *Seatacott* clayme both Upland & Meadow & *Dayton* hath built a house upon y^e Upland.

The Sachem of *Rockway* speaks.

About some people speaking to come & plant upon their land & fence it in, which they doe not thinke convenient, to prevent trespasse &c.

Another Indyan of *Unchechaug*.

Hee saith, that the English at *Seatacott* doe say that they bought their lands of *Guy* the Sachem, who never acquainted the other Indjans concerned therein. They aske if that bee well done.

That *Guy* hath also made a proffer to Mr. *Woodhull* of a great tract of land from about 2 miles from the Towne to y^e *Wading Creeke*, but Mr. *Woodhull* replied what should hee doe with so much, a small piece to plant would serve his Towne. Mr. *Woodhull* told him hee would pay for w^t hee had & he would goe to y^e Go: about it.

They say they went to Mr. *Woodhull* & desired him to pay nothing to the Sachem *Guy* alone & forewarned him they being also concerned in the Land.

They say, that the Indyan *Mayher* & the *Sequetauks* Sachems son have as much to pretend to the Interest of the Land, that *Guy* pretends to sell, as hee hath or more, though not present.

The Go: tells them: It is well, they are come & is glad to see them.

About *Cow Neck* all matters to bee as they are & they to have no wrong & a Mein^m to bee taken about it, though the Go: shall bee absent.

About the beach, the Go: hath heard of it, and that they shall have no wrong, & if anything is due, the Go: hath written to Mr. Wood about it & supposes it will bee made good, if not, they have had patience so long, they may have it for 6 m^e longer.

About Mr. Smith & the Meadows at the South, hee was here about 3 weeks agoe, for a Confirmation of their land, & pretended a right there, but the Go: would not doe anything in that of the South, hee having not time to examine the matter, but confirmed the rest.

About Gov. Winthrops land spoken of & Daytons settleing upon it, Its thought hee is not upon that land, but upon other Seatacott lands on which hee hath beene some times. The matter not having beene spoken to as yet, if Mr. Woodhull cannot accommodate y^e matter betwixt them, let it alone till the next summer, when Care shall bee taken about the matter.

About Rockway. There are some persons, who pretend to land there, however the Go: will send to them to forbear settling or planting so neare them to avoyde disputes & that they shall take care that they be sure, what they settle upon is their owne & no other settlem^t till spring.

About Guy. The Go: knows not, but hee was put in by them, & for the land given or sold it was publickly done, yet Mr Woodhull did offer & told them, he would give satisfaction in reason for what he should have, and the Go: would have no land to bee disposed of but publickly & acknowledged before a C^t or the Gov.

The Go: having answered to every p^ticular, They are told, that as they have had freedome to goe to the Magistrates or Go: upon all occasions, so they may still, but now the winter is coming on, for small matters its better, they should stay at home or apply themselves to the next offic^s and in the spring or summer order shall be taken to give them right. In meantime all Offic^s remain as they were & the same Care shall bee taken of them.

A band of Seawant * was presented. The Go: hopes, when hee comes back, to find them all well &c.

COUNCIL MINUTES. SETTLEMENT AT NEW LOTTS: CORNBURY & MADNANS NECK; MINISTERS HOUSE AT FLATBUSH.

To the Highborn, Noble Lord, The Governor General, Knight of his Majesty's Order &c.

Very humbly show the undersigned inhabitants or proprietors of the new allotments in *Midwout*, that for want of land to cultivate and gain our living, we have been compelled, to purchase of the old inhabitants of *Midwout* the said new lots, which we bought free and unincumbered, the Lord's right excepted, for a considerable sum of money, believing that the Lord's right meant only the *Country rates* of one penny in the pounnd. But afterwards the said lots were charged with a yearly quitrent of one bushel of wheat, of which the sellers never informed us and which cannot be demanded from us now.

We are therefore compelled, to represent very humbly to your Honor, that the old inhabitants of *Midwout* act very improperly in petitioning your Honor for these new lots, because we and other poor people needing land are in their way, and as soon as they had obtained them to sell them to us for a considerable sum, concealing however the yearly quit rent of one bushel of wheat, with which they will burden us now.

We have always understood, that it was the intention of his Royal Highness, our sovereign Lord, and of your Honor, to grant the land to persons, who needed it, but not to people, who had abundance of it and who, as soon as they obtain a grant, sell it and put up the money. It is true, we have purchased the land and contrary to our contract we cannot go to pay the purchase money, although it falls hard upon us, to put new land into good condition and pay so much money to people, to whom it was not granted formerly nor now. If your Honor deems it advisable, we shall pay the purchase money, but we hope, that your Honor will consider the matter and allow

us some relief in regard to the price of the land, or at least release us from paying the quitrent with which the people, from whom we bought, desire to burden us. Which doing &c &c.

New Yorke. At a Conneell Jan : 13th 1679-80.

Vpon the petition of *Rem Jansen, Abraham Du Toict* & others now Inhabitants of the *New Lotts* not long since granted to others their Neighbours of the Towne of *Midwout* als *Flatbush*, That having made purchase of their said land for valuable Considerations, free from any other charge, There is since demanded of them the Quitrent of one bushell of wheate yearly quite Rent, whereof they heretofore had no Cognizance, nor was it mentioned in their purchase, Wherefore desire Reliefe therein.

Resolved, That an order bee sent to the Const^{ble} of *Flatbush*, to give notice to all those, who had Grants for the *New Lotts* aforementioned, or who are now participants therein, that they appeare in this place on Saturday come senight next each in the forenoone to give acc^t what Improvem^t hath been made by themselves or others thereon, when the pet^{rs} are likewise to appeare, when they may have a definitive answer to their petition, In meane time to proceede in their improvem^{ts} on said Land as formerly.

To the Honorable S^r *Ed. Andros* Knight Go : Gen^{ll} &c.

May it please your Honour : Whereas it hapens a difference or dispute between Mr. *Hicks* & Mr. *Cornell* wth myselfe Concerning a tractt of land formerly belonging to Mr. *Dowthie* a full & equall third whereof I have bought of the said *Dowthie* as by the transport and patten may appeare part of which my said purchas or equall third is by the said Mr. *Cornell* & *Hicks* demanded or Claimed though it bee my right & propertie, I therefore humbly pray for a faire desision of the said Contriversi that your honour would be pleased to apoint fit & indifferant persons to measure or survey the wole that each may quietly haue & enjoy his right which is the desire of your humble servant.

The 19th of Januarie 79-80.

WILL^m HAVILAND.

To his Excellenc^e S^r *Edmund Andros*
K^{nt} Seigneur of *Sausmarez* Lieu^t and
Governour Gen^{ll} under his Royall High-
nesse of all his Territoryes in *America*.

The Humble Petigon of *William Haviland*
Sheweth.

That your Excellences Pet^{rs} Brother in Law Cap^t *Thomas Hicks* did in the yeare 1666 obtaine a patent from Governour *Nicolls* for a certaine neck of Land called *Madnans* Neck within the Limitts of the towne of *Flushing* the which by consent & agreement was divided into equall thirde between him M^r *Richard Cornell* and M^r *Elyas Doughty*.

That presently after the settlement being twelve years ago (the Pet^r bought M^r *Doughtys* interest in his thirde of the s^d Land and hath inhabited thereupon) or part thereof ever since but finds himself encroacht upon by his neighbours M^r *Cornell* & M^r *Hicks* and is debarred by them

of having his due proporgon of the thirds of s^d neck so purchased by him there being only three Lotts laid out, besides their own accomodagon, and the rest left in comon which if divided might bee better improved. That your Pet^r hath often desired a division might be made of the s^d neck so that each proprior might know his share and proporgon the which hath been promist but hitherto delayed and neglected.

That now his neighbours M^r *Cornell* and M^r *Hicks* having settled their son in Law *John Washborne* on one of the three Lotts last laid out M^r *Cornell* is settling his other son in Law *John Laurence* on the Comons of s^d neck upon pretence of purchase of other lands thereby which will bee much to the damage and prejudice of the Pet^r.

Hee therefore humbly prays your Excellence That a stop may bee put to the intended settem^t of the s^d *John Laurence* in that place, & that some person or persons bee appointed to make an equall division of the s^d neck between them, so that your Pet^r bee not frustrated of his Right and his Labour ou s^d Land.

And your Excellencys Pet^r shall Pray &c.

WILL HAVILAND.

To the Right Honorable Sir *Edmond Andros*, Governor
Generall under his Royall Highness, the Duke of *York*,
of all his Territories in *America*, the 24th of Jan^y 1679-80.

Humbly show the undersigned Constable and Overseer of the village of *Midwout*, that they are greatly injured by the erection of the ministers house, so that much of the money earned by them is not paid by the contractor and whereas the inhabitants of *Breuckelen* are bound to perform one fourth of the labor, but defer it from time to time, although we have done everything, to live with them in friendship, Therefore we humbly request your Honor, to give directions to some Justice of the Peace, who shall settle the matter amicably without legal proceedings. Which doing we are and remain

Worthy S^r and my very good friend, I thank you for your many favours in that you was a meanes to gine his honor a rite vnderstanding of my busines & that things are in a great mesure to a period; there is only this that obstructs: the Line beinge run according to the patten & agreed on by the men appointed, the line takes in a small parcell of land that Mr. *Cornwell* clames vnder a pretence of a purchas of a man of *hemsted* but it was allwaies claimed Land owned to the patten: he had made that purchas he sayeth thinking that all was better than one third part: this is & hath bin the great disturbance so that I bage the favour of you as to be assistance to me that the Land may be divided as the line is run according to his hon^{rs} order & in so doeing you will be helpfull to your pore distresed friend & who is yo^r most obliged servant to my pore power.

PETITION FROM JAMAICA FOR REMISSION OF A FINE.

Jamaica y^e 3^d Augth 1680.

To the Right Honorable S^r *Edmun Andros* Esq^e

Lientenant General to his Royal Highnes his Territories, Governour of *New York* &c
We the Inhabitants of *Jamaica* by these presents make our application ; humbly requesting, That whereas there was a fine inflicted upon us by y^e worshipfull Court of his Majestys Justices held here in the North Riding the last June was three years since upon y^e occasion of some irregularity, & disorder (tollerated by y^e Constabl then in being) about y^e choice of a succeeding Constabl for y^t ensuing year; your honour would be pleased to consider y^e matter with as much Lenity & Charity as your wisdom & honour will permit and if it may be to stay y^e execution & to Remit y^e fine before it be actually levied; which we y^e rather persuade ourselves (upon our humble request) your honours Candor & ingenuity of spirit (in like cases experienced) will readily doe ; In as much as it was our first offence in y^e kinde, & y^t not altogether voluntarily nor in y^e least contempt of authority or disloyalty of spirit; but the case then emergent being extraordinary & the Law not providing a clear & full directory therein, for according to y^e exprs of y^e Law we were providentially uncapabl of any choice, one of our overseers out of which y^e choice should have been, was then upon his Removal to *Hemsted* : so if according to our apprehensions there was a necessity of adjoining either all of y^e overseers then standing with y^e single person to make a subject of Election ; or else a necessity of choosing out of y^e whol body of y^e Towne; the latter of these severall of y^e meeting inclined to, thinking it warrantabl upon y^e account a former Law sometime allowing that liberty of choice, which y^e then Constabl did suffer to proceed in & upon y^t instant emergent & unusuall occasion : yet with this proviso viz : y^t authority should see meet to Ratifye their choice but whether of these two ways (y^e circumstances of y^e case necessarily inforcing one of y^m & the law being silent) were most acceptable or regular we were unresolved untill we heard y^e mind of y^e Court which is in itself sufficiently acceptabl to us.

Moreover we are verrily persuaded & we hope your honour hath not since y^t time had nor shall have for the future cause to judge any other; but that the principall end of inflicting y^e penalty is as fully & perfectly attained as if the Execution were already levied & that your Honours Clemency (where without wrong to any Justice, honour & authority may be secured) will be to us a stronger tye of cordiall loyall & cheerfull subjection then y^e greatest severity. The Levying of an Execution promiscuously without aparent injustice to some in this case cannot be done without great difficulty, if possible. The remitting of y^e fine will be very acceptabl to us, easy & pleasing to your honour, whos glory is to pas by an offense & we hope not unprofitabl to either; if your Hon^r shall see cause to grant our request therein; however we shall rest in your Hono^r pleasure & as we are always bound in duty shall improve our utmost interests in serving you with our prayers.

PETITION OF L. I. QUAKERS FOR REMISSION OF A FINE, IMPOSED FOR CONTRAVENTION OF THE MARRIAGE LAWS.

To the Governor and his Councell at *New York*.

The address of *Henry Willis* and *John Bowne*, Concerning the proceedings of a Court of Sessions against vs, who said they fined us 10lbs a peece for suffering our daughters to marrie

contrary to their law, which proceedings we are satisfied is without precedent and we can count it noe lesse but a mistake or hasty oversight and though we have endeavored for its removal yet Execution is eished forth and *Jos. Lee* vnder shiref hath seized *Hen: Willis* barne of corn and since taken from *Jo. Bowne* 5 good milch cowes and drove them away by night and kept them powned from food most of two nights one day and part of a day that neighbours was generally troubled at it. Now in simplisity, we doe seriously entreat all that may be concerned herein seriously to consider it and in the coolness of your spirits without anger or hard thoughts truly to waye it in the balance of Equity where the witness of God may arise in every Contience to testifie, whether If such things should goe on and be proceeded in it would not be to the rewenating of families and to the kindling of Gods anger against a place or people which we truly desire may be prevented, by takeing away y^e ocation, wherefore we make our address to the cheife in authority knowing that Magistrates authority is to preserve mens persons and Estates, but y^e prerogative of the contience that belongs to God and we dare not but yeald obedience therevnto as God hath perswaded our harts & we doe not act (as sometimes resented) in stobourness obstainaney or contempt of authority but in simplisity haneing Gods feare in our hearts that we may keepe our contiences clear before him from whom we receive strength to vphould vs in tryalls and exercise and we earnestly desire y^e Lord may perswade your hearts, vnto whome we are now concerned, that y^e may remoue y^e cause of this our address and open that eye in you that can see vs as wee are, who can pray for those thats in authority that vnder them we may live a peaceable holy and godlike life.

Y^e 4th of y^e 7th mo: 1680.

With which award yo^r Appell^{ts} & the s^d Inhabitants of *Flatlands* were well Satisfied & Contented & to Signifie such their Content three Several persons in behalfe of each Towne Subscribed unde^r the s^d Award that they did approve allow Ratifie & Conferme all & every parte thereof, And yo^r Appell^{ts} doubted not but that y^e same would have been performed fulfilled and observed accordingly as they on their partes all wayes have been and still are ready to performe & keep the same. But now soe it is, may it please yo^r Hon^r, That Notwithstanding the s^d Award two of the s^d Arbitrators namely Capt. *Rich^d Stillwell* & *John Henrick Bryne* the next morning after the s^d Award without any power or authority soe to Doe (all power Submitted to them being Determined on Publishing of their said Award) went and Staked out y^e boundes of yo^r

Appell^{ts} meadows, which when yo^r Appell^{ts} were Informed found the same to be bounded Contrary to said Award and only by the s^d two persons in manner aforesaid (who never were Impowered to act alone) could not acquiesce therewith but was always & Still is Ready to performe the Award published by the s^d foure persons, however the s^d *Rich^d Stillwell & Jno Hendrick Bruyne* Giving under their hands what they had Done And that y^e same was according to y^e true tenour purporte and meaning of said Award (though no such thing mentioned therein), the Inhabitants of *Flatlands* took Advantage thereof and att a Court of Sessions held att *Gravesend* y^e 18th June 1679 Complained of yo^r Appeal^{ts} for Trespassing on their Land Contrary to an Award & Agreem^t where none Appearing for y^e Appeal^{ts} And the s^d paper or writing signed by the s^d two persons being produced the Court fined yo^r Appeal^{ts} 10 lbs for not Observing thereof, And att the same Court in Decem^r following on the like Complaint, It was ordered, That if yo^r Appeal^{ts} doe not forthwith pay the said fine Execution to Issue forth for y^e same as by y^e Records of y^e s^d Court may appeare (when as in truth if any trespasse or wrong was, it was done by the Inhabitants of *Flatlands* upon yo^r Appeal^{ts} who had Ineroached upon yo^r Appeal^{ts} Land contrary to s^d Award as they hope to make appeare to this Hon^{ble} Court From which judgin^t yo^r Appeal^{ts} appealed for Reliefe to y^r Hon^r & this Hon^{ble} Court of Assizes & now humbly prosecute the same, Praying to be discharged from the s^d fine & that such further order may be made herein that the s^d Award under the hands of the s^d foure persons Arbitrat^{rs} may be punctually observed as a finall end of all Differences between them on this accom^t And yo^r Appeal^{ts} have Satisfaction for the greate Damage & Costs they have Sustained by the Occasion of the Def^{ts} needlesse Complaints.

And yo^r Appeal^{ts} shall ever pray for yo^r Hon^{rs} Prosperity.

A Copie given the Const^{ble} of *Flatlands* Sept. 28 1680.

To y^e Right Honorable S *Edmund Andros* Kn^t
&c and y^e Honorable Court of Assizes.

Whereas y^e Appellants have entered in their declaration y^t y^e Bounds of Middows where staked out by two of ye Arbitrators out of y^e four chosen by y^e partyes who had no power to act alone, But only wth y^e Consent of all ye partyes Authorized to be Concerned to Determine y^e Difference. May it please the Honorable Court, y^e action is soe, that the partyes Concerned in y^e question where selfs present or y^e most part of them, who did show and see y^e Bounds staked out by ye two Arbitrators & if there was anything committed not to y^e satisfaction of y^e partyes is not done by y^e Arbitrat^{rs} but rather by y^e parties Concerned, who should have Contradict y^e Arbitrat^{rs}, But finding nothing they did allow in that nature of their actions, and being indifferent men supposed they have acted to the best of their knowledge to doe just between both Townes. And besides y^e defendants doe humbly desire of y^e Hon^r and this Honorable Court the Appellants may prove their right and title of that Middow, whether they have not staked out moore already as is their owne & not to be desirous to possess y^e right & Title of y^e Towne of y^e Defend^{ts}.

The Defend^{ts} having been allwayes ready to obey y^e Ord^{rs} of Court and to stand by y^e Award of y^e Arbitrators, doe think, they are without Cause molested—

Therefore y^e Defend^{ts} humbly craves y^e Cause may be dismist & y^e Appell^{ts} to pay Costs of Court, and y^e Depon^{ts} shall ever pray.

COUNCIL MINUTES AND CORRESPONDENCE CONCERNING THE L. I. INDIANS.

Y^e Complaint of *Southampton* against *Shinnecock* Indians as followeth :

Imprimis In that y^e s^d Indians have broken their first Covenant or an article of it least : y^t Indians do wherever they planted any land in the bounds of *Southampton* the inhabitants of not Complain. *Southampton* was to fence one half, the Indians the other half, but now they can be brought to no regularity therein notwithstanding all indeavors that have been used from time to time.

2^{ly}, y^t by Covenant they were to keepe no great doggs or if they should keepe any upon the first complaint of y^e inhabitants of Injury done; they did ingage forthwith to kill there doggs; but now quite contrary to Covenant & the termes of amitye betwixt us they doe exceed in great number of doggs & when they are called upon to kill such doggs they utterly refuse & doe norish & bring up kennells of y^m y^t are more preiudiciall then al the wolues y^t are about Indians to keepe no such dogs, except by Covenant & if the English at any time ocasionally doe destroy y^m, though they find such Doggs killing there creatures they are very angry & give out threatening to y^e Sachems, Constable or Officers. speeches as if they would do somewhat more then they then expresse.

3^{ly} They have short many of our horses & some they buried in the ground which were found by y^e English to y^e great detriment of the inhabitants & also tending to the breach of peace betwixt us.

4^{ly} They are a people y^t have no government nor Roads (?) * * * there (in case of iniury dun to them) * * *

5^{ly} it is the humble request of the towne that they may bee enforced to plant in some convenient place & to fence as aforementioned their s^d halfe of y^e fence & doe it substantially ; the neglect whereof hath bred such strife & disturbance amongst us.

November 20th 1680.

JOHN HOWELL

for & in the behalfe of *Southampton*.

December the 10th 1680 on a hearing of the Indians *Jenings* & *Howell* from *Southampton* Ord^{rs} taken for the above & sent to Mr. *Topping*, Justice.

Honoured S^r*Southampton*, December 6th 1680.

Haneing this opportunity I thought good to acquaint your Hon^r that diuers of my neighbours of *Easthampton* have bene wth mee Complaining that they are like to bee much disappointed and dammitied in theire businesse of whaling by y^e decites and unfaithfullnesse of y^e Indians with whome they did contracte the last spring for their service in whaling this present season, who notwithstanding said contracts vnder hand and seal doe now betake themselves to y^e service of other men, who doe gladly except them pretending som former ingagement by w^{ch} they intend to

hold them, soe y^t y^e Indians haueing receiued goods of one man in y^e spring vpon y^e account of whaling and now againe of another to fite them for y^e sea leaue their masters to quarrel. Now may it please your Hon^r the agreede parties desire releif and to that end a speedy hearing of the matter in controuersy relating to the premises for the Court of Sessions is at such * * * will be neere if not * * * this yeare which may probably be greatly to the preiudice of y^e wronged parties, Sr, my request therefore is, if it please y^e Hon^r, and y^e thinke it good, that the Constable and Overseers of said *Easthampton* mite be put in to posture to take Cognizance of all differences of this nature arising within the Towne and accordingly to here determine & execeute when there is occasion, which is all at present from your Hon^{rs} vnworthy, yet very humble affectionate servant

JOHN TOPPING.

For Sir *Edmund Andros* Knight

&c &c

New Yorke the 10th Decemb^r 1680.Mr Justice *Topping*.

Yours of the Sixth Instant by Mr. *Jenings* who came with the Indians received And haue fully heard & Examined them with your Townesmen Mr. *Jenings* and *Howell* ab^t the Complaint Left by Capt *Howell* in behalfe of your Towne and what you write, And finde that the Indiyans are well Satisfied to kill and Putt away their great Dogges Except by fauour to the Sachems Constable or officers they each keepe one, to be Accountable for any hurte or P^rjudice they shall doe, The Indiyans make noe complaints of what past Concerning their Corne fields, but will maintaine sufficient Fence and P^rserue their Corne on their part as agreed in Default att their owne Perrills. The Christians ought not to make Contracts with the Indians under hand and seale but for p^rsent Service Hyre or agreem^{ts} may bee acknowledged before the Justice or the Constable and one Overseer att the Least and not trusted or payed before hand and being soe if any shall P^rsume to hyre againe such Indyan before his first Contract performed Such latter Contract to bee voyd and the Christian soe doeing to bee proceeded ag^t for Damage to the first Contractor after notice, The Towne Courts to iudge of that or any other matter, According to Law or the Justices, to heare and determine any matter relateing to Indians as hath been usuall. The late rashnesse in your private Townesmen killing the Indians Dogges as lately Desernes a Sever Checque, w^{ch} your Care in Preuenting the Like for the Future must Excuse, and in noe Case suffer any to bee their owne Judge or Right themselues. And hope then you will not bee wanting in yo^r parts for yo^r Continued good and welfare. I haue only further to add and recommed to yo^r and Townes Consideration the greate Trouble Care and Expence of Mr *Jenings* and Mr. *Howell* About this your Publique Concerne, for which they aught to bee well Satisfied. Remaine

Your affectionate Friend.

C. M. INDIAN AFFAIRS AND RELATIONS WITH CANADA; LONG ISLAND AND HEMSTEAD.

At a Council held a *ffort James* in *N. Yoke* Octobr^r y^e 4th 1683.

Pr^{es}ent. The Governo^r, Cap^t *A. Brockholls*, Mr. *Jfr. Jlypsen*, Mr. *Step^b V. Courtland, J. Spragg*.

The Governo^r acquainted the Sachem of the *Maquase* that the reason he Sent for them was to tell them that the King & his R^l H^{es} had a great kindnesse for them; & that he himselfe would be gladd to have a good correspondence & friendship with them, as other Governors before had, & spoke to them to trade no more with the *French*; nor goe there if sent for, without leave of this Government & to permitt no *Frenchmen* to live amongst them except the Jesuits & each of them a man & such as shall have a passe from the Governo^r of *New Yorke* & a seal (of what they are to have a mark in wax) & that they strive to bring as many of their friends, as they could from the *French* Government, & to make peace with those Indians they now warre against, & trade with them, & if it be thought fitt the Governor will send one with them; & that they bring the trade to this Governm^t the Governo^r further required of them to tell him, what

the *French* said to them when they sent for them to *Canada*, they are also to acquaint the rest of their neighbours with what hath been now imparted to them; the Governor promising them that he will allways look upon them as his children, & treat them with all respect & kindness accordingly, as by particular Order from the King of great Brittain, & his R^y High^{ness} our Master.

At a Council held at *Fort James* in *New Yorke* Octobr.

Present. The Governor, Cap^t A. Brockholls, Mr. *Jfr. Jfypsen*, *J. Spragge*, Mr. S. V. Cortland.

The Indians being asked if they were only for the *Maquas*; they answered yes; & come from the three Castles of the *Maquas*; their names were, *Odianah*, *Rodee yo uon drah Nenok*, *Ogar Hugadah* the names of the Queens were *Cauichach*, *Onyo dah tra raa*; the first produced a Wampum girdle, & presented it to the Governor to Show their Sorrow for the death of Captain *Clute*, they said he was a brave man & treated them as they are now treated in this fort, & was all one as a *Maquas*.

The Governor returned them thanks; & said the successor of *Clute* should be as kind to them as ever he was; & they shall receive all the kindness from this Government, as if they were Children of so great a king, as his Ma^{ty} of England, they thanked the Governour for the title of Children, The Governor accepts their tokens

The speech of the Sachem *Odianah*.

That as soone as they received the message, they came hither, & are very gladd to be so well received, and that his Ma^{ty} hath so great a kindness for them: as for the Indians that Are gone to *Canada*, they are very gladd his hono^r speaks of it & they will endeavour to get them back againe, they desire the Governors assistance in it that they may go hand in hand to promote it, & they doubt not to get them back againe.

That when they were sent for hither they did not know what might be proposed to them; & for *Corlueurs** proposition to make peace with the Indians they waragainst they say, that as soone as they come home, they shall have a Generall Meeting of all the castles & will tell them what is here proposed, and doubt not but it shall be effected; for the former Governor said the same; & they obeyed & made peace, & why should not it be also at this time performed, for they have been allways obedient to this Governmen^t that his Hono^r having told them to have an eye to the *Frenchman*; they give his Hono^r their thanks and will allways have an open eye to those people and they desire if any thing happen to be informed for they are and have been allways belonging to this Governm^t & expect no favor from the *French*, but will put themselves under his Hono^r protection that the Governor having wondered why they bring so little Beaver & formerly did bring so much; & that it may be the Governor thinks they carry it to some other Governm^t they answer no they do not, they never had so firm a friendship with any, as with this Government but the true reason is they having a warre with other Indians, those Indians would not dare to come on their hunting places; but now they are all in peace; the Indians catch away the Beaver so fast that there be but very few left. His Hono^r having told them they should harbour no *French*, but the Jesuits & each of them a man; they answer Will never suffer any stragling *Frenchmen* amongst them, but those Jesuits who are very good men and very quiett; & yet if his Hono^r shall please, they will send them away also; & that none hath had any land from them & they are resolved never to sell or give them any, or any others except the people of this Governmen^t that, they were sent for by the Governor of *Canada*; who told them they should make a peace with all the Indians and that the Governor took their axe, & threw it into the Water, but did not bury it because if it had bin buried it might have been taken up again;

* The name given by the Indians to the English Governors of N. Y. — See N. Y. Col. Doc. XIII, p. 499. — B. F.

& that nothing shall come to their ears but they will acquaint this Government with it, & expect the same from this Government.

They Also say the Governor^d of *Canada* promised them to have free passage upon all Rivers & Creeks, & said they should suffer no other Indians to have the same, and the Governor took them or his Children, & told them they should be all of the *French* Religion.

That, all their land is under the Governm^t of his Roy^{al} High^{ness} that there has been some strangers at *Albany* to buy the *Susquehannah* River,* but they have Considered & will not sell it to them, except by the partienlar leave of His Hono^r.

The Governor desired them to make up the Difference, amongst themselves about *Susquehannah* River in a Civil & peaceable way, that being don to send word to the Governor & that then he will give them further Orders about it.

The Sachem spake for himselfe.

That one *Arent Van Corlaer* bought all *Schannectade*, & payed them for it, but now there be some who have bought only the Grasse, & pretend to the land Also, they say Also that they have bought the first flatt, but that is not so, for it belongs to *Aeques Cornelissen*, who is to have it, & more also, for he is of their people, & it is his Inheritance, that there are writings made of a sale of land but It was never sold but only the Grasse tho it may be some drunken fellows may have made som Writings without their knowledge.

That they have only bought the grasse & are now going to live upon it, but they ought to pay for the land as well as the Grasse, & that they had given some to that woman (*Hillah* & another *Leah* who have the propiety of it) the other have only the grasse.

That, now he has declared this matter he desires notice may be taken of it, & says that shame shall never com upon him, as to be found in a lye, that they came down in an open boat, & suffered much Cold therefore desire a Sloop up w^{ch} is granted.

The Governor desired of them as they are friends; not to trade with the *French*, or any other Nation; excepting this province & the Indians who live afar of as the *Octogymists*, & other remote Indians, as well to the Southward as the Northward; & that they will give them free passage to com through their Countrie to trade hither, & that the Governor would be very gladd for them to bring one or two of the most Considerable of them hither; & that they will use all their endeavours to persnade them to trade with this Government, and take an Answer as soone as may be what the Remote Indyns, & partienlarly the *Octogymists* say to them

that no Christians be amongst them or trade with them but such as have a passe from the Governor under his seale of which he will give the Impression; & that they are to give notice of what is don there to all the other nations who are friends to them; that they when they bring their friends from *Canada*, the Governor desires it may be in a civil quiett way; & not by force or in a warlike manner,
